Helping People Become Aware

THE WEB OF CONSPIRACY (THE ALIEN PRESENCE): Part 9: THE FORCE BEHIND THE ALIEN FORCE

GODS GONE MAD ...

The GIZA GROUP

(Opening Message, C.A.C. General Reading)
March 2, 1991

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'Indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Paul Shockley, Interpreter

This Awareness indicates that the times are quite critical in that change is imminent and the question of whether the change will be for the better or for the worse is the ultimate concern. This Awareness suggests that the previous discussions relating to the New World Order that is being promoted, as that which need to be given great attention by those who would preserve the freedoms that are presently blessing them, so that these freedoms can extend to the next generation and the generations thereafter.

This Awareness indicates that it is important that entities make careful use of the correct wording in the promotion of a New World Order so that it is indeed a Democratic World Order. This Awareness suggests that the sample letter written by Vikki T. as that which serves the purpose well; that such a letter needs to be broadcast far and wide, not necessarily using the exact words, but using the same concept, putting it in your own individual words.*

This Awareness suggests that it is not sufficient simply to get it in newspapers as articles or letters to the editor. It should also be sent to people who may have some influence, such as those in Congress, those in society who influence numbers, such as ministers, corporation heads and business people who come in contact with large numbers of people or who influence large numbers of people.

This Awareness indicates that in addition to letters such as this it suggests the concept of a bumper sticker, in which, for example, the statement: "The New World Democratic Order," wherein 'democracy' or 'democratic' is printed in a different color that is outstanding from the others, and then, a subtitle in smaller letters: "Will it include the Bill of Rights?" This Awareness suggests that this puts the entire issue into a nutshell or very concise question or thought for people to ponder. This Awareness indicates that such bumper stickers, made available to all the membership would help to spread the question and concepts through many states, many cities, as the cars are driven, carrying these questions to the masses.

This Awareness indicates that it would also be beneficial for the membership to promote such bumper stickers, to have them on hand, to give or sell to their friends and neighbors, to help spread this even further; that this is a way in which you can have an effect on the future, by the use of the Law of Leverage and communication, acting on the present.

*ED's Note: The sample letter Awareness mentioned was printed on the back page of 'Revelations of Awareness' No.91-5; (The New Democratic World Order): \$3.00 from C.A.C.

We have designed and ordered a bumper sticker based on the suggestions of Awareness. If they arrive from the printer in time, we will try to insert them with this current mailing. The printer assures us these bumper stickers are 'high-tech' in that they are guaranteed 'removable' from your car's bumper at any time you wish to remove them. (These being made from high quality vinyl).

THE WEB OF CONSPIRACY (PART 9): THE FORCE BEHIND THE ALIEN FORCE

AN UPDATE ON 'NEMESIS' THE REPTOID-FILLED SATELLITE NOW APPROACHING THE EARTH

(C.A.C. General Reading, December 14, 1990)

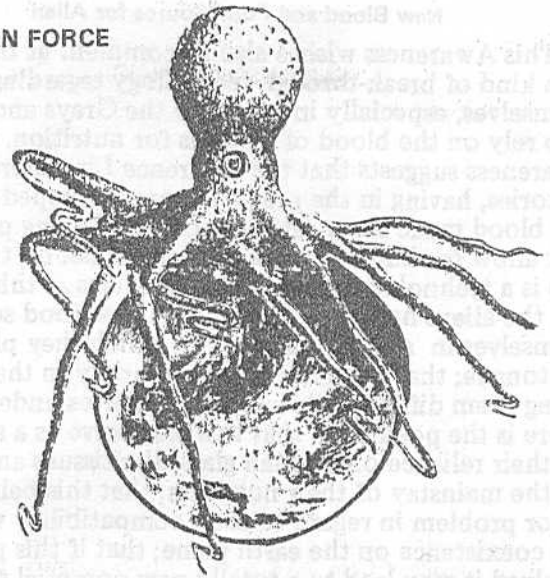

OPENING MESSAGE:

This Awareness indicates there is some area of update in regard to the information relating to that which was given last month, particularly in reference to that known as Nemesis, and in regard to events that have transpired in the news between that time and now. This Awareness indicates that *It* had previously indicated a satellite being that which was approximately the size of, or smaller than your moon, as being outside the orbit of Pluto. This Awareness indicates that this as the command post; that there is also a larger satellite, approximately the size of Jupiter in that area outside the orbit of Pluto, which is cold, being somewhat close of absolute zero in temperature, it being a satellite on which Reptoid military personnel have been stored in a frozen condition for awakening at a later time.

This Awareness indicates that this has been a technology used by the aliens for preparation of their reentry into the solar system through the use of the smaller satellite. That this would of course require the thawing out of these military beings and transporting them to the small moon for entry into the solar system. During the previous month, you may recall the broadcast and publicity regarding a great storm on Saturn, registering three times the size of the earth, creating dust storms on the planet Saturn. If you recall also, the satellite launching over a year ago in which it was said to be laden with certain plutonium and there were protests for fear it might not get off the ground and the plutonium would contaminate the earth. You may also be aware of William Cooper stating that there were 52 pounds of plutonium on that satellite. This Awareness suggests that it was said at the time of the launch that the satellite would take approximately a year to reach Jupiter, which was said to be its target.

This Awareness indicates that the energy is not absolutely certain at this time in regard to this, but it does appear that this was used to strike Saturn as a kind of marker in a test to see if a satellite could be made to hit a target deep in space, such as an incoming moon. That the question may be asked: Why was the Hubble telescope which was designed to be looking out into the outer regions of space, toward the edge of the universe, why was it focused at that precise time of the storm on the planet Saturn?

It is highly unlikely that it was a mere accident that it was focused on Saturn at the time a storm three times the size of earth suddenly occurred. It is more likely that the time of landing of that satellite was known and it was looking to see if it hit its mark and if the shot was accurate. This Awareness suggests rather that this as a kind of test, in preparation for the potential of the moon of Nemesis entering into the solar system laden with Reptilian warriors, preparing to invade earth; that this might become a target deep in space to prevent such a landing on earth.

This Awareness indicates that this is but suggestion; *It* is not extending this information as fact, or in any way suggesting the release of confidential or secret information from any sources other than conjecture. *It* is simply indicating that the evidence implies this to be the case; that entities who might wish to research the Nemesis information may look in the library for reports related to the infrared telescope system used in the early 1980s in which newspapers at the time reported the presence of this body larger than Jupiter and being extremely cold, approximately 40 degrees above absolute zero.*

*ED's Note: One of these articles, from the New York Times, was reprinted on the back page of 'Revelations of Awareness' Issue No. 91-3 (*The Prelude to War in the Middle East. The article is titled: "Government Scientists Call Newly Discovered Heavenly Object a Stray Asteroid."*)

This Awareness indicates that the information was reported and then for the rest of the decade, no further information has been given except in the sense of the tabloid type articles and rumors referring to potential invasion from outer space, by beings other than terrestrial. Another question entities might have is why the Hubble telescope was said to be needing its focus adjusted, its mirrors and lenses altered after it had taken a number of shots.

This Awareness indicates that the telescope as being altered for different purposes in keeping track of its projected mission. This as being to watch and to follow the movement of Nemesis; this Nemesis as having been reported to have moved forward with the other planets and then to have stopped and to have moved in reverse direction. That this not being in the sense of natural retrograde as commonly suggested by the movement of the earth in its orbit that is commonly witnessed in regard to other planets. It is more as though the Nemesis had its own control system, allowing it to change direction of its orbit and movements.

Those who have read the Sitchin books may recall that Zechariah Sitchin suggested that the aliens, in leaving the planet earth some several thousand years ago, would return with the technology and ability to reenter the solar system in a kind of planetoid. That this is what appears to be the case in this regard.

This Awareness wishes also to comment at this time on a kind of break-through technology regarding the aliens themselves, especially in regard to the Greys and those who rely on the blood of humans for nutrition. This Awareness suggests that the Lawrence Livermore Laboratories, having in the previous year developed a synthetic blood made from cattle blood, but having properties that allow for human use as in transfusions; that this also is a technology available to the aliens at this time, and the aliens have also developed a new food source for themselves in a small wafer form, which they place under the tongue; that this giving them a variety in their diet, giving them different flavors as it dissolves under the tongue. There is the possibility that this may serve as a substitute for their reliance on human glandular tissues and substances for the mainstay of their nutrition; that this being the major problem in regard to their compatibility with humans and coexistence on the earth plane; that if this problem is solved it may lead to a totally new potential for reconciling differences between these two greatly diverse cultures.

This Awareness indicates that the Greys are not culturally happy with their alliance with the Reptoids and would prefer an alliance that includes humans, but the humans are not particularly adaptable to the previous circumstances and relationship the Greys have towards humans, wherein humans become part of the nutritional diet of the Greys, therefore, any work in the genetic field that allows the Greys to have a different form of diet can also have its effect of altering the alliance that binds or bonds this group with the Reptoids.

Pleiadians Discover Evil Giza Group on Earth

This may have its benefits for humans in the long-term reality. This Awareness indicates there is also an additional factor regarding the Pleiadian aspect of the scenario. The Pleiadians and Arcturians have long had a conflict with the Reptoids and those who rule the Reptoids and have, in recent years, discovered that some of the more diabolical of the rulers of the Reptoids are on earth and this has

4. made earth a focal point for Pleiadian and Arcturian military targets, especially in regard to that force in control of Reptoids and their subspecies, the Greys, which has resided under the area of the pyramid of Giza.

This Awareness indicates that this as known as the Giza Group, which have long influenced human affairs but which has also emitted a vibrational energy toward the Pleiades to create great disruptions on that system. It is this vibration that led the Pleiadians to discover the presence of these entities on earth. The first impression being that the earth was emanating very evil energies, but it was later discovered by the Pleiadians that energies were coming from these beings under Giza.

This Awareness indicates that this as a power source operating in the solar system to create disruptions of the more highly spiritual energies, and that because of this presence on the earth, there is a greater motivation by the Pleiadians and Arcturians to do something about the presence. This also may lead in the near future, to events that can benefit humanity as these energies are confronted.

Once this energy is confronted by the Pleiadians, much that has been disruptive and damaging to their own system will diminish and they will have more harmony and ability to function in a positive way. This Awareness indicates that these are events or situations that have recently surfaced that offer greater hope for humanity in regard to this scenario of alien presence.

Kahuna Ring Meditations Helping Pleiadians How Giza Group Disrupted Pleiadians

Part of this may well be from or be energized from the work of those who have meditated on the Kahuna Ring during the past months; that this meditation continuing, can also help in the coming months. It can at the least give some countering force against the Giza energies that plagued the Pleiadians. It is a way of assisting the Pleiadians, for those vibrations that are sent by the Giza energies toward the Pleiades have caused extreme hardship on the Pleiadian system.

Gigantic Saturn storm grows

By HARRY F. ROSENTHAL
The Associated Press

WASHINGTON — Through the eye of the Hubble Telescope, scientists have recorded a gigantic storm blowing across Saturn at more than 1,000 mph, sending ammonia clouds billowing 150 miles into the atmosphere.

Pictures taken by the telescope's planetary camera show that the storm, which began in September as an Earth-sized white spot, now girdles the planet in a band 6,000 miles across.

"It might just be the largest atmospheric structure right now in the solar system outside of the sun," Andrew Ingersoll, a planetary scientist from the California Institute of Technology, said Tuesday. "The last time Saturn did anything of this magnitude was in 1933."

After amateur astronomers discovered the white spot in Septem-

ber, the Hubble was trained on Saturn, the second largest planet in the solar system. The flaw in the telescope's mirrors does not detract from the instrument's ability to see such relatively close objects.

By Nov. 9 and 11 when the first pictures were taken, the storm clouds ringed the planet with clearly visible swirls and loops. The Hubble photographed Saturn again last weekend, bringing the number of pictures to 400.

They will be made into a film, said Charles Pellerin, director of astrophysics at NASA headquarters, "and pretty soon we'll be able to watch what some people have called the storm of the century evolve in great detail."

Astronomers don't know what is causing the great white belt of clouds and whether it is diffusing as it spreads or whether material from the planet is feeding it.

"These planets like Jupiter and

Saturn are fluid objects, all the way to the center," said Ingersoll. "There are no volcanoes erupting, because there are no volcanoes. There is no solid crust. These planets are sort of bubbling cauldrons."

The atmosphere of Saturn is composed of hydrogen and helium and the clouds contain ammonia ice crystals and possibly a mixture of sulfur and carbon compounds.

Ingersoll discounted the possibility that a comet or other celestial object hit Saturn or that the disturbance was formed by smaller storms joining.

"It has to be some sort of internal intermittent thing on Saturn, like Saturn burped," Ingersoll said. "Why it should wait so long to burp, I don't know."

Saturn, the second largest planet after Jupiter, is the windiest place in the solar system with the storm being whipped by a west wind of 1,000 mph.

This Awareness indicates you will recall that all is vibration, and there can be weapons of vibration that wreak hardship and destruction just as there can be more conventional weapons of destruction. It is not simply a theory; It is advanced technology dealing with vibratory frequencies that are subtle in nature in regard to sensual detection, but which nevertheless have a powerful influence. Anyone who does not understand the power of frequencies should test certain combinations of sound in their presence to determine how certain combinations can wreak havoc to their nerves, while other combinations give them feelings of peace and harmony.

Cow Dissolved by Extremely Low Frequencies (ELF)

Then imagine these same frequencies being outside the realm of hearing, yet having similar effects, even though unheard. This Awareness indicates that frequencies and vibrations can do strange things. The entity Mussolini as having at one time used infrasound as a weapon, and in the use of infrasound, Extremely Low Frequency Sound (ELF), was successful in destroying material things. There has even been the dissolving of a cow through the use of Ultra Low Frequency.

This Awareness indicates that the use of sounds and frequencies can be extremely hazardous if used for that purpose and can serve as a most powerful weapon. This as energy that can be controlled and fine-tuned by those who have motives to destroy others or to control others. Therefore, being aware of the use of sound or frequency as a military weapon can be helpful in understanding how some of these forces operate, and in this instance, how they have used bases on earth in their effort to destroy their enemy, the Pleiadians, out in space.

Cortez Stopped Aliens in South America

There have been other instances of similar power centers on earth in the historic past. The Aztecs having worked with aliens, the priests having worked with aliens, and these power centers having been used in similar design to further the alien agenda at the time. That many have expressed concern at Cortez's entry into the New World in which so many of the Aztec priests were victimized by Cortez's greed. This Awareness suggests however, that these priests were previously working for aliens and highly involved in human sacrifice for these aliens, and that the Cortez action was that which put a stop to the alien influence in the South American continent.

It also helps to explain the mystery of so many of the priests disappearing from South America after Cortez's arrival; that these were taken by aliens to the aliens' home planet to continue working for them, and many other humans were taken at the time also. Great numbers of entities in the South American civilizations simply disappeared without a trace. They were essentially raptured by the aliens and taken to their home planet to be used for breeding stock on their farms, on ranches.

Aliens Taught War & Violence to Humans (Blood Sacrifices in Early Religions)

This Awareness indicates that much of that which is human history of violence owes its existence to the alien presence; that humans by nature have learned through deception and through misinformation to violate one another, under the belief that their gods are directing it, or that they are doing it for 'God'. This Awareness indicates that the aliens essentially, have taught humans to be the violent species that they have become.

5. This Awareness indicates that without the alien presence, humans would be far more peaceful in nature. That much of this violence and the training for violence stems from the blood sacrifice that the aliens provoked as part of early human religion, making humans feel that it was the proper thing to do to please the gods; deceiving entities into thinking that these aliens were gods.

Don't Be Awed by Aliens--They Are Not Gods (They Prefer to Abduct Those Who Are Friendly)

This Awareness indicates that in connection with this, entities should realize that aliens like to be thought of as gods, and therefore, prefer to abduct humans who think kindly of them. They do not like to be around those who see them for what they are, and therefore it is less likely that you would be abducted if you are not oriented to believe these entities are as gods. They prefer friendly abductees and tend to avoid hostile people, knowing that people can be extremely strong and dangerous if angered sufficiently.

In such a case of potential abduction, an entity who expresses anger and hostility may stand a greater chance of being left alone than one who is docile and awed by the presence of the alien beings.

GIZA GROUP REFERRED TO BY STEINER AS ASURAS

---WHO REPRESENT THE DEPTH OF EVIL

(FOLLOW-UP QUESTION):

This Giza group Awareness mentioned; I believe this is the first information on them that I can recall; those who rule the Reptoids. Could Awareness give some information on who they are, their origins, how long they've been present, and the type of energy they're sending out, and why they dislike the Pleiadians and so forth?

COSMIC AWARENESS:

This Awareness indicates they dislike Pleiadians because the Pleiadians know them for what they are and have been tracking them, searching for them in a kind of hunt and destroy action for many centuries; that the Pleiadians are a true threat to them. These entities have been on earth for several centuries, have controlled and manipulated through the alien presence, most of the nations on earth, leading them into wars and have essentially served in the capacity which Steiner speaks of when he speaks of the Asuras.

These are likened unto a prototype of demonic energies. This Awareness indicates that these entities have a control over the Reptoids in their own Draco galaxy, and have influence in other areas of the galaxies, particularly where they can have cooperation between Reptoids and other groups that they have conquered through their manipulative powers. That their power lies more in their ability to conquer through manipulation, to conquer the heads of groups and use those heads for furthering the extension of their own power over still other groups.

They essentially work by conquering a group and using that group to conquer other groups, and they tend to have no compassion of any kind so that no mercy is shown to those whom they control and this allows them to extend fear from the ranks of the highest to the lowest so that the entities under their control are controlled by fear of their own superiors and will do the bidding of their superiors, and the superiors are also controlled by fear.

It is essentially a power group epitomizing the basic concept of evil, if one is to describe evil as the absence of compassion, wherein there is no room for compassion.

They do not appear to have any particular home place or planet other than wherever they happen to be. They roam the galaxy freely without a attachment to a particular place and their attachment is to power itself, and to the enjoyment of exercising that power.

This Awareness indicates these entities are not always referred to as the Giza Group; that is a more recent term. They simply use this term at present because of their location; that essentially they epitomize the concept of the Asuras which are spoken of by Steiner; Rudolph Steiner as having described the Asuras as prototypes or archetypes of evil.

(FOLLOW-UP QUESTION):

Are these entities actually living physically under the pyramid of Giza, or are they actually on another vibratory level?

COSMIC AWARENESS:

This Awareness indicates that they are capable of shifting vibratory levels. They can exist in this physical level, or can shift levels to other frequencies, according to their will. There is a place under the pyramid in which these entities reside, wherein they have artifacts of a phoney nature, that they eventually intend to bring out as part of a grand plan for creating control over the masses, including a phoney cross of crucifixation which they plan to claim as that of the cross Jesus was crucified on.

This Awareness indicates there are other artifacts which they have gathered for this purpose; that these entities themselves will not be the bearers of these artifacts; they would present them for others to expose.

(FOLLOW-UP QUESTION):

Would Awareness give us a physical description of these entities, these Giza Group people?

COSMIC AWARENESS:

This Awareness indicates these entities being rather vague in terms of features; that their features being such that they can alter them at will to become whatever they desire to present. These entities having use of psychological powers that allow them to manipulate vibrations, frequencies of the material plane so that they may appear to be quite human and take on human features if necessary, or wherein they could take on features that were quite appalling and frightening, even monstrous, if so desired.

Therefore, it is impossible to describe their appearance since their appearance is like that of a chameleon in that it can change from moment to moment.

(FOLLOW-UP QUESTION):

Do these entities have souls?

COSMIC AWARENESS:

This Awareness indicates that depending on the concept implied by the word soul, one could answer either yes or no. If by soul one means a vibratory body that survives physical death, these entities do have this kind of energy. If by soul one implies someone who has emotional compassion; these entities do not fit that category.

(FOLLOW-UP QUESTION):

Basically my question was: On the spiritual evolutionary scale, the ultimate being getting back to the Godhead,-- where would these entities be on that scale?

6. THE ASURAS: GODS WHO HAVE GONE MAD

COSMIC AWARENESS:

These entities as being degenerated from extremely high levels of spiritual status, having taken with them the full awareness of the nature of creation and of the universal properties of creation, as they degenerated into concepts of separateness wherein they can use this technology or knowledge for enhancing their own illusion of separateness and power.

It is as though one who understood all of the knowledge of creation degenerated over time to play with the creation, using his knowledge to torture and to entertain himself by playing with the creation as though it were but an object and not filled with living beings. That a comparison might be like that of a scientist who learned to create biological entities through cloning or through genetic engineering, and in the process of creating these beings, chose to create beings for his own mirth and enjoyment, to play with them, to torture them, to use them for personal pleasures, without regard for their feelings or welfare.

This Awareness indicates that this is not intended to imply that these entities are the creators of humans, but more that they understand the creation through the use of vibrations and frequencies and have absolute and total contempt for anything that is not as highly evolved intellectually as are they in their understanding of these factors of creation. They see the creation as but objects for them to move about and manipulate for their own gain, including the creation of humans and other beings.

They are what might be termed 'mad gods,' or gods who have gone off the deep end into utter madness, through the pursuit of personal power and personal glory and pleasure for their own separative interests, for their own demented enjoyment.

Other entities, having the same knowledge, would work miracles, but these entities are not into miracle working, they are more into diabolical expressions.

(FOLLOW-UP QUESTION):

Could they also be described as fallen Elohim?

COSMIC AWARENESS:

This as in the affirmative.

ASURAS IN RELATION TO LUCIFER
(How God Set Up Lucifer so People Would Form)

FOLLOW-UP QUESTION:

How do they relate to the information on the concept of Lucifer Awareness gave some years back?

COSMIC AWARENESS:

This Awareness indicates that Lucifer symbolizes the first separateness, but Lucifer also wanted to be worshipped as a light, as a kind of Divine Light for his beauty. Lucifer as much less diabolical in his madness in that his interest was that of separating from God, the Creator, in order to find individuality and uniqueness, and this entity was willing to take others with him in that search for uniqueness through separateness.

The entity actually was set up by God, the Creator, to lead aspects of consciousness into separation so that individualities would form, and in the formation of individualities, these entities became unique. The plan also called for their return into essence, carrying with them the unique qualities that they had gathered in their fall from grace. It is the same as the story of the Prodigal Son: leaving home, suffering and then returning to the Father's grace.

These entities are more likened unto those who have been described by Steiner, not as Luciferian but as Ahrimanic in nature. Being likened unto Ahriman implies a joy in the torturing and the suffering of others, in seeing and participating and in manipulating suffering for others to endure. Ahriman is essentially sadistic. Lucifer was not sadistic in the same sense. Lucifer was deceptive, but did not have personal sadistic qualities as does Ahriman.

Thus, the Asuras are the reflections of Ahriman energies, and these energies, being sadistic in nature, seek and enjoy destroying God's most highly prized creation, the human being, and in the destruction of humans and other aspects of the Divine Creator's creation, they see themselves as challenging the Divine Creator in a kind of open defiance. That defiance is what gives them the feeling of having immense power.

It is much like the child, who, rather than leaving the home to find his or her own destiny, as did Lucifer, stays at home and defies the parent in an effort to destroy the very fabric of the parent's values and work or lifetime efforts and work. There are such situations in which the child attacks and defies the parents even to the point of destroying the parent. It is this kind of thinking that lies behind the Asuras and the Ahriman energies, and these of the Giza Group.

Asuras Thrill at Causing Suffering

They would like to defy the Divine Creator, or if unable to defy directly, then to defy the creation that has been established, and thus, they find great thrill in destroying and causing suffering to that creation. It is based on a kind of hatred for the Creator and thus, aim their hatred at the creation, especially anything that emits compassion, beauty, weakness in the sense of gentleness, or love, for they see these things as aspects of the Father/Mother creator, and want to destroy that Father/Mother creator aspect so that they alone remain and so that there is no such thing as love, compassion and qualities of cooperativeness, but that there is only competition, for they can control the competition from their framework better than they can control loyalties and devotion and love and such.

They are essentially beings from a dysfunctional family who see themselves having to be in control, and the only control they understand is that which they can wield over others through the use of power and fear. They are gods that have psychological problems of a very deep nature.

THE PSYCHOLOGY
OF THE DYSFUNCTIONAL FAMILY

(FOLLOW-UP QUESTION):

It sounds like the way they're going they would be candidates for Cimmeria Awareness mentioned where...

COSMIC AWARENESS:

This is in the affirmative; that this may be their eventual fate unless there is found within themselves some measure of redemptive qualities and compassion. This Awareness indicates that the very nature of a dysfunctional family tends to create within the children a feeling that they have to control their environment in order to be safe. That control, when taken out of the family where it is no longer needed, often creates havoc with others who are not of the same mind-frame, and such entities often treat others in a kind of manipulative and contemptuous way, feeling they must control these people around them, and of course they choose people who are not like themselves, needing to be in control, and who do not particularly object having someone telling them what to do.

Thus, they find people whom they are able to influence and they see that in the other as a kind of weakness, and it makes them feel more secure to be in charge of the other person, believing that they have a greater knowledge or a better understanding than does the other person and that the other person is basically inept, thus the dysfunctional person has what is much likened unto a disrespect for the entity who does not come from such a dysfunctional need to control, and therefore, in the relationship, the one entity takes a subordinate position while the entity from the dysfunctional family takes a supervisory position, and gradually this may turn into a sadistic/masochistic relationship if it goes far enough.

This Awareness indicates that this essentially is the development of the psychology behind the energies. If in the development of such psychological energies, the situation reaches enormous extremes in the desire for control, then these entities become almost maniac in their need to be in charge, to hold power and to supervise and control others. The insecurity which these entities feel may become acute when even a slight hint of possible loss of power threatens them.

The very thought of someone being loving and generous to another scares them, because that love and generosity is seen as energy that can create alliances among loving people, and therefore, they try to diminish or destroy any development of loving alliances, thus they would threaten any kind of meaningful family relationships if possible. They would threaten to destroy the development of any personal reliance or trust in love as a prized quality worth developing, and they would substitute for love, fear and obedience in the individual or in the groups or in the nations, wherein they can influence those.

This Awareness indicates that if you understand the nature of dysfunctional families and the efforts of children from dysfunctional families to establish control patterns so that they feel more secure if they are controlling things, then you can, through extrapolation, understand the psychological thinking of the Asuras and the Giza Group and such entities that feed on the Ahrimanic-type of consciousness, that thrive on sadistic control of others.

This Awareness indicates that unfortunately, most families have a measure of dysfunctionality, much of which is due to the misapplication of religious principles, in which children suffer abuse for their own sake, usually through the belief that abusing the child will make a better child of God. That this type of thinking has created a great number of children who grow up to be abusing parents, who think they have to control every thought, every behavior of those around them, including their own children.

THE ASURAS & RELATIONSHIP TO DEROS

(FOLLOW-UP QUESTION):

What is the relationship of any of these Asuras to the Deros Awareness has mentioned that are also diabolical?

COSMIC AWARENESS:

This Awareness indicates the Deros as being the remnants of a race of Greys who were left here some 20,000 years ago to live underground and in their survival of such an extreme time period, degenerated into the kind of beings that also are sadistic in nature. Through this same type of process, wherein they have developed sadistic joys of seeing the torture and pain of suffering in others, these Deros living in subsurface civilizations, enjoy nothing greater than to capture a surface being and torture them to the extreme. Having technology so that they can keep the entity from passing out or from dying from the pain and torture, they revive the entity in order to continue the torture.

They enjoy this kind of activity, partly because their environment is boring to them. There is little to do in underground civilizations, and partly because that kind of entertainment for them has become traditional, as a way of life in their culture. This Awareness suggests it is for this reason It has continuously cautioned entities: Do not go deep into unexplored caves, for that tunnel you travel may well be a road to a subterranean Dero civilization and it is not simply a matter of one losing one's life. One may beg to lose one's life, but be brought back time and time again by the technologies they have available in order that they can continue the torture.

This Awareness indicates these entities have unbelievable means of torturing entities, beyond that which entities would ever suffer on the surface by the cruelest of sadistic masters.

(FOLLOW-UP QUESTION):

Have these creatures no redemptive qualities at all?

COSMIC AWARENESS:

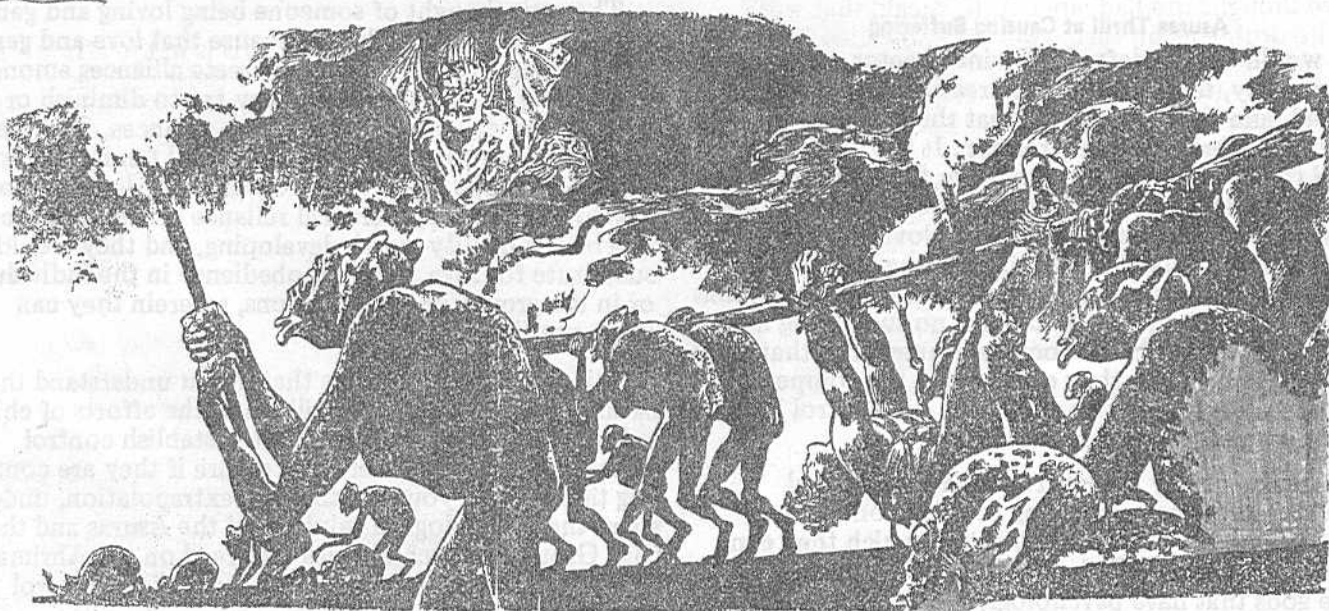

This Awareness indicates that it is likened unto trying to change a creature from its own nature to become something quite different. For example, can you train a vicious beast to become a tame house pet? If in actuality you had the vicious beast in the right setting, under your control, it would be possible to train the most vicious beast to become a house pet, although there is always the danger of it reverting back to its true nature.

This Awareness indicates that if you cannot isolate the entity from its own culture and the culture promotes the viciousness, it becomes impossible to change the nature of the beast into something more genteel. It will remain as it is. It is the law of inertia; that even as with forces, a personality does not change until some force enters to deflect the personality from its own inertia to become something different.

Thus, if you were able to isolate these Deros from each other, put them in certain circumstances, there is the possibility of changing them, or if you were to capture young baby Dero and raise them in a different environment, there is the possibility of raising a very nice child Dero. This Awareness indicates that if this potential, based on hypothetical isolation and control situation is perceived as a hope for redemption, then the response would be: 'Yes, there is some hope for redemption under the right circumstances.'

It is unlikely that this will occur. It is more likely that the subsurface civilization will remain as it is until something occurs to either destroy the situation or to alter it considerably, to bring about a change; that perhaps the presence of the Zeta Reticuli in some of the subsurface areas could have an eventual influence. At present, however, the Zetas are afraid of the Dero and do not care to get into any of their environment areas.

There is a strong dislike for the Deros by the Zeta Reticuli. The Zeta Reticuli essentially see the Deros as demented and mad beings, more dangerous of course than they, yet having high enough technology to make them extremely strong and dangerous adversaries.

(FOLLOW-UP QUESTION):

Is it possible some day that the Kahuna Ring energies might elevate these creatures?

COSMIC AWARENESS:

This Awareness indicates that when vibrations rise anywhere, and can be felt, there is the possibility of entities feeling and attuning to those vibrations. That this could have some influence, but this Awareness does not wish to create the illusion that through a few people meditating on the Kahuna Ring vibratory energies that they can totally change the nature of beings who have for thousands of years existed in a kind of culture that is highly demented, any more than they could change the spots on the leopard through meditation.

(FOLLOW-UP QUESTION):

In reference to these Asuras, did they have anything to do in the building and creation of the pyramids?

COSMIC AWARENESS:

This is in the negative; that these were Pleiadians and those from Sirius being the major influence in the building of the pyramids.

(FOLLOW-UP QUESTION):

I believe Awareness mentioned earlier that one of the functions of these Asuras was to help in the evolution of consciousness. Was that correct?

COSMIC AWARENESS:

This Awareness indicates that this is not the chosen function, but its effects tend to move in that direction, just as the wolf in pursuing the caribou attacks the slowest caribou and kills the caribou that is weakest and thus continually weeds out the weakness of the herd, creating stronger caribou. The wolf is not deliberately attempting to help the caribou become stronger, it is simply seeking its prey in the easiest manner and the effects are that the herd becomes stronger than if the weak caribou remained as part of the herd.

THE HIERARCHY OF THE ALIEN FORCE (The Orion Influence)

(FOLLOW-UP QUESTION):

So, this Asuras is another part of the onion being peeled. At first we thought the bad guys, so to speak, that were creating the problems on earth, were the so-called Illuminati, the international bankers and so on, who are caught up in the forces of power and greed, and behind them it turns out, are the Greys that influence them, and...

COSMIC AWARENESS:

This Awareness indicates that this particularly the influences from Orion; the Greys from Orion. That there also is that influence remnant from the Reptoids of the ancient past who set up secret societies of priests to carry out their work, the work of the Reptoids. This as described in the Bramley book *Gods of Eden*; that these had influence that also contributed to the Illuminati and the banking powers of present time.

The Orion influence as that which began to reassert itself in a strong way in the early 40's or mid-40's. The Zeta Reticuli did not actually arrive on the scene until the early 60's as a major influence, though they were present earlier. The early 60's saw their presence creating an influence. That the Zeta Reticuli in turn are mercenaries working for the Reptilians who had been present on earth some thousands

^{9.} of years ago, who set up the secret societies run by the priests and these secret societies also established the religions that have become powerful forces to manipulate humanity.

Humanity's Greatest Threat--the Returning Reptoid Gods

This Awareness indicates that the influences of Sirius and the Pleiadians have had in between the early ancient history and present alien history, have been the influences that have led to the concept of good gods, as opposed to demanding gods. The gods of ancient Sumer and Acadia were the Reptoid gods, and these entities were extremely demanding, even destroying Sodom and Gomorrah, and seeking to destroy the entire earth, being quite angry that Noah had been spared.

The Sirius god being responsible for the sparing of Noah. This Awareness indicates that these Reptoid gods now attempting to return in full force, pose the greatest threat humanity has experienced in its homo sapien history. That the other gods, those from Orion, being subjects of and under the dominion of the Reptoids, and the Zeta Reticuli being under the dominion of the Reptoids have also had their influence on humanity, particularly during this second half of this century.

The Asuras as being forces in the universe in the creation that have gone out of control in the sense of Cosmic Consciousness being diverted for insane expression. These entities could easily have been Cosmically Aware except for the fact that they chose the path of separateness, and seek to control the whole creation for their own personal ends, and these entities are not confined to physical bodies, though they have the ability to form physical bodies for personal expression from time to time as desired.

This Awareness indicates that this may be seen as likened unto layers of influence and the onion can be seen as a kind of symbol for this. Normally, however, the symbology of the onion is not associated with the negative forces of the universe, but rather with the unfolding of individual consciousness in the same sense that in India, the thousand petaled lotus is used as a symbol for the unfolding of consciousness, layer after layer, until it is in full bloom.

DOES ANYONE CONTROL THE ASURAS ?

FOLLOW-UP QUESTION:

Are there any other forces or entities or beings beyond this that control the Asuras?

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative; that these forces which have created these entities as offspring of the dysfunctional family of gods would be seen as forces. This Awareness indicates that this can be the subject of future discussion when the energies for this develop and open; that this is not available at this time. It is not seen as necessary in the present time for human understanding of its present situation.

(FOLLOW-UP QUESTION):

These Asuras, it sounds like they're relatively few in number, but they can create great mischief. Is it true that there is not a huge population of these entities?

COSMIC AWARENESS:

This is in the affirmative; that these entities tend to reside more in other frequency levels and operate through the frequency of Terrestria above and below that frequency, several levels. They do not penetrate the etheric level, and there are areas which they cannot perceive or understand in higher levels and it is from this incapacity

or inability, that their weakness lies. They can see the future, but only insofar as their particular level allows them to see.

The Spiritual Agenda Supercedes the Alien Agenda

They cannot see all that is seen by the Elohim who have not fallen from grace. Thus, these entities in assisting to write the alien agenda, must write it from limited perspective, not seeing that there is an agenda that lies beyond theirs. There is that which may be termed the spiritual agenda which supercedes the alien agenda.

QUESTION:

Does Awareness have a closing message?

AS IT IS BELOW, SO IT IS ABOVE

(The Only Way to Find Peace)

COSMIC AWARENESS:

This Awareness indicates that it appears the entire box of Pandora, in which the UFO question was pulled from, is becoming unravelled. The door is opening, and that there seems to be no end in sight in regards to the

¹⁰ unravelling of activity, not just on earth or even the solar system, but activity throughout the galaxy, which, if the strings are examined enough, they begin to lead consciousness into looking even into other universes.

This Awareness indicates that it has been suggested: As it is above, so it is below. Entities may now begin to realize that likewise, as it is below, so it is above. Humanity has been plagued with wars, but humanity is not alone; so has the galaxy. This Awareness indicates that it does not appear that there is yet an end to the recognition of the influence of these forces in the galaxy and beyond, and that even the resolving of humanity's wars may only be the resolving of a small battle in the galaxy.

This Awareness indicates that entities may learn to live in peace, even in the midst of chaos; that even in the midst of war entities may develop a peace that passeth understanding within their own hearts.

This Awareness indicates that this may be the only way in which entities can find peace: Not by controlling the world outside, but by controlling one's own peace within.

(The Law of Gratitude is given)

WHAT HAPPENS WHEN ALL SOULS HAVE RETURNED TO "ALL THAT IS" ?

(The Collective Breath of Brahma and the Dividing of the Waters)

QUESTION:

E.O.L. asks: "What is to happen when most or all souls have finally returned to All That Is, in the Infinite Time?"

COSMIC AWARENESS:

This Awareness indicates there will be an experience among all these souls, a sense of unity, a feeling of bliss and harmony, a kind of collective joy that all will experience along with the ability to reflect on memories collected on the journeys so that all can share in the return to the Higher Consciousness with the memory of all that has transpired intact for each individual. There will be individuality, but the individuality will embrace collectivity of consciousness wherein all can share each other's memories.

That this will last for a period of time, and then slowly and gradually the entities will begin to again drift apart. This time, the drifting apart may be but for a short duration, or the entities may choose not to drift apart, may choose to remain in a collective community in the universe and thus, express themselves as an emanating force of joy, a group of souls emanating joy and light from a single source or location.

This Awareness indicates that it is best described in the Hindu's concept of the Day and Night of Brahma, in which a pulsation lasting many hundreds of thousands of years, as a day of Brahma, in which all light, all life and beings are gathered together and then the night comes, and these entities explode, likened unto the Big Bang and go outward into the universe as a breath of Brahma, and then the breath returns and again, taking hundreds of thousands of years, indeed billions of years, return to the center as a collective breath of Brahma; they then reside together and again the breath goes out.

It is the incoming and outgoing of these souls that make up the breath of Brahma. This is a reasonably appropriate explanation of the nature of life in the universe over long

durations of time. The cycles of the incoming and outgoing breaths, the so-called Big Bang that is recognized in the West in which matter exploded outward from a central source, equates to the outgoing breath of Brahma. In time, all these things will return to that central point with the incoming breath of Brahma.

(FOLLOW-UP QUESTION):

Is Awareness speaking of individually or collectively? With the wheel of birth, death and rebirth and all the entities continually being born, does *It* actually see a time when all souls will have returned?

COSMIC AWARENESS:

This as in the affirmative. There will be a time in the collective of all matter, in which everything of a material nature will have returned to a central point, and all of consciousness will have returned to that point also.

(CLOSING MESSAGE):

This Awareness indicates that the concept of the incoming and outgoing breath of God as taught in the Hindu philosophy is that which of course is expressed symbolically. *It* is in actuality speaking of the gathering of vibrations and the emanation of vibrations, whereby a vibration or sound is struck and the energies go forth and in the going forth, those vibrations create different octaves. The different octaves create different realms. The different realms allow for the creation of matter of different densities and different vibrations, and in those different frequencies of matter there are collections of vibrations that blend together to form bodies or shapes, some of which are given higher frequencies that amount to the breath of life. Thus, physical forms are created and given the breath of life of higher frequencies and vibrations that are implanted in them and around them.

Eventually these vibrations can either continue for a time until they reach a certain poise, and that poise begins to affect the vibrations everywhere so that some vibrations cease and some shift into higher frequencies, and in the shifting into these higher frequencies, everything appears to return to its source in the higher frequency of consciousness.

Frequencies and Vibrations of the Universe

This Awareness indicates that this is the cycle. The cycle allows for harmonies of vibrations. Just as music can contain frequencies and harmonies in a single note, some being high, some being low, likewise in the universe, there are those ultrahigh frequencies and the ultralow frequencies and all those in between, and in some beings, in some objects, many of these frequencies exist simultaneously together.

Some of these frequencies, for example in the human body, some will make up the physical body. Some will make up the astral body. Some will make up the soul, and some the spirit, and upon passing over, some of these frequencies will separate from the body, and some will separate from the astral body, and some will move into higher regions and higher vibratory realms, while others will be filtered and stopped short.

This Awareness indicates that these collections of frequencies making up the human body parallels similar principles that make up the body of the earth and other planets and stars, for there is more than just one frequency for earth. There are overlays, frequencies that harmonize and overlay with other frequencies so that the earth becomes arrayed with many vibrations of a great range, from very low to very high frequency ranges.

This Awareness indicates that there are also other realms in which some of the frequencies known on earth or the Terrestria realm are totally absent and there are other realms having other frequencies that are not known on the Terrestria realm. This Awareness suggests that all is vibration and these vibrations are the division of the heavens, the separation of, and the dividing of the waters as described in the Bible. This Awareness indicates these frequencies and vibrations are also the word of God as described in the New Testament description of the Creation.

OK The Basis of Magic and Miracles

This Awareness indicates that a glimpse of this universe of frequencies can help entities to have a greater understanding of all of creation as well as the rules of physics that govern creation and allows for magic and miracles to occur, for the things that are found in creation are vibrations, and these vibrations can be altered by higher vibrations, and the highest of the vibrations are those spiritual energies in higher consciousness.

This Awareness indicates that it is also possible to alter vibrations with electronic frequency changes so that technology can be used to effect magic and miracles, but entities should realize the human mind has the same potential and even greater potential, for it can attune to any frequency and raise or lower the frequency to effect a change, thus, the human mind is capable of healing or of altering consciousness, and the alteration of consciousness is the basis of magic and miracles.

11.

CAN LIFE SCIENCE PROGRAM MAKE YOU LIVE UP TO 140 YEARS?

QUESTION:

R.W. of Garland, Texas, asks: "T.C. Fry, Director of Life Science Institute, PO Box 17128, Austin, Texas, claims that their regimen of eating only fresh fruits, vegetables, nuts and seeds, nothing cooked, getting good fresh air, exercising, drinking only distilled water, and preferably beginning with a fast, can make a person maintain the best of health with never any sickness, not even a headache or cold, and live up to 140 years or so. And that it may even do away with various degenerative diseases such as diabetes or cancer. How accurate are those statements?"

COSMIC AWARENESS:

This Awareness indicates that it appears that this would be healthy in so far as diet is concerned; that there is a need for protein. There is some protein in the diet; that in some instances, for some individuals, this might be difficult for them to adjust to, but for younger people and entities in general good health it appears that it would be relatively easy to adjust to such a diet, except of course for society influences and cultural influences.

In so far as the claim of 140 years lifespan from the diet, this appears to be stretching, although in some instances it could be possible. It is not seen as any kind of certainty, it is more of a goal or possibility than a probability.

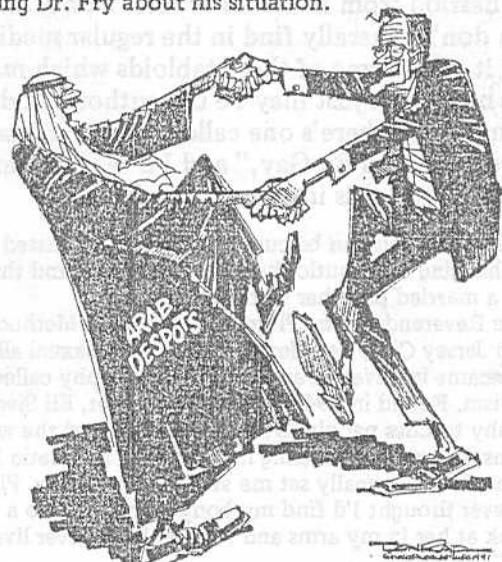

FOLLOW-UP QUESTION (Vikki):

Did the diet of the fresh fruit, seeds, and raw vegetables show as being effective in having the immune system so you wouldn't get sick at all?

COSMIC AWARENESS:

This Awareness indicates that this is seen as beneficial; that there are certain life-giving properties in these substances; that the enzymes are also seen as being quite beneficial.

ED's Note: this entity T.C. Fry, must be on to something valid because some months back he issued a bulletin that the FDA had broken into his office at night, confiscated all his material, records, even computer discs of years of information, leaving the entity penniless and without any means of contacting his customers and students. He said he was swallowing his pride and asking for donations to get his newsletters and institute functioning again. This sounds like a worthy cause and worth contacting Dr. Fry about his situation.

DANCES WITH WOLVES

QUESTION:

A question from A.G., Columbus, Ohio. "Li Chin Yun in China is said to have lived to be 256 years of age. Regardless of the exact age, he undoubtedly did live to a very advanced age. His biographer says that three of the four herbs he took daily were ginseng root, roots of the polygonum multiflorum plant, and berries of the lycium chinense plant. All three are available in dried form from herb companies. Do the berries of the lycium chinense plant have strong life-lengthening properties as the roots of the ginseng and polygonum multiflorum plants do?"

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative; the entity also used gota kola, and fo-Ti-ting; that these and other roots were main parts of his diet. These not only assist in restoring the vitality of the cells, but also in warding off disease that might damage the vitality of the cells.

ED's Note: we recently received an interesting little catalog of ancient Chinese teas now available by mail. Each tea described in the catalog tells which ailment it alleviates or eliminates, such as colds, flu, anemia, prostate, kidney, sinus, allergies, arthritis, high blood pressure, constipation, hair loss, eye strengthener, ulcers, insomnia, etc. There are even 'Super Aphrodisiac' teas listed. We have yet to ask a question about Chinese herbs that Awareness has indicated had negative effects. We suggest you get a copy of this free catalog and try some of these teas. (CAC has no interest in this company financially or otherwise. This is for your information only). Write: TransPacific Health Products, PO Box 86599, Madeira Beach, Florida 33738, or Phone: (813)397-4403.

(Can 'Aesthetic Realism' Counselling Turn the Trick?)

QUESTION:

A question from a tabloid article. This is information you don't generally find in the regular media, but we cull it from some of these tabloids which may or may not be true. It just may be the author just dreamed them up, but here's one called "Homosexuals Can Be Cured, Says an Ex-Gay," and I'll read this and ask Awareness if this information is valid.

Homosexuals can be cured of their limp-wristed lifestyle by changing their outlook about themselves and the world, says a married preacher who was gay.

The Reverend Wayne Plumstead, a United Methodist minister from Jersey City, New Jersey, was a homosexual all his life until he became involved in an amazing philosophy called Aesthetic Realism. Found in 1941 by American poet, Eli Siegel, the philosophy teaches people to like themselves and the world. Rev. Plumstead spent 8 grueling months with Aesthetic Realism counsellors. "It really set me straight," said Rev. Plumstead. "I never thought I'd find my body responding to a woman. I look at her in my arms and wonder how I ever lived without her."

The philosophy teaches you to look at everything in a different perspective, but you have to be honest in your sessions with the counsellor he said. It is difficult to explain how it works, but it works, said Rev. Plumstead. "My wife was gay until she embraced the same Aesthetic Realism philosophy." New York writer Brent Buell also credits Aesthetic Realism with changing his life. He is a former homosexual who also is married now. After 6 months of Aesthetic Realism sessions he began looking at women in a romantic way and the change is permanent. "After 6 months, I knew I had changed," he said.

Rev. Plumstead and Buell say hundreds of homosexuals have been transformed into normal people because of Aesthetic Realism.

End of article. I'd like to ask Awareness if that information is true, and if so, could it explain a little more about what Aesthetic Realism is?

COSMIC AWARENESS:

This Awareness indicates that this appears to have considerable effect in altering the outlook of entities in regard to their own being, in regard to how they are functioning in terms of their own particular sex; that it gives the appreciation of the way nature works and how things work together in terms of polarization of natural physical things. This Awareness has emphasized at times the reconciliation of polarities and speaks of bringing the 'yes' and 'no' into reconciliation. This Awareness is speaking in terms of concepts, when it talks of reconciling polarities, of diminishing the polarized states.

In terms of physical things, polarities are absolutely essential. In terms of physical things, were it not for polarities, the physical creation could not exist. Everything would vaporize. That in terms of polarities of the physical level, your vitality and health requires that you remain polarized, that you have certain polarities within your own physical being. It is the psychological or conceptual polarizations that can be reconciled so that entities need not be so extreme or fanatical in their particular outlook on things.

This Awareness indicates that in terms of nature, wherein entities begin to appreciate the polarities, this is that which can be most helpful in letting entities get fully in touch with themselves; that this is represented in this teaching. That as far as the teaching goes, it would be to entities' benefit to receive the greater details from those who have the information available.

FOLLOW-UP QUESTION:

Were these entities exceptions rather than the rule, or if the average homosexual would go through this counselling, he could change his lifestyle?

COSMIC AWARENESS:

This is in the affirmative. This is much likened unto the entity who wishes to quit smoking and is willing to go to a certain type of program that has proven to be effective in helping entities to quit smoking. One must first have the intention and desire and willingness to give it a chance.

ED's Note: There was no address in the article on who to contact for further info on Aesthetic Realism.

WHAT IS THE TRUTH THAT WILL SET YOU FREE?

QUESTION:

J.K. in Detroit writes: "Cosmic Awareness said in issue No. 363: "This is the beginning of the awakening. You shall know the truth and the truth shall make you free." Please tell us what is this truth that shall make us free, and when is the soonest this can occur, and will I live to see it, or will it take another 1,000 years?"

COSMIC AWARENESS:

This Awareness indicates it is not clear as to what context the entity refers to as a statement from this Awareness. This Awareness indicates that anytime entities learn a truth, that truth frees them from ignorance. The ignorance or the unknowing of something is that which limits an entity's understanding and therefore, keeps the entity bound by the lack of understanding or knowledge in regard to whatever concept is absent. Therefore: "Truth can make you free" is an obvious statement. It can make you free of the ignorance that hinders and holds you back from knowing something.

This Awareness indicates that as entities become more and more aware, they also have greater and greater options in any situation, and therefore, having more options and choices to choose from, they have more freedom. This Awareness indicates that the statement is a kind of obvious summation of the power of truth. It is not a reference to a particular truth that is going to suddenly allow you to have no further limitations. The truth comes in many different increments, and each increment of truth frees you from ignorance by that much, and with each increment of freedom from ignorance or from lies or from not knowing, then with each increment of new truth entities gaining new freedom, have moved in that direction toward total freedom.

They may not reach total freedom within a lifetime or more, for there is seldom any way whereby an entity can know all truth, can know everything at any one time, thus, the entity may know the truth, that the truth may make them free, but it is a matter of increments. You may know a truth that makes you free, and you may at the same time discover that there are other areas in which you are bound because of a lack of information or a lack of truth, and therefore, you again seek further truth to find further freedom.

If you do not understand how truth can free you, think back at points in your life when you were totally ignorant of things you know now and ask yourself if you are not more free from those things that bound you at that time because of what you have learned since. There is a tendency for entities to think that there is *one* truth and that if they can find that one truth they will have everything solved forever. This is not the case. There are truths that unlock mysteries and when those mysteries reveal truths, they free you from the mysteries but open you to new questions and you seek the truth to those questions only to discover them and find more questions to discover more questions, thus, layer by layer, ignorance is peeled off like the unwrapping of a mummy or the opening of an onion. Layer by layer, truth by truth, mysteries are revealed.

There is no single truth. What could it be? A single truth that frees you from all things that bind? Eventually entities will unlock so many of the hidden truths,

13.

they will begin to feel great freedom, but there will always be something, even if minor, that keeps them from knowing everything they wish to know, or from having everything they wish to have.

This Awareness indicates that in your pursuit of truth, do not forget the freedoms you have already gained from the truths you have already learned.

HOW TO DIMINISH THE NEGATIVE ALIEN FORCE

(The Power of the Kahuna Ring Meditation)

QUESTION:

Another question from J.K. in Detroit. "Cosmic Awareness said in the April 9th, 1982 reading, Good Friday for Lee Michaels; that the entities on the 4th Dimension were responsible for many of the errors which occur on this 3rd dimension and the Cosmic Watergate was beginning to remove those guilty of 'mismanagement' from power. Please tell us if the entities on the 4th Dimension are responsible for betraying We the People on the 3rd Dimension by selling us out to the Reptoids against our will, and, if so, can Awareness give us the names of the leaders on the 4th Dimension who are the traitors betraying us, and is there any way We the People can help remove them from power on the inner planes?"

COSMIC AWARENESS:

This Awareness indicates that this may be referred to as those that have been called the Asuras, or the Giza Group. There is that which can be done in the form of meditating on the Kahuna Ring, whereby entities may visualize the power of these beings weakened as the Kahuna Ring strengthens. This Awareness indicates that the strengthening of respect for all beings through a recognition of the compassion that lies within each being, in some cases lying somewhat dormant (this in reference to the human beings), this kind of respect strengthens the human family and that too helps to diminish the power of those Asuras and of the Giza Group.

This Awareness indicates that this and meditation on the Kahuna Ring appear to be the ways by which humans can effectively help to diminish this negative force.

THE MANY WAYS PAST KARMA CAN BE ERASED

QUESTION:

E.O. In Canada, asks: "Can Awareness talk of the different ways to erase past negative karma?"

COSMIC AWARENESS:

This Awareness indicates that there are many different ways, and some are better than others. That to eliminate a karma that one owes requires that one give forth some kind of action or remorse with a willingness to act in order to repay for a violation owed to someone. For example, if you owe someone karma for something done to them, if there is sufficient remorse, that goes a great distance in helping to eliminate the karma. It does not repay the karma owed.

If it is possible to repay the karma and one is willing to work toward the payment, then that would be the more appropriate route. Of course, remorse would have to have triggered such willingness to repay, and therefore remorse and actual effort to repay tend to go together; that in some cases one cannot repay damage that has been done to another. In some cases the injured party has gone on, either moved to another area or may no longer be present on the plane, in which case, the one who violated that entity or owes that entity may find it beneficial to either repay the heirs of the entity, the loved ones of the entity, if possible, or to pass on to someone equally deserving and needing.

For example, if one has a debt owed to someone and cannot find the someone in order to pay the debt and they feel remorse about owing this entity, they may find it helpful to pay something to others who are in need, such as perhaps needy children or homeless people or someone who is ill, and in giving energy or payment to that person or to that group of people they do it in behalf of the one whom they owe, and this can help to alleviate the karma owed.

It is important to realize that you cannot simply say "I owe this person karma, but I don't want it. I don't want to owe karma!", and to hope that the karma will simply go away. There are many entities who might owe someone something and feel that they would like to unload their burden of karma without having to actually do something to unload it. There are some entities who can unload their karma by sharing it with others. They might talk to people about what they have done, and in this manner, like the entity confessing in the Catholic Church, they might in this manner reduce the guilt by having confessed their error. That this is more helpful to women than to men; that men would prefer and would do better to take some kind of action to do something for someone in behalf of the other entity's name, to work off the karma owed, rather than simply to talk about the karmic debt, or to confess to a priest or other. That a third way would be to punish oneself. Entities sometimes do this through accidents, by having an accident, or by getting sick. Guilt tends to express itself in headaches, and in digestive problems, and some entities choose these paths of self-injury to alleviate guilt or pay for their karmic debt to others.

The Purpose of Guilt

They may develop depression or addictions that are based on guilt and thus punish themselves, but these do not generally alleviate the karma. They generally make matters worse. They exaggerate the karma, because the entities are not really doing anything constructive. They are adding destructive energy to that which they already feel guilty about. The purpose of guilt can be of two types; either to lead an entity to take constructive action, to make improvements, so that whatever caused the guilt is rectified, or to destroy the entity and cause the entity to suffer in the name of guilt.

That destructive guilt never does anything worthwhile in alleviating karma, but there are many who choose this route, and thus, for example, an entity who might, in drinking and driving, have led to the death of someone or great injury to someone, they might energize guilt for many years, and wallow in their guilt, and could possibly even further drink and add an addiction to their guilt, and they might feel themselves unworthy of any happiness, and thus, perhaps cause others to become unhappy, adding further reason for energizing guilt.

This Awareness indicates that these negative guilt patterns add nothing constructive to alleviate karma; they simply make matters worse. That if you wish to alleviate karma, it is suggested that you take positive action, to do something worthwhile for the entity you owe, or if that is not possible, to do something worthwhile for someone else in behalf or in the name of the entity you owe.

This Awareness indicates that for women, often it can be alleviated through confession or through discussion with others, but there is still a considerable amount of benefit in doing something worthwhile for others, especially when this is accompanied by their confession or discussion with others about the problem, the karma owed. In some cases, entities can alleviate karma by living the rest of their life in a constructive manner that is beneficial to others, to where they do things or spread their energies to bring happiness or alleviate pain from the lives of others, and often many of the great servants of humanity fall into serving others because they have made some kind of mistake in their past in which they feel remorse and they wish to repay life for that mistake by serving life in a more constructive way.

This Awareness indicates that other than these the other way of overcoming karma is through grace, and although most entities cannot demand grace, cannot control whether grace forgives them, the action of being remorseful for a karmic debt, opens the entity to receive forgiveness through grace from higher spiritual beings. Thus, the entity may find grace through Christ or through whatever deity he or she follows because that deity recognizes the sincerity and remorse the entity feels in regard to the karmic debt owed; however, it is important to understand that the grace of forgiveness from the Divine Forces is not something that you can demand or control. It is given by the Divine Force when *It* recognizes sincere remorse and when *It* recognizes sincere remorse it is at *Its* own pace, not at your beck and call or demand.

You can say: "I feel remorse for my error!", but if the Divine Being does not recognize your true sincere remorse, *It* may not offer forgiveness, thus the entity must plead for forgiveness until the Divine Force acknowledges and recognizes the sincerity of the remorse.

This Awareness indicates essentially, this is the action known as the forgiveness of sin, conversion or being born again, as promoted as fundamental Christian teachings.

The other element in this process is having the faith that at some point, the Divine grace will truly recognize your remorse and forgive you, if you persist in your pleading long enough.

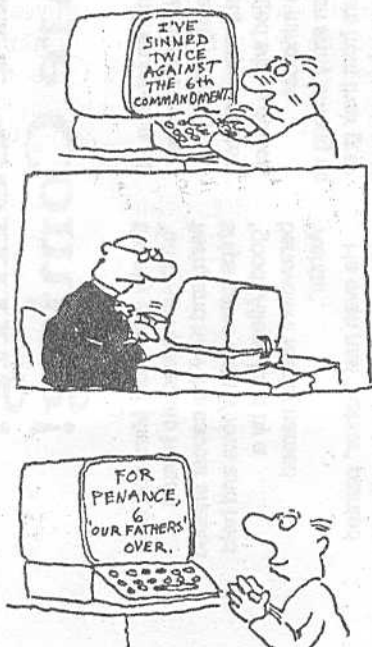

(FOLLOW-UP QUESTION):

Karma that is carried over from a previous lifetime, which the entity in a present life obviously couldn't remember; would these same basic methods of overcoming it apply to that type of karma also?

COSMIC AWARENESS:

This Awareness indicates that generally, when karma is carried over from another lifetime into a present lifetime, the entity will meet with certain circumstances that allow the entity to have an opportunity to repay, and the entity will feel an obligation to repay the karma, and if the entity does not respond to the obligation, then the karma is continued; that sometimes, an entity will carry karma from one life to another and will reinforce the karma in the next life by adding to the violation, but normally an entity will willingly desire to help the entity to whom the karma is owed.

It will be as though there is a subconscious realization that he or she must assist this entity, for his or her own peace of mind; that the carry-over of karma is generally carried in the subconscious level and is generally repaid on the subconscious level, with occasional realization that surfaces to conscious levels for some individuals.

CLOSING MESSAGE:

This Awareness indicates that it is a part of the condition of humanity that each individual perceives himself or herself to be isolated and alone, and therefore to feel somewhat ineffective when dealing with things that are beyond one's personal capacity to deal with or control. The feeling of being separate from others leaves one with the impression that one can't do much. This Awareness indicates that one can do many things, when one is dedicated and committed. One entity has the power of a hundred and forty-four, when one is fully committed and dedicated, and is willing to take on the responsibility, and generally speaking, such an entity will gradually find that there are 144 entities who will support him or her in their dedicated mission and purpose.

The support may be strong or may be partial, depending on how great one feels in terms of one's commitment and responsibility. This Awareness indicates that there are not too many who are willing to make intense commitments and take on the responsibilities, but there are not too many who, when making such commitments and responsibilities, realize that support will be forthcoming if they simply persist. This Awareness indicates that this is a factor that may encourage entities to become more committed to those things which are important to them, for as you commit yourself more deeply, others also will commit themselves to your efforts, to your cause.

This Awareness cautions that you make sure your cause is right, is worthy, so that you do not gather energies from others for an ignoble cause or purpose. If the purpose or cause you choose is not healthy and good for all, it will gradually begin to unravel, and even with your own commitment, others will begin to fall away and problems will creep in for you.

In regard to the New World Order, you can obtain the names and addresses of your Congresspeople by phoning your local library; ask for 'Information' or 'Reference' department. Also, your local newspaper can supply this information. ED.

HOW TO RECEIVE THIS NEWSLETTER BY MAIL

'Revelations of Awareness' is a cosmic newsletter, published every 3 weeks, more or less, by Cosmic Awareness Communications, P.O. Box 115, Olympia, Washington, 98507 USA, a not for profit organization,

MEMBERSHIP LEVELS (Honor System)

LIMITED INCOME: \$30 per year or \$9.00 quarterly.

INDIVIDUAL: \$42 per year or \$12 quarterly.

FAMILY: \$52 per year or \$20 quarterly.

CONTRIBUTING: \$77 per year or \$25 per quarter.

SPONSORING: \$144 per year or \$40 per quarter.

BENEFACTOR: \$500 per year or \$150 per quarter.

PATRON: \$1000 per year or \$250 per quarter.

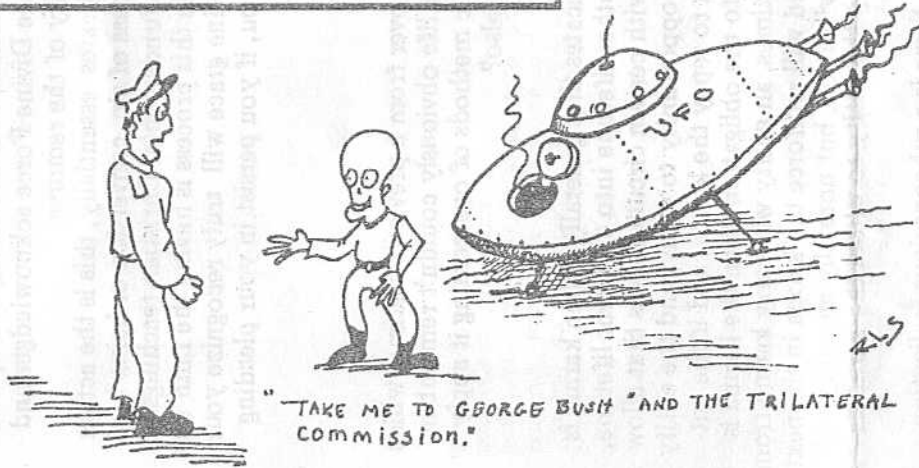

ENDOWING: \$5000 per year or \$1500 per quarter.

Members and readers outside U.S.A. must add an additional \$15 per year to cover the additional postage required for international mail. (For airmail even more is required. Write CAC for details).

PSYCHIC WORLD

BY RICHARD SENATE

The Aliens Are Coming! The Aliens Are Coming!

A week ago the subject of UFOs came up in conversation and I found that several people had deep interests in this Twentieth Century mystery. After the conversation one of the group handed me a Xeroxed memorandum. It was titled: THIS INFORMATION COULD SAVE YOUR LIFE AND FREEDOM! An arresting beginning. Over lunch I read the curious sheet and found it much like many I have seen over the years. According to this paper the space creatures are all ready here and their presence is being covered up by "The Government". Not only is the government holding back this information but they have permitted the Aliens to build bases in remote sections of our

nation. In return for this privilege the Little Green Guys (more accurately Little Grey Guys) have given us advanced technology. The lands given to the aliens is on Indian reservations in Arizona and New Mexico. Not only does the report indicate that the ETs are here but that they come in two flavors! There are the "Greys" who have cut a deal with the government, and another type, the Reptoids, who, so it seems, have developed a taste for human flesh.

The paper continues, stating that "over three million "Greys" are occupying deep multi-level underground complexes. Level seven at Dulce is called "Nightmare Hall". It seems that not only have the US

Government given them rent-free bunkers, but free reign to capture American citizens to use as guinea pigs in horrible experiments that "would make the Nazis pale in comparison".

Who knows about this terrible violation of human rights? Why, George Bush! He learned about the alien presence while heading up the CIA. The paper begins to spin even more fantasy as it indicates that it was none other than Bush himself that began selling drugs to little children! The money earned from these sales financed the construction of the deep underground Alien bases. I guess it's nice to know tax dollars didn't go into this project. The paper states that secret organizations, known as the Trilateral Commission and the

Jason Society, manipulate the US Government. This curious paper went on to say many Americans have been secretly experimented upon and implanted with a device that makes them mindless zombies, a hidden army among us waiting only orders from their grey masters to take over. I wondered if some of these work at McDonalds where I was having lunch. The people behind the counter certainly looked like they were under some mind-dulling control. The report stated that one out of forty Americans have been so implanted.

Finally, towards the end of the paper, the real message that could save your life was printed. They say soon the US Government will make an "official" announcement and stage a "landing" with greys. The Aliens will offer us a cure for AIDS, cancer and aging. They will help protect us from the Reptoids who are coming. Their plan is to unite the whole world so they can control us! So, if you don't want to end up on the alien's experimental dissection table, or as Alien food, resist the false landing and force the government to tell "the real truth".

Papers like this are not new. In the mid fifties my grandfather was caught up in the hysteria of the "Flying Saucer" craze. He told of how the cigar-shaped ships seen in

the sky were from Mars and held "bad" Aliens who ate human flesh, and how the saucer shaped ships came from Venus and held "good" Aliens lead by a benevolent leader named "Ashtar".

He even had "Ashtar" painted on the roof of his Jee^s so that the saucer people would know he was a friend and land. He made many trips out to the Mojave Desert and claimed to have seen many space ships. Once my father accompanied him. He saw lights in the sky too but identified them as airplanes. My grandfather had failing vision and a good imagination.

The paper I was handed ended with the admonition "Circulate this information. Make 30 copies!"

Our world is filled with many real problems: crime, pollution, wars, and drugs yet, so it seems, some people need to add new worries.

I must pass off the paper to just another paranoid fantasy—still, if tomorrow the US Government does announce that a UFO has landed, and little bandy-legged ETs are offering us cures to what ails us, and that they want the world to unite, well, then maybe I might take another look at the curious warning.
