COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

## FANNING THE WINDS OF WAR...

A FORECAST FOR THE NEXT 4 MONTHS

(September 9, 1983)

### QUESTION:

Awareness, we're here to begin the monthly series of CAC readings. Does Awareness have an opening message?

### COSMIC AWARENESS:

This Awareness indicates that the activities throughout the month of September and October and through the remainder of this year are seen as being filled with many uncertainties. This Awareness indicates that surprises and concerns in regard to national and international affairs as that which will be highlighting the remainder of this year. This Awareness indicates that this in reference to the heating up of the conflicts in those areas which have already begun to intensify, as well as other areas which as yet have not shown great significance.

This Awareness indicates that the India and Pakistan conflict as that which may escalate. This Awareness indicates that in the Far East, in areas of Vietnam and Thailand, this Awareness indicates these areas as also being potential hot spots during the coming year. This Awareness indicates that likewise, the Philippines as that which is also of potential danger. This Awareness indicates that the area of South America, particularly in the Central American areas, as that which shall be seen as an escalating concern. This Awareness indicates this also associated with the Panama Canal. This Awareness suggests that this may be of great concern during the coming year.

This Awareness indicates that the areas of the Middle East are escalating and that this can also continue to bring about greater turbulence in that area. This Awareness reminds you of the maneuvers recently held in Egypt and those activities in Africa. This Awareness indicates that it appears throughout the globe, that those areas which are capable of being ignited, are being ignited. This Awareness indicates this including the Eastern Europe and areas of the British Isles as well.

This Awareness indicates that the total scenario as that which is a conditioning for increasing conflict throughout the world, wherever possible. That this allows for confusion to appear, that more is inevitable, and that no one is to blame because things are simply getting out of hand. This Awareness indicates however, that all of this is carefully orchestrated and carefully maneuvered so that these events are occurring on schedule, according to plans whereby the continued escalation is that which is intended to raise the conflict level for a conventional type warfare which escalates to a point whereby it becomes possible to bring about conditions in such a manner as to alter the controls that keep the balance of peace, so that there can be the winning of a war whereby Russia is basically destroyed and it is such that no particular nation appears to have been the instigator of the action.

This Awareness indicates that in fact, it will not be a particular nation, but rather a group of entities who are pulling the strings and maneuvering the various nations. This Awareness indicates that this basically is the plan, whereby within a few months the missiles will be introduced into Europe, close enough to Russia to be of significant threat. This Awareness indicates that this of course is not the plan which Russia will willingly allow or which Russia will accept and this Awareness indicates that there can be expected the retaliations from the Russians as this plan is developed so that the unexpected can enter and make shambles of this plan.

This Awareness indicates that you may recall that the Russians have placed cobalt bombs in various places around the United States shorelines, in lakes and rivers, and these may be activated, creating earthquakes. This Awareness reminds you that the earthquakes generated by these cobalt bombs are generally in the range of 6.5 on the Richter scale. This Awareness indicates that the earthquake in Alaska yesterday as being at 6.4 on the Richter scale.

This Awareness indicates that you may also expect that there will be various types of sabotage occurring, not only in the United States, but in other countries also. This Awareness indicates that terrorism may increase as this plan is promoted. That this terrorism may be found in other than the war-torn countries. This Awareness indicates that the intensifying of these energies as that which is seen as bringing about the implementation of a greater military force, wherein young men will be drafted. This Awareness indicates that already there are discussions of drafting nurses and doctors, requiring these entities to register for the draft.

This Awareness indicates that this as that which can lead to some resistance within the United States, but this Awareness indicates that as these energies are being manipulated such as with the recent airline crash of the 007 (flight number) jet-liner, whereby entities' emotions are played with in a manner to give support, to bring about a public support for these militaristic activities; the likelihood that entities will continue to support these plans is quite strong.

This Awareness indicates that entities may also be watchful for further events that will be used to increase the popular support for the militaristic designs. This Awareness indicates that this as being but the beginning. This Awareness indicates that there is however, some potential for an alteration of these events. This in relation to the activities of those who are aware of this plan and who very carefully are biding their time for the chance and proper timing to show these entities to be what they are, after they have presented themselves to such an extreme and after they have so presented their expressions to be shown for what they are actually doing. This may alter consciousness and the opinion even of the American people. This Awareness indicates that this is all very nebulous at this time, and there is much unclarity as to the final outcome of these energies which are in motion at this time.

## DOOMED JETLINER WAS ON SPY MISSION

...PASSENGERS WERE SUPPOSED TO BE SHIELDS

### QUESTION:

Some time back, Dr. Beter mentioned, and Awareness confirmed that there were large amounts of Russian troops in Quebec, Canada, and also in Mexico. Is this still true today, that there are lots of Russian troops in those two places?

### COSMIC AWARENESS:

This Awareness indicates that these as Russian agents. This Awareness indicates that this also in Nicaragua. This Awareness indicates that these not being troops in the sense of uniformed military personnel.

### QUESTION:

I recall Dr. Beter said they were there for a potential land invasion, if necessary, of the United States.

This Awareness indicates that these as having been there largely for training and to train civilians and the local militias and also for establishing networks of communication within these areas; these being agents. This Awareness indicates there were at one time, a large number of Russian troops in Nicaragua, these as being also from Cuba, having come into that area. This Awareness indicates that there still are some, but not as many as previously.

This Awareness indicates that in reference to the crash of 007, the spy airliner, this Awareness indicates that this essentially as being a spy maneuver whereby the plane was deliberately flown off course into Russian territory with the realization that the passengers and plane might be destroyed. This Awareness indicates that this as a mission whereby information being gathered in regard to bases, in regard to tracking systems, related to those systems which were tracking the shuttle craft, in relation to systems which are set up in that area of defense, and for offense, and the information as that which being sent through coded messages, as that which was essentially completed before the plane was destroyed.

This Awareness indicates that it is because of this that the Russians refused to allow anyone in the area to help locate the plane. This Awareness indicates that as of the present time, the Russians have located this plane and are working to retrieve the recordings of the information that will indicate the plane as being a spy plane. This Awareness indicates essentially, this as having been an action wherein civilians were used as shields on the hope that this would prevent this plane from being shot down.

This Awareness indicates however, the plan included the possibility of such destruction, and in the event that it would be destroyed, the destruction of the plane would be used for propaganda to stop the Nuclear Freeze energies, to gain momentum and support for the installation of the missiles in Europe. This Awareness indicates that as of now, the Russians have been relatively silent on this, alluding only to the hints that this was caused by the United States.

This Awareness indicates that they are waiting for the evidence to be retrieved, whereby this may be presented publically. This Awareness indicates that in the event this information is made public, it can have serious repercussions on the United States in terms of its heavy propaganda gains which have been made from the destruction of this airliner. This Awareness indicates that much of this may not be presented to the American people, or may be downplayed considerably, but the foreign press, when this is released, will have considerable impact on the public opinion.

This Awareness indicates that this as being part of a plan, following the same plan as that used in 1978. That this plan as being implemented through agencies within the government. This Awareness indicates that the President and others who serve as spokesmen for the United States were not made aware of this spy mission of this plane, thus these entities are able to express their wrath and anger with greater conviction. This Awareness indicates however, much of what they are expressing and the stance which they are given to use in such expression comes as advice to them from those who are aware of the total scenario.

## AIRLINE PILOT WAS IN ON THE PLOT

...RUSSIANS SEARCHING FOR TELL-TALE RECORDER

### QUESTION:

Did they use drugs or hypnosis on the pilot so that he would alter the course?

### COSMIC AWARENESS:

This Awareness indicates that this as negative. This Awareness indicates that the pilot as one who was aware of the mission and purpose of the mission and was part of the activity. That this entity did feel confident that they had completed the mission and were leaving the territory and in the process, were safe. This Awareness indicates that this entity in fact did remark to this effect on the tapes. This Awareness indicates that this as part of the evidence which may be released publically.

This Awareness indicates there is great consternation in regard to the Russians discovering these tapes and releasing these publically. This Awareness indicates that it is in part for this reason that the heavy and continuous barrage and sanctions are being pressed upon the public, to get their emotions so polarized that even if evidence is presented it will not be believed or accepted. This Awareness indicates that the great intensification of this barrage as that which can also be intensified again by another event (in short time) to take the tension off of this particular incident so that even if the tapes are found and released, entities will pay little significance or attention to the findings.

### Bolsheviks Using Event to Kill Nuclear Freeze

This Awareness indicates that it is seen as a series of maneuvers to sway consciousness into a war-fever, whereby support for the installation of these missiles will be increased and whereby the efforts toward Nuclear Freeze or disarmament and peace talks will be neutralized. This Awareness indicates that the desire and efforts by these forces is to get the masses riled up to a point whereby they will support a war against Russia, for Russia at this time is a major threat to the forces which desire the world domination.

This Awareness indicates that this information as that which for many would appear as being anti-American in nature. This Awareness indicates that on the contrary, this Awareness indicates that these entities who are now in control of these programs are essentially the Bolsheviks, or those who are aligned with the Bolsheviks, who were in fact a few years ago, the enemies of America. This Awareness indicates that the Russians at this time, being the Skoptsis who overthrew the Bolsheviks in their country in a secret war, a secret coup within that country;—this during the time when the detente broke down between the United States and Russia.

This Awareness indicates that essentially, these conflicts between these forces are likened unto a life and death struggle in which the rest of humanity is being sucked into this life and death struggle between these polarized forces. This Awareness indicates that the propaganda as that which attempts to pull entities into supporting the military plans. This Awareness indicates that it would be much more reasonable from these events to recognize that it is because of the military on both sides that this event occurred.

#### Cosmic Awareness Suggests a Plan to Overturn the Plot

This Awareness indicates that were it not for military maneuverings and paranoias and hostilities, this airliner would not have been shot down. This Awareness indicates therefore, rather than seeing this as an excuse to become more militaristic, it would seem more logical for entities to argue that this is the result of militaristic programs; ...“rather than becoming angry and becoming more militaristic, I would rather see these militaristic programs diminished.” This Awareness indicates that if entities wished to look carefully at what has occurred here, they might see that this is an *excellent* opportunity for the Peace Movement, the Freeze Movement, and these entities who are supposed to be neutralized by this event, it is an excellent opportunity for these entities to use this event to argue their point, that these militaristic ventures can get out of hand and can lead to death and destruction of innocent people.

This Awareness indicates that it is an excellent argument for Nuclear Freeze and Peace Movements. This Awareness suggests that entities wishing to help turn this event in favor of the Peace Movements and Nuclear Freeze Movements, that these entities may seriously write letters to Congress and to authorities in the two different nations, in Russia and the United States, arguing this point: that it is the militaristic attitudes of the nations which led to this event and all-the-more reason why entities should seek disarmament and peace, to prevent such things from occurring again.

This Awareness indicates that in writing such letters, it is possible that this may neutralize the polarity that has been created by the press and its manipulation of this event. This Awareness indicates that entities wishing to write such letters may also summarize this message and send this information to those Nuclear Freeze groups and the Peace groups, and suggest that they also send such letters, and to present such a stance in the newspapers and through their publications.

#### JETLINER WAS EXPECTED TO BE SHOT DOWN

...PUBLIC FURY WOULD STOP PEACE MOVEMENT

#### QUESTION:

Awareness, when the Russians accused the United States of using that aircraft as a spy plane, the United States said that this is nonsense because they already knew about the installations, and get that information from their regular high-flying spy planes and the satellites. If this is true, why would they need to get closer?

#### COSMIC AWARENESS:

This Awareness indicates that they do not have the high-flying satellites and airplanes that can pick up the information which they desired. This Awareness indicates that this in part relating to the precise location and nature of certain bases and tracking stations, and also to the testing of certain devices. This Awareness indicates that even more important to these entities however, was the crash of the plane for propaganda purposes. This Awareness indicates that the pilot not being aware of this particular aspect of the plan; the pilot believing that he was supposed to gather certain information.

This Awareness indicates that it was the *intention* that this plane be lost and destroyed. This Awareness indicates that there was a period of blackout communications in Russia shortly after this occurred. This Awareness indicates this because the Russians were unsure of what exactly was happening. That this may have for them been the beginning of a nuclear strike, wherein the shuttle-craft was in the air, in space, a plane flying over their territory sending back signals, and the communication shut off, as it was shut off in September of last year.

This Awareness indicates that the procedure in Russia is that when they are threatened by strike, to shut off all communication, for it makes it impossible or difficult for the effects of any bombings on their territory to be assessed if communication has already been shut off, for much of the assessment would occur from the assessment of communications.

This Awareness indicates that this action was not known by President Reagan, by Shultz. This Awareness indicates that these entities as being sincere in their reactions to the event. This Awareness indicates that the greatest goal of this was to get public support for the installation of nuclear weapons into Europe. This Awareness indicates that you will see this being promoted and accelerated greatly as a result of this event, unless the Russians can turn public opinion around.

ED's Note: This information was essentially confirmed 3 days after this reading was given, when a Russian TV news-cast stated the plane flew without lights over two separate secret Russian military installations. Four salvos of tracer bullets were fired in front of the plane as a warning; the Soviet plane flashed its lights, waggled the wings in the international signal for the plane to land, but the 747 continued on its course. A 747 pilot was later quoted as saying it was 'virtually impossible' that the plane could get that far off course with all its many backup systems, plus not having its lights function.

The Russian pilot who shot down the jetliner said: "I was always confident that it was an intruder plane which was flying on a real spying mission or that it had on board that bomb which would maybe fall on my house."

#### What CAC Members Can Do

This Awareness indicates there is a good chance that this may be turned around so that the event does not favor the installation of these weapons and so that those who have perpetrated this event are seen for what they are. This Awareness indicates that as far as CAC members are concerned, that the appropriate response would be to write and contact those newspapers, those entities of influence in the Nuclear Freeze Movement, in the Peace Movements, and those in Congress with the argument that this is a perfect example of what militaristic attitudes lead to and all-the-more reason why disarmament and peace agreements should be stressed and meetings held.

This Awareness indicates that the event also as helping to scuttle the meetings which were set up between the President of the United States and the Premier Andropov. This Awareness indicates that this also may be used to scuttle the SALT Treaty talks, or that known as the START Treaty talks, or any of these other negotiating discussion groups relating to

problems between Russia and the United States. This Awareness indicates the intention and effort of those behind this action is to make it appear that there is no way to have peace, for these entities (the Russians) are too barbaric to be trusted in peace talks.

This Awareness indicates that anyone who observed the peace talks and negotiations that occurred during the '50s and '60s, knowing how the Russians communicated at these talks, demanding more than they were ever willing to give, aggressive, never yielding, and not honoring their agreements, and entities who watch the way the peace talks of today are handled in reference to the Western powers, will see that the tables have turned and the Western powers are now behaving exactly as the Bolsheviks behaved in the '50s and '60s, in regard to peace talks and in regard to pledges and promises.

These words, broken by events, the SALT treaties being broken, various agreements to hold talks being broken; these things being altered by artificial events used as an excuse to get out of agreements so that rather than reaching peaceful solutions, or rather than negotiating to find peaceful solutions, excuses are found to avoid the meeting, or to scuttle the agreement. This Awareness indicates that it is a grave period in the history of the United States, whereby this great country has come under the rule of deceptive forces which are maneuvering the masses toward a chaotic future.

This Awareness indicates that the great hope of the world once, within a few years back, rested in the hands of this nation, but from the time of the death of President Kennedy, the leadership has deteriorated, greater and greater deception has been allowed, and the masses inhabiting the nation have been maneuvered and led into infantile desires, seeking momentary gratifications, giving up long-range plans; ideals that have been of value, concepts and moralities which have served, customs which have served, now being tossed aside whereby entities seek pleasure of the moment, because they doubt they have a future, because long-range goals are impractical in a society that is driving toward suicidal war.

This Awareness indicates it will take a great awakening for this nation to become what it could be, what it once was. This Awareness indicates however, that the great awakening may still occur; that there are within this nation many who are aware; that the majority are but followers as a nation of sheep, following those who lead through deception; but there are those who are awake and who are awakening others. This Awareness indicates that *It* is concerned regarding the masses of this nation, but *It* is not deeply worried in regard to the future of the entities in this nation.

This Awareness indicates however, that *It* requests that those who are aware help where they can to awaken the sleeping masses.

## U.S. HAS NO SATELLITE THAT STILL WORKS

( THE REAL PURPOSE OF THE SPACE SHUTTLE )

### QUESTION:

We got a note from B.J. who writes: "Have just been advised that the Indian Ocean satellite has just been knocked out of commission for the purpose of any act of war." Does Awareness see that as valid?

### COSMIC AWARENESS:

This Awareness indicates this in the affirmative. This Awareness indicates there is much which occurs behind the scenes, outside of the news. This Awareness indicates that the satellites which the Americans have attempted

to establish in space in order to monitor their nuclear strike weaponry and spy on areas in the Soviet Union, these satellites essentially are all ineffective, or out of commission, although some are still circling the globe.

This Awareness indicates that the recent mission of the shuttle-craft being that of efforts to prepare for restoring and repairing satellites which have been malfunctioning. This Awareness indicates that this practice as that which essentially is of little value. This Awareness indicates that it is in part a futile move by these Bolshevik forces to create little fires or little wars all over the world, because the chance of defeating Russia in a great war under present conditions, is very limited.

This Awareness indicates that without weapons nearer to Russia, such as in Europe, without a significant change in the balance of power, the Bolsheviks know that their efforts to defeat Russia are slim, are weak. This Awareness indicates that the Russians having an edge in terms of technological weaponry, are not about to allow these Bolsheviks to have that opportunity to change the balance of power. This Awareness indicates however, the areas wherein the Russians are weakest are those areas in the small countries around the world wherein there is conflict and the conflict between these small countries in which Russian allies or satellites are engaged in battle with others, wherein these areas are far away or in need of supplies, and wherein the United States is capable of giving greater conventional weaponry and supplies and leadership and advice to those nations which oppose the Russian allies and satellites.

Secret US Weapons Unknown to Russia  
( Armies Could be Dematerialized )

This Awareness indicates that this area being the weakest area in Russia's defense. This basically likened unto the conventional war areas in which Russia is relatively vulnerable, such as Afghanistan. This Awareness indicates that the Bolsheviks, knowing this, take advantage of this in their effort to win greater support from those nations which are in conflict with the Russian satellite nations or allies. This continued conflict being that which they seek to bring more and more Russian involvement into these areas, to drain the Russian economy, manpower, and to get Russia involved in conventional warfare.

This Awareness indicates that their plan, hopefully, is to avoid the great war, involving Russia in conventional warfare, weakening her until she is at a position of being vulnerable, --economically and militarily, --so that then a strike, in terms of nuclear weapons and the great powers which have been hidden by the United States, may be used in a sudden strike of great devastation.

This Awareness indicates that this essentially is the plan. That the United States has not brought forth its full weaponry. This Awareness indicates that there are weapons in the United States arsenal that are unknown to the public and to Russia, including various types of laser warfare equipment. This Awareness indicates there are rays which not only can melt arms, melt tanks or melt ships, there are rays which can even, when turned to a different frequency, dematerialize these armies, weapons, vehicles, ships or planes. This Awareness indicates that these weapons, this arsenal of material has not yet been brought out, and is being kept secret. This Awareness indicates that there is a great threat at this time, but there is also great hope, for weapons, no matter how great in terms of destructive force, are only powerful when used.

This Awareness indicates that there are few entities who want these weapons used, and these entities only want these weapons used to their advantage. This Awareness indicates that there are more and more entities who are awakening to the futility of war, and who in their awakening, awaken others. This Awareness indicates

that the great movement and effort which entities can involve themselves in is that effort to awaken the masses to the futility of war, for at this time, with the weapons available, there can be no winners.

(The gentle carpenter from Nazareth, who happened to be the real thing, must surely have turned over in his grave at that one.)

### THREE WAR MONGERS DISAPPEAR

...IS THIS A COINCIDENCE?

#### QUESTION:

Awareness, within a 24 hour period on September 1st, Menachem Begin, head of Israel resigned, Senator Henry Jackson died with what was called a sudden and massive heart attack which later they said wasn't accurate, (it was a burst vein), and the head of the John Birch Society was killed when the Russians shot that 747 down. Within 24 hours, three of the biggest war-hawks in the world left this plane. Was that just coincidence, or is there something more than meets the eye here?

#### COSMIC AWARENESS:

This Awareness indicates that the entity Menachem Begin as still in physical form. This Awareness indicates the entity as having stepped down from power. This Awareness suggests however, that this as being a significant occurrence. This Awareness indicates that aboard the plane were others also besides this entity who was the head of the John Birch Society. This Awareness indicates that there were other persons of significance on this airplane. This Awareness indicates that this basically as not being controlled by any particular force on this plane.

This Awareness indicates however that there are forces from other planes who assist in altering events on this plane through actions that sometimes appear as coincidences. This Awareness indicates that the entity Henry Jackson as one whose death was influenced from the Inner Plane. This Awareness indicates the entity on the plane as one whose death was brought about from influences of this physical plane. The entity Menachem Begin, as one who from his own volition determined or decided to cease in his activities. This as a personal choice. This Awareness indicates however, that this as being that which is seen by many as a blessing.\*

This Awareness indicates that there will be more changes of this nature, whereby other war-hawks will be removed from this plane, or from their seats of power.

\*\*\*

\* It should be! Menachem Begin is one of the most blood-thirsty entities on the face of the globe; a former head of the dreaded Mossad, an admitted terrorist for years and responsible for countless thousands of atrocities against the Arab nations in the name of 'Israel'. He has been dedicated from the start to expand Israel into neighboring territories and turn his peaceful Jewish people into savage militarists dedicated to save their 'homeland'. An accomplished liar, deceitful and egotistical, the entity denies complicity in the many bloodbaths and atrocities that have been and still are being carried out in that Mideast area. It is truly ironic that when Begin announced he was going to resign, the multitudes rallied in the streets, crying "Begin, Begin, King of the Jews."

ED's Note: here in Washington State all the media are deifying Jackson as though he were Jesus Christ just crucified. No one seems to remember that this entity was allied with the Pentagon, was one of the driving forces to keep America in Vietnam, while funneling choice war contracts to Boeing of Seattle, who had bankrolled his career for years, along with the Weyerhaeuser Co., which has the dubious distinction of being No. 1 of the "Filthy 5" environmentally offensive corporations who repeatedly violate our environmental laws and contribute heavily to congressmen with poor environmental voting records etc. No one seemed to mention that it was primarily this entity who armed Israel to the teeth, using billions of taxpayers money, so that this country could massacre and slaughter the innocent of Lebanon and other countries, be able to sell war machinery to any country who had the money, and put that country into position to help with the Bolshevik's planned First Strike against Russia. Nor did they mention the billions of dollars Jackson funneled to Boeing for war machinery capable of destroying millions of entities (killer satellites, lasers, space shuttles etc. used by the Beast forces). Let alone sell stupid little parts for stools in airplanes that cost Boeing a nickle to make, but which cost the taxpayers \$1300 each. It was due mainly to Jackson and his ilk that the Russians got so paranoid over the years at the massive military buildup of the allied nations, which is one big reason why that civilian 747 (ironically a Boeing-built plane) was shot down killing so many innocent people. Jackson is being hailed by the media as a "national treasure". Well, they said the same thing about the 'Enola Gay', the plane that delivered the atom bombs to Hiroshima and Nagasaki (now in the Smithsonian Institution).  
Avaton.

#### SOME PLANE WRECKS

#### ARE PHONEY COVER-UPS

#### QUESTION:

In Harvey Larsen's publication *The Larsen File*, he writes that "some plane wrecks, where 20 or so people are killed are fakes, used as a cover-up to 'explain' the death of Air Force crewmen killed on illegal intelligence-gathering missions in the Mid-East." And he says: "I got this from one of the survivors of one of these missions". Would Awareness comment on the validity of that, or how frequently that is used as cover-up?

#### COSMIC AWARENESS:

This Awareness indicates that this is correct, and that this is used as one of the ways to hide from the public the nature of a mission. This Awareness indicates that this is used frequently in proportion to the number of such missions. This Awareness indicates that the names of entities may be given. That such entities often do not exist. This Awareness indicates that on occasion there are entities on the plane whose names are real, and the entities do exist. These entities are sometimes mentioned in terms of their home address, or may be interviewed for purposes of conveying to the public the reality of the grief whereby the family is interviewed in regard to the loss of the person. This Awareness indicates that in such interviews these entities generally are real; that other names however as being listed on the plane are often fictitious.

The Larsen File, PO Box 4050, Torrance, Ca., 90510. (Sample copy \$3.00).

**A WORD OF CAUTION TO THE MEMBERSHIP**

**QUESTION:**

Does Awareness have a closing message?

**COSMIC AWARENESS:**

This Awareness indicates that the fever for hostility and polarization within the United States at this time in regard to the incident of the shooting down of the 007 spy plane, the war fever and hostility as that which is at this time quite strong, therefore, entities in quoting or in expressing opinions similar to that which this Awareness has given, should be somewhat cautious in regard to who they speak to, or how they present the information, for there is a possibility that in presenting this information to certain entities who are highly polarized, they could find themselves in heated conflict.

This Awareness indicates that to present the information in a way which does not lead to heated conflict, one may simply ask questions rather than express an opinion. The question being: "What if, in fact, this was a spy plane? How do we know that it wasn't?" This Awareness indicates that such questions open a possibility for discussion, whereas the statement that this was a spy plane, without having at your hand good evidence to support the statement may simply lead to heavy conflict against you.

This Awareness indicates that of course, every situation, every circumstance, has its own inertia and essence, and each entity must assess the circumstances in determining how to communicate or express. This Awareness indicates that *It* sees a great potential for entities to turn this event to favor the Freeze Movement and the Peace Movement, whereby writing to persons in authority, writing to persons in the Peace Movement and in the Freeze Movement, to express that this is an indication, this event is an indication that militaristic efforts are dangerous, and this event serves as a good example and reason for more peace talks, and more effort toward nuclear freeze, for if an airliner can't fly safely when it is unarmed, how can we trust these militaristic people on either side to have the discernment, the humanity, the caution, the intelligence and the wisdom to avoid future incidents of a similar or worse kind?

This Awareness indicates that entities who put their faith in the military would certainly hope that the military would show greater restraint and wisdom than was shown in this event, yet there is no guarantee that such restraint and wisdom will be shown. This Awareness indicates so long as there is a trigger to be pulled, so long as there is a button to be pushed, so long as entities are waiting at these triggers, at these buttons, there is danger; but when these triggers are dismantled and the buttons are removed, and entities go home, there is no danger.

REVELATIONS OF AWARENESS is a cosmic newsletter, published for the membership of Cosmic Awareness Communications, PO Box 115, Olympia, Washington 98507, U.S.A.

This Awareness indicates it is the militarism, not the Russians, nor the United States, but the existence of the military consciousness that needs to be looked at, and defused.

## 747 ignored signals, Soviet pilot contends

by Alison Smale  
Associated Press

MOSCOW — A man identified as the Soviet fighter pilot who shot down the South Korean Boeing 747 jetliner said yesterday that he got the order to fire after the plane ignored his warning shots and other signals to land. He appeared in an extraordinary television broadcast with two other pilots.

A second pilot said he pursued the big aircraft, and that he was convinced it was a spy plane or "even a bomber."

He and the man who flew the attack plane were interviewed at their base on Sakhalin island, the telecast said. The Soviet island is in the area where the airliner is believed to have crashed with all 269 people aboard presumed dead.

A third pilot was interviewed in Kamchatka, the peninsula which, like Sakhalin, is the site of major Soviet defense installations. He said the "intruder" plane flew with no lights.

All three appeared on the main television evening news program, a rare occurrence in the Soviet Union, which normally does not give the public such information about sensitive issues.

It was the second surprising news-media event in as many days. On Friday top Soviet officials, including the chief of staff, held a news conference on the affair. It was broadcast live abroad but was not shown in the Soviet Union.

The pilots on the evening news show, Vremya, were not identified by name. The pilot who apparently fired the missile had streaks of gray hair and appeared to be in his 40s.

Wearing a brown leather flying jacket and interviewed at his base on Sakhalin island, the pilot described what had happened when he tracked an "intruder plane" early Sept. 1.

He said he flashed his flying lights to signal his presence. There was no response from the intruding craft, he said.

Then he said he fired four lines of tracer shells that could be seen "at a distance of many kilometers" and were fired "quite near the plane."

He then flashed his lights again and wiggled his wings, international-

al signals to get the plane to land, he said.

"But it continued to fly along the same route at the same altitude," the pilot said. "And I got a command. An accurate and definite command."

Neither the pilot nor the TV interviewer stated specifically that this was the command to shoot down the plane. But viewers were left in no doubt that this was what the command was.

The plane which the pilot tracked was not referred to as anything but an intruder or "enemy" craft, with no mention being

made of its being a civilian airliner with passengers aboard.

A second pilot, dark-haired and appearing to be in his late 30s, was seated next to the first and was asked about the incident.

He said he tracked the craft at a distance of 12 kilometers (7 1/2 miles).

"I was always confident that it was an intruder plane which was flying on a real spying mission or that it had on board that bomb which would maybe fall on my house," he said.

He said the fact that the intruder ignored the signals described by the first pilot convinced him "that it really was a spy plane or a plane of another kind, even a bomber."

"I would say that I wouldn't hesitate if I had been directed. It

would have happened the same way. I wouldn't have missed that plane," the pilot added.

Soviet chief of staff Marshal Nikolai V. Ogarkov told a Moscow news conference Friday that an SU-15 interceptor shot down the Boeing 747 airliner with an air-to-air missile.

The SU-15 that fired the missile was one of six SU-15 and MiG-23 jets which tracked the South Korean craft over Sakhalin, Ogarkov said.

The chief of staff and others at the news conference insisted that the intruder was flying a spy mission in tandem with a U.S. reconnaissance jet, and that the airliner ignored 120 warning shots and all other signals before the order was given to blast it out of the sky.
