Preface

The present work is a compilation of occult knowledge acquired from diverse sources of the Ilmu Al-Hikmah, or the Islamic occult tradition here in Indonesia. The majority of these teachings represent the legacy left to us by the spiritual Islamic adepts of the Middle East. Elements of Indonesian Shamanism and Kejawen may also be found in the occult knowledge presented in this ebook and others of these series. The latter tradition is one of the other major occult streams to be found in the island of Java.

Most of the occult teachings of the exercises, rituals, rites, spells, etc., to be found in these series of ebooks have been gathered from the numerous metaphysical Islamic lodges here in Indonesia. Not all of these are spiritually oriented, some are decidedly "black" in nature. We trust that the readers of these ebooks are spiritually mature and will not use or apply these teachings for any negative purposes. We present them basically for educational purposes and as literary curios. We hold no

responsibility for their misuse or abuse.

This paper is especially directed to the seasoned-practitioner of magick, as the various keys to making them work will not be explained herein. The keys may be discovered through personal search, study, contemplation and experimentation. It is said that by simply possessing the keys any system of magick may be successfully applied. The compiler believes that the practitioner of these teachings would have a good percentage of success in their application with the appropriate knowledge at hand.

The occult practitioner with years of experience to his credit will find this and other compilations of this series to be extremely valuable. The fact that the prayers and mantras are in Arabic should not deter the magician from practicing them. Sincerity and seriousness in the work would open up doors of literal and spiritual understanding. One does not have to be a Muslim to work Islamic magick--it is initially sufficient to live the spiritual precepts and truths as to be found in all religions. We can devote ourselves to the Deity using any language as media--fundamentalism and fanaticism should not be part of any occult student's attempt to reach out to the Divine Omneity. Understanding Arabic and the meaning of the prayers, though, would be beneficial. The reader ought to keep in mind that the pure concentrated intent of the magician is a powerful factor in making these rites work.

General Instructions

Perform all occult exercises and disciplines in a clean, quiet room or in a retreat especially consecrated for occult/metaphysical work. There should be enough ventilation in the room. All work should be done on the floor or ground, on a suitable carpet chosen for the purpose.

Practice deep breathing for 7-7-7 counts--inhale 7 counts, hold for 7 counts, and then exhale for another 7 counts. While holding the breath imagine energy accumulating in the psychic center below the navel. The exact location is about three-finger breadth beneath the navel. Generally, the occult exercises and rites should be preceded by this breathing practice. One of the keys to occult development and a successful performance of a rite is the amount of psychic energy we accumulate and channel. Breathing exercises are just one of the many systems of psychic energy accumulation.

Before performing any occult rite, a spiritual cleansing or holy wash is necessary to rid oneself of psychic toxins and dross matter. There are many occult rites designed for this purpose, but the simplest technique is just to visualize a flood of brilliant white light pouring over you while you shower. Imagine all of the psychic dirt from your physical and etheric body as being washed down the drain. Recite a simple personal prayer while showering. In the Name of the Almighty, and your true Self, request the angelic intelligences to transform yourself to an immaculate state.

Fasting is generally required during, and several days prior to the conducting of the exercises or rites. Fast from dawn to dusk, consuming no meat and eating nothing with any taste--for instance, just plain rice or bread. This fasting method is called "mutih" by Javanese occultists. You may

break your fast at dusk and may eat several meals outside of the designated fasting period. This fasting is quite strenuous but essential to conditioning the physical-etheric body towards interaction with higher forces and as a fit receptacle for the generated or invoked forces to dwell.

Believe and have faith in the efficacy of the occult work and exercises, for the right mental and spiritual attitude open psychic portals to the infinite realms. Have faith in your Creator most of all. Conduct prayers often and have a strong focus upon the exercises and rites. Do not be distracted by frivolous matters. The spiritual life aids in attunements with cosmic forces. Physical and etheric purity only gives one access to the astral/etheric realms. Mental and emotional purity transforms us into a vessel of light fit to receive the Holy Spirit. Obey the precepts of the Spirit and the Cosmic laws as these will pave the way for the quantum leap to the next level of evolution.

Meditate often so as to acquire the skill needed to slip into an altered state of consciousness. In the name of your true Self, request the angelic forces through decrees, prayers and invocations, to open-up the spiritual centers in your etheric body.

Consecration of Physical Objects for Various Purposes

The process below may be used to consecrate objects such as semi-precious stones (to be worn), water (to be drunk), oils (to be anointed), etc.

The mantras/prayers that will be used are as follows :

For charisma and an authoritative bearing--"Yaa Jabaru Ya Muizu Ya Azizu." 100x

For general attraction--"Yaa Rahman Ya Rahim." 100x

For safety and protection--"La qaula wala kuwata illa billahil 'aliyil adzim." 100x

For luck--recite the Throne verse (see below) 170x, then "Ya Fatahu, Ya Ganiyu, Ya Rajaqu." 3000x

For increasing intelligence--"Bismillahirrohmanirohim." 786x

Method of Consecration :

1) Recite :

"Bismillahirrohmanirohim. Bissmillahi Allahu ya Allah. In the name of Muhammad, the Prophet and Syech Abdul Khadir Jailani, by the power and virtues bestowed upon them, I call upon the angelic forces to fill this . . . (state object) with spiritual power."

Then recite one of the mantras above that suits your purpose 3x.

Continue with :

"This is done on behalf of . . . (state the name of the beneficiary of the object)."

Next, blow upon the object with your breath 3 times, visualizing energy flowing with the breath and into the object.

Note: Prior to the rite of consecration the operator has to recite the chosen mantra for the amount of times as stated above, every day, for several consecutive days. The consecration rite may or may not be in a ceremonial setting. The receiver of the item ought to recite the associated mantra for 100x after acquiring the item from the consecrator, and as often as possible thereafter.

The Throne verse:

"Allahu laa ilaaha illaa huwal hayyul qayyuumu, laa ta 'khudzuhu sinatuw walaa nauum, lahuu maa fissamaa waati wa maa fil ardhi man dzalladzii yasyfa'u 'indahuuillaa bi idznihi ya'lamu'maa baina aidihiim wamaa khalfahum. The Power of Asma' Nabi Musa

This rite empowers water taken from sacred places, power spots, or spring water. It has various benefits :

- If the water is consumed, one would be bestowed with blessings and will always be protected.
- If objects are immersed in the water for a week during the period of consecration, they will be filled with power. Wearing the items will develop in one the "power punch."
- If the water is filled in four bottles and planted in the four corners of one's home, they will protect the premises from negative psychic forces.
- If a handkerchief is immersed in the water for 24 hours, it will provide the wearer with personal protection.

Method :

1) This rite is best done at midnight. Have at hand a large sized-bowl filled with the spring water. Then recite over it for a thousand times the following mantra. This has to be done for a total of 7 days :

Mantra :

"Rabbi najinni minal qaumiddalimin." 100x

If at a later time the water is given to individuals to consume in order that they may receive the blessings, they ought first to conduct a holy wash and then recite the Al-Fatehah verse on behalf of Syeik Abdul Qadir Jailani :

"I offer this Al-Fatehah prayer on behalf of Syeik Abdul Qadir Jailani."

The Al Fatehah verse :

"Bismillahir-rohmaanir-rohiim.
"Al-hamdulillahi rabbil 'aalamiin, ar-rahmaani ar-rahiim.
"Maaliki yaumid diin, Iyyaka na'budu wa iyyaaka nasta 'iin.
"Ihdinash Shiraathal Mustaqiim.
"Shiraathal Ladziina an'amta alaihim.
"Ghairil Maghduubi Alaihim Walaadh Dhaalin.
"Amin."

Ilmu Aji Sapu Angin--Run Like the Wind!

The Javanese Shamans in Indonesia possess incredible spells for all sorts of purposes. The Aji Sapu Angin spell is just one of them; it is applied for acquiring the power of running as fast as the "wind" without fatigue, and running easily over muddy terrain, water, etc. When this power is mastered one would be able to make incredible leaps.

Method :

- 1) Fast from dawn to dusk for seven consecutive days commencing on a Monday or a Thursday. This is a "mutih" fast--that is nothing with taste is to be consumed--just plain rice and water. On the last day the fast is to be accompanied with the "pati geni" discipline--that is, fast for a full day and night and without sleep, and secluded in one's room. The fast may cease at 6am. the following day.
- 2) During the fasting period, after each of the five obligatory prayers, recite the prayer verse below 7x.
- 3) After the 7-day discipline, recite the prayer verse every day 3x after the evening and morning prayers.
- 4) When you wish to use the power simply recite the prayer verse 3x and then start running.

The prayer verse :

"Walaqad Aatainaa Daawuuda Minaa Fadhlaa, Yaajibaalu Awwibii Ma'Ahuu Wath Thaira Wa Alannaa Lahul Hadiid."

If this discipline is carried-out with perseverance, with full sincerity and routinely, you will find yourself acquiring the agility of a monkey, the speed of a deer, and the lightness of a feather.
