

COSMIC AWARENESS is the force that expressed itself through Edgar Cayce, Jesus of Nazareth, the Buddha, Krishna, Mohammed, and other great avatars who served as 'Channels' for the 'Heavenly Father', and who speaks again today as the world begins to enter the *New Age* of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through certain carefully trained channels. The information contained herein was received from deep trance states and 'interpreted' by an entity affiliated with C.A.C. This information is for those who inherit the *New Age*. Awareness tells you not to believe anything, but to question, explore, doubt and discover for yourself what is the truth. Cosmic Awareness only indicates and suggests.

THE BIBLE
FUNDAMENTALISTS.....

WILL THEY EVER CHANGE THEIR WAYS?

(Feeding the Ego in the Name of the Lord)

Question:

R.E. of Granada Hills, California, would ask Awareness:
What will change the traditionalist, Bible Fundamentalist
to the ways of Awareness?

COSMIC AWARENESS:

This Awareness indicates that time and experience and deeper understanding as being the keys, as well as self-realization.

This Awareness indicates the very nature of the psyche which responds best to the fundamentalist type of religions is that psyche which seeks self-importance, and which feels dependant and weak and helpless in a world not of their own creation, which holds overpowering forces opposed to their own desires.

This Awareness indicates the entity who feels lost, alienated and alone is most responsive to the fundamentalist type of religious experience.

This Awareness suggests that as these entities move into this experience, there are certain qualities within themselves which begin to be brought out and developed; and as these qualities are developed, the feelings of loneliness, separation, fear and the feeling of being overwhelmed, begin to diminish and the feelings of hope, unity with all things and faith in their own God or chosen beliefs, begin to reflect upon their own being, giving them a kind of self-confidence and a new image of themselves as being acceptable.

This Awareness indicates this fundamentalist religion also assists those entities in overcoming feelings of guilt and inferiority.

This Awareness suggests this as very beneficial for the majority of the masses, particularly in this country and in the Western world, where desire and goal-seeking and comparison of values is so prominent.

This Awareness suggests that as these entities develop better self-esteem and greater self-awareness, they begin to reach levels whereby they can explore more deeply into the subtle meanings of their religious experiences and their teachings. This Awareness indicates as they move more deeply into these teachings, they may begin to see the symbolic levels of meaning and realize that there is much more to the teaching than that which appears on the surface, and the fundamentalist then begins to move toward that which is more mystical in its meaning.

This Awareness indicates that as these entities begin moving into the more mystical and subtle levels of these teachings, they begin to realize that there are different interpretations of the Biblical stories; and these various interpretations give greater and deeper meaning to life, and allow for more complete explanation of those things which are remaining as mysteries and unanswered by the fundamentalist view.

This Awareness suggests that you not concern yourself too much with the "head space" of the fundamentalist, but to move on up the ladder of spiritual evolution, discovering more and more for yourself.

This Awareness indicates that wherein entities wish to discover from you what you have learned and are sincerely open to hearing this, that this may be shared. This Awareness suggests you not try to crack the nut or open the mind of a fanatic fundamentalist, for they are receiving what they desire and will resent any interference.

This Awareness suggests that there are many who may spend an entire lifetime hung up on one rung of the spiritual ladder, repeating over and over the same phrases and feeling totally secure on that rung of the ladder, condemning others who are on other rungs, even though those rungs may be more evolved and have deeper understanding.

This Awareness suggests that even so, these entities are where they are to be for that time and space of their development. Let not yourself feel threatened by such entities because of their self-righteous assurance.

THE AQUARIAN GOSPEL
OF JESUS THE CHRIST

(A New Age Alternative to the Bible)

Question:

We have a question from L.C. of Ervine, Kentucky. Could Awareness please comment on a book called the Aquarian Gospel of Jesus the Christ, by Levi? I think it is dynamite for taking what the New Testament is trying to say and making it clear. Because of this book, I can now read the gospels with greater understanding of the meaning behind the words. Friends of mine who are really into the Bible, and that's all, say the Aquarian Gospel is no good. In fact, they suggest I should use it as fuel for my cook stove. I just think it is so sad that people hang on to the cloudy New Testament when there are other scriptures about exactly the same thing that makes it understandable.

COSMIC AWARENESS:

This Awareness has indicated previously that this book, The Aquarian Gospel, as being that which is a clear channeling of high order. This Awareness indicates that the information contained within this book as being self-evident for any who care to read and

to experience its contents with an openness, an attitude of discernment, and with a tendency to perceive its true meaning.

This Awareness suggests that there are, of course, many entities who do not wish to have their minds, attitudes, or levels of consciousness changed and are totally content with the present tapes and programming within their own consciousness, and believe that nothing more can be added to the truth which they already understand. This Awareness suggests that these entities, being completely satisfied with their present belief systems, and their present understanding, reject anything new or anything that might offer a different point of view, or different insight, and seek only further reinforcement for their already programmed consciousness.

This Awareness indicates these entities as having their minds already made up and wishing nothing that could affect their already opinionated minds. This Awareness suggests that it is generally a waste of energy to argue with such entities, but that wherein an entity wishes to make this kind of information available, to share this kind of information that can open a closed door, can open a closed mind, to allow a little more light upon the subject, these entities do have the blessings of this Awareness; and the energies expended, though often futile, are blessed by this Awareness, and shall indeed be returned to those entities who wish to make this effort.

This Awareness suggests, however, that when you seek to open a closed mind, that you make no more than three attempts. After the third attempt, this becomes a violation to that entity.

This Awareness suggests these attempts not to be of a pushy nature, but rather as a sharing action wherein you offer to share this information with those who are willing to observe or listen more closely. This Awareness suggests that wherein a receptivity is not shown, that you move on and not concern yourself with trying to open the mind of an entity to force enlightenment into that mind.

This Awareness indicates there are many hungry entities who wish to find more understanding, greater enlightenment, deeper discernment, and more spiritual insight.

This Awareness suggests that you share your discoveries with these entities who are open and searching and not worry about those whose doors are closed against you.

This Awareness indicates that there are other ways in life's experience to open those doors. For those entities who close the doors to further learning must open those doors themselves, and such entities will open those doors when they become hungry for deeper understanding. And that hunger comes about when the food they have has been devoured and there is nothing within their pantry to solve their problems and they must go elsewhere and search for new food to feed their souls.

This Awareness suggests that life has a way of teaching entities that they cannot rest on what they have already learned, but must eventually move on and discover more.
