COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious 'trance' levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

THINGS TO KEEP IN MIND WHEN AWARENESS DISCUSSES YOUR PRECIOUS SUBJECT

COSMIC AWARENESS:

This Awareness indicates that during the past several years, this Awareness has addressed entities in regard to many topics, including those associated with religious beliefs and concepts. That in many instances, messages from this Awareness have pointed out that much of the material organization and dissemination of religious concepts and expressions have been of a commercial nature, whereby these concepts have had influential effects upon the consciousness of individuals in a manner that programmed the individuals according to those who were involved in the promotion of the particular religious concept or system.

This Awareness indicates that this information released in many instances, has created much controversy whereby entities may presume that this Awareness is excessively critical of various religious expressions and promotions. This Awareness wishes at this time to bring things into a balance in regard to this by indicating that *It* does not wish to imply that the various religious expressions, whether Catholic, Protestant, Buddhist, or of any other religious expression, is of an inferior nature in that it is in some ways commercialized, or that it is in error, in that it may have some areas which are erroneous or are in need of deeper scrutiny.

This Awareness indicates however, that *It* does wish to point out on occasion, areas regarding the promotion of concepts known as religious or philosophical, and also to point out those areas which need deeper understanding, examination and clarification. This Awareness indicates that while it should be obvious that the Christian religious promoters, regardless of who they are,—whether Protestant, Catholic, whether fundamentalist or of some radical group,—these entities may in fact all do much good, and this religion as being that which does and *has* done much good upon the earth and its civilization and societies: This should be obvious, so that wherein this Awareness speaks of errors, that it does not appear that this Awareness is unaware of the obvious benefits which have been created by these religions.

This Awareness indicates however, it does appear that in many cases, entities who are super-sensitive to, and somewhat protective of their own religious preferences, do not quite understand that this Awareness, in pointing out the areas which need to be looked at more deeply, is doing so not to destroy or belittle these religions or promoters of the religion, but to assist in polishing the teachings and helping to clarify, so that these are put into more universal perspective and taken away from the dogma and radical expressions which create alienation between one religion concept and another.

This Awareness wishes at this time to balance any misconception by stating that *It* does indeed recognize the great benefits which have come from the promotion and teachings of the religious leaders, of the religious organizations, of the individuals promoting and giving forth religious concepts in the Christian religion; that *It* does recognize the efforts and good works of entities such as Billy Graham, Oral Roberts, and others who have promoted and assisted in the dissemination of the religious concepts which are beneficial to humanity. *It* does recognize the great work which has been given forth to humanity by the Catholic Church in its enduring efforts over the centuries to promote concepts and activities associated with the Prince of Peace.

This Awareness indicates *It* also recognizes the good works which have come forth from the Oriental philosophies and religions. *It* also recognizes the good works and principles which have come forth from individuals, or from small localized tribes, or from small localized groups who have promoted concepts of love and humanity, and benefits toward one another. This Awareness indicates that these are apparent to this Awareness, and this Awareness recognizes all of these good works of individuals and of groups.

This Awareness indicates that *It* also recognizes the suffering and tragedy which has occurred in connection with many of these religions and concepts and beliefs, and also wishes to help make entities aware of those areas wherein these religions and philosophies, concepts and beliefs have some effect

upon humanity, upon individuals or groups, in such a manner as to cause difficulties and problems which are not necessary and are not appropriate in relation to the general teaching or philosophy being promoted.

This Awareness indicates therefore, *It* reserves the intention of from time to time giving remarks or information relating to errors in religion and philosophy, even though *It* also acknowledges the great works of these religions and philosophies. This Awareness indicates that *It* does not consider that religious or philosophical concepts should be immune from being observed and looked at for errors; that political, economic, personal, social, environmental, historical, and all endeavors of humanity are subject to being examined for their benefits and their detriments, and whereby lessons may be learned from seeing the dark areas and the light areas in relation to each other, so that enlightenment can flow on all levels, can grow on all levels, and darkness can diminish; this is that approach which this Awareness wishes to use in assisting entities to see how they may contribute to the ever-growing consciousness and awakening which is occurring upon this plane.

This Awareness indicates the fact that entities may have certain favorite areas of consciousness which they would protect vigorously from criticism is of little concern to this Awareness, except in that it indicates potential blind spots in consciousness which need to be looked at, so that entities can question their own prejudisms and ask themselves if they might, in some way, look more closely at this precious area and find something of value which needs greater examination and less prejudism.

This Awareness indicates that wherein an entity presumes to know that this particular area is sacred and does not need to be questioned or explored, and that all others who may criticize this particular area must in fact be of some alien or demonic state of consciousness; this indicates a closed and prejudiced mind. This Awareness indicates that wherein any topic can be looked at, discussed and explored, even though it may appear to be of a sacred and unquestionable topic, this openness indicates a mind which is willing to risk its own beliefs in order to discover greater truth, if such truth can be found.

Errors by the Interpreters

This Awareness indicates that there have been messages given through this Interpreter, through many other Interpreters, through prophets, through great teachers, which have been of value, which have conveyed truth, but there also have been messages through this Interpreter, through other Interpreters, and through great prophets and teachers which have fallen short of perfection, whereby messages have come through somewhat distorted or without absolute clarity, or in many cases, in total error.

This Awareness indicates therefore, it is important that all things be questioned, and no things be considered as absolute and immune to examination as to their truth. This Awareness indicates that truth itself must be seen as relative, and that all truth, being relative, must be seen in comparison to that frame of reference in which it is spoken. This Awareness indicates that it is therefore, not so much the intention of this Awareness to answer all of the questions which entities ask, so that they no longer need to have questions, and can have their little closed minds full of answers for their own particular frame of reference, rather it is the intention of this Awareness to create more questions, to cause entities to look from other frames of reference, to lead entities to expand their minds so that they wonder at the truth, and in wondering at the truth, become receptive and open to discovering something greater than what they presently acknowledge.

This Awareness indicates if *It* simply answers entities' questions so that they can sit back and expound answers to their associates and friends, so that they can presume to have answers to all of their questions, then this Awareness has failed in *Its* efforts to communicate to entities at this time. This Awareness indicates however; if this Awareness can give answers which allow entities to question even more deeply, to wonder at the extent of the answer, to use that answer to find more questions, to open their minds, to question that which is even further out in consciousness, to look at their own lives and ask themselves more meaningful questions about their own lives, about the lives of those about them, about their philosophies and ideas; if this Awareness can open the mind so that instead of it having one hundred questions, it has one thousand questions or more, then this Awareness has fulfilled *Its* purpose in communicating to entities upon this plane, for it is the question, the openness which allows the consciousness of entities to expand. Without that openness, the consciousness of entities simply closes.

This Awareness indicates that the fruit of the Tree of Wisdom, which gives forth life, is that fruit of the open mind. This Awareness indicates that the fruit of the Tree of Knowledge is that fruit of the closed mind which knows, but which leads nowhere, to no further exploration, and when this knowledge becomes stagnant and known, without further question, this leads to death of the consciousness. This Awareness indicates it is important that entities may know, in order that they may know what to ask and how to question even further. This Awareness indicates *It* does not necessarily mean that the questioning mind must ask this

Awareness everything through this Interpreter. The questioning mind must be open to learning from all experiences of life.

The quest for discovery of truth is that which must be apparent in every experience. This Awareness indicates that knowledge must follow this quest and must never lead the quest. This Awareness indicates that wherein entities sit back and rest upon their knowledge, they are indeed in the decline of their consciousness and its endeavors, but whereby entities use their knowledge to build new quests, new questions, new explorations, then indeed their consciousness continues to expand and grow.

This Awareness indicates you cannot continue questioning while at the same time presuming to know everything there is to know about a subject.

THE RESULTS OF INSTRUCTING THOSE WHO PASS OVER

QUESTION:

Does Awareness have any comment to make about the passing over of H.C. last Saturday, and did the advice we gave him during the passing over do any good?

COSMIC AWARENESS:

This Awareness indicates that this particular advice, those close instructions followed in reference to the passing over were well done; that this has affected this entity; that he does now move closer to the plane of Essence; that had this not been accomplished that that time spent in Limbo would have been for centuries; that this small act, and this deed is blessed by this Awareness. This Awareness indicates that all those who do perform for those passing over, those services wherein they may assist those passing over to allay their fears, to move closer and closer to that great Truth and that rejoicing, do indeed create for themselves that respite which comes to entities which truly do serve.

ED's Note: For information on how to instruct entities in the passing over, please refer to the booklet, "Instructions for the Passing Over--A Guide Manual for the Living and the Dead" (\$2.00 from CAC).

The Law of Tolerance

The Law of Tolerance is that Law which recognizes the divinity in others even when covered by the masks and armour of demonic imagery and activities, or hidden behind the walls of apparent ignorance, sleep, and stupidity; or residing in the bowels of lust, greed, and power.

The Law of Tolerance is that Law which allows one to speak through these walls and barriers to the Divine God-Cell which lies buried behind these outer layers, and awaits liberation from the deep confines and imprisonment at the center of self.

This Awareness suggests you are all gods, and must in time learn to speak to each other as though you were addressing gods.
