Helping People Become Aware

Cosmic Language

Published by Cosmic Awareness Communications, PO Box 115, Olympia, Washington 98507, USA. Reproduction is permitted.

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious 'trance' levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter. Paul Shockley, Interpreter

COSMIC LANGUAGE AS A TOOL IN UNDERSTANDING PRESENT EVENTS

(MORE ON MOLOCH, LUCIFER AND RHYEE)

COSMIC AWARENESS:

This Awareness wishes to call attention to that which may be considered as Cosmic Language. This Awareness indicates that the Cosmic Language as that which rather than being necessarily a system of letters and words in grammatical structure, begins with a series of concepts. That to begin a Cosmic Language, entities would need to understand the source from which a language would need to begin.

This Awareness indicates that in the beginning, there is that which IS, and that which IS is capable of action; that this essence in motion is also capable of creation, creating the result of the motion. The basic activities that essence, ISness, or that which IS is capable of doing; it is capable of reflecting upon itself, thus the principle of reflection may be considered as a language tool.

It is capable of examining itself by dividing, thus division is a Cosmic Language tool, and analysis or examination is a Cosmic Language tool. In analyzing, it is capable of devouring or digesting through analysis; this creates the concept whereby the reflection as a separation of self turns upon self and devours self.

This Awareness indicates that this symbolized, in Cosmic Imagery, that entity known as Moloch or Kal. The entity known as Moloch of the Babylonian gods, as a Cosmic letter or concept. The concept of Moloch, a creator who devours his own children, creates his children, casts them off from himself, then devours his children for nourishment,--this is Moloch. This may also be considered as the female principle, although in Babylonian mythology, this entity was cast as male.*

This Awareness indicates that the principle involved is that of consciousness, which reflects on itself and in such reflection, creates a duality within itself, then feeds on that duality, feeds on itself, thus, looking at itself, feeding on the concept of self, self-reflection, self-centeredness, the narcissism of Greek mythology; this leads to that wherein the reflection upon self is that which becomes of great significance.

This leading to the next letter or concept of the Cosmic Language: that which is symbolized by Lucifer, the reflection of the Light, who in reflecting upon self becomes vain, thus the vanity of being the reflected Light of consciousness, of essence, in which one takes pride in not being essence, but in coming from essence, reflected from essence, and assuming oneself to be more important than the Creator Essence, thus the vanity, the pride, *that* symbolized as Lucifer, this as the letter or concept which, rising to its height, seeing itself as separate from creation, a separate creation, of being significant in itself, of having greater significance than the source from which it came; this is the concept of the Cosmic Language known as Rhyee, whereas Rhyee separating from essence, left behind that which waited for the return, that which waited as being the female counterpart of Rhyee, or Isis.

This Awareness indicates that this duality or polarity, along with the concept of separation is that which is another concept or letter of the Cosmic Language. That depending on the frame of reference, the polarity when viewed from one source, the source of Essence, is seen as but part of itself; two parts making the whole, but when seen from the part of separateness, is seen as two parts separated and in opposition to each other.

This Awareness indicates that these concepts of the Cosmic Language may be seen in terms of a being who is capable of division of self, reflection on self, devouring of self, nurturing self, and multiplying of self, or bringing the parts together through synthesizing of self. The multiplying may also be seen as analyzing or further separation of self. There is not a great deal more that the Universal Being can do with Itself, other than reflect, multiply, analyze, synthesize, expand, contract, devour, nourish and alter Its parts in a multiplicity of possibilities.

This Awareness indicates that in looking at the events on your plane while using this Cosmic Language as a tool, entities may see that the lesser reflective aspects of the Cosmic Being are operating on the principle of appetite in areas in which there is the devouring of self, wherein one part slays the other to devour the energies which were left by the departing part, whereby one part slays the other and consumes the other, whereby one part slays the other emotionally, spiritually, psychically or physically, whereby one is picked apart carefully, analytically, eaten bit by bit, word by word, criticism by criticism, until there is nothing left but a weak degraded shell having all vitality sapped.

While this aspect is operating as appetite through its many agencies, through its many bureaucratic, political, national, international organizations and agencies, there is also that aspect of the Cosmic Being which is analyzing and looking at these parts and learning from this activity, and experiencing through the nourishment of the mind, all of that which it learns by watching these physical activities that are the result of the Cosmic Being devouring its own self.
