Cosmic Awareness Communications

P. O. Box 115, Olympia, Washington 98507

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through certain carefully-trained channels. The information contained herein was received from deep, super-conscious trance states and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age and those who shall inherit the New Age. Throughout the many thousands of 'Readings' given through these channels, Cosmic Awareness repeatedly tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Members of Cosmic Awareness Communications are invited to send in questions of general interest for possible publication in this Newsletter.

(The Retreat of the Beast Begins)

QUESTION:

Awareness, we're here for a couple of general questions pertaining to some momentary happenings. Does Awareness have an opening message?

COSMIC AWARENESS:

This Awareness has a message for the general membership, which may be duplicated and passed on to others.

This Awareness indicates that the response in terms of the letter writing campaign, in terms of the Beter parties, in terms of the SPIRAL activities--this Awareness indicates the response and concern for what is occurring throughout the masses of people within this hemisphere, within Europe, within various countries in South America and Asia--this Awareness indicates that these concerns abroad, and within this nation, and the response to messages from this Awareness, and from those other sources which are attempting to awaken the mass mind as that which is now beginning to have its profound effect upon the sensitivity feelers--the fingers of the Beast.

This Awareness indicates that the Beast is becoming aware of the peoples' awareness. This Awareness indicates that this is that which shall begin having a type of catalytic effect upon the consciousness of the Beast itself, whereby it begins to look at itself from the mirroring consciousness of the masses. This Awareness indicates that the mass movements as having begun turning the tide from destructive, enslaving power, to that which may become clear honest and humanitarian relationship between the elements of the Beast and the masses of consciousness, apart from the Beast. This Awareness wishes entities to remember the fairy tale of *Beauty and the Beast*, whereby Beauty, in close contact with the Beast, did change the nature of that which appeared as ugly, and assisted in discovering the Beauty behind the Beast.

This Awareness indicates that likewise the masses of consciousness, in responding through true relationship, clear communication--without hostility, without violence--can also create a change, a transmutation, in the Beast energies of this earth.

This Awareness wishes entities to continue in their present action of informing each other, of writing, of duplicating information, of carrying on the flow of communication regarding that which this Awareness has given over the past eight months, and prior to that time.

COPYRIGHT 1979 by Cosmic Awareness Communications & the Aquarian Church of Universal Service. Reproduction, however is permitted.

This Awareness wishes entities to continue discovering current information listed through those sources which this Awareness has suggested, as well as the controlled press. This Awareness indicates that there are now certain information sources which are beginning to allow leaks into controlled press media, to give more factual information—that which would in previous months have been restricted. This Awareness indicates that the sources which this Awareness has previously mentioned be considered as valuable sources for information which cannot be found elsewhere, but also that this information be questioned and sorted through for the gems of truth. This Awareness indicates in particular the US Labor Party paper, *New Solidarity*. This Awareness indicates that there is much within this which is priceless in terms of its information, yet there is also a coloration, particularly in terms of those opinions and viewpoints related to the pro-nuclear stance of this organization—that these entities do not fully have information regarding the alternative energy sources—this organization as withholding certain information regarding solar energy and other alternative energy sources—for this organization is promoting nuclear fusion and fission. This Awareness indicates that this as related unto certain interests involved in these areas which are assisting in the financing of this newspaper. This Awareness indicates also that in terms of the US Labor Party's stance against any form of metaphysics—this also as that which is being promoted from a position of lack of information regarding the higher consciousness levels. This Awareness indicates these entities as highly evolved in terms of the rational, political, and scientific mentality, but in many ways fails to see the symbolic implications involved in metaphysical concepts. This Awareness indicates that these entities also tend to have certain colorations and favoritism which they promote as opposed to colorations and disfavoritisms, which they deny. This Awareness indicates this in particular in regard to political parties and personalities.

This Awareness indicates that in terms of the Dr. Beter information, there are some areas which are exaggerated, some areas which are honest mistakes. This Awareness indicates this relates unto his sources and their evaluations. This Awareness suggests, however, that generally the information this entity releases as being approximately 90% accurate. This Awareness indicates that the controlled press as that which can give much background coloration to your understanding of what is occurring. This Awareness suggests that by looking at these sources which have been given, along with the controlled press, entities can begin to sort out a deeper understanding of what is occurring. This Awareness suggests also that entities may value greatly from short-wave radio broadcasts; by receiving these broadcasts from foreign countries, that you will receive much information in this manner which will not be given from your own controlled media.

**Letter-Writing Campaign
is Freaking the Beast**

This Awareness wishes to see the continued movement of this information throughout the coming year, for as this continues to be duplicated and spread, the power to cause these intensities diminishes. This Awareness indicates that already the Beast is feeling the concern regarding the public awakening. This Awareness indicates that as this grows stronger, the Beast will become defensive and attempt to remove any form of activity that would indicate to the public that this is indeed happening.

This Awareness indicates the intensities which have been discussed previously are still in motion—that the movements toward potential nuclear war are still present, but that the letter writing campaign has begun to have an effect on certain levels which have a great potential for ending this insanity. This Awareness indicates that the information has been released and is spreading across this land like wildfire—there are groups springing up here, springing up there—duplicating the SPIRAL information, the other information, copying, writing, and spreading the word. This Awareness indicates this as that which is causing great concern by the Beast.

This Awareness indicates that the recent visit by the Secret Service to C.A.C. office regarding this information revealed the breadth and scope of the effect of the letter writing. This Awareness cautions entities not to add threats or implied threats in the mail, for this can lead to trouble for entities or for your organization and activities. This Awareness indicates that the concern is to *awaken* entities, not to threaten entities. This Awareness indicates the action toward those entities mentioned previously in power, who are moving this nation toward war, is not to threaten these entities, but to awaken them to reality—to the insanity of their process. This Awareness wishes entities to continue in this movement in ever-growing, ever-expanding movement of making each other aware.

A Blockage in Flow of Communications Could Occur

This Awareness now wishes also to explain to entities that there can become a blockage in the flow of communications from this source, but that the ball is now in your hands to continue this action. This Awareness indicates that the Interpreter, through which this message comes, may be hindered in delivering any further messages of this nature—the Interpreter may be stopped in this delivery—yet there are already enough mess-

ages out—there is enough information out that the Interpreter needs never again give a message of this type, and there would still be the awareness of what is occurring. This Awareness suggests that all entities out there who have received this information are now aware—all entities who are aware are duplicating this information and making others aware—and there needs no longer be an Interpreter for this Awareness to continue giving messages, for the story is out. The information is out.

This stoppage of the Interpreter from allowing this Awareness to speak further on this topic is likened unto locking the door, hammering the door shut, after the horses have all left the barn. This Awareness indicates the horses are out—are moving—are racing across this country—carrying messages from one place to another,—and locking the door at this point would be useless. This Awareness indicates that to the members of *Cosmic Awareness Communications* and those who receive these messages that the Interpreter and the officers of C.A.C. need no longer involve themselves in releasing this type of informative information, if it appears this cannot be released further without hinderance and threat to them. This Awareness suggests that entities not expect too much more rather than a winding down—a reflecting back on what has been released.

The Ball is in your Hands

This Awareness indicates that the ball—the entire information—is now in the hands of an informed public who is busy informing other members of the public by duplicating, by passing this information on, by writing letters, by writing books, by calling talk shows, and by speaking in groups and listening to tapes, and holding parties or discussing this on television shows. This Awareness indicates that as entities continue in this action, the potential for nuclear war, the potential for having freedoms taken from the public, the potential for great violence and terrorism diminishes. This Awareness indicates as this is spread, the potential is for a harmonizing—a great awakening to the Oneness of humanity—a dialogue between the pro and con forces of the mass-mind on any topic. This Awareness suggests that dialogue, communication—these are the elements which can lead to a new golden age of love and harmony.

This Awareness suggests that there is an element of danger to the entity known as the *Cosmic Awareness Communications* organization, in that certain efforts may be put forth to block this organization by labeling the organization as political. This Awareness indicates that a political organization in terms of non-profit religious organizations is one which becomes involved in lobbying for or against certain issues which may be presented to Legislature for lawmaking purposes, or one which engages in the campaigning for or against a politician, one who is seeking office. This Awareness indicates that *neither of these actions has occurred*. This Awareness indicates that a religious organization is allowed to influence through ideas—is allowed to promote certain concepts which influences the thinking of the masses—that this influence can occur in any topic so long as it is not an action which is generally considered alien or opposed to public decency and general civilized standards. This Awareness indicates for example, a religious organization could not advocate human sacrifice, and expect this to be covered by freedom of belief, for this would be opposed to normal sense of decency in a civilization of this type.

This Awareness indicates however, that an organization is allowed to promote concepts and attitudes of a humanitarian nature—is allowed to discuss human rights and freedoms—this organization has been concerned with the very survival of the masses of people within this nation. This Awareness indicates this is not a political issue—this is a humanitarian issue—a concern for the culture, for the culture of humanity. This Awareness indicates that regardless of the fact that this organization has been, and remains, non-political, but religious in its character, there may be an element in society working from the energies of the Beast, which will attempt to hinder the efficiency and activities of C.A.C. by indicating, or by accusing it of being, a political organization. This Awareness indicates that in court this will not be judged as a political organization, and *Cosmic Awareness Communications* will be allowed to receive back its exemption, even if such court action occurred. This Awareness indicates however, that this could hinder the organization for a period of time, to block its flow of communication; as indicated previously, this likened unto closing the door after the horses have been released.

This Awareness suggests that in the event that *Cosmic Awareness Communications* is blocked, this Awareness suggests that the people who have this information continue to spread the information in the name of humanity, decency, and concern for future generations.

"Take it! Read it! It'll save your ass!"

Editor's Note:

The Beast is at bay, there is no mistake about this. It appears that those who would violate humanity are being taken off this plane—this happening behind the scenes as indicated in Dr. Beter's latest Audio Letter No. 45. Those with the power to push the button that would ignite nuclear war are being removed and replaced with those whose concern is with humanity and the survival of the billions of entities upon this planet. This is a small price to pay compared with the magnitude of atomic holocaust. The United States Secret Service has been to the C.A.C. office this week, also at the home of the Interpreter, Paul Shockley. They have confirmed what Awareness stated in this reading—thousands of letters are arriving in Washington D.C. and many of these being turned over to the Secret Service by those receiving them. They are concerned because some of these letters contain 'implied threats'—(they could produce none that contained actual threats). We must again remind our membership to please do not get overzealous in your letters, do not make any kind of threat or implied threat. Our job is to awaken these people to the awareness that not everyone in this country is asleep. Our job is not to threaten, but to awaken these entities. There is no law against writing letters (even the US Secret Service admits this). However, their job is to protect the President and other officials and if threatening letters are written to these people, they will attempt to track the letter-writer down and talk to him or her. Please cooperate on this. It will not only save you some hazzle, but it will help to take some of the heat off of this organization. In a short time this will all be over—the Beast will be transmuted and its evil plans will transmute along with it. There is a brilliant light on the near horizon—the heaviness of the readings of the past six months or so will lighten, and once again your communications will be concerned with more spiritual matters, for the need to alert the masses to the urgency of the moment will have passed and we need never bring up this subject ever again.
