Helping People Become Aware

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

FIGHTING TO SAVE THE LAST OF THE FOREST GIANTS: WHAT ARE THE PRIORITIES ?

DEFORESTATION BY THE YEAR 2000: IS THERE A MILITARY/ALIEN CONNECTION ?

(MORE ON "ALTERNATIVE 003")

QUESTION:

A question from Steve and Sue L. They sent in a whole bunch of questions on the aliens, most of which have already been answered, but this one:

"The last question has to do with what we are involved with now, as we have been almost totally, for the past decade, saving the forests from total destruction. As background, we have been relatively successful, although we have been arrested several times for civil disobedience, done time in maximum security prison and been sued for lost wages as part of the intimidation process to make us stop. The object, of course, is for us to alert the public and focus attention on the globe-threatening aspects of deforestation. It has all helped to make the issue the number-one concern of all British Columbians and Canadians in poll after poll. As we have grown, there has been a well-organized concerted effort on behalf of Share Groups, organized by a man named Ron Arnold from the Center For the Defense of Free Enterprise, a U.S. organization with close ties with the Reverend Sung Mung Moon's Unification Church and its implications of heavy-duty brain washing and manipulation techniques.

"We have begun hearing rumors of CIA connections with the Center for the Defense of Free Enterprise, and I would like to know about this and the connections involved. Your past information certainly lends reasons as to why our governments and corporations are so hell-bent on destruction, and considering that deforestation is this country's biggest money-producer, is this an effort to stave off environmental pressure so that industry can basically take it all by the year 2000?

"The intimidation has accelerated to a dangerous level here and Ron Arnold now has a man in the community stirring up trouble, and we sense an element of real danger. Being parents of three wonderful children, this is a concern as well. I would gladly be paranoid, but I have a feeling I'm not. Is this U.S. military/alien connection involved to the extent of trying to thwart the environmental movement here in our community?"

COSMIC AWARENESS:

This Awareness indicates that the influence ripples into every facet of human endeavors and of human experiences in some degree. There is also that consideration which must be part of your scenario involving the bases already present on the moon and Mars; that much of the money which is being taken through various types of corporate and illegal activities not only is used to build underground bases on the earth, but also is used for that construction on Mars, for enhancing the livability on that planet; that this being done in conjunction and working with the aliens.

This Awareness indicates that essentially the idea of some is to create a new place for human survival on Mars; this of course, the elite, while turning the earth over to the aliens and their masters. This as an alternative to the option of fighting off the masters, the reptilians who would come at a later time.

"Adam and Eve" Project Mentioned by Cooper

This Awareness indicates that you may recall on the Cooper tape, the project known as *Alternative 003* as having been code-named 'Adam and Eve,' with Eve representing the moon, and Adam representing the Mars settlements. This Awareness indicates that much of this work by the corporations goes to not only increasing the money for the corporations, it also brings in taxes from all levels, from the workers on up; that much of this filters into these projects.

This Awareness indicates that in so far as the recognition that there is some influence in your community, that this is in the affirmative; that the entity whom you are considering as being influenced, the organization being influenced in such a manner as to be highly competitive with your intentions; that these conflicts between those who rape and pillage and destroy the environment for everyone in order to gain dollars or power, which is what they are actually seeking, and those who would seek to preserve the planet, as that which is likely to intensify during the coming months and years.

There is the possibility of these things taking a reversal. Much will depend on the decisions of mass-awareness as people become more and more aware of what is going on. Much will also depend on the realization of those in power as to where their quest for greater power may lead them, so that they begin to realize, as they surely will, at some point, that they have been used to raise power and money for some other force that is greater than them, and have gained nothing and have lost their souls in the process.

Judgment Day for those True to their Inner Light

This Awareness indicates that there is, for those who remain true to their own God-Seed, their own Inner Light, the protection of that Light and the future happiness that comes with being true to yourself as a spiritual being, even though there may be hardships. This Awareness indicates that each entity lives many lifetimes, and these lifetimes are but brief candles, and though each one seems so important during that time period, it is when you are out of time, out of space, and within your own soul energies that your real worth and totality is realized. That is, in fact, the Judgment Day or time.

This Awareness indicates that for those who have been true to their own spiritual essences, their greater energies and future will be that which brings the joy of being themselves, of having been true, and in looking back on physical struggles, these will be seen as mere dreams, or in some cases, nightmares of no significance; but to those who have yielded to the nightmares, who have in those physical lifetimes sold out to the Dark Forces, given up their spirituality,--when these entities pass on into other realms, they find themselves within the greater reality of goblins, ghosts, forces that haunt them from their own demented memories; those things which have suffered at their hands, those astral shells come at them, tormenting, reminding them, and they feel great guilt and sorrow, and call out to be punished, to be cleansed and purged of these memories of what they have done.

Why You Should Not Try to Become a Martyr

This Awareness indicates that it is far better that entities live a clean conscience and be overpowered by negative forces in the physical sense, than to yield and compromise and do negative things to others in order to gain some temporal power or pleasure while in the physical and then suffer the karma that follows. This Awareness suggests however, that *It* is not asking entities to become martyrs; there has been too much martyring, there has been too much bloodshed, and in most cases this is not necessary. It may come to that, but this Awareness does not ask entities to pursue martyrism. This Awareness suggests rather that you realize you are more important as a force for good in staying alive and in staying free, if possible.

There are some who may find that they have greater influence in being jailed, imprisoned, or even being martyred. They may feel that they have greater influence for their cause. This Awareness suggests however, that this generally is not so, and should not be part of one's will, except in rare cases, the possibility of being jailed in order to make a public statement can be effectively used, as in the case of Gandhi, and his use of passive resistance.

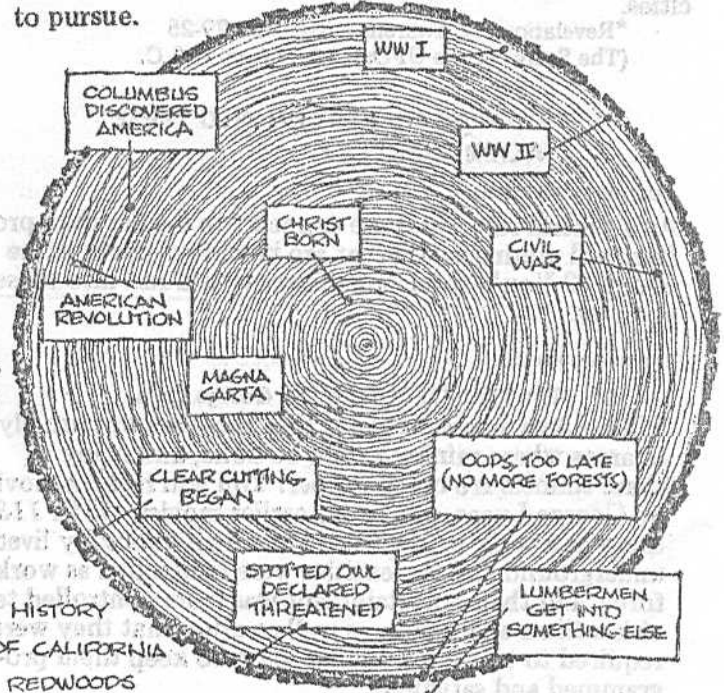

This Awareness indicates that generally speaking, when you have obligations to children you have brought into the world, these are of great importance, and must be weighed in light of your other commitments and obligations. You have a desire to preserve the forests for the future enjoyment of your children, and of generations to follow, but you also have the responsibility to attend to these children in your present life and environment, giving them what they need, that they too might become strong and have good values, for you know not but that they too shall need all of their strength and good solid childhood in order to cope with problems of the future, and if you neglect them in trying to preserve the forests, you may be neglecting the greater value.

This Awareness indicates that it is suggested entities take care of the responsibilities which are most close in proximity and to which they are most responsible for, in terms of their own actions, and in this case your children are the result of your actions and are the greater priority and responsibility; that much of the focus on the environment, while it is of great concern, should be seen as a secondary priority and do not become confused and let your ambition and dedication as an environmentalist become a matter of personal pride to the point that you neglect your own family needs, for the chances of you having great impact on the world in general are quite slim and you do not want it to simply be a matter of personal pride and rebellion against establishment that truly drives you.

If you are truly responsive to what is occurring roundabout you, the responsibility is first to those things which you actually can help, and to which you are actually obligated to help, and secondly to society in general, thus, this Awareness suggests you not go on a campaign as environment savior at the expense of your family, but you do what you can with your left-over energies, but that you keep your family strong, keep the children secure, make sure that you survive in a way that allows you to continue being an effective force for the good of all, and especially for those things you are truly obligated to,-- your children and your family.

This Awareness indicates that this obligation to your children and family came before your obligation to society. Social obligations are part of each entity's need to feel worthy, and these social obligations should be pursued, but not at great expense to your personal obligations. This Awareness indicates that once you have fulfilled your personal obligations, then you may dedicate your life to the fullest, to those social obligations. This Awareness indicates that this is not in reference to what is morally correct; it is more of a reference to that which is generally the most satisfying to all involved, and the most satisfying to an individual if the individual truly stops to evaluate things clearly.

You can best solve your needs by attending those personal needs directly and completely, then using the time and energy beyond that level for the social efforts and construction and creative expression that you wish to pursue.

MORE FLESH FOR THE SKELETON (PART 5)

WHAT ARE THOSE MYSTERIOUS SOUNDS IN THE WOODS IN THE MIDDLE OF THE NIGHT ?

(MORE ON THE UNDERGROUND HIGHWAYS BENEATH OUR FEET)

M. G. sent in an article from *Contactee* (no address given), by Ellen Crystal from Pine Bush, New York, which brings up a question in it. It says: "The aliens were linking the underground installations through the mines across the country, coast to coast as well as apparently in Europe." And she says, "This incredible story has been repeated most recently in a paper by Capt. John Lear, son of the inventor of the Lear Jet. I am receiving reports from around the country about underground drilling in woods in the middle of the night, and generators coming apparently from underground, where there isn't anyone doing construction. Many times, including in the Pine Bush area, there appears to be "construction" going on all night long and when you get close, all the lights go out."

Is this information valid, and is this type of thing occurring all over, like it claims here?

COSMIC AWARENESS:

This Awareness indicates that this as in the affirmative; that these machines are capable of drilling tunnels at approximately five feet per hour. That there are caves wherein the floor is perfectly flat, like that of a highway, wherein entities can traverse at high speed for miles and miles; that many of these things are being linked together; that they have been in construction for approximately twenty years; that in some cases there were already the beginnings of such tunnels from previous times, and these are now being renovated, and additional linkage occurring.

This Awareness gave information relating to this approximately ten years ago in regard to these tunnels;* that since that time, many of the tunnels mentioned have been joined together. These tunnels also run into South America, and there are tunnels in areas of Europe and Russia; that there are what may be termed catacombs in many areas underground and these lend themselves well to being transformed into tunnels, and underground cities.

DO MINE SHAFTS RUN INTO THESE ALIEN TUNNELS ?

(FOLLOW-UP QUESTION):

As a general rule, do these tunnels run deeper than professional mining shafts that are in various parts of the country? You'd think the miners would run into these at times.

COSMIC AWARENESS:

The Film "THX 1138" by George Lucas

This Awareness indicates that these are not usually in areas where mining would be done, and many of these tunnels are much deeper. You will recall a movie by George Lucas, one of his earlier movies, *THX 1138*; this was a story of the future in which humanity lived underground and the entities were controlled as workforce, and their entertainment was from controlled television films and image, as well as drugs that they were required to take on a regular basis to keep them programmed and satisfied.

This Awareness indicates that as the plot progressed, the entity became dissatisfied and did not want to take his drugs, and in not taking the drugs, began to realize how rigid and mechanical everything was, and began to rebel against the authorities and the authorities then had to start taking action to bring the entity back into a correction. At some point, the entity stole a vehicle and began to travel through tunnels underground to escape the underground city. This entity known as THX 1138, that being the number, was considered a unit, and the price of the unit, the damage caused by the unit was constantly being presented along with the value of the unit, and when the damage became greater than the unit's value, it was determined that the unit should be destroyed.

Thus, the entity attempting to escape, reached a point where he could go no further, but came to an opening that allowed him to surface, to go to the surface of the planet, and in this manner the entity discovered a world on the surface of the earth. This Awareness indicates that this story as that which was indeed prophetic in the sense of a potential of what could eventually occur on this planet if the continued rape of the planet's forests and depletion of the ozone layer and continued pollution of the seas is not curtailed to allow the planet to restore itself, and if humanity decides to move into underground living conditions, it could be so cramped that the kind of lifestyle described in that movie would become a necessity for the society to function.

This Awareness indicates that Lucas and Spielberg both work together quite frequently and these entities tend to receive information that inspire them to prophecy or represent in their movies' images and plots and stories that are more fact than fiction. This Awareness indicates that indeed these underground constructions are continuing and that, along with the 'Alternative 003' scenario, is where much of the money goes that has been brought in through the enormous and costly projects, both legal and illegal.

DO BIGFOOT AND ALIENS USE THE SAME TUNNELS?

(How Bigfoot is Used by the Aliens)

QUESTION:

Our friend Michael, the other day told us that he was coming back from Long Beach here in Washington State, and he took a short-cut through an unpaved road past a little logging community called Brooklyn, and he and his companion were almost overcome by the smell of sulphur, and he was positive there was a Bigfoot in the area, and there was an opening where the aliens could get in and out.

My question is: Some of these entrances where the Bigfoot goes, are these also tunnels where the aliens will be found?

COSMIC AWARENESS:

This Awareness indicates that there are correspondences and links wherein this does match up. It is not that the aliens and Bigfoot always are found together. However, the Bigfoot do serve the aliens, are under

the control of the aliens, can be controlled by the aliens. The Bigfoot is also free to roam on its own, because it has been implanted with a device that allows it to be found at any time the aliens desire to find it. They are more or less used by the aliens to guard entrances into these underground caverns; that there are air vents and there are openings.

This Awareness indicates that Bigfoot has been on earth for hundreds of years and is recently being used by the aliens more than previously. The aliens too have been on earth for hundreds of years, different types of aliens. In some cases the Bigfoot were simply abandoned here to roam as wild animals. In other cases, some have been brought here recently, but they are extraterrestrial in nature. This Awareness indicates that one could say that humans are descendants of extraterrestrials.

This Awareness indicates that of course, in saying that Bigfoot is extraterrestrial is hardly correct if you consider an entity born on earth as being a terrestrial entity, for most Bigfoots were born on earth in this generation of Bigfoots, though some have been brought in, some travel with aliens on rare occasions. That these entities generally are guardians and can be used for certain purposes in terms of beacons to indicate locations of openings; that wherein they are roaming around an opening, entities having access to their implant can trail them to that opening.

This Awareness indicates that the opening Michael saw as being a more crude cave in which there was much smoke and sulphur. It is this smoke and sulphur which causes the Bigfoot odor; that their own body odor is also of a similar smell, but much of what Michael smelled was from the environmental area of the cave, moreso than the Bigfoot itself. There is a similar odor coming from some of the inactive volcanoes in the Northwest; that occasionally these odors come from caves that have been created as vents to let off gases that form underground in some of the catacombs and networks of caves.

**DID THE GATES OF HELL REALLY OPEN UP?
WERE THOSE THE SCREAMS OF THE DAMNED?**

QUESTION:

A.M. writes: "There is an article in the newspaper that's very interesting and I'd like to submit it to you for verification." He got it from the Trinity Broadcasting Newsletter, which was translated from 'Amminusastia', a newspaper published in Finland. It reads: "The Gates of Hell Opened? Scientists are afraid that they have opened the gates of hell. A geological group who drilled a hole about 14.4 kilometers deep (about 9 miles) in the crust of the earth, are saying that they heard human screams. Screams have been heard from the condemned souls from earth's deepest hole. Terrified scientists are afraid they have let loose the evil powers of hell up to the earth's surface.

"The information we are gathering is so surprising, that we are sincerely afraid of what we might find down there," stated Mr. Azzacov, the manager of the project to drill a 14.4 kilometer hole in remote Siberia.

The geologists were dumbfounded. After they had drilled several kilometers through the earth's crust, the drill bit suddenly began to rotate wildly. "There is only one explanation, that the deep center of the earth is hollow," the surprised Azzacov explained.

The second surprise was the high temperature they discovered in the earth's center. "The calculations indicate the given temperature was about 1,100 degrees Celsius, or over 2000 degrees Fahrenheit," Dr. Azzacov

points out. "This is far more than we expected. It seems almost like an inferno of fire is brutally going on in the center of the earth."

The last discovery was nevertheless the most shocking to our ear, so much so that the scientists are afraid to continue the project. We tried to listen to the earth's movements at certain intervals with supersensitive microphones, which were let down through the hole. What we heard, turned those logically thinking scientists into a trembling ruin. It was sometimes a weak, but high pitched sound which we thought to be coming from our own equipment, explained Dr. Azzacov. "But after some adjustments we comprehended that indeed, the sound came from the earth's interior. We could hardly believe our ears. We heard a human voice, screaming in pain. Even though one voice was discernible, we could hear thousands, perhaps millions, in the background, of suffering souls screaming."

After this ghastly discovery, about half of the scientists quit because of fear. "Hopefully, that which is down there will stay there," Dr. Azzacov added.

That was the end of the article. It sounds like a tabloid story, but it came from Finland. I'd like to ask Awareness if this information is true, is there any connection with these voices and the alien presence underground?

COSMIC AWARENESS:

This Awareness indicates that this appears to be a confusion; that there are openings and there was heat; that the heat in melting rock and gases and the addition of substances being dropped into the area and the effect on the microphone as that which was misheard; that these were not human screams, they were simply gas noises from the heat and its effect on the microphone.

This Awareness indicates that the microphone itself would not have been able to withstand temperatures of that kind for any length of time, if dropped into the area; that the microphone was back up the hole away from the more intense heat, it could not have picked up human voices from that distance, but it could pick up the sounds of gases being moved. Had the microphone been dropped further into the cavern, where two thousand degrees of temperature was being experienced, it would have immediately melted and burst into flames.

This Awareness indicates that the story in this sense was a fabrication; in the sense of there being a hole drilled, and running into an area which caused the bit to gyrate wildly, that this part as being accurate; that they did strike a very hot core in the earth.

**DO ALIENS UNDERTSTAND COSMIC LAW?
DOES THE "LAW OF KARMA" APPLY TO THEM?
(The Role of Remorse and Compassion in Karma)**

QUESTION:

Awareness may have covered this question the other night in the overview, but I'll ask it anyway; its from J.C. who writes: "When an alien kills a life-form or a human, do they receive the same karmic retribution as a human would for the same act? If not, why?, and do they understand the Cosmic Laws?"

COSMIC AWARENESS:

This Awareness indicates that for them, they have a different attitude; that this Awareness has indicated previously that karma is the result of your own knowledge of what is right and wrong, and that humans have in-born realization to some degree of right and wrong action, and that there are some humans who suffer less from an incident than do others in terms of karmic debt;

that a more unevolved entity, one whose mind is not all there, upon harming another, would receive less karmic debt than one who consciously knows what he or she is doing and does it irregardless.

This Awareness indicates that the aliens see humans as less than they. The aliens having a more scientific 'matter of fact' way of thinking, do not have the same kind of conscience or compassion that is familiar to humans. If a human harms another, the human understands, at least to some degree, the pain the other is suffering. If an alien harms another, especially these Greys of the Reticuli and the short Orion Greys; these entities tend to be more curious about the pain that the humans express, and see it more as part of their necessary job or part of their right to experiment on humans.

It is as though they were laboratory scientists examining rats. Does a scientist examining a rat have karma for injuring or harming that rat?, or for injecting it with cancer cells? This Awareness indicates that to some extent, a scientist would receive some karma for that action, but if an ordinary person were to inject cancer cells into a rat, it would become so significant to the entity, especially if the entity is compassionate, that the entity would feel greater remorse/repercussion for the act, and in this sense, the entity might feel a greater need to repay for that act. Thus, compassion has much to do with karma and the degree of karma that one receives.

But, you must understand also, that it is the very compassion of an entity that creates remorse, and the remorse allows grace to forgive, thus, as one is more remorseful, even though the karma may be greater for the entity, grace from the Divine Creator is more likely to be administered to that entity who has a sense of compassion, who picks up a greater karma for the act, because the entity is more inclined to feel remorse. Thus, when an entity becomes callous, the degree of karma may diminish, but the escape from that karma through grace is less likely because the entity is less likely to feel remorse.

The Mass Murderer and Other Heinous Crimes

This Awareness indicates therefore, the entities who have indulged in mass-crimes, such as mass-murderers or heinous crimes that have resulted in suffering to the masses, such as those who deliberately cause war and finance war in order that they may profit; these entities may not feel or receive great karma for each entity's death or suffering which they have caused, because they do not feel any great guilt or remorse, but they also have less chance of being forgiven and receiving grace for their crime, and therefore, as they become more aware of what they have actually done, the enormity of their crime may begin to cause them to experience greater frustration and could perhaps at some future time, lead to feelings of remorse; but until they actually feel remorse they suffer karma, but it may not be as great as one would think they should deserve.

Though they may have led to the death and suffering of thousands, their karma may not be a thousand times worse than the entity who has done such to just one. This Awareness indicates this is because they have a lack of realization as to what the enormity of their crime actually is, just as the scientist who, in working on the rat, justifies the action by saying, "Look what I'm doing for humanity! I'm studying the effects of cancer cells on this rat! Perhaps some day I'll understand something that will help people!"

6. This Awareness indicates that there is balance, which helps the entity to cancel out some of the karma toward the rat, by programming himself that there is good to come from this. This Awareness indicates that much of this has to do with the overall and general intention of an individual, and while these aliens, in some cases, have actions that are horrendous to humans, for them it is simply in some cases a matter of their biological survival, much the same as humans feel toward the harvesting of cattle.

This Awareness indicates that in some cases, the aliens actually enjoy the violations perpetrated, especially the short Greys from Orion, and in such cases, there is greater karma for these entities than those who are simply trying to survive. It would be likened unto the karma an entity might receive if torturing the cow before slaughter, as compared to the one who kills the cow in order to feed the family. This Awareness indicates everyone, regardless of what you do, is creating negative karma to one degree or another, depending on what you are doing, and these aliens are not outside the Law of Karma.

The degree of karma depends on whether you are aware of the enormity of your violation, whether you see from your action a necessity that is more than a personal gain, a benefit that counters the karma, which would rack up good karma, for there are such things wherein you harm one to help another. This does not mean that you gain good karma; you may gain some good karma and gain some bad karma. This Awareness indicates that whether the action you create binds you to and obligates you to whoever or whatever you have violated, or whether you are somehow freeing yourself or that person from some kind of pain and karma, for sometimes you may hurt a person in order to free them or prevent them from further hurting themselves, just as the mother who does not let the daughter go out with a certain person because she knows that the daughter will suffer in the long run, a greater pain if she relates to that person.

Is the mother creating bad karma for herself between herself and her daughter, or is she creating good karma? Will the daughter later say, "Thank you, Mom, for keeping me away from him!", or is the daughter later to say, "He is the one I always wanted, but you wouldn't let me have him!" This Awareness indicates that these are all part of the complexities of the *Law of Karma*. Remember, the *Law of Karma* is simply the *Law of Cause and Effect*.

How the Law of Karma Works

If an entity, whether alien or not, harms another entity, whether human or animal, there is karma. The degree of karma varies from case to case, and the beings will suffer according to the event, the effect of their cause, whatever it may be. On the one hand, they may receive the effect of gratification that they now have glandular substances to give them further energy. On the other hand, they have created another case of violation against humans, which in time becomes known, which in time may lead humans to mistrust them, or to go against them, or in some other way to respond to such action.

Thus, they have the effect of their action coming eventually back to them. This Awareness indicates that much of the effect that comes from the causes perpetrated on earth are felt after entities leave the physical body. The *Law of Karma* does not end with the life of the individual,--this in reference to the physical life,--it follows on with the soul, wherever it may go, and that soul may incarnate into a human body or some other creature, and suffer a similar karma at some future time and be devoured or otherwise repaid.

This Awareness indicates the aliens hardly have a soul. It is less than a soul. It is more of an energy form, likened unto a thought-form, made up of a magnetic center, consciousness and appetite. The human soul as that which has a sense of permanency, a connectedness to its origin, to its God-Cell and to all other humans, all other souls. It is this which allows and brings to the human that which is called compassion. It is this compassion that the aliens cannot understand.

This Awareness indicates an alien would find it perplexing to understand the mother who is excessively remorseful at the loss of her child, for the alien does not feel this kind of compassion at losses. It is more of a mathematical question. "This number, this entity, is here in the formula, and then it is dropped out of the formula." It is no longer there, and for them, that completes the formula, as far as that entity is concerned.

This Awareness indicates that in some cases entities must realize that karma is very close to a cause in itself; that if one nails one's foot to the floor, that becomes its own karma. The cause and the effect are the same. If the alien has a certain nature of being, that is its karma. The cause and the effect are the same. In this sense it is perhaps more technologically evolved but is closer in some ways to that of the animal, in which the animal entity cannot overcome its own nature and is therefore 'karmatized' as a cat or a dog, as opposed to the human who is constantly attempting to better itself, or has the capacity to constantly better itself.

What the God-Seed in Humans Accomplishes

This Awareness indicates that the nature of the God-Seed implanted in humans which is lacking in many other forms of life, is that with each succeeding generation, the God-Seed becomes stronger. In this sense, everyone who is human is evolving toward God-Realization, and this evolution toward God-Realization follows stronger with each offspring, or at least the opportunity for this occurs, if it is not programmed out of the humans.

This energy of each succeeding generation to become just slightly more God-like, more aware, more evolved; this is the result of that God-Seed within each individual. There are, of course, influences that can be brought to bear on a human to attempt to destroy or retard that spiritual development, and there are forces that work to accomplish this. If these forces were not present on the earth plane and if humans were allowed to progress naturally and unaffected by these forces, each succeeding generation would become more highly spiritual than the one before.

How to Raise the Children

This Awareness indicates therefore, in raising your children, if you simply give them the space and the opportunity to enfold spiritually, and hold away from them those darker forces and images, giving them the guidance toward light, which they can gain and appreciate, teaching them discernment whereby they can make decisions based on what is good, what is best for all involved, their natural tendency will be to evolve toward the good. It is possible to prevent that.

Entities who program the child to believe that he or she is evil or is bad, by saying such things as "You're a bad little boy! That's naughty! You're mean! You're dumb! You're stupid!"...any of these statements should be looked at as though they were coming from a hyp-

to be filled with suggestions. But if you tell the child: "You're a good little kid, and good little kids help their mother! You're a good little kid, and good little kids don't squirt daddy in the face!", or whatever, but always prefacing it with the statement that is of a positive nature rather than saying something of a negative nature about the child. This Awareness indicates that this will make a big difference.

This Awareness indicates that children at approximately the age of three begin to concern themselves with what people think of them, with the idea of liking and being liked, and if they receive indications that they are not liked, then they begin to not like others also, and it becomes a weapon. "You don't like me, I don't like you!", then they begin to use that as a weapon in other relationships, and before long they are belligerent and hostile to many different people.

Why Humans are a Unique Species

This Awareness indicates that the human being is a unique creation as compared to many of the other aliens, because many of these aliens lack the Divine God-Seed. While they have a lifeforce which comes from the Creator, it does not burn as brightly as with the human being. This Awareness is not indicating that humans are unique in this respect, for there are those higher beings that even have this God-Seed in a brighter and more glowing way.

This Awareness indicates that part of the human uniqueness is that they were an experiment to place humanity with a God Seed and allow it to grow in an environment that was not altogether perfect, but wherein there were pitfalls and giving humanity the freedom of choice, to choose between the more gross and the more Divine paths or directions is that which has made humanity on earth a unique species. It is for this reason that as long as there is the chance, the hope, the potential for human evolution toward greater spiritual expression, the human species will be protected. If it comes to a time wherein the evidence indicates the project was a failure, then the Elohim will turn their back, and allow the experiment to end.

WHAT ARE THE ODDS THE ELOHIM WILL DECIDE THE HUMAN EXPERIMENT IS A FAILURE?

(FOLLOW-UP QUESTION):

What are the odds, roughly, that the Elohim might determine that the experiment overall was a failure?

COSMIC AWARENESS:

This Awareness indicates that this will be largely decided after the events occur in which mankind in general chooses not from ignorance, but from clear realization, whether to follow the aliens for physical safety, or whether to follow their own Divine Destiny. This Awareness indicates that there will be many who tend to follow the alien with the misconception that they are divine teachers here to help, but there will come a time when everyone knows clearly that they are not for the highest good of humanity, and each individual will have a choice.

There are of course, children who will be forced by their parents to follow the choice of the parents. These entities will not be held accountable in that regard. That likewise, even if the human race is exterminated or allowed to simply be devastated

continue in their path toward divinity in some other form or other dimension, or in another planet or realm. It is not to say that you as individuals do not have a chance of continuing, but you may not continue as a particular species, unless you are able to follow the Divine Path that is presented to you from moment to moment,—this in reference to you as a species, not as individuals.

This Awareness indicates that in some instances there may be a separation of those who follow darkness and those who follow light so that a portion of the human race can continue; this will be considered at a different time. This comes to a discussion of that which is akin to the idea of the rapture.

DID THE U.S. ATOM BOMB JAPAN TO DESTROY ALIEN TUNNELS?

QUESTION:

L.K. in Indiana, send in a tape a while back from an outfit in Scottsdale, Arizona, called Extra-Terrestrial Communications Network. Michael and Aurora El Legion are the directors, and he writes: "This tape is full of strange stuff. The main question I have for Awareness is, did, as indicated on the tape, the United States really use nuclear bombs on Japan to destroy tunnels full of alien-made equipment, UFOs, etc.? We took what we wanted then destroyed the leftovers according to the tape. This is a copy of tape No. 26 from this ETCT outfit."

COSMIC AWARENESS:

This Awareness indicates this is in the negative.

WHY ARE SOME TEACHERS AND PHYSICISTS RELEASING INFORMATION ABOUT ALIENS?

We received a letter from member D.M. back East, who, over the years, has kept us informed of some of the adventures she has. She evidently has an antique automobile that she hauls people around in on contract, and Mrs. Nelson Rockefeller, when she comes to town, usually calls this entity to haul her around. There's several questions in this letter that were brought up: "Funds have been a little short lately, but yesterday I chauffeured Mrs. Nelson Rockefeller, Number One, and presto, here is my subscription money. She really is a Grand Dame, very economical, warm and caring, but gives the appearance at 86, of a militant take-charge person, and of course has had to be. I personally feel that the Rockefeller families and many others with lots of money are slaves to the syndicates that control their money. I also feel that if I felt free to discuss the Cooper Report, that she would be as appalled as I am.

I took a course last Winter at night school, which was about things to come in the future, the teacher was an older man, a physicist with the General Electric Space Program. At the last class, he shared with us material like the Cooper Report, and he said it "scared the 'Bejesus' out of him. He also has Project Bluebook, and Project Yellowbook, plus 60 other books of information the government would not like spread around. G.E. has known for six years now that there's a new sun coming at us from another galaxy, and because in 1992 there's a 5-planet L-shaped alignment with our sun, they don't know what the new sun may create. I wonder if that's why the news says lately, they're going to try to do one space shot each month this year.

8. "The Bible says we'll have a new sun and new moon. Will we fly off into another orbit or what? I do a lot of spiritual counselling almost daily, and it's amazing how people are becoming more open and seeking."

The major question I had in this letter was, if there are entities like physicists who are involved in the space program who are disseminating information like this, what are the implications and how prevalent is this actually?

COSMIC AWARENESS:

This Awareness indicates that the more people who do give such information or who hear that it's being given, the greater the likelihood of this information being released. It is for this reason that there is the likelihood of a quicker speed-up release of the acknowledgement of alien presence by the official government. There are, of course, potentials involved when individuals begin releasing information of this nature; that more information than what the government desires will be released and entities will begin to put two and two together and decipher the scenario in a more realistic way than what is being prepared by the government release. Galileo Project Now Completed

The government would prefer to release a certain point of view in regard to the aliens and certain information, while withholding other information, but it looks as though the information is coming out of the woodwork to the point wherein the government will have some difficulty in stopping all of the information from being released before it has its preparation ready for presentation. You will recall in the Cooper information, in his tape, *An Evening with Bill Cooper*, that he spoke of the Galileo Project in which there would be a launch of plutonium; this has taken place. The plutonium launch was to be sent toward Jupiter in accordance with the Cooper tape, in an attempt to turn Jupiter into a sun.

The fact being that Jupiter is already a sun being born, and that as it is affected by the plutonium, it becomes even stronger, and speeds up the process, as described in the book *2010*,—that this being a part of the future scenario. That it appears the purpose is to create a different atmosphere on earth, which will allow for new forcefields and energies and the development of new materials, and a totally new form of atmosphere.

There will also be other biological changes that occur. This is helpful to the purposes of the aliens. This Awareness indicates that the professor, in releasing this information as but one of many who are finding the courage to say things that have long been held in secrecy. There are many who are tired of being part of the conspiracy to keep the masses ignorant and therefore are beginning to speak out. Many of these entities know they have only a short time to live, and see no reason to carry secrets to the grave which should be given to the masses, in order that the masses be able to think from a reality rather than from an illusion.

THE 'DIVINE SPARK'—A REAL THREAT TO THE ALIENS

(Closing Message):

This Awareness indicates that the greatest hope for humanity is in cultivating that Divine Spark within. The aliens have no comprehension or understanding of how to deal with this. They have some curiosity. They also have some fear of what the Divine Spark is, because they know that if the Divine Spark is strong enough, it can call forth forces from the universe that

are in sympathetic vibration to that Divine Spark, which could overpower them in their purposes. This Awareness indicates this is in reference to both those forces emanating from the Pleiades, Sirius, and also from other realms, and dimensions.

WHY IS EARTH A "LAGGARD" IN TERMS OF ITS EVOLVEMENT AMONG PLANETS?

QUESTION:

A question from J.W. in California. "Awareness has said that the planet earth is something of a laggard in terms of evolvement of the other planets in this and other systems. Why? The rate of evolvement seems built into the system."

COSMIC AWARENESS:

This Awareness indicates that much of this was touched upon in the reading yesterday, wherein this Awareness discussed the use of the planet earth as being a kind of dumping ground for genetic engineering projects in other parts of the galaxy that had not measured up to standard, and also for the isolation of certain types of beings whose evaluation or sensitivities were somewhat imbalanced; that part of this imbalance in the system also had to do with events that occurred on the earth plane in the past; this in reference to the inability of the earth to progress or to evolve as quickly as has occurred in other areas.

This Awareness indicates that much of the work of Sitchin touched upon catastrophes of the past on the earth plane and in the solar system relating to planetary disturbances and these having some effect on the earth and its evolution; that the works of Velikovsky also touches on this effect on the earth of planetary bodies which created disturbances to the evolution of earth, setting it back many thousand of years in its growth factor, in its evolutionary cycle; that these two writers are in a similar frame of research, though they come to different conclusions.

This Awareness indicates that the movement of the heavenly bodies and the disturbances, especially that of the planet Maldek, which, when being destroyed, created the asteroid belt, this, and its effect on other planets in the local area as having caused much of the disturbance to both Mars and earth, causing the breakdown of civilization, actually leading to the destruction of civilization of Mars. This Awareness indicates that from this event, great retardation of the earth's societies and evolution occurred, wherein societies, cultures, nations were literally destroyed and had to start over again; that this as being a major reason why earth is in a position of being a laggard of civilized planets.

This Awareness indicates however, that in recent times there has been great progress; even within the past century this progress has been of such nature that at least in the technological levels, great progress has occurred. In terms of the spiritual and intellectual levels from a philosophical point of view, there is still much that needs to be learned before entities can become balanced in terms of the total or holistic point of view. That wherein entities begin to think globally and think in terms of the place of the earth in its field of existence in the galaxy along with the other inhabited planets, then it will be generally reaching a sense of equality or inclusion, along with others that have developed within the galaxy.

This Awareness indicates when this occurs, there will be great cultural exchange in terms of history of the galaxy, in terms of information about the different types of beings in various places within the galaxy, their locations and the greater overall nature of the galaxy and the universe itself. This will make your present knowledge about history and concepts about philosophy and religion pale in comparison. This Awareness indicates that there has been much information regarding the galaxy and its history given to the ancient historians on earth, but much of this was destroyed or hidden away, in the destruction of the library at Alexandria, when invaded by the Romans.

HOW COME HUMANS MADE AN ALLIANCE WITH THE GREYS INSTEAD OF THE "GOOD GUYS"?

QUESTION:

A question from S.W., Manchester, England, along this same line. He asks: "What is it that makes humanity pick the wrong way? Life in its natural form is a struggle, but we seem to have to insist that we make it more difficult." He was referring earlier to alien information.

COSMIC AWARENESS:

This Awareness indicates this appears to be in reference to the humans picking the wrong aliens to join venture with; this in reference to choosing to work with the Greys instead of working with the Andromedeans and Pleiadeans. That this tends to be in this case, a choice by certain entities on earth who had the control and who had the vested interest in keeping that control and promoting their control in the face of new information and new elements that they previously had not reckoned with,--this being the Greys, who offered them certain types of technology in exchange for help with the agreement of keeping the entire situation secret.

This Awareness indicates these persons involved in creating this agreement with the Orion Greys had the option or had the warning from humans, from the Andromedan group to be careful in dealing with the Greys, warning them that it would be harmful to humans, but chose to do so because the human counterparts would only give assistance on the condition that the United States government lay down its nuclear arms, to disarm as a nuclear power, when it had just reached this state of becoming the most powerful country in the world, because of nuclear power, and this seemed to these entities to be quite an extreme price to pay to work with entities who claimed that they were good and that their counterpart, the Greys, were not good for humans.

This Awareness indicates that when a group of people have long pursued power, they are not likely to lay down the most powerful weapon they possess based on a promise that they will be protected by a group of human types from outer space when confronted with an option of accepting the technology of a group of nonhuman types from outer space that have approached them to share technology and create a working relationship, based on some kind of agreement which allows the humans to keep their nuclear weapons intact.

This Awareness indicates that in this deal, the humans got the best of both worlds: getting to keep their nuclear weapons, and also getting greater technology from the Greys; and therefore, being the type who seek more and more power, they gained more and more power by working with the Greys, rather than giving up power

rusting in the human counterparts from Andromeda. was essentially the essence of the exchange in the 40s and early '50s that led to this alliance, and it in the assumption of these humans that by going he power they would remain in power and remain control and could have greater chance of gaining trol, even over the Greys when the time came and in necessary.

Essentially, that was a choice based on the pursuit power, believing that power gave them more than y might have received from the more spiritually entened humans that had approached them. This awareness indicates that the Pleiadeans and the Andnedean both have made offers to assist, but in both ses their offers have been rejected because they did it offer enough power, whereas the Greys allowed the emans to keep their nuclear weapons and also allowed em a certain amount of technology of their own in xchange for assistance from the earth humans.

This Awareness indicates that this generally reflects he basic thinking of many entities on this plane in egard to any kind of commercial deals wherein people end to go for the power, the money, rather than the etchical choices that are offered.

ARE MORE "ETHICAL" DECISIONS BEING MADE NOW THAT THE ALIEN PRESENCE IS KNOWN?

(Follow-Up: Vikki):

I wanted to ask for a comment in relation to this last question about the basis that the decisions have been made up to this point, for corporations or for government people being that ethics have been basically in the back door. Now it seems that at this time the climate may be changing, that they're ready to make their decisions more on an ethical basis. Is that what's happening now?

COSMIC AWARENESS:

This Awareness indicates that there is being recognized the reality that the Greys are not trustworthy, even if they have signed contracts and agreements; that they simply signed contracts and agreements in order to get something in return and they do not feel themselves to be bound by those contracts or agreements, if they can get by without being caught, circumventing those agreements. It is also being recognized by these entities that the Greys do not have all the power that they originally implied they had, and are simply subservient beings to an even more ominous group of extraterrestrials who set them up to come to the earth to prepare it for their later arrival; this being the Reptilian class of beings from Draco.

This Awareness indicates that the contract with the Greys by these entities, these human entities, will be worth nothing once the Draco Reptilians arrive, because they realize the contracts will not necessarily be honored by the Reptilians, and therefore, they see themselves as having been used by the Greys for purposes they did not fully understand at the beginning. Therefore, they are having second thoughts about how to deal with the total situation. It is for this reason that much of the support for the Greys is being curtailed, and that the countries are merging together through new treaties, breakdowns in the Cold War, efforts to reconcile differences in order that all human nations can become more and unified in the event of a war with

being up by 1997; that if they have not become enough by 1997, then the earth will fall to these extraterrestrials.

New Thinking on "Alternative 003"

This Awareness indicates that there has been some information released by different sources in the UFO field, suggesting that the government officials were planning to move to Mars, setting up colonies there under the Alternative 003 program, whereby they would be safe to start humanity over, but would simply abandon the human race to the aliens and to all if its ills, in terms of ecological disasters and economic disasters, and that much of the money being taken was being transferred to projects relating to the Alternative 003 efforts.

This Awareness indicates that while much has been funneled toward the Alternative 003 efforts, that project is now seen as being futile because a small base on Mars held by super-wealthy or socially important individuals who have managed to escape from earth, or even intelligent scientists who have been brought there to help, would be of little value to the human race or to themselves as a place of refuge, because the aliens, while being appreciative that the humans have spent so much industry, money and time creating such a base, would simply destroy the humans and take over the base for themselves, and the humans would have much less chance of protection or survival in such a small outpost on Mars than they would have working with humans on earth to try to save the planet and keep things together.

Therefore, because of this, the latest approach that makes sense and which this Awareness sees as being the one that the humans will more likely settle on, is to defend the earth against the Reptilian invaders, either with or without the help of the Greys who are present on earth. If an agreement can be made to work with the Greys to keep the Reptilians away, the humans would choose the scenario. If the Greys refuse to work with the humans and continue to work for the Reptilian masters, then the humans would need to be at war with both the Greys and the Reptilian masters.

"Element 115" Possessed by the Greys--A Doomsday Bomb

This Awareness indicates that there is a substance called Element 115 which the Greys have that is of such enormous power; it is much more powerful than any nuclear substance on earth and a very small drop or particle of this substance can have the power of a nuclear weapon. It is this substance that is used in piloting the spacecraft. This can be manufactured only where there are dual suns, and cannot be manufactured on earth.

This Awareness indicates that with this substance, it is an alternative scenario that appears to have some merit in regard to earth plans of keeping the Reptilians from approaching earth or coming to earth, for this substance can also be used as a doomsday bomb to be launched at the satellite or asteroid in which the Reptilians would approach earth, so that they would be destroyed before they even arrive on earth. That this is one of the potential scenarios that is considered in dealing with the problem. It would require the use of this substance, Element 115 and a vehicle to launch this; that the spacecraft would serve as such vehicles more effectively than a rocket or missile which could be easily destroyed before it arrives at its target.

This Awareness indicates that It wishes to state in kind of aside, the information that was just given has been made public in or through other sources. It is

11
by the government, therefore, readers need not feel that they must rush to the local FBI office with this reading.

This Awareness indicates that this occasionally occurs with information which this Awareness gives, wherein entities feel they must run and tell their local police officer or government agent or Congressperson. This Awareness indicates that this information is available, and has been given in sources through UFO magazines and through exposes by Robert Lazar and others.

THE GAIN IN GLOBAL CONSCIOUSNESS: IS THIS FROM THE NEW VIBRATIONS ?

(MORE ON THE FORTHCOMING 'HARVEST')

(Follow-Up Question: Vikki):

So the apparent gains in global consciousness isn't just from the new vibrations coming in, but is also, or primarily from the preparation of having to deal with these Reptilians?

COSMIC AWARENESS:

This Awareness indicates that the global gains have to do with the vibrations that are presently affecting the earth plane. The approach of the Reptilians and the present-day association with the Greys as being simply an event that is pre-timed to this time period. It is that which was put into a kind of computerized time table that when humanity reached a certain state of development, the population reached a certain level on earth; then there would be the so-called 'harvest'.

This Awareness indicates that this harvest as that which relates to the feeding of masses of Reptilians who eat human flesh, as humans eat cattle. This Awareness indicates that there is also a number of other time-tables for the earth at this present state that have more benevolent purposes. The Pleiadeans for example, who worked with humans some 7 thousand years ago had as their time-table the intention of returning to help set up and to strengthen the earth into a more or less paradise, comparable to life on their planet.

This Awareness indicates that they, however, have run into considerable difficulties in their war with the Greys from Orion, and are therefore set behind in their efforts to be of assistance to entities on earth. This Awareness indicates that the New Age energies are not necessarily related to these events. The energies are still present, just as summer and winter and fall and spring energies occur cyclicly, regardless of whether one country is invading another or not. In the case of New Age energies at this time, the New Age energies allow for a higher frequency which increases awareness, consciousness, and increase the capacity for entities to understand more than they have understood before. For one thing, they experience less of an emotional gravitational pull and more of a mental and spiritual or radiation in their being. This Awareness indicates the New Age energies are more in terms of head than heart; that the head and heart can still work together, but the emphasis has shifted away from passions to that which is more of a thoughtful or consciousness level, rather than simply subconscious emotions of a thalamus type which have tended to dominate during the Piscean Age.

In other words, entities are now more in control of choices whereas before they were reacting in a kind of unconscious level. This Awareness indicates the new consciousness of the New Age will allow entities to better adjust to these changes that are happening, for it can be done on a more cerebral level rather than on

the thalamus levels which would tend to acerbate greater fear and greater panic.

WILL THE 'NEW VIBRATIONS' SAVE US FROM AN ALIEN TAKEOVER OF EARTH?

(Follow-Up Question: Vikki):

It just seems that the New Age vibration is providing the only possible tool or possibility for humankind to react in a way that might get us out of this predicament.

COSMIC AWARENESS:

This is in the affirmative. That were humans to experience and express themselves with panic, they would be as dangerous to each other as would be the aliens, if not more so. They would be pointing fingers, blaming each other and essentially rioting with great fear and panic. Chaos would reign. However, because of these new energies in which entities have been gradually programmed and accustomed, partly because of the energies demanding the unusual, the strange and the out of norm stimulus, entities now having watched and seen the most unusual things in television, movies, and having read the the most bizarre type stories in tabloids, do not tend to react emotionally with such panic when confronted with bizarre things in reality.

Thus, the preparation of consciousness for bizarre reality has occurred partly because the New Age vibrations tend to draw entities toward the unusual, the bizarre, the strange. That is the nature of Uranus, which rules Aquarius, in to which this age is moving. That thus, in this sense, there is a connection between the vibration and the conditioning that is necessary for humans to accept bizarre reality in order to survive, and in the acceptance of this bizzare reality, entities having had all this conditioning from movies, tabloids and television, will also be less emotional and more cerebral, and will be more able to work together in a kind of unified action.

This Awareness also appreciates the reference the Interpreter's daughter made when confronted with the information relating to UFO space aliens on earth in which she remarked that she had known from the age of 13 that we would be at war in space with space aliens. The Interpreter asking how she knew this was told "Because of the video games! They were all set there to condition the younger generation for the war that would be coming!" This Awareness indicates that this was a keen perception; that the video games were part of the conditioning of the human race, the younger generation, which would in time be conditioned in the event of a war in space, in which computers would be used aboard ships in these craft to fight against space invaders.

This Awareness indicates that this as a strong potential scenario for the future.

ED's Note: As a matter of fact, this idea was depicted in the 1984 movie, "The Last Starfighter," in which teenager Alex (Lance Guest) becomes so proficient at the 'Starfighter' video game, that he is whisked off into space by some extraterrestrials who need his help to save the universe from very wicked reptile-looking aliens.

...When the "official" announcement of aliens comes:

HOW COULD ALL RADIO AND TV STATIONS WORLDWIDE BE CONTROLLED ?

QUESTION:

S.W. had one other question. "How can they take over all world-wide radio and TV networks and so forth, unless we are already inundated with moles in every media?" (I think he's referring to the scenario).

COSMIC AWARENESS:

This Awareness indicates that most of these world-wide networks are syndicated and under some jurisdiction or controls especially when there is a national emergency or martial law scenario in place, wherein the govern-

IS THIS THE WORLD'S FIRST INTERVIEW WITH AN ALIEN FROM OUTER SPACE?

(MORE ON THE PHONY ALIEN LANDING SCENARIO)

QUESTION:

In the February, 1990, issue of *Penthouse* magazine, they reprinted an excerpt from a tabloid story. I'd like to read this briefly and ask Awareness if this information is true. It says:

"Space Alien Gives Interview. A French journalist awoke one morning to find a flying saucer on his lawn and a space alien knocking on his door. Rather than run screaming down the street, as most of us would do, this news hound snatched his pad and pencil and conducted the world's first interview with a being from another planet. The blond-haired, blue-eyed E.T. told the journalist, "I am Bertan, speaking for the inhabitants of Det." Bertan went on to say that civilizations from 14 planets want earth's resources, land, and wealth. In return, they will cure our illnesses, banish our strife, and bring us heaven on earth. When asked what would happen if the earthlings resisted their outer space efforts, Bertan replied: "If they do not cooperate, they will be banished. The universe has many planets. You may be sent to any of them." Before glowing bright blue and disappearing into thin air, Bertan added, "Your weapons are useless against us... You saw our power in your Soviet Union when a nuclear power plant exploded in Chernobyl. You have seen our power in the AIDS virus you fear so much. We also have weapons to terrify, to shred each nerve-to bring horrors out of your worst nightmares."

Is there any truth at all to that story?

COSMIC AWARENESS:

This Awareness indicates that this appears to have a substance of truth, but that it is a plant in the sense of a preparation for things to come. Much of the information given by this entity is inaccurate; that this as being one who works for the Greys and who has begun the preparation for the conditioning that is desired by these entities. This Awareness indicates the plan is that the announcement of the space contacts and alien presence on earth will be presented along with promises to heal the world's great problems, including the diseases and the financial ills and so forth, in exchange for cooperation.

This will be offered, not through the Greys making their appearance, but through their lackeys who are blond nordic types. That these are hard to distinguish

12. ment then can dictate the control and use of broadcasting stations for specific purposes, in which case, the majority of these could be controlled by those who have certain purposes in programming the masses. Of course, this does not relate to some individual stations in some small locale or some little ham broadcasting station or individual who may act in a renegade fashion to make broadcasts of his or her own that is counterproductive to the purposes of the official line. But how long can such a station hold out?

This Awareness indicates that the time for broadcasts in order to direct information to the people does not need to be of any long duration. There can be three or four days of intense information being broadcast and 95 percent of the people would hear the news, or more than 95 percent.

from the Pleiadeans; the Pleiadeans having larger eye-lobes, and hair lower on the forehead. The blond nordic types are humanoids, are human types working for the Greys. This Awareness indicates that these will be more acceptable to interface with the human masses and will make the promises as has been suggested in the book by Stan Deyo, *Cosmic Conspiracy*.

This Awareness indicates that the plan being to announce their presence, their potential to help save mankind. It will in fact give the appearance of being almost out of the *Book of Revelation*, and most humans will tend to buy into it. That this then will set up the foundation for the One-World Government that would be operated from behind the scenes by the Greys in preparation for the Reptilians and interfaced for humans by the blond nordic types, who will appear to be very benevolent in nature.

This Awareness indicates that one of the great commodities that entities from other places seek from the earth is its water. Another is its abundance of human beings, not to mention the general wealth and the minerals available.

WHAT ABOUT THE MAITREYA SCENARIO ?

QUESTION:

Wasn't that the same general scenario Awareness indicated some years back, that this Maitreya whom they're holding back in the wings would come forth and create these miracles and healings? Is that basically the same?

COSMIC AWARENESS:

This is in the affirmative; that the actual antichrist which would be part of such a scenario would never really be presented to the public; there would be a substitute put forth, an entity who would speak forth as a new world messiah or leader, but the one who is actually behind the action would remain unseen and would direct things from behind the scenes.

This Awareness indicates that you must understand this is also an alternative scenario built on alien plans which are not necessarily the plans of your government. There are some in the government who want to accommodate and go along with the aliens and their plans for setting up this One-World Government to prepare for

the approach of the Reptilians, but there are also many who do not adhere to this plan and are working to alter the aliens' plan. This Awareness indicates that there is even a conflict between the aliens in regard to this kind of planning; that as previously mentioned, there are only about 25% of the Zeta Reticuli who are actually extremely hostile to humans. About 50% are more into double-dealing or careful negotiating and about 25% are genuine in efforts to be compatible with humans.

With this kind of spectrum among the Zetas there is also seen considerable amount of potential for various options to occur out of that spectrum, for there can be cross-currents in terms of their own plans and their own procedures. That in other words, nothing is fixed at this time. There are many elements promoting their own special interest, and this event described in the question as but one element of one promoted interest.

ED's Note: that Maitreya bird Benjamin Creme has been promoting for years, is still hanging in there. Members keep sending me stories and other information planted about this entity and his amazing healings (he allegedly cured a man of AIDS recently). Whether the Tara Center people are aware they are being bilked by the aliens, I'm not sure. However there has been information that Rothschild money is behind the promotion of this entity. (I'm continually being amazed at how many people are swallowing this scenario).

HOW MANY IN CONGRESS READ COOPER'S REPORT?

QUESTION:

It has been reported that William Cooper and others have mailed to every Congressman his lengthy report on the aliens. I'd like to ask specifically, roughly how many, if any, senators for example, ever read that report, and if so, how many took it seriously? In other words, how extensive is this knowledge in the Senate and possibly in the House of Representatives right now?

COSMIC AWARENESS:

This Awareness indicates that it appears about one third of these entities read the material completely. Approximately one-third skimmed it, read part of it, and tossed it aside without much thought. Approximately one-third did not even read the material at all.

FOLLOW-UP QUESTION:

Does it appear any action was taken, any hearings...?

COSMIC AWARENESS:

This Awareness indicates that it appears most of these entities did not know what to do with the information as it was so totally foreign to their level of expertise and those who had some knowledge were more stunned or shocked that this information was being released, than ready to act on the information. However, the fact that they are aware the information was released and that it has gone to many people has created a different element in the equation, so that at some later time, the incident may become an issue for them to deal with.

This Awareness indicates that it does not appear that it will receive any greater attention than has the Christic Institute's information regarding the Secret Team and the drug-running of cartels through Nicaragua with the cooperation of the CIA as received from Congress, but Congress will tend to act only when and if it becomes the popular thing to do. Then they will hop on the band wagon, so to speak. This Awareness does not see that

13. there will be much reason to hope for anything or expect anything of significance to come from these people in Congress in regard to this.

This Awareness indicates that at some later time, if the masses become so highly aware of what is occurring that they then are inundated by demands for investigations, they would no doubt conduct an investigation that might serve to unfold what is already known, to a wider public, but even then they would not be likely to bring out any more than is already public.

After the Announcement: What Happens to Dissidents?

This Awareness indicates that in regard to the question previously, there was the reference to transporting of entities who were not cooperative to other planets. This Awareness indicates that this would be seen as a threat and way of dealing with dissidents in society who do not willingly go along with the alien rule of the planet; that this is seen as the general process by which the new announcement of alien presence might be released, wherein any entity who gives forth information that is not of the official line would then be classed as dissidents or troublemakers and would be arrested and taken away.

This Awareness indicates these entities would not likely be transported to other planets, but would likely be simply eliminated. They could be dropped off anywhere in outer space or out of sight. This, of course, is unclear at this time as to what determination these entities might have in the event such would occur. It is still in a hypothetical level. It does not wish to convey that this would be an absolute end to dissidents.

WHAT IS THAT "MIND SHATTERING" HUM PEOPLE ARE EXPERIENCING AROUND THE WORLD?

(MORE ON PSIONICS EXPERIMENTS)

QUESTION:

Several members have sent in a tabloid article from *Weekly World News*, dated April 17th, 1990, including W.H., who sent this one, and I'd like to read this and ask if is something that's valid, and people should be concerned. I'll read the article:

"Millions of helpless people in Europe, Asia and Africa are being tortured beyond belief by a mind-shattering hum that's slowly destroying their sanity--and this unseen horror may soon echo across America.

And when it reaches our shores, millions of new victims will find there is no escaping the agonizing pain that has caused 31 suicides so far. Victims have jumped from bridges and thrown themselves in front of trains. At least seven have shot themselves.

British author Regina Cullen is a woman locked in a desperate struggle to rid herself of the droning horror that has destroyed her life. In her desperation, Miss Cullen hopes her copper teepee will bring blessed relief from the tormenting hum...much the way copper bracelets are believed to alleviate the agony of arthritis who wear them.

"Every night, I stay up as late as I can so I'll be tired enough to sleep," she said in a voice drained of emotion.

"Then I climb into a copper-lined teepee and pray to God that I'll find some peace from that fiendish hum that stabs into my brain like a white-hot poker."

But there is no blessed relief. The hum pierces her home-made "coffin" like a screaming drill and Regina Cullen suffers through another long night of unrelenting agony.

"I have endured that horror for four years," the 44-year old victim said. "I've moved 33 times, but the hum trails me like a shadow."

But Miss Cullen isn't alone in her misery. Britain's Royal Society of Medicine says it has received reports from about 100,000 people who say the insidious hum is driving them stark raving mad.

The story is the same in other parts of the globe...in Africa, India, China...even in the Soviet Union.

In Moscow, where more than 50,000 people have been stricken by the droning menace, Marie Duiseev, a researcher at the Soviet Academy of Science, was found writhing and screaming in agony on the floor of her laboratory.

"She had complained of severe headaches and of a humming sound in her ears, but we really thought nothing of it," a colleague said. "But when I found her on the floor, I knew something terrible was wrong. She was ripping clumps of hair from her head. She was like a mad dog. It took five big men to hold her still for a sedative shot.

Dr. Duiseev underwent a series of brain scans which indicated no abnormalities. Then during one scan, her face suddenly twisted in a grotesque mask of pain. The hum had returned.

"We couldn't hear it, but the scan showed that something was causing Marie terrible pain," said Dr. Vladimir Zonenko.

In China, a Catholic missionary nun being treated for what was believed to be mental fatigue, was finally driven to the unthinkable—she took her own life.

"She told us she was being driven mad by a constant humming sound," another nun revealed.

"But we thought it was just her imagination."

Efforts to uncover the source of the mind-shattering sound have left scientists totally dumbfounded.

"We know something horrible is happening to an enormous number of people," one British researcher said. "We haven't the foggiest clue as to what it is."

In recent weeks, new outbreaks of hum attacks have occurred in Central America, and experts now fear it will soon spread to the U.S.

"Millions of Americans will suffer the most intense pain imaginable if something isn't done," the researcher added. "I pray to God the answer is found in time to save them."

That's the end of the article. Is there any truth to that story, and if so, could Awareness explain what is going on?

COSMIC AWARENESS:

This Awareness indicates that it appears there are some elements of truth, much of the story has been based on a truth; some exaggerations seem to have been implanted with the information. It appears however, that this is the work of entities involved in extra low frequency experiments, using a technology that identifies with certain vibratory frequencies similar to that which relates to radionics, in which an entity's vibration is tuned in to, or in this case, any group of entities within a certain range of vibration are tapped by that extra low frequency that taps their personal vibration, is affected by this energy. It appears this is part of an experiment in relation to population control research, in a type of research that has not yet been perfected to the purposes desired.

It is being worked on in order to have it available for attuning to different entities operating on different frequencies; that in this way it could be used to wipe out entire groups of entities whose vibrations are of a certain frequency. Thus, it could serve as a weapon to destroy entities of either very low vibratory rate, or of a very high vibratory rate, or anywhere in the middle, depending on how the weapon would be used. Thus, they could single out certain spiritually inclined entities, or certain criminally inclined entities, or entities having mental retardation or entities of high intellectual development;

By simply attuning to that frequency, they could destroy an entire class of entities without being seen or without the weapon ever being clearly understood.

FOLLOW-UP QUESTION:

Is there any preventive measures available for people who are subjected to this sound?

14 COSMIC AWARENESS:

This Awareness indicates that it appears the only prevention is to keep one's aura strong and to send light to the operator, wrapping the operator of the machine in light, to help raise the vibration of the operator to where he or she would not continue such action. By keeping one's own aura strong, one can prevent that vibration from penetrating. There is also some benefit in having a crystal present, preferably a large quartz crystal present when such a sound is heard.

This Awareness indicates however, you must understand, so far, that this is highly exaggerated. The entities writing the report have interviewed entities in a way that tends to suggest, through the questioning process, such as asking them if they ever hear humming sounds and so forth, and in many cases the average individual has or does hear such humming sounds, and because these entities were focused on this particular story, they would take ordinary incidents that had other explanations and incorporate them into the story, making it seem much more exaggerated than it really was.

This Awareness indicates however, that this is not to say that there is no substance for this story. There are certain events that have occurred and do occur with individuals who are suffering from this because of these experiments. The implication that it is including thousands of people tends to exaggerate. The suggestion that it is occurring all over the world and is coming your way is also a kind of dramatic overdramatization. These experiments are being conducted in England, in certain places in Europe. There is seen such in Germany, and there are some in Russia.

This Awareness indicates that in some instances, the distance means nothing, therefore, entities in different places may fit the vibratory rate and therefore, feel the vibration, for radionics does not work in terms of how far away a person is, it works in terms of the frequency attunement, sympathetic vibration. If one is in China or one is in the next room, the frequency vibration is the same; that this is why even though the machines may be located in only one or two places, the experiences may be felt in different places by entities who have an affinity to that particular vibration, by entities who fit within the vibratory range being used.

Aliens Underground Also Create Weird Sounds

This Awareness wishes also to suggest a different sound or concern that some entities may confuse with this particular thing. It is of a different nature; that there are and have been during the past twenty years especially considerable number of underground caverns, tunnels, networking between UFO bases. Some of these travel for many miles, going through countryside, going through mountainous regions, and entities who live anywhere near these may experience the sound, may hear the sound or feel the vibration. These have been reported for several decades by entities wherein they speak of what sounds like a truck going up a mountain hill, but never reaching the peak.

This Awareness indicates that this is the sound of the underground machine tunneling the highways or caverns between these various bases of the aliens; that the Interpreter has a map showing some of these in a publication that would be helpful for entities to see, to understand if they are located in some way near these underground cavern spaces or tunnels. **
