(Helping people become aware)

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

How you can help prevent nuclear holocaust

NUCLEAR FIRST-STRIKE BY U.S.
RESCHEDULED FOR LATE FALL
(Removal of Reagan would defuse situation)

Opening Message:

This Awareness indicates the energies in motion at this time, in regard to the attempt to initiate a nuclear first-strike against the Russian empire, as that which has not sufficiently been defused, and as that which has still a strong possibility of occurring. This Awareness indicates that while this may occur on schedule, as indicated by the entity Dr. Beter, in mid-September, this Awareness indicates that it appears more likely that this shall be rescheduled for a time as indicated previously by this Awareness in the late October or early November period.

This Awareness indicates that the energies on this are still in flux; that the adjustments which were to have taken place have not been sufficient to defuse this energy. This Awareness indicates however, that there has been some diminishing of the energies so that a delay may be in order, which in turn can allow more time for other activities and efforts to further defuse these energies. This Awareness indicates that this condition as that which is of such secrecy and such nature that it may not be defused until the last minute, whereby those forces, in their preparation for strike, are put out of commission, unable to carry forth the plan.

This Awareness indicates that entities may also watch carefully for other earlier defusing of this: that wherein the United States President is removed or resigns from office, this shall be an indication of the defusing of this energy. This Awareness indicates there are other forces at work; that entities not be overly concerned about what to do if nuclear war occurred. This Awareness indicates essentially, it is not possible for entities, in the event of nuclear war, to fully escape from its ramifications; that to move elsewhere would only put off the experience. That wherein entities are in Ground Zero, they would be immediately removed from this plane. Others in more remote areas would experience a more lingering type of radiation effect, and eventual removal from this plane.

This Awareness indicates that the indications are that there can be no winners or healthy survivors from a nuclear war, even though there are those who believe that by hiding underground and in various holes, they will survive healthy and wealthy and powerful. This Awareness indicates that for the members of *Cosmic Awareness Communications*, and those receiving this information, this Awareness suggests that rather than concern yourself with escaping or finding shelter, this Awareness suggests you concern yourself more with preventing this action from occurring.

This Awareness indicates that through efforts to communicate with inner plane energies through meditation, it is possible that entities, by meditating for approximately ten minutes daily, can have a profound effect upon the energies on this plane. This Awareness suggests that entities in meditating for longer periods, such as 30 minutes daily, can have an even greater effect, particularly wherein all entities of the *Cosmic Awareness Communications* organization are meditating for these 15 to 30 minutes daily, on the concepts and energies.

This Awareness suggests that the activities of a previous reading, whereby the doors of the inner plane were opened onto this plane, this opening as that which allows entities in their meditations, to move into these higher realms in the inner planes. This Awareness suggests that movements into these areas may be of great benefit in helping to adjust those energies from those inner planes so that the physical plane begins to realign properly, and the power being given to those forces of destruction may be removed.

This Awareness indicates that *It* wishes to warn entities that in their movement into these inner planes, to be wary of the lower doors of self-service, and to move into those higher realms of serving the planet, serving society and serving the planet earth in its need for harmonizing with the Higher Forces. This Awareness suggests that in your meditation during these coming weeks, by moving into those openings in the inner planes, giving 15 to 30 minutes daily to meditation, visualizing the Light Forces moving upon this planet; this action, while being of a high order, without self-serving purposes, is that which can be of great value in helping to prevent this nuclear holocaust from occurring.

THE MEDITATION TO PREVENT THE HOLOCAUST

This Awareness indicates that the following procedure as that which can be suggested for meditative assistance:

This Awareness suggests that you visualize a sphere symbolizing the universe. That you visualize your consciousness moving into the very heart, the very center, the Light Force within that sphere, or universe. This Awareness indicates that you then feel yourself surrounded by this Light Energy, in the very heart of the Light Energy, permeating, radiating outward into the universe. That you visualize levels of reverberating planes, energies, ripples of consciousness moving out, ever out from your center.

This Awareness suggests you visualize that out in those ripples of consciousness there is that which is the physical plane, and the planet earth. This Awareness indicates that you visualize looking at these ripples in consciousness, and seeing those lines which move from where you are, down through these planes, through these energy fields, through these various dimensions of ripples. This Awareness suggests that you see these energies becoming more physical as they move out from your central being, and the Light Energy emanating from that center.

This Awareness indicates that you visualize the higher planes, those closest to that central light, as being clear and as being capable of emanating and carrying that light. That you then visualize each of those ripples as being polished, so that the light moves through more clearly, so that self-serving actions of entities within those planes is placed aside, to allow the light to move through into the next ripple of consciousness, into the next plane, into the next dimension, and down into this physical plane so that entities in this physical plane, with the help of Divine Light, can see those self-serving actions for what they are, and can make adjustments to bring about the harmony necessary to prevent that nuclear holocaust.

This Awareness suggests that this meditation be detailed and be experienced carefully, lasting for approximately 15 minutes to 30 minutes daily. This may occur prior to bed-time, or upon awakening, or at any time of your choice. This Awareness suggests that entities who participate in this action can be of immense service to humanity in preventing this potential holocaust. This Awareness indicates that the opportunity for this service as that which is given to entities at this time, so that all may benefit, and that those involved in giving this service may be rewarded for their service, according to their motives and the degree of energy given.

...THE BEAST IN MOTION:

ISRAEL'S GENOCIDE...What's behind it?

QUESTION:

Awareness, how about this slaughter that Israel is carrying on in Lebanon? There are many entities now that are saying that this is genocide. That Israel is deliberately wiping out an entire people, not only through bombing and all this slaughter of the war, but through pestilence that is being set up. What does Awareness see is the end result of this carnage and violation that is continuing week after week over there?

COSMIC AWARENESS:

This Awareness indicates that this as part of a program to involve the entire Middle East. This Awareness indicates that this action as intended to give the impression that Israel is without restraint, so that when it moves into further actions against other Arab nations, it will be seen as not being in control of its sensibilities, so that even as it is in its actions of expanding the violence and promoting war's destruction, it will be seen by some as being likened unto an insane dragon, bestial in nature, whereby great hatred and hostility will be felt, stirring up emotions and reactions against Israel, so that attacks against Israel may occur, and further spread the excuse and efforts to create greater war in the area.

This Awareness indicates the extreme restraint shown by certain Arab nations is because they are aware that Israel is being used to trigger greater violence in that area. This Awareness indicates that the efforts to be restrained, to solve peacefully and through negotiations those actions of war and violence in the Middle

East, this effort to remain restrained from reacting to Israel is that which is an attempt not to play into the trap set for these Arab nations, whereby they would become involved in war with Israel, and thus open up the doors for involvement of the United States and Russia.

This Awareness indicates that this has all been explained previously through the information given by Dr. Beter, and other sources, and is simply a step along the way of that scenario previously indicated.

LEBANON IS A CHRISTIAN NATION:

IS THIS A RELIGIOUS WAR BY THE JEWS?

QUESTION:

There have been some publications stating that Lebanon is about 75% Christian, and that this merciless slaughter of women and children by the Jews over there is likened unto a religious war. Is there any truth to that?

COSMIC AWARENESS:

This Awareness indicates this to some extent. This Awareness indicates essentially, the entire action of the Middle East flare-up may be equated to a religious war, but this religious war is based upon economic and political efforts to acquire control over territory and people. This Awareness indicates that this including the control over people's minds and souls. This Awareness indicates that it also could be argued equally as accurately, that it is an economic war making use of religious differences, and philosophies and cultural diversity.

This Awareness indicates that regardless of the label as a cause of war, the purpose is conquest and domination.

**ISRAEL'S PLAN TO NUKE
SAUDI ARABIA**

QUESTION:

In a recent *SPIRAL Mobius*, put out by Audrey Patrick, she reprinted some of the latest classified information placed by the mysterious Broder of New York, which he puts into the Village Voice newspaper, and several of these mention that what's happening in Israel now, is that this is all leading up to Israel nuking the oil fields of Saudi Arabia in the next month, if not sooner. Does Awareness see this as holding any truth?

COSMIC AWARENESS:

This Awareness indicates that this as part of the plan. That this as that which has been previously indicated and explained approximately two years ago, by the entity Dr. Beter. This Awareness indicates that this action as not being the final purpose or end, but as being a part of the planned program for conflict between the United States and Russia, and the efforts of conquest and domination over the peoples of the earth.

This Awareness reminds entities also of the book, *The Third World War*, which similarly describes this scenario.

WILHELM REICH'S CLOUD-BUSTER

...Will it neutralize radioactivity?

(MORE ON ENERGY & WEATHER WARFARE)

QUESTION:

Harvey Larsen recently published an article taken from the June 1982 Energy News Digest, and I'd like to read a little of this and ask Awareness to comment. I quote:

"Advances in high energy physics are compelling scientists to discard long held theories about the behavior of matter and energy. One result is, the followers of Dr. Wilhelm Reich have been encouraged to believe that men of science will have more of an open mind about some of Reich's 'far out' suppositions and the real meaning of some of the experiments he and some of his successors have performed.

Worldwide concern about future sources of energy have popularized some of Nikola Tesla's dramatic demonstrations. There seems to be a wide-spread hope that energy abounds in the universe, and therefore should be essentially free, not monopolized and manipulated by capitalistic system managers.

For a long time, inventors have been intrigued with obtaining the enormous quantities of hydrogen locked up in ordinary water. Hydrogen seems to be a practically free, non-polluting fuel.

The reality of the world's present situation compels our highest priority attention to be focused on the still-expanding nuclear industry with its output of nuclear technology for generating electricity and, even more widespread, the nuclear arms industry. Given ordinary human fallibility, the intensely radioactive fission products that are produced in the manufacture of nuclear fuel and weapons material, and the radon gas and daughter products inevitable in the mining of uranium, have caused scientists and physicians everywhere to recognize the nuclear activity as the leading threat to man's survival. For a long time, tales have circulated about what happens to inventors of "free-energy machines" and many of Reich's theories having to do with orgone energy and its possible effects on nuclear fission and contamination from nuclear wastes.

In the literature there is some information which raises the hope that a device Reich developed and used could prevent fission and neutralize or render harmless the deadly radioactive materials. Conventional physicists dismiss this whole area as "off the wall". But there was something going on at the time Reich brought his "cloud buster" to Tucson in 1955 to break the drought which was expanding the desert at a frightening rate. Similar in effect to Reich's controversial Orgone Accumulator, the cloud-buster is an array of pipes of varying composition and length mounted on a rotating base so that it can sweep the horizon over 360 degrees. An Accumulator and collecting vessel which is grounded make the device function. It appears to have the ability to dissipate the heavy deadening layers of air that result from the operation of nuclear fission reactors and which according to Reich were causing the desertification of the South-West in the early '50s. During three weeks of operating near Tucson, Reich's cloud-busters

Partial or monthly payments are also acceptable by Wisconsin Report. Also, you can order backissues for only 30 cents a copy. appear to have removed the pall, restored the flow of life-giving energy from outer space, and stimulated natural rainfall.

It was later reported that during the period the cloud-buster was operating, none of the nuclear fission reactors at Los Alamos, hundreds of miles away, would function.

It has been reported that during a sequence filmed for the TV program *That's Incredible*, (to be aired in September), experimenters were shown using the cloud-buster to drastically alter weather patterns. It is believed that weather modification is being practiced on a wide scale by the U.S. and the USSR for military purposes, and that one of the techniques makes use of Tesla's so-called "columnar standing waves".

Like so many aspects of the war that is going on between the super-powers, as publically revealed by former President Nixon, the general press does not discuss the military and economic aspects of geo-physical warfare which include, in addition to weather modification, the production of earthquakes."

And it goes on and on. My basic question is, is this valid information that Reich's cloud-buster can neutralize radioactivity?

BACTERIA THAT EAT RADIOACTIVITY
(More on earlier nuclear holocausts on earth)
and Global 2000 Conspiracy

COSMIC AWARENESS:

This Awareness indicates that this as in the affirmative; this as neutralizing to a certain degree, for varying types of radioactivity. That modifications of this device as that which could be created for affecting other more potent types of radioactivity. This Awareness indicates this essentially has already been developed, and is available in the Soviet Union. That the United States also has developed certain of these principles for application of neutralizing radioactivity.

This Awareness indicates there also is a particular bacteria which has been found to flourish on radioactivity, and transmutes the energy into that which is beneficial to life forces. This Awareness indicates it is this bacteria that enabled the earth to restore life forces after a previous nuclear holocaust on this plane, during the Atlantean epoch and prior. This Awareness indicates that there have been other times when nuclear energies were unleashed upon this plane, and the bacteria flourishing on those radioactive energies transmuted those energies into more brief lifespans, so that repair of the earth and life forces could occur.

This Awareness indicates that the government is aware of these bacteria. This Awareness indicates that this, however, does not protect the masses from nuclear holocaust or the radiation which would follow, except in the event that entities had access to this bacteria or these technological developments. This Awareness indicates this as part of the arsenal of recovery planned by those who are behind the promotion of nuclear holocaust.

This Awareness indicates that this entire action as also connected to the Global 2000 plan of reducing population on the planet earth.

THE REICH CLOUD-BUSTER...

How to build one!

QUESTION:

There's a follow-up article written by Richard L. Clark, PH.D (a consultant system engineer and listed in 'Who's Who in the West') concerning this Reich system, and its called "*System Engineering: The Reich Answer to Nuclear Weapons, Reactors and Waste*. I'd like Awareness to comment on this.

It says:

"The research of Wilhelm Reich describe the reaction of Orgone Energy to nuclear material--that is, it increases tremendously the rate of decay (half life) of the nuclear materials. Thus, a nuclear weapons system, reactor pile, or waste area bombarded by Reich Orgone Energy would fail-safe by losing its radioactivity potential and becoming an inert mass. Fifteen minutes of exposure to Orgone Energy would reduce the core of a typical nuclear reactor to lead. This process would normally take millions of years. Orgone Energy and nuclear radiation energy are perfect antithetical systems and cancel each other out without harmful human or environmental side effects of any kind.

The Orgone Energy immersion system that would be most applicable to deactivating nuclear systems of *all types* would be the Reich Accumulator Cloudbuster System. The design for Cloudbusters is attached. The range of a large Cloudbuster is almost infinite and limited only by line of sight problems. The energy transfer functions are near linear unity and *not* the square of the distance losses of ordinary energy systems.

Simple construction and testing of a Cloudbuster on a nuclear sample will convince even the hardest skeptic that there is no *real* nuclear problem. There was only a technology gap between pro-nukes and anti-nukes. Now that knowledge gap has been diminished to zero.

A secondary issue that portable Cloudbusters would settle is the Government's denial of the existence of UFOs, or flying saucers. The Cloudbuster can shoot down these officially nonexistent objects with ease. Reich himself proved this fact 30 years ago; the Government knows this. The saucers are very real and very earthly in origin. Their primary power is a nuclear reactor --thus the Cloudbuster can *deactivate* them.

The Russian spy satellite with its nuclear reactor powered radar over the Malvinas is typical of the nuclear farce. All the major powers are fully aware of the effect of Orgone Energy on nuclear material.

An Orgone Energy shield, easy and cheap to build, would render any country invulnerable to nuclear attack.

Perhaps now the lying Government-financial-scientific control elite will have to face and openly discuss *reality*:

THE NUCLEAR AGE IS ENDED.

I hereby give anyone permission to publish or copy all or any part of the above data."

Richard LeFors Clark, Ph.D.
4015 Crown Point Drive, F-3
San Diego, California 92109

(May 20, 1982)

And he included an illustration of the cloud-buster. I'd like to ask Awareness, is this information valid? And is the illustration of the cloud-buster device functional?

COSMIC AWARENESS:

This Awareness indicates that the information as essentially valid, and the description of the device as that which is accurate insofar as is given. This Awareness indicates however, that until entities are protected by such devices from the powers of the nuclear menace, the knowledge is useless insofar as its application is lacking. This Awareness indicates that when it becomes applied as an energy which neutralizes the nuclear menace, then indeed it can be said to have brought an end to the nuclear dangers. This Awareness indicates that this area as that which is a relatively controlled field of technology, limited at this time, and those who have these nuclear weapons and the abilities to neutralize these nuclear weapons are those who hold power over the masses, who do not have such technology.

This Awareness indicates that so long as those holding power over the masses are willing to use that power at the expense of the masses, the question of cancellation of nuclear menace is a moot and meaningless question. This Awareness indicates that to have a weapon which can be defused by the one who holds the weapon does not give much assurance to the entity who is threatened by that weapon.

WHY BOTHER TO BUILD MORE BOMBS ?
...(How the government finances psionic warfare)

QUESTION:

Well, this article, and others, implied that both the United States and Russia not only have perfected these systems, but are using them also in conjunction with the weather warfare, so my point is: if this is true, why do both countries continue to manufacture more nuclear bombs, bigger super-bombs?

COSMIC AWARENESS:

This Awareness indicates that these forces as still in experimental levels and that there are still efforts in these areas to neutralize each other's developments, to get around the developments the other country has created, in order to have the upper hand. This Awareness indicates this as all likened unto games played by those who do not fully comprehend the seriousness of the games. This Awareness indicates that wherein an advancement is made in a particular area, there is always the request and duty of entities to find some way to get around that advancement, whether it is a defensive or offensive weapon, and therefore, the military competitive action continues to create more and more technology, countertechnology, advancements and counter-advancements.

This Awareness indicates that many of those alleged armament expenses are put into development of other forms of technology than that which is given to the public. That there are greater expenses in the development of these new physics

coming from radionics concepts, Tesla and Reichian theories, so that rather than explaining to the public that money is being spent for psionic warfare and armaments, the government explains it as missile and atomic weaponry which is already understood by the public.

QUESTION:

The illustration this entity put in this publication of the cloud-buster claims that anybody can construct one of these with approximately an hour's working time. Does Awareness see this as being valid? That entities could construct this, or should construct this for their own protection?

COSMIC AWARENESS:

This Awareness suggests that this can be beneficial, and by use of the diagram can be constructed by many entities, to be effective. This Awareness indicates however, that entities who attempt to use this on spacecraft may find themselves in serious trouble.

This Awareness suggests that entities in building this device should do so without seeking publicity in the actions, for it can result in adverse publicity.

QUESTION:

Well, it appears from what this article implies then, is that an entity could manufacture this and quietly put in the vicinity of say, the Trident nuclear submarine, or one of those nuclear generating plants that are contaminating the atmosphere, and this would neutralize the radioactivity and thus put these *out of business*. Does Awareness see this as possible?

COSMIC AWARENESS:

This Awareness indicates that this as possible, if created properly and with sufficient strength for the particular purpose. This Awareness indicates that this could cause much difficulties for entities who involve themselves in this kind of activity. This Awareness indicates however, it also may be used to neutralize radioactivity which is in an area near an entity's home, or whereby the entity needs protection from such, and in so neutralizing, may assist the entity in a healthier lifestyle. This Awareness indicates that the smaller accumulator as that which should be used for personal purposes, to improve one's environment and general health.

ED's Note: Hey, are you thinking what I'm thinking?

Wilhelm Reich was sentenced to prison by the Beast powers (he died in prison), and his Orgone Energy Accumulators were destroyed. His books were burned and banned (this less than 30 years ago, right here in the good 'ol U.S.A. Fortunately, a few master copies were sent to Canada to the Reich Institute and these books have since been reprinted and are available. C.A.C. keeps them in stock.

Several years ago, C.A.C. was able to also obtain copies of the manual, "The Orgone Energy Accumulator--Its Scientific and Medical Use" from Health Research, 70 Lafayette St., Mokelumne Hill, California, 95245. (Send them \$5 plus \$1 postage and handling and ask them for this manuscript. Also request their book catalog. This outfit is the best source of out-of-print occult type books and health books we have ever discovered). If the manuscript is out of print, let us know. We could Xerox our copies to make this information available.

(This manuscript gives detailed instructions on how to construct and how to operate the Orgone Energy Accumulator, which is a necessary component of the Reich Cloud-Buster device).

QUESTION:

Speaking of neutralizing radioactivity, there's a question in the file which I can't put my finger on, but essentially one of the members wanted to ask if an entity puts the copper wire around the house, as indicated previously by Awareness which neutralizes radiations from water pipes and wells, electrical wires etc.,--would this also neutralize any radioactivity that might be present, or might come down on them later?

COSMIC AWARENESS:

This Awareness indicates that this can be of some benefit, but that this as minimal in relation to large amounts of radioactivity and fallout.

WHO EXACTLY ARE THE BOLSHEVIKS IN THE PENTAGON? (NAME JUST ONE I)

Who is THAT woman who tells Reagan what to say?

QUESTION:

Harvey Larsen, in his *Crystal Ball* publication, now called *The Larsen File*, keeps publishing this question, so I'll read it to Awareness, and ask why this question hasn't been answered.

He says: "I have challenged Beter followers for quite some time to name any,--just one,--of the alleged 'Bolsheviks' who have been tossed out of Russia, and who have taken over control of our military in the United States, and to some extent, our political reins. Every single name of every single Pentagon official* and every American military and strategic official is that of one who has lived in the United States for his entire life, or at least for quite a few years.

'Since these are not the invading Bolsheviks from Russia (which Dr. Beter speaks of), then who are? Yes, I am willing to listen, (he says) but I have never received any response to that challenge issued in previous issues of this publication.'

*I wonder where Harvey got this information?

COSMIC AWARENESS:

This Awareness indicates that there are 12 entities who meet daily; these entities appear to be in Virginia. These entities as having contacts and influence with others who are more well-known. This Awareness indicates that there is a woman who briefs the President each day on what to say. This Awareness indicates it is in this manner that the influence is maintained, even while the appearance of autonomy in government is presented.

QUESTION:

Where could we obtain a list of the actual names of these 12 entities?

COSMIC AWARENESS:

This Awareness indicates that you could not obtain a name of these entities. That this as available only in those higher circles of those associated with the inner controlling forces of the Bolsheviks, and that certain of the Rockefeller forces or cartel as also aware of some of these entities.

ED's Note: Probably Culpepper, Virginia, which is the home of the huge computer tied into the Beast computer in Brussels, Belgium. Also, this is the home of the huge underground city which is stashed with food, drugs, money, clean air etc., which the war mongers plan to hide in (like rats) till the holocaust is over, then come forth and take over what is left of the world.

WHERE THE BOLSHEVIK CONSPIRATORS ARE LOCATED IN THE UNITED STATES

....THE CATHOLIC CHURCH CONNECTION

QUESTION:

Awareness has just mentioned 12 entities. Dr. Beter has talked about hundreds and even thousands of these Bolshevik entities. How come?

COSMIC AWARENESS:

This Awareness indicates that there are many entities. That these 12 are those who have the influence over the Pentagon and who are feverishly working to usurp any influence which is still held by the Rockefeller cartel, so that complete control of the United States government and its various agencies is under the influence of these twelve. This Awareness indicates there are other agents throughout these various agencies, and within the military itself. This Awareness indicates that there are also Mossad agents of the Israeli government within the various agencies, the CIA, the FBI, the Secret Service, and within the Pentagon. There are also KGB entities within these, and also within certain corporations and their networks and communicative systems. There are double agents. There are even triple agents. There are agents who are essentially free-lance. There are connections with the Bolshevik controls of England into those of the Catholic church, and there are connections of the Catholic church in relation to the Rockefeller cartel and the Rockefeller cartel has its connections and agents and puppets in South America, in relation to church and state and military.

CONTAMINATION IN THE CHURCHES AND IN THE FEDERAL GOVERNMENT

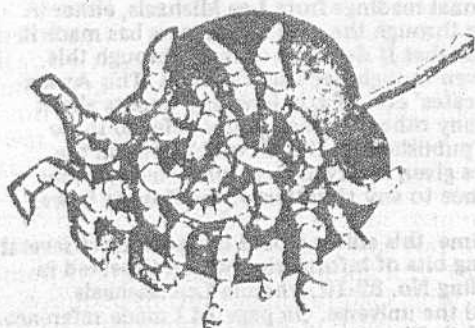

There are Bolshevik controls and connections relating to the religions of the Western world: the Council of Churches, the various Protestant and Catholic organizations, the Red Cross, and many other non-profit foundations. There are

innumerable connections, cross-connections, ties, secret relationships formed by entities for the purpose of business, profit, promotion and political profit and promotion, or military profit, promotion and control, or for all three: political, economic and military controls and profit from such.

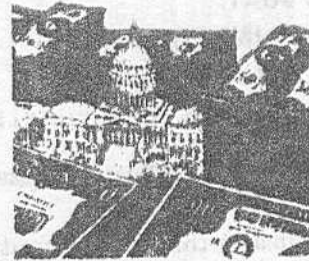

This Awareness indicates that the court system, the judicial system as that which is less contaminated than the other branches of government in terms of these influences, power-plays, efforts to grab and gain control. This Awareness indicates the Congress as that which has been essentially controlled for many decades by special interest groups, and the continuous efforts of these special interest groups to buy, sell, or trade congressional votes and the influence of these entities is well established. This Awareness indicates more recently, the exposure of the homosexual and blackmail extortionism for votes and influence is that which has been received as a kind of shock to the American public. That this reaches also into controls by the Bolsheviks and by other forces to control the votes of congresspersons in order to avoid blackmail and extortion of exposure for these actions.

This Awareness indicates there are also those actions of a political nature which entrap entities and destroy reputations in order to remove an influence. This Awareness indicates the ins and outs, and the intrigues of government is likened unto watching the worms crawling in and out of rotten apples. Attempting to explain these apples to a customer or citizen who believes the apples to be clean and free of worms, whereby the effort of the vendor is to sell this to the customer, to the citizen, explaining how the apples wrapped in this beautiful packaging paper and box, is clean and free from disease, the apples being of great integrity and of high standards of morality, looking out for the welfare of the customer or citizen; this Awareness indicates that only when the entity bites into the reality, does the entity discover the worms involved.

This Awareness indicates there are those who are attempting to improve, to clean up these baskets of fruit, whereby more healthy representatives will serve the people. This Awareness indicates that it is not an easy task for entities to represent the people while still representing themselves, and having personal self-serving interests involved in their affairs. This Awareness suggests that therefore, corruption is common among those who are elected or promoted to serve the public. This Awareness indicates however, that there are some of high integrity who do indeed seek to give great service to the masses whom they represent.

SHADOW GOVERNMENT

SPOTLIGHT ON THE CIA, FBI & MOSSAD

...ROBERT REDFORD IN RUSSIA

QUESTION:

I was reading recently, that in the Soviet Union, one of the most popular American movies being played there is *Three Days of the Condor*, starring Robert Redford, and this story concerns the CIA operation in America. In this supposedly 'fictional' story, CIA agent Robert Redford spends his time just reading material in books and stuff, discovers a code, and the existence of a secret CIA organization within the CIA, and because of this, the CIA has a mass execution of some of its own people. I was wondering if this type of thing shown in the movie, and which the Russians are claiming represents the corruption of the American CIA, has any basis in fact?

COSMIC AWARENESS:

This Awareness indicates this as absolutely correct. This Awareness indicates that this as having long been in effect. This Awareness indicates that this particularly in reference to previous readings wherein this Awareness referred to certain types of entities taking over as doubles and representing the government forces and agents. That these have been in operation for the past decade, whereby these agencies have been in continuous shifting and adjustment, whereby controls are being wrestled from certain forces, and attempts to wrestle those forces occur. That there is a continuous struggle within these organizations such as the CIA to gain and hold and maintain control for certain forces in the government of this country, or of other countries seeking to gain control of this branch.

This Awareness indicates particularly the Mossad as that which has gained much control of the FBI, and that at present, the Rockefeller cartel as that which controls most of the CIA; but the struggles continue and within the FBI, there are two agencies; that which is public and that which is hidden or covert, and which participates in covert activities against citizens. This Awareness indicates likewise, the CIA also has its dual nature, these in part related to continuous struggles occurring between forces which seek control of these agencies.

... THE MISSED BOAT:

DIRECT LINE TO INNER PLANES

NOW OPEN TO C.A.C. MEMBERS

...C.A. PULLS THE PLUG ON LEE MICHAELS

ED's Note:

This surprising message astounded the C.A.C. staff, but after a few phone calls and letters it became apparent that Lee Ian Michaels had been a naughty boy since C.A.C. launched his career in that reading last April (82-10 'The Eve of Destruction'); \$4.00.

COSMIC AWARENESS: (Closing Message)

This Awareness indicates that in the month of April, this Awareness created an opening whereby the entity Lee Michaels could speak to those inner planes within the universe. This Awareness indicates that this opening as that which still remains open and available and which other entities may also communicate and express into these planes. This Awareness suggests that all those involved in the *Cosmic Awareness Communications*, by activities of meditation may emit thoughts, images, ideas and words into those inner planes whereby adjustments may be made to bring about greater harmony upon this physical plane, and upon those lower planes within the inner plane.

This Awareness suggests the entity Lee Michaels as having been given an opportunity to move into and communicate into these inner planes to assist in making the corrections necessary. This entity as having a great potential for psychic expression, and for growth in this area. This Awareness indicates that this entity as not fully appreciating the opportunity made available to him, nor moving into the action of serving humanity as was possible. This action being that which the entity ventured into certain of the lower realms of the inner planes, but has failed to recognize those higher realms.

This Awareness indicates that this entity as moving into activities of self-serving nature, whereby he has neglected to use the highest and best principles, and as having created disruptions in the fields of energies which this Awareness has created through *Its* Interpreter and through the organization *Cosmic Awareness Communications*, and the disruptions which this entity has effected as that which this Awareness now wishes to remove. This Awareness indicates that the entity shall no longer have access to certain forces within the inner planes, for a period of approximately two years, or until this self-serving interest has been removed from his consciousness.

This Awareness indicates that the entities of the *Cosmic Awareness Communications* organization as now invited to move through meditation into these inner planes, to communicate with entities therein, and to express the urgency and need for alignment of forces down through these planes to clear up confusion, to polish the lenses, to erase the film, so that the Light from the Divine may shine through all of these planes and onto the physical plane.

This Awareness indicates that as this occurs, the alteration and correction necessary on this plane shall also follow.

End of C.A.C. Reading No. 1,

Aug. 11, 1982)

After the great build-up this editor gave this entity, hundreds of C.A.C. members contacted Lee through the address we published, asking him for readings, healings etc. Money started flowing in, airplane tickets were even sent by some members to get Lee into their area for personal readings and healings. Lee did make it back to the East, starting in Detroit, then Ohio, then on to York, Pa., and later a trip into California, being greeted joyously by members everywhere. According to Lee, he gave over 100 'readings' along this route, as well as some spectacular healings. What he neglected to tell us in his report was that he was on the high road to building an organization by pirating away CAC members along the route and by giving readings and pumping for information, attempted to persuade certain wealthy members to provide the funding for his planned organization.

C.A.C. later received reports from members that the entity was 'bad mouthing' C.A.C. and the Interpreter Paul Shockley, implying that the group was rife with dissension, no longer had any place or market for its 'negative' messages, that Lee possessed the New Age positive energies and that entities would be wise to follow him at this time. There is much much more that could be told about Lee's escapade, his intentions and some very questionable information which has appeared in his 'readings' - some of which blatantly violated those guidelines set forth by Awareness by which entities could evaluate a 'channel'.

Anyway, a few days after the above reading was given, Awareness gave a personal message (in a CAC opening message) to be sent directly to Lee Michaels. In this message, Awareness listed 15 violations the entity has allegedly been making in the psychic area, everything from 'programming' his numerous mediums as to what to say from the 'trance' state to the use of elementals and astral forces to attack certain entities. Essentially, Awareness informed Lee that It was pulling the plug on him (for at least 2 years) because he has missed the opportunity to serve humanity because he was at this time in a 'self-serving' mode. That Lee needed to develop a degree of humility if he was to grow spiritually and overcome the karma he brought forth from his life of Louie the 14th, wherein he had been told he was divine and infallible and not to be questioned by anyone, and that others were totally insignificant. This programming was so strong it carried over into this present lifetime as a central belief.

Essentially, Awareness informed Lee that the jig was up, that he was to cease using the name of this Awareness, C.A.C., the Interpreter Paul Shockley, the Cosmic Awareness movement and its reputation to further his personal dreams, goals and purposes without the sincere regard for others. That Awareness would not "tolerate interference in Its channeling during this critical stage of the earth's evolution."

For what it's worth to you members who have had personal readings from Lee Michaels, either in person or through the mail, Awareness has made it quite clear that It does not channel through this entity, even though Lee uses the term 'This Awareness indicates' etc. If you have any doubts about Lee's or any other channel, please refer to those readings published by C.A.C. which contain the guidelines given by Awareness, particularly those in reference to any violation of the Cosmic Laws.

At this time, this editor would like to correct several misleading bits of information which appeared in that reading No. 82-10, wherein Lee Michaels addressed the universe. On page 14 I made reference to Lee's I.O. There

Also, on page 20 where Awareness asks Lee to begin his questions, Lee makes the following statement:

"When CAC first started doing readings, the first two or three readings were done in Portland by myself..."

Although this is exactly how Lee worded this statement, it is in fact very misleading, for it gives the impression that Lee is an Interpreter for Cosmic Awareness and that he gave the first 2 or 3 readings in Portland. The fact is, Lee was present in Portland during the first couple of readings that Paul did for C.A.C. (We had given Lee the questions to ask for us). I wish to make this very clear at this time because many members have been welcoming Lee Michaels with open arms, believing that he has been an Interpreter for Cosmic Awareness of long-standing and is affiliated with CAC. Neither of these impressions are true.

In light of what Awareness has revealed about this entity and his intentions, all members are cautioned at this time to be wary of information coming from this entity (particularly in reference to finances, the CAC organization and the Interpreter Paul Shockley) until he can demonstrate that his intentions are to serve entities, rather than to be serving himself.

We still like Lee and welcome him. We know his shortcomings stem from his lifetime as Louis 14th and that programming which gave him so much power and prestige and wrong answers.

Lee, we still love you. But you ain't gonna set up your court in our organization.

HOW TO OBTAIN PEACE THROUGH REVERSE PSYCHOLOGY

(Opening Message of a C.A.C. General Reading)
February 14, 1982

COSMIC AWARENESS:

This Awareness indicates that the peculiar nature of human thinking is such that there are many entities who respond best by use of reverse psychology expression. This Awareness indicates that for several years *It* has warned about the danger of war, and while some entities are capable of responding to these warnings, other appear to be such that they simply go along with the flow and seek to avoid confronting the issue in levels of reality.

This Awareness indicates that for this particular type of entity, this Awareness wishes to give *Its* message in a form of reverse psychology, hoping to get through to certain levels of consciousness. This Awareness indicates that unless entities are made to fear each other, and see each other as being inferior spiritually, inferior morally, inferior in human qualities; unless entities can see each other as hostile enemies, as entities depraved and cruel in purpose, with goals of conquest, unless entities can see each other with hatred and fear and suspicion, there may be peace.

This Awareness warns entities who do not wish this peace to follow, to exaggerate, if necessary, the negative qualities of others, exaggerate if necessary, the negative actions of others, to point out as many flaws as is possible to find, to imagine the worst of others, and to accuse and be suspicious of each other's actions as being less than the highest. This Awareness indicates entities who

wish to avoid peace, and to protect their interests in violence, must continue this action of casting doubt and suspicion and mistrust on everyone about, and must gain greater and greater power by rallying around them forces which may not be trusted, but can be controlled.

This Awareness indicates that unless entities can continue this divisive actions, unless entities can continue spreading fear and hostility, and seeing each other as being depraved and evil, peace is liable to come to this plane. This Awareness warns entities that peace has a way of sneaking up on you if you do not keep your guard up, if you do not remain vigilant, and if you do not keep your hostilities and hackles up, ready to pounce on anything that causes a disturbance to your way of thinking.

This Awareness indicates that peace is liable to come to you, to your family, to your community or to your nation, unless you can find ways of keeping entities apart, hostile, suspicious of each other, unless you can find things that divide entities one from another, issues which put one against the other, issues which can be polarized so that reconciliation becomes difficult, if not impossible. This Awareness indicates that if you cannot keep this hostility, division and disruption going, peace is liable to come to this plane, and to your lives.

This Awareness indicates that within yourself, it is imperative that you be prepared for the inevitable peace which shall surely overcome you, unless you manage to keep yourself in turmoil, fearful of this or that event, fearful of this action taken against that entity, hostile, confused, torn, ready to fight for your rights. This Awareness suggests that if you wish to prevent peace in your being, you must constantly be at odds with yourself, you must constantly be at odds with those who are about you, who are near you. You must be suspicious of your closest friends, of your loved ones. You must doubt their integrity, you must doubt their efficiency, you must doubt their motives, you must doubt their dedication, you must doubt their loyalty.

This Awareness indicates that if you can continue this kind of doubting and suspicion, and if you can promote the reflection of these suspicions and keep them off guard, keep them at bay, you may be able to prevent peace from coming to your soul. This Awareness indicates that it is a difficult and most trying lifestyle, to continue this kind of action of avoiding peace for an enduring time. This Awareness indicates that peace will surely come if you give it the slightest chance.

This Awareness indicates however, even though peace may appear, you can again disrupt the peace when you realize that it has caught you off guard, and when you again begin your devisive actions. This Awareness hopes that this will help those who prefer to fight against the concepts of peace, and who can better understand their attitudes and their approaches toward this frightful experience.

JOHN LENNON'S NAME TO NOW BE DROPPED FROM PEACE COLLEGE

....(YOKO SAY, OH, NO)

QUESTION:

May 19, 1982)

A question from T.H., of Green Bay, Wisconsin:
"Could it be that the reason Yoko Ono has not given her support to the Peace College is that she is aware of the information released by Awareness in *Revelations of Awareness* No. 82-6 (The Conspiracy Against Musicians)?"

COSMIC AWARENESS:

This Awareness indicates this entity as putting her energy into other directions. That there is, in England, an effort to create a school in honor of this entity John Lennon. This Awareness indicates that this as being the direction which the entity chose to move. This Awareness indicates that it is more appropriate at this time for the energies associated with the Peace College, to be directed with greater emphasis on world peace, and at this time the energies associated with the use of John Lennon's name as that which should be dropped, in that it has not been accepted by this entity Yoko Ono. This Awareness suggests that there is even a greater potential which can be made through other forms of energizing.

This Awareness indicates that the opportunity had been given, whereby the energies surrounding this entity John Lennon could have been used to help bring about an action that would have been greatly benefiting to humanity, and would have honored his name. This Awareness indicates however, the opportunity was not recognized by this entity Yoko Ono, and therefore, this Awareness suggests that it no longer be energized as it is a waste of energy in that the entity has turned her attention toward other directions. This Awareness indicates that there is however, a new movement which this Awareness is assisting to initiate through the Aquarian Church as a foundation for peace, whereby the energies needed to build, not only one college for peace but many, could be forthcoming.

This Awareness indicates that more information relating to this shall surface soon. This Awareness indicates that this entity as being aware of the conspiracy against musicians. The entity is also knowing how controlled musicians are when in places of high esteem. This Awareness indicates the entity also as being aware that even her own career and her own money is often not under her control in a complete sense.

HOW DO THE WORLD PLANNERS SURVIVE POLLUTION OF FOOD, AIR, WATER, ETC.?

QUESTION:

J.M. in California writes: "Some months ago I overheard one fellow say to another: 'The white man is even poisoning our air.' The response was: 'But he's breathing the same air as you.' My question: If the world planners are poisoning our coffee, the air, our fruits and vegetables, babyfood, and our drinking water (fluorides)...my question is: What air are they breathing? What water and coffee are they drinking? What babyfood are their babies eating? Where does the meat, fruits and vegetables they eat come from?"

COSMIC AWARENESS:

This Awareness indicates you can be sure that they are much more careful about their diet than are the majority of the masses. This Awareness indicates that even though they breathe air, it is not necessarily the polluted air of Pittsburgh, or of Tacoma, or of Cincinnati, or of Los Angeles, or of certain other places,—it is generally relatively clear and pure in the area of their living quarters, and these entities also have the luxuries of oxygen tanks, of whatever may be necessary in order to keep themselves relatively healthy.

This Awareness indicates that obviously the breathing of air which may be somewhat polluted is not destructive to all entities who breathe the air. This Awareness indicates that these entities who are involved in deliberately assisting in certain types of pollution are aware of what foods to avoid, and are aware of the higher quality products which are not so highly pollutant.

JOJOBA OIL---WHAT DOES THE FUTURE HOLD?

...COMPANY A GOOD LONG-TERM INVESTMENT

QUESTION:

Ben Barker puts out a newsletter called *Crisis Advisory*, and he recommended more or less, a company, a plantation in Costa Rica, that is, if not the only one, at least the world's largest plantation growing the shrub that bears Jojoba oil, and he gave this information as a possible investment opportunity for entities. I'd like to ask Awareness if indeed this particular company would be a good investment for certain C.A.C. members?

COSMIC AWARENESS:

This Awareness indicates this in the affirmative. This Awareness indicates that it appears this company as having a strong financial future. This Awareness indicates that this in reference to the company as an investment in stocks for members who are interested in such. This Awareness indicates that this not in reference to any future potential in relation to political or social concerns in that area. This Awareness indicates that it appears to be a stable and growing company which will yield well in terms of investment purposes.

ED's Note: The Crisis Advisory Newsletter: Survival Publications, PO Box 134, Somis, Calif., 93066. (\$80 per year).

Jojoba oil keeps going up in price, and there is not nearly enough of this substance to supply the growing demand. I wrote the company and asked for a copy of their latest Annual Report before publishing this question. It is very impressive, particularly their projections of acreage being planted and the returns to the investors as these crops are harvested. Members who have funds for investing, may wish to check this company out. Ask them for their latest Annual Report and any other info they care to send. Address: Rancho San Rafael S.A. Jojoba Plantation, Apartado 10128, San Jose, Costa Rica.
