COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Paul Shockley, Interpreter

(C.A.C. General Reading, April 11, 1991)

A REQUEST BY AWARENESS TO ENERGIZE CERTAIN PROJECTS RELATING TO THE MESSAGES

QUESTION:

Awareness, we're here for a general CAC reading. Does Awareness have an opening message?

COSMIC AWARENESS:

This Awareness wishes to make a request of entities. This Awareness indicates that the *Cosmic Awareness Communications* as that which has been active for close to twenty years. That it has, throughout this period of time, provided a way whereby this Awareness could address entities on this plane, giving information on various topics. Most of the earnings and money that has come to *Cosmic Awareness Communications* has been reinvested in keeping the messages going.

This Awareness indicates that *It* would now request entities to give some time in their meditations, give some time visualizing an increase of wealth for this organization. *It* is not asking that you necessarily send money or increase donations, *It* is simply asking at this time that you visualize the organization receiving larger income in order that it might be able to provide even greater service in the future.

This Awareness indicates that *It* also asks that you do the same for the *Aquarian Church*; that there are some activities that are occurring which could be quite lucrative in which the Interpreter is involved. These relating to import/export activities, and with energizing from the membership, the activities could become more immediate in terms of payoff and the Interpreter is intending to put considerable amount of the money earned into C.A.C. and the *Aquarian Church*.

This Awareness indicates that the assistance that can be provided by entities visualizing this money coming to these organizations can be of great value in counteracting any negative forces that might attempt to block this new source of income. This Awareness asks therefore, that you visualize large sums of money coming to these organizations repeatedly, over the next three months.

WHY DO THE BEST LAID PLANS TO DO GOOD BEAR FRUIT ONLY FOR THE RICH AND GREEDY?

QUESTION:

Vikki received a letter from M. J., in Maryland. It's sort of an interesting letter, and it does have a couple of questions that may or may not be able to be answered at this time. He writes:

"Dear Vikki T. It's been quite some time since I've written to you at CAC. I don't even know if CAC is alive these days! Perhaps you can fill me in on what has transpired the last three years.

"I spent a couple of years in Africa with the Peace Corps. The experience was profound and defies description. Much of my experience was an intensified version of Awareness lessons: communications, culture, power, self-examination, causation, ego-fixation, etc. A view of the American culture from afar is also very enlightening.

The capitalist system with its inherent racist imperialist drive to consume and produce both resources and cultures seem hell-bent with one last fling with Armageddon proportions. Many of us have seen the movements toward this dramatic oppression of people but it is very discouraging to see first hand the effect, the magnitude and the impunity with which it is being undertaken. The sufferings of people at others' expenses, that is, those who profit from the miserable life of the poor, is reprehensible. What's worse, there seems no end in sight.

"Well, I'm embarking again on an international mission. I'll be working with refugees in Thailand for the United Nations. It's crazy to think that I will fill a position provided by the displacement of homeless people. It's a sad indictment on our humanity for the need of providing in such a manner. Utopian ideal or not, I wish I was serving for the greater glory of life joyous, and in general, giving graciously was more common than human brutality and greed. If wishes were but garden seeds!

Vikki, I would love to hear from you and CAC. What is your view? Can we survive? Are we deserving? Why are the best laid plans of men bearing fruit only for the rich and greedy and powerful? Is there a justice? Sincerely, M.J."

| The Law of Divine Manifestation | 12 |

This Awareness indicates that it has long been a kind of policy of the forces of earth that justice is not automatically provided in the physical flesh to those who deserve it. It is for this reason that karma becomes part of the equation, and that grace has also been introduced to alleviate karma for those whose remorse is great enough to wash away their sins or errors.

This Awareness indicates that there are forces that have been influential on the earth who have very little regard for true justice, who are motivated by greed and the desire for power, and these forces have long been prevalent; in fact, it appears that almost any force that gains considerable power, seeks more at the expense of the meek.

That it is for this reason that systems have been developed that will help to defuse the power that an entity can obtain. Your Constitution in the United States as that which helped to defuse that power, but which over 200 years has been whittled away so that the power is able to circumvent the Constitution, and through other organizations, has been able to form new blocs of power that are not checked by Constitutional Law.

This Awareness indicates that these are serious threats to this democratic system and the Constitution at this time, and other countries in the world do not even have this much going for them, and many entities are but victims or subjects to whatever whims may cross the minds of the ones holding power in their country.

The Question of Finding Justice in the World

This Awareness indicates that the question whether it is possible for entities to find justice in the world is that which has been asked for many centuries and which will continue to be asked for centuries to come, and it is likely that there will be changes, but that these changes will not produce the total effect of a just society. That justice may come in consciousness, in the universe, in the Universal Consciousness, perhaps after death, or perhaps in future lifetimes, but that there will always be someone in the physical realm who acts unjustly towards others, for it is the nature of the duality and polarity in consciousness for there to be conflicts and the egocentricities of entities seeking to have power over others; that these entities will continue to abuse others for their own glory.

This Awareness indicates that sadly, it is not likely to change much, but that even minor change will alleviate some of the tragedy caused by the pursuit of power and greed. That all this power and greed comes about because of the illusion of separateness that is prevalent in the minds of entities, and this illusion of separateness comes about due to the polarities that are energized by thought; that if entities can reduce the polarities, reconcile the yes and no, reconcile opposites, see processes instead of being forced to make choices of polarized positions and values; if entities can simply accentuate the positive and diminish the negative, or reconcile the extremes, then much of the extreme polarities can be reduced.

The Proper Role of Ego & Polarization

Tragedies will be reduced. The illusion of separateness can be reduced. This Awareness indicates that in nature, in physical levels polarization has its place and value, just as the ego has its place and value in the world of action, but when the ego is put in the world of thought, it is out of place and causes difficulties, and when polarity is put in the world of values, where entities accept and reject and in the rejection condemn others and create feelings of separateness, this is that which leads to the greater tragedies, for as entities begin to reject others, if this rejection continues on a great enough scale, the entities are also rejecting themselves.

For as entities reject the world, reject God, reject everything in their lives, isolating themselves, they may take on the illusion of holding power, but having rejected everything and everyone, they hold power over nothing. This Awareness indicates that entities need to see the full picture, the totality, not just the two sides, not just the polarized positions, not just the power they seek. They must also see the effect of that power and how it is used, for when they have the power at the expense of others, to abuse others, wherein their consciousness becomes part of that process, they may find that what they have done to others they have also done to themselves, for it eventually comes full circle, coming back to them.

It is the *Law of Gratitude*, that energy which has been given goes out on a curved, unequal line, and when extended far enough, returns to its source bearing those same gifts or similar gifts that were sent out. If the entity sends out negative polarity, negative polarity comes back, even if the entity holds great power.

This Awareness indicates that all that can be done by entities who seek to improve the situation on earth is that they do what they can for others, even though they may know that their action may not have a permanent effect of improving the world. This Awareness suggests that each entity should be aware that there is a strong chance that they will return to live in the world in a future life, and in this present life, if they pass through and improve the world, it may be that much better when they return, or if they go through life with an attitude of rape and pillage, when they return to this world, they may have a world that is far worse because they have previously existed with that attitude, and thus may suffer the consequences of their own attitude of rape and pillage.

This Awareness indicates that if entities could fully see the consequences of their own actions, not only in the present, but in the future, they would be very cautious as to what actions they take. This Awareness indicates that it would behoove entities to do what they can to improve the world, if not for themselves and others within society, then for their children or for their own return in the world, in a future life, for if you mess up your own bed, then you may find yourself sleeping in that same mess the following night or the following lifetime.

This Awareness suggests that entities learn to be neat and tidy, not only in their personal lives, but in their more extended life expressions, so that all will be made

4. more comfortable because you have lived, and have kept things tidy and neat, and because you have served other to help them keep things more pleasant in their lives also.

PSYCHIC SURGERY AND SPIRITUAL HEALING -- HOW EFFECTIVE ARE THEY ?

QUESTION:

Dr. V.S., Trenton, Missouri, writes: "I have a question for CAC if it has not been addressed before." (It has, long ago, but I don't think it was in depth). He writes: "I have some friends who have recently returned from the Philippines after having had multiple healings from certain natural healers who are said to put their hands into the body, removing certain diseased parts without leaving any scar. My friends are very impressed with the technique and results, believing that this is absolutely legitimate. Can Awareness tell me whether this is genuine, and if so, what is the explanation for the mechanism of action? And a follow-up question: Can I, as a physician and surgeon, learn to use this healing technique?"

COSMIC AWARENESS:

This Awareness indicates that there are two types of psychic surgery that are used by these Philippino healers. The one type, which is the most impressive, is that wherein the entity actually reaches into the patient, to remove growths or trauma scars of a physical nature, and takes these out of the body, in what is commonly called "psychic surgery," and this is highly effective.

This Awareness indicates the other type as that which is much more related to the psychic aspects. The first type being a surgery in which the psyche is involved in allowing the psychic surgeon to insert the hands into the body to remove the object that is undesirable. This second type of of psychic surgery has more to do with affecting the mind of the patient. In such cases, the psychic surgeon does not have the skills of the first to actually move the hand into the flesh or into the body of the patient, by separating the atoms of the skin and body, but instead, creates the illusion that this is being accomplished. The entity may use warmed chicken blood placed in the hands of the surgeon and on the flesh of the entity and work this into a kind of pocket where the healer presses into the abdomen of the entity, for example, giving the impression that there is blood coming from the entity, where the healer is cutting or reaching into the flesh.

This Awareness indicates that this is the kind of psychic surgery that is usually referred to as phony or charlatan in nature. The system is in fact unreal in terms of misrepresenting to the patient the actual process, giving the patient the false impression that the entity is surgically opening the body with the healer's hands, when in fact this is not the case, and the entity is simply using lukewarm chicken blood to give that impression that the patient is bleeding. The patient will feel no pain from the action, as in the case of the real psychic surgeon, but the patient will be convinced that the surgeon has opened and taken something out, something which was harmful to the patient, and this will have an effect on the patient's mind which is likened unto a

placebo effect, but much stronger in its effect.

It has been established that sugar pills can have a profound effect on entities, when they think they are being given a drug to cure a particular illness, and such placebos work on the mind of the entity as a kind of suggestive force. Likewise, the psychic healer who uses chicken blood and perhaps other parts and convinces the patient that he has had something removed from his system, may create a great suggestion to the entity that a healing process has occurred and the entity will then expect to feel better.

Often the suggestion being strong enough, actually brings about a physical reversal, so that the healing does occur naturally, based upon the entity's own immune system following the suggestion. It is much like that of hypnosis, except that when given in a dramatic form, such as the psychic healers might use, the suggestion may be even stronger than hypnosis, depending on how it is believed or whether it is believed by the patient.

This Awareness indicates that the mind of the patient is the general over the army of cells within the body, and when it gives a direction or command, believing that command will be obeyed by the cells of the body, the cells tend to respond accordingly. That this is also how certain faith healing works in religious settings.

Therefore, there are two types of healing systems at work: the one that works with the psyche and a false surgery, and the one that works with surgery that is instigated through the powers of the psyche. Both can be effective. The actual surgery, using psychic powers is more effective because it does not count on or rely on an individual believing in it. The only one who has to believe in it is the psychic surgeon who performs the action. This entity has to believe it is possible to separate the skin, separate the atoms and reach into and pull out that which is offending.

The Laying On of Hands Type Healing: How to do It

This Awareness indicates that of course, not all illnesses require the removal of something from the body, and in some cases, for example, a spleen or pancreas may need fixing rather than removal, and a healer can lay on the hands without removing or without even invading the body in any form of surgery, and by laying the hands over the pancreas for example, may, with the right psychic attitude and sufficient faith, send healing energies to the pancreas or spleen or whatever other may be involved.

This kind of healing is referred to not as psychic surgery, but as 'Laying On Of the Hands.' It is kind of charismatic healing, a healing that directs energies through the hands of the healer into the body of the one needing help; that it is possible to build that healing

energy in the hands by holding them approximately 4 inches apart and pulsing them back and forth without their touching, while feeling the energy build between them. It is much like the stretching of invisible dough or taffy between the hands, visualizing this coming from the palms of the hands.

This Awareness indicates that as energies are built, the hands may reach out further apart so that this invisible taffy is stretched. You will feel the energies between the hands. At some point, when the hands are approximately from one to two feet apart, you may then place the hands one above the other, with fingers pointing toward the elbows of the other arm, and begin to rotate these energies, where one hand rotates around the other with the elbows bent.

You will feel the energies building up between the area of the rotation. Do not let these hands touch each other, or the energies will become discharged, and can be lost.

This Awareness indicates that as these energies continue to build, as you turn your hands, one around the other, while the fingers point toward the elbows of the opposite arms, these energies become stronger and stronger, building up a strong force. The hands then begin to feel as though you have electric gloves on each hand, and this is the energy that can be used for healing. You place one hand over the area that is felt as an energy leak, and the other hand behind that energy leak, and allow them to touch the body, where the energy leaks occur, and let the energy move from the right hand into the left hand, taking away any negative energies, while giving the body positive healing energies.

How to Locate Energy Leaks

This Awareness indicates that this locating of the energy leaks can be done when the hands have been charged with energy, simply by running the hands several inches away from the entity's body, from head to foot, and when you find an energy leak, there will be a change in temperature or feeling, and it will be an area in which there is some kind of damage to the electrical body of the entity, which generally reflects a problem in the organ or other body part nearby.

This Awareness indicates for example, a pinched nerve may be felt or an organ that is not functioning properly may be felt. These energies may be felt in terms of different temperatures or some kind of heat or cold or pressure on the hands that are highly charged with this charismatic energy. You do not touch the entity's body until you are ready to let the charge of energy flow from right to left hand, which will be placed on the two opposite sides of the body, where the energy leak occurs.

How to Heal Others at a Distance (Setting Aside Mind, Emotion & Feeling)

This Awareness indicates that there are also other types of spiritual healing, that can be accomplished without even being present or being attuned to an individual. When you learn to direct energies through the focusing of the energies, it becomes possible to heal others at a distance. This Awareness indicates that it is first necessary to set aside mind or personal thoughts, emotions or personal concerns about your own fears or

5. desires, and set aside also feelings, which are your concerns for those things which are happening around you, leaving yourself with a kind of blank mind.

You will perhaps at that point, feel a kind of halo energy around your head, usually down to the shoulders. Another way to feel this is to focus back from the eyes toward the center of the head, and then from the center of the head between the ears, look upward toward the top of the head. You will generally feel an energy around the head that is kind of static in its feeling, likened unto a magnetic field of static energy. This may be termed a halo.

This Awareness indicates that when you feel that energy, you may then visualize the entity you wish to see it send a healing to, and in focusing on that entity to whom you wish the healing to go, you may then either point your hands to the entity that you visualize, even though the entity may be thousands of miles away, and focus your mind to see the energy flowing toward that entity at that distance, covering the entity with light, with a light energy that is of a healing nature, visualizing this light energy as that which comes from Divine Vibrations, for the purpose of healing.

This Awareness indicates that this can have a profound healing effect on the entity. That it can have such an effect if it is properly initiated, as to allow the entity to experience an immediate recovery from a severe health problem. This Awareness indicates that if it is not fully focused or the energy is not totally charged, the degree of effectiveness may be somewhat diminished.

Eat a Piece of Candy Before the Ritual

This Awareness indicates that all of this is a matter of skill in the sense of focus, concentration, and ability to keep your energies strong or draw in strong energies for the healing effect. This Awareness suggests that entities wishing to draw in such energy can benefit by having something of a sweet taste, some kind of carbohydrate, just prior to the ritual, for the blood-sugar being mixed with oxygen is that which allows the aura or energy of the healing, the psychic energy, to be strengthened.

This Awareness indicates that deep breathing, to enhance oxygen, along with blood-sugar, the sugar of the blood, is that which builds the aura which can be used for the psychic healing, whether it be close, or at a distance, and the mind that focuses clearly determines how this energy is sent. The hands serve as a kind of antenna to draw in these energies, especially for those used in the healing that requires touch, or laying on of hands or psychic surgery.

Psychic Surgery Using Placebo Effect

This Awareness indicates that the psychic surgeons who run through many patients very quickly, such as every ten minutes, are generally the type that use the placebo surgery rather than the actual surgery. To use the actual psychic surgery in which the skin is separated, in which atoms are pulled apart to allow the surgeon to insert his or her hand into the body, requires a great amount of psychic energy, too much

to be repeated in an assembly line type of system.

This Awareness indicates there are some psychic surgeons who have patients lined up outside, and take them through every five or ten minutes, so that as quickly as one enters, they are instructed to close their eyes, lie on their back, and the psychic surgeon then pours chicken blood into a kind of pocket that is formed in the stomach area, and the feeling is that of warmth, and he begins to massage the area, while he or his assistant pours more chicken blood into the area to give the impression that the massage is opening up the stomach area.

The action is such that an entity who does not know exactly what is happening could be informed and could believe that the surgeon is opening the stomach area, even though there is no pain involved. That if an entity believes in what is occurring, the entity can also accept the suggestion of the healing through the use of the psychic surgery, thus, it becomes likened unto a powerful suggestion or super-placebo.

This Awareness indicates that in this sense, it is not charlatan work necessarily, for it can have powerful effects of healing, if an entity is suggestive, is capable of receiving suggestions, but if an entity is extremely critical and doubting, then it is not likely to be effective. For this reason, this type of psychic surgeon is not as effective as the type which actually separates the skin and reaches into the body to remove the offending part.

If You Want to Learn Psychic Surgery

This Awareness indicates that an entity wishing to learn how to do these things can have the opportunity provided in the Philippines with contacting one of these healers who is receptive to teaching the system, but if the entity wishes to practice this type of healing in the United States, it could prove to be difficult. This Awareness indicates that if the entity is already a medical doctor, he could learn the techniques, use them, and not be arrested for practicing medicine without a license, but the AMA or other licensing group to which he belongs might frown upon the methods that he is using, and might even take away his license for using these methods.

This Awareness indicates that these are things that need to be considered. It is possible that an entity could learn these techniques and not use the placebo psychic surgery method, but use the actual laying on of hands and separating the flesh, and it is possible that this kind of healing could be proven, and thereby used to the advantage of the doctor and patients, but this has not so far been accomplished and the doctor would need to be prepared for challenges to his credibility and would need to be ready to prove beyond doubt that indeed, the action is truly happening, for many doctors perceive the psychic surgery as being entirely suggestion and quackery.

The Doctor & the Power of Suggestion: The Office Syndrome

This Awareness suggests it would not be advisable for an entity practicing medicine in the United States to use the placebo method; that the understanding of the power of suggestion can however be helpful for a doctor, for most people who go to a doctor begin to feel better as soon as they get to the office. That is part of the power of suggestion. It occurs even when the entity doesn't believe the doctor can do anything for them. It occurs even when the entity attends a doctor of a medical type that the entity does not approve of.

6. The entity generally begins to feel better just from sitting in the doctor's office, because the entity is conditioned to believe that the doctor is there to heal. That therefore, doctors need to take advantage of this placebo of the office syndrome and allow patients to have a proper setting to begin feeling better when they walk into the office, and to encourage this psychological healing through other activities and words spoken by the doctor.

The doctor who begins bringing up other scenarios other than healing, telling the entity that this can be very dangerous, or this could develop into something much worse, is contributing to a suggestion of non-healing. This Awareness suggests that if entities can encourage the healing without putting the patient at risk by not informing them of everything, this would be better. If the doctor does not need to inform the patient, that there is some danger involved which the patient needs to watch for, it should come earlier in the discussion, with the doctor giving encouraging words following the warnings, so that the patient does not leave the office with fear and trembling from what the doctor has said.

Photo of Tony Agpaa removing a cancerous tumor from the uterus of a woman. (Photos by Dr. Decker.)

A few moments later. The same patient closed, no scar.

FOLLOW-UP QUESTION:

I have read that there's a high percentage of recidivism in many cases of people who go these psychic healers, some entities returning time after time for the same problem to be healed. I would assume these would be those healers who do the placebo type. My question is: Those entities who do the genuine psychic surgery on a person, will they remain healthy for a long time after that particular operation?

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative, that it should be a permanent cure for that particular problem. That of course, if it is an action of a placebo type healing, then it is only beneficial to the degree the entity believes he has been healed, and for as long as the entity can accept that. The same may be said for psychic healings of other types or for religious experiences.

An entity who, having many people pray for him may be healed, but if the entity begins to doubt that healing, it can return very quickly so that the problem which was healed comes back. In other words, an entity who has received a healing from any of these that use the power of suggestion does need to continue having that suggestion reinforced, or at least not questioned to the point of causing the entity to doubt whether it occurred.

ARE SPIRIT DOCTORS INVOLVED IN PSYCHIC SURGERY ?

FOLLOW-UP QUESTION:

These psychic surgeons in the Philippines, do they actually generate this psychic energy, to allow some Divine type healing, or is there actually spirit doctors on another level, perhaps the astral level, that are participating in this surgery?

COSMIC AWARENESS:

This Awareness indicates that in some cases there are spirit doctors working through entities, this especially in regard to those who actually work to separate the atoms of the body to reach in. This Awareness indicates that much of these so-called psychic surgeons are employing slight-of-hand techniques or the placebo type, which works on the mind of the patient to convince the entity of the healing and thereby bring about the healing through suggestion.

This Awareness indicates that the trouble with going back to the psychic surgeon for repeated healings is that after a number of returns, the entity begins to feel that it isn't working, or doesn't last, if it does work, and the effect diminishes the faith of the patient in the doctor. Eventually it becomes likened unto a kind of 'fix', a psychological fix that does not stay with one, so that the entity is becoming immune to the effects of the psychological healing with each repetition.

This Awareness indicates that even this message explaining the placebo-type psychic surgery will diminish the effectiveness of the healing in the same way that an

entity being given a placebo would lose respect for the effect of the placebo upon being told what it is. That if you attended a doctor who told you: "Take this purple pill and you will feel much better. Take it for two weeks and your problem will be over," an entity doing so may be healed just from the power of the suggestion, but this Awareness suggests that if the doctor explained to you that it was just a sugar pill, had no active ingredient for healing your particular problem, it was a placebo; you would not receive much effect by taking the pill.

Thus, by explaining how the placebo type psychic surgery works, entities taking a psychic surgery healing would not likely benefit after this reading, except in the case where a true psychic surgeon operates. This Awareness indicates that it does not appear that there are more than a very few genuine psychic surgery healers in the Philippines.

This Awareness indicates the entity Tony Agpaoa is seen as one who is a true psychic healer. It also appears that this entity may have trained one or two others.

FOLLOW-UP QUESTION:

So the criteria one would use in visiting the Philippines would be to check around and ask and so on, and find out if there are any who do not work on an assembly-line basis. Would that be correct?

COSMIC AWARENESS:

This Awareness indicates that it appears that any true psychic surgeon would not be able to generate the kind of energy to keep a string of patients going through for any long period of time. It appears that the entity could not operate for more than one or two hours, using this high degree of energy; that even one hour would likely deplete the entity's energies for this type of true psychic surgery.

This Awareness suggests also that if the psychic surgeon does not want you to watch, that would also be another indication that the entity may be using a foreign substance to fool you into thinking it is your own blood that you are feeling.

CAN PSYCHIC SURGEONS REMOVE IMPLANTS?

FOLLOW-UP QUESTION:

Could an alien implant, say, close to the brain which ordinary surgery would kill the entity, could these be removed by those so-called psychic surgeons who use the placebo method? In other words, will the placebo type of healing remove something like a physical implant?

COSMIC AWARENESS:

This is negative. This Awareness indicates that in most cases even your best surgeons cannot remove these implants, and this is in reference to your medical surgeons. That it does appear that any good true psychic surgeon could remove such implants without causing death to the patient. That the use of suggestion through the placebo method would not have the effect of removing these implants.

ED's Note:

Back in the late '60s and early '70s, psychic surgery was very popular; in fact, there were several flights a week out of Seattle for people who wanted help from these Philippine psychics. Harold Sherman, author and director of an ESP research group went to the Philippines to check out these psychic surgeons. Like Awareness has just indicated he found both kinds and wrote a book called "Wonder Healers of the Philippines" which is now out of print. Nelson Decker, a chiropractor in New Jersey went there also, and supposedly learned the real thing from Tony Agpaoa; Decker also wrote a little book on the subject called "Barehand Psychic Surgery" which is also out of print. Decker used to give lectures around the Seattle area and is supposed to have brought Tony to the U.S. where he demonstrated true psychic healings. After one or two demonstrations, these were stopped by the AMA and later I heard Tony was performing these in homes of certain people. I suspect the books were banned on this as I can no longer find any references, and the flights to the Philippines which travel agents all over the nation were promoting, no longer exist (however, I could be wrong since I did not check any), and whatever happened to Dr. Decker and others who were researching the phenomena, I don't know. They seem to have disappeared.

In the books published some 25 years ago, Tony was 26 years old, a member of the widespread Union Espiritista Cristiana de Filipinas, Inc. a union of healers who acted as spirit mediums. Even the Catholic church appeared to accept these entities as some priests such as brother Terte were shown in the books practicing the method. Tony Agpaoa, the most publicized of these surgeons was planning to build a clinic in Baguio City, Philippines. Whether he did or not, I have never found out. He originally worked out of Manila.

Everything I have read in the past few years about the psychic surgeons has been negative, including another "exposure" by the 'Amazing Randi' whom I suspect is paid by the AMA and FDA etc. to 'expose' any kind of healing not approved by these agencies. (The bottom line being, if the AMA does not control it, or does not get the lion's share of any profits, they will have them destroyed, one way or another. Any kind of alternative type healings that people claim actually work, must make them tremble with fear of losing some income, particularly something as far out as 'psychic surgery' done for a 'love donation' to some Filipino healer, when the establishment 'doctors' often charge \$50,000 for removing the problem by the actual knife).

MICHAEL LANDON'S FIGHT AGAINST CANCER
--WOULD PSYCHIC SURGERY REMOVE TUMORS?
 (Awareness Gives Some Suggestions Worth Trying)

QUESTION:

The other day, actor Michael Landon had a very emotional news conference and announced that he had just returned from his doctor after having a check-up. He had gone there with a stomach problem which he thought at worst could be an ulcer, and the doctor, after tests, informed him he had cancerous tumors in his pancreas and liver that were inoperable; in short, he was dying and death was very imminent. My question is, could these tumors be removed by one of the true psychic surgeons, if he would go to the Philippines and use a valid psychic surgeon, and if so, even if he didn't believe in it, this type of thing, if he attempted it, would the healing hold permanently?

COSMIC AWARENESS:

This Awareness indicates that if the entity could find a true psychic surgeon, that this would be effective. It is questionable as to whether he would even be able to find a true psychic surgeon; that there are many who are using the placebo techniques, and there are very few, if any, remaining who are true psychic surgeons.

Cancer Cannot Live in a High Oxygen Environment

This Awareness indicates that cancer cannot live in a high oxygen environment, and this entity could be helped or healed by the antioxidants, by taking substances that increase the oxygen in the body, the proper and careful use of H_2O_2 , hydrogen peroxide, as indicated in the Waves Forest booklets, the use of the product SEA ALGAE* which contains the substances that are associated with the first forms of life on earth, which have been used in other cases similar; the use of the catalysts that are produced by Bio-Tech in Hawaii to lead the body into producing its own superoxide dismutase, the use of antioxidants such as Vitamin C, Vitamin E, Beta Carotene, and RNA; all of these things can be helpful in increasing the oxygen in the entity's bloodstream, in the entity's system,

especially in the entity's liver, and this could be helpful, if it has not progressed to such an extent that the condition is irreversible.

There is a point at which the body cannot continue to function. It does not appear that it has reached this point. It appears that at this stage it would be reversible, if the entity were able to increase the oxygen in the bloodstream and throughout his system. This Awareness indicates there is also that which is called SEAQUEL* which helps to increase oxygen. It is created in a base of heavy water. It is trace minerals in heavy water, and has a powerful effect of assisting the immune system, treating the immune system.

Power of Prayer Can Cure Cancer

This Awareness indicates that there is also the power of prayer, which can have its effect even after the medical profession has given up. That it is more common than entities realize for entities to be cured of cancer through the power of prayer; that visualization also is powerful. Cancer in the liver is that which is generally considered fatal, but it is possible, especially if oxygen is of high content in the bloodstream.

This Awareness indicates that this could be beneficial in cleansing the liver through high oxygen content through the bloodstream. This Awareness indicates that the entity would have little to lose in using these substances, yet *It* does not see that this is part of the entity's thinking, and too often the thinking of entities stands in the way of healing. Many entities will go for tradition, even though it repeatedly fails, even though those promoting the traditional view acknowledge that there is nothing they can do.

* For information and prices, write to: The Goodship
 P.O. Box 1116, McMinnville, Oregon, 97128.

The Problem with Chemotherapy

The problem with chemotherapy is that the toxins destroy the immune system and the appetite and the entity in not eating cannot rebuild the immune system and may either starve to death before the cancer kills him, or die because there is no immunity. The alternative approach, used by alternative medicine, is to help the body to heal itself by giving the body that which it needs to strengthen the immune system, but entities generally prefer to take drugs or poisons or the scalpel to eradicate the symptom, even if it kills the patient.

This Awareness suggests that entities do need to recognize that if nature can create a healthy being and something goes awry that creates a problem, then to restore the body's immunity for enhancing the healing power of the body, as opposed to relying strictly on the doctor, that nature can assist in the healing process, if nature is given a chance.

This Awareness indicates that the medical system generally tends to attempt to shut out nature, to shut out the physical body's ability to heal itself, and to rely strictly on pharmaceutical drugs, without regard for natural healing processes.

IS SAM MILLAR BLOCKING HEALING ENERGIES?

(FOLLOW-UP QUESTION) (Vikki):

Michael Landon will surely have many many people praying for him, and speaking of such, many of our people have written that they're sending Sam Millar Light and remembering him in their prayers, and he, when I read such excerpts of the letters to him, says: "Well, then why do I still feel lousy?" Is he blocking these healing energies, or are they just inept at it, or how much healing has been accomplished?

COSMIC AWARENESS:

This Awareness indicates that the entity needs to be appreciative and to recognize the efforts of those who send healing energies in order to receive those energies in their fullest measure.

QUESTION:

So he's been deflecting healings?

COSMIC AWARENESS:

It appears that the entity has not been fully receptive. This Awareness indicates that again, much of this has to do with the power of suggestion. Not entirely so, however; that the suggestive force requires an entity to be open to healing, to receiving the healing energies. This Awareness indicates that the energies are being sent by entities, even if the entity is not feeling as good as he would like to feel. He is still feeling better than he would otherwise feel if these entities were not sending healing energies.

This Awareness indicates that he would get more from the healings, were he to be truly gracious and feel appreciation for the energies which entities are expressing to him. The entity needs to recognize that he is loved by many and in that recognition, will feel a greater appreciation for the energies that are being sent.

This Awareness indicates it is not that the entity can't appreciate, but more that the entity does not feel himself to be lovable. He does not accept that others truly love him. It is not that he is cynical about the prayers and

9.

healing energies others would send so much that he is skeptical that anyone could care for him enough to do all of this.

This Awareness indicates that he is generally feeling "lousy" because he has problems with his health. He can continue to feel lousy in a health sense, even if he is able to express appreciation that others care for him. If he can express and feel the appreciation toward others, it may even have an effect on his general health, for if an entity is filled with love and appreciation, that energy can be strong in terms of a healing power within an entity's psyche.

This Awareness indicates that the problem is the entity does not seem to feel himself worthy of blessings or of being loved, and sees a kind of stoic machoism in being a grand sufferer, one who can suffer and not be helped by any Divinity or by those who would love him.

FOLLOW-UP QUESTION (Vikki):

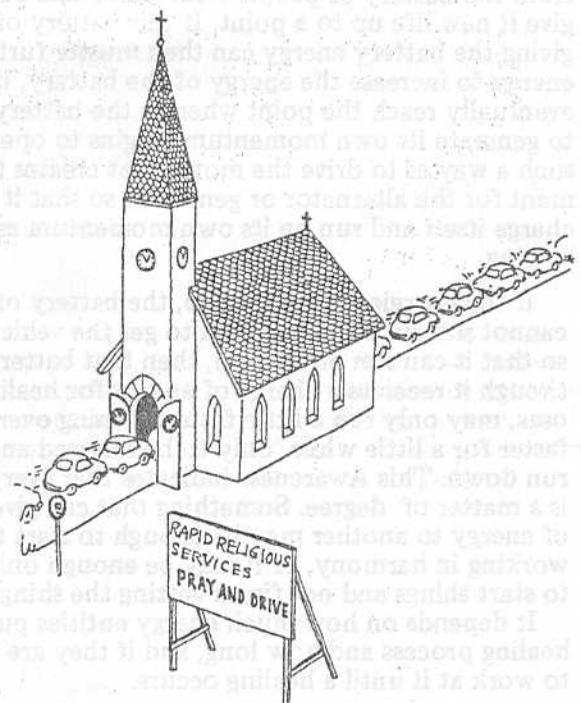

In light of that, would it be any more effective if instead of reading portions of the letters to him over the phone, if I made copies, he could actually see them?

COSMIC AWARENESS:

This is in the affirmative. This would be much more effective if the entity were actually given the letters to hold in his hands from the handwriting of entities writing directly to him. The response the entity gave was more aimed at you than at the entities who he spoke of. The entity did not want you to see him as one who could expect people to love him in the manner that you were expressing.

He is skeptical himself that entities could love him and did not want you to believe that all these people cared that much for him as it was to him embarrassing, because he does not feel worthy of that kind of concern and appreciation. It has much to do with the image he has cultivated over the years, whereby he presents an image of one who is a kind of cynical tough-guy with a sense of sarcastic humor, quite cynical in nature.

This as being part of an image that he has cultivated to keep from appearing too vulnerable.

COULD THE MEMBERSHIP HEAL MICHAEL LANDON AND SAM MILLAR WITH HEALING VISUALIZATIONS?

QUESTION:

Awareness, the exercise given earlier, the charismatic healing, where entities create a ball of energy and then they visualize an entity, even a thousand miles away and point in that direction and send it; if enough of the membership would do this, would this be significant enough to do some healing on a person like Sam, or even Michael Landon, for example?

COSMIC AWARENESS:

This Awareness indicates that this could be quite helpful in both cases. This Awareness indicates that it appears that if the mass-number of participants was great enough, such as 144 entities, it could have a profound effect in bringing about a healing. This Awareness indicates that if the energies were not strong enough for a complete healing, there would likely be an improvement, and a prolonging of better health for a time.

In the event the energies were not strong enough for a complete healing, if they were repeated frequently, the effect might yet lead to complete healing that would occur on a prolonged or longer term basis, requiring more time for the complete healing to occur.

This Awareness indicates of course, the strength of the healing energy would need to be powerful enough to keep the entity healthy, or to bring improvement to the entity for a long enough period as to allow for improvement, while new healing efforts were being conducted, for if the energies were not strong enough and entities let off in efforts to heal, the recurrence of the problem could again return, so that any healing gained might be lost, and if this loss were too long in allowing the problem to continue before coming to the next healing energy burst, then the entity might not survive.

This Awareness indicates that the best analogy is to think of a battery that needs charging and that whereby a battery of people send healing energies while this battery is trying to keep the life going, the healing energies from the battery of people directed to this battery can give it new life up to a point. If this battery of people giving the battery energy can then muster further energy to increase the energy of the battery, it may eventually reach the point wherein the battery begins to generate its own momentum, begins to operate in such a way as to drive the motor that creates the movement for the alternator or generator so that it can charge itself and run on its own momentum as a complete healing.

If the energies of the people, the battery of people cannot sustain it long enough to get the vehicle started so that it can run on its own, then that battery, even though it receives a charge of energy for healing purposes, may only run a little faster, turning over a little faster for a little while, only to be released and again run down. This Awareness indicates that everything is a matter of degree. Something that can give a boost of energy to another may be enough to start things working in harmony, or it may be enough only to begin to start things and not finish getting the thing started.

It depends on how much energy entities put into the healing process and how long, and if they are willing to work at it until a healing occurs.

A REQUEST FOR ASSISTANCE FROM THE MEMBERSHIP

QUESTION:

Does Awareness have a closing message?

COSMIC AWARENESS:

This Awareness indicates that generally speaking, each entity is responsible for maintaining his or her own life, and in some cases when an entity's life needs a boost or needs help from others, it is still their responsibility to ask for such help. In the case of Michael Landon, it appears that his public statement would be considered as an appeal for help, otherwise the entity would not have publicly made the statement.

This Awareness indicates that this would imply the entity is open to receiving any prayers, any imaging or any suggestions that entities might have. That in the case of Sam Millar, the entity is somewhat more independent and does not clearly ask for help; therefore, it is more difficult to send healing energies to this entity, for you have to work around his own blocking action.

This Awareness suggests that it is possible to send the entity healing energy in spite of any blocks he might present, but such efforts will be temporary unless the entity is somehow convinced to open and receive healing energies; that it is possible that the entity will be able to keep himself going by sheer determination. In some cases, an entity improves healthwise when he does not rely upon others and takes the responsibility in his own hands and this may be the nature of Sam Millar's approach to his own health concerns.

This Awareness indicates that either way, entities can send healing energies without feeling they are infringing unless they are told: "Don't bother. Don't send me healing energies! I don't care to receive your help!" If they are thus informed then they will need to reconsider and to stop sending such energies. This Awareness indicates that in neither case, was this expressed.

Therefore, this Awareness suggests that entities may consider sending these healing energies both to C.A.C., Sam Millar and Michael Landon. This Awareness mentions C.A.C. in reference to the opening message, in terms of financial needs; that this is another form of healing. This Awareness suggests however, that in terms of the physical healing, entities visualizing Sam Millar becoming healthy, becoming clear, strong and full of vitality, entities visualizing the same for Michael Landon, wherein the White Light of the Christ Consciousness enters into the entity, moves down into the chest area, cleans the liver as the cells are touched by this White Light, seeing the liver as the cells are touched by this White Light, seeing the liver and all of the organs cleansed by the White Light energy of the Christ Light Consciousness, as it moves through this entity, into the stomach, clearing out all of these dark energies associated with the illness...seeing these energies touched by the White Light of Christ, one cell at a time, lighting up with new vitality, new life, new immunity, and seeing this energy moving down through this entity's body, throughout the body, cleansing every cell, every cell, as it moves through this entity's body down through his legs and his feet, coming up around the outside of the body, leaving a White shimmering Light, healing Light, seeing this expanding and seeing this light becoming stronger and pulsating around this entity's form.

This Awareness suggests that you see this White Light of the Christ Consciousness, totally filling and surrounding the entity's body so that there is no place in the form of this entity for any dark force of illness to remain without being lightened, without being enlightened by this White Light energy, and in the enlightening of every atom, every cell, the healing becomes known.

This Awareness indicates that this healing energy as that which entities need to visualize repeatedly for this entity: that this entity does have much to offer in terms of inspiration, in terms of messages for humanity through his acting, through his personal expression, through his example. This Awareness indicates that the energies seen wherein this entity is totally lit up in every atom of his body, in every cell of his body, lit up by the Christ Light energies, this form as seen now may be solidified in the realm of reality as the word "love" is chanted 3 times: and... "Love" ..(and) .. "Love" ..(and)..."Love".

[All during this Sacramental healing, and the ones following, Awareness, through the Interpreter, was moving Paul's hands, rolling the ball of energy, etc. and making great swooping movements with his arms and hands as the energy was created and then released. The two energizers then join in when Awareness vibrates the word "love". This also occurs in the following Sacramental healings] Ed.

This Awareness indicates that likewise, the entity Sam Millar as one who is relatively shy and feels himself to be somewhat unworthy of special attention. This entity has long served humanity in various ways, giving entities individual attention, assisting them in helping to guide them, to give them directions in their lives. This Awareness suggests that this entity's health situations are not as critical as were those of Michael Landon, but are critical nonetheless, and need special attention.

This Awareness suggests that entities visualize this entity Sam Millar with White Light energy of the Christ Consciousness shimmering above his head, coming down through his head, into his head, neck, shoulders and chest, down through his body, through his legs and through his feet, coming out and coming up around his body, filling the area surrounding his body, so that this White Light is both inside and outside, lighting up every atom of his being, giving it vitality and strength, and healing all the areas that were dark.

This Awareness suggests that this image as that which now will be sealed into reality with the chant of love three times, (and) : "Love"...(and)..."Love"...(and)... "Love".

[The word "love" is vibrated for a long time, like 'OHM'] Ed.

This Awareness wishes at this time to focus on *Cosmic Awareness Communications* and the *Aquarian Church*, and visualize these organizations as receiving energies that will make them healthy financially and seeing these energies as likened unto sparks of light that give them greater spiritual expression. This Awareness suggests that these sparks of light fill every cell of the church's body, fill every cell of the body of C.A.C., and that this energy as that which enlivens both organizations.

The Symbolism for the *Aquarian Church* presented as a ship. The symbolism for the *Cosmic Awareness Communications* presented as its emblem, a kind of circle that allows the voice to come through. This Awareness indicates that this symbolism with the lights giving new vitality to these two organizations, be now solidified in reality with this influx of money coming to these organizations as the word "love" is chanted three times: (and)... "Love"(and)... "Love"...(and)... "Love".

This Awareness suggests so be it!

(The *Law of Gratitude* is given)

ED's Note: Michael Landon, in a news story, is asking the public for help in his effort to beat the odds the cancer presents. He is open to ideas and says he is willing "to try anything". (As this newsletter is being put together, he has announced that he is no longer taking chemotherapy, but is going on a strict fruit juice and vitamin diet. That should be of great help in slowing down the spread of the tumors). If you have any ideas, please write: Michael Landon, C/O Columbia Pictures, 10202 W. Washington, Los Angeles, California, 90350.

Sam Millar, as most of you know, was one of the founders of CAC some 20 years ago. Without his guidance, CAC would simply not exist. Sam channels Cosmic Awareness through Tarot, and has served thousands of CAC members as well as others over the years by making this valuable service available. Last year Sam almost passed over with heart failure and kidney damage. Today he on dialysis, having to drive to the hospital 3 times a week, leaving at 4:AM for a 3 to 4 hour session of being hooked up to this diabolical machine. He needs to heal himself so his kidneys will regain their natural function, which they can do, if he will cooperate. His energy is weak most of the time, and he is often in great pain, but is stoic about it. His production of the Polarizer, which he invented, has slowed to almost nothing. Sam badly needs a healing and he needs to be told, as Awareness indicated, that people out there do love him. He is a genuine human being and we here at CAC love him dearly. However, when this is expressed he acts like he doesn't believe it, or it is unimportant to him if he does. We want and we need Sam back in perfect health and with the Sacramental Healing just given by Awareness, and with your prayers and healing energies directed at him, we firmly believe he will be healed!

If you would like to let Sam know how you feel, please write: Sam Millar, P.O. Box 1, Olympia, Washington, 98507.

* The products SEA ALGAE and SEAQUEL which Awareness indicated can assist in reversing cancer, are now available from the Goodship. For information and prices, please write:

A WARNING TO MICHAEL LANDON TO BEWARE

(Excerpt from a C.A.C. General Reading)
April 27, 1991

The newspapers are saying that on April 12, Michael Landon, who had been undergoing chemotherapy, announced that he was not going to undergo any more of the painful treatments, and his wife Cindy is using a variety of holistic treatments,—acupuncture, yoga and papaya juice as well as concentrating on making Michael relax and concentrate on things that are soothing, and she's going to personally administer a stringent diet, including herbal tea mixtures and lots of vitamins.

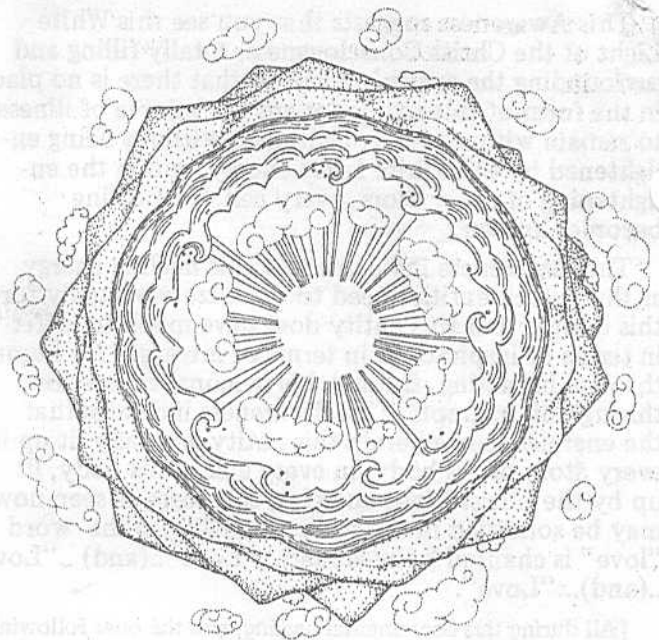

I have two questions about this. Along with the healing Awareness gave for Michael a few days back, and this new direction he's taking, if he survives, the main question is: a well-publicized figure like he is brings to mind what happened to Steve McQueen. By publicizing an alternative treatment for cancer, is this endangering this entity's life if he should survive the disease?

COSMIC AWARENESS:

This Awareness indicates that if the entity were in a hospital, he would be in greater danger in this regard, especially as was Steve McQueen in a hospital where attendants working for the medical profession could get to him; that being that the entity Michael is in the care of his wife, generally at home, it appears that this sheltering and safety of his home can be a guarding factor. The entity does need to realize that if he goes out or others come in to see him who represent the interests of the cancer doctors, that he could be in danger. This Awareness indicates that it would be somewhat more dangerous for the entity to be in touch with, or in contact with those whose careers depend on keeping cancer patients tied to their medical approach; for if the entity does begin to improve and talks about the improvement, it could be seen as a real threat to the cancer programs of the medical system who emphasize greatly that entities need to get *their* treatment and that all other treatments are useless.

If entities began to see that this entity was able to cure himself, they might not want to take the medical treatment at its great expense and costs in terms of time and suffering and economics. The cancer career doctors do not particularly like the idea of someone of this entity's stature serving as a model for others to break away from their monopoly on the treatment of the condition.

ED's Note: For more information on cancer, please refer to 'Revelations of Awareness' issues No. 75-76 (Cleansing Diet, the Grape Diet for Cancer); 78-20 (Cancer--The Great American Tragedy); 81-4 (The Strange 'Death' of Steve McQueen); 81-12 (Cancer and D-Cells); 80-27 (How to Heal the Body, Mind & Emotions & Spirit); 81-20 (Skin Cancer); 81-23 (The Polarizer & Magnetism as an Aid in Cancer); 81-24 (Coffee and Cancer); 82-9 (Almonds & Cancer); 82-21 (How Amplitude Heals); 83-11 (Cancer a Fungus, how Cider Vinegar can Help); 83-25 (Cancer and the Death Wish); 86-12 (Cancer and Ill-Fitting Shoes); 87-7 (Colon Cancer); 88-4 (AIDS and Cancer & H2O2); 88-6 (Cancer and Super SOD and H2O2); 88-15 (Cancer and SOD); 89-1 (AIDS & H2O2); 89-6 (How to be Cancer-Prone); 89-8 (AIDS & Cancer and Alternatives to H2O2); 89-9 (Royal Rife Machine, H2O2 and Cancer: \$3.00 each available from C.A.C.

THE LAW OF DIVINE MANIFESTATION

THE LAW OF DIVINE MANIFESTATION requires a manifestor to believe in the principle that whatever is needed for one's growth and fruition, will be supplied by the Universe, for whatever price the manifestor truly believes is fair. But the manifestor must believe he or she truly has the right to receive the manifestation at the price or energy cost the entity believes is fair. If it is a worthy request, and the manifestor believes it is allotted at the time of asking, it will come. A worthy request, expressed through prayer, imaging, ritual or whatever method, is anything that harms none, but benefits all involved. It is a win/win relationship. Anything that harms another, either in the process or the outcome of manifestation, is not of the Divine and will carry a karmic debt.

...Cosmic Awareness

DO TO THE IMMEDIENCY OF THIS INFORMATION, C.A.C. IS MAILING YOU THIS NEWSLETTER 10 DAYS EARLIER THAN SCHEDULED. PLEASE DO WHAT YOU CAN IN YOUR ENERGIZING AND MEDITATIONS.

HOW TO RECEIVE THIS NEWSLETTER BY MAIL

'Revelations of Awareness' is a cosmic newsletter, published every 3 weeks, more or less, by Cosmic Awareness Communications, P.O. Box 115, Olympia, Washington, 98507 USA, a not for profit organization, for members and non members. All membership fees and donations are exempt from Federal Income taxes. All dues and donations are used to spread the messages of Cosmic Awareness to others, particularly at this time, for humanity must be awakened. Your support and donations are much appreciated. We hope you will spread the word to others also. If you regularly make copies of this newsletter and send to others, please remind them that nothing is really "free"—someone down the line is paying the bill. Tell them if they are learning from the newsletter, to try to join as a dues-paying member, or at least send in an occasional donation to the original publisher of the information. Many thanks!

MEMBERSHIP LEVELS (Honor System)

Effective Jan. 1, 1991, the following rates apply:

LIMITED INCOME: \$30 per year or \$9.00 quarterly.

INDIVIDUAL: \$42 per year or \$12 quarterly.

FAMILY: \$52 per year or \$20 quarterly.

CONTRIBUTING: \$77 per year or \$25 per quarter.

SPONSORING: \$144 per year or \$40 per quarter.

BENEFACTOR: \$500 per year or \$150 per quarter.

PATRON: \$1000 per year or \$250 per quarter.

ENDOWING: \$5000 per year or \$1500 per quarter.

Members and readers outside U.S.A. must add an additional \$15 per year to cover the additional postage required for international mail. (For airmail even more is required. Write CAC for details).
