DINOSAURS

Have we seen the last of them?

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious 'trance' levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter. Paul Shockley, Interpreter

ALL ABOUT PREHISTORIC MONSTERS

("ENTITIES HAVE NOT SEEN THE LAST OF THESE CREATURES")

QUESTION:

A question from W.E., of St. Paul, Minnesota, that he got from a book provided by JW of Jupiter, called *Why We Are Here*, and channeled by Gloria Lee some time back. And he says: "JW states that the real great wall of China was built to keep out large and ferocious animals that plagued man around the eras of Lemuria and Atlantis. Other barriers were also constructed around the globe, as in Peru, for example. I would like to ask Awareness about that particular epoch in this planet's history. Was there a time when the animals became so dangerous and numerous that they threatened mankind, forcing various civilizations to take drastic means to eradicate them?"

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative; that the period as that which has been mentioned in the Cayce readings wherein there were those meetings among the many heads of countries and cultures as to what can be done about these animals. This Awareness indicates that while much was done through these efforts of these entities in use of various rays and crystals to destroy these animals, much of the destruction of the animals came about through natural changes which occurred on the planet.

This Awareness indicates this at the time described as the sinking of Atlantis, this approximately 10,000 BC; that this due in part to effects on the weather and also the food supply. This Awareness indicates that these creatures as having been considered totally extinct, but in reality are not all totally extinct; there are still some around. This Awareness indicates that these generally being creatures that are in lakes, in water, or in deep caverns; that there are also eggs which may yet be hatched; that there is also an experiment in the making to bring back through a kind of cloning process, the mammoth.

This Awareness indicates that entities have not seen the last of these creatures, but that they shall never again be the threat which they were previously.

(FOLLOW-UP QUESTION):

He would also like to know, he was wondering how the animals became so big and powerful at that particular time, and why would these animals of such enormity and aggression evolve?

COSMIC AWARENESS:

This Awareness indicates that this as that which evolve over long periods of time due to heavy radiation upon this plane; the radiation as that which affected the reptilian species more than any other, this due to the warmth and heat, and the radiation led to the increase and size, the development of armor or of tusks or of teeth or of tail; that these being weapons which were developed by these creatures in order that they might survive, and the genetic reproduction of the creatures bringing over long periods of time a greater specialization of the very features that allow them to have their survival, eventually reached a point wherein the armor, or the tusks or the size of the tail, or the small brain and all of the parts of the body which served to protect the entity became overspecialized to the point of being a hindrance to survival, (whereas the smaller creatures which were more vulnerable could more easily move about and find food); these creatures having all of that armor and size were so powerful and so specialized that they could not adapt themselves to the changes that were necessary when the geophysical changes occurred.

This Awareness indicates that man was one of the creatures that was most able to adapt to changes, thus the entity who not only survived but who thrived from the changes in the geophysical climate.

WHY DID SO MANY FICTION WRITERS SUDDENLY ALL WRITE ABOUT DINOSAURS?

(FOLLOW-UP QUESTION):

Awareness, around the turn of the century and on up through the 20s and 30s, it was almost a fad that numerous authors would write stories about plateaus, hidden plateaus in jungles that contained prehistoric monsters and lost civilizations, and the numerous books written, particularly, about those adventurers who would search out the North and South Poles, finding entrances into the hollow earth and great civilizations containing these huge animals.

There are books by Sir Arthur Conan Doyle, H.G. Wells, Edgar Rice Burroughs, even my mother's brother, my uncle, Edison Marshall wrote a book or two about that. I'd like to ask Awareness: Were

hey tapping in to some kind of consciousness that was valid, or was this just good adventure stories that just simultaneously happened during that particular time?

COSMIC AWARENESS:

This Awareness indicates that many of these stories came about after the works of Darwin focused on the evolution of man, whereby many anthropologists and archeologists began exploring man's origin; that many archeologists began digging and making discoveries and these many discoveries were of great significance in the news at the time. This Awareness indicates that many of these discoveries related to the uncovering of dinosaurs, the bones of dinosaurs, and to the reassembling of information related to these beings and of their existence in the many thousands of millions of years previously.

This Awareness indicates that this was all a great emphasis on the history of the planet earth which altered the traditional teaching of the Bible, which at that time taught that the earth was approximately 6000 years old; that this being a kind of new field or cutting edge of science, whereby entities could speculate and could wonder about the types of beings or creatures which once roamed the earth.

This Awareness indicates that this did indeed trigger many fertile imaginations to write these stories of these creatures. This Awareness indicates however, that this may have been the *cause* of these stories, the actuality is that the stories were not too far from truth. That there are indeed still some creatures living that are left over from that era; that many of the small lizards which entities see are but remnants of that period.

This Awareness indicates that there are also those sea creatures such as in the Lake Champlain and Loch Ness Monster, and others which have been seen in the ocean. There are also land creatures in Africa and Australia and in other places which are remnants of this period. This Awareness indicates that in terms of the hollow earth; there are still creatures in certain areas within the catacombs of the earth.

WHAT ABOUT THOSE PETRIFIED DINOSAURS IN THE ST. LAWRENCE?

FOLLOW-UP QUESTION:

Speaking of Dinosaurs, I was wondering if Awareness had any more information *It* would care to give on the information some years back about the discovery of some petrified dinosaurs found on an island in the St. Lawrence River?

COSMIC AWARENESS:

This Awareness indicates that these dinosaurs or prehistoric creatures, (not all being dinosaurs), that these creatures as having been petrified whole, wherein they are not simply the bones of the creatures, but the entire beings, the entire bodies; this includes not simply an eye-socket in the head, but the eyeball itself; that these have been petrified by certain devices put in the area underground by those ancients who created this area as a lure to draw these beings into the area as a lure and a trap to destroy these creatures which were so threatening to humanity.

This Awareness indicates that when science, when the archeologists are ready to look at this and when they are ready to recognize these petrified beings for what they are, it will lead to a great new understanding of the creatures and of the civilizations of humans who lived at the time. That for those who cannot understand why science does not recognize these creatures if they have looked at them, this Awareness indicates that these creatures are likened unto hills with bushes growing out of them, buried part way up their bodies, sometimes just a head sticking out of the soil with grass growing from it, other times a larger part of the body with bushes growing from it.

This Awareness indicates it takes some open-mindedness to recognize that these are actual petrified beings; that not many scientists would even bother to look at a hillside and ask themselves if this was a petrified dinosaur, for it would seem too impossible, too unlikely, and one would not wish to risk his reputation to go and check out such a story. This Awareness indicates therefore, the dinosaurs sit and wait for man's discovery.

(FOLLOW-UP QUESTION):

I talked to an entity who actually tramped over that area, and he told me that in one spot one of these cracks had occurred clear through the creature, and what looked like different colors of rock, but shaped like intestines and organs and so forth was actually visible down there. Would Awareness confirm that this was actually what was seen, or was it something else?

COSMIC AWARENESS:

This Awareness indicates that this *was* what was seen. This Awareness indicates also that there are visible eyeballs in these creatures which are approximately 25 inches across; that these eyeballs also being petrified. This Awareness indicates that entities can look at this and simply say that this is a rock, or entities can look at this with greater discernment and see the shapes and see the organs and the proper proportions and placement of these features and recognize these creatures for what they are.

This Awareness indicates that there are approximately 20 to 30 of these creatures in this area.

(FOLLOW-UP QUESTION):

Someday, if the soil was dug down around all those creatures and the brush and stuff cleared away, probably even from a helicoptor or an airplane, entities would be able to see the shapes and sizes and more likely realize that that was an entire herd of dinosaurs that was petrified. Would that be more or less correct if that happened?

COSMIC AWARENESS:

This Awareness indicates this in the affirmative. This Awareness indicates however, that in digging away, entities would need to be most cautious not to cause the crumbling of the creature. That it would need to be carefully dug and carefully engineered in such a way as to preserve the creature from collapsing due to supports being taken away; that some of the creatures could be better defined than other through the process of digging.

THOSE PETRIFIED DINOSAURS IN THE ST. LAWRENCE

"THE MOST SIGNIFICANT DISCOVERY OF THIS CENTURY"

Cosmic Awareness

ED's Note: In August of 1977, this editor received a telephone call from a very excited CAC member back East. He had just returned from Canada, having visited a longtime friend there, who lived on a big spread on an island in the St. Lawrence river. He told an incredible story of dinosaurs, some 20 odd varieties, sitting, laying and standing on a piece of his friend's land, which was approximately 2 or 3 acres of the total land he owned, these dinosaurs being petrified, now solid rock. Although brush and trees were growing out of them, upon close inspection one could see that these were indeed huge prehistoric animals, with eyes, feet, tails, genitalia etc. fully intact. These creatures were all assembled together as if somehow called to that particular spot. Some were obviously mothers, with small baby dinosaurs laying or sitting beside them. Others were huge, standing creatures as big as the average house. There were many varieties such as the great thunder lizard, the Brontosaurus, the Stegosaurus, the Dinoceras, Tyranosaurus Rex and numerous other varieties. (Awareness later said there were approximately 25 different kinds). This member had tramped over these acres, inspected these huge creatures and was totally convinced. He told me he had climbed upon one of them which contained a huge crack and could see viscera,--heart, intestines etc. all in color. He also inspected eyes, noses, feet etc. He told me his friend was so secretive and protective of his amazing find that he sat out there for many nights with a shotgun on his lap, afraid somehow someone might find out his secret and try to get it from him.

After weeks of trying to get the attention of the scientific community, the owner of the land contacted a television station, which reluctantly came out and filmed the dinosaurs as the owner excitedly pointed out the eyes and ears etc. on the creatures. Evidently there was some hassle at the TV station, because the show was not broadcast for a long time. Finally, it was released on April first, and the viewers were told it was all just an April Fool's joke. I told this member I would check the story out with Awareness at our next session. I did, and Awareness confirmed the find. It stated that the Universal Service foundation, a branch of the Aquarian church was to introduce the amazing discovery to the world, but first obtaining a government grant and making arrangement with the owner to insure the land would remain intact for scientists to study, and eventually a protected park would be made and the public could then inspect the monsters. None of this, of course, every occurred, as has most projects thus assigned. It was disclosed later that this would have been very difficult to pull off anyway as the owner of the land was very greedy and was holding out for several million dollars. At the session I asked questions about all of this and Awareness gave a long and involved reading, mainly on how to go about getting the land paid for and set aside as a park before the bull dozers got to it, or the land developers etc. Excerpts from the reading are as follows:

COSMIC AWARENESS:

This Awareness indicates this as being one of the most significant discoveries, if not *the* most significant, of this century.

This Awareness indicates that this shall lead to even greater discoveries than is apparent at this time. This Awareness indicates that there appears to be something more than dinosaurs in that area; that there appears to be something *beneath* these animals, that the pictures are not clear at this time; that further

energies will clarify at later dates. That there is something in the area which drew these entities to this area, that this appears to have a connection in some way to the Atlantean scientific community, whereby these creatures were lured to this area. There appears to be the use of some type of laser-like weapon which affected these entities, yet this as not being clear at this time,–the energies being somewhat confused.*

This Awareness indicates this being the greatest discovery since Columbus discovered America. This in the sense of discovering that which has been hidden which once was known. This Awareness indicates that there are, of course, other discoveries, such as those of electricity, mechanics, atomic structures; but in reference to discovering things which relate to the past, this is an archeological discovery that surpasses anything in the past four or five hundred years. This Awareness indicates the discovery by Dr. Leakey of human remains which date back three million years and beyond as being of great significance, particularly in the consciousness of the masses upon this plane.

* ED's Note: in later readings, Awareness revealed that what lay beneath these monsters appeared to be human beings and very sophisticated laser-type equipment, probably equipment from Atlantis or from entities from outer space. It hinted that one reason these dinosaurs were not allowed to be accepted at this time, was because the CIA and others involved in violating entities would probably use these inventions for even more war and destruction.

ED's Note: For more information on prehistoric monsters, please refer to 'Revelations of Awareness' No. 78-15 (Prehistoric Creature Discovered);$2.00; 81-15 (The Dinosaur Hunt in Africa);$3.00; 85-13 (What Killed Off the Dinosaurs?);$3.00 from CAC.

WHAT KILLED ADELLE DAVIS ?

QUESTION:

A question from R.M. of Honolulu, Hawaii: "Adelle Davis, nutritionist, who did so much to inform the public about good nutrition, died a few years ago from bone cancer. What were the circumstances surrounding her illness? Was there foul play involved because of her opposition to established medicine"?

COSMIC AWARENESS:

This Awareness indicates it appears that this was brought about from some form of contamination which occurred several years previously; that this does appear to have some mystery and intrigue in connection with her campaign to promote more healthful eating habits. This Awareness indicates that it does not appear however, to have come from any source of authority; that it appears to have resulted from some lesser level, not from a conspiracy of higher authorities. This Awareness indicates that it also appears that this was not connected to her eating habits or personal diet, but was brought on from some other aspect of her experience.

ED's Note: Adelle Davis wrote many books on health through nutrition. These are available in most health-food stores and much of the information they contain parallels similar information given by Awareness on this subject.

" WHEN SPIRIT DID WITHDRAW INTO ITSELF"

--WHAT DOES THIS MEAN?

QUESTION:

A question from J.L., of Skokie, Ill. "I have a question for Awareness. In *Revelations of Awareness* No. I (the Philosophy), I quote: 'When the spirit did withdraw into itself, there was that manifestation of energy wherein creation takes place.' My question is: I always associated the withdrawing into itself as the dissolving of form. Please explain how creation was born of spirit withdrawing into itself."

COSMIC AWARENESS:

This Awareness indicates that the tendency of mind is to assume that things began with something existing, or nothing existing, and out of the something came space which reflected and accented the something, or out of the nothing came something which became emphasized by its essential presence in a sea of nothing. This Awareness indicates that is the way in which the mind tends to categorize or to think when it attempts to understand creation.

This Awareness indicates however, that to understand creation one must cease thinking in terms of nothing or something, and must simply think in terms of mind in existence, and mind creating images within itself, and these images being labeled as something or nothing. This Awareness indicates the ever-expanding universe expands forever because as mind seeks to perceive the outer limits of the universe, it also stretches and creates those outer limits, and the outer limits ever move further.

This Awareness indicates that as mind expands, the universe expands. As images are created, the realities are created. As images are defined, the realities are defined. As images are solidified, the realities become realities. This Awareness indicates that *realize* is to solidify an idea, and to *make real* is to create an image that is solidified as an idea becoming manifest and holding itself together for mind to enjoy.

This Awareness indicates there is nothing apart from mind or consciousness that has been created or that will be created. This Awareness indicates that withdrawing unto itself, simply means that mind, the creator, turned upon its own energies to create an image of itself and thus caused an alteration in the purity, or virgin consciousness, so that there appeared to be something in the sea of nothing.

This Awareness indicates that when mind focuses, it creates from the plasma of consciousness a particular energy field in which the image that is focused upon manifests, either on the etheric level, on the astral, mental or physical level, depending on the degree

This Awareness indicates that when mind enters into a manifestation into a focal point and from within that manifested form begins to expand and grow, rather than focusing outward or inward on a particular point, mind beginning to radiate from that point; this creates that which is the expansion of consciousness, moving back to spirit.

This Awareness indicates that in this manner entities create form, enter form, and leave form and dissolve form. This Awareness indicates that entities *are* mind, energies are mind, forms are mind, images are mind, all things are consciousness.. This Awareness indicates that the vibrations, the frequencies are consciousness This Awareness indicates that even as a drop in the ocean is water, so an individual in the sea of Cosmic Consciousness is also consciousness, is also Cosmic Consciousness. That the individual as water in the sea of consciousness, or the drop of water in the ocean of water are distinguished only by mind which defines one as being small, and the other as being large and totally inclusive.

This Awareness indicates that you as individuals are only limited in your potential to be Cosmic Consciousness by the limits you place upon yourself from the descriptions that your mind presents in its way of thinking about the experiences which you perceive. This Awareness indicates the entity who sees himself as a small insignificant, isolated portion of a huge impersonal universe; that entity experiencing the humility of being a part, a small insignificant part of this great universal creation; that entity is experiencing that humility because the entity sees the difference between the small self and the greater universal self.

This Awareness indicates that this is recognition of *what is* according to the interpretation of the entity's conditioning, or the entity's thought processes. This Awareness indicates that wherein the entity has been allowed to think differently and sees himself as also being the universe in its entirety manifested in this little tiny grain of sand, this insignificant little life, yet a reflection of the totality, a crystal containing all of the Light that the universe has shined towards this crystal; that entity may still feel humility even of that action of being part of such a grand design.

This Awareness indicates that wherein the entity sees the total and identifies with being the total, wherein the entity sees that the universe is God and all parts are God, the universe is alive, and everything within the universe is alive, and the fragments or atoms or Henries or Georges or Marys; all of these entities, whether human, whether atom, whether molecules, organs, substances...all of these things being alive, even organizations, structures, social groups and classes, each having their own essence and vibration, each being an entity of one magnitude or another,--all of these things are part of that total living being of the universe, and each one has as much right to claim significance as any other.

This Awareness indicates that it is not any one's prerogative to say that the individual is less important than the group, nor that the group is less important than the individual, for each one has its own claim and its own right to exist as it is without being compared, measured or judged by any other part.

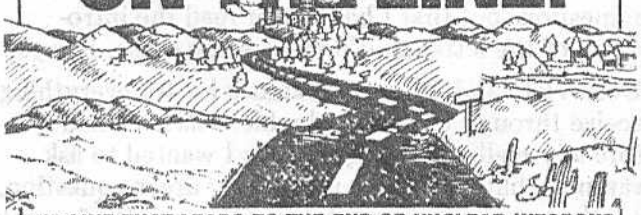
PUT YOURSELF ON THE LINE.



THE LINE THAT LEADS TO THE END OF NUCLEAR WEAPONS

"We covenant together to bear public witness. Our opposition to nuclear weapons and the imperative of peace will be taken into the public arena: to our workplaces, to our community and civic organizations, to the media, to our governmental bodies, to the streets, and to the nuclear weapons facilities themselves."

from the New Abolitionist Covenant
Sojourners--August, 1981

On March 1st, 1986 be one of five thousand people who will leave homes, jobs, and schools, to walk from Los Angeles to Washington, D.C. We will walk 15 miles a day, 255 days. 3,235 miles. Our one goal: global nuclear disarmament. Nothing less.

We need you to make it happen. We need you to create a citizens movement so massive that world leaders will have no choice but to abolish nuclear weapons —to create a world in which our resources are no longer wasted on the arms race but are used to promote social and economic justice.

If you're eighteen or over or accompanied by a parent, in good physical condition, and ready to devote nearly a year of your life to peace, then step forward. Help turn hope into history.

A "FREQUENCY SWITCH' AND ALCHEMY

QUESTION:

A question from S.S., Williamsburg, N.Y. "I'd like to know Awareness' opinion on the concept of a 'Frequency Switch'. Dick Supten suggests this is the answer to the riddle of why the world consciousness, including physics and so forth, can be so clearly divided on the future of the world. It seems that a holocaust is being energized and people are more or less driven to self-destruct, but we know others (mainly psychics) who can see only a new world, a new age, the kind of world that could hardly come out of the ashes of such destruction. "

COSMIC AWARENESS:

This Awareness indicates that this as related to alchemy. This Awareness suggests that in an alchemical action or in an action, for example, the making of wine, which is a type of alchemical action,--wherein putrefaction occurs, certain changes come about. This Awareness indicates that as certain things fall apart and decay, there comes a point of complete putrefaction. That after this occurs, then something else occurs and a reversal takes place, and the putrefied material then suddenly begins to produce something which is no longer decaying, but is in fact developing and growing.

This Awareness indicates that, essentially, the energies of the earth have been moving toward putrefaction, and that during the next thirty years, this putrefaction will have reached its apex and will begin decaying greater and greater quantity of energies which have been in their state of dissolution. And as this is occurring on the one level, there will also be that which begins to develop anew, springing forth and bringing forth the new age and new world. This Awareness suggests that entities who have been attuned to the messages which this Awareness has given, have looked at the putrefaction process, have seen the negative, and that there shall be other descriptions of the putrefaction. This Awareness indicates however, that the entities in watching this putrefaction, are advised not to identify with the dissolutionment, but rather to begin watching for the new which shall come out of the old dissolution energies.

This Awareness indicates that, essentially, the earth is on the brink of a long period whereby pollution, industry, economy, leadership of societies, morality, and social upheaval, and geographical upheaval, and weather shall begin to express much dissolutionment over the earth, creating more and more problems which cannot be dealt with by use of the old methods. That wherein more food needs to be produced for the ever-increasing population, demanding that more factories be built and more pollution emitted, then entities will suffer from that pollution. And whereby the population is set back, then this

means destruction, war, or starvation; or whereby entities cut back on the productivity in order to decrease pollution, then entities will suffer economically.

This Awareness indicates it has reached a point upon this earth whereby only a series of small shocks, or a series of breakdowns in all levels, can bring about the balancing and avoid the great crash or crisis which would totally destroy much of the earth and its population. This Awareness indicates that the best entities can hope for is a series of small crisis developments over a period of thirty years, to set entities back from the brink of disaster and to bring about new ways, new ideas, new methods of food production, energy production and governing systems.

This Awareness will have more to say on this at a later times. This Awareness suggests, however, that entities may wish to be aware of the crisis period which is coming and to be also aware that from this crisis, there comes forth a new beginning which will be a solution to the disillusionment which has been experienced from the old ways.

THE BOLSHEVIK GENERAL IN THE WHITE HOUSE IS NAMED

QUESTION:

One of our members, who formerly lived in Russia, wrote and asked if I'd ask the following question:

"Lately I've been having many discourses with my father, many more than before, mostly about politics, namely old Russians, Communist Russia, Bolsheviks and so on. Well, about a month or so ago, I started talking about this general who defected to the United States from Russia, and who wrote a book about his so-called "suffering" and who was even invited to the White House by Reagan, and had his picture taken with him which appeared in Russian immigrant newspapers, all of which are controlled and published by Jews.

"My father was very upset about this general, because as he says: 'The general never suffered compared to the Russian people. He is pointing fingers at other leaders of the Soviet Union while washing his hands of the whole dirty mess.'

"I started putting 2 and 2 together and I think I have put the puzzle together, which has bothered me for some time, so I asked my father who the general was. His reply was: P.G. Grigorienko. This general is active in Russian organizations now. Avaton, you may have already guessed who the general is, but in case you haven't, here it is, and I hope I'm right.

"A few years ago in the Awareness readings, Awareness mentioned that the Skoptsis have suffered a great setback because one very important general defected to the United States and spilled all the secrets to the U.S. Bolsheviks. Later, someone asked Awareness who the general was, and for some reason or other, there was no answer, and so since then I've been trying to find who the general was, and I think my father helped me to solve the puzzle.

"But I'm still not sure, so Avaton, I have a favor to ask of you. Could you please ask Awareness if this is the same general who is working for the Bolsheviks in the White House now?"

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative. This Awareness suggests that when this question is printed that you not include the entity's initials; the questioner's initials or name.

THE GURU'S DARK SECRET

QUESTION:

We have a question from J.B., of Motala, Sweden, and we usually don't ask questions of this type, but he's very insistent that this entity appears to have some pretty sinister elements...and so I'll read the question, but first I had better read the introduction of the letter so it'll make some sense. It says:

"Dear Vicki and Avaton. Thanks a lot for everything I receive through you. It's valuable. I haven't had before any really serious questions I wanted to ask Awareness, but now there is one very urgent question, not only important to me, but for thousands of people around the globe. I hope you do what you can for taking this question up. Due to its nature, it could rarely be answered correctly by anybody else except Awareness.

"The question is referring to an entity with tremendous mental power and spiritual power, that could not possibly be answered by anybody except one who is more powerful. I am aware that the nature of such type of questions like this one is very sensitive, and for you, not very easy to publish, so I agree if you do not want to publish the whole question and answer, please ask my question as whole for Awareness. For safety, I enclose a photograph of the entity the question refers to, with the full name and location, since I think otherwise the entity could be confused with other entities with similar names."

(I'm holding in my hand the picture of this entity, and I'll spell out the name: Sri Sabbha Sai Baba, living in Prasanthi, Nilayam, Penukonda, Taluka, Anantapur District, Andra Pradesh, India).

"This entity is perhaps the greatest living self-proclaimed godman/avatar in India, or the world at large. Can he claim to be God, or is he the most powerful miracle worker on earth? I'm not sure.

"I, together with millions, have witnessed his materializations out of his bare hands, and no one has been able to say that he is only making tricks. He seems to be omniscient, omnipresent, and omnipotent. Is it true? I'm not sure. I know he can read other people's thoughts and know past and future. His message seems to be that of love, peace, truth, right conduct, nonviolence, and integrating all religions. He says he will succeed definitely.

"There have been written hundreds of books about this entity, who was born in 1926. Last week I received a book which confused me a lot. It's called *Avatar of Night, The Hidden Side of Sai Baba*, by Tal Brooke, an American who first met Sai Baba in 1970. This book states that Sai Baba has made homosexual actions with some of his devotees, and in fact is the Anti-christ power on earth, and that he has the mark of the Beast: 666 on his form.

"If it's true what this book is stating, it's terrible! It's supposedly the most sophisticated bluff in the spiritual area one can find. Please Awareness, comment on this, and if it is true, these negative statements about Sai Baba, if they are true, how to protect oneself from this entity? Most of the followers of Sai Baba in the West are older followers from another guru/master."

COSMIC AWARENESS:

This Awareness indicates it does not appear that the entity who wrote the book regarding this man, as having been objective in his evaluation. This Awareness indicates that there does of course, in all entities, reside the dark side of the soul; every entity, regardless of their spiritual development has that portion within himself which is less than wholesome and perfect, and which the entity will always need to struggle with.

This Awareness indicates that this entity does have certain weaknesses or failings of the spiritual level, yet these are not seen as being anything of a great defect; that any entity having abilities such as this, having influence such as this, having the potential for greater influence and power such as this entity has, will always be subject to temptation, to misuse of such power. How the entity used this will determine much in regard to his future development and growth, and his role in society.

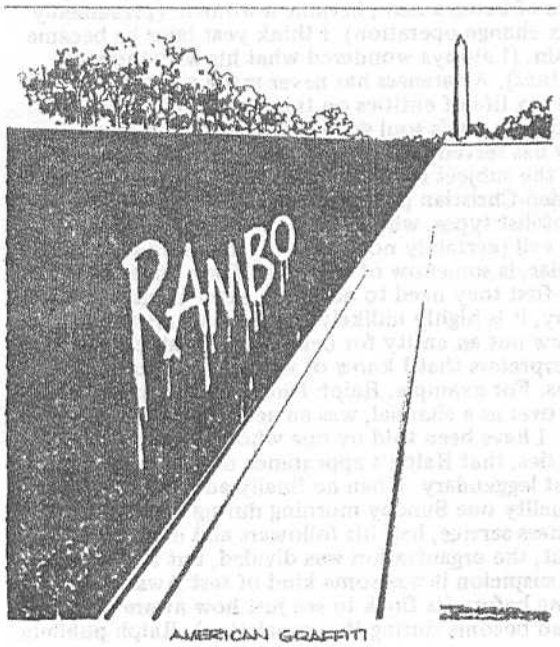
That at present, the entity having trained very seriously over long periods of time in those areas of metaphysics, meditation and the use of mind, attunement to vibrations; the power of concentration and imagination being heavily stressed in this man's training allows him to manifest and create, which may be seen as a kind of miracle to impress the masses.

This Awareness indicates that such an entity indeed can be dangerous and does need to be watched, although such an entity can also be an inspiration to help others to learn how they too may become more than they presently are; that as this entity shares his teachings, assists others in becoming more spiritually inclined and developed: this being the fruit of this entity's labor, may also serve as a measurement of his motive.

This Awareness indicates that if however, the entity's motive begins to shift toward personal aggrandizement, the desire to collect followers, the activities which impress others, claims which impress others, so that others follow this entity in a manner of worship, though they receive little information for their own soul growth and development; then entities might begin to suspect that this entity is on a personality power pursuit, using charisma to entrap others and to gain power over them; that not only using charisma, but also using forms of magic and so-called miracles to entrap the followers.

That wherein the entity is willing to share, and to give guidance and assistance to those who wish to grow spiritually, this then, is that which indicates the true master, and also those who are valuable as teachers.

This Awareness suggests that it is inappropriate for entities to expect to ride to heaven by association with one who claims a vehicle going in that direction; that you cannot get to heaven riding on the coattails of another. However, by being given information by one who is on the path, and able to move in that direction, one who can serve as an example, and one who can give you the guidance necessary so that you may travel in that direction on your own; such an entity can be of great assistance; that you may find it also helpful to identify with that individual and ride along, holding onto the coattails. This Awareness indicates however, that if the coattails and association is the only thing which you have as your ticket to heaven, that it is not a likely ticket. This Awareness suggests that it takes more than simply being a follower to evolve spiritually, although being a follower can serve to give you an example of how to be, so that you can develop your own abilities: spiritual, mental, emotional, social, or whatever, and thus improve your chances for greater evolvement toward enlightenment.



Likewise, association with those forces or entities who are detrimental to spiritual growth cannot deny you from moving toward your spiritual evolution; even as the entity jesus was associated with the thieves and rabble of his time, still maintained his own spiritual strength. However, entities who associate with those of lower spiritual vibration, and who allow their spiritual vibrations to be diminished by following and holding those lower entities in high esteem will, by using these entities as examples, or models, will find themselves moving quite likely toward a detrimental direction.

This Awareness indicates that to some extent, the model you choose is that which is helpful to you, but still your own levels of consciousness, and your own spiritual worth and identification is that which is most important, and the teacher which gives to you those messages which are helpful in your soul growth is the teacher which is most important to you. That the teacher who simply glorifies himself in your eyes is not particularly helpful to you.

ED's Note: the concept of homosexuality is so highly charged, and in this particular case by the energy of the question, it is little wonder that Awareness, who makes no judgments anyway, deftly diverted this energy into a rap about gurus in general. Awareness has never pointed fingers and has never, to my knowledge, ever indicated that being a homosexual detracts from the spirituality of the entity. There does appear to be a kind of phenomenon in the psychic field wherein gurus and various types of channels often turn out to be homosexuals, which in turn upsets their followers and creates havoc with the organization. Right in this immediate area, I have personally observed this phenomenon a number of times. A world famous psychic medium in Seattle, who has branches of his church all over the country, created astonishment and dismay among his followers, when a scandal erupted and subsequent revelations, published in the newspapers, alleged the entity was homosexual. After a stint in the state penitentiary (allegedly for molestation), near death from a bout of cancer, the entity was released and again astounded his flock by announcing he was becoming a woman, and he did. Rev. Franklin Loehr, the author of "Power of Prayer on Plants and People" and a famous medium and reader in his own right, did the same thing: after years of being a man, became a woman, (presumedly from a sex change operation). I think year later he became a man again. (I always wondered what his wife thought about all that). Awareness has never made a big thing about the sex life of entities on this plane; It is more concerned with one's soul growth and of how many the entity has served, and how well. The highly charged nature of the subject has come mainly from the hangups of the Judeo-Christian public, particularly right-wing fundamentalist types, who believe that sex in general is somehow evil (certainly non-spiritual) and homosexuality in particular, is somehow of the devil. They might be right, but first they need to delineate exactly what "devil" is. Anyway, it is highly unlikely that Cosmic Awareness would chew out an entity for being gay, for at least two of Its Interpreters that I know of were indeed homosexuals themselves. For example, Ralph Duby, before Awareness took him over as a channel, was an active homosexual in Seattle. I have been told by one who attended some of the parties, that Ralph's appearance dressed in drag was almost leggendary. When he finally admitted his past homosexuality one Sunday morning during an Organization of Awareness service, half his followers and ministers walked out, the organization was divided, but it survived. (I have a suspicion it was some kind of test Awareness was putting before Its flock to see just how aware these entities had become during the association). Ralph publicly apologized for his condition and to the surprise of many, Awareness did not zap him with some cosmic bolt of lightning, but continued to channel through this entity some of the most beautiful and enlightening material that has ever come through any channel of any type. (Ralph Duby was also a Jew, and some never forgave him for that either). So if readers of the Awareness messages expect Awareness to point fingers and chastise those who are gay, just because the reader has been programmed to think such entities are 'evil', they simply have not discerned what Awareness is all about. My personal theory about channels in general and Awareness channels in particular is that Cosmic Awareness is androgynous, so it stands to reason that a channel for Awareness should be as closely balanced in a similar manner, and like it or not, the homosexual entity does appear to often fall into this category. Entities should be reminded not to make judgments about sexual preferences of a guru or channel, but base their evaluations on what comes out of the mouth of the entity. (Avaton)
