Helping People Become Aware

HOW COSMIC AWARENESS WORKS IN MYSTERIOUS WAYS

Interpreter, Anonymous

ED'S Note:

After Awareness released the "Gathering Storm" material and the "Passage Perilous" scenarios back in the fall of 1978 and the spring of 1979, we have received many letters from skeptics who read that information and then gloatingly wrote to us later that our "Cosmic Awareness source is just a bunch of hokum. There was no nuclear war, no first strike by the Bolsheviks who had taken over the Pentagon, etc."--it was all just a put-on to sell newsletters. In other words, that voice calling itself 'Cosmic Awareness' was merely the mind of the Interpreter, Paul Shockley, (and a paranoid mind at that, who had simply listened to too many Dr. Peter Audio tapes--another paranoid mind). They just knew that was how it all was, because they hadn't, in their words, "seen any of that scenario on their television sets on any of the evening news shows, nor read it in their local newspapers." You would be surprised how many letters we received over the years espousing the above view and theory and how many dropped their memberships in CAC and used that reasoning as their parting shot,--"pure hokum!"

We heard this story so often here at the CAC headquarters that at times we almost began to believe it ourselves. Information that confirmed that scary scenario was rare indeed: either the press was indeed controlled, as Awareness claimed, or the story must have been some kind of hoax. One of the few confirmations that something was afoot was that picture in LIFE magazine showing Nelson Rockefeller being hauled out of his love nest apartment after having been shot squarely in the middle of the forehead during some lively dalliance with his mistress. Although the papers all said Nelson had "died unexpectedly of a heart attack", Dr. Beter pointed out that if one examined that photo in LIFE magazine very carefully, the bullet hole in the forehead could be seen, as there was no time for cosmetics at that particular moment as the medics hauled away the corpse of the man who would be king of the world. Later, there was other evidence of the planned first-strike against Russia, bits and pieces, particularly from the European press, leaks to conspiracy buffs from entities in high places etc., but very little to really convince the skeptic that 'Cosmic Awareness was not somehow a figment in the imagination of Paul Shockley.'

It is with great pleasure at this time that the staff of CAC would like to share with you a little story that does indeed, confirm that Cosmic Awareness was not the figment of Paul Shockley's imagination, for there is documented proof that this same Force, this same Cosmic Awareness also spoke through others at that particular time and about that particular urgent crisis and scenario that needed to be dealt with.

Some months back, Vicki T. received a note attached to an old membership form from the back of our introductory booklet, "Cosmic Awareness Speaks" (Vol. 2). The letter read as follows:

"Dear Sir:

I 'chanced' upon a copy of *Cosmic Awareness Speaks (Vol. 2)* in a used bookstore several months ago. In it I read with considerable amazement word-for-word quotes from notes I had taken from a friend who had started going into 'trances' about four years ago. My friend is a nuclear physicist who, previous to the experience, had absolutely no connection with "the occult."

"When I told him about your own transcripts, he told me on the phone that he too had 'chanced upon a copy of your publication, and had already sent you some support cash a few years ago.

"Since that time, I've run across other people in my life who have reluctantly turned into 'channels' for different information. I have also spent much of my spare time collecting channelled writings and studying the information therein.

"I would like more information on the Cosmic Awareness channelling to date (the booklet I have is dated 1977). My wife and I are particularly interested in any material on healing, creative meditations, or child-rearing.

"I've enclosed the clip-out page, filled out, and a check for \$25.

"Our prayers and blessings to you and your organization."

Sincerely, E.O.

P.S. My personal warmest regards to "this Awareness", as he referred to himself in his brilliant teachings via my friend years ago."

Well, Vicki T. signed this entity up as a current member, sent him a complimentary copy of our updated version of "Cosmic Awareness Speaks" (Vol. 3), along with a note asking him for more information about his friend, and would it be possible to see copies of some of the channelings, as CAC is the official archives of past and current channels for Cosmic Awareness, and would be interested for that reason alone. Some time later, Vicki T. received another letter from the entity she had written to. The main letter was concerned with a healing for his mother, who was scheduled for open-heart surgery. I will quote his PS.

"P.S. To refresh your memory considering all your correspondence, you sent the enclosed letter. In answer-it was one friend who started hearing, and then 'reading' these messages about three years ago. He is a PhD in Physics, had no interest in the 'occult', and when I visited him, we both thought he had gone insane, in spite of the great beauty of the 'messages'.

"He had been hearing the voice for several months before I visited him at his farm unexpectedly. For four days I listened to (and wrote down at the voice's request) the long and somewhat tedious speeches and listings, the various Laws, the difference between the rational mind ("linear pipeline thought-let this be termed 'history'") and the intuition ('the crystal mind--let this be termed 'mystery'"), as well as answering a lot of rather idiotic questions from yours truly.

"At the end of four days, after having led us through this amazing Socrates-like dialogue, finally getting us to come to a truly mind-blowing conclusion about what my friend could do to help avert a possible nuclear war, (my friend is a high-level scientist now working in programs with the State Department), the voice just went away. When I called him periodically, he said it never came back.

"This year, when I finally came across your booklet, I was completely amazed to find this voice through your psychic interpreter being what I recognized as the same voice. The messages, in fact, are pretty much exact, even the wording. Enclosed is a page from one of the long sessions that matches up with some of the speeches in the booklet I found from C.A.C.

"At the time, I thought that the voice (which referred to itself as "This Awareness") was a part of my friend's mind like a split personality, whatever that means. I would be a fool now to deny that this experience was 'real'.

"If you would like other copies of what I transcribed, write and I'll get them. I gave some to a friend in Massachusetts which I can send for, because I can't find the originals.

"My friend who channeled this material has since married and is working with his physicist wife on research at a university in the South.

"There's much more to the story, needless to say, but I thought this would interest you, as it completely changed my world view.

"Thank you again for helping raise the consciousness of so many people with your fine work."

Signed, E.O.

The excerpt E.O. sent to Vicki T. from his notebook full of Cosmic Awareness channelings, contained among other things, portions of the Universal Law, the Law of Love, the Law of Mercy, the Law of Gratitude, the Law of Tolerance; the Precepts: Judge Not, Be Humble, Deny Self, Resist Not Evil, etc. It also contained that one question Awareness tells us we all must answer at the passing over: "How many have you served, and how well?"

(Below is a copy, greatly reduced, of a page from his notebook).

Avaton.

The universal law is that all life contains
 in it that knowledge that awareness that energy
 that vitality nec. for its growth & fruition. Universal
 connection is through life - Law of Love
 Love is that force associated w/ all that wh/ is
 "good". Love is that force wh/ denies the existence of evil;
 that resists not. Love follows course of least resistance -
 Law of mercy is that whereby an entity forgives error
 equally & is forgiven. Law of mercy is akin to the Law of
 Love. If obeyed then there can be no error. The Law of
 gratitude is on the letter seen today - look it up for
 yourself. The Law of tolerance allows one to look
 beyond the barriers to the sparks of divinity that
 is within each. In time you must learn to
 address each other as though you were addressing gods.
 The precepts: judge not - be humble - deny self -
 resist not evil - never do anything contrary to the law
 of love, do nothing contrary to the Law of mercy - it is
 wise - error - Love is that force by wh/ (the) serve others
 above self - that question "is it?" "How many have you
 served & how well?" always remember that question.
 Love is the universal force that wh/ does not resist.
 This awareness suggests you have been given many
 keys for those who prefer to send another
 inside to fetch certain treasures, this awareness
 can only sigh... This awareness suggests that this
 is sufficient for a message.
