Helping People Become Aware

THE ANNUNCIATION

And the angel said unto her, Fear not, Mary: for thou hast found favour with God

... (Luke 1:30)

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious 'trance' levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

THE CONCEPTION AND BIRTH OF JESUS--TWO VERSIONS

QUESTION:

A question from Mrs. S.O. of Miller Place, New York. "I have been receiving the *Revelations of Awareness* papers for about 6 months. I feel I have gained much insight from these readings because they have the ring of truth for me. However, in the latest papers which I received there was a reading given by Ralph Duby in 1963 entitled: "Concerning the Virgin Birth of Jesus, the Nazarene." Since reading this I have been very upset, wondering in my mind who is telling the truth. I have read Edgar Cayce's story of Jesus, by Jeffrey Furst, which states from the Cayce readings that both Mary and Jesus were immaculately conceived, having no human father, and that Mary conceived Jesus in the temple of the Essenes at Mt. Carmel where she was chosen by an angel from a group of twelve virgins. I have also read *Fatima Prophecy--Days of Darkness, Promise of Light*, by Ray Stanford in the Association for the Understanding of Man, which also states that Jesus was immaculately conceived, that no physical union took place. Please direct these questions to Awareness so that I and perhaps others may have a clear view of what really took place. It is difficult to have faith and to go on when your basic belief seems to be knocked down."

COSMIC AWARENESS:

This Awareness indicates that the Essene secret schools spent much time with the entity, Mary, developing certain qualities; that these entities in this school also spent much time developing their own spiritual vibrations; that there were contacts by these entities with that which may be called "angels", which in present day terminology would be referred to as space travelers, or space voyagers.

This Awareness wishes to explain this statement briefly. This Awareness indicates that all is vibration. Energies throughout the universe are expressed in vibratory rates ranging from dense matter through infra-sound, sound, ultra-sound, heat, light, the various radio waves and frequencies, and into the higher gamma-type rays, and into gravity rays and eventually into cosmic and consciousness rays or vibrations.

This Awareness indicates that the human race contacts the vibrations which relate unto matter, unto sound, unto heat, unto the light frequency, and also into mind levels; that there are other rays which also affect the human entity.

This Awareness indicates that entities who are immortal reside in other vibratory rates which the organs of sight normally do not see; which the organs which hear normally do not hear.

This Awareness indicates these Immortals can move up and down the frequency scale, entering on and off at various levels of frequency, likened unto an entity moving up and down an elevator. This Awareness indicates that this accounts for the so-called 'flying saucers' which appear to manifest, then suddenly can disappear before the eyes of the observer; that these flying saucers may move from one spectrum to another, and the eyes are incapable of following.

This Awareness indicates that infra-red cameras may take pictures of these flying saucers and other space creatures which would otherwise be invisible to the naked eye.

This Awareness indicates that essentially, many of the so-called "angels" as well as "demons" have the capacity to move into the physical dimension.

This Awareness indicates that in the case of the Essenes, that these entities did work closely in levels whereby they experienced contact with entities from higher vibratory rates.

This Awareness indicates the word "Essene" is closely related to the word "seance",--Es-seance, and "essence" and the word "science".

This Awareness indicates that these entities, in working with the vibratory rates, did contact those higher vibratory entities and called them down, and a physical contact was made with Mary.

This Awareness indicates that the entity Mary, conceived from one of these entities, and gave birth to the entity Jesus.

This Awareness indicates that essentially, this was accomplished without the usual form of intercourse, for this occurred in a type of trans-personative merging, whereby the energy of this entity penetrated the entire being of Mary.

This Awareness indicates that the reading given by the entity Ralph Duby, in this earlier expression, was one which expressed error and reflected an earlier teaching by a certain Rabbi who theorized this as an explanation of the situation.*

This Awareness indicates that the entity, Ralph Duby, himself, being schooled in Jewish teachings, had accepted this and the level of trance which brought forth this information was such that his own consciousness interfered and did not interpret correctly.

This Awareness indicates this as a clear example of how entities must not take everything as absolute 100% truth, even when spoken by interpreters who are generally expressing truth from this Awareness. This Awareness suggests that what is given through these interpreters is given as indications for entities to search more carefully, and that in these indications you are not to believe anything, but rather you are to explore everything, question everything, and thereby begin to learn and discover without assuming knowledge of anything.

This Awareness suggests in order to continue in this action, that you may also doubt everything this Awareness has just given.

(FOLLOW-UP QUESTION):

One question relating to this subject from A.D. of Malibu, California. "Will Cosmic Awareness speak further on the birth of Jesus the Nazarene, given in the reading by Ralph Duby in 1963? What was the fate in that lifetime of Antonious? Did he leave his body after the union took place and return as the entity Jesus? Will these two, Mary and Antonious, now be reunited to continue the work begun so long ago"...or was that the information Awareness just indicated was in error in that reading?

COSMIC AWARENESS:

This Awareness indicates this information as in error. This Awareness suggests that this as a fabrication presented by a Rabbi, this appearing to have been introduced approximately 1000 years ago; that this then passed on to others for further repetitions.

This Awareness indicates that in regard to doubting and questioning, entities often desire the security of knowing. This Awareness indicates that entities are unable to know anything without extreme awareness and experience and involvement and without looking at something quite deeply; and even when entities are absolutely certain that they know something, new things can enter in to cause even the deepest certainties to come under question.

This Awareness indicates that because entities desire to *know*, desire the security that comes with *knowing*, and because knowing is such a difficult process, the majority of entities will settle for *believing* and will close their mind on a belief and assume that because they believe, they are right, and know what they are talking about.

This Awareness indicates the actions which occurred in Guyana are a perfect example of entities who believed so strongly that they thought they knew what they were doing. This Awareness wishes entities to continue questioning, keeping their minds open, learning and observing, *forever*.

This Awareness indicates cosmic awareness is a state of continuous and eternal insecurity and question. The openness that comes from not knowing anything but being open to observe, to experience, to gather information, to be in awe of *what is*.

* ED's Note:

I am reprinting the reading on the virgin birth given by Ralph Duby, which Awareness says was given in error, and let you determine which version you want to believe.

ON THE VIRGIN BIRTH

Ralph Duby, Interpreter

QUESTION:

Was the virgin conception of Jesus expressed in symbolic form to indicate a point of creativity or should it be interpreted literally to mean that conception was without a physical union?

COSMIC AWARENESS:

Indicated at this time that this Awareness does wish to give that historical evidence that may be used by entities on this plane to understand the meaning other than that which is symbolic.

This Awareness indicates in that time there was near the village of Nazareth a place now no longer existent, which was Ceasarea. Here encamped were Roman troops. Among these was one,--Antonious. This personality was one that had a line of illustrious descendants, many of whom had reached that stage which you refer to as sainthood. This young man was pure, was beautiful, was full of joy and ecstasy; had reached that kind of awareness that this particular Awareness has described as 'Cosmic'.

This Awareness indicates that Anna, who was the mother of Mary, was near this entity and close to him and wished to effect a liason between him and that entity which was Mary. At that time there was a physical union between these two entities and Mary was not conscious that the hymen was pierced; that this was that moment of conception wherein that entity without name at this time, that has been referred to as the Christ Consciousness, was conceived.

TWINKLE, TWINKLE, LITTLE SAINT

NON QUESTION:

We received a rather charming letter at CAC from Mary Jane Baker, a member from Fairhaven, Massachusetts. There is no question involved, but since it concerns Saint Twinkle, a creation of Awareness, I thought you might like to hear it. Should we print it, it would be more for energizing the concept of St. Twinkle.

"Dear CAC. This entity suggests that St. Twinkle has been around for many years. Not only have poems been written about St. Twinkle, such as 'Twinkle, twinkle little Star,' but he is also known as the Star of David. Farther back we see him marking the birth of Christ and still farther back we see him used by occult organizations as a defense against black magic. Further back we see him giving life energy to the material world, a being worshiped by the Egyptians, and still further back we see him forming the original constellations of the star Aquarius. This entity also suggests that St. Twinkle comes in various colors which may be seen by certain entities now that the veil is thin: blue for spiritual, white for purity, yellow for freedom, red for victory and so forth.

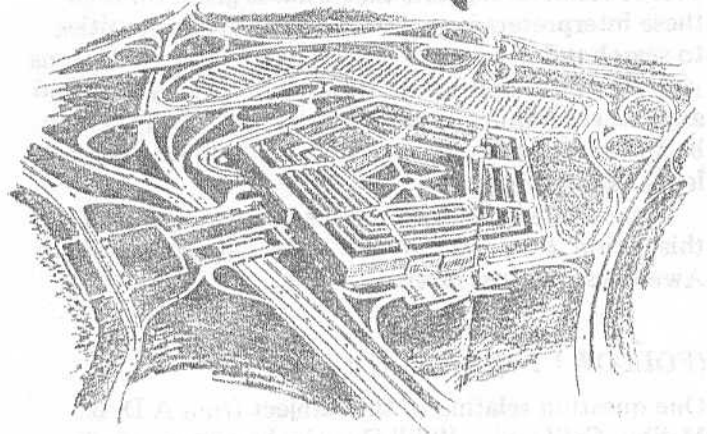

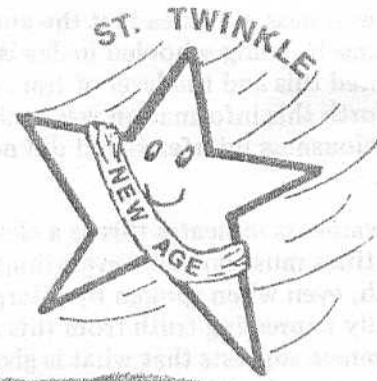

"This entity suggests that St. Twinkle brightens up rooms, even in the dark with your eyes shut, and this entity suggests that St. Twinkle be associated with the Divine Spark which set off the original burst of sparks in the divine voyage and as being the basis of creation.

This entity suggests that when using a white crayon or chalk to draw St. Twinkle around your as a protective insurance policy, which is free, that the right hand be used in starting from the left lower corner, making the form of a star from that point, just as Betsy Ross did. This entity suggests this will not only allow higher beings and vibrations of joy, enlightenment and happiness to come through this spiritual doorway, but this entity also suggests it is a powerful "zapper" against evil. Should you notice a streak of electricity after using this method, this entity suggests that with St. Twinkle, everyday is the Fourth of July and suggests also that 'Star Light and Star Bright' and so forth, be the prayer to St. Twinkle.

"This entity suggests and indicates that in the year 2000, St. Twinkle will have a white circle around him and mark the dawning of the Age of Aquarius's birthday, which we will celebrate to the tune of, "Let the sunshine in," by the Fifth Dimension, which by then we should be aware of... "Mystic, crystal revolutions and the minds' true liberation, then peace shall guide the planet and love will steer the stars?"

"The eye of Egypt is upon you, and all the live long day, good entities everywhere must smile when they see the sun and the stars and remember they are on Candid Camera, and St. Twinkle is watching them.

"This entity suggests that no star ever shone as brightly as the smile on the Aquarians' face in the Aquarian age, or that when the time comes our lights shall shine at the same time. Twelve stars in a circle, one for each sign, all passing through one another, unable to hurt each other because we are no longer shackled by the density of matter.

"We fill the void with lightrays and all twelve signs and thereby fill the vacuum of an emptiness and recreate the heavens, which were once doomed for destruction, with stars like Saint Twinkle. Saint Twinkle travels faster than the speed of light, he's more powerful than a nuclear war and he's able to make people happy in a single twinkle. You asked for it, you got it, Saint Twinkle. Let no human dare put a price tag on Saint Twinkle. Mankind shall be creatively satisfied because it was created in the cosmic plan that it be impossible to harm another because of the simple fact that Light beings cannot hurt Light Beings.

"Onward Twinkle soldiers, marching to the four,
Light for Light and freedom,
Truth forever more.

"The Age of Aquarius is a fantasy island of Light Beings, diamonds and winkles and twinkle; you sure do shine, such a little thing golden time. I could never find another Saint like you, glad I found you, glad you're mine."

COSMIC AWARENESS:

This Awareness suggests that the pentagram as also representing prosperity on the physical plane. This Awareness suggests also that entities may wish to energize the transmutation of the Pentagon into a temple for Saint Twinkle, a college of peace and prosperity in future generations.

This Awareness suggests that the Christian Age being seen as that wherein the Christ was suspended from the cross,--this having four arms. This Awareness suggests you visualize the Aquarian Age as that wherein the Christ has been resurrected, released from the cross, and stands in the symbol of a five-pointed star, legs spread apart, arms outstretched, a smile and crown on his head, with Saint Twinkle being superimposed. This Awareness indicates Saint Twinkle being simply that concept of joy, prosperity, harmony, radiance and freedom.

ED's Note: For more info on St. Twinkle, please refer to 'Revelations of Awareness' No. 80-8 (The Birth of St. Twinkle, A New Patron Saint for the New Age). \$3.00 from CAC. Also, 80-30 (St. Twinkle in the Aquarian Age); \$3.00; also, 82-17 (St. Twinkle is energized); \$3.00 from CAC.

Awareness created this archetype, which is as good or better than any saints of the Catholic church or 'Ascended masters'. The catch is, the CAC membership needs to energize this concept, pray to this new saint for enlightenment, joy and happiness. Awareness says it helps to draw a cartoon character, (a smiley face) and notice the feeling you receive when you look at the drawing. St. Twinkle has been energized for 5 years now, and we hear from some members who trip around the etheric planes, that St. Twinkle is indeed alive and well and passing out blessing of joy and prosperity all over the place. (CAC still has a few St. Twinkle buttons left. If you haven't got one yet, send a dollar to help cover the cost, and we'll send you one. It's printed on a big bright yellow metal button with a safety pin type holder. Wear it, energize it. You'll feel much better!).

DID KRISHNA AND JESUS SUCCEED IN THEIR MISSIONS?

QUESTION:

A question from A.M. in Florida. "Since Krishna had come into the earth plane before Jesus to carry out the same action as Jesus did, why is it he did not succeed in bringing about a change in consciousness as to love for all mankind as Jesus did....?"

COSMIC AWARENESS:

This Awareness would interrupt. This Awareness indicates that it is an assumption to say that Jesus has brought about a change in consciousness wherein all mankind loves all mankind. This Awareness indicates this as wishful thinking; that this has not, to the comprehension of this Awareness, been accomplished thus far.

QUESTION CONTINUED:

The point of the question was that if Krishna had been successful, it would not have been necessary for Jesus to repeat the feat.

COSMIC AWARENESS:

This Awareness indicates that had Krishna been successful this world would have a complete population of messiahs. That essentially, the action of these various messiahs has been programmed down through the ages, from the time of the Els or Elders to present time,-- this being close to a million years in earth time; that these messiahs appear, one following the other, with a similar purpose and message, according to the level of development, intelligence and acceptability of the masses.

This Awareness indicates that there are messages which have come down even in symbolic tablets today dating back from fifty thousand years and before from that continent known as Lemuria, whereby the basic message as told by Jesus, Osiris, Indra, Buddha, Zarathustra, Krishna and dozens of others was presented and can still be found in symbolic writings and in the philosophies from that era. Entities who wish to explore this further, may study the works of James Churchward, for a start, and the books of Mu or Lemuria.* Also the works

of Max Freedom Long in relation to the Huna philosophy, this particularly *The Huna Code in Religion*.

This Awareness indicates that the basic presentation given by Jesus as that which can be found in the Polynesian legends and language, included in the actual coded words which they use and in all parts of the world. This Also associated with the mound builders, the pyramid builders and the Masons,--this in reference to the ancient Mason teachings and the Rosicrucian roots and the sources of their material.

This Awareness reminds entities that Jesus as a carpenter, was a builder, and the builder of the pyramids and the mound builders and the Mason symbols are all closely linked in ancient language and words and terminologies. This Awareness suggests this information is covered more completely in the Scorpio lessons, the Sea of Scorpio Correspondence lessons.

This Awareness indicates that essentially, the various messiahs and teachers were taught from the same secret sources or the fragments of the one, earlier religious teaching which has come down from the Els or Elders.
