THOSE HURRICANES --THE REAL STORY

(Is Ross Perot for Real?)

COMING EARTH CHANGES AND A UFO UPDATE
ROSS PEROT: A WAKE-UP CALL TO AMERICANS

2.

OPENING MESSAGE:

(C.A.C. General Reading, June 17, 1992)

This Awareness indicates that there are a number of changes seen on the horizon in the coming month and years that may be of importance to entities. This Awareness indicates that *It* does not wish to get into the political scene to any depth, or to influence entities in their decisions. *It* has already mentioned the entity Ross Perot as being an influence that will be of benefit to the political scene and to the American people. This does not necessarily mean that the entity will win the election, or that entities should vote for the entity. It is simply a fact that should be recognized by now, that the entity's influence is causing considerable rethinking of political positions among those insiders of the general political scene, those who get their directives from the Bilderbergers and the Council on Foreign Relations.

This Awareness indicates that if, in fact, the entity Ross Perot were to become president, entities could expect considerable difficulty being directed at this outsider president from the Bilderbergers and Council on Foreign Relations groups, perhaps even setting him up to be the fall-guy president for a major depression.

The depression would come anyway, but it might be triggered sooner for this entity. This Awareness indicates that the likelihood of an economic crash is far greater than most people presently recognize and it appears that the economy is already in difficulty but is not recognized as in such because the stock market is still in high levels.

This Awareness suggests that as the stock market begins to go through various downturns in the coming months and years, it will become commonly recognized that the United States is in a depression, as serious, if not more serious, than the one in the 1930s.

This Awareness indicates that whoever is in the White House will receive blame, even though all the causes of the depression would have been created in the earlier administrations, and this may lead to a time of considerable restructuring of the political scene and even of the government itself.

If the insiders have their own president they will simply use that person to alter the political scene in the manner they desire for the change in government. If the outsider, Perot, is in, he may attempt action of a different nature, going back to the Constitution and relying on Constitutional Law as a way of bringing back the stability of government to deal with the situation.

This Awareness indicates that this is reaching into the future a little too far at this time. This Awareness indicates that the fact of Perot's being given news time has allowed him to remind the masses that they are the rightful owners of the country and that the political electees are their servants who have been hired to run the country.

This message in itself is one that has been hidden for generations, wherein people are seldom reminded that they are the owners of the country and have instead begun to psychologically switch things around, thinking that the government officials were in power over them and they had little to say about the condition of the country or the running of the country.

This Awareness indicates that by this reminder that the people are the government, and the elected officials are servants of the people, hired to run the government, it has been in itself a most beneficial event in this election year, and may serve as a wake-up call to the masses in a manner that allows entities to realize their true position of power as citizens of this country.

This Awareness indicates that without this reminder, entities can very easily be lulled into the belief that they have no say in what occurs and that the government is a kind of national parent to them. It is easy to fall into obedience to your parent without really questioning these officials and asking if they are doing the job you hired them

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Paul Shockley, Interpreter

to do. It is much different from a parent. The child cannot claim to have hired the parent to do a job for them. The child takes the parents he gets and follows their advice, and is more or less subject to their directions.

The citizens in the United States, especially under the Constitution, has the final say in the course and direction of the nation, and whether the laws of the nation are satisfactory to the citizens and thus the citizen, along with his or her peers decide the rules and elect the servants to implement those rules, to carry out those rules, and these become not the government, but the representatives of the government, and the people themselves remain the government.

Thus, the question is: Are your representatives doing what you want them to do? If you and your other peers as citizens can agree on what you want them to do, they are bound by law to obey your wishes. It is likened unto an entity who hires a lawyer. The entity is paying the fees for the lawyer, just as you pay the taxes for your representatives, your agents in government, and therefore, you have a right to dictate through the proper channels, what your agents in government are to do for you.

This Awareness indicates many entities believe the lawyers, once hired, can do whatever they want and they take the position of being subservient to their attorney. This is not proper. The client is always in charge of the attorney, or *should be*, and may fire the attorney at any given time if the attorney tries to use power against the client's wishes.

This Awareness indicates these are things that are easily³ distorted in terms of perspective and entities can often turn over the power to their servant. It is like the person who hires a butler and has no personal spine, and lets the butler take over the management of the home to the point where the owner is sometimes locked out, if he does not get home on time, and perhaps needs to sleep in the dog house outside because the butler won't let him in. The confusion being that the owner has forgotten he is the owner and that the butler is his servant and can be fired and be replaced by a new servant who is more considerate to him and his needs. This Awareness indicates for too long entities have allowed the agents of the government to be power-holders over them and perhaps now will awaken and realize they are the ones that hold the power by the law of the Constitution and that these government agents, ranging from presidents on down, are servants to the people.

It is something entities need to be reminded of frequently since it is easy to forget who is the boss.

ED's Note: Ironically, one month after this reading was given, Ross Perot announced he was dropping out of the presidential race. (Later Awareness explained why he did so.) However, 2 months later, on October 1, Ross Perot officially re-entered the race for President.

This Awareness indicates that another consideration which will be discussed more in the future has to do with changes that may come in terms of earth changes, this including earthquakes, volcanic activities and weather conditions. This Awareness indicates that these things will play an important role in the next five years and entities will need to be watchful of these earth changes.

This Awareness indicates likewise, economic changes will occur during these next five years that will have important bearing on the affairs of most entities. The economic distress will be felt by 1994, and more likely, entities will feel this within a year from now, within the year, as it begins the economic decline. The conditions being such that certain areas, certain business types and certain kinds of business ventures will be more inclined to be distressed than others.

This Awareness indicates that in future messages this Awareness wishes to discuss some of these changes; that it appears there will be relative stability throughout most of this summer, and therefore, not any great cause for concern at this time. There will be a time when these economic considerations will become quite important to entities.

Conditioning for UFO Acceptance Continues

This Awareness indicates also that consideration of UFOs and the gradual conditioning of the public toward accepting the reality of alien presence has begun finding its way into the masses in and through television and news media. The book *Intruders* and the television movie based on the book played in the mini-series in the month of May and was watched by many.

It portrayed and explained the role of government in dealing with this phenomena; that the government agents cannot simply announce the presence of an alien force which they do not have control of without causing panic among the masses, and therefore they chose to avoid the issue or deny these alien presences as being real.

Gradually, this information is being allowed to be presented on television and on the media without the usual and final scoffing at the thought of aliens from another place. They are allowing entities to believe or not believe, according to their own capacity to be open on the subject, so that if an entity is too terrified by the thought of extraterrestrials, he can simply claim to be a skeptic and a non-believer and maintain his closed mind and not accept any possibility of alien presence, whereas the entity who is courageous enough to consider the possibility of aliens on earth may be open to such investigations and explorations so as to look these things over, study and learn what

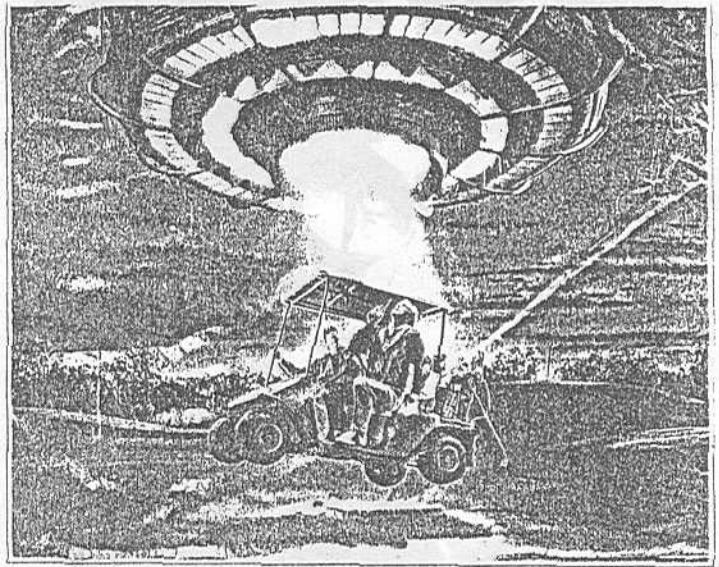

can be learned, and perhaps even conclude that there may be something to this phenomena.

It is as much a matter of helping the entity to accept or refuse to accept as it is to protect the government from any accusations of malfeasance. Thus, the government can allow private individuals to discuss these things and if they do not officially acknowledge the presence of aliens, then the skeptic and frightened individual who is too afraid to acknowledge the possibility of an alien presence, does not have to accept this as fact and can continue in the ignorance as bliss mode.

This Awareness indicates that whereas 70% of the people in the United States now believe in the concept of UFOs it becomes pointless to try to tell these people they do not exist and to hope that these people's beliefs will suddenly be changed by some government official statement. It is therefore seen as a losing battle and the government now knows it must allow these things to be discussed openly and freely, but by creating the situation so that the government does not admit or acknowledge the UFOs, the skeptic, the fearful, do not have to have their emotions stirred up uncontrollably by some government acknowledgment of UFOs and therefore, they can maintain their continued belief in spite of themselves being in the minority that these UFO sightings and experiences others speak of are nothing more than fantasies or misunderstandings.

In 20 Years Ozone Depletion May End All Life on Earth

This Awareness indicates that these areas appear to be areas that are presently experienced as concerns for the masses; that there can of course occur other concerns of a different nature. It is important for entities to realize the severity of ozone layer depletion, and that this in itself could spell the end of the world for most breathing, living creatures within a decade or two, and that even with considerable effort to turn things around, it may not be sufficient in time to restore the ozone layer and that entities may indeed undergo such an experiential change as to no longer exist after one or two decades in the same way that life exists now.

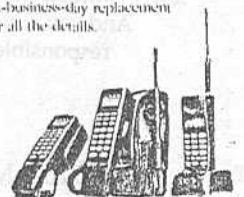

AT A TIME LIKE THIS, WHOSE CELLULAR PHONE WOULD YOU RATHER OWN?

When the name on the phone is AT&T, you're getting something no other cellular phone can give you. AT&T quality and customer service. We back our cellular phones with a 7-day, toll-free Cellular Hotline—for product information, technical help, even next-business-day replacement anywhere in the Continental US. Call 1-800-232-5170 for all the details.

DEPENDABILITY BEYOND THE ORDINARY

AT&T

Available at AT&T Phone Centers and other fine retailers.

This Awareness indicates that it may well be that by the year 2012, the majority of living beings on Earth will have shifted into a different dimension, may be living elsewhere in another life situation, having been removed from their present lifetime situation. These are the areas of concern for entities and these areas require time, patience, understanding, and in some cases, proper actions to deal with their unique and individual circumstances.

**WILL ROSS PEROT CREATE HAVOC FOR AMERICA?
(How About Col. Bo Gritz for President?)**

QUESTION:

In regard to Ross Perot, we're starting to get letters, like this one I'm going to read, and perhaps just a general statement from Awareness will stop these from coming in. This is from L.F. of Honolulu. "My question regards the endorsement of Ross Perot by Cosmic Awareness. I was completely surprised by this, as Mr. Perot has either changes since that reading or Cosmic Awareness did not dig deep enough. Is Cosmic Awareness aware that Mr. Perot wants to rewrite the Constitution, is for gun control, and wants to strengthen the IRS, the goon-squad for an illegal Federal Reserve System? Mr. Perot may have many redeeming personal qualities, but with such a limited understanding on crucial points, I'm afraid he'll take us into the New World Order faster than Bush or Clinton.

"Cosmic Awareness should take a good look at Lt. Colonel James Bo Gritz as an independent candidate who is on record for getting rid of the Federal Reserve, along with the illegal income tax as a first priority. Bo does not believe we need to rewrite our Constitution, just follow it and positive change can come about. I'd like Cosmic Awareness to reconsider the best choice for America. Thank you," she says.

4. COSMIC AWARENESS:

This Awareness indicates that the entity Bo Gritz would be a more appropriate choice, but the entity is so unknown in this election that there is little point in discussing his candidacy; that the mention of Ross Perot was not meant to be so much an endorsement as an observation, that this entity was going to create a new hope for the United States, in that the entity was pointing out the basics of the Constitution, that the masses were the owners of the country.

This Awareness indicates that he was simply educating the people as to their power to take back the country; that the entity is not seen as one who would create a New World Order. The entity is more inclined to get back to the roots of America as it was. The entity does have a great concern for future generations inheriting a three or four trillion dollar debt that has come about in the past two decades and does not want to see this passed on to future generations of this country.

This is in part because it cannot be paid in the manner presently used by either of the Republican or Democratic parties in their budgets and way of budgeting and financing the country. His concern about raising money through collecting on taxes is aimed more at those who avoid taxes through illegal means such as underground businesses, drugs and such, and his interest in closing those loopholes was designed to bring about the increase of money so that this three or four trillion dollar debt can be reduced without passing it on to future generations.

This Awareness indicates the entity also understands that a great portion of this debt was caused by the Savings and Loan scandal and other similar activities brought on by the insiders and those of the Bilderbergers, Trilateralists, and Council on Foreign Relations groups and conglomerates and he is aware of this and knows that to become president he would need to have a certain degree of power and protection in order to deal with these forces.

This Awareness indicates that it must first be understood that this Awareness, in mentioning this entity as a hope for America, spoke before the entity was being seriously considered for the presidency, merely stating that he would be seen as a potential for change and hope that would lead away from the New World Order proposed by Bush.

Bush's Skull & Bones Society a Nazi Organization

This Awareness indicates that many entities may recall that Adolf Hitler was one who first proposed the New World Order back in 1933; that this was to be a strong part of Nazi Germany's platform and that the Skull and Bones Society in Berlin had its American counterpart or American branch at Yale University.

It is also notable that the Skull and Bones Society, which was promoting Adolf Hitler's Nazi Germany in Berlin, with its branch in Yale, was attended by Bush and became an organization to which he swore allegiance and devotion. This Awareness indicates that for him now to be promoting a New World Order with that kind of background creates considerable concern among many who do not share the fascists' view of the future.

This Awareness indicates that along with this were numerous rumors of hidden activities, covert activities being prepared in this country for rounding up anyone who was opposed to the New World Order, whereby they would be arrested and executed under drug laws, claiming that they were involved with drugs, even though they might have no contact or interest of any kind with drugs.

Many Skeletons in George Bush's Closet

It must be remembered that George Bush as CIA operator and head of CIA in the past, also was involved with Zapata Oil, and Zapata Oil was the cooperative organization that worked with the Medline drug lords in bringing drugs from Colombia onto the oil platforms to be loaded into oil drums and sent to the United States, for a number of years prior to Mr. Bush becoming Vice President under Ronald Reagan.

You're right off the plane. They don't know you from Adam. And you expect to be recognized as a respected, responsible person of the world? Absolutely.

**THE CARD.
THE AMERICAN EXPRESS® CARD.**

Call 1-800-THE CARD, to apply

There were many skeletons in this man's closet that are now waived by the news media, because for one thing, the news media is part of the Council on Foreign Relations/Trilateralist/Bilderberger groups. Many of those involved in the news media belong also to these groups.

This Awareness indicates that when there is such a group so tightly knitted and when there are so many in the media who work with them, and when these have so much power, and someone from the outside offers to come in and take the country back, this entity explaining what has happened to the country and why things need to be changed, and doing so in a way that is quite obviously accurate and having the power to do, to make a meaningful effort; then indeed, it is worthy of comment.

This Awareness indicates that there was a time when Ross Perot planned to have Bo Gritz as his running mate. Something has happened between them and this may no longer be the case. This Awareness indicates that *It* does not see at this time any clear outcome as to who will win the election. *It* does see that Ross Perot will run into more difficulties as he is attacked by the media, as issues are dragged up and statements are presented and in some cases ignored, and in other cases exaggerated or distorted.

This Awareness does see that there will be some strong potential for his winning of the election, but that the greater likelihood is that the President Bush will return to complete his plans for the New World Order, but even as he returns, there will have been something that happened to the masses of this country who will have been fired-up by a new hope through the words and dreams and ideals that they sought in the entity Ross Perot, whether right or wrong, and these entities will not be so easily led into that New World Order as might have occurred had Ross Perot not appeared on the scene.

Whether this will be for the good of America, or whether it might lead to a strong civil war is yet to be clarified. The energies are not stable on any of this political future at this time. There is much yet to be disclosed, much yet to be decided and determined by many different entities. This Awareness does suggest, however, that the quest for New World Order has been seriously hampered by the entry of Ross Perot into the political arena.

This Awareness reminds you of course that the entity has not yet made his statement that he is running. This is expected within two weeks.

A HIGHLY UNLIKELY CONVENTION SCENARIO

FOLLOW-UP QUESTION:

How is this for a scenario? Bill Clinton realized even before Ross Perot came on the scene that he was not popular enough or was not getting enough votes to be elected president of the United States, even though he knew he was going to be nominated by the Democratic convention this summer. I had this theory that if he's as big a man as he claims, and knowing that he will be defeated if nominated, and runs against Bush and Perot, that when it comes to the nominating convention that he would take the unprecedented action of declining and suggesting that the convention select another man to run who could possibly beat Bush, somebody like the Governor of New York, or Lee Iacocca the head of Chrysler, or perhaps even to try to get Ross Perot to run as a Democrat and perhaps Clinton as the Vice President. Does Awareness see any possibility that a scenario like that might come about?

COSMIC AWARENESS:

This Awareness indicates that this would be most interesting and unique in the annals of political activity. It is seen as a way whereby something could be done, but it is not seen as a likely course of action; that these entities are individuals and when they campaign and put their energies on the line to the degree that they have done in these contests, they are not likely to be objective enough to recognize defeat until defeat is upon them.

They are driven by hope and belief in themselves and their ability to win and if they are behind they simply think they need to work harder. This Awareness indicates it is ego at work, and who can be truly objective when ego stands between themselves and objectivity. It is very unlikely, which is not to say 'impossible.'

SOME PAST-LIFE HISTORY OF ROSS PEROT

QUESTION:

Jane O. asks: "Can Awareness give us any insights into the past life history of Ross Perot?"

COSMIC AWARENESS:

The entity is seen as having been a seaman on a sailing ship during what appears to be a time shortly after Columbus's discovery of America, wherein the entity followed in a ship to explore the New World. He is seen as one who climbed the rigging and set sails. It appears the entity was aboard a ship commanded by Cortez.

This Awareness indicates the entity also as having at one time been a Swedish nobleman; the entity may have been in the royal family. The name is not seen. This may come later, but is not seen at this time.

This Awareness indicates the entity is seen as one who tended horses for the Union side during the Civil War. The entity was a 12 year old boy at that time, and attended the horses after soldiers would ride back to camp. It is seen that the entity was killed at the age of 13, when the camp was overrun by armies of the South. The name is not seen clearly.

This Awareness indicates the entity is seen in this life as having a special mission, which has to do with the handling of large amounts of power and influence. His concern being to organize and affect structure and movement in such a way as to become a kind of social machine that serves its own momentum and needs as well as those who work with it.

It is likened unto creating a machine that helps the people who help it run and this is likened unto an effort to create a perpetual motion machine for a social movement, running as a kind of social machinery in which those who are served also serve the machine and the energies keep each other energized.

This Awareness indicates the entity is seen as having experienced a lifetime also in World War I, wherein this entity drove a truck supplying munitions and food for the armies on the Allied front. The entity is seen as having been attached to America from early in the 1800s up to the present time in his different incarnations.

This Awareness indicates that the entity was also in France during the Napoleonic wars and served as a doctor or medic during that time with the troops of Napoleon.

This Awareness indicates that there are sensed other lifetimes of significance but that these are not felt strongly enough at this time to tune into.

FOLLOW-UP QUESTION:

Somebody sent me a clipping from the May 19th *Examiner* which is a tabloid, that a researcher named Patricia Rochelle Diegel of Arizona, who gave past-life information on the candidates because she said they have a bearing on their presidential aspiration, said that Ross Perot was Alexander Hamilton, the first Secretary of the U.S. Treasury who was shot to death in a duel with Aaron Burr in 1804. He was also Marco Polo and he was also Socrates she says. Does Awareness see any truth at all to that?

COSMIC AWARENESS:

This Awareness indicates that this does appear to have some validity; the energies are not clear or strong on this at this time. The energies of Hamilton are not seen as strong. The other two, especially that of Socrates, does appear to have a strong energy connection.

FOLLOW-UP QUESTION:

She also says Bill Clinton was Daniel Boone, Vasco da Gama and Philip of Macedonia, the father of Alexander the Great.

COSMIC AWARENESS:

This Awareness indicates the first two have stronger energy connections than the latter. The latter does not appear to be correct at all. The other two are possible; the energies are not strong in terms of indicating an affirmative to the connection.

ED's Note: Diegel also claims George Bush was General Phil Sheridan and Leander, a Greek slave who was a gladiator in Rome around 400 AD.

IF PEROT WINS WILL A NATIONAL EMERGENCY OCCUR?

QUESTION:

J.B. in San Diego asks: "Would Awareness please comment on the likelihood or the probability of a national emergency S1 or S2 activating in the event Perot is elected?"

COSMIC AWARENESS:

This Awareness indicates that there are several potentials that this could be activated prior to his inauguration; that this would be for the purpose of preventing him from ascending to office, but such an action would create extreme reaction from the masses.

Of course, the national emergency would allow for martial law to put down any reaction that threatened the powers, but it could be much more ugly in such a situation. This Awareness indicates that this does not appear to have much likelihood.

The CIA Could Get Perot Like it Got JFK

This Awareness indicates the other potential scenario would be for Ross Perot to himself declare a national emergency after election in order to deal with the drug situation and other crises. This Awareness indicates that this is a scenario that frightens many people because the concept of a national emergency is generally associated with setting up a dictatorial control over the population and there have been quotations referring to this as a scenario by which Mr. Perot might begin his presidency. This Awareness indicates that it is seen as very unlikely that this would occur.

The rare potential or possibility of such an occurrence as seen by this Awareness would be in the event the entity finds himself in the position similar to that of John F. Kennedy when he was in preparation of dissolving the CIA and creating a new organization, and if Mr. Perot found himself in such a situation that he needed to dissolve the CIA to create a new organization, the powers in control of the presidency, the agencies in charge of the elected officials, in charge of the Bilderbergers/Trilateralists and Council on Foreign Relations, might be such a threat to his position as president that he would feel a need to call a national emergency in order to revamp certain agencies of the government, to rid it of this kind of control.

This Awareness indicates that this is the only way a national emergency would be implemented by Mr. Perot far as can be determined or seen by this Awareness at this time. It would be more for the protection of the presidency and his administration, while other actions are attended. It is not seen that the entity would create a national emergency to enslave the people. This is not in as part of his desire or interest.

The entity is seen as having a great love for the masses, a great paranoia of the powerful, knowing how they are controlled and manipulated power into their own hands. This Awareness indicates that much of this is seen as extreme, but the potential is recognized and the entity aware of certain powerful forces that would perhaps do nothing to preserve their own interests and has to consider the possible action of creating a national emergency, and that had John F. Kennedy known what befell him in Dallas, he might well also have considered calling a national emergency before taking any steps to dismantle the CIA, or even to discuss this with anyone.

6. This Awareness indicates that the CIA as having been created for the benefit of the Rockefeller family, run originally by Allen Dulles, the cousin of Nelson and David Rockefeller, and still controlled by the same interests which is now under the control of John McCloy.

"ON WINGS OF EAGLES" BOOK REVIEW

QUESTION:

We received a letter from H.T., Auburndale, Florida, who discovered a book about Ross Perot, called *On Wings of Eagles*, by Ken Follett, published by Penguin Books, and he asks if Awareness would comment on it.

COSMIC AWARENESS:

This Awareness indicates that it does go into considerable detail in regard to the individual and characterization of his being, so that entities can get an idea of the person himself rather than second-hand information about him coming from those who are opinionated or otherwise.

This Awareness indicates that the information from this book explains much about him through his own actions and his experiences so that the experiences he has undergone and the actions that he has taken are those revealers of his person. They reflect and reveal him in a manner that lies beyond description from other opinions of people or observations. It is a situation in which you can form your own opinion from the actions the entity has taken and the circumstances and experiences he has endured. This Awareness indicates it is for this reason that the entity felt the excitement and enthusiasm.

This Awareness indicates that the entity, having grown up in an area on the border of Arkansas and Texas, experienced much during the Depression that tied in to the needs of the unemployed, the needs of those who had to scrape to make a living. The entity had a father and mother who were most thoughtful of those who were in need; the mother feeding hobos from trains; the father hiring and paying wages to those who came to him; the father being a cotton broker, would pay extra for cotton, just to make sure that the farmers would be pleased with the price and come back the next year, when he could have given them less, and they would have taken it out of desperation.

This Awareness indicates these entities, the father and mother, taught him to care for the people that they dealt with. The entity tells a story of his mother feeding a hobo from a train and after having eaten, he asked her if she got many hobos and she replied, yes, she did, and he said: "Follow me." He took her out to the train track and on the telephone pole there was a mark and he said: "That is you. You are a marked woman. This is a signal to the hobos that you will feed them."

Ross, as a child was there. He asked his mother if she wanted him to take it off the telephone pole, and she replied: "No. These people are down on their luck. They need help. So we'll just help them." This Awareness indicates that this became a lesson for him and recalled it with great pride, that his mother cared for those who were down on their luck. This kind of thinking still influences him.

WHY ROSS PEROT HAS COME TO EARTH

(Not a Walk-In as Some Have Claimed)

7.

FOLLOW-UP QUESTION:

The possibility that the entity Perot is a walk-in is negative, isn't it?

COSMIC AWARENESS:

This is not seen as correct. This Awareness indicates that it is seen that the entity appears to be from Vega, but has lived many lifetimes on Earth. It appears to have been approximately 15 lifetimes on Earth, but having a Vegan source. The entity appears to return to Vega between lifetimes.

The purpose of his coming to Earth is for the purpose of helping to raise the standard of life, the standard of living, economically, spiritually and socially, and intellectually. He enjoys educating by sharing information he learns.

This Awareness indicates that the entity will indeed give considerable energies to the field of education, as well as concern for the economics of the country and the desire to bring more social awareness to the masses, to bring them together to be more socially accepting of each other.

This Awareness indicates that these are basically values which he learned as a child in this lifetime, accompanied also by concerns for things that are occurring at present. The entity is not a morally snobbish type person. He is not one who would seek to dictate morals to others, but is more of a practical minded person who would focus on how things are working: "Does it work well?" If it works well, then it is likely to have his approval.

The entity is also bound much in tradition and not likely to go toward actions that break traditions, including the documents such as the Constitution, is not likely to break those documents down just to create change, but is more likely to stay with the traditional values, traditional concepts and this entity also is seen as one who has a nurturing streak, being born under the sign of Cancer.

The entity has a kind of mothering instinct or nurturing instinct, to want to feed the hungry, help to cover and clothe the homeless, and to attend to the comfort of others.

FOLLOW-UP QUESTION:

He also reportedly owns one of the four copies of the Magna Carta.

COSMIC AWARENESS:

This Awareness indicates this being a document that historically has granted freedom to many people and laid the groundwork for future documents or subsequent documents and granted even further freedoms.

PEROT: A PROFOUND CHANGER OF CONSCIOUSNESS

CLOSING MESSAGE:

This Awareness indicates that it is not seen clearly how the movement between these political forces will go, but there is a chemistry involved, perhaps it should be called an alchemy involved, with the addition of the third candidate Ross Perot, that will have a profound effect on this nation for many years to come, even if the entity is not elected as president, for the people will have garnered a new dream, a new hope based on old traditions and concepts of a nation that is owned by the people, and that will be hard to shake.

It will be difficult for any tyrannical type to gain a great foothold in a society that believes they are the owners of their country. This Awareness indicates that it has already had a profound effect in consciousness. This may not be effected in the organizational or structural levels, but in consciousness it is already fixed and the masses already are reevaluating themselves and their nation, and many of them recognize the uniqueness of the Constitution and are not likely to allow it to be easily changed.

It is a time of education and learning and this entity has been an inspiration to that inspiration and learning. This Awareness indicates that there are many union people who have felt betrayed over the past several administrations; the trucking industry being deregulated under Carter; the airline industry under Reagan; and other deregulation being effected so that many of these hard-working people no longer have hope in the future for their children. They see their jobs becoming places of diminishing return for their energies they give and they are looking for someone who understands their plight and many of them look to Ross Perot as the one who may change their future. This is where much of his support comes from.

This Awareness indicates there are also some who worry about the abuse of power in government and do not trust those who belong to collective organizations that have a history of manipulating and controlling government for purposes not to the interest of the masses, and many of these entities look to Ross Perot for their future.

Whether these entities will be given the opportunity to determine whether the Ross Perot administration is their answer, or whether they will again experience the George Bush administration for another four years will be determined in November, but regardless, there has already been change in government because of the influence, either justified or not, because of the influence that entities feel could occur through an outsider such as Ross Perot entering into the presidency.

He is generally compared with Truman, seeing him as a kind of crude, no-holds barred, get-it-done type of person. This Awareness indicates that even if he does not have the chance to do anything, he has had an influence in consciousness and the future of this country will be effected by the few speeches he has already made, and the people, in time, will find someone to further bring about the answer to their needs.

This Awareness indicates that *It* does not promote any individual because the masses will choose that which is strongest in consciousness, and that which is strongest in consciousness will receive and deserve what they want for a leader.

If, at some time thereafter, they determine the leader is not suitable, and this being the strongest part of consciousness determines the leader is not suitable or the leader changes and becomes unsuitable and out of step with the majority of consciousness, the masses will have another opportunity to seek change and to find someone else.

But in the meantime, entities are stuck with the choices that have already been made, either by themselves or by the majority, and must learn to live with those choices, even if it is far from the better of the several choices available.

This Awareness indicates it is important that entities cherish the opportunity to vote in these political situations, even if you do not feel your vote carries much weight. At least it supports your right to vote. If you do not participate, you are voting to scrap the voting process, and your right to vote.

"I don't have any experience in running up a \$4 trillion debt... but I do have a lot of experience in getting things done."

NEMESIS CAN NOW BE SPOTTED FROM AUSTRALIA

OPENING MESSAGE: (C.A.C. General Reading, June 17, 1992)

This Awareness indicates that during the month of June in the area of New Zealand and Australia, it becomes possible to see the incoming planetoid Nemesis with the naked eye. This Awareness indicates heretofore, it was only visible with a telescope, but that it is now becoming possible to witness this with the naked eye.

This Awareness indicates this does not mean that entities can simply walk out, look up at the sky and see it, for they must know what to look for and where to look. This Awareness indicates however, it does allow for astronomers who are aware of its location to be more descriptive and to point to the general area of the sky for which entities may begin watching.

It will gradually become brighter as time continues and the viewing area will increase in time so that even in other latitudes and longitudes it will become visible. This Awareness indicates that it is not appropriate to attempt to search for this as the points of light would be so small and insignificant, even to the naked eye, that you would not know whether you were looking at this planetoid or at some distant star at the time.

This Awareness suggests therefore, that entities not attempt to find this at this time, but rather that they watch newspapers and the news from New Zealand or Australia or astronomical journals for any information that may be presented on this from time to time.

QUESTION:

N.L., Oak Park, Illinois, asks: "In a previous issue, Awareness indicated that Nemesis has entered the parameter of the solar system. The mean astronomical difference between Pluto's orbit and the asteroid belt is approximately 3,483 million miles. If Nemesis travels at 8 thousand miles per hour, it would take about a year for it to go 70 million miles, and therefore, 50 years to reach the asteroid belt. Would Awareness comment on this?"

COSMIC AWARENESS:

This Awareness indicates that the speed may vary as it enters into the gravitational pull of the solar system. This Awareness indicates that the ship, the planetoid, also has its own powering mechanism and can alter this speed when it is deemed appropriate. This Awareness indicates that it is entering from the direction of the constellation of Orion.

HOW IS NEMESIS POWERED?

FOLLOW-UP QUESTION:

Another question. He wanted to know if, as Awareness just stated, Nemesis can vary the rate of speed, and asks: "Can the Reptoids actually change the speed of such a large planetary object in space, and if they do so, how is it done?"

COSMIC AWARENESS:

This Awareness indicates that this makes use of the same technology that is involved in UFO interplanetary flight, wherein a vibrational signal or vibration is attuned to at a distance, at a distant spatial or targeted area of space, and the planet then, or planetoid or spacecraft is set to that frequency or vibration of that targeted area, and thus leaps forward through a vibrational means to become part of that space at the targeted area.

This Awareness indicates it is normally referred to as bending space or bending light, but it actually occurs through the process creating vibrations that are in correspondence with other frequencies at a distance and the two frequencies then being merged together, so that the object is more or less teleported at a speed that reflects technology of the frequency attunement to the targeted area of space.

This Awareness indicates it is not a simple concept to explain, but is simple when understood in the technology of these entities. It is difficult for those who do not under-

stand the concepts much as it would be difficult to explain how entities can change channels on a radio or television to pick up one set of pictures or voices and then move the dial only slightly and get an entirely different set of pictures or voices by changing the vibrational frequency.

Entities watching the television, for example, if never having seen this technology before would see a picture of a family on television, maybe watching this family in their home, and suddenly someone changes the dial and a new situation occurs on screen; it would be like seeing two different worlds and entities might wonder: "What happened to the people I was just watching?"

This Awareness indicates that to explain to them how it is done is extremely difficult when they are not familiar with any known technology that can be used to bridge the concept of electronics and frequencies and various channels and broadcasting stations.

This Awareness indicates that it is much more difficult than if they have some understanding. The question is only asked because the questioner is familiar with the more conventional forms of flight such as jet propulsion or propeller driven craft and has no background or understanding of using frequencies and the modulation of frequencies to alter the molecular structure of a craft to become frequency oriented so as to teleport to another place in space, having its own particular frequency or vibration and then return to the physical molecular level; this kind of technology being far beyond the concepts of propellers and rocketry, is not easily understood by the mind that has not any experience or understanding of frequency, and the use of frequencies for teleportation.

The word "teleportation" is not even correct, for teleportation implies instantaneous movement from one place to another. It is not exactly instantaneous for the operation does take some time in moving up or down the vibratory scale, even if it does appear rapid and almost instantaneous.

This Awareness indicates that essentially, a UFO craft is capable of grabbing space at a distant point and reading the frequency at that point, then altering the frequency of the craft to become identical to that which was targeted or grabbed, and in so doing, it brings the craft almost instantly to that future or distant point and at such a time, the frequency can then be lowered so as to have third-dimensional qualities.

This Awareness indicates that in the case of the planetoid, the same technology is used, but the technology does not allow the same hyper-speed, and therefore, the movement is somewhat slower, even though it can draw, using gravitational energies to pull at increasing or diminishing speeds, by setting certain vibratory frequencies that interact with gravity in an area of space.

The gravity of the sun in the solar system is utilized in the powering system of the planetoid Nemesis when it comes into the solar system. When outside the solar system, different gravities from different areas of space may be used by coupling the gravitational forces with the vibratory frequencies of the craft or planetoid.

Thus, by changing these vibratory frequencies, the craft can be manipulated through space at various speeds and at different degrees of density. The density of Nemesis also may vary, depending on its frequency level.

FOLLOW-UP QUESTION:

Is it because of the huge size of Nemesis that the Reptoids don't use these other faster-than-light types of means of getting to their objective?

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that it would take an enormous amount of power to fully affect all levels of the vibratory frequencies of that planetoid. It would require too much energy and therefore, a slower movement is used. The timing of this planetoid appears to be planned for an encounter in or around the year 1996, give or take a year.

VHS grad makes astronomy history with finding

She sights comet beyond Pluto

From staff and wire reports

Ventura High School graduate Jane Luu is one of two astronomers who say they have sighted the most distant object ever found in the solar system, a reddish, cometlike rock orbiting beyond Pluto, about 4 billion miles from the sun.

In a telephone interview Friday from Hawaii, the 29-year-old Luu said, "We are very, very happy. We have been looking for this for five years."

The discovery could shed light on how some comets are formed, the nature of Earth's solar system and whether other stars in the universe have solar systems like this one, according to another scientist.

"If this pans out it's absolutely fundamental to our understanding of the solar system. In some sense, it's almost comparable to finding another planet."

— Alan Stern, scientist

tist.

"If this pans out it's absolutely fundamental to our understanding of the solar system," said Alan Stern, a scientist at the Southwest Research Institute in San Antonio, Texas. "In some sense, it's almost

comparable to finding another planet."

The object, about 120 miles across, is probably about a billion miles farther out than the present position of Pluto, say discoverers Luu, who is a researcher for the University of California, Berkeley, and

David Jewitt, a University of Hawaii astronomer.

Jewitt and Luu said they first spotted the object Aug. 30, using a 7.3-foot diameter telescope on the Hawaiian volcanic mountain of Mauna Kea. Luu said the comet is known as "1992 QB1," a scientific designation referring to when it was discovered.

"We are quite lucky to have found it. We have probably the best site in the world, very favorable for astronomical observation and great equipment," said Luu, who graduated in physics from Stanford University in 1984. She recalled that as a Ventura High School student, "I knew I wanted to do something in science and played around with the idea of being an astronaut

(Please turn to A-8, Col. 2)

September 19, 1992 STAR-FREE PRESS

The plan, of course, may be interfered with by forces that are aware of Nemesis's movement and purpose.

FOLLOW-UP QUESTION:

When Nemesis is seen by the naked eye this month and by amateur astronomers, surely this is going to create a sensation that will get into the media, will it not?

COSMIC AWARENESS:

This Awareness indicates it is not likely that the news will be sensationalized. It is more likely that it will be kept as quiet as possible so as not to create too much attention. The governments are of course planning to nuke Nemesis before it reaches Earth and therefore, do not want the entire population of the Earth to be aware of its incoming presence, and therefore, the media will be discouraged about reporting on it, which is why this Awareness has asked entities to watch carefully, to find any scraps of information pertaining to this.

There are usually some few lines here or there that are released to the public and get through any kinds of censorship, because there are so many publications that they can't all be stopped. This Awareness suggests however, that while it may be the most important event of the decade or century, in astronomical terms, it is not likely to become publicized to any great degree.

Those few articles that have already appeared are rare and hard to find and only by luck do people happen to notice these articles. This Awareness indicates that with a number of people watching for the information, the chances of finding such is increased. This Awareness indicates that some information has already been given to indicate the month of June would be the month whereby Nemesis becomes available to the naked eye.

The *Cosmic Awareness Communications* may have already included articles of this nature in previous printings taken from newspapers and magazines. This Awareness indicates that entities of course will always want headlines of this nature, but these are not forthcoming. You will not see headlines. You might find articles on back pages. Perhaps only a paragraph or two, perhaps only a few lines, if you are lucky, and if you do find such, this Awareness suggests you make copies, write the date and the name of the newspaper from which the article was taken, and send the articles to *Cosmic Awareness Communications*, so that this can be shared with others, with the general readership. *

* CAC member Tom Neal, of Ventura, California did just that, when he spotted and sent in the above article in the September 19, 1992 STAR-FREE PRESS, which appears to be Nemesis and not a comet as suggested.

ED's Note: for more on Nemesis, please refer to Revelations of Awareness" issues No. 91-14 ("Meteor" Heading for Earth), and issue 92-4 (The Coming of Nemesis the Dark Star); \$3.00 each from CAC.

For more on crop circles, please refer to issues 90-12 (What is Making Those Mysterious Circles in the Fields of England?); also issue 92-7 (The Aliens Want Our Attention); \$3.00 each.

ARE CROP CIRCLES THE WORK OF THE INTERGALACTIC CONFEDERATION?

QUESTION:

A question from J.V.T. in Holland. "Your last issue, No. 92--7 ("The Aliens Want Our Attention"); are you sure that the aliens are the producers of the crop circles and ice sculptures. Please verify, as according to my understanding, it is the work of the Intergalactic Confederation."

COSMIC AWARENESS:

This Awareness indicates that the distinction between the Intergalactic Confederation and the aliens need to be made clear. The entity apparently does not recognize that any entities not of this planet, but from extraterrestrial areas are alien to this planet.

This Awareness has not suggested that the creators of these crop circles were any particular species of extraterrestrial type. This Awareness indicates however, that the crop circles appear to be messages using a certain high level geometry which are aimed at their own kind. It is likened unto leaving calling cards in places where your own kind will be coming.

This Awareness has likened it unto the use of "Kilroy was here!" signs during World War II, when the Allied invaders in Europe would pass through a town and take the town from the German defenders and leave pictures of Kilroy to indicate they had been there and the town had been taken.

This Awareness indicates that these geometric figures or crop circles being such that they convey messages to those who may follow and these messages very with each design. In some cases, these are not really aimed at human consumption, but are intended strictly as messages to be read from space, to indicate who was there, and what purpose their visit in the area was for.

This Awareness does not see this relates to intergalactic space creatures, in the sense of a hierarchy of metaphysical beings who are highly benevolent toward humans. It appears rather that these are from craft piloted by Greys and by those from Orion and also Reptoid types from Draco.

The Dragon People of England and King Arthur Pendragon

This Awareness indicates that the so-called Dragon People of the British Isles who, down through historical times have made their presence known to British inhabitants,

have left legends and left a legacy of dragon symbols through dragon holes and through concepts of dragon societies; Arthur Pendragon being one.

This Awareness indicates that these crop circles and similar designs are presently used as a kind of brand or notification and announcement to others that this is their territory. This Awareness reminds you that even as dogs or cats may mark that which they randomly claim as their territory, likewise, these entities claim certain territories by leaving their mark; the mark being crop circles and such.

This Awareness indicates that it may be that there are some of the more highly evolved space types or extraterrestrials who also use crop circles type markings to signal their kind; however, it does not appear clearly to this Awareness at this time that this is the case. This Awareness indicates that *It* does not wish to negate that possibility. *It* will continue to observe these phenomena, to look for evidence of this beneficial factor of these who leave the crop circle designs.

This Awareness indicates that *It* simply does not see this at this time.

GETTING THE ALIEN "FEDERATIONS" STRAIGHT (More on Clarion, Vega, Lyra and the Orion Empire)

QUESTION:

J.J. in New York City is also confused about terminology. Awareness has given this, but perhaps *It* could put it into a package that would end questions about it. She writes: "General reading, [a copy of which I sent her of one of her questions, not yet published], page 17 makes a distinct reference to the Galactic Confederation. Evidently there is one! On the other hand, many of the "pablum", (I love the term--perfect!)" she says, "space brothers" channelings referred likewise to such a Confederation of positively oriented "good" planetary cultures. When you and Cosmic Awareness invalidated all that stuff, I am fairly sure that the concept of such a 'Confederation' was also dismissed, and now I am confused.

Whereas it may not be known as the 'Confederation of Planets and Service to the Infinite Creator,' it evidently does not contain an Ashtar Command for this sector, there evidently is such a Federation. I'd like to know more about it, such as it is. What is it called, how was it formed, how does it function, and is it possible for earthlings to disavow as their government, the elements that made treaties with the Greys and joined us up to it somehow?"

COSMIC AWARENESS:

This Awareness indicates that there are seen three elements in the galaxy that work as units. There is that which is called 'The Empire,' and that is controlled by Orion. This Awareness wishes to make some clarification in this respect; that the majority of those known in Orion are of a negative nature, but that there are some planets and sectors of Orion that are positive in nature.

Clarion is a planetary system, a star and planetary system that is of a positive nature. Betelgeuse and some of those stars in that general area are filled with planets that are of a negative nature. This Awareness indicates that there are some hundred and thirty planets in that area.

This Awareness indicates that there is also, besides the Orion Empire, the 'Draconian Federation.' It is not a Confederation, but a Federation. The Draconians have absorbed those from Zeta Reticuli and have brought these entities into the Federation as mercenaries, but the Reticuli do not think of themselves so much as part of the Federation, -- they refer to themselves more as a network. The word "Reticuli" means network, and that is a traditional classification in their history, which they do not easily shed.

This Awareness indicates however, the Draconian Federation considers the Network as part of the Federation, subordinate to their own controls. The Draconians are able to control the Reticuli through treaties that have been formed some five hundred thousand years back, when they helped to rescue the Reticuli from their dying planet and infused it with new life, and then, in return, gained control over the entities of the Reticuli.

10. The Reticuli hail from a binary star, that is, two stars that rotate together, and live on planets close to these two stars which are highly unlivable to humans, being very heavy in heat and desert. This Awareness indicates that thus, the Reticuli, in coming to Earth, prefer desert areas where the climate is quite warm.

This Awareness indicates that this in part is favorable because of their insect genetic qualities, which makes up part of their total being. This Awareness indicates the Draconians also being cold-blooded beings, prefer the warm climates.

This Awareness indicates that as to concept of the Confederation, this is not a common term used in describing the amalgamation of planets from Vega or from the Pleiades, Lyra or the Sirius system, but has been borrowed from human tongue and from the persistent use of the term by channels to describe the amalgamation of these planets in working together in this galaxy to try to hinder the spread of Draconian influence.

Ashtar Command and "Spiritual Hierarchy" are Vibrations, Not Entities

This Awareness indicates that there is no problem with the term Confederation, but it has been described in so many unusual ways that to use it hauls in all of the images that have been channeled by many who are simply creative story tellers. This Awareness indicates that the so-called 'spiritual hierarchy' and the 'Ashtar command' and the Intergalactic Confederation have been described in ways that are utterly absurd in terms of reality levels.

In some ways the spiritual hierarchy is viable, when understood as sound levels or frequency levels of a hierarchy system, but most entities in thinking of the spiritual hierarchy, see beings of different names, rather than frequencies and different degrees of light.

This Awareness indicates these bands of frequencies of light are in a kind of musical-like hierarchy system such as might appear with chords and overtones, octaves and higher octaves if arranged in a hierarchy system of vibrations, but the majority of those who channel this information on the frequencies of the spiritual hierarchy do not describe these frequencies, rather they describe the points in the hierarchy as having names and personified qualities, as being likened unto highly evolved persons.

This Awareness indicates that these frequencies are highly evolved but are not persons. They do have consciousness however, as does everything else in the universe. This Awareness indicates that to pray to them or to think of them as human types is of considerable waste. If you wish to utilize the spiritual hierarchy, you may find it better to attune to those frequencies. Put your frequency in harmony with those higher frequency levels and move into higher frequencies in meditation or in concentrated focus.

This Awareness indicates that in this reference, meditation and concentrated focus may be thought of as the same action. Meditative or concentrative focus toward a frequency that is more highly evolved than your own allows you to raise your frequency to that of a spiritual frequency point on the hierarchy system that you wish to experience.

Even if it is experienced only for a few moments, it can be very enlightening and beneficial to you. This Awareness indicates that pretending it is a human, with a human name, is not so much an experience, it is more of something for the mind to play with and to give the mind a feeling that it knows something. It is much better for the consciousness to experience something than for the mind to label something with a name and pretend to itself that it understands because it has named something.

The Intergalactic Confederation is Defined

This Awareness indicates that as for the so-called Intergalactic Command or Intergalactic Confederation, this may be thought of more as a grouping or alliance of highly evolved spiritual beings of different star systems who have united in their common purpose of hindering the Orion Empire and Draconian Federation from capturing and

enslaving other planets outside their own already held 11.
Federations and Empires.

This Awareness indicates that those from Vega have pledged their efforts to help prevent the Empire and the Federation from taking control of Earth. Their methods are not to interfere directly in the affairs of humans without invitation from humans, and the humans have allowed the Draconians and Orion Empire representatives to have their bases on Earth, therefore, the Vegans, Lyrans and Pleiadians must honor, by their own rules and principles, must honor the human decision and treaties with the Draconians and Orion Empire and Reticuli Network to have positions on Earth, until the humans choose otherwise.

How Vegan & Pleiadian Volunteers Work on Earth

In the meantime, the Vegans, those from Lyra and those from the Pleiades have chosen other ways to influence the human movement toward throwing off these would-be oppressors. The Vegans send some of their most advanced beings to be born on Earth with earthly parents and to grow and develop and do their work to help prevent this takeover of the planet by these Empire, Federation and Network aliens.

This Awareness indicates the Pleiadians also have their volunteers. There have been those who came in space ships and met directly with individuals who were open and desirous of meeting with them. These entities even gave warning about the Orion Empire and sought to prevent the treaties, but failed to do so.

Therefore, while they seek to help in whatever ways they can to hinder the Orion Empire in its conquest or the Draconians in their various invasion plans, they avoid direct interference in the affairs pertaining to these entities on Earth. This Awareness indicates that they are even careful not to talk about these entities as being dangerous or enemies of theirs or of mankind.

This Awareness indicates those from Lyra also incarnate into human form to help change the vibrations and instill a sense of spiritual meaning into the lives of those whom they come in contact with. This Awareness indicates that these are ways whereby the amalgamation of star systems work together to help Earth in its struggle for survival and for spiritual enlightenment.

Spiritual Marshmallowing Not the Will of Cosmic Awareness

This Awareness indicates that entities may continue to refer to these of the amalgamated planetary systems as Galactic Confederation, if they understand that it is not simply a bunch of space people flying around with fancy names spouting spiritual marshmallow words that sound sweet but have no substance or meaning other than to massage the libidos of humans and make them feel comfortable and special.

This Awareness indicates that this kind of spiritual marshmallowing is not in the will of this Awareness, but rather, stagnates the human soul and its growth and evolution. It keeps the human soul from facing reality and growing to become the best it can be. This Awareness suggests that it is better for entities to learn what they can learn, regardless of whether it is tasty, sweet marshmallow-like and pleasant, or whether it is shocking, disturbing and yet informative.

This Awareness indicates that if this has not clarified or answered the entity's questions, let that which has not been clarified be rephrased and stated so that a better clarification may occur.

QUESTIONER:

I think Awareness pretty well covered her questions on these subjects; it seems pretty clear.

AN UPDATE ON THE REPTOID/

PLEIADIAN WAR

Some questions from T.H. in Fond du Lac, Wisconsin. He asks if Awareness can give an update on the war between the Reptoids and the Pleiadians.

COSMIC AWARENESS:

This Awareness indicates that this appears to still be in levels of great conflict; that the Draconians approximately 10 years ago launched a direct invasion into the Pleiadian star system, attacking several of the planets that were inhabited and have wreaked much havoc on those planets, nearly destroying the civilizations thereon.

They still hold some of the territory on those planets, even to this day. The Pleiadians were forced to turn their attention to liberating those planets, and during the past decade have worked hard and suffered much in this effort. This Awareness indicates that the Pleiadians, having new star ships, have been able to push back the invaders, partly because their own supply lines were near at hand while the invaders were far from their own home and had to rely on supplies that were captured and had little support from anyone outside their own group.

This invasion force from Draco was quite large. It appears that they are now quite diminished, and it is unlikely that they will survive another year in this war. It is more likely that they will retreat back to Draco before being destroyed.

This Awareness indicates that the Pleiadians have rallied together during this time and have become much closer in terms of their interplanetary amalgamation and have strengthened their forces so as to be actually stronger at this time than when the war or invasion began, approximately 10 years ago.

This Awareness indicates that it is likely you will hear of new visits from the Pleiadians to Billy Meier and others within the next two years as some of these entities begin to venture out again in this direction to help warn Earth of the dangers impending from the Draconians.

ANY DECISION BY THE ANDROMEDAN COUNCIL?

QUESTION:

T.H. also asks: "Awareness previously stated that the Reptoids, Greys and the Pleiadians were both presenting their case as to which of them has a rightful claim to the Earth and its inhabitants to a council of various other races of extraterrestrials. Has any decision been reached by this council, and if so, what are the ramifications of this decision for all of us here on the Earth?"

COSMIC AWARENESS:

This Awareness indicates that it appears there has been a kind of recognition that as long as Earth allows the Draconians and Reticulans to remain and treaties have been signed, that this more or less creates a block to prevent interference from the Pleiadians, Vegans or others.

It is for this reason that any contacts will be of a very minor nature, more to educate and inform than to directly interfere or confront the Draconian, Reticulan and Orion Empire Greys.

This Awareness indicates that the Andromedan Council is much like the UN on Earth; it has certain influence, but has no power over those who refuse to abide by its recommendations. The Draconian Confederation, the Orion Empire; these do not give much credence to the Andromedan Council or its recommendations.

They appeal to it when they see a chance to benefit or to use it to their advantage, but ignore it when it does not give them advantage. Therefore, at this time, anything given by the Andromedan Council in regard to the Earth has been generally ignored by these entities.

HOW WAS THE PLANETOID NEMESIS BUILT?

(Should We Blow up the Moon?)

QUESTION:

Another question from T.H. Awareness has gone into some of this already tonight. I'll read his question. "Concerning the large planet-sized craft containing 30 million Reptoid warriors; how is such a craft built? What type of propulsion system does it use, and how is it maneuvered and kept on course? It seems that its size would indicate that it would carry the 30 million warriors and still have a great deal of room left. What else is it carrying? Perhaps many craft like the usual reported UFOs that will be used to carry these warriors to Earth.

"How close to the Earth do they intend to get before they launch their attack? I think I heard somewhere that this planetoid would be parked behind the moon prior to attacking the Earth. If true, do we plan to attack the alien bases on the moon also?

"Sometime ago I read a story in either the New York Times or the Wall Street Journal by scientists that said that we should blow up the moon with nuclear weapons. He then went on to give various reasons why this would make life here on Earth better than it is now. I'm wondering if the real reason this is being contemplated is because of the Alien Bases there?"

COSMIC AWARENESS:

This Awareness indicates that this as a factor considered by this scientist as a kind of pre-released story for possible future scenario in the event it becomes necessary to destroy the moon. This Awareness indicates that in regard to the other questions; the planetoid in moving, does not have a propulsion system. It uses gravity forces as described previously, and is of a size that has room for many craft within, and the plan was to bring this to the far side of the moon for launching toward Earth.

This Awareness has also suggested previously that the people on Earth who know about this have already made plans to destroy the craft long before it gets close to the Earth,—this through a space launch to destroy the craft at a distance as far away as Saturn.

This Awareness indicates that it is seen as that which will be created with Element 115. You will recall that recently Dr. Edward Teller was commissioned to create a weapon that would destroy any incoming asteroid and stated that the weapon would need to be more powerful than anything ever built on Earth, so powerful it could only be tested in space.

This Awareness indicates that there were also discussions that the nuclear weapons which were being dismantled would be brought together to be launched in one single great weapon that could be used to destroy an incoming asteroid, which, it was surmised, is a possibility that needs to be considered seriously.

Dan Quayle Official "Asteroid Guardian"

This Awareness indicates that many conventional scientists scoffed at the idea of a need for such a weapon when asteroids are so unlikely to hit the Earth, but arguments persisted among these scientists working with Vice President Dan Quayle in his office as "Asteroid Guardian"; the entity's assignment being to watch and work for ways to keep asteroids from hitting the Earth.

Element 115 and the Nuclear Strike on Saturn

This Awareness indicates that these scientists working to build a kind of monster nuclear weapon to destroy incoming asteroids, are taking their jobs seriously. It is not seen as joke to them. This Awareness indicates it is seen that Element 115, which is an element not made on Earth, but which was acquired by the U.S. government from certain of the Zeta Reticuli who are working with the government on this, is that which would pack in a piece the size of a fingernail, the same amount of energy that was used in World War II in Hiroshima. This Awareness

12. indicates that with 500 pounds, the stuff could totally blow a planet apart. This is likely to be the scenario for Teller to use in his bomb against the so-called asteroid. This Awareness reminds you also that some time ago, a storm on Saturn occurred that created quite a phenomenon for scientists and that quite by coincidence, the Hubble Telescope 'happened' to be facing Saturn and saw the storm.

This Awareness suggests this was a nuclear strike on the surface of Saturn to test weaponry to see if such a target could be hit at such a distance. This Awareness indicates that given these circumstances, there is strong indications that the incoming Nemesis will not get near the Earth. This Awareness suggests however, that there are also considerations that many of the aliens are already on Earth and may have some ways of interfering with these plans.

This Awareness indicates that this does not appear to be a strong likelihood.

HOW NEMESIS WAS BUILT

FOLLOW-UP QUESTION:

One final question was in that question. "How was such a craft, this Nemesis, built?"

COSMIC AWARENESS:

This Awareness indicates that this as much like asking how the moon was built. The moon itself as hollow; that it is itself a spacecraft. This Awareness indicates that there are certain lines of energy created with a kind of crystallizing of magnetic lines into shapes; the tetrahedron or 12-pointed star, to be exact, and these lines of space, once solidified or frozen into place, then begin to pick up space dust or draw molecular energy to it.

This Awareness indicates that if you recall, ionized energies often draw ionized particles around the ionizer creating a black soot-like field, and if this were to occur on a great tetrahedron made from magnetic lines that have been solidified in place, it would actually draw space-dust type of energy. The space-dust is more likened unto collections of molecules building up on the lines that have been created by the structure and ionized fields around the tetrahedron.

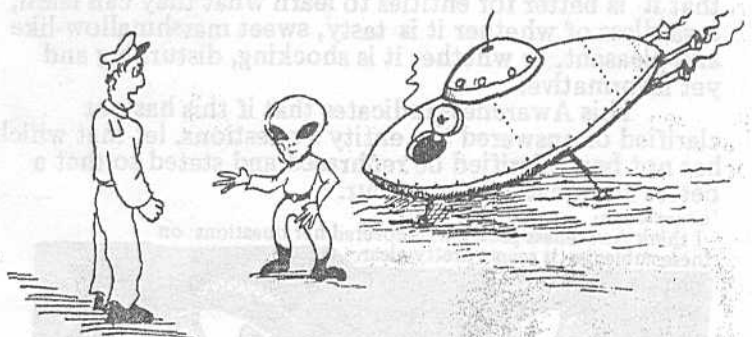

This Awareness indicates that as these energies pile up, eventually a kind of shell of ionized energies are formed from point to point, creating a global field, and this begins to collect space dust until it forms a surface.

This Awareness indicates that the easiest way to explain the creation of such a craft would be to say it is created by using natural forces, the forces of nature, in certain structured ways to build hollow planets, or planetoids; that this has been done down through the ages by the Els, or Elohim, and now by others who are highly advanced in their technologies.

The craft is not powered by propulsion, it is powered by magnetism.

This Awareness suggests the Interpreter be brought from trance.

(The Law of Gratitude is given)

"TAKE ME TO GEORGE BUSH" AND THE TRILATERAL COMMISSION."

C.A.C. General Reading, No. 1, October 8, 1992

OPENING MESSAGE:

This Awareness needs to have a certain type of recognition in that *It* requests the membership to recognize something which will allow this Awareness in future situations to acknowledge the receptive qualities of the membership during times of crises, if there is a receptivity.

(A New Way to Kill the Messenger)

This Awareness indicates that in olden times, a messenger bringing a message to a king could find himself being killed if the king did not like the message the bearer brought, even if the message was accurate. This Awareness indicates in the present situation, when this Awareness brings messages through the Interpreter and this organization, the subscriber may find the message undesired and cancel membership or cease to continue supporting the organization. It is a mild way of killing the messenger.

This Awareness indicates that the situation is such that when a critical event is in the making, such as the Gathering Storm or the Hot August Night scenarios, this Awareness can generally read the membership and recognize that the membership needs the information and will deliver the information based on that need.

This Awareness indicates that in other situations, *It* may read the membership and see that the membership is not ready for such information, such as certain UFO information which was requested in the '70s but which was delayed until the '90s because the membership was not really ready to accept the whole scope of UFO information until the '90s, and even then, some of the membership dropped out because the information was too heavy for them.

This Awareness indicates that likewise, there is certain information relating to the origins of Christianity which entities frequently ask about, but which this Awareness has withheld comment because the general membership could not accept the response to these questions and therefore, until the membership is more open, these questions will continue to be put off and not asked.

This Awareness indicates what this Awareness wishes to know is whether the membership, during a time of crisis, such as recently experienced in the Hot August Night, whether the membership would rather be kept ignorant of the information, or should be informed, particularly when this Awareness sees that the membership could be useful in helping to avoid the crisis which was pending.

This Awareness indicates that *It* needs to know this in advance because often when *It* simply springs the information on the membership and the membership to some degree takes action, even action which helps to divert or defuse the event from occurring, the members sometime thereafter appear to be disappointed or feel that they have been misled because the event did not occur.

This Awareness indicates it is likened unto people who have capability of diverting an oncoming tornado, rush to their machines of weather modification and do what it takes to turn the tornado in some different path or defuse the tornado altogether, then because they cannot see how powerful their technology has worked in defusing the storm, they question whether the storm or tornado ever existed at all.

First Nuclear Strike Was Thwarted

This Awareness indicates that it is true that in the 1979 Gathering Storm material, approximately a third of the membership dropped out, partly because the foretold crisis did not come about; that also when there was the threat of nuclear war and the membership was asked to send in letters to the so-called ad hoc Gang of Four, this during the Carter administration, that many of the participants who helped to defuse that situation were angry afterwards that the nuclear war did not occur.

This Awareness indicates there is within the government a recognition of that time, that the letter-writing campaign caused a number of people in the White House staff to walk off their jobs and to go around individually campaigning and working to prevent the strike from occurring and that it played an essential part, along with other situations, in stopping that *First Strike scenario*.

This Awareness indicates that this was confirmed by Dr. Beter at the time and confirmed later by others who knew what was occurring. This Awareness indicates of course, it is not always possible for this Awareness to provide confirming information to *Its* membership without calling further attention to the fact of the membership having interfered with the plans of powerful forces, and if the interference of the membership into the plans of powerful forces could create a potential danger for the membership, this Awareness does not wish to call further attention to this fact, and having completed a defusing of the danger in order to grant someone a feeling of self-importance, is not a legitimate reason to keep the focus on the entity and perhaps endanger his or her life.

This Awareness indicates that in other words, although there may be hidden and unsung heroes who have helped to defuse a crisis, this Awareness does not wish to keep pointing the finger at these unsung heroes just to let them feel important when it could in fact endanger them for their efforts.

This Awareness indicates similarly, in the recent Hot August Night scenario, there was great danger in getting this information out. There was in fact, consideration as to whether or not the exposure of this information would be cause for exterminating the people involved in releasing the information.

There were people who came and warned the Interpreter of the fact that this information had gone world-wide on computer bulletin boards, and that they saw his life and the lives of those at CAC as being very much in danger because of the release of this information. This Awareness indicates that it also went across the air-waves on many talk-shows around the country; that there was also the letter-writing expressions and this had an effect on reducing the chances for such events to occur.

This Awareness indicates that it is no great joy to be in a situation whereby you are expecting to be killed for having expressed information that could lead to the deaths of others in order to defuse that scenario in the information, and those who receive the information should recognize that it is not being done simply for excitement, or as one person put it: to make money by scaring others. There are far greater avenues for making money than to put your lives on the line to inform others.

This Awareness indicates that *It* wishes to know whether entities of this organization want this Awareness to inform them of any future potential threats to their security or whether they would prefer being among the silent sheep who follow quietly to the slaughterhouse or to wherever they are told to go without this Awareness giving them any special information.

This Awareness indicates that *It* suggests entitify notify *Cosmic Awareness Communications* headquarters as to whether they want to know what is going on, or to be kept in the dark on such matters, and if they wish to be kept in the dark, a staple or red checkmark could be put on their card so that they do not receive any special mailing or information regarding such matters, and thereby may remain in ignorance during such times.

This Awareness indicates that this could be considered as a way of satisfying those who wish to know and those who wish to remain in blissful ignorance. This Awareness indicates it is a concern at this time, because it is expensive to notify people, and when the notification is not appreciated and is instead disdained, then it becomes doubly problematical.

The organization has no desire to alienate or anger its membership. It has a desire to be of service to humanity and to its membership, and the membership can be an important and integral part of helping to save humanity or elements of humanity during such critical times.

News of C.A.C.'s Demise is Premature!

This Awareness indicates that at present, the organization has suffered a great loss financially in that many of those in the membership seem to be awaiting news of the organization's demise and therefore, are not contributing in the usual manner. There also appears to be some excessive expense in having gotten the information out quickly so that the membership could help to defuse the scenario, and this has also added to the burdens of the organization.

These things need to be attended to; that both the endangerment of the staff and the excessive cost involved discourage this Awareness from giving further information of this type, even if it becomes imperative in the future. This Awareness of course will do what *It* sees to be essential, but if the organization does not have the support of its membership then it is as though there is no organization for this Awareness to express *Itself* through and the opportunity to be of service to humanity diminishes accordingly.

The Plans of the Dark Forces May Have Only Been Put Off

This Awareness indicates that the organization at this time has a need to recover from the extensive energy loss, financial loss and time loss that occurred in releasing the information this summer, and even if entities do not fully understand how critical the release of that information was, surely they can recognize that they are still in a democracy; they still have certain freedoms and have the right of expression which they might otherwise have lost by now.

This Awareness indicates that there are still hints and indications in the news of shenanigans that have occurred in the background on political levels and there will be more coming out between now and election time. This Awareness indicates that just because all of the elements did not occur in August does not mean that the plan never existed or that the intent was never there, for indeed the plan *did* exist.

There were already murmurings and the beginning of subliminal efforts to turn those murmurings into screams and violence on the streets and the release of the plan ahead of time, along with other efforts by other individuals, helped to defuse those events.

This Awareness indicates that the forces involved have not given up on their intentions and future plans, but they indeed are being put to challenges by other forces and may not have a similar opportunity for some time to come, if ever. This Awareness indicates that again, *It* must be very cautious and limited in what is said so as not to hurl a challenge to these forces which could lead them to rash action.

This Awareness indicates that simply put, and summarized, this Awareness asks entities to send whatever financial and moral support you can send to this organization during a time of critical need, so that it can recoup and rebuild its strength to carry on its service to its membership as usual. It has served for two decades and with your combined help can continue to be of service.

It appears that it can focus attention toward the spiritual elements during the coming months as there appears to be a lull in the critical situations that have plagued this country for some time. It prefers to focus on the spiritual side of humanity's needs and only on the political and economic and crisis levels when it becomes absolutely imperative to do so.

This Awareness indicates that *It* does not intend for this organization to be politically active or to delve into conspiracies, but that it be predominantly a spiritual organization, but occasionally *It* must look into conspiracies in order to explain and answer questions that many ask in regard to the human condition on this planet.

It has in the past discussed many of these conspiracies and hidden plans of the mighty and powerful, but much of this, having already been discussed, means that there is time to

¹⁴ focus more on the spiritual things.

This Awareness indicates that life, as this Awareness sees it on this plane, is a total gestalt of experiences and this Awareness does not tend to ignore any of those experiences that add to the total gestalt of life, and therefore, *It* discusses all of the various aspects: everything from abnormalities to conspiracies to potentials and to realities and the metaphysical side of human experience.

A CLINTON VICTORY CAN'T STOP NEW WORLD ORDER

(Announcement of Alien Presence a 30% Chance)

(Ross Perot Still a Wild Card)

QUESTION:

A question from C. H., Richmond, Calif. He writes: "A friend of mine who regularly attends UFO conferences informs me that a speaker at a recent conference stated that Bill Clinton was hand-picked by the Rockefeller Trilateral Commission as their candidate. At this time, Clinton appears to lead in the polls and the Bush campaign seems to be in shambles. Barring the election being stolen, it appears likely that Clinton may win. My intuition tells me that, if Clinton wins, the plans for a Nazi takeover may be slowed or halted, but the plans for One World Government will still be on track; that Clinton merely represents powers different from Bush, but not adverse to world domination. Regardless of who wins, our economy has been looted, and it is unlikely to recover anytime soon. The powers pushing for world domination have everything to gain by economic collapse, and Clinton, even if not beholden to these interests and desires to do so, is unlikely to turn this country around." And he asks: Does Awareness have a comment?"

COSMIC AWARENESS:

This Awareness indicates that the entity's evaluation, especially at the time prior to Perot's re-entry into the political race, is quite accurate. This Awareness indicates that the likelihood of Clinton's winning over Bush is most obvious at this time; that there is the potential for some unforeseen event scheduled or planned by President Bush to create a rearrangement of power and of support prior to the election, however, it does not look favorable for him.

This Awareness suggests that you not be too surprised if in the latter part of October that a fake UFO invasion or an announcement by government officials regarding aliens on earth could be used to alter the polls, but that this does not appear to be a certainty. It appears as a 30 percent potential in the manipulation of the masses.

This Awareness indicates that it does not appear the Rockefeller cartel or forces are basically behind the 'Clinton for President' movement. It appears also that this will, as the entity suggests, keep the One World Government in progress, and it does appear also that there will be some potential for certain elements of economic crisis to occur before Clinton even takes the reins of government, this perhaps shortly after the election.

This Awareness indicates that if the entity does indeed take the reins of government, it appears that there will be *some economic improvement during the coming year*. This Awareness indicates that the element of Ross Perot being involved creates an additional dimension to the political race wherein this entity could create some immediate hardships while also creating new immediate sources such as new jobs and new opportunities for entities with the prospect of quickly eliminating the national debt to bring the country back toward its former glory.

This Awareness indicates that to do so can be somewhat difficult, but during such difficulties opportunities would be provided to offset those difficulties and make the actions worthwhile. This Awareness indicates that *It* sees Ross Perot as being a potential for powerful change in the country toward a kind of calling back to the roots of democracy and the economic system that gave this nation such a boost in its earlier era.

This Awareness indicates that *It* also sees that there would be some heavy-handed expression by this entity that has not been seen since the days of Franklin Roosevelt, which would call for entities to think of him as being somewhat dictatorial. This Awareness indicates that it appears however, in the long run, that the entity's approach would be seen as having salvaged a country that was otherwise going down the tube.

The entity is aware of the private ownership of the Federal Reserve Bank and does not particularly like that fact, and if given enough support, would take measures to change that and other factors which would allow the restoration of the economic system into the hands of Congress.

This Awareness indicates that there are seen certain benefits from either Clinton or Perot. There are certain benefits to Bush's re-election, but there are also extreme dangers to this nation from those who are controlled by forces that have long been involved in misusing the economy and people of this nation.

The Rockefeller faction, being involved with both Bush and Clinton, has a history of harming the general health of this nation. This Awareness indicates that the Rothschild influence on Perot could also be a hindrance toward his efforts, if he does not throw off that influence or if he allows that influence to strengthen.

This Awareness indicates that in any case, the nation appears to be hungry for change and it does not appear that a re-election of Bush will be likely. It will be very difficult if it *is* to occur and will need some sudden and dramatic alteration of events to allow it to happen, and that is highly unlikely at this stage, even with the potential of a recognition of alien presence.

Perot Still the Wild Card and Has Much Influence

This Awareness indicates that it is something that cannot be ruled out as a manipulative approach to create a sudden new emergency which would make entities reconsider Bush just before election time. This Awareness indicates however, it is extremely unlikely to be effective, even if such a political card were to be played, that it would lead to his election.

This Awareness indicates that there is some potential for Ross Perot to take away many of the Clinton votes, however, the entity Ross Perot is well aware of and has documented information which links the President Bush to many of the scandalous situations, including the Iran/Contra situation, the meeting in Paris, and also to certain banking scandals relating to an agreement between Bush and Hussein that would create considerable stir and many questions prior to an election if this entity wishes to bring out these facts, and therefore, the entity Ross Perot may end up being the wild card that could be played in a manner to damage either candidate with such extreme damage as to be irreparable, just prior to election.

If Bush is Elected, Military Coup and Treason Charges Possible

This Awareness indicates there is also seen influence of a potential military coup if George Bush is elected, whereby he would be arrested by certain military generals for treason, shortly after the election. This of course, is very far-fetched and yet is talked about by various journalists who are aware of things occurring behind the scenes.

This Awareness indicates the danger of such a coup may be more obvious to those who have read CAC material because, of course, that would put You Know Who in as president, the Vice President then being the one who runs the country.

WHY DID ROSS PEROT REENTER THE RACE?

QUESTION:

Another question by C.H. "Regarding Ross Perot: If, as Awareness said, he was forced to leave the race by threats, was he asked by the failing Bush campaign to re-enter the race when it became apparent that his withdrawal helped Clinton?"

COSMIC AWARENESS:

This Awareness indicates that this appears to be a strong potential. It is not seen as absolute. The energy on this is not clear enough to give a strong affirmative, however the energy implies an affirmative to this question. There appears to be something more involved, however. It appears also to relate in part to family pressure and family considerations and family pressures which originally led to his bowing out, and family pressure which also helped to influence him to return to the race; the family pressure, along with the pressure from his supporters and backers.

This Awareness indicates that it also appears that there is a kind of influence from the Bush forces, or forces indirectly linked to the Bush forces, that have helped in his decisions to drop out and to re-enter. It appears the questioner has analyzed the situation accurately, although it is not a full assessment. It is a partial evaluation of his reasons.

FOLLOW-UP QUESTION:

The original death threats leveled at his family; have these been retracted?

COSMIC AWARENESS:

This appears to be in the affirmative.

NAZI FORCES AND A CLINTON VICTORY

(Problems of Liberals VS. Conservatives)

QUESTION:

Charles has another question. "How will a Clinton victory affect the plans for a Nazi takeover?"

COSMIC AWARENESS:

This Awareness indicates it appears that this would be of considerable detriment to these forces, but not so much because of the link with the Rockefeller associates, but because of the expectations of the U.S. citizens who will expect more freedom and liberal expression which would tend to move more from the conservative middle toward a more fluent and more active left.

The Nazi movement of course is very Right-wing in its expression, very conservative, and for more moderate or liberal a president to emerge would create the atmosphere for more liberal expressions, and this would tend to interfere with the Nazi plans. The fact that Rockefeller is behind a moderate such as Clinton, and also helped to bring in Nazis after World War II would imply a potential boost for the Nazis, but this does not appear to be as likely as under the previous administration, and it appears that instead the more moderate or liberal types would gain political power to ward off any excessive right-wing group power.

This Awareness indicates the dangers involved in the more radical left and moderate or liberal groups is that they generally tend to give government greater power over the people through bureaucratic means, through the programs that are set up to help the people, and because of these moderate or liberal policies that link the help to government bureaucracies, the government tends to infringe more on the private lives of individuals who are involved in these programs.

This Awareness indicates that on the other end of the spectrum are the extreme Right wingers, the conservatives, who use government as a force of power over the people to create laws that infringe upon their rights and which prevent them from having opportunities, and therefore control through might rather than through bureaucracy, control through laws and infringement on rights rather than through bureaucratic strings and chains of the Left.

There is very little opportunity for many entities under either extreme Left or extreme Right government expressions, and most entities benefit best under a situation in which the government does little other than to protect the rights of all people and whereby they are not too involved in the privacy of the individual's life. A middle-of-the-road or moderate government, not too liberal and not too conservative, tends to generally be the best for most people.

Time Ripe for 16 Year Cycle to Return to Liberalism

The more conservative government tends to favor those who have greater economic and political power and the more liberal government tends to favor bureaucratic structures and upper middle class forces and it is mostly a matter of where one is as to which form of government they personally prefer.

This Awareness indicates it is healthy in a country for the leadership to be switched and generally occurs in cycles, wherein there will be approximately 16 years of more liberal expression in government followed by 16 years of more conservative expression; that it is now the approximate time for a more liberal expression to emerge in government.

The 16 year cycle began in approximately 1976, '77, and '78 for a more conservative form of government to emerge in this nation. It was during this time that the programs which came out of the Kennedy and Johnson administrations, such as the 'New Frontier' and 'War on Poverty' or so-called 'Great Society' began to lose appeal and whereby other more critical forces began to denounce the welfare programs and promote more of the self-help approaches whereby entities began to look out for themselves and less for others.

Thus, in the '80s was the so-called "ME" generation, wherein entities were concerned about their own welfare, moreso than in the '70s, and now in the '90's there is beginning to emerge a slight concern for the homeless and the needy and a desire to help those of the middle and lower class after the upper class bankers and stock-brokers have manipulated papers without contributing anything to society to make their millions at the expense of the middle and lower classes.

It is now a time ripe for a return to the more liberal expression of government.

A CLOSE ELECTION CAN STILL BE RIGGED FOR BUSH

QUESTION:

A question from T.H., Fond du Lac, Wisconsin. "For quite some time the Bush campaign has been comparing President Bush to former president Harry Truman. In particular, reference is frequently made to Truman being the underdog but still coming up with a surprise victory in the race against Dewey. The Bush campaign also frequently makes reference to an election in England in which the so-called underdog, I believe his name was Neil Kinnick, came out the surprise victor. Is all this talk a form of subliminal programming to prepare the people for an election victory that is actually stolen through manipulation of the electronic voting machines and would otherwise be questioned by the people?"

COSMIC AWARENESS:

This Awareness indicates that this appears to be in preparation for the potential; that the electronic manipulation can only occur if the actual vote is less than ten percent difference for these machines can be rigged to give one out of ten votes to the other candidate, and therefore, if there is more than a ten percent difference, even by giving one out of ten votes it would not result in enough of a change to create a popular vote for the underdog.

This Awareness indicates that, however, if there is enough closeness in the polls at the time of the election, this kind of manipulation could occur and could be effective.

FOLLOW-UP QUESTION:

In late August, J.J. sent in a note: "In an interview in this week's *Time* cover-story, Bush declared that "he will win this election in a manner so positive, you'd think it was maybe even rigged."

THOSE HURRICANES: NATURAL OR SOMETHING ELSE? (More Than One Way to Send Messages to Politicians)

COSMIC AWARENESS:

This Awareness indicates, indeed it may well be so.

QUESTION:

T.H. has another question here: "Recently Hurricane Andrew devastated Florida and shortly afterward Hurricane Iniki did the same to Hawaii. Were these storms of natural origin or were these a form of weather warfare, and as such, another or alternate means of the hidden Nazi element to destroy the economy to bring on a national emergency?"

COSMIC AWARENESS:

This Awareness indicates that this appears to have been artificially created by forces related to Gorbachev, wherein this entity in seeking assistance from this country to strengthen Russia did not receive the help wanted and therefore created, through weather modification, a storm to serve as a statement that: "Even after the reduction of nuclear weapons, we still have the capacity to wreak havoc, unless there is more cooperation."

This is an implied statement and an intended coercive action to extract help for Russia's new democracies in terms of economic assistance. This Awareness indicates that it is much like saying: "Unless you help us economically, we can hinder you economically!"

FOLLOW-UP QUESTION:

Does that mean that Gorbachev is still working in those lines, even though Yeltzin apparently is in charge?

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that Gorbachev still has certain ambitions as a power and force in bringing Russia back as a form of superpower. They are not in need of nuclear arsenal because they have the various Tesla and electronic warfare techniques that can be used without even being detected as warfare arsenal or weapons.

This Awareness indicates that it a way of putting pressure on those who are aware of these electronic warfare techniques without disturbing the masses in such a way as to rile them into reaction. The masses in the United States have no hostility toward the Russians because of the hurricanes. They see no connection.

Yet these hurricanes have done the damage and have shown those in power the power of the Russian electronic weaponry, so that when further discussion of assistance are put forth, the entities in charge will remember the hurricanes of 1992 and think twice before rejecting any assistance in these areas of economic help to Russia and Russian satellites.

WILL FORT DIX BECOME A CONCENTRATION CAMP?

(Most Schools Being Built for Dual Use)

QUESTION:

Selene sent in an article from the *New York Times* and she wants Awareness to check this out, if this is going to be another concentration camp. It says: "Fort Dix may become a federal prison. Plan would alleviate impact of military cuts. The Pentagon and the U.S. Bureau of Prisons are close to an agreement to convert Ft. Dix, the sprawling army base in central New Jersey that has been stripped of its function as an active duty training center, into the largest prison in the federal system."

It's a long article that goes on, but does Awareness see this as being a legitimate use for Ft. Dix, or is there something more sinister behind it?

COSMIC AWARENESS:

This Awareness indicates that essentially it is one and the same. A prison also can be the same thing as a concentration camp. It may be used for the same purposes. The concentration camp is usually thought of more as an open area with small shacks or housing facilities inside a tall fence. The prison is generally thought of more as a tall fence enclosing a rock or metal structure that is used for housing prisoners in individual cells.

This Awareness indicates there is very little difference. The concentration camp is generally less expensive in housing individuals. This Awareness indicates that it appears there has been a shift from making concentration camps into altering army camps into prisons and concentration camp type facilities. This has occurred both here on the West coast and also on the East coast, and plans are being made for other conversions of military camps into encampments for prisoners. This Awareness indicates you will likely see more of this as time passes. This Awareness suggests also that you may wish to take notice that most schools which are being built or have been built within the past decade have some of their buildings created in such a way that there are no windows and that these buildings could, in emergency, be converted very easily into jails or prisons.

Fluorescent Lighting in Schools is Harming Our Children

This Awareness suggests that it is shameful because sunlight does not come in through windows to the students and they receive only light from the fluorescent lighting which is hazardous to teeth and to eyes and in general to the health of the students, particularly when not using the full spectrum fluorescent light. Full spectrum fluorescent lights give a greater range of vibration frequencies and do not cause the severe problems of the more narrow fluorescent light which is commonly used.

This Awareness indicates the full spectrum light generally known as the grow-light, because it allows plants to grow is more healthy. The narrower fluorescent beam or narrow range beam of an average fluorescent light has been linked with an increase in cavities, headaches and vision problems.

This Awareness suggests entities working under fluorescent lights or having fluorescent lights in their homes, should shift those lights to grow-lights. They will find that tension and eye strain and even the neck tension of working under fluorescent lights will disappear and their general health will not deteriorate from these lights as occurs with regular fluorescent lights.

This Awareness indicates that because many of the schools are being built without windows, the children will suffer more eye problems and headaches and nervousness and their immune systems will be less effective from these narrow-spectrum fluorescent lights.

ED's Note: there are several references in back issues as to where to buy these full spectrum lights, Luxor being one of these. Check the Yellow Pages of your phonebook under 'Lighting' and call around until you find a dealer selling the full spectrums.

GEORGE BUSH'S OATH OF ALLEGIANCE TO THE UN

("Whatever I Am, I Owe to David Rockefeller")

FOLLOW-UP QUESTION:

J.G. in Seymour, Connecticut, in a letter mentioned: "Also, Bush stated last week that he would keep open an army base in New Jersey to train UN troops. Again, little or no publicity." Will Awareness comment on this?

COSMIC AWARENESS:

This Awareness indicates that the entity is totally dedicated to a world governed by UN troops and UN legislation. This Awareness indicates that the situation might be beneficial to the world if the motives of the countries are all of the highest and the UN troops are used only when there are truly violations, but as most entities know, the press can label anyone the violator and make them appear to be cruel and inhumane if it becomes expedient for the press to do so. This in terms of the media.

The media, when controlled by governments, becomes a tool for oppressing entities and manipulating mass consciousness to subscribe to that oppression, to promote that oppression. This Awareness indicates there needs to be checks and balances for the New World Order, such as there are checks and balances in the U.S. Constitution to keep any section of the government from being oppressive.

This Awareness indicates that this is even more important when it is a world government.

QUESTION:

Chris L. sent in a transcript of a speech given by Bo Gritz in which Bo Gritz says: "On C-Span, George Bush is recorded as having said: "Whatever I am, whatever I become, I owe to David Rockefeller." Well, the President of the United States," says Gritz, "ought to be serving a different master, and as a matter of fact, before the United Nations this year, George Bush made this statement: "It is to the sacred UN charter that we and all people will now and forever pledge our allegiance." This seems to confirm what Awareness just said.

COSMIC AWARENESS:

This is in the affirmative.

"Let's hear from that dumpy man with the thick glasses, sitting in the back row."

WILL WE HAVE A WALK-IN PRESIDENT?

QUESTION:

A question from L.H. in New York. He writes: "In the book *Strangers Among Us*, Ruth Montgomery's guide said that there would be an American walk-in elected president sometime during the 1990s. This message was again repeated in *The Herald of the New Age*, pages 262 and 263, Montgomery's biography written by JoAnne Garland. The criteria given by her guides for a walk-in was someone who had grown tired of living for one reason or another and relinquished control to a more enthusiastic soul who wanted the opportunity to progress while foregoing the trials of childhood. The walk-in would have to deal with whatever the outgoing soul had to handle before moving out to other endeavors." Does Awareness see that information as being valid?

COSMIC AWARENESS:

This Awareness indicates that *It* does not see a great substance to this suggestion by Ruth Montgomery. It may be that again, the energy is simply not strong enough or clear enough for this information to be assessed properly. This Awareness indicates that the potential is seen, but it appears it is more of an imaginary concept than a reality.

It appears that this was not intended as a misguidance, but that in the enthusiasm the entity experienced in regard to the study and focus on walk-ins has resulted in the entity creating a significance of a walk-in president out of a vivid imagination rather than out of a clear predictive cognizance.

ANY CURE FOR LICHEN PLANIS DISEASE?

QUESTION:

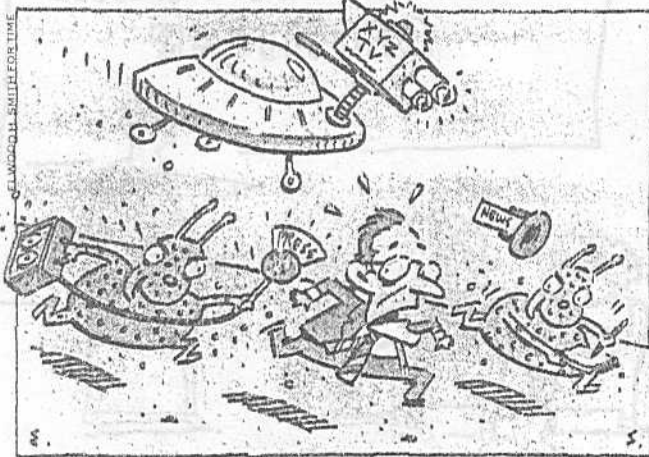

R.G. in Sedona, Arizona, writes: "Could you ask if there is a cure for Lichen planis, a skin disease?" (I looked this up, and it's primarily skin lesions.)

COSMIC AWARENESS:

This Awareness indicates that beta carotene is seen as being of general benefit, that also the drinking of comfrey juice is seen as beneficial, that beta carotene as a form of Vitamin A that comes from carrots as being highly beneficial. Comfrey may be applied also externally as well as internally. The drinking of the comfrey juice and the application of comfrey gel can be beneficial.

This Awareness indicates that it would also be advisable for the entity to check in regard to heavy metals in the system and also for other potential problems that may relate or in some way aggravate the system.

This Awareness suggests for example, candida and mercury poisoning, that the checking for heavy metals in the system through hair analysis can yield some information that may be of considerable benefit in regard to assisting in the diminishing of the problem.

Just Suppose ...

TIME, AUGUST 24, 1992

18.

"If ye love me, feed my sheep!"

COSMIC AWARENESS HITS YOU UP ONCE AGAIN

QUESTION:

Does Awareness have a closing message?

COSMIC AWARENESS:

This Awareness wishes to repeat what *It* stated in the opening message; that there is a great need at this time for entities who appreciate the efforts of *Cosmic Awareness Communications*; there is a great need for these entities to assist financially, especially financially, and also with their words of encouragement to those who work in this organization, that it might continue to serve you and humanity.

This Awareness indicates that many entities do not realize how much can be done by so few. Many will never know how much has been done by so few. Many of those who receive and read these messages will never know how their other fellow members who have put themselves out to help in promoting or expressing or furthering the spread of information and how much good has come from this effort by these entities.

But this Awareness wishes you to consider the efforts of so many of your fellow members in this organization who put their energies on line to spread the word, to pass the messages, to alert others outside the organization. This Awareness indicates that many entities sent these messages directly to those in charge, directly to those opponents. Some alerted Congress, some alerted editors of magazines and newspapers, some messages were mailed directly or faxed directly to Dan Quayle, George Bush and others.

This Awareness indicates these things have an impact and these entities, known only to themselves, are unsung heroes. This Awareness indicates that some put information on telephone poles, in laundromats, on bulletin boards in computer networks, some spoke on radio stations, and it had a powerful impact. This Awareness indicates that some did nothing and reaped the benefits from those who did something.

This Awareness suggests that if you can at this time give anything to assist in keeping this organization and this opening for this Awareness to speak, to communicate in times of need and to give forth *Its* spiritual information, that this Awareness will truly appreciate your help and will seek to reward you many times over for your efforts.

The Law of Gratitude is recited.

ED's Note: although we appreciate all the "light and love" that comes with your letters, please remember that light and love is not acceptable by the publishers who sell us books, by the paper mill who sells us printing paper, by the magazines which run our ads, etc. etc. When they send us their bills, they demand something else in payment!

HOW TO GET THIS NEWSLETTER BY MAIL

Every 3 Weeks! (More or Less)
