(Helping people become aware)

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1968 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

SHOULD THE CONSTITUTION BE AMENDED TO ALLOW

Prayer in our Schools?

THE SEPARATION OF CHURCH AND STATE...
THE ISSUE OF PRAYER IN THE SCHOOLROOM

PREPARING FOR THE COMING OF THE ANTICHRIST ?

(Opening Message)

March 7, 1984

COSMIC AWARENESS:

This Awareness indicates that during the coming months, there will be much attention brought to the issue of the use of prayer in the school room. This Awareness indicates that this issue as that which needs to be watched closely, as it can become an issue that cracks open the door to greater control over religion by the state. This Awareness indicates that there are many in the religious groups who see this desire to allow public school prayer as part of the standardized or systematized option of a community, whereby it becomes part of the program of a community to sponsor prayer in the schools; seeing this as something which would be beneficial to the general practice of religion.

This concept as that which has great appeal for many, particularly those of the majority religion in a community, whereby their teachers or school officials, holding the same religious views as most of the members of the community advocating this practice, could be expected to help encourage or lead the school in prayer before the classes begin. This Awareness indicates that this concept as that which has much appeal, particularly in those communities wherein the majority of religious followers have within their schools representatives who also adhere to the same religious beliefs.

This Awareness indicates the danger of this can be seen easily. Wherein a minority religion in a community is involved in the school prayer; for example, assume that rather than the Protestant religion in a community which is generally the religious group which is most outspoken in promoting this concept of prayer in the schools; assume, for example, that you as a Protestant family moved into a community which was largely Jewish, or Catholic, or Muslim, or assume for example, that the teacher was Jewish, Catholic or Muslim, and the teacher led your child in prayer according to his or her religious tenets.

This Awareness asks: "Does the idea seem as appealing under these circumstances as it does when your religion is in a majority, or has control over the teachers?" and if this does not seem so appealing, It also indicates the potential for further problems whereby the majority of a religious community may become quite disturbed at the thought of a Muslim leading school prayer or a Jew or Catholic leading school prayer for their Protestant children, or of course in those communities wherein for example, the Jewish were in the majority, having a Protestant teacher leading school prayer.

This Awareness indicates that obviously, it can be seen that problems could come and that the next move in a community would be to expect certain entities of the majority religion to start taking issue with the school board to be rid of the teacher who has a religion contrary or different from that of the majority. Thus, the religions would be tampering with secular matters of government, and likewise, the government of the community could start making rules in regard to such tampering, and thus the government would be involved in making rules and law governing religion.

Suppose the Antichrist Appears?

This Awareness indicates that this can very easily be the beginning of the opening of Pandora's box, in which religion and state become one. This Awareness wishes to point out other potential concepts. Suppose, for example, your children are in a public school, and prayer

is made a standard part of such procedures. Suppose that while this procedure is active as part of the national program that allows prayer throughout the nation in public schools, suppose that while this is occurring, that which is known as the Antichrist begins to make his ascension.

This Awareness indicates that suppose this entity known as the Antichrist becomes known around the world, claiming his name to be Jesus the Christ, and calling out for all nations to set aside their differences and to follow his directives, and suppose the nations who are in allegiance and alliance with the Antichrist were to agree to this, and to officially recognize this entity as Jesus the Christ returned to earth, and suppose the Pope also were to step aside and allow this entity Jesus the Christ, (the entity who claims to be Jesus the Christ), to be seen as the representative for all entities.

This Antichrist, calling himself Jesus the Christ (becomes officially), according to the religions and governments who are working in alliance with the Antichrist, becomes officially known as Jesus the Christ. This Awareness indicates that supposing you as a religious devotee to the true Christ Jesus were to have serious doubts as to the true identity of this Antichrist, and supposing you did not believe this entity to be the true being known as Christ, but officially the schools recognize this entity, and the teachers and the government all insist that you are to pray to this entity, say your prayers to the entity, and thus, the worship of this entity through federal law, state law, or local law or school rules becomes the enforcement for worshipping this being. What then is to occur to allow entities to have Freedom of Religion if this were to develop?, and suppose that the issues which are being argued at this time in regard to efforts to force schools to accept religion as part of the curriculum of the school, suppose this is all part of the plot to introduce the Antichrist through government, whereby church and state merge?

This Awareness indicates that it becomes clear that any organization of a religious nature which has a majority would like to have their voice presented through government bureaucracies and enforced upon the masses, but this Awareness reminds entities that majorities can become minorities during times of extreme change, and extreme change can occur quickly due to circumstances and manipulation of forces. It could be that within five to ten years, Christians, as presently known in Protestant terms, could find themselves in a minority position in terms of power and influence, and many entities could be turned from their own ranks into worshipping some entity who claims to be Jesus the Christ, and thus, these entities could find themselves a minority, and as a minority, could find that the rules which they sought to push through on the masses are now turned against them and they are being coerced into worshipping some being whom they believe not to be the true Christ, but to be a counterfeit, at which time they would dearly wish they had never pushed for government involvement and use of religious principles.

The Plan of the Dark Forces

They would then be calling out for separation of church and state.

This Awareness indicates that during times past when church and state were united, before the time of Napoleon, church and state were tyrannical, whereby that which was church was seen as being as tyrannical as any government, and it was difficult to know what

was part of the religion and what was part of the state, and in reflecting back in history, actions carried out by the church which were of a tyrannical nature are seen now and blamed now on the Christian religion. Had there been a separation of church and state, whereby church could deal with things spiritual, that action of tyranny would have been blamed on the state, but wherein the two merge, the religion becomes part of state activity, just as is occurring in Iran, and entities will look upon the religion and blame the religion for the tyranny, and in time may rebel against the religion just as Protestants rebelled against the Catholic church, and just as entities will in time rebel against Khomeini and the Muslim regime, and in that rebellion the religion is destroyed, or greatly weakened and becomes inept, and all of history thereafter looks upon the religion as having caused the tyranny.

This Awareness wishes also to point out that it is through religions in the Middle East that the Forces of Darkness and manipulation control the masses in the Middle East, and that the same action is planned in the United States, whereby the religions are to be used in order to manipulate the masses. This Awareness indicates that this is part of the plan of the Ahriman Antichrist Forces,—that which is known as Bolshevik or Zionist,—and that in manipulating masses through their religions, these entities can very quickly and easily give up the freedoms which they have had and accept a government based upon their religion, accepting their religion as an official government religion which then in turn can be used as a tyrannical government religion to subdue dissenters, to create witch hunts, or to seek out the enemies of the state religion, labelling them as heathens or evil beings, and thus create persecution for any entities who do not adhere strictly to the religion of the state, and that religion of the state may spout the words of the religious trappings, may speak of Jesus, may speak of God, may spout words associated with Christianity, but may have very little in common with the teachings of Christ himself.

This Awareness indicates that the Antichrist can speak and shout Biblical phrases, can claim Divine association with the Heavenly Father, can claim to be One with God, can speak words of hope, can talk of prayer, and can express great devotion for Biblical stories and phrases and concepts, while at the same time stuffing his coffers full of devoted souls who think they are following the true Christ, and thus, turn such entities into agents of his purposes, and thus, turn such entities into persecutors of innocents under the name of religious dogma and government sanction.

It is very easy to understand how terms can be used to manipulate masses. This Awareness indicates that supposing an entity simply began speaking out on television, on radio, calling himself the Christ, claiming that he has returned to earth; or supposing prior to this, another entity is introduced as one who is the forerunner of the Christ, and this entity over a period of time is given much press and attention for he claims that the Christ will be returning soon. And when entities have heard his message and are anxiously waiting to see who shows up as the Christ, then finds that an entity appears who looks very much like the entity they perceive to be the Christ, and the entity claims himself to be the Christ, and the entity spouts messages associated with Biblical concepts, warns of the dangers of evil, warns of the great plague which may come, and this entity spouting these terms, words and ideas; and wherein the press, organized under the control of these entities and their associates goes along with the program of manipulating masses, and argument and debate are seen here and there, discussing whether or not this entity is truly the Christ returned, and the arguments are always resolved so that those which imply that the entity is truly the Christ are those which win, even though entities may not realize that the arguments are prearranged

so that those arguing in his favor are already predetermined to win. Then the masses generally will accept that this must indeed be the Christ, because it has been argued and determined in debate, and therefore it appears to have been settled and the majority of those in the newsworld and the leaders of the countries accept this as a reality, and thus the majority will go along with the concept that this entity is truly the Christ returned.

This Awareness indicates that supposing this is the Antichrist: How is one to know? This Awareness indicates that the only way you, the reader of this message knows it is the Antichrist, is because we are creating a supposition that it IS the Antichrist, and thus the whole hypothesis is based upon this supposition and you are in the know. This Awareness indicates in reality, you would not have this information, and you would be faced with a dilemma of trying to determine whether or not the entity was truly the Christ, or was an Antichrist, a counterfeit Christ.

This Awareness indicates that if church and state have merged, there is little hope for anyone who has doubts to be able to hold on to their doubts, or to continue the worship of the Christ they believe to be other than the one promoted by government, and therefore, such citizens are caught in the trap. This Awareness indicates that if church and state are separate, then indeed it is possible for entities to question, to doubt, to wonder, to debate freely, and not to be coerced by the state, or the state religion, to accept this entity.

This Awareness indicates that it should be assumed that if an entity is truly Divine, the entity would not attempt or need to control governments or to use governments in order to express that Divinity, for Divine Forces have not in the past been noted for their use of force of arms, force and control over the lives of entities in order to express the Divinity. It is generally after the Divine entity has passed on that his teaching has been adopted by a group and the group then intends or attempts to force the teaching on others through the use of arms, coercion or other means of force.

Constitutions' Freedom of Religion

This Awareness indicates that it suggests that in looking at the Constitution as it now stands in the United States, entities have Freedom of Religion. It is not illegal for entities to pray, to meditate, to speak of their convictions or beliefs in proper setting, proper places; it is not illegal for entities to question or doubt the sincerity or truthfulness of a concept, a belief, a religion held by another. It is legal for entities to debate religion or to ignore religion, and thus entities have Freedom of Religion.

This Awareness indicates that there are no laws that govern an entity's belief or forces an entity to believe a certain concept. This Awareness indicates that if and when government becomes involved in forcing schools to allow prayer,—whether standardized, written by a person in a standard way, or allowed to occur according to the teacher's whim, or to enforce the community's standards upon the students; this can become the means whereby greater standardization and rules regarding religion can become enforced by the state, by the local government, or by the Federal government,—that it always takes the first step to inch its way before the next step can be taken, but soon the government can be involved in dictating beliefs to the masses and can begin forcing religious beliefs as part of the school curriculum, and can begin to affect what entities are allowed to learn and what teachers are allowed to teach.

This Awareness indicates that this may sound fine to those who trust the government to teach what they themselves already believe, but it can be quite frightening to those who do not thus trust the government and who fear that the government may teach something or promote teachings that are contrary to their own belief system. Then it becomes much like that which entities

dread in the stories they have heard of the Soviet Union and its schools, whereby they teach that religion is false.

This Awareness indicates that even as it becomes possible for the Federal government, local government or state government to make rules, allowing it to meddle in the teachings of religion, it also becomes possible for these governments to change those teachings so that they teach not as a religious community believes, but so that they teach distorted stories or belief systems, and thus you have a competition between the religious group and the state teachings.

This Awareness indicates that these can become reasons for conflict between religion and state, and this can lead to repression of religions and rules for religions by the state. This Awareness indicates the whole thing then can, from little procedures, become a great dispute leading to conflict between state and religion, whereby entities must yield to the state interpretation of religion.

The Influence of Napoleon on Church & State

This Awareness indicates that church and state separated when Napoleon, being crowned emperor by the church, instead of waiting for the crown to be placed upon his head, reached out and took the crown, and placed it upon his own head. This action separated the state from the church in a symbolic, dramatic way. The entity separated government and his empire from church control in that action.

How Bigotry Would Rule in the Schoolroom

This Awareness indicates that the founding fathers of this nation placed within its Constitution the message which gave Freedom of Religion to the masses in such a manner that prevents the state from determining how entities should or should not worship. This Awareness indicates that when churches begin to use their community influence to try to pressure schools into allowing their particular brand of worship or devotion into the schools, even if all students within the school were in complete harmony in terms of the religion, it becomes an action which sets a precedence which makes the public secular government school a mouthpiece for the religious community.

Assume that an entity of a different religion were to come to that community and enroll in the school in which all of these entities are mouthing the particular religious beliefs of the community, and assume that the teacher of the class is also a devout follower of this particular religion, and this entity who is not a member of that religion is forced to suffer the influence and pressures of his peer group because of that religion in the public school, the secular government school. Would this be fair?

This Awareness indicates obviously, those entities who are in the majority religion will think that: "Sure, this is fair. The entity should adopt the religion of the majority." This Awareness suggests that if the majority is Protestant, and the entity who comes into that setting is Jewish, the majority feels that: "Sure, it's not going to hurt this entity to get a taste of 'True Christianity.' It might even save his soul!" This Awareness asks: If an entity wishes to be fair, suppose this is a Jewish community and the teacher and the students in the public federal school are all Jewish, and you move into that community out of necessity, and your child is Protestant... does the idea seem just as appealing to have your child subjected to the Jewish beliefs: "Sure, it's not going to hurt this little Christian to understand and learn all about the Jewish beliefs!" Is that as equally appealing as when you are in the majority?

This Awareness indicates that the bigotry in religion shows up most among those in the majority, and it is when entities are in the majority that they begin to flex their spiritual muscles and attempt to bully others and push their beliefs onto others and hope that they can rally support from even more to help them push their beliefs on still more. This Awareness indicates that the Freedom of Religion, which was part of this country's

heritage, was not designed simply for Baptists or Seventh Day Adventists, or Nazarenes, or Mormons, or the Congregationalists or Presbyterians...many of these churches did not even exist at the time this country was created, and therefore, would not have ever existed had it not been for Freedom of Religion being part of the Constitution. These entities would have been Catholic, Quakers or some of the older religions, but the newer religions would never have been allowed.

This Awareness indicates that now these religions have grown in size, largely through the use of television and through emotional appeal and through threats and promises: threats of hell and promises of heaven; now that these religions have grown, they want to control how Freedom of Religion is to be expressed. This Awareness indicates that many of these organizations want to have Freedom of Religion for themselves, but not for others, and would like that to be allowed through the strength of their own communities by creating situations in law and amendments to the Constitution to allow the local governments to bring about the determination of whether and how the religion can be expressed through government, through the public schools.

This Awareness indicates that religions can always form schools of their own in which their religion is expressed, allowing prayer in their schools. Religions can always teach their children in church and home to pray. Religions can always assure their children that it is alright to pray *anywhere*, --even in public, even in school, even in court, even in jail, or whatever, without a Constitutional amendment, and without government laws stating that it is allowed, for it has already been given, and is already allowed.

The Simple Solution: A Silent Moment

This Awareness indicates these efforts for an amendment to the Constitution to allow organized public prayer in school is an infringement on the Freedom of Religion in that it puts the government into the act of directing its agencies to instruct or to present space and formulas for worship. This Awareness indicates that would it not be less defiling to the freedom of religious principles simply to make it a standard operating procedure in schools for entities to have as part of the school curriculum, five minutes of silence and preparation for the school day?

This Awareness indicates that the government, in suggesting this or making this a rule is simply allowing time for students to adjust psychically, mentally, to prepare themselves mentally for the day. This Awareness indicates the government does not need to dictate that this is a time for prayer, nor does it need to dictate what type of prayer, or to whom, nor does it need to make *any* statement at all as to how the child should use that silence. This Awareness indicates it may not require five minutes. Perhaps only two minutes of class time. Two minutes of silence for children to prepare for the day.

This Awareness indicates those who wish to pray may pray silently. Those who wish to meditate, may meditate silently. Those who wish to study, preparing for a test, going over last minutes notes, may wish to use this time silently. Those who wish to relax after an intense period

prior to school, may let go of this intensity. This Awareness indicates that in some schools it is called 'Centering,' simply centering oneself. This Awareness indicates those who wish to center themselves may do so.

This Awareness indicates that it does not have to have anything to do with religion. It can simply be time set aside, where entities can center their minds on whatever they desire, including, but not exclusive to religion. This Awareness indicates that in such a case, the government is not involving itself in religion, nor are entities being coerced or influenced by government enforcement of religious rules and dogmas, or by community peer group pressure to pray according to the majority's belief system.

This Awareness indicates that it simply allows a time for entities to have a moment to themselves without disturbing sounds from outside. This Awareness indicates the parents of children may direct them or suggest to them that during the preparation silence, they say their prayers to God or to Jesus, or to Muhammed, or to whomever they desire. The parents then have some say in regard to their children's religious beliefs, and at the same time they are not enforcing their beliefs on the other children in the class, nor are the other children in the class enforcing their beliefs on your child.

This Awareness indicates that it would be helpful for entities to send suggestions of this nature to those in Congress who are debating the issue. This Awareness suggests that the issue can be settled in a manner that is not based on religion at all, whereby church and state argument is not the issue, but whereby a moment of silence, a moment of centering, a moment of privacy can be given prior to each school day. This Awareness indicates that it appears this issue and others are going to be introduced in a manner that is designed to alter the interpretation of the Constitution.

This Awareness indicates that it is very important to watch these efforts to alter the Constitution, particularly during this year, for much of this is in preparation for disrupting the freedoms given by the Constitution.

Flashpoints in Consciousness (First-Strike Postponed Again)

This Awareness indicates that in regard to the date of mid-March which Dr. Beter had warned about as the next date set by Bolshevik forces for the potential nuclear war; this Awareness indicates that this does not appear to be possible for this to occur. This Awareness indicates the date which would have been most likely being that of March 17th.

This Awareness indicates that there is a period of approximately one week from March 17th on, which may be of some intensity, a kind of flash point in consciousness in which entities become more aware, become more awakened to reality, whereby entities rise to a slightly higher vibration, (this in reference to spiritual entities), and those of the less spiritual vibratory rates find themselves experiencing a greater karma. This Awareness indicates that this concept of flashpoints in consciousness as that which has occurred many times before. It is likened unto passing through barriers in the vibratory fields whereby likened unto sound, one passes from one note to another.

This Awareness indicates that vibrations in consciousness also are in increments, and when one passes from one increment of consciousness into another, those who are on the spiritual path often feel an enlightening, a lightening of their load, and those who are on the material path sometimes find themselves experiencing greater difficulties and karmic reactions. This Awareness indicates that occasionally those on the spiritual path experience physical reactions or traumas prior to breaking through this sound barrier or this frequency-vibrational barrier.

This Awareness indicates that this may occur in the form of illness, in the form of accident or in the form of

intensities in relationship, but once the energies have pushed through into the next vibrational level, these entities experience greater freedom than previously, whereas those who have been on the path of Darkness, in passing through into these higher vibrations, may find themselves having more and more difficulty and needing to grow rapidly in order to survive or to experience benefits.

This Awareness indicates there are seen also effects upon various nations and countries according to their evolvment. This Awareness indicates that it appears there will be greater frustration in the Middle East in regard to Iran and Iraq, with the potential of United States involvement in these activities. This Awareness indicates that there are vast oil fields in the Persian Gulf amounting to billions which the United States' companies once held during the Shah's regime and which the Khomeini has taken over; and therefore, the United States has much interest in gaining back those oil fields.

A Revolution in Iran?

This Awareness indicates approximately 100 million dollars in each well, and at least one thousand such wells, and that Iran is in deep suffering, the people suffering greatly under Khomeini, and this country will be ripe and open for the United States to intervene in the future. This Awareness suggests it is not unlikely that the son of the Shah might be brought back to Iran when the people are thoroughly fed up with the Khomeini. This Awareness indicates however, there will be more suffering for this country before this occurs.

This Awareness indicates that all of this appears to be pretty much planned and controlled and the timing allowed. This Awareness indicates it appears that within approximately 5 years this will have changed considerably, and the masses who are now starving in Iran will have had enough and will look back on the days of the Shah as if these were grand and glorious times. This Awareness indicates that in Iran at present, a chicken costs as much as two hundred dollars. An orange can be as much as \$50. This Awareness indicates entities are in great suffering in this country, while the Khomeini appears oblivious; this entity as not having much in common with the people. This Awareness indicates the entity does not appear to be in touch with reality; this entity spending much of his time watching cartoons on television.

This Awareness indicates that the conflict between Iraq and Iran as that which is abominable, in which children are being slaughtered. This Awareness indicates that within 10 days, 50,000 Iranian troops between nine years of age and twenty, were slaughtered. This Awareness indicates that the Shah's armies are still in the mountains waiting.

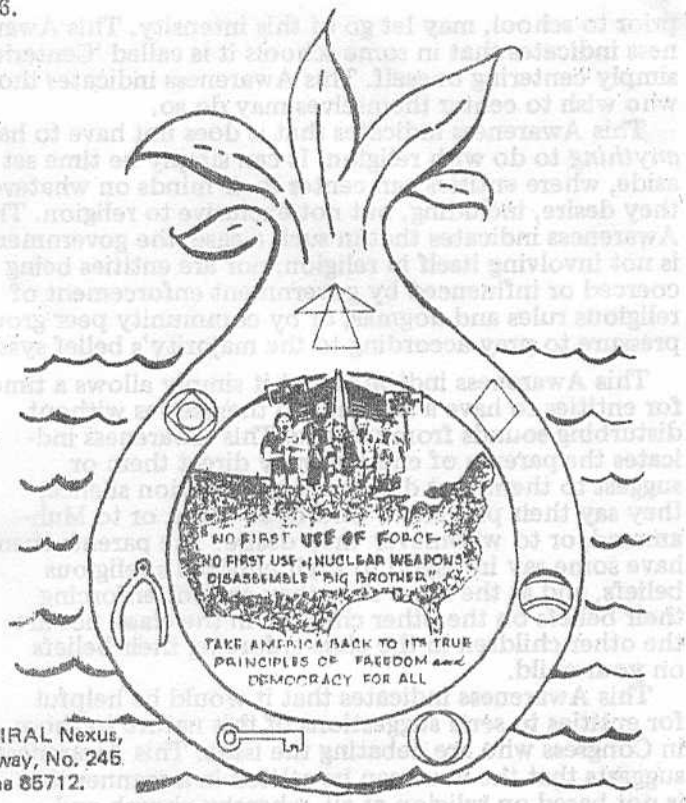

This Awareness indicates that these are troubled areas in your world, having been greatly manipulated and controlled by forces which are more interested in profit and greed than in human affairs.

This Awareness indicates that there is much suffering among those countries which are polarized in religious dogma and especially when such countries have assets that are desired by those forces which are polarized toward monetary wealth and power. This Awareness indicates that it is for this reason that certain areas of the world suffer more than other areas.

Romanov to come to Power in USSR?

This Awareness indicates that in reference to changes that have occurred in the Soviet Union, this Awareness suggests that the new leader appears to be one who will be only temporary; that there is indication that a younger leader shall follow. This appears to be the entity Romanov.

This Awareness indicates there appears also to be a shake-up in the military leadership of the country; that this appears to be more certain and sooner. This Awareness indicates that there appear to be other energies which will be needing attention, but these are not clear at this time, and can wait. This Awareness indicates therefore, that any questions of a general nature may now be asked, or the Interpreter may be brought from trance.

Satellite may have exploded in orbit

CAPE CANAVERAL, Fla. (AP) — Officials raise the possibility yesterday that the \$75 million Westar VI communications satellite exploded 45 minutes after it was ejected from space shuttle Challenger and is now merely chunks of lifeless junk orbiting the Earth.

The North American Aerospace Defense Command (NORAD) said its huge radars in California and Florida determined that "two of the objects are large enough to be the satellite" and said the pieces are in the same general orbit as Challenger.

But, NORAD said, the largest piece is at least 600 miles behind Challenger and poses no danger to the ship and its five-man crew "at present" and that the closest approach for 24 hours is greater than 31 miles.

"Based on the number of pieces that have been detected, it appears the Westar VI satellite did not have a successful transfer to synchronous orbit after departing the payload bay of the orbiter," NORAD said.

"At the present time we have no way of determining the actual condition of the satellite or what caused this situation to occur." The shuttle, minus its booster rockets and fuel tank, is referred to as an orbiter.

A synchronous, or stationary, orbit means that a satellite is at 22,300 miles altitude over the equator. There, its speed matches that of Earth, making it appear stationary over one point.

The missing satellite is not the first U.S. spacecraft to vanish in the void. A 19.

WHY THE FIRST-STRIKE WAS CALLED OFF ...THE STRANGE TURN AROUND OF MR. REAGAN

QUESTION:

We had a letter from R.W., Topeka, Kansas, that indicates that the First-Strike planned for this month was suddenly canceled; that something was going on that changed it. She writes: "All military bases around the world went on alert last month. All dependents overseas were told to prepare to return home. Then the alert was cancelled several days later. I have a relative on Okinawa that also wrote that she was going to have to return home suddenly."

Does Awareness see that there was some major change going on in the Pentagon or in those forces that would start this First-Strike that were radically changed recently?

COSMIC AWARENESS:

This Awareness indicates that this was in part associated with failures in regard to the space shuttle and its efforts to launch those satellites, in part due to Andropov's death, in part due to other actions which occurred within the United States in regard to the attitude and approach this country was taking toward war. This Awareness indicates that you will notice that in the general tone of speech a sudden reversal occurred in President Reagan's attitude toward the Soviet Union. There was talks of attempts to return to negotiating, to tables for negotiating, attempts toward reconciliation. This Awareness indicates that there was a definite shift in American policy in regard to the First-Strike. This Awareness indicates that this cannot be discussed thoroughly or completely at this time. This Awareness indicates that there has been in one area the discovery that Russia has the capability of knocking out missiles, incoming missiles, even of the Stealth variety. This Awareness indicates that this in regard to its plane which is armed with large numbers of anti-missile missiles, and in regard also to other technology.

This Awareness indicates that this does not necessarily mean that no further future attempts toward nuclear war will occur, although it is becoming more remote as other types of technology for war are being developed. This Awareness indicates that it appears that the forces in this country are becoming more aware that nuclear war is less desirable and not as easily won or winnable as they had

planned, and also that there are other technologies in regard to laser types and technologies which may be more easily controlled to allow them greater chances of winning in the future, and therefore they are beginning to look toward these future developments and to discount potential for nuclear war.

This Awareness indicates however, that there does not appear to be the impetus for nuclear war, though there still appears to be the same ambition to control and dominate the Soviet Union, and also it appears that the Soviet Union has become more determined to avoid such dominance, and thus the danger still remains, but the immediacy of danger is more remote.

This Awareness indicates that entities must be ever watchful and mistrusting of the leaders of both of these countries, for that is the role which these leaders have taken whereby they cannot be trusted to negotiate and seek with all their might a peaceful solution, when they have not yet exhausted all military means of settling disputes.

*ED's Note: this info leaked by Awareness reminds us of the Skoptsis coup behind the scenes in Washington back in 1979, when a lot of war monger's heads were falling and doubles were appearing all over the place. Could this be happening again. It would certainly explain Mr. Reagan's turnabout. (Look at the ears when you watch TV or see photographs. It is almost impossible to duplicate the ears).

DO NUCLEAR BOMBS REALLY WORK?

QUESTION:

One final question. In the current issue of *Critique* magazine, issue No. 13/14, there's an article by Dr. Richard Lefors Clark that covers many areas, but there's one area he talks about I'd like to read and ask Awareness to comment on the validity of the information. He says:

"Another well-hidden fact is that the explanations put forth on what nuclear bombs are and how they function is pure fantasy,--a nightmare of nonexistent particles and forces invented to cover-up what really happens. This is why there is no nuclear terrorism, which there certainly *would* be if the bomb worked as advertised. The bomb *really* works by the use of gravity control and gravity must remain a secret at all costs. There are today cleaner and far more deadly and effective weapons than the nuclear bomb, but the bomb serves to keep the masses in a state of fear and tractability so that the most outrageous policies can be pursued which must be acquiesced to in order to avoid a nuclear holocaust. In fact, technology exists, very ancient technology which goes back to the Egyptians, which deactivates radioactive materials, bombs and waste material alike. It is so simple that a nation could protect itself from nuclear attack for a few thousand dollars. Knowledge of this technology is well-known in revisionist science, but it is ignored by the establishment for the reasons already set forth."

Would Awareness please comment on that information?

COSMIC AWARENESS:

This Awareness indicates that this as being relatively accurate in its presentation. This Awareness indicates that it not being complete, but that it is difficult to complete that which was not said. This Awareness indicates this relates to that which is known as the Grid Factors, the factors associated with the grid lines on the earth; that nuclear weapons can be exploded only under certain conditions associated with grid lines and grid factors and planetary alignments.

This Awareness indicates for this reason the March 17th date is seen as the most likely date for such an attack. This Awareness indicates that with the invention of the 'W' Particle, or the discovery of the 'W' Particle, this could be altered, but that the technology is not yet at such a level as to allow this alteration; therefore, it is only possible at certain times for nuclear weapons to be discharged.

QUESTION:

Well, is the knowledge of these grids available to those entities who invented the original atom bomb?

COSMIC AWARENESS:

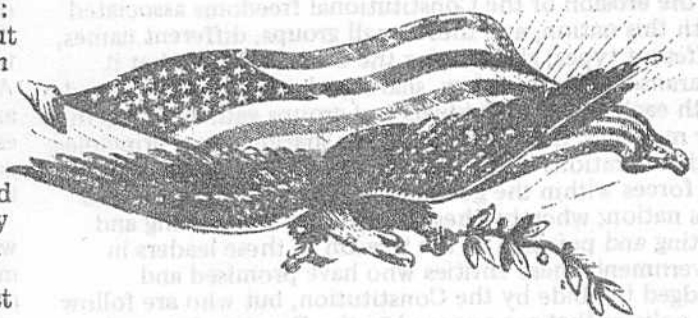

This Awareness indicates that this in the affirmative; that the entity Nicola Tesla as one who used these grids, who set up his various experiments using these grids or on these grid lines. This Awareness indicates that it has to do with the forces necessary to break down the atomic structure of uranium or whatever element is being used; that only under certain circumstances are these broken; that certain frequencies allow for the separation and chain reaction of these elements.

QUESTION:

Then, the cities of Nagasaki and Hiroshima in Japan happened to be on these grid lines, and that's the reason the bombs exploded over them? Had they not been on a grid line the bombs would not have worked, is that correct?

COSMIC AWARENESS:

The timing also as being an important factor.

FIGHT FOR OUR CONSTITUTION

...A Message to the Light Workers

(Closing Message)

This Awareness indicates that in reference to the changing of vibration which is beginning in this year, entities may begin to experience greater potential and possibility of seeing the exposure of those forces which have operated in hiding, in secrecy, so that as these forces are exposed, the chance, the potential, the opportunity for truth to emerge and make entities more free becomes a greater reality.

This Awareness indicates that as this potential begins to emerge it then will be time for entities to really begin promoting, pushing the truth. This Awareness suggests that entities in the future not be afraid to reclaim America for its true and highest principles; to take the flag, to wave the flag for truth, for mercy, for peace, for harmony, for the love of goodness. This Awareness indicates that entities not be afraid or ashamed to quote the Constitution, to use the Constitution, to rely upon the Constitution, and to praise the Founding Fathers, to use them as examples; that entities not be afraid to speak out for the goodness that has been part of this nation's heritage.

The Cry of 'Treason'--The American Patriot Movement

This Awareness suggests also that entities may find in this new period of time, partly brought on by the elections, which allows entities to have greater say; greater freedom of speech, greater rights to criticize the present administration; that entities not be afraid to speak out on the ills of government, and on what needs to be done to bring this country back to what it once was. This Awareness indicates that it is a time when Light Workers, acting individually can have greater power and influence than during most periods of time in the past five years.

This Awareness indicates that it is a time of hope, and entities in taking advantage of these vibrations, can help to speed the time in which peace can come upon this earth. This Awareness indicates that without this grand push from the Light Workers during the remainder of this year, and beyond, the potential for the energies of the Antichrist to gain control will be much greater.

This Awareness indicates that there are infringements on the rights of entities which need to be spoken of in letters to editors, or any place where they can be published; these involving freedoms of speech and freedoms of religion, involving the various Bills which have been passed that are infringing on entities's private lives. This Awareness indicates that the SPIRAL groups have given much information on these things, and suggests entities be aware of these areas. This Awareness indicates that there is also the need to press for freedom from fear of nuclear holocaust, and this through the continued attention to this area and to the No First Use and Nuclear Freeze movements.

This Awareness wishes to call attention to that which is only now in its grass roots beginnings; this being what may be termed the American Patriots Movement, whereby entities across this nation have been getting together in small groups, learning what has been happening in terms of the erosion of the Constitutional freedoms associated with this nation, and these small groups, different names, different types, all studying the Constitution, what it guarantees, studying law, sharing what they have learned with each other; individuals and groups gathering together for meetings, discussions, and for sharing ideas, principles and frustrations in regard to the continued infringement by forces within the government who are treasonous to this nation; whereby these entities are recognizing and stating and pointing to the treason of these leaders in government; these entities who have promised and pledged to abide by the Constitution, but who are following policies that are opposed to the Constitution, and thus are traitors to this country; and these entities in these patriot groups are watching and sharing this information with each other, and with others who will listen.

This Awareness indicates that this movement as that which is seen by these entities in government who are traitors to the Constitution, this movement is seen as a threat to them, for it is growing like wild-fire and spreading throughout the country and will be that which brings back the principles of freedom on which this country was built. This Awareness indicates that essentially it is in a race with those who would create a dictatorship, to alter the Constitution, to destroy the Constitution, to set up a new Constitution designed to enslave the masses.

This Awareness indicates that the patriot groups are armed citizens; 30 million entities within this nation have the right to keep and bear arms, and do so, and these entities are that which prevents the dictatorship from being set up. This Awareness indicates that it essentially is the largest armed force in the world; unorganized individuals with arms in their homes, and as such it makes it extremely difficult for those who would do so to set up a dictatorship in this country without fear of backlash and annihilation from the masses.

This Awareness indicates that meanwhile, the patriot groups such as the Posse Comitatus, Free Men's Organization, American Patriots, and other groups; these groups are

continuing to grow and spread their teachings. This Awareness indicates that it appears to be a time of resurgence, wherein those who are reexamining the freedoms and Constitution, have been realizing that many of these freedoms are being eroded, and realize that the children of this nation are being short-changed, for they have not known the true freedom that the parents and grandparents knew, and therefore cannot be expected to preserve freedom in the future unless they know what it is, and therefore, the parents and grandparents owe it to the future generations to restore the freedoms, to reclaim the freedoms which this nation offers through its Constitution, even if it requires that those who are traitors to the nation in their positions of leadership, be tried for treason.

This Awareness indicates that you will be hearing more and more in regard to leaders of this country being traitors and treason being shouted as this patriot movement begins to grow and spread. This Awareness indicates that much of the patriot movement receives its impetus from those who are tax resisters, for the Constitution does not allow income tax or head tax, yet it was created as a war tax during World War 2, was not removed after the war, and the IRS was created to collect and enforce payment of this, though essentially it was considered a voluntary tax.

This Awareness indicates that the Patriot Movement is involved largely with concerns about these taxes, the misuse of money taken from income, the definitions and the tactics used by the IRS, and counters in the legal areas for dealing with these concerns. This Awareness indicates however, it is not simply the IRS which is the root cause and concern of these Patriot movements --(that is but one of many agencies which operates illegally in regard to the Constitution, according to the Patriot interpretations). This Awareness indicates that entities wishing to be aware of what is occurring within this country should become aware of these movements; that much of this is related closely with Christian/ Protestant philosophy and it may be found that many of those in the American Patriot Movement are inclined toward the Christian/Protestant movement also. This Awareness indicates however, it is not limited or necessarily associated with religion, though the Christian Protestants who are fearful of the Antichrist and infringing government on freedoms of religion tend to be directed toward the American Patriot Movement.

This Awareness indicates that there are many churches whose members are well aware of these areas of government, and therefore these churches tend to be meeting places whereby entities become more aware of Constitutional concerns. This Awareness indicates that in many cases there is error in the reasoning, but there is also error in the treason of many of those who are in positions of leadership who fail to abide by the Constitution; therefore, the conflict between these in power and those grass roots organizations is that which essentially is balancing and can, even if error exists in the reasoning, have an influence to help bring back the freedoms, to preserve those freedoms which were guaranteed by the Constitution.

This Awareness indicates that it will be more and more an influence on this nation during this and coming years.

These publications face the same problem we all do. They need funding so they can increase their advertisements so more of the public can become aware of what is going on in our country behind our backs. SPIRAL stands for the Society for the Protection of Individual Rights and Freedoms, and if what Awareness is telling us about the traitors in our government who are committing treason to our Constitution, then now more than ever, these SPIRAL groups should be supported. We hope that those of you who can afford it, will send donations to these groups as well as becoming subscribers. With enough funding, these groups can get into more national magazines and recruit new subscribers who can then become aware of what is going on behind our backs. Thanks a million! (Avaton)

ECONOMY FORECAST ?

..MORE ON INFLATION & GOLD

QUESTION:

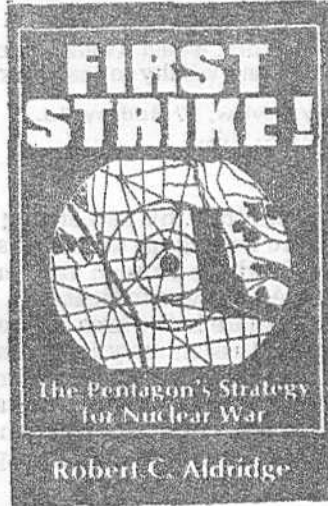

D.S. of Miami, Fla. has a question: "If the threat of a nuclear holocaust can be contained until the Presidential election in November, and hopefully reduced after that time, the next question on the minds of many members will be the problem of inflation. Rents, for example, are unconscionably high by former standards, yet Awareness has predicted that in three years they will be three times as high as they are now. My question is: Can Awareness assess what the economic picture will be through 1984 and beyond? Inflation, it appears, is now built into the American economy, and it would be helpful if it could be traced through the near future."

COSMIC AWARENESS:

This Awareness indicates that one of the great benefits that has come from the recession is a temporary curtailment of inflation. This Awareness indicates the benefits of this however, is being offset by the heavy deficit of the budget, and this can in turn create an ever-greater inflation during the future. This Awareness indicates that at present, there are those debates and concerns as to how to reduce this heavy deficit of the budget, and depending on the outcome of this, it may, or may not reduce the the inflation, or keep the inflation level from rising so quickly.

This Awareness indicates that in the event the heavy deficit does begin to have its impact on the society, one can expect inflation to begin to occur, and one can also expect the possibility of an even greater recession than that which has been experienced. This Awareness indicates that it is essentially too early at this time to foretell which way things will go in regard to inflation. This Awareness suggests however, that one can expect by the end of this decade that things will be much more expensive than at present time; this depending on...This Awareness indicates that this does not of course include the possibility of a reevaluation of currency; that in the event currency is reevaluated on a ten to one basis, things in the future might be less in terms of the new currency, but still may be more in terms of the actual value of today's currency.

This Awareness indicates that entities who are interested in base metals should know that they are approximately at the lowest prices; that they are likely to

begin soaring again in the near future, perhaps after the election, and are not likely to return to this level again. This Awareness indicates however, there is some danger in regard to the holding of gold and silver in that laws are available whereby the government may call in all personal holdings of gold and silver, and therefore, entities aware of this may not wish to risk the possible future loss of their holdings.

This Awareness indicates that this does not appear to be such that great loss would appear if the gold and silver were called in, for it appears the government would give compensation of a reasonable value for such.

A U.S. PLAN TO INVADE SIBERIA ?

..MORE ON THE 007 INCIDENT

QUESTION:

(March 10, 1984)

There's a newsletter called *Intelligence Digest** that comes out of England which purports to have a source of information not normally found in the press through agents in various countries, and they have one in Russia who states that there's a story going around Moscow that the United States is planning to invade Siberia. I'll read a little of this and ask Awareness if there's any validity at all to this. It says:

"The story, so far only quietly talked about, is that the United States has started a build-up for the eventual invasion of Siberia. Bent on war, or aggression, Washington has reluctantly had to rule out Europe as the invasion route. There are too many obstacles in Europe, not least of which is the combined strength of the Warsaw Pact and a few million Soviet troops. Another consideration is that America's West European allies lack the militancy right now to back such an adventure which to many of them would be both costly and dangerous.

"Faced with such obstruction, the Pentagon has started making alternative arrangements. Siberia is vast, lightly populated, with lots of space for armoured formations to roam, maraud and conquer. What Genghiz Khan could do once, his latter-day reincarnation in the White House can do today. That is why in the past year, according to Moscow, there has been such a tremendous U.S. build-up in the North Pacific, with the ocean getting almost too small to contain all the warships.

"That is also why, incidentally, the Soviet Union has reluctantly been compelled to reinforce its Far East fleet. Japan is in on the secret and ready to cooperate. Hence all the talk--and not just talk--of strengthening Japan's already unnecessarily strong so-called defense forces. Hence, too, the fortification of Hokkaido, the deployment of Cruise and Pershing II missiles on the Aleutian Islands, and the arrival of ever more fresh troops in South Korea--so the Moscow story continues.

"For an invasion of Siberia to succeed, the Soviet defensive out-posts at Kamchatka and Sakhalin would first have to be overrun, and that is why such close observation of these two outposts has become necessary. However, for proper observation, Japanese and South Korean cooperation is necessary, as well as the Chinese. To break the news to the world and explain exactly the real implications of the South Korean 007 airliner incident would be to accuse China of complicity, and at the moment it is not convenient to do so."

And it goes on and on in this story. Would Awareness look at that scenario and see if there's any validity to that information?

*Intelligence Digest Weekly Review, 17 Rodney Rd., Cheltenham, Gloucestershire, G.L50 1HX, U.K.

COSMIC AWARENESS:

This Awareness indicates that this as a strong possibility in the planning of the Pentagon; that it was part of this scenario that involved the Korean airliner in the spying mission. This Awareness indicates *It* has previously suggested that there is the area in the North Pacific wherein the entire Russian navy in that area can easily be bottled up if caught within a certain area, and could be essentially wiped out; that the American navy is much stronger in those areas than the Russian navy; that a naval victory as that which has a strong appeal to the war planners.

This Awareness indicates that it also is the closest area of contact between the United States and Russia, whereby many troops could be landed into the area very quickly, without dependence on long distant travel from the United States, and actually entering in upon Russian soil. This Awareness indicates that this not unlike the planning of the 1917 revolution in Russia, except that rather than coming in from the West, these entities would come in from the East and move across Russia in that manner.

This Awareness indicates that this is one of many different plans, and that there are many options and variations of this plan which may or may not ever become finalized. This Awareness indicates that it must be understood and recognized that the war planners are in constant operation, making plans, carrying out game plans, testing plans and often scrapping plans; sometimes never really knowing whether the plans will be used or not, but simply following through to see how well the plan *would* work in the event other things do not occur on the political level that brings satisfaction.

This Awareness indicates that often political affairs, being so nebulous and uncertain are seen as desirable to achieve certain ends, but war planners are in position wherein they cannot count on the political areas to be successful, therefore, they make plans in the event the political areas become less appealing or fail. This Awareness indicates that this is why there are so many military plans hatched and practiced sometimes in dry-run or in maneuvers in various areas, for the purpose of testing or practicing the plan.*

This Awareness indicates that this plan does appear to be one which has greater appeal to the war planners than most others at this time.

*ED's Note: one night while working late at the drawing board, one of the late night news programs showed a long segment of just such tank maneuvers going on in the desert of California or Arizona. They said the terrain was much like Russian terrain and the 'Red' armies were dressed like Russians, and their tank commanders were being trained to "think" like Russians. No real shells were used, but they would fire at one another with cannons that left splotches of white paint on them if they made a direct hit. It was a scary program, because they interviewed the officers and men who all agreed that one day they would be fighting the Russian tanks in this manner. (Avaton).

WILL THE HOUSE OF ROMANOV BE RESTORED IN RUSSIA?

QUESTION:

A question from J.K., which I have edited somewhat. "Cosmic Awareness indicated in CAC No. 81-1, that the Russian Skoptsis could be the rider on the "White" horse in the *Book of Revelation*, and the Russian Christian Skoptsis took control of Russia from the Bolsheviks in 1977, thus confirming the Edgar Cayce prediction that the hope of the world will come out of Russia.

"A Detroit News article on "Romanov: Possible Successor to Andropov" (Dec. 5, 1983) says that there is a prophecy related to Grigori Romanov replacing Andropov. This prophecy says Grigori Romanov is destined to restore the 300 year old house of Romanov to the Russian throne to replace the 200 year old Zionist House of Rothschild, who have controlled Russia since 1917.

"There is another prophecy made by Oscar Wilde that said: "The White Christ will come out of Russia." The Cayce readings said that: "Through Russia comes the hope of the world. Not in respect to what is sometimes called Bolshevism. No. But Freedom! Freedom! That each man will live for his fellow man. The principle has been born there, It will take years for it to be crystallized. Yet out of Russia comes again the hope of the world." (From a 1934 Edgar Cayce reading)

"All this information seems to confirm that Russia is the rider on the White Horse in the *Book of Revelation* in this final Armageddon battle. Cosmic Awareness, please tell us who gave this prophecy to Oscar Wilde-- that prophecy of the White Christ coming out of Russia,-- and is this related to the prophecy that Grigori Romanov will restore Christian rule to Russia today for the first time since 1917, or does the White Christ coming out of Russia refer to the Intergalactic Space Confederation that allegedly is guiding Russia today?"

COSMIC AWARENESS:

This Awareness indicates that the reason why there is such a frantic effort on the part of the Bolshevik forces in the United States and in England; the reason is that Russia is seen as a threat to the plans of the Bolshevik groups to take over the planet; that these forces essentially are agents of Ahriman. This Awareness indicates that the entity Romanov is seen as probably ascending as leader within a short time, possibly within a year. This Awareness indicates that when this occurs, there will be a strong announcement and an effort to promote a reexamination of the image of Russia, so that arguments in regard to communism and such will have to be altered completely.

This Awareness indicates that there is however, a great danger in regard to the ascension of this entity. This Awareness indicates that it appears there will be a military change first, followed by the political ascension of this entity; that when this occurs, the old guard of Russia will be out and new energies will have taken over. This Awareness indicates that this is not to be seen as pleasing to the Bolsheviks, but it can help to bring about greater stability and rapport and communication between these forces.

There is however, the problem of the efforts of Bolshevism and Zionism; (this not meaning Judaism, for Judaism as having nothing to do with Bolshevism or Zionism, although many entities attempt to see these as one); this Awareness indicates that there is the problem of this Bolshevism desire to create a world dictatorship, and it does not appear to be something that will go away easily. This Awareness indicates therefore, it appears that a struggle will still occur, and this will not occur until it is clearly seen, clearly exposed to the public.

This Awareness indicates it also does not appear that there will be a massive war until shortly after or just

about the time of the appearance of the alleged Anti-christ. This Awareness indicates that there may be some circumstances or situations that occur in regard to a more limited war or national emergencies which will help to bring this entity into his position. This Awareness indicates that so much is uncertain because there are entities who are aware of what is planned; the Russian Skoptsis being very much aware of what is occurring with the Bolshevik plans, but also the Bolshevik plans being so well designed and so heavily funded, that it makes it difficult for anyone to fully see what will occur.

This Awareness indicates that prophecy as given in the past is not binding on the future. This Awareness indicates there are influences in movement; the influences indicate, but do not force the future.

HOW TO HANDLE STRESS DURING THESE TIMES OF GREAT TRANSITIONS

(Closing Message)

This Awareness indicates that entities are living in a time wherein history is in the making, during a period of great transition; that this past 50 years and the coming 50 years as a time of extreme transition and change as has not been experienced on this plane in thousands of years. This Awareness indicates that entities living during such a period of time are bound to experience stress, frustration, concern, anxiety, uncertainty; for that always accompanies extreme change and transition.

This Awareness indicates it is for this reason that many entities suffer physically, emotionally and spiritually. This Awareness suggests therefore, that entities as much as possible find time to relax, to enjoy the simple thrills of nature, to find places wherein there is peace, to find activities which are pleasant and enjoyable, and above all, to be kind to one another, to be tolerant of one another as much as is possible, and to be courteous to one another, and not to express any great frustration or hostility toward another than is absolutely essential, for such courtesy and respect to one another is that which makes the world that much easier during a very difficult period of time.

WHAT HAPPENED TO ADOLF HITLER?

(More on the Middle Earth Connection)

QUESTION:

I probably would never have asked this question except last night Awareness referred to the "4th Reich" in relation to the Ahriman Forces and the Hitler question. Recently, I read somewhere, a tabloid, or an ad for a book or something, I can't put my finger on it, (I think it was a tabloid story), about how Hitler was taken to South America and then taken into an opening in the Antarctic, and entities used certain methods to extend his life, perhaps even genetic means, and the entity is expected to live at least a 150 years or so, and that he is now back in South America, and they claimed that the whole Falkland Island thing by Argentina was engineered by Hitler. In light of that 4th Reich information, would Awareness indicate if there's any validity at all to that story?

COSMIC AWARENESS:

This Awareness indicates that the entity Adolf Hitler was not the one who was identified as the burnt corpse in the bunker. This Awareness indicates that the entity did in fact leave the area and was taken to Argentina. This Awareness indicates that the reference to his having been in touch in the Antarctica with forces within the earth are also correct. This Awareness indicates however, that the entity known as Adolf Hitler is not alive in the

physical body at this time.

This Awareness indicates that the further part of the story is conjecture. This Awareness indicates that the entity has passed over, this appears to be in the early '60s.

ONE OF HITLER'S PAST LIVES

...More on Bael!

QUESTION:

Awareness once indicated the entity Hitler was Bael, I believe. Would Awareness give a little more information on Bael?

COSMIC AWARENESS:

This Awareness indicates that Bael as being a Babylonian god created from legends that existed prior, in Atlantis. These legends stemming from Atlantis in the time of approximately 30,000 BC. This Awareness indicates that the legends on which the entity Bael were based in the Babylonian culture stems from an entity know as Bael who was a ruler in Atlantis during the period of approximately 30,000 BC. This entity as having been one who accumulated great power and set up as a goal the intent of restoring the glory of Atlantis that had been prior, in the times before.

This Awareness indicates that the entity attempting to set up the glory of Atlantis failed to understand what in fact made Atlantis glorious in its earlier periods and sought the trappings of the glory, seeking great wealth and great control over the trading and of commerce with other nations. This Awareness indicates that this entity in the process became tyrannical, and exemplified for the people the concept of power and might.

This Awareness indicates that this left a legend that was passed down through time and which later was brought into the Babylonian literature through materials that had been stored in libraries through the priests. This Awareness indicates that the entity did not live a great long life. The entity being militaristic and tyrannical did create much havoc in surrounding nations and in his own land, whereby he became one who was looked upon by his own people as a tyrant.

This Awareness indicates that this as a period wherein Atlantis was on the decline, wherein the inner-space communications had begun to diminish, whereby the earth was beginning to go into its stage of isolation. This Awareness indicates that the entity as having focused on the end result, the goals, and having assumed that to reach the goal would be important and that the means for reaching that goal were not important. This Awareness indicates that in the process, the entity did create much havoc and never reached his goal.

QUESTION:

Is the entity that we knew as Hitler going to have anything to do with the 4th Reich that Awareness mentioned?

COSMIC AWARENESS:

This Awareness indicates that this entity appears to have gone through a great trauma in regard to what occurred and the energies that are within this entity's psyche as that which have led the entity to become much more passive in his approach to life. This Awareness indicates the entity is seen as one who will begin reversing the trends from masculine energies toward that of feminine energies. This Awareness indicates the entity is seen as one who becomes female in approximately two lifetimes hence. That in the next male lifetime, the entity will be more of an artist and less the politician or warrior-type.

THE BIG/LITTLE MEDITATION

(Opening Message, Dec. 5, 1981)

This Awareness suggests that entities consider the following meditation. This Awareness suggests this may be called the Big/Little Meditation. This Awareness suggests that entities assume a comfortable position, preferably lying in your bed, or sitting in a meditative position, wherein it is quiet. This Awareness suggests that you visualize yourself inside a large box,--a crate; that you visualize yourself growing larger...larger. That you not simply visualize, but that you imagine what it would feel like to start growing larger inside this crate, as if you were a balloon being pumped full of air, growing larger and larger with each breath.

This Awareness indicates your body is now reaching out and touching the sides of the crate. This Awareness indicates you are now beginning to make the crate bulge, and it pops open, and you are now lying there in the same position with these little splinters of the crate lying around you as you grow larger and larger, reaching out toward the walls of a large building, each breath pumping you up, making you larger, so that as you approach the walls of this building, your sides begin to press against these walls and against the roof, and it begins to give way, and with a mighty explosion you find yourself having burst forth from the building, sitting there, or lying there in an open field, growing larger and larger, reaching out toward the horizon, upward toward the clouds, growing larger and larger, reaching out until you are pressing against the atmosphere, and you suddenly burst this atmosphere and find yourself outside of the earth's sphere, and in space, growing larger and larger, looking at the various stars, planets, galaxies, expanding in space, encompassing all of these areas; the outer limits of space, your being reaching out and touching those far reaches of space.

This Awareness suggests that this movement be experienced, rather than simply visualized, and that you move as far as you can conceivably go in your experiencing. This Awareness indicates that when you can go no further, this Awareness suggests you then begin visualizing yourself growing smaller and

smaller, as each breath leaves your body, as though the air were being pumped from you, and as a balloon which begins to leak and lose its size. That you move into smaller and smaller stations, entering into confinements, moving into that which is a structure, and within that structure that you become smaller, filling less and less space within that structure, finding smaller and smaller structures in which to house yourself, moving into tiny little bodies, and within those bodies, moving into tiny little cells, and within those cells, into tiny little atoms, and each movement, rather than merely visualized, let this be an experience; becoming smaller, smaller and smaller, while that which is outside of your focus and is not you, becomes larger and larger and larger.

This Awareness suggests you move into this meditation of smallness, separating yourself from all that else, all that other, until you are the most miniscule particle of being that can be experienced by you; until you have all but totally disappeared. This Awareness suggests that when this has occurred, that you then look out at the total, large being which you once were in this meditation, wherein you became as large as you could conceivably become, and that you join that most miniscule point of your present little self with that great, massive, gigantic being that you were in your big self; linking these together with a beam of light, fixing this within your consciousness, and seal this with a chant of OM three times.

This Awareness suggests that this may also be wrapped with Light, so that the tiny and the great become one and the same. This Awareness indicates that this then, may be condensed and brought into the center of your consciousness within your third eye, within the center of your head, and fixed in place as your identification and playground, being that most miniscule point of being along with that most expansive concept of being,--all in one, linked together with a beam of Light from the little to the big.

This Awareness indicates that after the three chants of OM, that you may consider the meditation as having been complete.

QUESTION:

MORE ON THE LORD'S PRAYER

A question from L.D., Easton, Pennsylvania. "What is the status of the 'Our Father' prayer as purportedly given by Christ? It seems to me that a truly Christed being would not have given it in that particular form which, in brief, seems to indicated too much of a split between the Divine and the individual.

COSMIC AWARENESS:

This Awareness suggests that you read the chapter in Max Freedom Long's book on the Huna philosophy, the chapter titled and referring to the 'Lord's Prayer.' This Awareness indicates this book as the *Secret Science at Work*. This Awareness suggests that essentially, this as a secret Huna prayer system; the prayer being a pattern for contacting the High Self and for sending mana to the High Self and requesting mana in return,--(the daily bread being a code name for high mana).

This Awareness indicates that this request for the forgiveness of debts or trespasses is a request for the High Self to eliminate any blocks or fixations or crosses, or tangles in Huna terminology, from the subconscious mind, so that the subconscious can make the proper path to contact the High Self.

This Awareness indicates that giving the praise: "Thine is the power and glory," this action as a form of worship which gives mana to the High Self to allow the High Self, in turn, to act in one's favor. The action of stating, "Thy will be done," allows one to give up one's own will and to therefore allow the will of the Father, the High Self, to perform and use the mannas as *It* sees fit.

This Awareness indicates that the chapter referring to this Lord's Prayer by Max Freedom Long will surprise and amaze you, as the entity translates the terms of the Lord's Prayer into Hawaiian and Polynesian meanings of those words, revealing to you the secret, coded message in this Lord's Prayer.

This Awareness indicates that the works of Max Freedom Long in breaking the Huna code may be the most significant breakthrough in terms of religious discovery of anything which has occurred in the past 2000 years.

ED's Note: the works of Max Freedom Long are published by DeVors & Co., Marina del Rey, Calif. Also available from CAC. Please refer to Book Catalog for prices. For more info on this prayer and the Huna philosophy, please refer to the Cosmic Awareness Correspondence Lessons in Scorpio (High Magek); \$10 for set of 12 from CAC.
