Helping People Become Aware

ISSUE NO. 313

AN OUTLINE  
FROM COSMIC AWARENESS  
TO BRING PEACE  
AND PROSPERITY  
TO THIS PLANET

# IT'S SO SIMPLE!

Published by Cosmic Awareness Communications and the Universal Church of Awareness, P.O. Box 115, Olympia, Washington, 98507, U.S.A. Reproduction of this material is permitted and encouraged.

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious 'trance' levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Paul Shockley, Interpreter

## CAN PLANET EARTH HANDLE TEN BILLION PEOPLE?

(AN ALTERNATIVE TO THE "GLOBAL 2000" CONSPIRACY)

### QUESTION:

A question from T.M., Arden, North Carolina.  
 "I have a question for Cosmic Awareness: It has been said that if people do not control populations through education and birth control, that wars, pestilence and starvation will do so. Is the so-called 'population explosion', especially in poor Third World countries, one of the most serious problems facing earth today, or is it merely being used as an excuse for not solving these other problem areas? To ask the question from a more spiritual perspective: Are there enough entities awaiting birth or rebirth into the earth plane at this time to cause serious population problems if they are all accommodated? Is there not some regulation of this from the spiritual plane, to ensure that the earth does not become physically overcrowded, or is this a problem for human society to solve through education and birth control alone?"

(There are several questions within that question.)

### COSMIC AWARENESS:

This Awareness indicates that if things continue at present development, education and scientific advancement, and general activities of individuals according to their culture, according to their economic growth and projected economic growth, and if wars are prevented, so that entities are allowed to live their lives peacefully, and if medical advancements continue as they have, by the end of this century there will be approximately one billion more entities on this plane; that whereas there could be an increase much greater, the advancement of technology, communication and education will tend to slow this growth down so that approximately one billion more entities will exist on this plane.

This Awareness indicates that within one hundred years, this may bring about approximately three billion more, so that approximately 8 billion persons will be living on this plane by the year 2100. This Awareness indicates there are approximately 10 billion entities in or around the earth in bodies, or outside of bodies,—that approximately ten billion entities capable or desirous of reincarnating into physical form on this planet.

This Awareness indicates that there *is* room for that number of entities, but the room allowed would have to be respected so that the entities, given their space, could have their space and live and grow in their space. That the energies spent on developing weapons of war, on developing weapons which are associated with war, in developing machinery and systems and structures associated with the construction or implementation, development or use of weapons in war; these energies as sufficient to feed all of the hungry on this plane.

This Awareness indicates that when you consider the number of entities involved in the implementation of war, the preparedness for war, the maintenance of and the logistics of keeping track of the weapons and personnel associated with war, and the energies expended on concerns about these things, and the manufacture, including the mining and processing of

metals which then are used in molding into machines and into the cases or the parts for the war machine: that these energies take approximately half of all productive energies upon this plane. This particularly in reference to those energies of the advanced industrial nations.

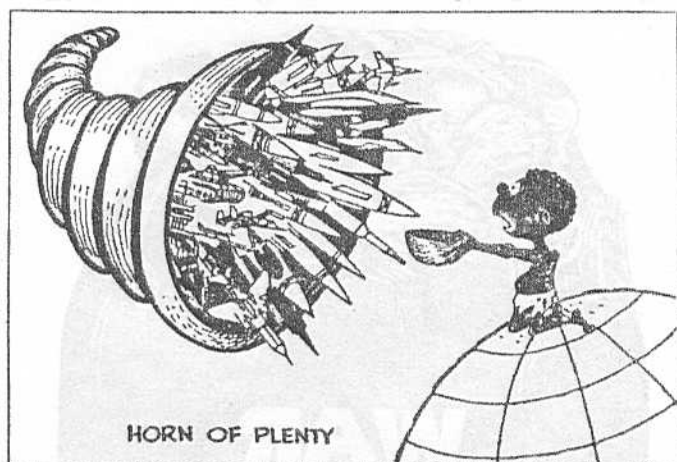

This Awareness indicates that if this amount of energy were turned toward developing new methods of agriculture, developing land for growing food, developing new types of food, developing new ways of working with the soil, to get more from the soil, developing those various systems for growing foods from water, or from nutrients in water, there would be no hunger, there would be no deprivation on this earth, other than those few areas which might be remote and difficult to reach. That these isolated cases would be quite few, if all of that energy could be turned toward service, rather than toward the warlike efforts.

#### The Reasons for Armaments

This Awareness asks entities to look carefully at the reasons for all of these armaments. That the reasons for these armaments is basically intended to protect entities from having their livelihood destroyed, from having their food supply deprived, from having deprivation of the good things in life.

This Awareness indicates that entities who feel loyal to this or that particular ideology, are loyal because that ideology supplies them with their livelihood; that it is this livelihood which entities seek to protect through the array of military might, and that entities will give away half of their life's energy to protect the other half which they have remaining.

This Awareness indicates that entities should somehow be made to see that the energies which are expended toward these efforts to protect their livelihood, could, through cooperation, negotiation and reconciliation, be turned to energies which allow others to have a similar livelihood, so that neither force would feel a need to deprive the other in order to survive and maintain their own livelihood.

This Awareness indicates that it is a tragic situation that the human mind, the human condition has not yet evolved to the point whereby it can recognize and see that the use of threat and violence toward others is not an efficient way of preserving one's livelihood. This Awareness indicates that it is essentially a fact that no entity can be free from the threat of others, until all entities cease to be a threat to others.

This Awareness indicates before entities can be free to experience the total unity and harmony and have their livelihood assured, humans will need to move into that level of consciousness known as the One Mind, wherein all come to a state of nonviolence together, and wherein these entities recognize that that nonviolence, and that state of nonviolence is the greatest deterrent to war, and has a much greater chance of preserving the peace than the waving of swords or missiles toward each other.

#### A SIMPLE SOLUTION TO END WAR ON THIS PLANE

( FOLLOW-UP QUESTION):

Awareness, are those billions of entities who will come to this plane in the future; will the majority of these entities be Wanderers and Voyagers, or will the majority of these entities be from the astral and limbo areas that require another, or more lifetimes on this plane for their soul growth?

#### COSMIC AWARENESS:

This Awareness indicates that this as the latter. That there appear to be more entities needing to return for soul growth than those who are fully developed. That there are, however, still a large number of entities who have highly developed souls who will be incarnating on this plane during the future years.

This Awareness indicates that it is so simple: wherein entities look and recognize those whom they love, wherein entities can look at those whom they admire, whom they know, and can say to these entities: "You are my friend." This Awareness indicates that such entities may ask the question: "Why is this person my friend? And why is that stranger over there my enemy?"

This Awareness indicates that the discrepancy, or difference between these two is that the one entity is known, is understood, and one is familiar with that entity, whereas the other entity is unknown, and the other entity just *may* be a threat, even though in fact, the other entity may be just as nice, just as loving, just as caring as the one who is your friend. That wherein entities do not know each other, and wherein entities are taught to be suspicious, to

be afraid of strangers, to be afraid of the unknown, (and life does teach entities such lessons through experience or through the experience of others), then entities indeed may be suspicious, fearful of those strangers, particularly if they speak a language which cannot be understood, so that even in speech you do not understand or know these entities, or wherein these entities hold different ideologies, or different philosophies, or wherein these entities dress differently, look differently, have different colors of hair, skin, eyes, or are shaped differently, or wear flags and uniforms of a different nation; wherein these differences are strong and made significant, entities tend to have the fear or paranoia, the uncertainty, and may imagine the worst of another.

#### The Greatest Cause of Suspicion Between Nations

Rather than seeking to discover the other, they may project their own fears on that entity, and assume the worst from that entity. That this fear brought about from experience of one's own childhood fear of strangers, fear which has been taught, or fear which has occurred through experience of oneself, or of having heard of others who were harmed by strangers: this is the greatest cause of suspicion between nations and religions and various cultures.

This Awareness indicates that it is the duty of communication networks, television, radio and all forms of speech and communication, to assist in breaking down this fear, but the fear cannot be broken until a mutual trust can be built, and a mutual trust among people cannot occur until the violence is diminished, whereby violence becomes less and less a way of life, and violence cannot be diminished until entities quit threatening each other, quit threatening their neighbors, quit threatening neighbor nations, quit threatening others for their religion, for their skin color, for their ideas or for their behavior.

#### How to Handle Renegade Nations

This Awareness indicates that wherein parents use violence on children, this indeed teaches children the use of violence. That segregation, separation, taking a child away from the society as a form of deprivation, as much more fitting than violent punishment. Likewise, those nations which are renegades in nature, which would create violence for others or for their own people, may be cut off, may be segregated so that they are not allowed to have their communication with the rest of the civilized world, and in this way the punishment can be inflicted without the violence of external invasion, and the need for war can be diminished.

#### The National Society of Nations

This Awareness indicates that nations may band together in a National Society of Nations, whereby those which belong agree with each other not to make war on each other, and to abide by certain

civil laws, wherein their own people are given certain rights, so that a code of living is implemented for all nations and their people within this Society of Nations. That such nations then moving into communication with each other into an association, then making trade with each other, receiving Favored Nation status, benefit from that association and that agreement.

This Awareness indicates that those nations who refuse to join do not receive the Favored Nation Status. Those nations which are renegade in nature, whose forces create and spread war, whose forces create violence within their own borders, against their own people; these nations would be seen as outlaw, or outcasts from that Society of Nations, and therefore would not receive Favored Nation status, and the benefits of trade, benefits of communication would be cut off from that outlaw nation.

#### A World Court to be Created

This Awareness indicates that as entities are placed in jails and prisons for certain antisocial behavior, likewise nations can be imprisoned within their own boundary by cutting off all trade, by cutting off all relationship from other nations to that particular nation for a certain period, fitting the crime. That in order for this to occur, a World Court, whereby nations may sue each other, would also need to be implemented. This Awareness indicates that a complaining nation may file suit against another nation and thus have the suit tried in the World Court, whereby all nations agree to support the findings of the World Court, and any nation which refuses to follow the findings of the World Court would then be ostracized, and trade cut off accordingly. That there may be probation, there may be parole, there may be isolation as part of the sentencing and procedure of this system.

This Awareness indicates that had this system been in action during the Falkland Island war, the British and Argentines would have sued and would have been in court rather than in battle, and wherein after a finding of fact relating to the ownership of the islands, if the nation so losing was not satisfied, and thus created a violence against the other, flaunting the ruling of the World Court, then that nation

would be ostracized, cut off, and trade would be curtailed to that nation until it made amends.

This Awareness indicates that these actions as being far more appropriate to the human condition than the continual buildup of arms, threatening the extinction of the human race upon this planet. That this also as much less expensive.

This Awareness indicates that this information essentially as that which is the basis for the Foundation for Peace, and the programs which it will be implementing during the coming year. This may be seen as a brief synopsis of the basic material which will serve as a basis for the Peace College and its programs. This Awareness indicates that the Peace College to include law, business and international relations courses involving these concepts and based on these concepts. That this not intended as the only courses to be taught in the Peace College.

\*\*\*

ED's Note:

Despote the efforts of many entities, the Peace College at York, Pennsylvania, which was to energize these concepts, never got fully off the ground, and today is hanging in a sort of limbo. However, the concept of the peace college was energized and released into consciousness by these efforts and by the release of the information given by Awareness, and today there are several active colleges calling themselves "Peace Colleges" which are exploring these new concepts and ideas, along with the underlying causes of war. Whether the original peace college ever manifests in York or not, it appears the energies are indeed in motion and it is possible, as Awareness has predicted, that by the year 2000 the only evidence of any war machinery on this plane will be found in museums, where young people will marvel in wonder that such implements of war could actually have been used on one another in the years gone by.

### WHAT EVER HAPPENED TO WILLIAM BRODER?

#### QUESTION:

A question from A.P. "What has happened to William Broder of the *Village Voice*. His messages have not appeared for many months?"

#### COSMIC AWARENESS:

This Awareness indicates that it appears this entity had to cease in giving his messages, that he felt his life was in great danger, and the entity as having moved into hiding, or into inactivity in regard to this action. That it appears the entity as still alive, but no longer active in this manner at this time.

This Awareness indicates it appears there was some extreme danger and threat to the entity; the entity having been exposed and vulnerable, and realizing that further action in this direction could result in his death.

\*\*\*

ED's Note: Back around 1979 and for the next several years following, a series of mysterious classified ads appeared in New York's *Village Voice* newspaper that warned that certain traitorous entities in high levels of our government were planning a nuclear first-strike against Russia. Later on there was information stating the Pope had been murdered and had been replaced by a phoney double. He also informed readers that President Carter had been murdered and replaced by a 'double'. In many cases this information correlated with much of what Dr. Beter and Cosmic Awareness had released, yet it was delivered from a different frame of reference. The entity would sign the message "William Broder" and list a hotel where correspondence could be addressed. The name 'Broder' was obviously not his real name, for certain SPIRAL entities tried to track him down and could find no such person. Evidently someone did pick up his mail at the various hotels he would list in his messages, but know one ever discovered who this mysterious 'Broder' was or where he obtained his incredible information.

Many, including this editor, marveled how this entity could release this type information during those times and still remain alive. He often warned in his messages that the CIA and others were on his tail and the necessity for moving around constantly changing his address. Evidently, his trail became too hot and he was forced into hiding. To my knowledge his messages have not appeared in the publication since that time.

"Since their nuclear arsenal can destroy us twenty-five times over, we must be able to destroy them at least twenty-six times."

### BEWARE: YOUR HEATING OIL MAY BE CAUSING YOU HEALTH PROBLEMS

#### QUESTION:

M.S. of Philadelphia, has a question, and she included a question she had in a recent personal reading and the response by this Awareness. She wanted me to read this question, which essentially was: She said she had chronic bronchitis of ten year's duration, and unable to shake a current case of it, and a continuing cough. Her apartment is directly above the furnace of the building which she felt was a contributing cause do to the following. "Recently on a PBS TV program, a professor of Criminal Law from a nearby university stated that: 'Home owner's heating oil is now laced with contaminated chemicals, and this may contribute to the frequency and severity of colds, bronchitis and so forth.' Is this true she asked?"

"And Awareness said: "This Awareness indicates this is in the affirmative. This Awareness suggests that you consider moving to another location at your earliest convenience."

Now, her question today is this: She writes: "Avaton, the above is sufficient hopefully to cause you to present a question soon for the benefit of all CAC members, to determine if this same contaminated heating oil situation pervades the entire nation or only locally. Maybe a question could also be asked concerning the effects, or more on the effects of this on anyone's health and well-being."

Would Awareness answer that question?

#### COSMIC AWARENESS:

This Awareness indicates that it appears to be to some degree appropriate to all heating oils, but that it appears the condition is most severe in areas in the local area wherein this entity lives, --this being in Pennsylvania. This Awareness indicates that this particular type of oil and the processes by which it is made...appears to be somewhat more hazardous than some of the other types of heating oils. That this appears generally to be associated with the oil in the location there in Pennsylvania, wherein the refinery uses certain chemicals in the processing of the oil for regulating its burning speed.

This Awareness indicates that it is seen that there are different grades of heating oil, or different types of heating oil wherein some of these are less hazardous than others. This Awareness indicates however, that in general, the differences are very minor and that the chemicals generally are not hazardous except wherein there is smoke escaping to be breathed by the individuals, or wherein there is smoke from chimneys in highly concentrated areas in which many entities burn these oils, and particularly wherein the smoke is brought down toward the ground or toward populated areas where entities would tend to breathe the smoke.

This Awareness indicates essentially, the use of heating oils is more hazardous than electric heat, but is less damaging or hazardous than coal; the burning of coal as that which emits even more toxic fumes.

#### (FOLLOW-UP QUESTION):

Is there any alternative to this problem other than moving?

#### COSMIC AWARENESS:

This Awareness indicates the entity could assist in keeping her own breathing area more healthy by the use of an air purifier, this particularly the type which collects pollutants from the air through the use of setting up electronic filtering screens through sound or vibration in which particles are polarized by ionization and collected in this manner from the air, or also through air purifiers which funnel the air through filters.

This Awareness indicates that this is not as effective for a long period of time as the other. That also the ionizer, the negative ion device, as that which can be helpful in other ways in affecting one's general health and in helping to diminish stress and factors which lead to and contribute to colds. This Awareness indicates that entities also can benefit from wearing a face mask when in areas that are highly polluted with smoke or similar pollutants.

\*\*\*

#### MYSTERIOUS MOONS AND PLANETS THAT SEEMINGLY COME AND GO

#### QUESTION:

A question from member R.K., of Burea, Sweden. He writes: "During the last century, there have been several observations of a planet inside Mercurius. The path has been calculated and measured, and then it suddenly disappeared; it hasn't been there for years. The size has been measured and is slightly smaller than Mercurius. In the same way a mysterious moon has been observed around Venus. Is this really anything, or could so many observers be wrong?"

#### COSMIC AWARENESS:

This Awareness indicates that this appears to be a reality. That likewise, there are certain planets which are within the light of the sun. This Awareness wishes entities at this time to realize that **the sun itself is not flaming heat. That it is cool inside.** The energy from the sun feels hot upon entry into the earth's atmosphere because of the friction created by the rays; whereby these rays creating friction upon the atmosphere bring forth heat.

This Awareness indicates however, in space these rays do not create heat, for space is cold. Likewise, the sun itself is cold. There are certain energies of less density within the sun's rays itself which are in part anti-matter in quality, and create what might be termed planets. This Awareness indicates this as a difficult concept to explain in regard to the terms being used, for entities think of planets as being solid material.

This Awareness indicates that these planets may be astral in nature rather than solid material; that such astral energies can be at times made visible to the eye, depending on certain atmospheric conditions. Likewise, energies in space, on other planets, also may be such as to create phenomena that exist at one time, but cease to exist at another time.

#### (FOLLOW-UP QUESTION):

That would explain then why this planet was seen for awhile, and then disappeared for many years, and later was seen again?

#### COSMIC AWARENESS:

This in the affirmative.
