The philosophical foundation on which
the New Age is being built

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as "Channels" for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

PROJECT INVISIBILITY

EINSTEIN'S UNIFIED FIELD THEORY
PROVED AND USED BY THE MILITARY

The U.S.S. Eldridge (DE 173) on September 12, 1943. (National Archives)

Paul Shockley
Trance-Interpreter

QUESTION:

There is a book out now called, *The Philadelphia Experiment: Project Invisibility*, by William Moore and Charles Berlitz. It concerns the USS Eldridge, a destroyer escort in October, 1943, berthed at the Philadelphia Navy Yard. Suddenly the ship vanishes into a green fog, only the outline of the vessel remains faintly visible in the water. Within seconds, the USS Eldridge appears in Norfolk, Virginia, and then reappears in Philadelphia. The book goes into areas which could partially explain phenomena such as UFOs and the 'Berinuda' Triangle. Did the navy, by chance or design, discover how to render matter invisible, and has it ever since endeavored to keep this matter secret? Would Awareness please explain the phenomenon described in this book called the *Philadelphia Experiment*?

COSMIC AWARENESS:

PLEASE NOTE: for better understanding and readability, Cosmic Awareness suggests these readings be read aloud,

This Awareness indicates this was based on Einstein's Unified Field Force Theory. This Awareness indicates that this as an experiment during the early forties in relation to the possibility of using invisibility as a weapon. This Awareness indicates that the difficulties involved were such that it did not become feasible during World War Two, but the experiment as indicated in this book as being that which in fact did occur.

This Awareness indicates that the problems involved with this included that which entities in the experiment referred to as 'being frozen' or caught in the other dimension. This Awareness indicates that it became necessary for the Navy to send in others to fetch those who had not come out into the the physical world after they were supposed to have rematerialized. This Awareness indicates that this freezing process was such that entities did not return on cue and remained invisible, and this required that others enter into that dimension and lay their hands on that entity to assist in revitalizing or thawing out the entity so that the entity could then move back into physical manifestation. This Awareness indicates that this caused a loss of many crew members of this ship, that also those who served on this ship in later years suffered from many strange and unusual experiences and in some cases from mental disorders. This Awareness indicates that much of this information has been given previously in other sources, that this book, however, is that which has researched and documented much of the material which elsewhere was scattered. This Awareness indicates that essentially the information is correct and does relate to further experiments by the Navy and other intelligence sources which have developed present weapons, present UFO ships, and spinoffs

from this type of experimentation. This Awareness indicates that officially the Navy has curtailed further experiments along this line but that there are, in fact, studies which have continued in regards to the phenomena and the Unified Field Force Theory.

MAGNETISM--THE SECRET OF INVISIBILITY

(Relates to Bermuda Triangle mystery)

QUESTION:

In this book it said the experiment had been accomplished by using Naval type magnetic generators, known as degaussers, which were pulsed at resonant frequencies as to create a tremendous magnetic field on and around a docked vessel, and this created the hazy green light and would make the crew disappear. Is there in the experiments that Sam Millar is doing in magnetics, a possibility that his device could get into this area of invisibility?

COSMIC AWARENESS:

This Awareness indicates not at the levels where the entity is presently working, that if the entity did move into much higher levels of activity, this could have some effect. This Awareness indicates that this also relates to the Bermuda Triangle phenomena--that this in reference to a huge magnetic force under sea in that area which is occasionally activated by certain forces and energies. This Awareness indicates that this information not to be given at this time as your readership is not fully ready for further intense material.

EINSTEIN'S UNIFIED FORCE THEORY WAS COMPLETED

QUESTION:

Another question in relation to this book: According to the scientists today, they all claim that Dr. Einstein's Unified Field Theory was never completed, yet according to this book, the Unified Field Theory was, in fact, completed during 1925 through 1927, but Dr. Einstein withdrew it because he was allegedly horrified by the possible uses it might be put to by mankind not yet ready for it. Would Awareness comment on this?

COSMIC AWARENESS:

This as in the affirmative.

QUESTION:

Are any of the governments of the world currently working in this field for military reasons?

COSMIC AWARENESS:

This as in the United States, Russia, Germany, Britain, and to a more limited degree, Australia and Israel. This Awareness indicates that also Japan appears to be involved in certain experiments which can be closely associated with this, but appears not to be military at this time.

THE FRONTIERS OF ANTI-MATTER WILL EVENTUALLY BE EXPLORED

(More on the Parallel Universe)

QUESTION:

Would it be a good thing for entities, if this should be developed and not used militarily, but just simply at times go into this magnetic field and into the Fourth Dimension and back?

COSMIC AWARENESS:

This Awareness indicates this as a frontier which inevitably must be explored. This Awareness indicates an analogy: that there was a time wherein entities believed the earth to be flat, then the entities became aware that the earth was indeed round or global. This Awareness indicates that similarly, entities believe that things are in a third dimensional nature and accept themselves as third dimensional beings. This Awareness indicates however, that there is a parallel dimension which penetrates and includes the third dimension but goes beyond that. This Awareness indicates this as related unto moving from third dimension into fourth dimension, or, in another sense, through the passageway between the physical world and the nonphysical or spiritual world.

This Awareness indicates this as a path taken by the Els, or Elder race, from one million years previously. This Awareness indicates this as a movement out of time and space, perpendicular to time and space--that the movement goes beyond the physical gravitational field and into the nonphysical levels. This Awareness indicates parts of the atoms appear to be solid, but between these solid particles there are invisible shells. This Awareness wishes entities to consider what would occur if your consciousness, instead of seeing the visible parts of the atom, were turned into the invisible shells or the invisible spaces between the solid parts. This Awareness indicates this invisible part between the solid part is that which is antimatter. This Awareness indicates that as entities would move into the antimatter world, there are also degrees of density of antimatter, even as there are degrees of density of matter, and therefore there is a parallel universe which exists between and behind the material manifestations--this in a magnetic or electromagnetic field. This Awareness indicates that as entities move into this parallel universe, they lose touch with the physical universe and appear to have disappeared or moved into the so-called 'beyond'--the life beyond this life.

This Awareness indicates that there are entities who are advanced scientifically far enough to be able to use certain technologies or certain mental technologies whereby they can move back and forth between dimensions with considerable ease, in a relative sense. This Awareness indicates that this may be likened unto the images shown on the Star Trek stories wherein entities materialize or dematerialize under certain magnetic pulsations. This Awareness indicates that likewise, the teleporting of entities from place to place can and shall, in a short time, be something which is accomplished publicly. This Awareness indicates this is done presently but only out of the light of public.

This Awareness indicates that there have been for millions of years entities capable of moving in and out of the physical dimension, that much of this information has been given in relation to the readings on Hades and Celestria, the three realms. This Awareness indicates that these realms can be termed as dimension or realms, that essentially the word 'realm' may be more beneficial in regard to this discussion as entities tend to associate dimensions with the time-space continuum.

RAISING THE KUNDALINI

(Cosmic Awareness Development Classes are One Way)

QUESTION:

We have two related questions: the first from T.P. of Surrey, B.C. Canada. "Awareness has mentioned several times how important it is to awaken the chakras to cause the flow of the kundalini, but Awareness never gives us a clear-cut suggestion how this is done. Also, the books I have read on Yoga would indicate that there is no spiritual growth without the flow of the kundalini. In the Yoga teachings, the guru makes the claim that he awakens the kundalini, yet Awareness has not said anything about this. Who does the awakening with the CAC members? Does Awareness do it at certain stages, or is it still necessary to have a guru?"

COSMIC AWARENESS:

This Awareness has given certain Development Plans for this purpose. This Awareness indicates that these Development Plans as being such that it requires trained ministers to give these plans or classes to those initiates who wish to involve themselves in this action. This Awareness indicates that the problem being that the Aquarian Church, which has been designated to release these plans to entities, has been financially unable to hire or to provide the necessary funds for its ministers to travel to various places to give the classes elsewhere, and therefore the only classes it has been able to give have been in the area of Portland, Oregon. This Awareness indicates that *It* is hoping that as its finances improve that it will be able to set up Development Classes in various areas, allow ministers to give these classes and to train other ministers in those areas to continue giving the classes to still others. This Awareness indicates that the ministers giving these classes do also need special training, that there are twelve classes two weeks apart for the Basic Development Plan; there are twelve more classes two weeks apart for the Advanced Plans: that when these have been completed, this Awareness will consider giving the Master Classes which also will be placed at two week intervals.*

*ED's Note: Please don't write CAC about Development Classes at this time. On a recent questionnaire sent to the membership, a question on this was included. If you expressed an interest in having these classes in your area, you will be contacted by the Aquarian Church whenever they get this project together and can financially afford to send ministers to your area to conduct them.(At this time CAC is not responsible for this project).

DO C.A.C. MEMBERS HAVE MORE SEXUAL ENERGY?

QUESTION:

A related question by M.P. of New York. "C.A.C. members seem to have more sex energy than most people. Is this true? If so, please comment on whether the Yogis are correct in that sex energy is like a powerhouse and we can and should channel it to open chakra centers?"

COSMIC AWARENESS:

This Awareness indicates that the more an entity is open in the sense of the mind being capable of expanding, considering the mind or consciousness being receptive, the more sexual energies are present. This Awareness indicates essentially this as the energies of the aura, the vitality of the entity.

This Awareness indicates that basically an entity whose consciousness is open, looking attentive and in awe of life and moments of life, that awesome attentiveness is that which opens the pituitary chakra to absorb cosmic influences or rays which increases the aura and the vitality of the entity. This Awareness indicates that wherein an entity's mind is closed, ideas are made up and are not changeable, and wherein an entity's beliefs are such that nothing new can be given, the entity is not searching or questing or open to learning anything further but assumes to know—that entity is operating from a closed pituitary and the pineal is projecting energy out, while very little is coming in, the greater energy coming in comes through the gonads rather than from the pituitary, and this gonadal energy relates basically to materialism and material gratification. This Awareness indicates that with the entity whose consciousness is open and alert and receptive, the entity has both the advantage of the gonad energy and the pituitary energy receiving both spiritual and material influences and energies to build a stronger aura—this does have its reflection on the sex life of the entities, or that which may be termed the vitality or sexual vitality. This Awareness indicates that essentially the sexual vitality and the vital energy of an entity, the life force, are basically similar if not exactly the same; that it is a matter of whether it is channelled for sexual purposes or whether this vitality is channelled toward other activities.

ANOTHER WAY THE ALIEN FORCE DOES MISCHIEF

(Opening Message, C.A.C. General Reading, Jan. 5, 1980)

This Awareness wishes to call attention to one of the many ways whereby the Alien Force can use that which is spoken as truth to do its mischief. This Awareness indicates that this being by taking that truth, putting a new twist on the truth, then sending it on to others, whereby those who see this recognize this as being familiar, sounding much like that which they have heard before and have accepted as truth, but whereby this new truth has been altered slightly and can easily be accepted even with the slight alterations.

This Awareness indicates that the Alien Force in using this technique has managed to alter the great truths spoken by the great avatars and teachers from the many religions, as these teachers and their messages have been passed on with slight twists of the tongue wherein the truth has been turned slightly to the advantage of those who repeat or paraphrase or reiterate the message of the teacher. This Awareness indicates that these repetitions, being slightly twisted or perverted or changed, often appear innocent enough, often appear acceptable and, in many cases, are in fact clarifying and are essential to greater understanding of the message. This Awareness indicates however, wherein these twists and turns are improper, wherein these twists and turns are designed to set one against another, wherein these twists and turns are designed to use the message for the advantage of a particular person or group over another, this becomes part of the mischief of the Alien Force.

This Awareness cautions entities to be watchful of such messages, to determine whether the truths have been distorted or are clear in their essential meanings. This Awareness indicates that as entities pass on statements from others or as entities recognize truths and express these truths, this Awareness asks that you use caution not to put a curve on the truth, not to twist the truth, but to present this as clearly and as cautiously and as honestly as is possible in your presentation.

BETWEEN LIFETIMES, HOW DOES ONE PLAN AND CHOOSE THE NEXT LIFE EXPERIENCE?

QUESTION:

Awareness has indicated that between lifetimes, and before an entity reincarnates into any given plane, that the entity has a choice of choosing his parents to be, the country of birth etc., and by careful astrological selection obtain a zodiac sign and moment of birth that will place him in a position to obtain the life expression needed for his overall soul growth. My question is, since I assume that many entities upon passing over do not have the intelligence, awareness or knowledge of these things, the complicated astrological information etc. to be able to program their future lifetimes for the best advantage, then there must be outside help and guidance somehow. Would Awareness please explain more fully how this is accomplished on that inner plane?

COSMIC AWARENESS:

This Awareness indicates this as accomplished basically through that which might be referred to as the Lords of Karma or the Laws of the Universe, or Laws of Cause and Effect. This Awareness indicates that this also is more easily understood in terms of physics wherein entities may recognize the Laws of Attraction or Repulsion, whereby an entity's vibratory makeup draws it magnetically to certain factors which will be conducive to its needs or its attractiveness. This Awareness indicates that this vibratory makeup, the electromagnetic fields, drawing certain forces or certain energies and lead to a kind of balancing action. This Awareness indicates this may be referred to as karmic or cause and effect, that the selection of parents is not an action of conscious will so much as an action of physics wherein the electromagnetic spectrum or the psychomagnetic fields of the entity will call forth for a certain type of energy to reconcile or balance that which is present, and this need or vacuum brings the entity in contact with its particular time of birth, its particular place of birth and its particular parents through which it is drawn.

This Awareness indicates that these factors do not always completely balance the entity's needs, but generally are the most appropriate avenue for the strongest needs within the entity, that the lifetime experiences which follow attend to the lesser needs, refining these even further. This Awareness indicates that when a lifetime of experience does not completely balance the entity's needs, then the entity returns again for further balancing—that this is repeated again and again and is termed 'reincarnation' in various lifetimes—that in each lifetime, certain needs may be balanced, that the experiences also offer opportunities wherein the entity may create new needs by actions which throw the entity out of balance with its environment or the Universal Laws; these new needs then may create new types of expressions or avenues through which the entity must move in order to regain the balance lost. This Awareness indicates that there are some who refer to entities from the other side who assist you in finding your proper place of birth, the proper parents, the proper timing for that birth. This Awareness indicates this also may be considered accurate in a sense wherein these forces deal with the conscious attempts and efforts from that other dimension to bring entities into the proper alignment for their next life.

This Awareness indicates that this as an action of further assisting or refining the natural flow of energies. This Awareness indicates however, that this purpose is not a necessity, but as a service which some from the other dimension offer to those who wish to cut through time and enter prematurely on the next best time zone, rather than perhaps waiting for several thousand years for the exact appropriate time according to their needs. This Awareness indicates that in other cases, the entities working from the other dimension to assist entities in finding their birth time may delay a particular birth wherein they can see an advantage in going against the natural law and consciously manipulating these forces to a different time zone. This Awareness indicates that this only occurs wherein the entities are in agreement with these advisors.

THESE TECHNIQUES OFTEN USED BY WANDERERS AND VOYAGERS

QUESTION:

Are these same techniques used by those entities Awareness refers to as Wanderers and Voyagers?

COSMIC AWARENESS:

This Awareness indicates that these occur mostly for such entities wherein entities voluntarily enter into the

physical plane without a karmic need to enter, wherein they volunteer themselves to enter for certain purposes beneficial to the planet, rather than purposes which benefit their own needs for balancing out through the planetary experiences.

WHAT PERCENTAGE OF WANDERERS AND VOYAGERS
SUCCEED IN THEIR EARTH MISSIONS ?

(No Bad Karma Created if they Blow it)

QUESTION:

Could Awareness give a percentage or the odds of the typical Wanderer or Voyager* who comes to the earth plane for such a mission and the odds that he does or does not get involved and create karma during that lifetime that puts him back on the wheel of birth, death and rebirth?

COSMIC AWARENESS:

This Awareness indicates that the Wanderers who volunteer to enter this plane to assist generally are not held accountable for their mistakes unless these mistakes are completely out of line with Universal Laws, at which time they would still be held responsible mostly by their own recognition of their own error. This Awareness indicates that generally however, wherein a Wanderer fails in a mission, this is not considered a strike or point against the entity, rather it just does not count in favor of the entity. This Awareness indicates that essentially these entities are given their missions voluntarily, rather than as draftees by higher forces, and as such are not responsible to accomplish anything on this planet; but those who do generally receive a proper reward for such service, which may be considered above and beyond the call of duty.

This Awareness indicates that the approximate percentage of those who recall their purposes and who dedicate their lives to those purposes in a conscious way, whether realizing they are from another dimension or not, the dedication of themselves to improve the planet--the percentage of Wanderers who, up to present time recall this in a significant manner so as to have a strong influential effect on the planet, appears to be approximately 10%. This Awareness indicates that this varies in degree of quality, for generally speaking even the least effective Wanderer is still an average beneficial citizen of the planet. This Awareness indicates occasionally there will be certain Wanderers who, in being caught up in negative situations, allow themselves to also become negative. This Awareness indicates in some cases, these entities may participate in negative actions which consciously or unconsciously balance out karmic patterns which have existed for some time. This Awareness indicates that this may be understood in the concept of certain warriors or agents who become involved in life and death struggles with others for what they consider to be the cause of good. This Awareness indicates that these being the extreme end of the activities of Wanderers. This Awareness indicates that generally speaking however, Wanderers avoid violence and participate mostly in constructive action to bring about greater harmony upon the planet and in the relationship between entities.

FROM BEYOND THE GRAVE
A Message from Former President, Jimmy Carter

(From a C.A.C. Gen. Reading, Oct. 6, 1979)

QUESTION:

K.K., one of the C.A.C. members in Ojai, California, tunes in and occasionally receives messages and sends them to us. I'd like to read a message she sent regarding President Carter and ask Awareness to comment:

"In my dying grief, I never could have imagined those things that could have turned out this way. Hopeless--they were more than hopeless, they were keyed to world disaster--with the arms race always in the forefront of events. Now things are not totally lost. We have gained far more than we have lost in this exchange. The picture is far from complete on what is going to happen, but Rosalyn and I are optimistic for the first time about world events and the outcome of the Carter administration which, curiously, only emerges from its jumble with the real Carter behind the scenes. There could have been no other way. I was hopelessly outnumbered, pressured and beleaguered. The problems were too great for any one man to handle. World peace, the dominant theme of my administration, became World War any way you looked at it. Now, for the first time, the world plan is beginning to make some sense." It was signed, 'the real Jimmy Carter.' And she adds a footnote: 'Early in May (1979) on the inner planes, President Carter could be seen in a conclave of all past Presidents of the United States, eagerly conferring with Teddy Roosevelt and the Kennedy brothers about world events and what could be done from the 'other side' in the interest of world peace.'"

COSMIC AWARENESS:

This Awareness indicates this as having been an accurate channelling. This Awareness indicates that also there are others who have been removed from this plane who are presently working from the other side to assist the Light Forces--many of these having been involved with the Dark Forces. This Awareness indicates this also including the Rockefeller brothers, who are now working from the other side to assist the Light Forces. This Awareness indicates these entities having recognized the need for a new world, based not on hierarchy power as they had earlier intended but rather based on love for all humanity. This Awareness indicates for one thing, many of these entities recognize that they will reincarnate into whatever world is here. This Awareness indicates for another thing, many of these entities were simply caught in the machinery of the corporate mind, the corporate state, the corporate civilization which grew out of ancient occult concepts of power and conquest, and these entities having been caught in these machineries--the political and economic and social machines--while in the physical body, were imprisoned by the roles which they played--these entities, now being removed from these roles, are capable of acting as free souls with greater wisdom and understanding for all other souls.

(Closing Message)

LINKING UP THE LIGHTS

This Awareness indicates that wherein many of the other Light groups begin to experience the linking of the lights, this will gradually create a greater network based on attitudes of mutual respect, mutual recognition, whereby each other, each group is recognized, acknowledged much like personalities in a social group recognize each other--these groups gradually relating to one another are having a kind of alchemical social effect on the differences between each other, on the concepts of humanity, and these communications and recognitions of these various groups playing out various concepts, various ideas, making themselves into symbolic statements representing certain statements about life--these groups shall, through their reflection on each other, act out the concepts, show the differences, and in this manner of demonstration shall through these types of dialogue bring about a new understanding whereby religions of the old ways lay down their armaments and move forward to embrace the people who have been hidden behind the shields, walls, structures, armor of those religions. This Awareness indicates that all people when their structures are removed, when their coverings are taken from them, when their shields and shells and armor is peeled off, all entities are simply vulnerable human beings who want to be allowed *to be*.

GETTING THE BIBLE STRAIGHT.....

HOW SODOM AND GOMORRAH WERE REALLY DESTROYED

(Jehovah's UFOs made examples of those who would challenge authority)

QUESTION:

According to the Old Testament, the cities of Sodom and Gomorrah were destroyed under a rain of fire and brimstone. In light of what Awareness has previously indicated about the Jehovah and the powers of their space craft parting the Red Sea etc., this story could be true and the havoc on these cities were caused by these space crafts. Would Awareness please elucidate on the story of Sodom and Gomorrah?

COSMIC AWARENESS:

This Awareness indicates that this as correct, that the area as that which was destroyed by rays and by use of certain nuclear energies. This Awareness indicates that much of the remains of this devastation, if studied carefully, will still yield up information regarding the types of destruction which occurred. This Awareness indicates that the civilization was such that it had deteriorated in many ways and was displeasing to certain forces, but there was more involved in this than simply the concern over the sinful ways of these entities. This Awareness indicated that this presented a direct challenge to the authority of certain forces who were attempting to make an example of this civilization so that others would be more wary of challenging the authority.

THE REAL STORY OF LOT'S WIFE

QUESTION:

(Morton's Salt Looses Again)

During this time when Sodom and Gomorrah were being destroyed, the wife of Lot took a look and was instantly made into a pillar of salt (so the story goes). Was this literal, and if so, how was this feat accomplished?

COSMIC AWARENESS:

This Awareness indicates this as having been symbolic more than actual. This Awareness indicates that symbolically this message is related to a hidden esoteric meaning whereby this story, being translated, carried certain esoteric meanings to those who were of certain secret schools. This Awareness indicates essentially the esoteric meaning of this story is that wherein an entity looks back toward the past, toward that which is one's past roots and being, looking back with longing—that entity tends to crystallize and age more quickly than those who move from past experiences on into the present experiences, looking forward and being capable of moving on into the future.

This Awareness indicates that these are other elaborations on this concept of looking back and looking forward; that essentially this is a kind of esoteric addition to the experience which occurred. This Awareness indicates this also relates to a certain Tarot card wherein the entity leaves the city to go forth into the desert, the meaning being one who leaves structure or the concepts of the rational mind to go forth into the void or clarity or the virgin pure consciousness. This Awareness indicates that much of the Bible is based on historical information, yet much is also added as embellishment to carry certain literary, poetic, moral and esoteric information, particularly esoteric information which conveys hidden messages for the initiates of the various schools, for which these Biblical stories were written.

This Awareness indicates that you must remember that these books selected and put into your present day Bible were selected out of many, many various writings from various priests and teachers of different schools and different areas, that many of these had been translated and passed around for hundreds of years before being compiled into the present Bible. This Awareness indicates that many of the books written by these various priests were never included in your present Bible and have been placed into other works, other Biblical books such as the *Lost Books of Eden*, the *Apocrypha*, the *Dead Sea Scrolls* and many books which have never been published and others which have been totally lost.* This Awareness indicates also that you must likewise remember that many of the stories written in the Hebrew Bible or the Old Testament were also derived from earlier versions which appeared in Hindu works, in Tibetan works or circulated in the Middle East and those areas of India and Southeastern Asia. This Awareness indicates that some of these also came from earlier Egyptian writings, being modified, changed, embellished or having different characters assigned and also having different morals attached to their story.

This Awareness indicates that it is more comfortable for entities to think that one entity came down from heaven and sat down and wrote every book in the Bible without error, without embellishment—that every word can be taken totally as absolute or what may be termed 'Gospel Truth', and that there is no possibility of doubting each phrase, each word printed therein; it is more comfortable for entities to think that everything written was written literally as history, as absolute law, from a divine source that is totally unquestionable. This Awareness indicates that it is more comfortable for entities to think that in all the translations from language to language, the various Bibles available, the various differences in the translations available are of such that the one which the entity has, even though perhaps translated twenty or thirty times removed from the original writing, just happens to be absolutely one hundred percent correct, whereas the original writing with a translation coming from it that is inconsistent with the original, that the earlier version can be ignored, and the later version *just happens* by divine force to be one hundred percent accurate in every meaning of the word.

* Please refer to
C.A.C. Book Catalog

This Awareness indicates that this is more comfortable to many entities than to explore the earlier Biblical works to discover whether they are consistent with the latter interpretations, or whether the inconsistencies in the latter interpretations should be understood or made proper; it is more comfortable for entities to discard all of the earlier writings than to discard their present interpretation of the Bible which they have accepted as being one hundred percent valid.

This Awareness indicates also it is more comfortable for many entities to discard all other works, than to discard that special phrase which they have grasped onto from their particular Bible which denies others the chance of having a different interpretation and allows them to feel superior and self-righteous in their position. This Awareness indicates however, that being comfortable in your beliefs does not necessarily equate to being correct, and that even though one believes oneself to be right, that does not necessarily make one right. This Awareness indicates that one can never know how right one is, but one can begin to learn more about one's origins, more about the Universe, the world, the various ideas and theories of others; one can learn more about life by looking at the beliefs of others, at the writings of others and by questioning one's own beliefs with at least as much criticism, discernment and doubt as one would question another's.

This Awareness indicates that the experience relating to the Sodom and Gomorrah story is not too unlike what might be equated to a modern novel such as *Gone with the Wind*, as it would be looked at by entities 2,000 years from now, whereby the question might arise as to whether the characters in the story were real or were embellishments or fiction written by the mind through the imagination of one who experienced the war or one who fictionalized the characters several years or several decades after the Civil War had occurred. This Awareness indicates that those of our time recognize that this story of *Gone with the Wind* was written some time after the Civil War, that the characters were fictional, at least to a great degree. This Awareness indicates that there is a message in this book about these characters, a message for the readers. This Awareness indicates that this experience of these characters does not have actual basis in reality, yet they seem real enough, and they are expressed as against a background of the Civil War, and there is evidence that the Civil War took place. This Awareness indicates that the entity Lot and his wife are also somewhat embellished, even though the incident at Sodom and Gomorrah was, in fact, a historical reality—much of the story of the experiences of Lot and his wife are embellishments of the truth, with a message for those who would read these experiences so that the message could be conveyed in the writing. This Awareness indicates that this as a way of carrying forth the historical messages of Sodom and Gomorrah as well as a moral message for future students who would study this writing.

(Closing message)

This Awareness indicates that those reading these messages need not believe a single word. This Awareness does not ask that you believe *anything It says*. This Awareness asks only that you look, explore, examine, question, doubt and keep your minds open in order to learn and discover and to become more aware.

MORE ON THE RETURN OF AHRIMAN --THE ANTICHRIST TO THIS PLANE

(His Suicide Squads Still at Work)

QUESTION:

A question from J.K., Royal Oak, Michigan. "Cosmic Awareness has indicated that Ahriman has evacuated the earth in 1979 but intends to return and retake the earth under the Beast-Rothschild computer dictatorship around 1984. Cosmic Awareness has also indicated that Jehovah is helping the Russian Christians to defeat the AntiChrist by giving them his knowledge of creating robotoids to help defeat Ahriman synthetics in the battle for control of Washington D.C. My question relates to the relationship between the immortal Ahriman and the immortal Jehovah during 1980 and 1984 on the inner planes. It's obvious that Ahriman and Jehovah cannot be trusted and that Ahriman cannot retake the earth in 1984 without help from the Jehovah-Zionist-Rothschild entities on Earth. Cosmic Awareness, please tell us if Ahriman will attempt to make Jehovah 'an offer Jehovah cannot refuse' during 1980 and 1984 and is my analysis correct that Ahriman cannot retake the earth in 1984 without help from Jehovah and the Rothschild agency on earth?"

COSMIC AWARENESS:

This Awareness indicates that there is much confusion in the question in regards to the general relationships. This Awareness indicates that the entity Jehovah as that which may be referred to as a mutable god; that is, the entity having at one point been given the qualities with that of a god of vengeance, powerseeking for power holding, and using that power in dominion over others for his own ends--this as having been changed somewhat by the actions of the Christ, the god of the Piscean Age, to be a different sort of deity, and Jehovah now has taken on much of the mercy which was exemplified by the Christ.

This Awareness indicates in terms of space terminology, the Galactic Space Command has put Jehovah on a kind of rehabilitation program, insisting that the entity bring about a proper alignment for the experiment which he created which went off course. This Awareness indicates that the entity Ahriman, being associated with that known as Lucifer--these also being deities or beings from the Immortal realm, having influence upon the realm of Terrestria--whereas Lucifer has returned to the Source, Ahriman still remains as a force to be dealt with, and carrying on the division which was created, and using Jehovah's mistake or experiments in his rebellion against the Space Confederation--using this to his own ends, the entity Ahriman as still having slim hopes of recapturing control of this planet.

This Awareness indicates the entity Ahriman having departed to regroup forces, has attempted to leave a kind of time bomb behind which would wreak havoc upon this plane. This Awareness indicates this time bomb being that which may be better explained as the near suicidal squad, the force left behind which is willing to commit suicide in order to create the havoc necessary to disrupt this planet so that when Ahriman wishes to return, the planet will be subdued enough for his easier conquest. This Awareness indicates this suicide force as working through various occult or secret orders on this plane, working behind the scenes in a kind of secret war, some aspects attempting to create greater havoc while others are attempting to block this, to prevent such havoc and the struggle ensues between these forces. This Awareness indicates that to state that the outcome is fixed would be in error, but the outcome will be determined largely by the awareness of entities upon this plane, and their ability to find ways of reconciling differences and of finding ways to unify their energies toward constructive purposes.

This Awareness indicates if this occurs, the likelihood of Ahriman ever returning would be very slim. This Awareness indicates there appears however to be continued struggle throughout the first seven years of this decade, that this struggle can become extremely intense depending on the level of awareness as opposed to mere emotional reactions.

SUICIDE SQUAD NOT SYNTHETICS

(Slaying the Infidel is the Will of God)

QUESTION:

Is this suicide squad Ahriman left behind, are these actual entities or are they synthetics, or is it a force that Ahriman would use through entities on this plane?

COSMIC AWARENESS:

This Awareness indicates these as actual entities, but in most cases the entities themselves are not aware of their own programming, that essentially the programming has occurred through indoctrination over long periods of time, through verbal, emotional, ritual, symbolic, religious and economic manipulation or conditioning--that these forms of conditioning, along with certain more subtle energies to trigger off these certain conditions or conditioning motivations. This Awareness indicates that an example of this is possible when observing the concepts of martyr as exemplified in martyrism, as exemplified in certain religions, that the Moslem religion, for example, holds this in high esteem. This Awareness indicates that another triggering device for conditioning use by Ahriman could be found in the religion which holds that slaughter of the infidel is a blessing to God, and wherein these two concepts are brought into play by conflicting forces, this becomes a triggering conditioning process that can bring forth war and violence.

This Awareness indicates that as many religions promote these two concepts of martyrism and or martyrdom and the rightful slaying of your enemies, this makes possible for religions to war against each other and feel righteous about such wars, whether they lose or win. This Awareness indicates that the life and death struggle becomes the most important thing to such entities, feeling that they simply must either die a martyr or defeat the evil which they oppose. This Awareness indicates when religions are based on such concepts, they become easy prey for manipulation by forces such as Ahriman and those who are left behind to trigger off the feelings, the intensities and the fanaticism of those belief systems.

This Awareness suggests that entities who are aware may assist in defusing these energies as much as is possible, but will probably do well just to manage to stay out of the way as these energies confront each other in their fanaticism and life and death struggle. This Awareness suggests that entities be prepared to assist wherein possible, but be ready to retreat and avoid involvement in such struggles if necessary.

Strange Circumstances Surround Tavern Brawl

Several city police officers responding to a call to aid members of the Navy Shore Patrol in breaking up a tavern brawl near the U.S. Navy docks here last night got something of a surprise when they arrived on the scene to find the place empty of customers. According to a pair of very nervous waitresses, the Shore Patrol had arrived first and cleared the place out—but not before two of the sailors involved allegedly did a disappearing act. "They just sort of vanished into thin air . . . right there," reported one of the frightened hostesses, "and I ain't been drinking either!" At that point, according to her account, the Shore Patrol proceeded to hustle everybody out of the place in short order.

A subsequent chat with the local police precinct left no doubts as to the fact that some sort of general brawl had indeed occurred in the vicinity of the dockyards at about eleven o'clock last night, but neither confirmation nor denial of the stranger aspects of the story could be immediately obtained. One reported witness succinctly summed up the affair by dismissing it as nothing more than "a lot of hooy from them daffy dames down there," who, he went on to say, were probably just looking for some free publicity.

Damage to the tavern was estimated to be in the vicinity of six hundred dollars.

more that which is satisfactory and truthful according to its own capabilities. This Awareness indicates that entities will learn by listening to each other, by listening to the voice within, and by considering the messages from mediums and interpreters or from scriptures or from other sources who claim to be expressing from this Awareness. This Awareness indicates that not everything which entities will learn will be valid—it is for entities to discern for themselves what is true according to their own capabilities. This Awareness indicates that it is not absolutely necessary for entities to fully understand everything, or to have the truth about everything in order to survive, for the important factor in life is for entities to be in a constant state of discovering, of learning, of being aware, of receiving impulses and information—processing that information, testing that information, applying that information and sharing that information.

This Awareness indicates that there are too many entities who would prefer to have this Awareness say something akin to this: "This Awareness indicates that *It* and *It* alone is the truthful voice in this Universe and those who do not believe this Awareness are doomed to everlasting suffering." This Awareness indicates *It* will not say this, even though entities would like this Awareness to settle this concern for security once and for all. This Awareness indicates that *It* simply gives you opportunities to explore, wishes to make you aware of your own inattentiveness, your own unaware consciousness, so that you can become more aware of the principles of consciousness and how the mind has been manipulated and hypnotized and controlled and shut off from becoming aware.

This Awareness wishes entities to recognize that *It* could give you the security you seek in a religion, and make you a fanatic follower through this Interpreter or some other, but if this Awareness did so, *It* would be betraying you and *Itself*, for this Awareness wishes entities to discover what is on all levels and to discover. This Awareness cannot ask you to close your mind on a belief in *It*, shutting out all other possibilities. This Awareness indicates

HOW DO WE KNOW COSMIC AWARENESS IS IN FACT WHO IT CLAIMS IT IS?

(More on the Interpreter of these Messages)

QUESTION:

A question from S.J., Ft. Wayne, Ind.: "I agree that Jesus, Krishna, Buddha and others shared the same Christ Consciousness which you say is Cosmic Awareness. How do we know that Cosmic Awareness is, in fact, a representative of the Universal God and the Light?"

COSMIC AWARENESS:

This Awareness wishes entities to understand that the words which you read on the paper sent out by *Cosmic Awareness Communications* are but *interpretations by the interpreter* and are not necessarily this Awareness. This Awareness indicates that the Interpreter is reading the energies of the Universal Principles and Laws, as well as he is capable of doing according to the energies available to him at the time of the questioning. This Awareness indicates that it is because of this interpretation that there can be error in these messages. This Awareness indicates that entities who seek perfection will never find perfection through agents of the perfect. This Awareness indicates that the Universe itself is perfect unto itself, even though it may not be perfect according to the principles of any part of that Universe or any entity in that Universe—there are obviously countless numbers of entities in the Universe who would disapprove of the Laws of God or the Laws of the Universe.

This Awareness indicates that *It* does not wish to attempt in any manner to seek the approval of every part of *Itself*, for this would be an impossibility and would be of no benefit to the other parts. This Awareness indicates that *It* cannot be held responsible for the interpretations of those who serve as mediums attempting to read the Laws of the Universe or to comment on the details of the Universe. This Awareness indicates that *It* can only be what *It is* and that entities who listen to these mediums or to the Interpreters or to the teachers or to the writers, or entities who tune into the various works and scriptures or to their inner interpretations through meditation, tune themselves into images and concepts which they attribute to this Awareness.

This Awareness indicates that these entities can discover certain satisfactory realizations, but this Awareness is not accountable to these entities nor responsible to assure that all of these interpretations by these entities will be absolutely correct.

This Awareness indicates that each entity is responsible for discovering more and

it is for this reason that this Awareness does not ask you to believe *It*, to believe the messages which come through this Interpreter--it is for this reason that if entities began becoming fanatical believers in this Awareness *It* would *deliberately* create causes of doubt, so that entities would question and perhaps disbelieve the messages coming through this Interpreter.

WHEN WILL ALCHEMY MAKE GOLD WORTHLESS?

(Gold Price to Peak Around \$2000 Per Ounce)

(From a C.A.C. General Reading, Jan. 4, 1980)

QUESTION:

With the price of gold breaking new records almost daily, this question from D.G., Prince George, BC, may be timely: "Edgar Cayce said that gold would become less valuable in weight than bread and some are predicting that someone will, in the near future, find a way to synthesize gold, bringing the price of gold down to near the price of bread. I wonder if Awareness would care to comment on this?"

COSMIC AWARENESS:

This Awareness indicates that it appears that this shall occur, but not in the immediate or near future. This Awareness indicates that the capability of turning lead into gold as known by certain alchemists of old and certain alchemists at present time, however, this is not that which is in practice at present time. This Awareness indicates the indications are that the price of gold will continue to rise in value for some time, particularly in relation to the dollar value. This Awareness indicates that there is seen a peak somewhere between \$1500 per ounce and \$2400 per ounce. This Awareness indicates that for rough generalities, entities may expect the price of gold to eventually peak out at approximately \$2000 per ounce. This Awareness indicates that when the time is right, the alchemical process for producing gold will be released to humanity, that all entities may experience that which is truly the golden age--that this is not to be released so long as humanity continues expressing itself in ways which are less than the highest.

IMF Gold Auction Sets Record Average Of \$712.12 an Ounce

By a WALL STREET JOURNAL Staff Reporter
WASHINGTON--The International Monetary Fund sold 444,000 ounces of gold at a record average price of \$712.12 an ounce, up \$149.27 from the prior record of \$562.85 set at the auction Jan. 2.

The price was 88 cents below yesterday's \$713 settlement for gold for delivery this month on the Commodity Exchange in New York.

The IMF said it received bids to buy 1,939,606 ounces of the metal and accepted successful ones of \$711.99 to \$718.01 an ounce.

The price will yield special interest loans to trust funds, the IMF said when the price was 444,000 ounces.

A GIFT FROM COSMIC AWARENESS

(A True Mystical Experience)

QUESTION:

J.T. of Olympia, had an experience recently and she mentioned it in a letter to us. It's very interesting and we'd like to have a comment from Awareness on it. She writes:

"I'd like to share a really lovely vision I had the other morning. It was early and I was just waking up and feeling concerns of the day. I felt the concerns of the day gathering--car repairs, kid problems etc., and I thought, 'Nuts, I'm going to crawl under my lovely green ferns, my mental resting place, and sleep another half hour,' when all at once, I became aware of a beautiful white light all around my fern bed. I saw my ferns silhouetted against the light which flowed like phosphorous. I came out and investigated and got frightened for a moment, wondering what was holding me up, then realized I didn't need support, and the beauty and peace of the light was all through me. As I focused more on the light, I made fantastic discoveries: It was stuff you could handle and shape and trawl into yourself to heal sore places. It was alive with opal colors, and if you centered on a spot, shapes could form, and you could direct it. I saw an iris form and realized that was like the conscious stuff of life that I'm made of, too. It was so completely joyful and pure. I thought of that a lot. I'd like to return to that place and soak it up and learn from it. I've visualized stuff before and played with images that were mine, but this was a gift given to me. I really appreciate it. I wonder what Awareness would say about that?"

COSMIC AWARENESS:

This Awareness indicates, 'You're welcome'.
