COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

PLEASE NOTE: For easier reading and greater understanding, Cosmic Awareness suggests that the following material be read aloud.

A MESSAGE FOR THE LIGHT WORKERS.... How to deal with the Neanderthal Consciousness

(Opening Message, C.A.C. General Reading No. 1)
November 10, 1983

THE NATURE OF THE MIND

This Awareness indicates that the nature of the mind is to seek an undisturbed place, or state, a state of rest. This Awareness indicates that when a disturbance occurs, that which requires the mind to be alert, the mind then becomes active until there is no further cause for such activity and the mind then again moves into a undisturbed state. This Awareness indicates the disturbance as that which creates an anxiety, uncertainty, insecurity or pain.

This Awareness indicates that the anxiety, uncertainty, insecurity or pain being created by the disturbance, forces the mind to act in such a manner as to reach a conclusion whereby the concern is ended and the concern is resolved so that the mind can return to its undisturbed state of rest. This Awareness indicates that because of this particular phenomena of the mind and the tendency of most entities to seek resolvement of disturbances quickly, there is a tendency in meeting disturbances to latch on to whatever solution appears to bring a state whereby the mind can reach a conclusion and stop being concerned.

This Awareness indicates from that point further, the mind, the conscious mind, can allow the emotions, and allow the less conscious mind (the what may be termed bicameral mind, or the more animalistic mind) to function on automatic pilot state, whereby it acts without further conscious effort. This Awareness indicates that this is the mind that allows an entity to work at a repetititive occupation without consciously thinking about the action.

This Awareness indicates that wherein there is a disturbance and an uncertainty, this aspect of consciousness, this mind or this aspect of the mind cannot function automatically. It needs to await a command from the conscious mind which allows it then to begin its action on an automatic or ritualized approach. This Awareness indicates that all routines, daily habits, all personality habits and so forth are acquired in this manner, and once acquired, are moved into the automatic area, whereby unless there is a disturbance to upset this automatic reaction to things, to routines and so forth, this continues in its pattern.

This Awareness indicates that when there is a disturbance to this, then the conscious mind must enter in and assist in making decisions. This Awareness indicates that often the lower mind makes decisions from reaction, and the use of previously determined or set patterns so that the conscious mind has very little activity in decision making. This Awareness indicates however, wherein the mind is not so closed as to react to things without thought, such as is common among entities in their relationships to one another, whereby they react the same way each time this or that action occurs in the relationship and there is little conscious thought in regard to their own reaction; this Awareness indicates wherein this is not already programmed as an automatic reaction to a disturbance, the conscious mind must enter in, filter out information, weigh the pros and cons and reach a conclusion as to the proper evaluation of the situation, and the stance or conclusion which should be drawn from the information available.

This Awareness indicates that in many cases, information is very sparse, and the conclusion must be drawn from little information. In other cases there is much information, and entities must study for some long period of time to absorb enough information to reach a conclusion whereby the mind can go back to its automatic reaction levels. This Awareness indicates that in the case of current events, such as occurred in Grenada, the tendency of the masses is to experience the disturbance, the feeling of shock, of excitement, the awakening of consciousness, and the curiosity and openness to discover: "What is occurring in my world today? What is occurring with my country? What is occurring that may affect my life and the lives of my friends?"

The mind becomes very alert and attentive to what is occurring. The mind is curious, is open, is very open to discovery. These are very rare moments. This Awareness indicates that the mind then, in part, draws from its background everything that it knows to be, or has accepted to be true from the past experiences and attempts to apply past answers to present circumstances in order to determine a conclusion, along with information that is being given to the mind in regard to present circumstances.

This Awareness indicates that when there is the circumstance being presented through a biased party who has particular value or interest involved in how the mind is to perceive the events, this will be presented and wherein there is a conflicting story regarding the events, and this is allowed to be presented, the mind then can have a choice, an evaluation of these two events, or of these two views of the events, so that the mind is capable of sorting out the pros and cons until the mind reaches a balance or state wherein one bit of information outweighs the other as evidence of what is occurring.

Korean 007 Airliner & Grenada Invasion

This Awareness indicates that also, past experience being brought in serves as further evidence of the occurrence at present, and is used by the mind to reach a conclusion. This Awareness indicates that in looking at the events of the Korean airliner incident and at the events of the Grenada invasion, the mind of the average individual received the messages which allowed it to make up its mind that these events were violations to their own personal interests,--the Korean airliner incident having been an unjustified attack upon a commercial airliner.

This information being given with heavy and continuous repetition to such a degree that once the shock and energy had subsided, the mind was already set and the mind was no longer open to discover anything further, and anything more that could be said from the other viewpoint had already been rejected for the mind was closed to hearing anything further. This Awareness indicates that in the case of the Grenada incident, the press

Awareness indicates that politicians, recognizing the trend and change in the fickled populace will want to jump out in front of the crowd and say: "Follow me! I will lead you to peace!" These politicians who have been taking their strong stance in the other direction, their war-like stance, will find themselves having to modify considerably in order to meet the growing demand that some kind of reconciliation occur.

How to Counter the Black Magicians

This Awareness indicates that *It* sees this as a possibility, a strong possibility, whereby the tide turns in the spring of '84. This depends largely on whether or not entities can get that concept out to consciousness: "Reconciliation--YES!--Annihilation, NO!" This Awareness indicates that in the event this does not occur to a strong enough degree, this Awareness sees a growing intensity, a growing toward greater military might, whereby the few brave ones who protest for peace are either ignored, or resisted, and whereby the nation builds toward war in a manner that becomes unstoppable; that if this continues between now and the summer of '84, this Awareness indicates it appears the great war will be inevitable.

If entities do not stop this madness within the winter and spring of '84, it does not appear that it will be stopped, and buildup of such powers can erupt in many ways. This Awareness indicates that there is also seen a great potential that this will be stopped and that the masses of *enlightened* people, putting forth their time and energy to promote this slogan, putting forth their time and energy to spread the word, supporting groups, passing out literature, printing literature, mailing literature, writing letters, doing *anything possible* during this period of time; it appears that when the *enlightened* people of this country get off their duff and do something for a change rather than smugly saying: "I understand what's going on;" when they get off their duff and DO something, these entities can have a powerful effect in countering the actions of the black magicians.

This Awareness indicates that entities may not fully understand, but the government and those people who are behind all of this activity, have a vast and deep and profound understanding of metaphysics, far more than most of you, and these entities use metaphysics for their power over the lives of others, and have little concern or interest in the Neanderthal level, other than to use these entities as cannon fodder for their aims and purposes.

This Awareness indicates that these entities understanding the use of these metaphysical forces, can only be countered, not by puny helpless mothers and children marching in the streets with tears, praying that the forces will not unleash nuclear war, but can only be countered by Light Workers who put into action their beliefs, who put their pocketbook on the line, and print material, copying literature, mailing literature, passing literature, writing letters, going to individuals, editors, writing editors, writing newspapers, making their voices known, calling people, telegraphing, sending cassette tapes to the President,-- All of these actions have an impact and effect.

Whereby Light Workers communicate with civic leaders in the city, insisting, demanding that something be said by these leaders in regard to the insanity that is prevalent among the masses, in regard to the need for common sense and reconciliation as opposed to annihilation. This Awareness indicates that when the Light Workers, simply by giving their energy in action, begin to function other than sitting back and enjoying their own wisdom, essentially masturbating in spirituality; wherein the Light Workers actually DO something, then it becomes an alchemical energy operating upon the mass-mind, for the vibrations of the Light Workers begin to permeate the mass-mind, awaken the mass-mind, and counter the darkness of the black magicians.

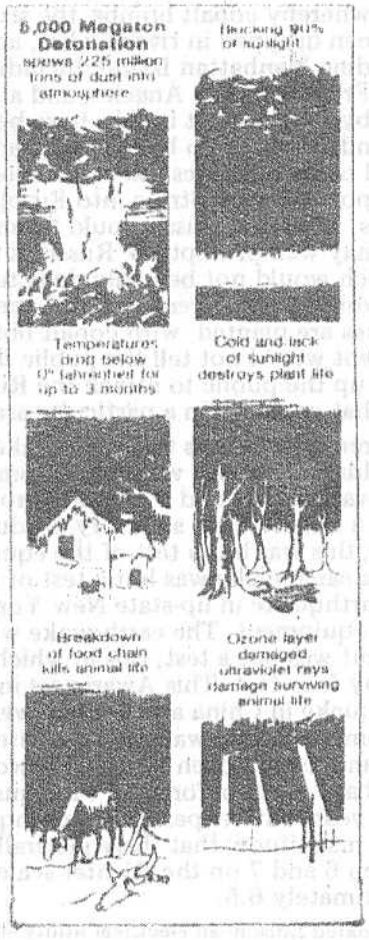
The Black Magicians Care Not if World is Destroyed
Light-Workers Must Act or Ragnarok Will Occur

This Awareness indicates that the black magicians, having such high understanding of metaphysics, do not care if the world is destroyed through nuclear war, for they will, on the 'other side', according to their understanding of metaphysics, be left in control of all that they have destroyed, and all souls that have followed them will be theirs to possess and control. This Awareness indicates therefore, they do not care whether this action leads to the annihilation of this planet. They see this as their destiny and purpose.

Ragnarok is the term used: The end of the world, whereby the few who led and created, and brought it about becomes gods over the souls of all those whom they have captured. This Awareness indicates that Ragnarok is that of the Nordic myth, and as that which is totally accepted by these entities, these black magicians who are influencing those who speak as leaders in your country.

This Awareness indicates the Light Workers *must* act, or Ragnarok will occur. This Awareness indicates that *It does not, It does not, It does not* advocate that any Light Worker act in violence. *It* advocates only that Light Workers act in concepts, putting concepts out to the mass-mind. This Awareness suggests the concept: "Reconciliation--YES!--Annihilation--NO!" This Awareness suggests that there is more, however this Awareness indicates it appears to be contingent on whether this occurs or not.

This Awareness indicates that in the event the actions are successful in preventing nuclear war, the next concern will be in terms of preventing government totalitarianism on the people of your nation, for there is seen the great potential for the Constitution to be set aside in actions that begin in the spring of '84, in late spring. This Awareness indicates that *It* sees also a great potential for monetary alteration of some type to be initiated in January.



How scientists say the world would end if even 1% of nuclear warheads are launched.

This Awareness indicates that this approximately midway in the month of January, and this *may* be associated with that currency exchange which has been mentioned previously. This Awareness indicates however, it is not seen as certain. This Awareness indicates that the economy of this country is seen as that which develops slowly through 1984, growing gradually, having certain spurts and certain downturns, but growing very slowly and gradually, until 1985, when it begins to grow more rapidly.

This Awareness indicates that all of the frustrations which entities experience from the crisis that faces this nation, along with the fact that it is an election year, all of this will lead politicians to be speaking as hard and fast as they possibly can, wherever possible, to gain as much of the support from concerned entities, making promises, attacking opponents with such fervor as has not been witnessed in campaigns for many years past, if ever.

Possible Russian Reaction ot Pershing Missiles

This Awareness indicates that there is seen also great potential for some of these political figures to be the victims of terrorism, or assassination, or to be victimized by secret intelligence sources who do not wish them to proceed any further. This Awareness indicates there is also seen an increase in the number of earthquakes experienced around the globe. There is also seen the potential for devastating earthquakes in the United States, depending largely on how the political interaction between the United States and Russia proceeds, for the Russians do have the means of destroying completely the island of Manhattan, and the prediction of Edgar Cayce that "New York would disappear in the blink of an eye," is not too unfounded.

This Awareness indicates that Manhattan Island sits over a great cavern under the earth. This cavern beneath the bay was discovered in 1943 by Con. Edison*, and has had little publicity, for it is not in good public relations to indicate that New York City is sitting over a great cavern which is large enough to hold it if the roof collapsed. This Awareness indicates that with the Russian technology, whereby cobalt bombs the size of lightbulbs have been dropped in rivers, lakes, and around seashores, including Manhattan Island, including Portland, Seattle, San Francisco, Los Angeles, and all of the major cities, whereby these cobalt bombs have been planted and placed and are ready to be ignited electronically, by radio-control or by radionics, the continued movement of these weapons of First Strike into Europe by the United States, whereby Russia could be annihilated within 5 minutes , may well prompt the Russians to use these weapons which would not be easily detected by the public, for indeed, would your government tell the public that the cities and lakes are planted with cobalt bombs?; and if the government would not tell the public this, how then can they rile up the public to attack the Russians over an earthquake that occurred in a particular area?

This Awareness indicates the earthquake which occurred in Idaho, the city which had a small river, wherein the valley sunk and a mountain rose; this city close to a missile base, a factory producing missile parts; this was but a test of the equipment. The Coalinga earthquake was but a test of the equipment. The earthquake in up-state New York was but a test of the equipment. The earthquake which occurred in Connecticut was but a test; this in which the bridge was moved by four feet. This Awareness indicates the recent earthquake in China and Turkey were also tests of this equipment. This Awareness indicates these have been tested and have proven themselves workable; that areas which have never before had earthquakes, within the past few years have experienced earthquakes of considerable magnitude; that these generally are in the range between 6 and 7 on the Richter scale; the average being approximately 6.5.

*Consolidated Edison--an electrical utility serving that area.

This Awareness indicates that by igniting earthquakes, the masses can be disarmed, busied, excited, so that they do not have time to think about promoting war against Russia. During such times the Russians can also make other moves to prevent these missiles from being installed. This Awareness indicates that the masses of America would never suppose or imagine that the Russians could create such devastation as these earthquakes might bring about, and therefore, would not react to the Russians with hostility that would occur if the Russians simply flew one of their Cosmospheres over the ship or airplane which was carrying the missiles to Europe and shot down the ship or airplane, or blasted some of the silos which hold the American missiles. These actions would rile up the American people to an indignation and pride, setting off their dualistic Neanderthal mind, and would be hazardous and dangerous to the Russians, therefore, entities can expect rather, increased geophysical warfare, possibly biological warfare, increased radionics warfare, which entities at this time know little about.

Radionics--Weapons That Scramble the Brain

This Awareness indicates that the use of radionics on cities, the use of radionics on schools of fish, the use of radionics on masses, as that which has already been tested somewhat, and as that which may be used during this period of time. This Awareness indicates that if this next war of nuclear holocaust is continued to be pushed by the United States, entities can expect the Russians to react with whatever weapons they have that they feel would best suit their purposes, and these include weapons of a radionic type which can scramble the brains of entities.

This Awareness indicates that these weapons can indeed create great pain, essentially frying the entity from inside-out. This Awareness indicates that these are things which the average Neanderthal could not understand, and therefore, would not know who to strike or where to strike, who to blame or who to hate. These King Kong-type creatures, these Neanderthals whose consciousness is barely above that of an ape, or perhaps would be insulting to an ape,--these entities cannot conceive of how truly impotent they are in terms of the vast weapons which have been given by science to the Russians and to the United States for the use of military operations for defense of their claims, and the Neanderthal types, thinking they have some kind of power simply because they puff their chests and speak with conviction, and patriotism... let's not forget that....these Neanderthal types, presuming to have such potency may find they are nothing but bubbles which pop and burst under the influences of the storm that is on the horizon.

This Awareness indicates that there are seen further actions of war in the Caribbean/Central American areas, and in South America. This Awareness indicates there are seen activities of increasing violence in the Middle

East. There is also seen the potential for double-cross from the Chinese. This Awareness indicates that the entity Reagan, in the action of moving into China with increased wealth and promises and technologies, in return for moral support of American policies and economic markets for trade, through an agreement that allows the slave labor of China to sell cheap products through the American corporations to the American people; this trade agreement that has been recently worked out, along with secret agreements allowing the United States to have influence in the military buildup and technological bases in China, can be expected to be very fragile indeed, for there is great potential that this may be what is termed a doublecross.

This Awareness indicates that wherein the President goes to China soon,(at present the entity is in Japan), and it appears that there is an offer of large amounts of gold being offered to Japan if Japan will build up and support operations and allow greater American influence in this area, for it is the nature of Japan to seek satisfaction in the economic area which is its prime goal, and the offer of gold as that which would bring about in Japan a change of attitude in regard to the military posture it has held for 40 years.

This Awareness indicates that the President next going to South Korea, whereby this country is ready, willing and wanting war; this as intended in both cases to build-up the image of the President for the voters back home as a negotiator with friends, and when the entity goes to China, it will show him to be one who can negotiate friendly terms with previous enemies, showing him to be a real peacemaker.

This Awareness indicates that this image is that which the entity seeks to promote while the war is also being promoted. This Awareness indicates that these political maneuverings of mixing politics and running for office with global maneuvers, and the pressing for superior position in terms of war and power and strength, creates a future in the year of 1984 which is extremely volatile, extremely uncertain. It is like trying to predict where a tornado will go as it approaches your town.

This Awareness indicates that it is difficult to know where to run when that cyclone or tornado is moving erratically according to the changing currents and energies around it. This Awareness indicates that one thing is seen as quite strongly evident. There will be an effort, particularly in the beginning of late spring, to curtail more and more American freedoms as given in the Constitution, and if the erosion of the Constitution is *not stopped*, it shall become a dead instrument and entities will revert back to the Dark Ages, wherein totalitarianism removes all potential for liberty as it has been known in this nation, and the Electronic Funds Transfer System,--the Mark of the Beast,--and all of these dire predictions which this Awareness has given previously, shall follow.

World's Future is in the Hands of the Light Workers

This Awareness indicates that *It* asks *Its* listeners, those who read this information, to be very watchful of the erosion of rights as associated with the Constitutional guarantees, for there will be strong moves to erode these further and much quicker during the year of 1984. This Awareness indicates there is the possibility of preventing all of this if Light Workers truly awaken and put their energy into action, alchemically countering the black magicians.

The simple act of writing letters to the editor, of writing your Congresspersons, of posting articles on bulletin boards at work for others to read, of presenting information to others which they may not have access to from other sources, whereby Light Workers become active in communicating the concept: "Reconciliation--YES!--Annihilation--NO!", this can bring about a total change, resulting in future peace, while still preserving human dignity and liberties.

This is what may be termed the 'Battle of Midway' in the war of Armageddon. The outcome is in the hands of the Light Workers: those whose mentality requires that they be active and face the responsibility that they have to educate the Neanderthal beings, who are incapable of anything other than reactionary dualistic polarized thoughts.

This Awareness indicates: "Reconciliation--YES!, Annihilation--NO!" and God Bless America, and God Bless Russia, and God Bless Everyone.

This Awareness suggests the Interpreter be brought from trance.

THE PREDICTION OF SANT THAKAR SINGH JI...

WILL THE RUSSIANS BOMB CALIFORNIA ?

Excerpt from Gen. Reading No.4.Nov.11, 1982

QUESTION:

It's been a CAC practice for some time not to ask questions about predictions, but there's a question sent in by T.M. of San Juan, California, that might have a bearing on information given previously. He also sent a printed sheet on an entity called Sant Thakar Singh Ji, and this entity it says "will be visiting the Bay Area from Delhi, India, and will be discoursing on Surat, Shabda Yoga. This is the yoga of the Inner Light and sound principle word or logos through which all creation came into being and is sustained.

"Through a living master or adept of this spiritual science, also known as Sant Mat, the sincere seeker may have a first-hand experience of the Divine Light and Sound and will thereby be put on a path to self-knowledge and God Realization during this lifetime. The attendance at all discourses, satsangs and meditations during this visit will be free with no donations or gifts being accepted." So it sounds like his credentials are alright.

This entity, T.M. writes: "I've just received my first mailing as a new member of CAC, and I thank you. Reasons for contacting you at this particular time is in regard to some information just recently received, leaving me and a lot of other people here feeling very uneasy. Explanations are as follows: There are several people here as well as myself who are members of a path called Surat Shabda Yoga. Having been initiated through the master Sant Thakar Singh Ji from Delhi, India, who has just revealed a message to all members in California about some events which are to take place in December.

"In a flat statement, his words recently given to all members was this: 'Some time in the month of December of this year, California will be bombed by Russia. There is no place to hide or run to, therefore, we are to meditate 8 to 10 hours per day, in preparation for all members to transcend to the 5th plane, after this occurs." And he adds that he's writing this so he can get a broader picture on what is going on, as some members in this path have already been directed in moving to the states of Oregon and Washington, hoping to survive the occurrence just ahead, and he'd like to ask Awareness if that prediction is valid, or any more information on it?

COSMIC AWARENESS:

This Awareness indicates that this *is* seen as a very strong possibility if the Pershing missiles are placed in Europe during the month of December. The Russians have stated that not one missile will be allowed to be placed. This Awareness indicates these entities have essentially considered, as a result of the Korean airliner episode, the Russians essentially consider that this was an act of war, and that they are now at war with the United States.

This Awareness indicates that there is the possibility of this not occurring, depending largely on what happens and the tone which the Americans take during the coming weeks in regard to this, to the deployment of these weapons. This Awareness indicates that it appears though that rather than bombing California in the sense of this being overhead, or land explosions, that this will be more in the area of earthquakes through cobalt bombs, if this does indeed occcur.

Someone Is Holding the Key to the End of the World (And It's Time We Took It Back)

(Closing Message) There Is Absolutely No Place to Hide

This Awareness indicates that there is considerable concern relating to the potential earthquake in California, and those which may be triggered elsewhere. This Awareness indicates that the only way *It* sees these can be avoided is if sufficient numbers of Americans put sufficient pressure and concern so that American policies change.

This Awareness indicates that it appears there has been a major change in Russia since the Korean airliner incident, whereby massive preparations for war has occurred, whereby plans have been put into action, and the chances for reversing this decrease with each passing week in which the United States continues to press its force and its war-like policy.

This Awareness indicates it may be too late to prevent some repercussion from the Russians for what has occurred in recent months. This Awareness indicates that if the missiles are placed in Europe, surely there will be repercussions. This Awareness indicates that those entities who are living in California are not in much greater jeopardy than entities living in other states. This Awareness indicates that the states which seem most safe in terms of avoiding the initial strike, if war erupts, would be Wisconsin, Minnesota and North Dakota (except for certain areas where missiles are already established and which would be targets.)

Kansas is seen as not too great a target but that the hazards of war would eventually reach there also. This Awareness indicates there is not actually seen *any* place that is safe; that the Oregon coast would be safe from nuclear weapons or strikes as it has no military bases, but it is vulnerable to massive earthquakes if such were set off.

This Awareness indicates that essentially, *It* does not see any place in the United States that is a safe place to go; that temporary safety appears to be found in Minnesota more than in any other place, and to a lesser degree in Wisconsin. This Awareness indicates that *It* does not wish to dwell on this, for there would not be any great benefits for entities to rush to Minnesota, as the fallout and freezing, the fire, the fallout, the aftermath or the weather disruptions, or ozone destruction would eventually lead these entities to suffer and experience a slower demise than those who were at Ground Zero.

This Awareness indicates that the unthinkable must be thought about. There does not appear to be a safe place left; that those of the government, who think they can hide in underground bunkers and wait out the war, are kidding themselves, for those bunkers underground, the 90 some odd underground cities or hideaways in the United States,--those underground bunkers with food stashed for several months,--will simply become the mass-graves for those who hide therein, for the Particle Beam weaponry can reach as far as two miles into the earth itself and can explode within these bunkers, collapsing them on those who hide therein.

NOTE: permission is granted to reprint this reading in full or in part, or quote any or all of the information.

This Awareness indicates that all of these bunkers are known to the Russians. Their locations are known. This Awareness indicates that those who think they can escape by creating a nuclear war in the Northern hemisphere and hiding in the Southern hemisphere until all the pollution and dust has cleared, (some several hundred years from now); those entities also are kidding themselves, for the Russians know the locations of their hideaways in Antarctica, New Zealand, in Argentina, in Australia, in the Falkland Islands, in South Africa, and in the other areas of the Southern hemisphere, and therefore, these areas too, would be blasted.

This Awareness indicates that there is a great flirtation by the Reagon administration, flirting with disaster, with annihilation. This Awareness indicates the speech today by the entity Ronald Reagan in Japan in which he indicated that "we must never fight a nuclear war, for there could be no winners"... this Awareness indicates that this as a statement intended to indicate that he is a peacemaker; that he does not wish to press for nuclear war. This Awareness indicates that this in part is due to him having been informed of the intensive buildup of the Russian forces; the activities which have just occurred in Russia whereby this entity is no longer so sure of who he is dealing with in Russia.

This Awareness indicates that wherein they assumed that Andropov was one who could be pushed to a position of weakness, they do not know now who is in power, or what those in power might do. This Awareness indicates the bear has ceased its hibernation, has been taunted, and is awake and stirring, and is destined to make a move. It is a grave time.

This Awareness indicates that only a rapid change in the posture of the United States can prevent catastrophes from occurring.

ED's note: for more information on those 'dire predictions' Awareness mentioned (the Mark of the Beast and the suspension of the Constitution, etc.), please refer to 'Revelations of Awareness No. 79-1 (The Gathering Storm);$4 from CAC. Entities living in California, should refer to the Hotline, No. 79-7 (The Eve of World War 3) as a similar situation existed at that time and Awareness gave some specific info for those living in California. Additional information on this current nuclear threat can be found in No. 83-19 (hotline) "The 007 Incident", also No. 83-21 Hotline(No First Use of Nuclear Weapons); both $3.00 from CAC.
For more info on how Manhattan was mined with cobalt bombs 3 years ago, and the advice Cosmic Awareness has for those living in that area, please refer to No. 80-33 (hotline) (Help Save Manhattan);$3.00 from CAC.

In reference to earthquakes, a recent tabloid ('The Sun') ran a story that Bhagwan Shree Rajneesh, the Guru in Oregon who purchased an entire town, has issued a bulletin to all of his members in California, to evacuate that state before the end of December of this year. This now makes it Edgar Cayce, Guru Sant Thakar Singh Ji, and Cosmic Awareness and the Rajneesh--4 respectable psychic illuminates--who have picked up on the heavy energies aimed at California. This is mentioned not to frighten our California members, but to confirm the seriousness of the situation which Cosmic Awareness has outlined in this reading. Since there is no safe place to go, we suggest that all the members read up on earthquake information and what you will need to do to survive along with your family. This information is available at Civil Defense agencies. (Avaton)

SOME SAMPLE 'LETTER'S TO THE EDITOR' IDEAS...

Dear Editor:

I love America. I want it to BE here for my children to grow and thrive in. I want it to have a viable future and to see its worldwide reputation REAFIRMED as an example for other countries to follow. The first step for both, is for the United States to commit itself to a "No-First Use' policy for its missiles. For years, Russia has been committed to their promise of No-First Use, and this has been workable because both powers remained somewhat balanced in weaponry. But with the introduction of the Cruise and Pershing 2 missiles into Europe, the stability is lost.

These new missiles have the First-Strike capability to reach and destroy their targets in Russia within 10 minutes of launch and to fly below radar detection. We have not promised NOT to use them first. Under these circumstances, Russia has said it would have to abandon its No-First-Use pledge and go to a 'Launch-On-Warning'status. This means if their computers report what appears to be an attack coming in, launch would be immedate. There would be no time to double-check to verify the correctness of the information. Our U.S. Early Warning Systems during 1979 and '80 had 147 malfunctions and false alarms. Can we expect Soviet computers to be any more foolproof?

Carl Sagan, speaking for the scientific community which developed our nuclear capabilities, has reported that if only 1% of the nuclear arsenal was used, ALL life as we know it would cease,--withing a few years, this would be a dead planet. With stakes this high, we have GOT to find new ways to co-exist on this planet, so we can ALL have a future.

Our choice is not to win over Russia, or to be defeated by Russia; our choice is whether to begin reconciliation or face annihilation. Signing petitions for a U.S. pledge of No-First Use is a starting place. Considering the possibility that the Russian people are probably just as afraid of 'Us' and no more fond of losing their friends and family and burying the dead than we are, may allow a chance to think maybe we can, as fellow humans on earth, find a better way of dealing with our differences.

I for one say: "Reconciliation--YES! Annihilation--NO!" and God Bless America.

Sincerely, V. Valley, Box 1, Olympia, Wa. 98507.

Dear Editor:

Why is it that Russia and China have pledged a 'No First-Strike' and the U.S. has not? For whatever reason we hesitate, in the eyes of many in the world, the U.S. appears to be a war monger and without morals or the consideration of others on our planet. The Russians have announced that if the Pershing missiles are deployed into Europe, they will be forced to abandon their 'No First Nuclear Strike' stance and move into a 'Launch On Warning' stance. This could well prove fatal to our planet, for the Pershings will only be 10 minutes away from Russian cities, for there would not be time to double check in case it was just computer error and not the real thing. In 1979 and '80 our own early warning system computers logged 147 malfunctions and false alarms. Can we expect the Soviet computers to be any more foolproof? Certainly not, for they get most of their computers from the U.S. anyway. What we all must realize is that we have a nuclear stalemate, and if any missiles are ever launched, it would be by computer error. Our choice therefore is not to try to win over Russia, or to be defeated by Russia: our choice is to either begin negotiations or face annihilation. Signing petitions for a U.S. pledge of 'No-First-Use' is a starting point. This alone will help put a jittery world somewhat at ease. I for one say: "Reconciliation--Yes! Annihilation--NO! And God Bless America.

Sincerely, John Doe.

Dear Editor:

It will be a great day when our schools get all the money they need and the Pentagon has to hold a bake sale to buy a missile.

It will also be a great day when we can start negotiating to dismantle all the nuclear weapons--enough to blow up our planet over 200 times, some say. We simply do not need anymore weapons; we need not buy anymore weapons; the time has come for the reconciliation of our differences between nations and cultures and economic philosophies.

There is no way we can stop the Russians from being socialists, and there is no way the Russians can stop us from being Capitalists. The Russians say they are moving from a 'No First Strike' posture if we deploy any more missiles into Europe. The U.S. has never promised a 'No First-Strike' and is beginning to send First-strike missiles into Europe. Scientists tell us that even 1% of the world's missiles would destroy the planet within 50 years if launched--destroy all life. With over 100 missile computer errors in the US alone in the past several years, can we expect the Russian computers to be any better? Our new Pershing missiles are only 10 minutes away from Russian cities which means no chance of double-checking by the Russians to see if an error had occurred. So if Armageddon starts, it will probably be by computer error.

As I see it, there is only one option: reconciliate our differences and dismantle the missiles, or annihilation. Signing petitions for a 'No First Use' of nuclear weapons by the U.S. would be a good starting place. This stance is more in line with our American morals and heritage and would help the world breathe a bit easier.

I for one say: "Reconciliation--YES! Annihilation--NO!"

And God Bless America.

Sincerely, John Doe

SOME SUGGESTIONS ABOUT BASIC POINTS TO CONSIDER COVERING IN YOUR LETTERS'

Note: you can write many different letters, each one covering one or two of these points if you wish.

1. There can be no winners in a nuclear war.
2. All life on the planet will be destroyed within 50 years or less if even 1% of missiles are used.
3. Russia and China have pledged a 'No-First-Strike' policy.
4. The United States has not pledged a 'No-First-Strike policy.
5. The Pershing and Cruise Missiles are designed only for a nuclear First-Strike.
6. Russia says that if the Pershing and Cruise missiles are introduced into Europe, Russia will be forced to switch to a 'Launch-On-Warning' posture.
7. These missiles will take only 10 minutes to reach Russia. (There will be no time to double-check for computer error)
8. There have been over 147 nuclear computer errors in the U.S. alone in the past 2 years. Are Russia's computers any safer?
9. According to the CIA, Russia's computer technology is far behind that of the US. In fact, their best computers were bought from the U.S.
10. If a nuclear Armageddon occurs, it will probably be triggered by a computer error. (There are 18,000 nuclear warheads in the world right now, and Reagan is proposing even more sophisticated missiles.
11. Our government's present 'First-Strike' policy goes against the deeply-ingrained moral principles that we were brought up to live by and which our Constitution and our forefathers promulgated. In the eyes of the world, our First-Strike policy is immoral and we are war-mongers in the eyes of the world.
12. It is foolish to think we can intimidate Russia into changing it's socialistic or communistic philosophy to that of ours.
13. It is foolish to think the Russians can intimidate us into changing our Capitalistic system into one like theirs.
14. Therefore, we are faced with annihilation if we can not reconcile our differences and allow both nations to live in peace.
15. A good place to start is to get initiatives going in your state legislature endorsing a 'No-First-Use' policy for the U.S. This is the only honorable thing to do at this time, since Russia and China already have pledged this.
16. End with the slogan: "Reconciliation-YES! Annihilation, NO!"
