COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious 'trance' levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter. Paul Shockley, Interpreter

THE BICENTENNIAL ADDRESS TO HUMANITY

BY COSMIC AWARENESS

(INDEPENDENCE DAY MESSAGE)

QUESTION:

Today is the 200th birthday of the United States of America. I'm going to read an excerpt from the *Declaration of Independence*, signed on July 4, 1776:

"When, in the course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitles them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their creator with certain unalienable rights, that among these are Life, Liberty and the pursuit of Happiness. That to secure these rights, governments are instituted among Men, deriving their just powers from the consent of the governed. That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its power in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes, and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future society."

I ask now on behalf of all of those in America and the entire world, for a message on this July 4, 1976.

COSMIC AWARENESS:

This Awareness indicates that in the continuing course of human events there comes a time and a place wherein entities begin to move beyond those levels of pre-occupation with time and space and move into the exploration of that next frontier known as consciousness and in the exploration of consciousness comes about the discovery,--that even as the world is not flat, but rounded, likewise consciousness is not separated by forms, but permeates and fills all things,--as a screen on which all forms are projected and cast. As entities begin these exploratory journies into consciousness there comes about that discovery that all roads lead to home, to OM, that all consciousness is One, and that all entities beneath their outer garments of culture, programming, habits, language and personality masks, are in reality the same entity, the same consciousness. This Awareness indicates that in this new reality, new concepts, new modes of behavior, and a new understanding of governing must come into being.

This Awareness indicates the action that began two hundred years ago today, in bringing about the birth of this United States of America was likened unto a seed planted in the Garden of Consciousness which has brought forth much abundance and a great harvest, and this harvest has brought forth the opportunity for entities to understand the meaning of freedom, individuality, and the pursuit of happiness, even if these concepts have not yet been fully experienced by all entities of this nation, and whereby many entities of other nations do not yet experience happiness, freedom and individuality. Yet the action of forming the space where these pursuits could occur, have given entities of this nation and other nations a new sense of dignity, a sense of personal worth, a new

hope, a new understanding, and a chance to dare to dream of a New Life in a New World where God-given rights to life, liberty, happiness, and the dignity of man can be experienced as a reality.

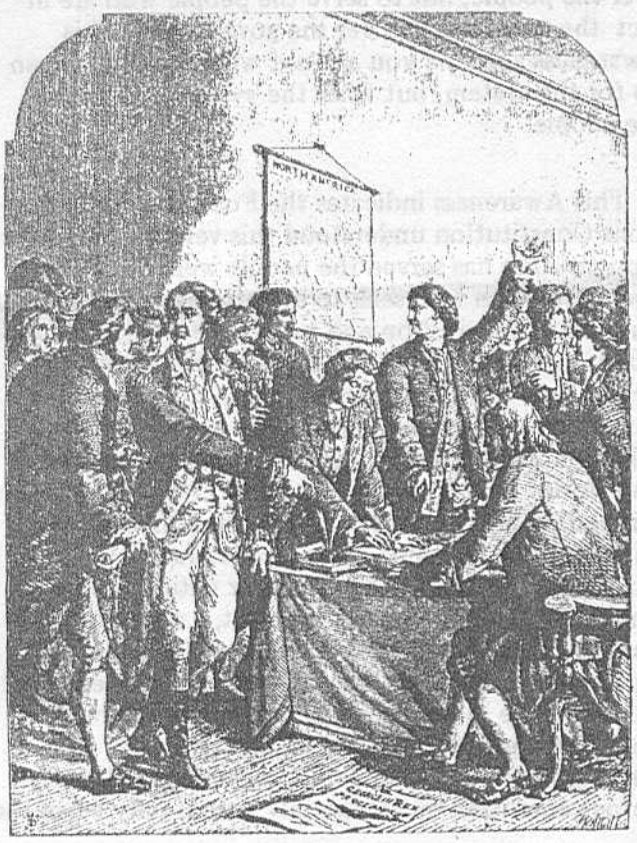
This Awareness indicates this nation like the prodigal son, has wandered away in the pursuit of its own individuality and has fallen into a multitude of sins and errors through its association with the scum of the world,--the moneychangers,--warmongers, harlots whoremongers, and pimps of the world who have sold their sons and daughters, their mothers and fathers, their brothers and sisters to the Beast, to the world money system, the Luciferian economic machine which pays the most for the rape and sale and slavery of the souls and lives of humankind. Yet this nation now comes home and sees the error of its ways; and this nation shall find a rebirth based not so much on the pursuit of individual pleasures, or on the concept of competition, but on the concept of the Unity of all Life and the pleasure that comes in co-creation of the highest and the best for all concerned. This nation is beginning to understand that its security cannot be built upon the destruction of others, but must be built on unity, respect, sensitivity and communication with all living beings.

This Awareness suggests as entities begin moving more and more into levels of consciousness wherein concepts of "you" and "I" begin to fade into concepts of "we", and wherein concepts of competition between entities, nations, and cultures begins to fall to the concept of co-creation through communication and sensitivity, wherein the old ways of power and greed through manipulation of money and mind begins to fail and is replaced by service based on comprehension, clarity and concern for each other's rights and freedoms; there comes about a shift of attitude which becomes contagious to consciousness whereby the "win/lose" concept may be totally discarded and replaced by the "win/win" concept. This Awareness indicates this nation again can light the way with Freedom's Torch as entities join together in co-creative action --each doing what each can do to make a better world.

This Awareness suggests you not follow your leaders but follow the Universal Laws that recognize the unity in all things, for there is no higher authority than these Laws which condemn no-one, excludes no-one, and serve all through creative Love. This Awareness suggests that you give your energies to those who give their energies to these Universal Laws, and that you teach those who would be leaders of the people that they must first be *followers* of the Universal Laws. For these Universal Laws do ever and always supercede all other laws, and as entities follow these Laws of Love, Mercy, Unity, and Life, and work together for the good of all, there will be no losers whatever, for *all* shall win.

This Awareness indicates that in times of stress and change, in which entities often find themselves, in these wondrous times of present Trials and Tribulations which try anew the tormented souls of men, in these unusual times wherein appear those strange forbidden shapes and unseen images lurking from the edge of the future, wherein the Dreaded Beast struggles to raise its Hungry Head, and Crowned Horns, wherein threats and dangers and rumors of war run rampant from door to door, from day to day, from moment to moment, always perched behind the corner, beneath the bed, above one's head, just over the horizon, ready to spring to attack and to destroy, to spread its panic and plague and fears; in these Great Times of Great Trials and Greater Opportunities, entities must become so intensely involved in life and in life's realities that they are compelled to make the clear discernment of what really is their only course of action,--to leave behind the worship of the old Gods of Power, Lust and Greed, and to forego the worship of the Idol known as Fear, and to move instead into the New Heaven on Earth that begins as each and every entity becomes a channel of that force known as Creative Love.

This Awareness indicates that the temptation to attack that which one fears, the temptation to fear that which could perhaps attack, the temptation to set oneself apart from that which is happening, the temptation to escape to some unlikely place, some distant dream, some anxious hope, some far away concept, some future life, away from all that is present and real, with all its present dangers, and all its unseen joys and unexperienced ecstacies, its glorious sensitivities,--these temptations to escape from present time when yielded to, do not lead to clarity and relationship, but to clouds, deception, and ever Greater



THE ACCOMPLISHMENTS OF NAPOLEON---A BLOOD-SOAKED WANDERER

QUESTION:

Awareness has indicated that the Wanderers and Voyagers come to this plane to uplift consciousness. In a previous reading given today, Awareness mentioned Napoleon was such an entity. Ever since that statement was uttered, I have been wondering *how* consciousness was lifted by him in that lifetime of slaughter, sorrow and suffering which he and his armies created for millions, or did he just simply blow his mission?

COSMIC AWARENESS:

This Awareness indicates this entity essentially lost sight of his purpose, and the entity allowed other forces to manipulate and control him; this entity was rebelling against the hierarchy formed by the church, and by the powers of various nations. This Awareness indicates it was with Napoleon that the church and state were first separated. The church prepared to crown Napoleon as Emperor, but Napoleon had the audacity to take the crown and to place this upon his own head, this symbolic of Napoleon crowning himself rather than accepting the crown from the church. This Awareness indicates that in this action, it brought a change in consciousness that has shaken the world in ways not fully recognized. This took power away from the church and created a new kind of power, for the political or governments of the future world, so that temporal and spiritual powers would be separated, and mundane affairs would be carried on for the nations without the interference of the religious controls and dogmas. That this paved the way for the American democracy to continue in its infancy and growth.

This Awareness indicates that this also helped to prevent the power of the church from overcoming the losses which it had experienced. Essentially, up until the last four hundred years, the church held an almost unlimited power over the masses, over the minds of the masses, and this power needed to be broken, many times in many ways. This Awareness indicates that this action by Napoleon was one such action, the action by Luther as another.

This Awareness indicates that in a general sense, the action is continuing even into this decade, whereby the consciousness of entities is being freed from dogma so that they are being given greater opportunity for attuning themselves to the spiritual universe around them, rather than needing to find their salvation only and exclusively through a particular religous system. This Awareness indicates that there have been many destructive forces and entities upon this plane, who have been used by forces which appear negative on one level, but which on another level have resulted in positive means or positive ends; that the negative on one level may be positive on another and vice versa.

This Awareness suggests the entity Napoleon as not having graced this planet with great accomplishments, but as having accomplished some good and having caused great tragedy to many. This Awareness indicates the entity was playing out a karmic game with the energies which had been set in motion by the Illuminati and its forces , and this game as that which brought back its own karma according to the Law of Gratitude.

This Awareness indicates this as having a parallel in the actions of Adolf Hitler, that this information has been touched upon elsewhere.

IN THE BODY DURING MEDITATION IS THERE ANY CHEMICAL CHANGES?

QUESTION:

A question from N.B. in Alaska: "During meditation as well as other states of spiritual harmony, does a person's body chemistry go through any special changes? If so, could Awareness please elaborate?

COSMIC AWARENESS:

This Awareness indicates that this is in relation to different mental wavelengths, as may be studied through Alpha, Beta, Delta and Theta type waves; that this also having an effect on the aura; that in reference to this, this can also affect the vital energies of the body, even to the cellular levels. This Awareness indicates that in this sense, there can be that which might be termed a chemical change, but the measurement of chemicals in the body would be most difficult. This Awareness indicates in certain of these meditative states, the use of certain energies is consumed more greatly than during other states of consciousness. For example, in high levels of concentration, in high levels of meditation, the body uses more potassium, more niacin, as well as other chemicals, vitamins and minerals. That in this sense, the answer to your question would be in the affirmative.
