

# Place in Space

Transcribed by Adam McLean from MS. Sloane 3797, folios 3-5.

## Place in Space the residence of Motion, or the Secret Mystery of Nature's progress, being an Elucidation of the Blessed Trinity. Father - Son - and Holy Ghost. Space - Place - and Motion.

Space, Place, Father & Son  
are inseparable fixed & immoveable.

Motion ye Holy Ghost  
Is that which brings all things to the Blessed determination  
of the Dei, as in the Gloria Patri, Filii & Spiriti Sancti, etc.

Space is the Circle of Created World  
Space is the Place wherein this Engine's rolled  
As Place a Center circled in by Space  
So Space ye Circle is of place's place  
Place is a Center yet Exchange of Place  
The Lineal motion is to Space's Space  
Place in it Self is ever fixed and still  
Which doth ye Vacant Space of Spaces fill  
Space can not Move because it all Contains  
Yet Space is Motion, place where Power reigns  
Nor Space nor Place do ever Stir nor Move  
Yet place in Space is restless Motions Grove  
Great is the Magic of this motion's race  
Motion in Space doth pass from place to place  
Thus Motion caught in all including Space  
Standing in centers moved to Circle's place  
Motion is that which runs the world about  
Yet it a place is never found without  
Place it is Still from Motion never free  
Move and not move how can it ever be.  
This riddle placed in Space of mental motion  
Is plane to sense without erratic notion  
Motion's confined to various centriq place  
Never to pass ye boundless bounds of Space  
Thus each beginning doth its end contain  
And End once made it must begin again  
For what was done by one Creating Word  
Must by this Three in one be understood

If any ask how this could ever be done  
Tell them the word is Father, Ghost and Son  
Before that time was made Creatural  
God in himself was the great all in all  
But to extend the virtue of his power  
Of nothing all things made for his one bower  
Thus was the great abyssive might  
Formed into Creature, whence produced was Light  
This light to Nature joined both firmly stood  
As primo genitors and to beings food  
The product of this all including one  
In Triple Creature most divinely shown  
Prangeth it self by measure of formation  
To be the being's being of Creation  
Thus were the heavens and the Earth begot  
Both out of darkness unto Light was brought  
From whence was made twixt one and t'other  
Father, & Mother, Sister, & Brother  
Four in number as the Elements are  
Conjointly work to procreate their par  
Fire is the Father, and the Mother is air  
Brother and Sister, Earth and Water, are  
These in their number weight and Measure  
Make of this world the hidden treasure  
Joined them thro light let them unite together  
That they may live in love and be for Ever  
So is the Quatrant four in one  
The Matter Form and Essence of our Stone.
