The Philosophical Foundation on which  
the New Age is being built

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

be read aloud.

#### ED's Note:

Meher Baba was a self-proclaimed messiah and guru who built a large following, particularly during the Sixties among the Hippies and others. The adulation for this entity came close to fanaticism in many cases. A bewitching quality about this entity was the fact that for some thirty odd years he never spoke a word, but conveyed his philosophy through books and articles. "When I break my silence, the world will be shaken into the realization of who I am," he suggested mysteriously, a statement accepted by many that when he again would speak, the world would finally recognize that the true Messiah had returned. Unfortunately, the entity unexpectedly died about ten years ago, without saying a word. His books live on, however, and the two most popular are, "Listen, Humanity," (\$3.45) and "The Path of Love" (\$3.95), which are available in many bookstores or through C.A.C.

#### QUESTION:

A Question from J.T. of Elizabeth, N.J. "Merwan Sherier Irani, later called Meher Baba by his disciples, was born in Puna, India on February 25, 1894. Meher Baba said he is the avatar of this age, or God himself, coming to Earth in human form. Baba said that in previous divine incarnations, he was Jesus, Buddha, Krishna, Mohammed and others. Would Awareness comment on this and Baba's calibre. Would Awareness point out why Baba's books of the highest spiritual clarity and depths were not recommended by this Awareness channel? Would Awareness explain what Baba meant when he said, "When I break my silence, the world will be shaken into the realization of who I am." and when will the book written by Baba containing many secrets of the Universe be released to the world?"

#### COSMIC AWARENESS:

This Awareness indicates the entity tuned into those vibrations, tuned into the higher realms of consciousness; the entity did make a mistake in thinking that these realms of consciousness, these identified vibrations of the various entities whom this entity believed himself to be the reincarnation of, this entity made the mistake in thinking that because he experienced these levels and vibrations and attuned himself to these levels, that he was indeed a reincarnation of these levels.

This Awareness indicates that this entity is not alone in such identification, that there could be an entire organization of entities, a club or clan or group of entities who believe themselves to be the reincarnation of Jesus, of Mohammed, or others. This Awareness indicates that there are quite a large number of entities who believe themselves to be the reincarnation of Michael. This Awareness indicates that part of this is due to the closeness of these energies, the significance of these energies and the fact that entities move their consciousness into those energies and identify with those energies, feel those energies and experience those energies in such a level that they believe themselves to have been that energy. This Awareness indicates this is a form of identification similar to that known as transpersonative experience, wherein one entity moves his or her astral body into the energies of another, and feels those energies and knows that entity with great intimacy.

This Awareness indicates when an entity can tune into another in this way, the entity is quite aware of the inner feelings of another person. This Awareness suggests that when an entity tunes into energies of the past, the energies of a previous entity such as Mohammed or Jesus, the entity may dwell in these feelings, may identify with these feelings, and may believe himself to have been that entity because he can feel these energies so deeply. This Awareness indicates that Meher Baba as one who reached a very high state of consciousness, but who also was somewhat self-centered and who believed and fell for the problem of self and messiahism. This Awareness indicates this entity as one who had great effect on many entities, and who had the ability to serve many entities, but this entity has fooled himself along with his followers, or attempted to fool his followers, when claiming to be the reincarnation of all those entities, and when implying or stating that he is God come down to Earth. This Awareness indicates even Jesus was not God come down to Earth—Jesus was the channel which allowed the Spirit of God to speak through. This Awareness indicates in the same manner, this entity was a channel for God. This Awareness indicates that each entity upon this plane can make that claim, for each entity contains within himself the Spirit of God, the God-Cell and that Spirit of God which permeates all things in the Universe, all living things, is available to all entities to express and to channel.

This Awareness indicates that in the past, personality played a major role in creating religions, religions created a major role in influencing masses, the influence of masses played a major role in lifting consciousness and in teaching and in giving entities the sense of belonging. This Awareness indicates in this New Age, the message is the role, the message is the major thing, the person or personality, the channel needs not be worshipped, needs not have praise, needs not be placed in a position of great esteem, needs simply the same respect that any other entity needs, but no more—the channel needs only to have the space and opportunity necessary to carry on that work of being a channel; the channel does not need to be worshipped as divine; the channel does not need to be given great praise and adoration—the channel is simply a vessel, a tool through which the Spirit may move.

This Awareness indicates when you water a garden, the water is that which is praised and desired, and is beneficial to your garden. This Awareness indicates the hose which carries the water, or the bucket which carries the water, this is the vessel, the channel. This Awareness indicates these are essential and important parts in reaching the goal of watering the garden, but you need not confuse the hose with the water, for the water is the Spirit which is being conveyed through the channel, the channel being the hose. This Awareness indicates the hose needs only to have the proper space to function as it needs to function in order to carry the water.

This Awareness suggests that wherein an entity becomes confused with the Spirit, wherein a hose become confused with the water, masses can eventually become confused as to what it is that is being conveyed. This Awareness suggests this is likened unto the masses believing in the hose and forgetting the water, believing in the channel and forgetting the Spirit or message, and taking this hose and bringing the hose down and placing the hose in the garden but cutting off the flow of Spirit, believing the hose is the message, is the Spirit, is the God. This Awareness indicates do not confuse that which is the message, that which is the teaching, that which is the essence of the Spirit, with that which is carrying the message, carrying that Spirit or conveying a channel.

This Awareness suggests there is a difference between the cup and the water—the cup is necessary for conveying the water, but the water is that which quenches the thirst. This Awareness suggests you study the messages of Meher Baba, but you not worship Meher Baba. If you must worship, worship the message, which applies, which is accurate and which appears to be the exact and uncolored reflection of the divine spiritual forces of the Universe.

This Awareness indicates that wherein the message begins to brag about the channel as being supreme or overly powerful, or being the only channel, or the only messiah, this Awareness indicates that message most likely is coming from the mind of the channel rather than from the Spirit of the Divine Universe, for the Spirit of the Divine Universe is everywhere present, and favors all entities equally, does not put itself entirely into the hands of any mortal being. This Awareness indicates if this entity indeed were the God come down to Earth, exclusively, then with the death or departure of this entity, the entire Universe would also disappear.

This Awareness indicates the Spirit of the Universe is far greater than any mortal claims.

This Awareness suggests that in as much as Meher Baba is God, so are you and so is every other mortal being. This Awareness indicates this type of teaching, this kind of pronouncement, this type of claim which many spiritual leaders enjoy placing before their followers, this is a kind of message which is unnecessary and inappropriate for entities upon this plane; for even though from one level of understanding there may be a grain of truth, the message gets distorted by the time the people or followers hear the message, and the follower believes the master to be claiming exclusively to be the Divine Creator and Messiah. This Awareness indicates this type of message is quite juvenile in the spiritual realms. This Awareness indicates messages of this type do great damage to the other teachings of such entities.

This Awareness suggests that the entity Meher Baba had much information, gave much which was of great value. This Awareness asks that entities in studying this entity's messages look for the parts which are valuable, which they can apply to their lives and which will benefit them, and to ignore the claims by this entity, for these are but messages of sound and fury, signifying nothing but that the entity became overly vain and proud of his own spiritual development at a time when in a state of spiritual weakness.

QUESTION:

That then explains what Baba meant when he said, "When I break my silence the world will be shaken into the realization of who I am." Is that correct?

COSMIC AWARENESS:

This Awareness indicates this in the affirmative.

IS A MASTER OR INITIATION REQUIRED  
TO ESCAPE THE WHEEL OF BIRTH, DEATH, AND REBIRTH?

QUESTION:

A question from K.G. in Utah. His question: "All Indian Saints say that it is impossible to end the wheel of reincarnation without initiation by a living saint or master who has become one with God. Is this true or false?"

COSMIC AWARENESS:

This Awareness asks one question: What is there that is not alive?

QUESTION:

I think he means in the sense of living on this plane.

COSMIC AWARENESS:

This Awareness indicates that there are many experiences on other planes. There are many saints who are not recognized as saints. There are many initiations which come about not from individual efforts, but from situations. This Awareness indicates this concept as has been stated in this question as simply out of the question.

(Closing Message)

This Awareness indicates that the greatest hindrance to harmony comes about from the anxious feelings of entities who believe they must fight against something within themselves, within the society, or within the Universe, or within concepts, beliefs, activities, or associations, in order to find a place to be who they are. This Awareness indicates the greatest method of finding harmony is to accept yourself, your beliefs, your associations, your world, your universe, your purposes for what they are. Once accepting these for what they are, you may then take a tiny step to change whatever you desire to change, but take that step with faith, with relaxation and harmony, and without the feeling that you must fight against something in order to take that step.
