COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great saviors who served as 'Channels' for the 'Heavenly Father' and who speak again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1933 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the messages as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

PLEASE NOTE: For easier reading and greater understanding, Cosmic Awareness suggests that the following material be read aloud.

## WHAT IS ROMANCE ?

### QUESTION:

Awareness has given in the past copious amounts of information that hopefully will lead entities to live together in peace, -males and females, but no matter how much of this we publish, questions keep coming in on relationships. I'm going to read this letter with a question from B.L., much of which is probably redundant, but there may be some facet in here that Awareness would care to cover...

### COSMIC AWARENESS (interrupting)

This Awareness wishes to comment briefly. This Awareness indicates that questions on relationships are the most important questions which can be asked. This Awareness indicates that questions on relationships in general reflect the questions which are the key to all effects: political, personal, national, military, economic and social upon this plane, for all of these are based upon relationships and in asking questions of relationship, whether personal, economic, political, national or whatever, these questions reflect the awakening that is occurring in the New Consciousness.

This Awareness indicates that these questions relating to relationships are looking at the essence of what it is to be a New Being.

### QUESTION: (Continued)

Thank you. I will now read her letter. "I would like to hear what Awareness might have to say about a "true" marriage, if there is such a thing. During my life I have been caught between two opposing images of what a relationship with a man is supposed to be like; let me see if I can describe them to you. One, is of someone with whom I feel very able to communicate, spiritually at one with as far as general beliefs, a 'soul-mate' in the sense of being 'right' or meant for each other. This would be my ideal of a mate. The other image seems to be more practical, more realistic somehow. It recognizes that we are all human, with our faults and inadequacies, and no one man can completely fulfill all the needs you feel like you have.

I personally have tried to come to grips with the fact that it is me that is going to have to make myself happy, but what about this yearning that I feel for someone to really share myself with? Am I being unrealistic in thinking that you have to be completed by a relationship with the opposite sex? I guess I'm just saying: Is it meant to be? Taking into consideration what the male and female forces represent, I would think yes, we do need each other in order to be complete, but there is also the part of

me that recognizes that on a higher level, we are neither male nor female, and that special part I'm trying to reach in everyone, in any kind of relationship, is neither. As you can see, I am nowhere near resolving this matter in my mind. These are just some of my thoughts and feelings, and then again, what about the passage in the *Aquarian Gospel* that discusses marriages and says that "true marriages are created in heaven"? What is the deeper significance here?

In a lot of ways, I feel my relationship with my husband is more like a brother than a mate. I accepted aspects of our relationship for what they were when we married. We lived together for 5 years before. We've been married about three. I decided that the ideas I had about someone who would be my soul-mate were just sort of "the grass is always greener" syndrome. I felt that you had to take a relationship with all its pitfalls, and work on improving it, but I am still left with this feeling of what a relationship could be or should be.

I know you all are not marriage counsellors. I have only included the personal information as background. Just what is all this business of living together all about? I sure haven't figured it out, and if the divorce rate is any indication, not too many other people have either. I like the idea that it is only when you have reached a certain point within yourself that you can truly love, and that if you could find someone else who has found this point, the relationship would be one of wholeness and true worth, for each partner would be giving from a completeness within themselves. Ideals again.

I would certainly appreciate any comments Awareness might have on this ever-widening subject. I'm sure past, present and future lives, with all the relationships involved also play a part in the positions we are in now. I could go on and on with questions."

### COSMIC AWARENESS:

This Awareness indicates that It recommends to all C.A.C. members to read the books titled *He* and *She*, these being two separate books, these being approximately 70 pages each.\* This Awareness indicates these books discussing the masculine psychology and the feminine psychology. The masculine psychology being exposed through the myth of Parsifal and its deeper meanings, and the feminine psychology being exposed through an exploration of the myth of Psyche.

This Awareness indicates that these books giving much deep insight into the psychologies behind the male consciousness and that of the female consciousness, so that entities may better understand themselves as well as members of the opposite sex. This Awareness indicates that with these books being read by members of C.A.C., much better understanding of messages given by this Awareness in regard to this will be possible.

\*Ed's note: "She: Understanding Feminine Psychology."  
 "He: Understanding Masculine Psychology". Both written  
 by Robert A. Johnson, published by Harper & Row,  
 New York, N.Y. (Also available from C.A.C. for \$2.50  
 each. Not listed in current catalog).

This Awareness indicates that in reference to your question; this Awareness indicates there are many entities who pursue relationship with the idea of romance, a romantic notion or ideal as that which is an expectation in the relationship with a partner, and that romance as that which entities often seek to preserve and keep alive throughout the relationship. This Awareness indicates that entities often finding the romance fleeting and fading, will engage in conflict, arguments or various types of efforts to try to get the other entity to become more romantic.

This Awareness indicates that it must be understood what romance is, in order to better understand its role in a relationship. This Awareness indicates that **romance, essentially, is another aspect of adventure.** That entities think of adventure in terms of travelling into unknown areas, where there is danger. This Awareness indicates romance is similar. It is travelling into unknown relationships where there is danger of having your ego shattered. This Awareness indicates that romance generally involves ego games relating to flattery, to efforts to get a reaction from the other entity, gamy activities of teasing and approach and avoidance.

**Romance is filled with joys of coming together and tears of separating.** This Awareness indicates that these are workings of the emotions, whereas an adventure generally is seen as movements of the physical, into areas of unknown or intriguing and dangerous circumstances. **The romantic movements are movements of the emotions into unknown, intriguing and dangerous areas.**

This Awareness indicates that obviously, when you have become familiar with a territory, and that territory has become your home, or your hometown, it ceases to be an adventure to march off to the supermarket. This Awareness indicates that the territory is now known, and the adventure is no longer worth discussing. This Awareness indicates however, occasionally new things happen, even in familiar territories, whereby an adventure can be related.

This Awareness indicates that similarly, in romance, when your territory has been conquered, and you now possess the one you loved, the one you explored, and this entity is now your mate, and you have the right to do your dance, to stake out your territory, to

consider this entity as your stomping grounds, and your emotions now are well-situated and capable of being expressed on these stomping grounds, on this territory known as your mate,--the emotional territory--this area then begins to become very familiar to you, and the romance begins to fade.

This Awareness indicates it is the mystery that makes the romance, and give it the intrigue. This Awareness indicates that once the mystery begins to fade, and you become familiar, thinking you know the other entity totally, then obviously, you may become so familiar that life begins to seem rather boring to you, and you may want an adventure. Just as an entity may wish to leave his or her home town and travel off to some new unfamiliar area, likewise, entities whose lives are without romance, mystery and intrigue, may begin to feel that there is something lacking in the relationship with this same old territory. This Awareness indicates therefore, they may seek to adventure out emotionally, to become attached to some other entity, or to dream of far away entities, just as one dreams of far-away places, creating an ideal in their minds with which to compare their present reality, and feel deprived.

This Awareness indicates that obviously, if entities feel wanderlust, and travel from place to place, their lives do not hold any form of stability, but they are adventurers and they have many experiences. This Awareness indicates that those who prefer to have a home, a place with roots from which to operate, a mate who is there to be loved, to be cared for, to share your life with, this type of relationship will either become boring, or can be made interesting, particularly wherein the two of you can travel off together and share new things with each other.

This Awareness indicates that having adventures and having romance can be stimulated in your activities with one another by constantly changing yourself, taking on new areas and new interests and studying new things which you share with one another. This Awareness indicates that in terms of relationship with one another, you may gain much by such sharing and such exploration into new areas. This Awareness indicates that this develops and allows the relationship to grow and become more wholesome, even as individuals also may develop and grow and become more wholesome.

This Awareness suggests that you not only encourage the growth of your relationship with each other, but you also encourage the growth of your own individual beings, so that you explore new areas on your own, study new studies, learn things that are of benefit to you which you have not previously explored, or explore more deeply those areas which you have only touched lightly. In essence, this Awareness suggests that you expand your own self and continue growing and developing those aspects of your mind, your emotions, and your feelings and your spiritual life, so that you are in continual motion toward growth and development, and this in itself will effect the growth and development of the relationship that you have with your mate.

This Awareness indicates that there are always discrepancies and conflicts in all romantic attachments and relationships. There are always conflicts in all adventures, and there are always conflicts in deeper relationships such as partners and marriages. This Awareness indicates however, these conflicts need not be seen as detrimental to your relationship, but rather may be

seen as instrumental in bringing about greater understanding between yourself and another being, and helping you to learn more about yourself, in reflection off of the partner.

This Awareness indicates that romance/adventure continues in your marriage even when it appears to be stagnant, and can be revived by creating that conflict necessary to give interest and to arouse your mate to respond to your feelings, to the urgencies which you create. This Awareness indicates that such conflict may be beneficial when a marriage begins to feel stagnant. This Awareness indicates that this must be kept at a level whereby the conflict is one which brings about a deeper understanding and reconciliation of problems rather than one which becomes so intensified that it brings forth separation.

#### HOW TO ADD ROMANCE TO A ROUTINE MARRIAGE ...ROLE PLAYING AND A SEARCH FOR GOD

This Awareness suggests that many marriages are so routine that entities cease to relate to each other's deeper feelings, and entities begin to bury their feelings and operate strictly on a mechanical level, fulfilling the role which they have been cast into. This Awareness indicates that while these roles are often necessary, it is not necessary to fulfill roles without feeling and without sharing your feelings, and without having appreciation shown to you, or without showing appreciation to others in their role-playing.

This Awareness indicates that also, it is not necessary that entities limit their lives simply to the role-playing actions which are given to them in their situations. The entity may be involved in role-playing as a housekeeper, cooking meals, washing dishes, attending the home, or as a mother, or the entity may be in the role of a provider, attending career matters, or attending business affairs, or attending garden or work about the home, or the entity may be playing the role of director of the family. This Awareness indicates it matters not that the entity has a requirement to play a role, for all entities do.

This Awareness indicates that you cannot escape some action of role-playing; any effort to escape would simply cast you into the role of an escapee. This Awareness indicates however, that you need not limit yourself to any particular role when there are other roles to be played and many many days to come. This Awareness indicates therefore, expand your life, expand your interests, expand your relationship, expand your communication, expand your mind, expand your emotions, and open up to each other new areas for exploration, and you will add romance back into your marriage or partnership.

This Awareness indicates that this does not limit entities from having other friends besides your partner. This Awareness does not wish to indicate that entities must rely entirely upon your partner for satisfying your emotional needs, for this is not appropriate. This Awareness indicates your partner can satisfy some of your needs, your mother can satisfy some of your needs, your father, your sister, your brother, your neighbor, each can satisfy some area of your needs, but there will be areas which will never be satisfied except by yourself, or by Divine Forces, when you attune yourself to them.

This Awareness indicates that entities must always experience incompleteness and unfulfillment, except in relation to the Divine, for when entities become one with the Divine, there is that feeling of wholeness, completeness, and it gives a satisfaction which can be found in no other relationship. This Awareness indicates that the young boy often finds this feeling through his first love, but it is fleeting and lost,

and because he does not recognize this as the quest for God, he pursues this quest in all other directions. This Awareness indicates likewise, the young girl may find this feeling, a fleeting feeling of completeness, when she sees in her mate what appears to be an image of a god; and that feeling of being one with a god as that which gives her the immediate glimpse of completion. But she is dropped hard onto earth and then must pursue her quest for the Divine through some other source than her chosen mate.

#### PARSIFAL & PSYCHE-THE MALE/FEMALE COUNTERPARTS (...Psychic Bonds Created by Sexual Intercourse)

This Awareness indicates that both male and female have within their psyches a reflective male or female counterpart. That the Parsifal, the male part of the man, has its feminine counterpart which it must learn to relate to and accept. Likewise the Psyche, the feminine aspect of the female has its masculine counterpart, which it too must relate to.

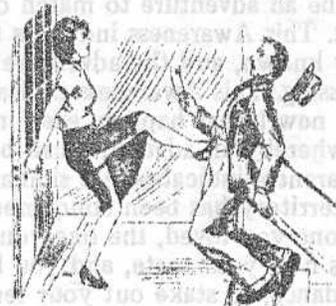

This Awareness indicates that these in turn eventually must find their communion with the Divine, in order to feel the completion. This Awareness indicates that your external mate is a reflection of your internal condition, and alters as that internal relationship alters. This Awareness indicates the relationships within yourself reflect off of each other, as mirrors, showing yourself who you are, and where you stand in your development.

This Awareness indicates that entities who have multiple relationships of an intimate nature, also tend to have split and conflicting relationships in terms of their inner nature and will feel divided within and turmoil will be experienced, both within and in the external relationships. This Awareness indicates that all sexual relationships create a karmic bond between entities involved in such, that it requires approximately 9 months for a sexual karmic bond to dissipate. This Awareness indicates that this in reference to sexual intercourse with a 9 month's abstinence.

This Awareness indicates without such abstinence, the karmic bond continues. This Awareness indicates that wherein there are multiple actions of this nature, the entity involved will have many karmic bonds which in effect create a bombardment of psychic energies from these various entities within the aura and consciousness of the entity, so that the entity cannot be himself or herself in purity, but will be expressing as aspects of the many relationships in which he or she is engaged.

This Awareness indicates that wherein these many aspects are of conflicting qualities, conflicting personalities, the entity will be experiencing these conflicts. This Awareness indicates that sex is that which is of a most potent force in the psychic realm, and it is psychic in nature, in that it affects the entire psyche of individuals and creates a bondage on emotions and on the psyche, to the degree that it is made significant and meaningful.

This Awareness indicates also, that for those who make it insignificant, it also has the effect of reflecting insignificance in terms of their general life, and lifestyle. Such entities failing to develop significant relationships or values.

### QUESTION:

Awareness, does the casual encounter in a sexual relationship,—the one-night stand, where the entities involved never see each other again; do I understand this correctly, that after nine months, there is no longer a bond between them, therefore in other future lifetimes, there would not necessarily be karmic things to work out?

### COSMIC AWARENESS:

This Awareness indicates this in the affirmative. This Awareness indicates that this nine months as being a general time, that it is different for different individuals, depending on the emotional and psychological significance of the experience.

This Awareness indicates for some entities, it could carry over into other lifetimes, depending on the significance, and also depending on other activities related to that encounter, for wherein intense encounters occur, these also may carry their own karma, apart from the mere sexual indulgence.

### SEXUAL RELATIONSHIPS... MEANINGFUL & NON-MEANINGFUL

### QUESTION:

Does the entity, a male for example, who is single and traveling around the country in various types of work and has encounters with different females every night, or numerous times during the week,—single encounters; is the damage or the confusion to this entity confined strictly to the emotional levels or does this manifest in his lifestyle, in his work, in the way he associates with other entities.

### COSMIC AWARENESS:

This Awareness indicates this tends to have the effect... This Awareness indicates that an analogy may be given to help express this more clearly:

This Awareness indicates that you visualize a soldier who enters into a battle and is faced with a situation in which he must kill or be killed. This Awareness indicates the entity, in great fear, kills, and then in great remorse feels guilt and repentance and fear and shock at his actions. This Awareness indicates that this first experience is of great significance to the entity. This Awareness indicates after this has occurred time and time again, the significance is lost and the entity simply becomes a machine which is capable of killing without thought, without emotion.

This Awareness indicates that similarly, wherein an entity becomes involved in a sexual relationship for the first time, it can be of great significance to the entity. This Awareness indicates that wherein this occurs frequently with various entities, the significance is lost and the relationships become next to meaningless and mere personal gratification. This Awareness indicates the emotion fades and the sensuality increases as being the prime motive for the action.

This Awareness indicates that therefore, the entity becoming more shallow in terms of emotional attachment, in terms of ability to care, and feel the feelings of another in a deep and meaningful way. This Awareness indicates that these more shallow

easily from any relationship which is not perfectly ideal, even though it may only have been tried for two or three days. This Awareness indicates whereas another entity who has deeper emotional feelings may be involved in a similar relationship, but these feelings are so deep that when difficulties arrive, the entity does not withdraw so easily, for the emotions are more significant than the physical gratification, the sensual gratification.

This Awareness indicates that therefore, entities who are less involved in playing the field, who are more inclined to focus their attention on a meaningful relationship with one individual, these entities tend to grow and develop emotionally into deeper and more loyal commitment levels than those who are simply searching for an ideal that will satisfy the sensual gratifications and live up to the pleasures which the entity seeks.

This Awareness indicates that obviously, when one does not wish to commit oneself emotionally to any deep meaningful relationship, the entity can afford to be very choosy and demanding that the other come up to certain standards of behavior, certain levels of expression, and do whatever the entity wishes done in order to please himself or herself. This Awareness indicates that therefore, the entities involved in multiple and shallow relationships often become more demanding, hard to please, and difficult to relate to, and, if continuing in that pattern, often find themselves without any meaningful relationship with anyone, and nothing available except fleeting, grasping moments of pleasure.

This Awareness indicates that these become very pretentious; the pretention of having loved for one more night; the pretending that this is meaningful when knowing in fact that it is just another one-night stand. This Awareness indicates that these entities gradually find themselves unable to extract themselves from their fleeting moments and to move into meaningful relationships.

This Awareness indicates that such entities often speak of wanting marriage, wanting close meaningful relationships, but such entities generally find it difficult to acquire. This Awareness indicates that the acquisition of the ability to become emotionally attached to another entity, in a meaningful way, is that which comes about not from seeking sexual indulgence, but rather, from knowing more about the entity to whom you relate. This Awareness suggests that entities who are deeply involved in these fleeting experiences of sexual encounter, wishing to find something more meaningful; such entities should simply make an attempt to get involved emotionally, before allowing sexual energies to enter in.

This Awareness indicates that the emotional encounters, giving and taking, as that which may parallel sexual activity, but which are operating on a totally different level of the psyche and are quite different from mere physical sensual gratification. This Awareness suggests that the appropriate move-

First, be open to allowing the spirit to guide you; next, follow with your head, choosing mentally, intellectually, the type of person you desire, then, when this entity has been chosen mentally, allow the heart to follow. This Awareness indicates if you get this out of order, and allow your heart to fall without your mind being engaged first, you may find yourself emotionally tied up with someone whom you know better than to be involved with, but it's too late now.

This Awareness indicates the head should precede the heart in becoming involved in relationships. This Awareness indicates that following this, the sexual encounters may follow, after all of the acquaintance and social relationships and activities have occurred to satisfy the head, spiritual, and heart of both parties. This Awareness indicates this as the most beneficial and appropriate approach to entering into relationships of an intimate nature.

### SEX AND THE PSYCHIC CONNECTION:

Sexual Vampires Preying on Females  
...The Don Juan Syndrome Explained

### QUESTION:

Awareness, in reference to a psychic connection, we have an acquaintance of ours, who has estimated that in the past 15 years he has had intimate relations with between 400 to 600 different females, and I can believe this personally, having on occasion seen him operate; but the point is, this man has a long history of psychic experiences, usually that occur in dreams; that he'll wake up from a dream that was extremely vivid and premonitory, and it always involves one of these ladies. Usually its something very negative, a head-on car accident, for example, with one of them in it, and he has found many times when he's gotten up and driven to warn a person, he would encounter the accident along the road,--it's already happened. I'd like to ask Awareness, is this a common phenomenon with entities who indulge sexually with numerous females; that there's a psychic connection also involved?

### COSMIC AWARENESS:

This Awareness indicates that in any sexual relationships, entities take on an aspect of the psyche, or you might say, accept a portion of the aura of the entity with whom you have had sexual relationships. This Awareness indicates that this may linger for some time, often years, more often only months. This Awareness indicates that this depends on how significant and meaningful, and how strong the psychic connection was during the time of intercourse.

This Awareness indicates that many times, entities such as the one mentioned, are what might be described as sexual vampires. These entities gaining energy from the psyches of others who are sapped during these experiences of intercourse, sapping the energies of these girls, so that they, the male, feels more complete and masculine and more wholesome, while leaving the girl empty and heartbroken, or somewhat at a loss for having given her vitality, her aura, her psyche to this entity in such a shallow manner.

This Awareness indicates that the entities vampire others and gather these portions of psyche similar to a bee gathering pollen, and use these energies to enhance their own feeling level, because a portion of themselves, the feminine aspect within themselves is somewhat deadened and incapable of feeling. This Awareness indicates these entities being hungry and needing some type of...This Awareness indicates this as a mother energy which has been brought into the entity's psyche in a distorted manner.

This Awareness indicates that most 'Don Juan' types have intense mother complexes, wherein the indulging mother has created a subconscious desire within the son to...this as an Oedipus complex. This Awareness indicates that the entity often seeking to destroy the father, and merge with the mother as Oedipus. This Awareness indicates this as symbolic, and the actual reflection in reality being that the entity is searching for the *unknown mother*...searching for the subconscious mother through all of these various females, while himself being hostile toward any of their mates, competitive toward their husbands or boyfriends, so that he cares not about their claims or feelings.

This Awareness indicates that essentially, this as a kind of sexual vampirism when indulged in to such an extent that the entity must follow a pattern of continually pursuing these energies in order to satisfy a vacuum. This Awareness suggests such entities need to experience deep psychological examination, but generally will rather experience some form of external circumstance which causes them to modify their behavior without fully understanding the cause.

### (Closing Message)

#### Psychology Books Recommended

This Awareness indicates that there is much which can be learned by entities in terms of relationships by studying the works of Jung, particularly in relation to the Greek myths. This Awareness indicates also the works of Freud can have some meaning but that many of his conclusions were of aberrations from his own consciousness. This Awareness suggests entities in studying Freud be somewhat more cautious than when studying Jung.

This Awareness indicates that also, for more simplified studies in these areas, there are many books which decipher or simplify the works of these entities.

\*\*\*\*

C.A.C. can obtain the following books by Jung: 'Essays on a Science of Mythology', \$4.95;

'The Portable Jung', \$6.95.

Also an excellent book which deciphers Jung: 'Boundaries of the Soul: The Practice of Jung's Psychology', by June Singer; \$7.50. (Prices subject to change).

Also, a related book which should be of interest to many CAC members: 'The Two Hands of God: the Myths of Polarity', by Alan Watts; \$3.95.

ALL ABOUT "SOUL MATES"

Benefits of Astrology

& Treasure Maps

( May 6, 1981 )

QUESTION:

A question from R.U. of San Francisco. "Here is a question that I hope is not too windy to ask. How can I, or anyone (but asking for myself), how can I determine which kind of woman should be my mate? All this talk of soul mates and so forth...what part does astrology play in this? Is it true certain people born at certain times of the year have certain characteristics which can tend to match up favorably with another person's characteristics? I don't want to try to start a Cosmic Awareness dating service (maybe it wouldn't be a bad idea), but what the heck! Can you ask this question?"

I think essentially, what he's asking is if Awareness has any suggestions on how he can attract a mate that destiny or something has deemed for him.

COSMIC AWARENESS:

This Awareness indicates that there are indeed astrological forces which bring entities harmonious qualities with each other, and also create areas of disagreement in some cases. This Awareness indicates however, wherein entities rely strictly on astrology for locating or determining the right person, this may not necessarily be effective. This Awareness indicates that a complete astrological system, whereby the information is computerized and followed through carefully by clear understanding astrological interpretation; this indeed could assist entities in finding the energies which might be compatible. This Awareness indicates however, this is not necessarily evidence as to the proper or appropriate mate, for often, the appropriate mate is one who creates difficulties for you, or for an entity, and the difficulties may be exactly what is necessary for the entity to learn and to develop certain qualities which may need development in this life.

This Awareness indicates that therefore, rather than seeking the harmonious relationship as the ultimate in a mate, an entity may rather seek to have that mate which serves best his spiritual, emotional, physical, and mental needs. This Awareness indicates that the entity may wish to include social needs also. This Awareness indicates that wherein an entity summarizes the request in this manner: "Whatever mate is available for me that most satisfies my personal, my emotional, my spiritual, my mental, my social needs,—that is the entity that I desire"—this Awareness indicates when this is clearly formulated in the mind of the entity, this Awareness suggests you turn this over to your Higher Self or the Divine Forces of the universe and ask these forces to bring you this entity, if it be the will of the Divine Forces. This Awareness suggests then, you may simply let go of the concern and wait for the Divine Forces to bring you that which you request.

This Awareness suggests there are various ways whereby this may be energized. There is that which is called the Treasure Map, wherein an entity writes down all of the qualities requested and places this in a particular place, and this, then, is forgotten. This Awareness indicates there are also the methods whereby an entity visualizes that set of qualities desired and meditates and energizes and requests in daily practice that the Divine Forces bring forth this particular entity bearing these qualities. This Awareness indicates there are also methods whereby entities take off on foot, traveling about from place to place, attending social gatherings, entering bars, restaurants, hotels, motels, houses, schools, churches; wherever females may be found,—or if a female; wherever males may be found; that the entity in search of a mate might, by some happenstance, be led to the proper mate. This Awareness indicates that there are many ways whereby the Divine Forces with the assistance of an entity in energizing the event, can help the entity find that mate which is suitable for the entity's needs in this lifetime.

IN SEARCH OF YOUR SOUL MATE

This Awareness cautions entities not to assume that you are due to find the perfect soul mate, or that the soul mate which was created for you eons ago, is walking around somewhere in your neighborhood looking for you, and that you are somehow supposed to discover a method that will allow you to recognize this soul mate, or be led to the spot where this soul mate awaits. This Awareness indicates this as mere fantasy. This Awareness indicates that many entities have more than one soul mate. Some entities have not yet created soul mates. Some soul mates are not on this plane at all, even though an entity may be searching all over.

This Awareness indicates that in many cases, entities longing for soul mates and looking at the various persons, seeking to discover if "that entity is my soul mate, or maybe that one, or the one just behind that other fellow..." this Awareness indicates that this kind of action may be totally fruitless, for your soul mate may still be somewhere in Celestria or in one of the Inner realms, waiting for you to come home from your mission on earth. This Awareness indicates that the soul mate may not at all be lonesome, but simply recognizing that you have gone off to work, and that you will be home at a certain time (in terms of Celestial time). This Awareness indicates that the entity, of course, recognizes that in your work, you may come in contact with, and have relationships with, other entities. This is understood, and is not considered adultery; nor is it considered a problem if you link up with another entity in a marriage or lifestyle, where you live with that entity and learn certain lessons and have certain experiences and share your wisdom and understanding with that entity. This Awareness indicates your soul mate is not the type, in those realms, to become jealous or upset over such activities.

This Awareness indicates however, there are some entities who have made a kind of subconscious pledge to their soul mate that they will not mate while on earth in this lifetime; and these entities, while searching for a soul mate on this earth, whose soul mate is still on the Inner Plane and which has no intention of coming to this place; these entities may indeed search in vain throughout their lives for that soul mate in this plane and not find such, nor because of their subconscious pledge, be able to have a relationship with any other entity on this plane, in terms of a close, intimate type of relationship. This Awareness indicates that for this reason, some entities remain a bachelor throughout the lifetime, others have experiences with a multitude of entities.

This Awareness indicates that it is best for entities not to overcomplicate the situation by fairy tales and fantasies of somehow running into your soul mate. This Awareness suggests rather that you ask through the medium of prayer or meditation that your Divine guidance, the Divine Forces of the universe, lead you to that which is the proper mate, if you are to have a mate in this life, and that you trust these Divine Forces to give you that which is proper, according to the Divine purpose which these forces intend to you to express in your life.

This Awareness indicates that often an entity having a powerful and driving force to hurry up and mate with someone, will project upon various persons that urgency that "this must be the one! Otherwise, why would I feel so strongly that this is my mate?" This Awareness indicates you may feel strongly that this is your mate simply because you are overly hungry to mate and this is the most appealing entity in sight. This Awareness indicates that in such circumstances, too often, that hunger simply drives away the entity which you seek, and you would be better off to reduce the amplitude of your passion long enough to allow a relaxed communication to create a friendship which can be cultivated so that rapport is developed.

This Awareness indicates this much like the recently popular song, whereby it advises entities to "take it nice and easy." This Awareness indicates that hard-driving, panting passion is not as effective as simply communication of entity to entity, whereby report and trust is developed that allows a sharing of interests, ideals, feelings,

"Maybe we ought to check out Brother Michael's Treasure Map."

emotions and energies,--allowing these to grow at their own proper pace, rather than grabbing violently and passionately for the desired fulfillment which one may see as an end result.

### ON EARTH--HOW COMMON ARE SOUL MATES? (If she nags, there may be a good reason)

#### QUESTION:

Awareness, how common in the world does the soul mate couple actually exist? In other words, is it very rare, or relatively common? What are the odds that the average married couple, or couple living together in a good, long relationship actually are true soul mates?

#### COSMIC AWARENESS:

This Awareness indicates that this is very rare; this occurring mostly wherein entities have no karma in terms of earthly karma, and whereby both entities have agreed upon mutual involvement in the same purpose or mission in the same time and space. This Awareness indicates that this does occur whereby entities may be soul mates for one lifetime, sometimes two lifetimes, sometimes even three lifetimes together. This Awareness indicates that rarely do entities continue more than this without some kind of break or separation, for entities on the Inner Plane recognize that a separation from each other sometimes is very important to allow each other to build and grow in terms of their own individual needs, and to develop potential talents. This Awareness indicates that if an entity were always with one's soul mate, the entity would have little stimulation to change; whereby if the entity lived with a stranger for a lifetime, the entity would learn so much of a different type of wisdom, that the entity would change greatly, adding to the experience.

This Awareness indicates therefore, it is relatively rare that entities meet up with their soul mates and live with their soul mate. This Awareness indicates however, it is not unusual that entities live with and meet up with entities whom they have lived with before, or have been married to before, or have been associated with before, or have been in love with in previous lifetimes. This Awareness indicates that such communication and unity, the meeting of such entities may appear to be the communion with a long lost soul mate, but it may not actually be a soul mate. This Awareness indicates that it may be what is necessary, proper in this lifetime, and it may be a wonderful and glorious experience which an entity might consider

a contact with one's soul mate. This Awareness indicates however, it may not necessarily actually be a soul mate that you are living with; rather, it could be a past-life mate or associate.

## PAUL SHOCKLEY'S PURSUIT

### OF A SOUL MATE

...Cosmic Awareness

Tattles on the Interpreter

(Closing Message)

This Awareness wishes to tell a brief story in regards to the Interpreter. This Awareness indicates that the Interpreter in 1961, and '62 as having met an entity who he believed to be his long lost soul mate. This Awareness indicates the entity being such that the Interpreter felt a completion with this entity which he had never experienced before. The entity feeling that this being was the other half of the universe to him. This Awareness indicates that this entity, her name being Rosalie, was one whereby the Interpreter totally fell in terms of that concept of love, and believed that at long last he had met the entity who was to be his mate. This Awareness indicates that events did not have this so, and circumstances occurred whereby this entity went her way, and the Interpreter was deeply hurt. The entity having suddenly in the midst of disagreement, met with an old boyfriend who asked her to marry him; and the Interpreter, (at that time, not being an Interpreter), the entity Paul Shockley as having been frustrated by circumstances, sent a letter to this entity Rosalie, and in that letter, said things which hurt her feelings, at the same time the ex-boyfriend was pressuring her to marry him.

This Awareness indicates that upon receiving the letter, the entity, Rosalie, agreed to marry the ex-boyfriend and departed for Florida with him. This Awareness indicates that shortly thereafter, the entity Paul Shockley realized what had occurred, and also recognized his role in the event and circumstances, and pledged himself to "wait for his soul mate to return," assuming that the marriage was one that resulted from spite, and which might not work out. The entity pledged to wait and see. This Awareness indicates after two years of waiting, the entity,--feeling some great remorse and sorrow, and feeling totally confused, lost and helpless, unable to communicate with his lost soul mate,--consulted a psychic reader, even though he had never before given credence to such things, and the psychic reader said that "this entity will return in approximately two years."

This Awareness indicates that the entity Paul Shockley again began to restore his determination to wait, and waited again for two years. During which time he began studying astrology and other occult and mystical sciences, for he found that the sciences and literature and teachings of the formal education had no answer for this circumstance in his life, and hoped that this strange area of the

occult and metaphysical might supply an answer to his quest. This Awareness indicates that during the search for truth and assistance in solving the quest, the entity was introduced to the Edgar Cayce material, and though finding it difficult to believe, eventually had read and studied and accepted much of this information as a possibility.

This Awareness indicates that along the way, the entity was told by a casual acquaintance, of Ralph Duby, who gave trance readings similar to that of Edgar Cayce; and the entity, Paul Shockley, hungry for assistance, sought to become involved in the *Organization of Awareness*, in order to receive a reading from Ralph Duby so that he could discover what to do in regard to his search for his soul mate. This Awareness indicates that Ralph Duby passed on before the Interpreter Paul Shockley could receive a reading, and soon David Worcester was giving trance readings from this Awareness. This Awareness indicates that after six years of waiting for his soul mate to return, Paul Shockley finally asked in a trance reading of David Worcester: "What is my karmic relationship with the entity Rosalie?"

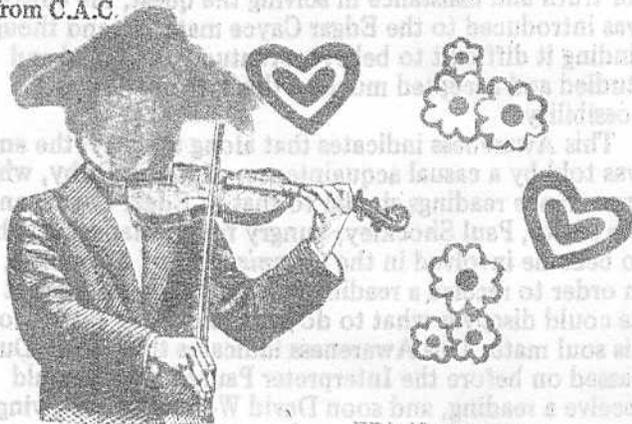

This Awareness answered through that Interpreter David Worcester: "This Awareness indicates this entity as having been your mother in the 16th century." This Awareness indicates at this point, the entity Paul Shockley experienced a total release from his quest, and began to laugh inside at his own foolishness, for he had simply been pursuing his long departed mother in an experience which had not been made clear to him. This Awareness indicates that essentially, the energy dissolved and the entity was free from this quest.

This Awareness indicates however, there was more occurring here than the mere search for a soul mate, for it was through this mechanism that this Awareness moved this entity to this Awareness for *Its* purposes, and it was through this action that this Awareness led this entity to surrender himself to this Awareness.

ED's Note:

Wow! That was a real tear-jerker, a very heart-rending tale about our Interpreter, now wasn't it? I was sitting on the edge of my chair, waiting to see how it all ended. (Vicki T. sat spellbound during that trance session as this tale unfolded, and at the end was in tears.) Didn't I see that story on TV one afternoon while running the printing press? The plot does seem vaguely familiar somehow. Maybe someone did sell that plot to one of the soap companies!

Anyway, since Awareness just spun a tale about one Interpreter, and since It mentioned the "Treasure Map", I shall relate a true tale about another Interpreter and a Treasure Map. The year was about 1967 and I was the Publications Minister of Organization of Awareness. My job was to print up literature and try to get members into the organization, among other things. From this literature a man named Tom Mooney started a group in Calgary, Alberta, and desired to get the Development Classes etc. started there, but he needed more information and indicated that he wanted desperately to come to Olympia to meet the O of A people and participate in a special meeting that was scheduled there in about 9 weeks. He told me he was penniless, had a family to support, had quit his job because he felt the 'call' to come to Olympia and check out that organization.

I wrote and told him that I had a book by Ophiel, which told how to make a treasure map and that 'magic' could be applied in cases like his to provide all that was necessary. I told him that I had made a Treasure Map once and it worked out right to the letter for me, and that I was mailing him the book to also try the method.

I had forgotten all about it when one day the entity arrived at the office door. It was exactly 9 weeks from the day he had written and he had come to attend the meetings of the O of A which he had so fervently desired to do. He was truly excited and insisted we take a walk and talk. I asked him if he had bothered to make the Treasure Map I had suggested, and he was so excited he almost couldn't stand still. "I certainly did make that Treasure Map", he exclaimed. "That's the only reason I am in Olympia today."

I asked him to tell me about it. He said that when the book arrived, he read it carefully and followed the instructions exactly. These were, mainly, to write out exactly what it was you desired; write out exactly what requirements you need on the things desired, and precisely what time it must arrive. He said he needed 2 basic things: transportation to Olympia, and enough money to cover the costs of getting there and staying there for about 3 weeks. He also needed some clothes. He then told me how he spelled all these things out, hid the Treasure Map and did not look at it again. As the deadline drew near the date he had to leave in order to make it to the Olympia meeting, nothing had so far occurred. He had tried to obtain work, but there was a recession in Canada at the time, and he was only able to do odd jobs and try to pay his bills; there was never any money left over to save for that long trip. He figured that by driving both day and night he could make it to Olympia in 2 days, so when it was only 4 days before the happening in Olympia was scheduled to occur, Tom still did not have any signs that his Treasure Map was working. He admitted to me that he was beginning to have some doubts at that

time, but he was keeping the faith, knowing that something would turn up in time. Well, the day before he was scheduled to leave he still did not have any transportation or enough money for bus fare. He was unable to get loans from anyone he knew. He was sitting on the front steps of his house thinking about all this, when his brother (whom he had not seen in 20 years) drove up to his house with his wife and child. He informed Tom that he was on his way to Hawaii to live and to work at a new job there, and that it was too expensive to ship his car there, and would Tom like to have his car,--no strings attached. Tom, of course, was delighted. And one of the two main things he had put on his Treasure Map had just manifested. The brother also had several suitcases full of suits and other clothes which he did not want to take with him to Hawaii and he gave these also to Tom. That night he saw his brother and family off to Hawaii from the Calgary airport. The next day, the final deadline,--the day he must leave for Olympia if he was to make that conference, Tom began to really worry along about noon whether the money he needed was going to manifest. Getting that car in the nick of time had really fired his enthusiasm up and he just KNEW that the money would be provided. He again sat down on his front steps to await the person who was to bring the money (he hoped). All morning he sat there, and no one came. Nor did the telephone ring or anything else of that nature that might signify some money coming his way. Around noon his wife came out and told him that if he was to make it to Olympia, he would have to leave within the hour. Tom replied that the Treasure map had not yet provided the funding for that trip, and that he still had an hour to go.

About 15 minutes till one, Tom was sitting on the steps looking up and down the streets, expecting some kind of miracle to occur, when the postman drove up to his mailbox and deposited a letter. Tom rushed to the mailbox, looked at the letter and opened it. Then he let out a whoop you could hear for 6 blocks, ran up the stairs to his wife, and waved a piece of paper at her. It was a check for \$400 and the letter accompanying the check was from an insurance company back East. It told Tom that a relative (he had never heard of before) had died recently and she had divided her funds to be shared with her remaining living relatives, of whom Tom evidently was one. He kissed his wife goodbye, drove to the bank and cashed the check, then started off over the mountains to Washington state. He arrived tired and exhausted, but still excited over the Treasure Map, only a few hours before the meetings were to begin.

Tom stayed at my cabin for several days and we became good friends. Later, after taking the Development Classes and returning to Calgary, Tom blossomed forth as a channel for Cosmic Awareness. He came to Olympia numerous times and did many readings, some of these lasting six hours at a stretch. Awareness had moved this entity to fill the gap left at the untimely death of Ralph Duby, and before the entity David Worcester was to become Interpreter later on.

What happened to Tom Mooney since then? Well, his group in Calgary later on were instructed by Awareness to drive a caravan of their ministers through the U.S. to places like Los Alamos, N.M., and Oak Ridge, Tenn., and completely circle those huge atomic plants and "bind" them with a certain ritual to prevent them from contaminating the earth at the time. Tom and his band of ministers drove across America, "binding" those fearsome structures with a magic ritual few were even aware had taken place. No one knows for sure, but that little band of Cosmic Awareness ministers out of Canada may have saved countless entities from nuclear poisoning, or perhaps saved those nuclear facilities from accidents. I don't really know and Awareness has not given any info on that to my knowledge, since Tom and his band made that pilgrimage 15 years ago.

What happened to Tom after that was vague. I do know he went to York, Pa., and tried to start a community going on a farm owned by Alex Thompson, and he gave a number of readings to entities around that area. Later he returned to Canada, I heard, started a newspaper that dealt in trading items, and later got fabulously rich from that publication. Over the years I wrote to the entity and sent him current information from Awareness, but he never once answered my letters. A few years ago, some one back East, Alex perhaps, received a letter from Tom with the request that he forward to CAC the request that he (Tom) be removed from their mailing list and not

to send anymore Cosmic Awareness literature to him. It seems that Tom got converted and was 'born again' and he felt that the Cosmic Awareness material was the work of the devil and he no longer wanted anything to do with it. I have often wondered since then, if he ever remembered that Treasure Map and if he used it later to gain his fortune, and whether he thought the 'devil' had put those trips together also. If he does, I wonder what he did with all that money? Gave it all away, perhaps. I just don't know, really.

As an old girl-friend of mine frequently says, "It's a crazy old world, Avaton, It's just a plain, crazy old world."

Come to think of it, I almost have to agree with her on that one.

But yes, Virginia, making a Treasure Map does sometimes work. It certainly worked for Tom Mooney and it did a simply incredible job for yours truly. ( But that's another story). Avaton.

## WANT TO HELP CHANGE THE WORLD? HERE'S ONE GOOD WAY TO START:

### QUESTION:

We received a letter some time back from M.S., of Cleveland, Ohio, which was a letter to the CAC staff, but which contains a question that Awareness might discourse upon. She writes:

"Dear CAC staff, I am writing to thank you for sharing Cosmic Awareness Communications with me. The material is not always of a joyful nature, but it is as truth, and truth includes all.

I would also like to thank you for including the 'Letters from Bill'. These are so informative, and have helped me to understand ideas and concepts that I had thought on before, but had never seen written and explained. To Paul Shockley and Bill, another thank you. I now have a better understanding of why cars are a danger, why poisons, funerals, prescription drugs, coffee, fluoride toothpaste, and other numerous things are against the betterment of mankind.

"I do some of the meditations to contribute on a mind level. I am asking: What can I do to help improve these conditions on a physical level, without attacking these corporations and conditions, but by helping to create conditions in society where man can build safer cars, and lose the interest in exploiting the masses, and will coexist with nature and animals? How can the Light Workers begin to vote fellow Light Seekers into government offices? I know this is a loaded question, but will CAC give suggestions? Surely, there are others who also want to help. How can we take the first step on a physical level? Thank you, M.S."

### COSMIC AWARENESS:

This Awareness indicates that the way by which masses are affected is not generally through personal contact, for that is very limiting. This Awareness indicates that in order to affect masses through personal contact, you must have masses working with masses. This Awareness indicates that generally, the approach is to inform or teach others. This Awareness indicates that to spread information, or teach others, may be either on a one-to-one basis, or with a small group, or with a large group, wherein personal contact is experienced between the teacher and the students, or one may teach by sharing information wherein no personal contact is experienced, but wherein literature or material or messages are conveyed through some other similar means.

This Awareness indicates that in order for you to determine which approach would be appropriate to you, you must ask yourself if you prefer the personal contact with others, teaching and sharing your information with them, or if you prefer the remote contact, such as through written material, cassette tapes, or through some other means. This Awareness indicates that if you choose the personal contact, you must decide whether this should be on a one-to-one basis, or of a small group, or of a large group, and if so, how you would proceed in these actions.

This Awareness indicates that you may also consider the action of creating through written material, or through advertisement, or some other form of communication, a suggestion or opportunity for entities to come together to exchange ideas. This Awareness indicates however, in such a case, you may find that many of the ideas being exchanged are contrary to your intentions or purposes, therefore, you may choose to limit these gatherings to persons of a particular inclination. This Awareness suggests that in-so-doing, you may find yourself creating an organization that expresses concern for these various topics mentioned in your question.

This Awareness indicates that in such an organization, you may find yourself playing a major part, or of giving suggestions that others play a major part. You may find that you prefer to take a minor role. This Awareness indicates that there are many ways whereby entities can get involved in helping to change this planet. That essentially, it comes down to giving service of a healing nature, or teaching and sharing information.

\*\*\*\*

ED's Note: For more on how to get organized, please refer to 'Revelations of Awareness' No. \$3-2 (Helping One Another); \$3.00 from CAC. Also, forthcoming shortly will be a reading from Awareness in relation to the cruelty to animals and how entities might organize to help alleviate this problem around the world. One of the purposes of listing CAC members who wish to get a study group going in their area, is to energize the possibility that some of these groups may organize into more powerful groups or organizations and therefore increase their effectiveness in serving others by many times what they could do as individuals alone.

## "TELE-HEALTH"---A NEW WAY YOU CAN LOCATE NATURAL HEALERS IN YOUR AREA

### QUESTION:

One final question for this session. This in another area. Everytime Awareness mentions naturopathic or homeopathic medicine, and refers entities in their areas (in their personal readings) to these types of doctors, we get letters from entities stating that there are no naturopathic or homeopathic doctors in their area. Now I just noticed on this material Doc D. gave me, there's an advertisement for an outfit called "Tele-Health"; I'd like to read the ad and ask Awareness to look at this and see if this would be appropriate for some of our members:

"Tele-Health is the only service in the world you can subscribe to which offers a toll-free number you can call to discuss health questions and problems with physicians in the natural healing field, and it is offered at only \$60 a year, or \$100 for two years. Besides this, you receive the best available monthly newsletters on natural healing, a hemisphere-wide referral service to the finest natural health physicians and discounts on books and natural remedies ordered over our toll-free phone line.

"A Tele-Health subscription is a perfect gift, but for those on your gift-paying list for whom the cost of Tele-Health is too great, may we recommend a gift of a year's subscription to the newsletter alone at \$12. To subscribe to Tele-Health (or the Newsletter) call 1-215-536-8001 in Pennsylvania, or call toll-free 1-800-523-5388 in the continental United States."

### COSMIC AWARENESS:

This Awareness indicates that this can be a good source for information for your membership. That this can be very beneficial in helping them to locate doctors in their area. This Awareness indicates that there are a number of naturopathic and homeopathic and chiropractic colleges in the United States. That the addresses of these colleges should be provided to the membership whereby they may make contact and locate doctors in their area.

This Awareness indicates that some states have certain regulations preventing the training or the practice of certain types of medicines and activities among the natural healers. This Awareness indicates that in some states the various doctors are not as well-trained as in others; the requirements not being as stringent. This Awareness indicates therefore, it is good to have some information of a general nature whereby entities may be selective as to who they are contacting.

This Awareness indicates that this number as one source which is valuable in that it can help entities to receive important information of high quality in the natural healing areas. This Awareness indicates that the naturopathic college in Portland, Oregon, --Western State Chiropractic College--that these are producing highly trained doctors in the naturopathic and chiropractic fields, whereby they have received training in areas which medical doctors know little about, particularly in regard to vitamin therapy, and in regard to the healing mechanisms of the body, encouraging the body's own healing of itself through the acts of giving the body that which is necessary to

nourish the immunity system and to assist in its own repair. This also including preventive therapy.

This Awareness indicates that many of these doctors trained in this area do travel to other states and set up practice. That it would be beneficial to have a telephone number whereby these doctors can be located through that number.

\*\*\*\*

ED's Note: The address and phone number of Western States Chiropractic College is 2900 NE 132nd St., Portland, Oregon. (Phone: (503) 256-3180).

### WHO IS TRYING TO DESTROY

MR. ANDROPOV,

RUSSIAN LEADER?

### QUESTION: (June 9, 1983)

Awareness, Mr. Andropov, the leader of the Soviet government, in the last couple of months has been in and out of hospitals, and on the news the other day it showed a picture of him where he looked very weak, and was being helped by other entities, and there is discussion that the entity is soon to depart this plane due to so many physical illnesses...Is this...

### COSMIC AWARENESS:

This Awareness indicates this entity as being attacked by certain psionic devices. This Awareness indicates that the entity as under constant attack by these psionic type vibrations. This Awareness indicates that this is not the only entity being attacked in this manner, but that this entity is being targeted particularly for such attack during this critical time to create disruption in the Kremlin during a time of crisis, which is planned to coincide with the employment of nuclear weapons into Europe, and other movements of a political or military nature.

### THE POPE'S VISIT TO POLAND

### QUESTION:

Awareness, the Pope plans to go to Poland later on this month. Does Awareness see any problem coming up when that event occurs?

### COSMIC AWARENESS:

This Awareness indicates that there appears to be a potential for an event to occur that could be inciting to the masses of that country. This Awareness indicates that it is somewhat dangerous to this entity to be in that country during this time, however, it also can assist in bringing about a clarification of energies which, if properly handled could assist in reconciling many of the conflicts in the area. This Awareness indicates that it appears this entity as having the potential to overcome the dangers and to bring about many reconciliations. This Awareness indicates this depending upon whether outside forces attempt to create an incident for triggering off greater violence in that country, and in so doing causing an incident that prevents such reconciliation.
