Question:

WILL THE NEW AGE END FOREVER?
THE SUFFERING MAN HAS KNOWN?
(More About the Problem of Mummification)

Member R.E. writes: 'In regard to the question concerning the loosing of Satan for a thousand years after the current millenium, I wish to thank you for presenting this. In addition, there is something more precise which I am trying to find out in this series of questions concerning Satan, Lucifer etc. which unfortunately was left unanswered. And while the other information was helpful and interesting, it is this central question which I think is vital for everyone knowing as well as myself. This question is: Is this New Age the eternal end (underlined) of the extremes of suffering man has known on earth for this surface earth humanity, or is there any chance any will recur any time in the future?

Cosmic Awareness:

This Awareness indicates that during the time of Atlantis in the latter epoch, wherein the sons of Baal began to rise in greater and greater power, wherein power became that which was of greatest significance, and the priesthood began to take over more and more the controls of the consciousness of humanity, and manipulate the masses more and more, there came about a focus of attention on that which is called 'power', that six million entities were mummified with the concepts that they were doing something glorious and would be rewarded in the future days for this action; that this would be a great event in history and for their great experiment.

This Awareness indicates the effects of that mummification was such that it froze consciousness in certain areas. This Awareness indicates that you must understand that all form, all physical form is, in reality, vibration, and all vibration is in reality consciousness.

This Awareness indicates that in essence there is no such thing as physical form. All of it is consciousness. The forms which you see, that which you touch, this is in reality images created by consciousness, likened unto the images which you see in your dreams, yet in those dreams you believe them to be real forms.

This Awareness indicates that when you are vibrating at a close proximity to another vibration you cannot pass through that other vibration, and the vibration appears to be a barrier, tangible to you.

This Awareness indicates so it is when your consciousness is vibrating at a rate similar to that of form.

This Awareness suggests that in reality the entire earth form is but an image in the consciousness of the Cosmos, an image in the consciousness of this Awareness. This physical form known as earth, being an image in consciousness of this Awareness, is such that entities who are not in the same consciousness as this Awareness, but who are attuned to the vibratory level, to the image level of the earth, do indeed see the earth as being a solid reality.

This Awareness indicates that the effect of mummifying six million Atlanteans with

certain concepts that worked in a way to telepathically affect all of the consciousness upon the earth plane to cause the entities upon this plane to believe in a solid world, this telepathic attunement for the minds of humanity was such that it created a polarity in the nature of the atomic particles on the plane. These atomic particles being also that which is consciousness, being polarized with great intensity through that mummification action, caused the appearance of the physical world to be that which was solid.

This Awareness indicates that at present time this solidity of matter as undergoing a subtle change as the consciousness of entities begins to become more depolarized, wherein positive is not so positive, negative is not so negative and the reconciliation of 'yes' and 'no' becomes more and more acceptable to consciousness. This also has its effects upon the cellular structure of the molecules upon the atomic levels, and the proton and electron become less extreme in their oppositions and begin to reconcile themselves.

This Awareness indicates in this manner the physical plane is dissolving into spiritual, or that which is consciousness. This as occurring at a very slow and gradual rate, at the same proportion as consciousness is changing, and this makes it difficult for entities to understand what is occurring.

This Awareness indicates that in reality the earth is changing its density. That its density as now being such that it is expanding in a radiance of energies: this occurring gradually, creating some difficulty in terms of measurement. This Awareness indicates this may be measured in the near future by scientists who begin to explore these areas.

This Awareness indicates that the effects of that which is known as 'Satan', which in essence is the extreme polarized situations of consciousness, the polarity concepts which create great goods and great evils in consciousness, the effect of this being reconciled upon the nature of form and on the nature of consciousness is such that form itself is becoming less crystallized and that radiance and feeling is becoming more apparent.

This Awareness indicates that 10,000 years B.C. the entity Ra-Ta set up in Egypt an action which was geared to mirror the work of the Atlantean priesthood, the followers of Baal, yet that mirroring action was a reverse of their action. The pyramids of Egypt were set up to contain and promote what appeared to be an even greater power than that which was promoted in Atlantis, and the followers of Baal, moving into Egypt, were caught up in their pursuit of power into those levels which Ra-Ta and his followers had created. But the action of Ra-Ta was such that it had set a trap: the trap being that any who pursued power through the Egyptian pyramid energies, any who pursued power through tuning into those teachings and through tuning into that energy which was being emitted by the mummification process in Egypt, any who pursued power that resulted from the Egyptian energies would find themselves climbing in higher levels, only to enter that which may be called the vacuum, wherein they reached the pinnacle of power only to discover that they contained nothing, held nothing, and were void of any power at all.

This Awareness indicates that the followers of Baal began moving into this power pursuit which was set up by Ra-Ta, that great civilizations sprung up, that entities did move into the power positions of these civilizations, but when they reached what appeared to be the top, they discovered that they had nothing, and there was nothing they could do but surrender.

This Awareness indicates this has been occurring since 10,000 B.C. and has reached its culmination during the past ten years.

This Awareness indicates that at this time, the work of Ra-Ta and others working with this entity, has been essentially completed, and is being completed; and the effects of the gamble which Ra-Ta set up was such that the energies of the negative force were trapped by the energies of the alien force which Ra-Ta created, and the alien force known to most entities as the religions of the world, has now reached its culmination and is being dissolved. And that which shall remain shall be the boiling pot of humanity in which a merging of consciousness shall occur, and a resurgence of the Law of One shall emerge

wherein all entities begin to realize that concepts of good and evil were nothing but polarities likened unto positive and negative impulses in a computer, and the entire computer of humanity is being deprogrammed to allow a new programming which is not based on polarity for its experience, not based on conflict, but is based on unity, cooperation co-creative actions, and the integration of the parts of the computer of humanity with the rest of the universal forces, with this Awareness.

This Awareness indicates that essentially the war is over and the battle has ended, and entities are beginning to experience the Kingdom of God, the Kingdom of Heaven within their own lifetimes.

This Awareness indicates that you need not fear the return of these intensities. That there shall be great joy so long as entities desire great joy. That in time, entities may tire of great joy and wish to play around with the creative forces, and may again begin using polarities to establish extremes, and may again loosen the Devil, the Satanic forces. This Awareness suggests you not concern yourself with this at this time, for the intensity of this action is over and the reoccurrence of this action is in such a great distant future that it will not affect you. And those generations in the future will not ever again engage themselves so totally into the action of playing carelessly with the creative forces that led to such extremes of tragedy and suffering.

This Awareness indicates that the soul does not forget its experiences. The soul does learn; that wherein an entity is hurt it learns what caused the pain, that wherein consciousness is hurt it learns what caused the pain and becomes more cautious.

This Awareness indicates there is no alien force, there is no force of evil except that which entities create within their own experiences and consciousness.

This Awareness indicates that in the creation of evil forces and alien forces, you are playing around with the creative forces of the Universe, the polarities. That wherein you create good and evil, the Tree of Knowledge, and eat of this in your experiences: the greater the good, the greater the evil, the greater your tragedies shall be.

This Awareness suggests that you not concern yourself with good or evil, but that you concern yourself with experiencing what 'is' without judgment, with loving one another without reservation, with being in tune with the Universe without self-denial.
