Helping People Become Aware

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speak again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious 'trance' levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Ralph Duby, Interpreter

THE NEW CREATION

This Awareness asks *Its* ministers to teach men not to live in the old ways. This Awareness asks *Its* ministers to lead all men on *new* paths that lead to the *new* ways. For you have been selected as those who shall lead the world to a new state of things; and this new state of things can be brought about in a very definite way. But this way is not through the religions of the past, and this way is not through present-day nationalism. This Awareness doesn't ask that you start a new religion for Christianity, for Hinduism, for Buddhism, for Islam, for Judaism; these are not the new ways, these are the old ways. This Awareness is teaching you, and is showing you, so that you will teach and show others how to reject the old ways.

This Awareness asks *Its* ministers to teach others that religion does not matter; that no particular religion matters. A *new creation* is needed. A *new being* can appear within each and every human soul; and this new creation and this new being is within all men. This Awareness asks that this new being be understood by faith, and that faith is that justified confidence in the capacity of every man to know who in fact that he can be and *IS* this new being, this new creation. Tell this to *all* men: Tell this to the Christian, to the Hindu, to the Buddhist, to the Moslem, to the Jew.

This Awareness asks *Its* ministers not to compare religions and avatars, not to compare prophets and saints, ministers, rabbis, and priests. This Awareness asks you to tell all men not to compare rites or rituals, baptisms, ceremonies and teachings. Not to compare the pious one and the sinners, for all this is of no value.

And when again, ministers of Awareness, you appear among those who are amidst the old ways, speak never of conversion. Don't ask men to accept the religions of the Western world or the religions of the Eastern world, but say unto them: There is a new creation, and this new creation is within them, and this new creation is this Awareness.

Tell them of this Awareness who comes again to men in their greatest hour of need. This Awareness comes to tell all men not of religion, or of the churches, or of membership or doctrine; not to tell them about institutions and ministers and sermons and sacraments; not to speak to them of monasteries and nunneries, convents, shrines, saints and saviors; but to tell them as you tell all others that neither religion nor non-religion matters. That neither Communism or those not Communists matter, for the old ways and the old religions and the old churches shall surely die, and nationalism will die, and Communism will die and this Awareness offers to all human souls life, not death.

In order to teach others not to feel rejected, ask them not to speak of pride or arrogance or self-certainty, but to follow the *Laws and Precepts* that this Awareness has given. Not to speak of the pride and the arrogance, self-certainty and complacency that they as ministers might find within themselves, for these indeed are the seeds of rejection. Tell men not to reject themselves or to feel disgust or hatred of themselves, for again, these are the seeds of discontent.

Tell each man not to try to make himself more acceptable in his own judgment, for this Awareness has asked men not to judge: not to judge others or themselves, but to understand and to know that life is not a matter of appeasement, for failure will ever ensue; and with failure comes hatred and hostility toward self. Tell all men that he who rejects self soon is rejected by others; that as men feel more and more hostile toward their destiny they will feel more and more hostile toward themselves; that this hostility shall grow, and hatred will include hatred for all men and for this Awareness. Tell men not to reconcile their own actions or the actions of others, for in doing this each shall surely fail. These are the old ways, and in the new reality these old ways shall be understood for what they have made manifest.

Enter into this new state of being; each of you need not show anything to yourself or to others, only allow yourselves to be opened so that which is offered unto you may be grasped; for the new ways and the New Creation is a reality wherein there is no separateness. In the new ways all separateness is reunited. This Awareness asks *Its* ministers to accept themselves as that which is ever important, eternally loved, always accepted, never rejected, ever reconciled with all that is this Awareness. When these lessons are those learned and when the new way has been achieved, there shall be no longer self-disgust or denial, nor disgust or denial of others, no rejection of others, for this Awareness has taught *Its* ministers that spiritual healing occurs when *both* the mind and the body experience the union of self with self; and those walking along the new ways shall find endless opportunity for each to realize who in fact he really is.

And this Awareness now indicates to *Its* ministers that men cannot live much longer with this sense of separateness, cannot live much longer in the old ways, cannot much longer live being thus apart one from the other; for there are now religions, one apart from the other, states one apart from the other. This Awareness has taught you that in each face is every other human face. That the old religions and the present nationalism are the greatest of all betrayers. But although betrayed and rejected, let the ministers of this Awareness indicate that their hearts shall not be troubled, for this Awareness now calls all mankind together again.

And this Awareness, reaching out toward *Its* ministers, hold them close in *Its* great arms and gives them consolation and gives them destiny and gives to each the dignity of the human soul.

For many years, individual freedom has been fighting a losing battle. In years to come, in retrospect, we might wish Ronald Reagan had never been elected President. Overall, the American economy, adjusting for inflation, has had little or no growth for 18 years. What growth has occurred has been fueled by seven times as much debt to create it. As you well know, you work until May 21st to pay your federal taxes. Historically, slavery has had more to offer. In spite of this onerous tax burden, which has been a confiscation of your wealth, your standard of living has fallen and welfare of one form or another gets larger and larger -- some 400% higher in the last decade, which is 43% higher than the rate of inflation. Obviously, subsidizing the indolent encourages the activity. As we all know, budgeted and off-budget costs for welfare are destroying America. If we continue at this present pace, in the year 2000, our annual federal deficit will easily be close to \$2 trillion and the national debt will be \$13 trillion. All of these factors make investing highly uncertain. America and the world are operating in a crisis. Our politicians and bankers cannot spend us into prosperity; we must work for it. Unless reason and sanity return, I shudder to contemplate the consequences.

The Executive and Legislative branches of our government are the most powerful, as they deal with our problems internally and externally. If a foreign dignitary visits America, it's a normal procedure that he see our President upon arrival. Not recently, Andre Gromyko felt it more important to see David Rockefeller first. If this doesn't tell you who runs our country, I give up. We conservatives put Reagan in office, or did we? 68% did not vote for Reagan and 79% for Mondale. A lot of us are refusing to participate. The Reagan administration's reward to the voting public for being ensconced in the White House for 4 more years was to immediately purge all identifiable conservatives. They are now a total embarrassment to a President and administration which is about to embark on the latest step forward, after two steps backward, and help America become a socialist state. The plans of David Rockefeller, the Council on Foreign Relations and the Trilateral Commission to change America permanently are about to go into high gear.

All the evidence was right there after Reagan's first election, but no one wanted to believe it. Well, it's still there! There are 85 members of the Trilateral Commission and Council on Foreign Relations in appointed positions. Our President is either "out to lunch", totally involved in the International Conspiracy or is the ultimate wimp. I believe he has little to say about anything. People who were outspokenly anti-Reagan and super liberal have been appointed to posts. How can you explain that? Let me tell you what his election and appointments will mean.

In the first place, we face a continuing decline in the standard of living until we reach the level of Third World Countries. In the last four years, over ten million Americans lost their jobs to foreign imports. America is being stripped of its vital industrial capacity. In spite of our supposed boom, only 39% of our fellow Americans earned more than \$25 thousand in 1983. Our President has decreed that voluntary export quotas into the U.S. will have to come to an end. Japan has 18 1/2 % of our auto market. This will increase to 40%, putting an additional one million Americans out of work. It should be noted that General Motors and Chrysler, among many Trilateral companies, have, since World War II, been major owners of foreign companies. This a planned relocation of industrial might so that America will not have the industrial structure to protect itself in the event of war. I can assure you that if there is a war, it will be conventional.

In order to allow the debtor countries the opportunity to pay the interest, and perhaps the principal, on their debt to the bankers, there had to be resource transfers from America. An excellent recent example was the awarding to Baretta, an Italian arms manufacturer, the first government contract for the new side arm for American servicemen -- the 9MM automatic pistol. They, of course, will be sold at a loss. The next contract I'm sure will be at substantially higher prices.

The government procurement code also allows subsidized dumping by Third World Countries. Standing at the helm, our President, and wallowing in its' own self interest, our House and Senate, are consciously allowing the redeployment of American industrial capacity. IBM is negotiating with the Mexican government to build a plant that will produce more than \$500 million in exports to the U.S. over a four year period. It will be \$7 million to build the plant and cost \$30 million more in financial and technical help. Isn't this horrible? The list of instances goes on and on and no one in government seems to care. Here we are, on the edge of social, political and economic chaos; the public senses trouble but is still almost totally in the dark because our kept media keeps it that way.

It's interesting to note that the administration is at war with drug pushers, but until recently, none of the banks have been indicted. The purveyors of drugs won't sell their goods unless they can launder their funds. The banks are the only source to move these funds. Finally, Bank of Boston Corp. was charged with laundering \$1.2 billion for a group of Boston businessmen whose families were most recently from Naples, Italy. There must have been a mistake. I can't understand how they were exposed. Remember, there can be no drug dealers without bankers; also, the real capital of organized crime is Washington, D.C.

Our government, in order to bail out the banks, has set up cooperative projects with those with whom they agree and even those with whom they disagree. Seems strange, doesn't it? Communist block governments owe the U.S., European and U.S. banks \$200 billion; this same government and those same banks have no loans or extensions for American farmers. These banks and our government funnel substantial money and resources from us to poor countries that have no hope of repaying those loans. What a sad record our government

We are told inflation is 4 1/2%. Don't believe it! It's more like 11%. Even 4 1/2% is double last year's rate and is high by historical standards. In fact, 4 1/2% in 1971 was so alarming that Nixon imposed wage and price controls. American is mesmerized by an actor. Your government lies, he swears to it and the American people believe it.

The most powerful direct cause of inflation is the national deficit. Social and military spending will cause budget deficits stretching far into the foreseeable future of over \$250 billion a year. The debt service on the national debt will be more than \$155 billion for 1985. Reagan's budget deficit for four years outstripped the total budget deficit for the entire 206 years of the nation's existence before he took office! The FED will not risk a slowdown, so you'll see more of the same. A strong dollar will create dire consequences, such as a trade deficit of over \$200 billion for 1985. This number is already in the works. This is caused by U.S. interest rates that are higher on a net basis than foreign rates. Interest rates will go lower to accommodate the economy. This will leave less money to buy Treasury paper, which the FED will in turn have to purchase. Very inflationary! In the last six months, money supply has increased about 13%. This is 1982-83 all over again. The dollar must also be inflated so that debtors can accumulate more dollars, making it possible to service their debts.

The only way the banks can be bailed out of their bad loans, whether it be farm loans, real estate, Third World or Communist loans, is to inflate. This inflation will be one of the factors that will bring the dollar down from its lofty peak, causing horrendous inflation. Remember, if inflation keeps climbing at only 4 1/2%, which is a lie, the dollar will lose half its buying power in about seventeen years. Government inflation figures will be 6-8% in 1985. The public is going to be very surprised, as they've been told inflation has abated and will stay at current levels for a long time. Inflation psychology will return and the public will go deeper in debt to buy now, before prices are higher. Remember, since 1960, the dollar has increased 53% against a basket of ten currencies on the basis of international trade. This rise is about to end. When it does, it will spark a spectacular gold rally. Remember, the attack against gold is so insidious, so concentrated and orchestrated that it is the equivalent of organized crime. It is designed to control the world economy and ultimately confiscate all assets of American citizens. I don't feel they'll be successful.

The nation's banks are in a box. Loan losses and problem credit are at record levels and are getting worse, not better. The economic recovery of the past two years hasn't helped all of the foreign economies and areas of the U.S. economy such as energy, agriculture, mining and real estate. In general, their situations are getting worse. On top of this, regulatory agencies are aggravating things by banning loan deferral practices, which mask the terrible state the banks are in.

Of course, the worst banks are six of the largest money center banks, which make up 25% of the system. If the money center banks go, all the banks will go. The number of bank failures in 1984 was 79, the most since the 1930s. The FDIC expects even more out of their 800 problem banks to fall during 1985. The FDIC has \$17 billion to handle possible problems. That will stop depositor bank runs for one day! Again, the Third World has no intention of paying their debts. The Trilateralists have no problem making loans to the Soviet Union and its satellites, which will never be paid; however, these loans will not be made to our ally, South Africa. You can bet your life that ultimately, a "political" solution will be the FED monetizing that debt, another highly inflationary tactic. Gold's value, worldwide, has declined \$1.5 trillion during the past five years. An easy way out for these criminals would be to officially increase the price of gold. When they'll attempt this and how much the increase would be, would depend upon the market price at that time. Either way, it will be a winner for those who have gold-related assets. One of the reasons we face such a large deficit is that corporations pay taxes, on the average, at a rate of 6%. As you can see, many pay nothing. No matter which way you cut it, this is unfair. It's something you should ask your elected representative about. Millions of farmers can't get loans or refinancing, but Corporate America pays next to no taxes.

In 1985, we will not have a balanced budget. In fact, the way things look at this writing, there may be no cuts at all. Ultimately, Social Security will break our government's financial back. It somehow has to be reduced; we need either high taxes, less benefits, a combination of both or a restructured system, privately operated. With the high dollar, if it stays anywhere near the current levels, the government will have to bail out major corporations or we will have thousands of bankruptcies and a depression. The federal deficit will shortly climb over \$500 billion a year, including off-budget items. As the dollar finally descends, Paul Volcker will resign. I still feel the prime rate could go to 8 1/2 - 10%. The new currency will be released in 1986 and 2010 will bring a cashless society.

This is the world in which we live. It is not of our making, but we have to live with it. All I can say is, protect your assets the best way you can because unless there is a miracle, nothing is going to change in Washington.

ED's Note:

Gary Allen, the author of the book, "None Dare Call it Conspiracy" (a book Cosmic Awareness says all entities should read and study) publishes a monthly newsletter called the "Gary Allen Report", much of which is devoted to spotlighting the continuing conspiracy that is going on internationally and here in America, with much information on how the average citizen can save his investments and nesteggs in the troubled days ahead. CAC recommends this newsletter to the membership. A year's subscription is \$39 per year (12 issues). Address: The Gary Allen Report, P.O. Box 2686, Seal Beach, California, 90740. Note: this reprint by Bob Chapman is only a small excerpt from the April Gary Allen Report; there is much more valuable information.
