COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1968 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

ASTRAL RAPE

MORE COMMON THAN MOST PEOPLE REALIZE.....Cosmic Awareness

QUESTION:

There is a best-selling book on the market called, *the Entity*, written by Frank DeFelitta, a novel the author claims is based on a real life case of a woman preyed upon by a spectral rapist. It concerns a young mother living alone with her two children, who was sexually assaulted night after night in the most brutal manner by an invisible entity, a huge Oriental man accompanied by two dwarfs. This entity calls her foul names, creates all kinds of poltergeist activity to frighten her and bend her to his lustful will. She knows this is not an hallucination for her body is bruised and her sexual organs are sore. She can fully and completely feel the weight of this entity upon her and inside her. After many nights of continuous ravishing, she finds herself experiencing orgasms of astonishing intensity. At one point she felt she was pregnant, but eventually aborted some weird substance. The presence of the entity was always accompanied by an overwhelming stench of rotted meat. When psychiatric treatment did not end these attacks by this unknown entity, parapsychologists were called in. They created a 'simulated environment' of her home, set up infrared cameras and other sophisticated devices including helium gas to freeze the entity so it could be monitored and photographed when it came on its nightly visit to ravish this woman.

They were able eventually to prove by these techniques that an entity of some sort was indeed violating this woman, but the book ends with the entity finding her again no matter where she moves to. My question is, if this book is truly based on a real life case history as claimed by the author, would Awareness please explain how such violations are carried out and allowed under karmic and other cosmic laws, and how an entity from one vibratory rate can become physically solidified at will on the physical plane and violate others. Also, how common is this phenomena, what attracts these entities to certain people, and what can be done about it?

COSMIC AWARENESS:

This Awareness suggests these questions be taken individually.

QUESTION:

Would Awareness please explain how such violations are carried out and allowed under karmic and other cosmic laws?

COSMIC AWARENESS:

This Awareness indicates that this violation as that which occurs due to the intense power and will of that force and due to the receptivity of certain aspects of this entity. This Awareness indicates that there are certain cosmic laws which do not allow entities to violate each other and to get by with such violations, yet violations still continue for these laws do not actually prevent violation, they simply create situations whereby the violator must experience repercussions for that act. This Awareness indicates that the reading previously given on rape* applies to this except that this is a situation in which a very powerful force, which is not materialized as a human in a physical body, is capable of moving into a semi-physical form and attacking as an astral being. This Awareness indicates this needing to be done at certain times when the entity is herself in sleep and consciously incapable of keeping the force away. This Awareness suggests the next question be asked.

QUESTION:

How does an entity from one vibratory rate become physically solidified at will on this physical plane and violate other?

COSMIC AWARENESS:

This Awareness indicates that this has been explained in previous information--the question previous to this topic.

ED's Note:

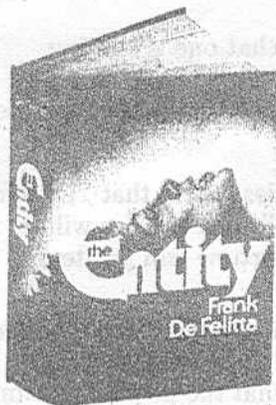

The questions Awareness is referring to have been previously published in 'Revelations of Awareness' No. 80-9 (\$3.00 from C.A.C.) These concerned 'Project Invisibility'--Einstein's Unified Field Theory, and the question about Raising the Kundalini, and the question 'Do C.A.C. members have more sexual energy?'

QUESTION:

How common is this phenomena?

COSMIC AWARENESS:

This Awareness indicates this as relatively uncommon, yet more common than entities would believe.

QUESTION:

What attracts these entities to certain people?

COSMIC AWARENESS:

This Awareness indicates that this relates in part to entities being receptive or subjective in their consciousness, wherein entities fear such beings, become obsessed with such thoughts, become subjective to imaginary beings, these entities open up for such invasions. This Awareness indicates that entities who have strong imaginations and in their imaginings perceive forces and then begin to define the type of force being perceived as being a negative force and then follow this with a fear of that negative force, these entities can easily become fixated or obsessed with the fear of that negative force, and coupled with a fear of being raped, can in fact draw in the negative force as part of their own repercussions for such thinking.

This Awareness indicates that once this occurs, it can intensify so greatly that it becomes a reality rather than merely a fantasy and marks can be left. This Awareness indicates this is similar to actions wherein a hypnotist may tell a person that they are being nailed to a cross or tell the entity that they are a composer of great music, and the entity believing himself or herself to be nailed to a cross may suddenly find bloody holes in their hand or hands.

This Awareness indicates the entity being told under hypnosis that he or she is a great composer may find himself or herself capable of playing beautiful music even though not normally able to do so. This Awareness indicates that wherein an entity has allowed auto-suggestion to convince the entity that they are being attacked or over a period of deepening suggestions have led the entity into this situation of feeling and believing that they are being hounded and eventually attacked and raped by such a force or entity from another dimension, then indeed this can become a reality and show external evidence.

REALITY AND IMAGINATION -- NO DIFFERENCE

This Awareness indicates that entities ever and always wish to think that there is a division between reality and imagination. This Awareness indicates that entities ever and always wish to think that reality relates to science and imagination relates to illusion or religion or fantasy. This Awareness indicates that nothing can be further from the truth, for imagination is that which builds and creates the reality which entities enjoy or despise. This Awareness indicates that the consciousness is that which creates the reality, that the idea, the concept, if dwelled upon long enough, becomes a manifestation in the physical sense. This Awareness indicates that likewise, to remove something which is physical, entities must begin by imagining that being elsewhere, disappearing or leaving. This Awareness indicates that very wise entities realizing this phenomena, have set about to attempt to erase this type of manifestation by simply stating, that anything other than that which is scientifically and rationally provable is mere fantasy and does not exist.

This Awareness indicates that this was a way whereby these entities could eliminate much of the phenomena which occurred when entities delved into imaginary worlds and created these types of demons which possessed them or which hounded them or which caused mischief for others. This Awareness indicates these entities in stating that this is mere imagination, could be termed rational and scientific, and in so doing could imply that the imaginary was unreal, was mere hallucination and did not exist -- this would allow entities being trained in the rational and scientific schools not to be subjected by those imaginary or fantasy demons.

AN EXERCISE ON HOW TO EXPEL DEMONS

This Awareness indicates this allows entities to consider that type of thing as being merely superstitious. This Awareness indicates that this also prevented many of these possessive beings from having energy on which to feed in order to possess entities in the physical realm. This Awareness indicates that this became a kind of program during the past several hundred years, for Christian nations in particular, so that they could avoid anything of a psychic nature, avoid creating demons other than those which they wished, such as Satan and his imps. This Awareness indicates that these imaginings, whether they be demons or deities, are only capable of being manifested or having energies when entities believe in them and send them energies and conjour them up with their obsessions and their focusing and their belief in these entities, -- the more energy directed toward such entities, the more certain and more powerful they become.

This Awareness indicates that the best way to create such a demon is to say to yourself that one is coming, whether you believe this or not. This Awareness suggests that this is an action of a stupid idiot who wishes to be hounded by a demon. This Awareness indicates the best way for an entity to rid themselves of a demon is to state, "The demon is leaving my life, whether I believe this or not."

Luck This Awareness indicates that as entities make affirmation of this type and wherein entities affirm that "Entities are coming to save me, higher spiritual forces are protecting me, whether I realize it or not," such entities will in short time find that their luck has changed and they are indeed experiencing greater good fortune and greater harmony.

This Awareness suggests that also you let every affirmation be accompanied by a physical ritual: this can be the clapping of the hands after such a statement, or stamping the foot, or lighting a candle, or falling to your knees and giving thanks to those higher spiritual forces. This Awareness indicates it matters not what the physical action is, but the same action should be used each time after giving an affirmation so that your subconscious accepts that particular action as being likened unto a physical christening of the affirmation.

This Awareness indicates that when a ship is ready to sail, it is christened as it is put afloat. This Awareness suggests that when you affirm a concept, if you wish to have valid purpose that you also accompany this with a physical action or ritual. This Awareness suggests this be considered as a christening of that concept. This Awareness indicates this can be as simple as the snapping of your finger or as complex as a three day ritual. This Awareness indicates that the complexity or simplicity of this physical action to accompany your affirmation depends on what it takes to convince you that this is in fact happening. This Awareness indicates that if you still have doubts as to the validity of your affirmation, then you should go through longer rituals, devise something more complex which becomes a satisfaction to you and leads you to feel that in fact your affirmation surely is truthful. This Awareness indicates that if you believe the affirmation which you have given, then a simple snap of the fingers may be enough. This Awareness suggests that you may wish to develop certain rituals of your own for the grounding purpose, or you may wish to use rituals which are available in books or through messages from this Awareness. This Awareness indicates that there is the Banishing Ritual and the Invocation Ritual which can also be used. *

CATS AND DOGS FOR PROTECTION AND BANISHING FORCES

This Awareness wishes also to comment on the use of animals: that essentially the dog is an animal which is much like the Banishing Ritual, in that the dog keeps away certain types of forces. This Awareness indicates that wherein entities are hounded by forces which they do not like, whether these are physical or psychic, to have a dog of any size--particularly the type of dog which will bark if startled, bark or growl. This Awareness indicates that this will serve as a banishing type of force.

This Awareness indicates that wherein entities wish certain types of energies to assist them, that a cat is that which invokes protective types of energies. This Awareness indicates that many witches use cats; that the purpose of the cat is to draw in forces for their deeds. This Awareness suggests also that entities need not draw in negative forces, that it depends on your motive and the type of force you wish to draw in. This Awareness indicates that a cat can be in your presence and its purpose may be to keep you surrounded by high spiritual forces, drawing forth or invoking the higher forces or energies for your purposes.

This Awareness suggests that if you get an animal which is unruly, it can often indicate at times a force which is attempting to get to you and may need to go through your animal first and the animal stops the force. This Awareness indicates when this occurs, you can be aware of the force as it operates through the animal. This Awareness indicates the negative forces always move through the weakest area possible, that an animal can be a weak area and allow the negative force to channel through it. This Awareness indicates when this occurs, you may wish to do the Banishing Ritual on the force operating through the animal. This Awareness indicates that in some cases it may be necessary to get rid of the animal and to get another animal which is stronger. This Awareness indicates that in the action of an animal who is continually possessed by a negative force that it often is most efficient to get rid of the animal rather than attempting to deal with the force. This Awareness indicates this depends on the strength of the individual; that some entities can keep an animal around which is inhabited by a negative force and in this manner will know exactly where the negative force is at all times. This Awareness indicates that other entities would not be able to deal with this and would feel threatened by the animal and the force which inhabits the animal.

This Awareness wishes entities to understand that as previously mentioned, none of this can come about except through the opening, the doorway which entities create by imagining negative forces attacking them. This Awareness indicates that while negative forces do wish to attack anything that is attacking them, and can in fact attack entities who are innocent, that the negative force cannot gain foothold except wherein someone or some force gives them the energy to do so. This Awareness indicates this does not mean that if an entity is being attacked by

a negative force that the entity alone is giving the energy to that negative force to bring about that attack, for the entity attacking, the negative force which is attacking the being may be receiving its force and energy from another source.

HOW TO COUNTER A BLACK MAGICIAN

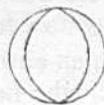

This Awareness gives an example: Source A directs Source B, the imaginary entity to attack C. Source A continues to imagine a being, letter B, who will do his or her bidding to harm C. Source A continuing to feed energy to B eventually creates enough energy known as B, that B then moves to attack C. C, being innocent, does not recognize what is occurring, except that there appears to be some force which is attacking. This Awareness indicates that this is an action known as black magic. This Awareness indicates that in some cases black magic avoids B and goes directly to C from A, sending energies. This Awareness indicates that for C to be protected from this type of energy, C must recognize the attack, then build a shield around himself or herself, so that the shield will not allow a penetration of these energies.

This Awareness indicates the shield may include physical shields such as doors, locks on the doors, or symbols such as candles or crosses or whatever types of symbols would satisfy the entity's needs, or an animal to protect the entity; or the entity may simply be successful by visualizing a white shield--a shield of white light, or the *Law of Love*--operating around the entity for protecting the entity against these forces. This Awareness indicates that the entity may also choose to visualize the force which is being projected at themselves being directed toward them for destructive purposes, striking the shield and bouncing back on the entity who is projecting that force. This Awareness indicates that this is a way of reflecting the black magic back upon the magician. This Awareness indicates that again a physical action must accompany the imagery process--wherein an entity images a field around themselves, there also should be a physical action to ground this image into reality. This Awareness indicates that in reflecting back the image or the energy of the black magician or negative force, the entity must feel satisfied and unafraid, must feel confident that the force has not penetrated the shield, --the imagined shield--and when the entity feels this, then there can be no penetration. This Awareness indicates that if the entity does not feel satisfied and is simply hoping the shield will withhold the attack, then the entity is working with a thin protective device.

This Awareness indicates that to strengthen the device, the entity then must repeat the imagery process again and again until satisfied, and, or, create physical actions or rituals which reinforce the imagery process. This Awareness indicates that in bouncing back the energy from the attack of the black magician or black force, (the negative force), the entity may wish to transmute that force into white light, with the idea that the black magician has sent negative energy toward yourself, but you shall change this and turn it into light, and this light shall return to the black magician and shall destroy the darkness and light up the entity toward higher divine purposes. This Awareness indicates this is much more damaging to the black magician than to simply throw his or her energy back to them, for they do not mind their own energy coming back so much as having transmuted energy coming back to change their entire being from dark to light--such entities actually fear light. This Awareness suggests that this as being the most appropriate method whereby entities can deal with dark forces of this type.

This Awareness suggests that you also may visualize wrapping that Dark Force with the *Law of Love* and chaining the force or binding the force with a series of hooks or circles in the form of the *Law of Love* symbol--this being intended as a kind of cocoon to light up the entity and turn the black heart into a loving heart--to turn the darkness into light. This Awareness suggests that these images of the *Law of Love* be such that they appear as clear white light wrapped around the Dark Force, and completely enclosing that force, causing it to light up and making it so that it cannot escape the brightness of the light.

*The Banishing Ritual was given by Awareness and is taught to all entities taking the Cosmic Awareness Development Classes. (These hopefully, will be available later on to the C.A.C. membership on tape. Similar rituals can be found in the works of Israel Regardie and Ophiel and W.E. Butler etc. in their various works on ceremonial magic.)

Symbol for the Law of Love

WHERE DID THIS DEMON COME FROM ?

QUESTION:

In light of what Awareness has just said, it seems more probable then that the lady in this actual case history created this entity out of her own mind and energizing--sort of like St. Twinkle could be created, rather than it being an actual astral entity. Is this correct?

COSMIC AWARENESS:

This Awareness indicates not necessarily, and it appears that in this case this was not so. This Awareness indicates it appears that this entity was given energy from another source, someone who knew this lady, who held hostility toward this lady and who directed this force toward her after feeding this force the hostility and energies which were necessary to allow it to have the power to manifest as it did.

This Awareness indicates the lady did allow herself to become vulnerable. Had she understood how to deal with these forces early enough, she could have warded off that energy before it ever became a strong force in her life. But after this force became well entrenched in her

life, occupied her consciousness, became extremely significant to her, then the force becomes such that it is extremely difficult to defeat.

THIS DARK FORCE WILL PURSUE THIS ENTITY
EVEN AFTER DEATH

(How the C.A.C. membership can help)

QUESTION:

In the book the entity tried to kill her several times, and the reader is left with the uneasy feeling that the entity is going to track her even after she leaves this plane in death, and manages to maintain a hold over her. Is this possible?

COSMIC AWARENESS:

This Awareness indicates this in the affirmative, that this will continue until interference with the entity, to stop this entity, or wherein the woman herself learns to face the entity without fear and deal with the entity on a one-to-one basis. This Awareness indicates that the entity as becoming obsessed and gaining greater energy from the woman's fear.

This Awareness suggests that entities upon hearing about such can assist to stop this type of energy by following the method previously described. This Awareness suggests your readers may wish to send white rings of fire shaped like the *Law of Love* toward this black force, wrapping this black force, imprisoning this black force in these rings of white light until the force is neutralized and transmutes into a higher being--this to preserve the woman from further harassment. This Awareness indicates that it will only take a few entities sending these images to stop that force and neutralize the energies which have been built. This Awareness suggests that a grounding action accompany such images; that also entities may wish to write to the woman to assure her or inform her of what is occurring. This Awareness suggests that this may be accomplished through the publisher of the book.*

*You can write to the author, Frank DeFelitta, care of the publisher as indicated on page 2 of this reading.

EARTH-BOUND SPIRITS CAN ALSO RAPE PHYSICAL BEINGS

QUESTION:

One final question in relation to this type of activity. There was a book written by Dr. Nandor Fodor, I believe, a number of years ago, called *Between Two Worlds**, telling how he investigated a similar type of violation--this time also with a woman--but his conclusion was that this was an entity (someone very famous who had made a name for himself in Vietnam on some type of missionary work, who had died of cancer just a few months before), and it was this entity who was ravishing this woman. And my question is, is this type of violation also possible by an entity who has just recently left his body and has not gone into other dimensions, or perhaps an earthbound spirit?

COSMIC AWARENESS:

This Awareness indicates this in the affirmative. This Awareness indicates that these entities, earth-bound, who move into mere physical manifestation, this requires great energy and these entities must receive this energy from someone on the physical plane. This Awareness indicates that the entities themselves may exist in the astral or spirit level, yet to have an effect on the physical plane these entities must receive certain amount of energy from someone

on the physical plane. This can occur through the entities of a physical nature using drugs or alcohol or being such that they project energies of a low vitality,---that a low vibration can be utilized by these astral entities.

This Awareness indicates astral entities also enjoy feeding off of blood and concepts of blood,--that horror movies and movies of violence or acts of violence or places of violence can give astral entities energies to drive them great distances for their purposes.

This Awareness indicates that these astral beings can also feed off of emotional discharges from physical entities. This Awareness suggests that generally speaking however, they do not except in cases of karmic obsession---they do not attack entities in this manner unless driven by some other force, or invited by the entity through some kind of action or invitation, or unless they hold that entity by an obsession which is based on a karmic obligation which has not been discharged.

QUESTION:

Then this type of activity would fall under the classification of Incubus and Succubus---is that correct?

COSMIC AWARENESS:

This in the affirmative.

* "Between Two Worlds", by Nandor Fodor; Parker Publishing Company, Inc., West Nyack, N.Y. (C.A.C. does not stock this book).

ED's Note: the chapter in this book which tells about this lady who is ravaged nightly by an astral entity who actually materializes and talks to her, is called "Lo, The Incubus". The ravisher--a world-famous Catholic doctor, who wrote numerous books, and gained a wide reputation as a "Saint" for his alleged dedication to a suffering humanity in the jungles of South East Asia, was not actually named by Dr. Fodor "to avoid a national scandal for besmirching the reputation of an all-American hero". (Those who remember the "Tonight Show" with Jack Paar, can draw their own conclusions). The woman in this case history who was constantly assaulted by this spirit doctor, had worked for him previously and had admired him greatly. This story, weird as it may seem, makes much more sense to this editor, as this confirms what Awareness has just indicated, that a living entity must supply the energy which then calls forth the earth-bound entity. Dr. Fodor had arrived at this conclusion also.

THE CLEAR LIGHT CAN PROTECT THE ENTITY FROM FURTHER ASTRAL ASSAULTS

QUESTION: (From a later reading)

There was one question relating to the question yesterday about the Incubus and Succubus, wherein Awareness indicated that after the physical death of this lady who was assaulted by an astral entity, that this entity could follow her into those other realms. Now, if she goes through the Bardos and through the Light, would this entity still be able to pursue her?

COSMIC AWARENESS:

This Awareness indicates that the entity, at the moment of death, moves toward that which is the Clear Light. This Awareness indicates that an entity clinging to the Clear Light, remaining or residing in the Clear Light, will be protected from any other form or force in the Universe.

This Awareness indicates that whereas the entity moves toward the Clear Light but fears the light, for fear of being revealed unto oneself, then the entity may retreat back into darkness and in so doing become vulnerable to attacks by such forces. This Awareness indicates that the entity after passing through the Clear Light, then moves into those realms wherein other sounds, other colors, other lesser lights create different forms and different images. This Awareness indicates it would be during such times that these forces, or this force which is pursuing the entity, would make itself known.

This Awareness wishes to remind entities that as is indicated in the *Tibetan Book of the Dead*, these wrathful deities or as many refer to them, these demons, are but extensions of their own consciousness. This Awareness indicates that wherein entities face these demons, even though created by themselves or others, they can have no effect upon an entity unless the entity recognizes them as having power. This Awareness indicates that wherein you do not give such being, or such images, or such hallucinations if you prefer, energy or give these the attribute of power, then indeed they have no power over you. This Awareness indicates this in physical or in the world beyond.

This Awareness indicates that this of course does not deny that they can have some influence on your life, but rather that they cannot overpower you unless you give them that attribute. This Awareness indicates that *It* does not in any way recommend that entities avoid recognition of *what is*, but rather that entities recognize these for what they are.

ED's Note: 'The Tibetan Book of the Dead' is listed in the C.A.C. book catalog.

Occult literature is full of accounts similar to the ladies in this reading. However, the Incubus, or male, is not always the predator. The female counterpart, called the Succubus, is an earthbound entity with an insatiable sexual appetite who preys on males. It was common belief in the Middle Ages that the Devil himself could easily assume female form, to tempt some male saint such as the beleaguered St. Anthony. It was a short step, therefore, for the Incubus and Succubus to be seen as the same devil, putting on a male body one night to visit a woman, a woman's body the next night to tempt a man. Out of this idea came the belief that devils, spirits or not, could impregnate humans. Many young women, including, during the Middle Ages, quite a few nuns, claimed rape by an incubus when the loss of their virginity became evident. Naturally, it was assumed that any lewd thoughts entering the sleeping mind of a devout and celibate churchman, must have been sent by a devil. Other nuns who recounted great 'ecstasy' during these nocturnal visits by Incubi, credited this to Jesus coming upon them. Several of whom, I believe, later were sainted by the Catholic Church for these sexual miracles.

Evidently the Incubus is alive and well. C.A.C. received a letter the other day from a woman who saw our ad. (Her letter is what prompted this editor to put this particular reading together so we could send her a copy). Her letter is as follows:

"Dear Whomever. I saw your ad in the paper. I don't know how much you charge for your services. Please let me know. I am a responsible lady. I am curious about myself. From time to time, I see visions. I have been visited by dead men. At first I thought it was one man, however I believe there have been more than one.

I am single, have been married twice--not happily. First husband died, the second one left me. Many men loved me when I was young, but no one lasted with me. I have been abused and kicked around most of my life. The strange thing is dead men have sex with me. It is very real! I've seen a blond man and I have seen dark men too. The last one was only a boy. I talked to him, and asked him his age. This boy told me he was 16 years old. I asked him what he wanted with a 65 year old woman, and he said, "Because we love each other."

At that point, I felt very happy and asked him to kiss me, which he did. Now, nothing has happened for a few months, but it always comes back. I fear it, yet I feel good when, during these times, I feel a pair of very strong arms around my waist. The person is always back of me. What does it mean? Or am I going crazy? Please help me. (I am a fan of Edgar Cayce)."

We will send this lady a copy of this reading and perhaps it will help clarify what is happening to her.
