THE CELESTINE PROPHECY

An Adventure

JAMES REDFIELD

2.

SOME POSSIBLE SCENARIOS TO FRUSTRATE PATRIOT MOVEMENT'S GATHERING MOMENTUM

C.A.C. General Reading, June 13, 1994

OPENING MESSAGE:

This Awareness indicates it appears the energies are mounting to create a situation to head off any movement by the patriot groups on various levels as has been discussed previously, in order to assure that these groups do not successfully overthrow the present controls in this country.

This Awareness indicates that there appear to be two major approaches to this: one being the potential for creating war, either in relation to North Korea or to Haiti, as a means whereby martial law can be declared, which would allow other activities then to be initiated within this country.

This Awareness indicates the other approach being that of creating what appears to be a natural disaster, whereby martial law can then be declared. This Awareness indicates that this natural disaster appears to more likely take the form of an earthquake. This Awareness indicates this potential or possibility appears to be close at hand, if that is the approach that is to be used.

This Awareness indicates there *does* appear to be a strong tendency in this direction. Both of course will be artificially created. The potential for war, or the potential for an earthquake would be created artificially; in other words, not occur naturally. In the case of a war, certain activities would be used to trigger the reaction that would lead to further action, which would trigger still another reaction, eventually leading to a war in either of the two places mentioned.

In the case of the apparent natural disaster, for example, the earthquake; it appears this would take the form of a frequency or vibrational pulse that would trigger an earthquake. The possibility or probability appears to be in the state of California, but this Awareness indicates there also appears to be further additional artificial methods for enhancing the strength of that earthquake in order to make it serious enough to call for a national emergency and martial law.

Jupiter Collision an Unknown Factor

This Awareness indicates that these potential approaches appear to be planned in the near future. There is also the unknown factor of the effect of the Jupiter collision with the so-called asteroids; that this could have various types of effects, depending on where the impact occurs.

It could, for example, create another so-called "eye" of Jupiter, if it occurs at a certain place on the planet, or it could create a change in frequency throughout the solar system, depending on how these objects impact and merge with the chemicals that make up the planet Jupiter, mostly being hydrogen and helium which also are the chemicals that make up elements of the sun.

This Awareness indicates that indeed, it is possible that a second sun could be created if certain energies and places impact simultaneously in a particular order. This Awareness indicates that it is also possible and more likely that these will not come together in that particular flux so as to create the second sun of Jupiter and the sun of the solar system.

These two potential suns together would create a binary system that could alter consciousness in this solar system. This Awareness indicates that it is a very remote possibility, but if it does occur, the timing would occur in the month of July for this to begin, particularly close to the mid-part of July of this year.

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Paul Shockley, Interpreter

This Awareness indicates that there is also seen plans whereby if the martial law is initiated after some crisis in this country, that New World Order money will soon be exchanged for the present types of money being used in this country; that the new money would not be the Treasury Notes as spoke of, but would be that which has long been in the banks awaiting disbursement, which essentially is designed as New World Order money for this country.

This Awareness indicates that it appears the coming days, perhaps as early as this week, and the remainder of the year carry extreme and major potentialities for great change, not necessarily for the good; but even where there is the potentiality for great change in a negative sense, there is also the opportunity for change occurring in a positive way.

This Awareness indicates that there is both the positive and the negative potentialities in the current energies that are building at this time.

The Cosmic Awareness Book Review...

JAMES REDFIELD'S ASTONISHING BOOK IS THE SPIRITUAL EXPERIENCE OF THE '90'S--
AND THE NEXT BEST THING TO THE COSMIC AWARENESS SPIRITUAL DEVELOPMENT CLASSES!

In the rain forests of Peru, an ancient manuscript has been discovered. Within its pages are 9 key insights into life itself--insights each human being is predicted to grasp sequentially, one insight then another, as we move toward a completely spiritual culture on Earth.

"THE CELESTINE PROPHECY" IS REVIEWED
(Is It Just a Coincidence This is Occurring Now?)

This Awareness indicates it speaks of the first Insight as that which recognizes coincidence, or what appears to be coincidence occurring at a time, in a way that is very meaningful. These coincidences are not just accidents, but are directed or guided by something in consciousness that is necessary for you at a particular time in your life.

This Awareness indicates that in the book, it speaks of the coincidence that occurs to individuals more as if these were chance meetings with other individuals in such a manner as to affect the lives of the various individuals within the story-line of the book.

This Awareness wishes entities to understand, however, that the coincidence does not necessarily have to apply to individuals, or meeting with other individuals. It can be the same type of coincidence that happens when one walks into a laundromat for example, and finds a magazine article with a special message for the entity who reads it, which is very pertinent to the entity's experiences of the moment, whereby answers are given in this magazine article from the laundromat that really help the entity to understand a particular problem or concern that he or she has been dealing with.

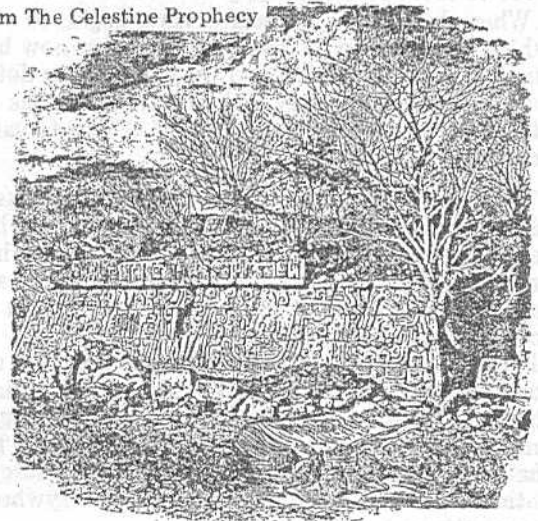

This Awareness indicates that the entity who is aware and watchful for these chance meetings of either individuals, concepts, or ideas, through books or through other means of communication, will be more inclined to gain insight from these chance meetings, these coincidences that occur in his or her life than the one who does not even think of such things and who may pass over or pass up a potential connection with an article, book, or individual, so that the message does not come through to the entity.

The First Insight: Recognize Coincidence!

This Awareness wishes to discuss briefly a book that is currently on the market, for this book can be of great value to entities in preparing them for the understanding of the energies on this earth that are now occurring, so that in the future months, entities can better grasp and better understand what indeed is behind the events that transpire.

This Awareness indicates there is a book on the market called *The Celestine Prophecy*; that this book as one which can be of great value in the understanding of energy on this plane at this time. This Awareness indicates that it speaks of various "Insights"; these Insights are what might be termed realizations that are occurring in consciousness with certain humans who are evolving more spiritually at this time, and that as you read this book, you will actually find yourself participating in the new realizations or new insights that allow you to have a better understanding of what is happening on your plane at this time in history. It also will allow you to recognize where you are in regard to your physical, social and spiritual environment, and what you can do to rise in vibration, in higher frequency in order to cope with what is occurring. It should also assist you in understanding your relationships much better.

From The Celestine Prophecy

Energies in Special Places

This Awareness indicates that there are other Insights that are described in the book. This Awareness wishes to mention a few things in the book that need further scrutiny by the reader. This Awareness indicates that in one of the Insights, it speaks of certain energies that are found in special places. This Awareness indicates that just as there are positive energies available in certain places on earth, wherein you gain energy from being there; as in the book it describes old forests and special places of beauty, this Awareness wishes you to understand that there are certain negative places where you can receive negative energies; energies that bring you down, that cause you to feel weak and without power or strength.

This Awareness indicates that the book also speaks of entities seeking to get energy from each other. This is a very important Insight for entities to recognize, and this Awareness has spoken before of how you can draw energy from the universe; that energy is everywhere around you. This Awareness has referred to this energy as Universal Consciousness and that consciousness is next to you, surrounding you, as well as within you.

This Awareness indicates that there are certain areas in certain places wherein this consciousness is of a positive nature; there are also certain areas wherein this consciousness is more negative in its nature and will drain your spiritual, psychic and physical energies from you.

This Awareness indicates that in the book, the narrator speaks of the conflict between humans as being a contest or competition, trying to get each other's energies, and this is of very great importance during these coming times to understand, for that which is occurring throughout the world on many levels at this time have many different characteristics and there are many different things over which entities appear to fight and compete, but if entities look at it very carefully, they will see that almost all conflict is a struggle for energy: either for taking energy from someone, or from trying to keep your energy from someone who wants to steal it.

This Awareness indicates that in the book it speaks of romance, wherein two entities fall in love, but whereby within a short time, each expects the other to provide them with the energy they seek, with the energy they want, and each tries to withhold giving their own energy to the other because there appears not to be enough energy for both of them to share and give to each other.

When this occurs, the relationship begins to sour; that which appeared to be love between them now becomes a struggle for domination and the domination determines who is losing the energy and who is gaining the energy, for all efforts to dominate another are efforts to gain energy from that other.

This Awareness indicates the book even speaks of this in regard to parent/children relationships, in which parents seek to gain the energy of the children by dominating them, and controlling them excessively, and children automatically resist and rebel against the parents' domination in order to keep their own energy.

Even children seek to dominate the parents, and thereby steal energy from the parents. This Awareness indicates there is a great value in understanding this struggle for energy, but the point this Awareness wishes to bring out is that entities need not fight each other for energy, since the entire universe is energy and energy is everywhere present if you attune to it.

Tuning Into the Universal Energy

This Awareness indicates it also speaks in the book of how entities can attune to the Universal Energy and not need to compete with others for energy, can give each other energy without competing and in so doing, not lose energy, for these simply tap the Universal Energy and have whatever they need.

This Awareness indicates that it also suggests that when entities begin to lose their connection with Universal Energy or Universal Consciousness, then entities also begin to look to each other, to take energy from each other, but as long as they cease to take energy from each other and maintain their Universal Connection, they need not slip back into that state of insecurity, fear and the thievery of energies from other people.

When Bodily Harm Threatens

This Awareness indicates that this book can be of great value to entities, particularly during times when there is a threat of bodily harm or insecurity, and as entities learn to recognize the nature of threats, (but also learn to hold their psychological, spiritual and emotional attachments to the Divine Energy of the universe, they tend not to fear evil), and recognize that they are protected, and the protection becomes stronger for them, even though they walk through the valley of the shadow of death.

This Awareness indicates that even when things appear most threatening, if entities can attach themselves to the Divine Consciousness that is everywhere present and in that level of Higher Frequency, entities have a greater chance of surviving the threats and dangers that may come in the coming months.

This Awareness indicates that *It* cannot go into detail on the entire book, nor would it be to the benefit of entities, but *It* did wish to discuss this book enough to intrigue you so that you will read it. This Awareness wishes also that you read it with the realization that the writer had to confine the concepts which he discussed to a very limited number and a very narrow elaboration or he would have a book with a thousand pages.

The Intimidator, the Aloof Person, the 'Poor Me'

The book is approximately 245 pages in length and it is more or less condensed. You will find that there are many things in it, and whereby if you simply stop and think a little, it can expand in your mind to include many other things. The entity speaks, for example, of our types of manipulators: the Interrogator, one who questions; the Aloof person, one who hides; the Poor Me person, or one who causes others to feel guilt and does so by pointing out his or her own difficulties in a way that implies it is the fault of the other person, that he or she is suffering; the Intimidator, the person who bullies others as a form of direct aggressive manipulation.

The Interrogator is also a direct active manipulator, and the Aloof person is inactive or more passive, and the Poor Me person is a more passive type of manipulator. In the book it speaks of these four types of manipulators and how they work with others to steal their energies and how they tend to create each other by their particular ways of manipulating.

The Intimidator, for example, through the efforts of intimidating a person, creates the aloof type, or if the intimidation is extremely strong, may create the Poor Me type of person. This Awareness indicates *It* wishes to suggest when you read of these four types, to realize that these four types are not necessarily a full description of each individual.

In other words, an entity may be not only an Intimidator, but also might slip into the Poor Me type, when it suits his or her purpose in manipulating another; that in fact one entity could use all four types of manipulation, so that these are not simply descriptions of four different individuals necessarily; they are simply four different types of manipulating that are described in this book.

Other Types of Manipulators

This Awareness indicates that there are still other types of manipulating that are beyond these four. There was a book in the recent past that included many more types of manipulating. This book was issued under the name of *Coping With Difficult People*. This Awareness indicates that this book listed approximately ten or more different ways or types of people with whom you might come in contact, and with whom you might need to cope.

This Awareness indicates that when you read *The Celestine Prophecy* you may wish to refresh your memory of the other types of people as described in the *Coping With Difficult People* book, for there are more than simply four types of manipulation.

This Awareness indicates that as you begin to read this information and prepare yourself for the future with the information that is available in this book, you may also wish to reflect on certain concepts this Awareness has given previously.

In the book it speaks of certain ways of acquiring energy from the universe. For example, it speaks of looking out at the world, studying and seeing all the little facets, details, colors, textures of the scene you look at, and breathe in the energy as you observe that which is out there, to look as far as you can see, and in so doing, you expand your consciousness in a way that gives you the feeling that you could reach out and touch the furthest visual sighting within your realm of perception; so that you look out at the sky, at the horizon, and you feel it as being very close to you.

By expanding your consciousness in this way, the energy becomes a part of your aura. Your aura actually reaches out as your perception and awareness expands. This Awareness indicates that the experience of doing this will allow you to gain physical, spiritual, and emotional energy for all your various bodies: physical, astral, and spiritual.

This Awareness indicates that you will also notice that when you do this, it becomes the same feeling that occurs when you observe and then observe yourself observing. You will see that it gives the same results. When you look out at the horizon and then look down upon yourself looking at the horizon, you will get the same results as in reaching to the horizon with your consciousness, feeling it to be close, feeling yourself capable of touching it, and breathing the energy in from that which is within your perception.

Savoring Food as a Means to Draw Energy

This Awareness indicates that you may choose all of these methods to help energize yourself even further. This Awareness indicates the book also speaks of gaining energy through the way you eat, not limited to what you eat, but by savoring your foods, tasting the food very carefully, overchewing, and also being very appreciative of the taste and of the nature of the food.

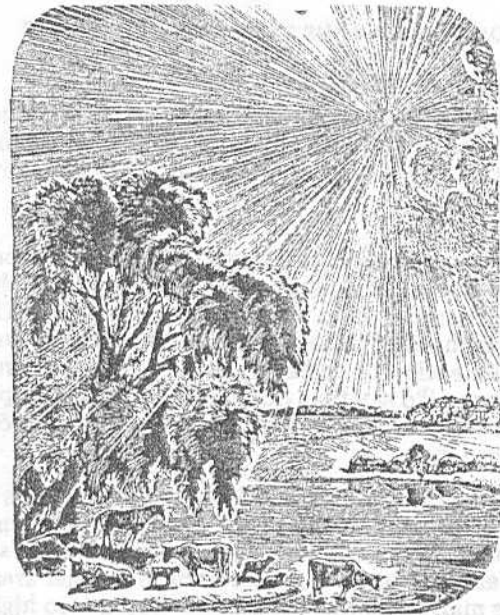

Appreciation and Rebuilding a Love Relationship

The appreciation is extremely important. This Awareness indicates that indeed, the very act of appreciating something, or appreciating someone whom you have been taking for granted, allow you to recreate the love for that entity, and in so doing you give them energy which makes them even more loving, and you see the love energy in them and it helps you to love them even more.

Thus, entities can rebuild their love relationship by consciously creating a greater appreciation for certain things that the other does which may have been taken for granted in the past. This Awareness indicates this book is not only about learning to give energy to others and to get energy from the universe, it is also about how to extend and develop and keep your love relationship with another so that the relationship does not become one in which the lovers are sucking off each other's energy, but whereby they are energizing each other and building a greater love as time goes on.

This Awareness indicates this book helps to explain why there have been so many divorces and separations, so many quarrels and fights between people who have loved one another; why there have been so many family distortions between parents and children whereby the entities fight over each other's energies and cannot patch up their differences or restore their family ties.

This Awareness indicates that it is a book that is extremely valuable, particularly in the coming times, and especially in the present time, even if hardships were not coming down the pike, for presently there are too many energies being fought over; too many entities wanting to get your energy or wanting you to give them your energy, so that you feel you must fight to keep your energy and get some from them.

This is part of the unconscious behavior that needs to be better understood and learned in such a way as to become a conscious realization so that entities can go on beyond the grasping for energies and learn how to tap the energies of the universe, which is unlimited.

This Awareness indicates that the book can be purchased through CAC or from other sources, and this Awareness suggests it should be considered a 'must' by anyone who wishes to grow spiritually. This Awareness indicates it is easy reading. It is also told in an adventure story, which makes it more than merely an intellectual reading. It is an exciting adventure story which many will enjoy.

DOES FICTIONALIZING THE BOOK HARM IT?

FOLLOW-UP STATEMENT:

Some entities might not take it seriously because the author fictionalized it.

COSMIC AWARENESS:

This is in the affirmative. It is a vehicle for presenting the concepts or insights, but the vehicle of the fictionalized story simply adds to the enjoyment of gathering the insights. This Awareness suggests that to really get the most from the information, one should slow down when the insights are discussed, and study these sufficiently to understand exactly what is being presented.

The narrator of the story who is searching for the insights will help you in this effort, because he too does the same. He is written as a character who has difficulty understanding the insights and therefore asks many questions of others so that they explain clearly to this man who sometimes appears somewhat intense, but this is for the author to make sure the reader fully grasps what is being said before going on to further pursuits and further insights.

This Awareness indicates there is still great room for your own philosophizing, your own thinking, your own extrapolation into other expressions of these insights. These can be applied to your own life and to better understanding yourself. This Awareness suggests that an entity who would read the book over and over and over, could, in a very short time, progress spiritually and have a greater understanding of life and of relationships than in a single reading, for each time the book is read, you will see something new, something of greater clarity, and that which has been read before will take on a newer and deeper meaning for you.

FOLLOW-UP QUESTION (VIKKI):

Strongbow had a question after reading this book in relation to the information given in it about the Mayan civilization. Is it true that the Mayans transcended en masse as given in this book?

COSMIC AWARENESS:

This Awareness indicates that it is historically recorded that the Mayan civilization disappeared and there is no clue or clear understanding as to what happened to them. The book simply uses this fact to suggest that the entities moved into a higher dimension or higher frequency and transcended the physical form. To say that this is what actually happened to the Mayans as recorded in the book would be conjecture, without evidence.

This Awareness indicates that from the view of this Awareness it is correct; that many of these entities transcended physical form. Some of these entities who were not so highly evolved went into jungles, others went into other areas, but there were many who physically transmuted into higher frequencies, and into other dimensions. They essentially became invisible to most earthlings.

The Meditation of Disappearance

This Awareness, through Ralph Duby and David Worcester, gave certain meditations; one of these was the Meditation of Disappearance. There have been entities using the Meditation of Disappearance who have been informed by others that they could not see them; that they were sitting there and suddenly they disappeared.*

This Awareness indicates this disappearance is spoken of in the book, wherein certain entities were vibrating at a rate too high for the soldiers who were searching for them to find, and how they were suddenly frightened when their friend came on the scene. Even though they knew the soldiers were unable to see them, they became frightened for the friends and this brought their energy down so that the soldiers then could see them also.

This Awareness indicates that this discussion, which may appear to some readers to be fanciful, actually speaks of reality. Entities can raise their vibrations to a level wherein they are not seen by others. Whether they can maintain that level is up to whether they can avoid frequencies or vibrations of fear or attachment to lower levels.

The Next Best Thing to the Development Classes

The book *does* carry so many concepts and insights that entities can truly learn a great deal about who they are, and what they are capable of being. This Awareness suggests that a study of this book is the next best thing to Development Classes, and when entities have studied this book and practiced and learned what it has to say, they will have gone through a kind of development class that will have changed their spiritual vibration, giving it a higher frequency.

It is not simply for entertainment or casual reading, it is for spiritual development, but entities can read it however they wish and still gain benefit from it. This Awareness indicates it is a great factor on the scene today, because it is a major seller,--one of the best sellers of the day, and many entities are truly learning from it, and this is having an effect on the change in consciousness that will be essential for the coming transmutation into the New Being in the next century.

*Found in the "Book of Meditation"-\$3.00 from CAC.

FOLLOW-UP STATEMENT:

I've seen several notices in the local paper that there are at least two study groups here in Olympia who are forming classes to study this book.

COSMIC AWARENESS:

This Awareness indicates that this will soon be happening all over the United States and also into other countries. This Awareness indicates that it is for the Nineties what the Seth books were for the Seventies, and the books of Seth in the Seventies set off a spiritual movement that led many entities into greater soul searching and deeper insight into the world of the unseen.

This book will lead entities into looking, recognizing and experiencing energies that are beyond the usual sense perceptions. It is likely to create a totally new society that rises above greed and conflict. This Awareness indicates there is so much more to the book than can be described in a simple reading such as this, and entities who fail to pursue this are doing themselves a disservice.

This Awareness indicates there are times in the book where the story becomes somewhat unbelievable. It appears that almost everyone the entity meets becomes a messenger related to the manuscript which contains the Insights, and it becomes rather contrived after awhile, having so many coincidences of such meetings, but this Awareness suggests that if you can forgive the writer for keeping the book brief, by not being totally realistic in this regard, the story becomes quite a good and enjoyable vehicle for carrying and conveying the information regarding the Insights and that is the real purpose of the book.

FOLLOW-UP STATEMENT:

I read they're starting to film a movie of the book so even more people will get turned on to it.

COSMIC AWARENESS:

This Awareness indicates the book reads like a movie and would make an excellent film, if done properly.

[It's rumored Steven Spielberg is after the movie rights]

HOW SIGNIFICANT IS THE INFLUENCE OF PARENTS? (How to Figure it Out if You Happened to be an Orphan)

FOLLOW-UP (VIKKI):

On the one insight about what the parent's lesson is for the child, I had trouble trying to apply that to my own life because of the oddities of it. Is there some more information maybe that could be given?

COSMIC AWARENESS:

This Awareness suggests that in the book it spoke of the mother's and the father's influence on the child being that which gave the child's life its purpose, wherein the child looked at the purpose and philosophy of the mother and of the purpose and philosophy of the father in terms of the way they saw their lives and lived their lives, and from that duality the child was to reconcile those two views in his own life in some way, and this was the purpose of the child being on earth in that lifetime.

This Awareness indicates it gave an example of a mother who had a strong Christian upbringing and belief and a father who was very hedonistic, and the child (the narrator of the book) had both qualities: a desire for spiritual truth and also a desire for some kind of personal pursuit that would satisfy his enjoyment, and thus he was in Peru pursuing this sacred manuscript which the Peruvian government and the church wanted kept hidden from the masses.

This Awareness indicates that his purpose was to bring the mother's and father's philosophy of life into focus in his own way, to his own life. This did not mean that he needed to seek out the pleasures that his father wanted, nor that he would be a Christian as his mother was, but that his spiritual quest and his desire for adventure would merge together in a quest for truth.

This Awareness indicates that each entity can stop and think clearly and carefully about his or her own mother and father and find a description to sum up the lives of each, and then look to find how those influences affected them as individuals. This Awareness indicates this is essentially the way the book presents this Insight.

There is however more to it than that, for in some instances, entities may not have had a strong parental influence, but there have been other influences on the child which served to mold the child's philosophy of life, and these influences may have come from someone other than the parent.

Indeed, they may have come from numerous people who had strong influences on the child, so you need to look beyond the parents only, especially if these were not the major contributors to your own personal philosophy. This Awareness indicates it can also involve a current spouse, wherein your current spouse may have a strong influence on your perception of life.

This Awareness indicates or perhaps it was a previous spouse, or someone who in your childhood, or late teens or early twenties, or somewhere in your youth, caused you to change or become more aware of certain concepts and ideas and alter your philosophy of life in such a way that you were influenced strongly by this person, in which case, you look at the person and the influence the entity sought to express in his or her life, and you assume that you must have absorbed some of that.

Then you look at another person's influence on you and assume you must have absorbed some of that, and then you work to see how these influences on you can be brought into harmony, can be melded together to make one unit, or one philosophical approach to your life.

7. This Awareness indicates that if you have too many influences and they cannot be brought together, if they are separate from each other and cannot be synthesized, there is a strong potential or likelihood that you may have tendencies toward schizophrenia.

You may have an influence from your father, an influence from your mother, which you cannot reconcile, or which you have not allowed to reconcile, and you may have influences from other sources also that are not reconciled within you, and these can be factors that create different sets of personalities.

It is a question of whether or not you have the understanding or ability to reconcile these different personality factors that came from the influence of others in your earlier life, and if you can reconcile the personalities that caused schizophrenia.

You can become a whole person. This Awareness indicates it does not mean you have to accept your father's or mother's philosophy totally, but rather that you should recognize their influence and that for some reason the influence they gave you was something you needed in order to fulfill your purpose for being here.

As you study what the influence was on your psyche, your emotions, your concepts, you can begin to recognize some hint as to what your purpose in this life is, and understand why you chose your parents, in order that their influence might lead you to your purpose.

Failing to recognize the influences that come together and failing to synthesize these influences could mean that you may never understand your real purpose in life.

A MESSAGE FOR THOSE WHOSE PARENTS DIE EARLY

FOLLOW-UP QUESTION:

Is there a message or purpose or an importance for cases where parents are absent or die when you are very young?

Is there a message intrinsic in that?

COSMIC AWARENESS:

This Awareness indicates that this often means to an individual that the individual cannot cling to a known source or energy or root, but that the entity has to let go and find a new path, a new direction. It is often that which occurs when an entity has been on a path that was limiting and the entity needs to start over totally, for more rapid growth.

This Awareness indicates this does not mean that your mother or father was a cause of limited growth and therefore their death was to give you a chance for moving into something else; rather, it means that you were born into a family in which your parents did not remain with you, for one reason or another, and in your abandonment, you were cut loose to be on your own and to find a new path.

The effect was that which occurs on your consciousness, not which occurs genetically, or literally in your life or relationships. It created for you a consciousness that was fresh, had no roots, had to start over anew, as if you

appeared in the stream of life without any previous connections or had been cut off and were on your own.

This Awareness indicates that this allowed a new beginning for you, so that old karma, old ties would not hold you back in your spiritual development. This Awareness indicates again, it is not the ties or breaking of ties that is the important factor, but the pattern in your psyche that resulted from the breaking of ties that gives you this new beginning.

QUESTIONER:

I think it also gave me an understanding that I could't find security without. I had to find it within.

COSMIC AWARENESS:

This is in the affirmative. Roots are a form of security on a psychological level.

ED's Note: the book "The Celestine Prophecy" by James Redfield is a book the author originally could not sell to a publisher. It was sent in manuscript form to TV tycoon Ted Turner who had a contest for new authors, and other publishers as well. His friends to whom he had shown the manuscript said publish it yourself; this is good stuff! He did, after borrowing \$1300 from friends and it began quietly to sell simply by word of mouth. Thousands purchased the book, passed it on to family and friends and soon tens of thousands had read it as the author frantically reprinted it time and again. It wasn't long before the giant publisher Time Warner, sniffing out a best-seller, contracted to publish the book in hardbound form in March, 1994. It instantly became the number one best-seller in the United States and is today still listed in the New York Times as Number One and is selling millions of copies monthly.

I first heard of "The Celestine Prophecy" last October, 1993, when member Peggy Allen wrote to me asking if I had read it yet. She said if I hadn't, I had better do it, for the information would knock my hat off, and she would "buy me a beer" if it didn't. I wrote and told her I had never heard of the book and would place it on my stack of books to read, but couldn't promise when. Peggy then promptly mailed me her copy (one of the original self-published ones) and I placed it on the stack and forgot about it. Then one day while reading the New York Times, I noticed that "Celestine Prophecy" was number one on the best seller list! I thought by God that title looked familiar and then I remembered it was in my stack of books to read. I quickly located the book, started to scan it, and found I simply could not put it down. It was spell-binding from page one. After an hour Vikki started hollering at me that the print job, which was the next newsletter, had not manifested on her collator and she wanted it 'Now!' I put the book down but finished it that night in bed. Thanks Peggy, and I'll take the beer sometime too. Now Cosmic Awareness is recommending the book to everyone and comparing it to the Development Classes and promising you it is available from CAC. At the time of the reading it wasn't, but now we do have copies to sell. It's the new hardbound version, priced at \$17.95 plus \$1.50 postage and handling. I'm sure you can buy this book locally with no problem, but we would appreciate the business if you can wait a few days to get your copy (if you haven't already got one).

Many thanks. (Avaton).

PS: Having read the book once, the next time I intend to "study" it!

MORE ON THAT "PLANNED EVENT" MENTIONED

QUESTION:

In regard to the planned events Awareness mentioned at the beginning of this session, was the information from "S.C." relatively valid? *

* A mysterious phone message was forwarded to us a few days earlier. It was from an entity in Arizona who had heard from a friend that an official high in the Red Cross had made the statement "That an earthquake was to occur on June 15th in California, and the Red Cross and UN troops had already been established along the San Andreas faultline to assist the injured and prevent civil disorder; that a "national emergency" would be declared by Clinton. Also, new money was to be introduced that same week. (It all sounded vaguely familiar). What was interesting to us was that an official in the Red Cross knew this was coming, if it was coming. And Spotlight newspaper has been running stories showing huge trucks and hundreds of train cars here in the U.S. with UN markings etc. It sounded possible. We had not planned to ask Awareness about this in the June session, but since It mentioned "a planned event" in the opening message earlier, the above question was asked without the information actually being stated.

COSMIC AWARENESS:

This Awareness indicates that the energies are seen as relatively valid; that there appears to be a potential for change in some regard to this information as the future is not fixed, and there are many influences that can alter circumstances, but in general, the energies or information appears to be relatively correct.

ABOUT THAT FLESH-EATING "KILLER BUG"!

QUESTION:

There's been a number of articles about a killer bug and people are sending in questions on it. I'll read a bit on one of the first reports that came out. It was from *USA Today*.

Killer Bug Scaring Britons.

A flesh-eating bacteria Britons are calling "galloping gangrene" kills 150 to 300 people a year in the USA.

Necrotising fasciitis has killed at least 10 people in Britain this year and caused widespread panic.

British newspapers printed gruesome photos of victims; headlines shouted: "Killer Bug Ate My Face."

But the government says it has no evidence there is an epidemic under way.

In the USA, 500 to 1,000 people a year get the disease, says Robert Howard of the Centers for Disease Control and Prevention. Most are saved with antibiotics and surgery to remove dead and infected skin, muscle and fat.

The bacteria enter a body through a wound or sore and destroy flesh at a rate of up to an inch an hour, he says.

"It's an infection you can almost see progress."

Antibiotics work, but "it's tremendously important to get to a doctor quickly."

The disease is an uncommon complication of a common bacteria--Group A streptococcus. It causes strep throat, but "certain strains are extremely virulent," Howard says.

In the USA, about 2500 die annually of Group A strep, including Muppet creation Jim Henson.

That's the article. Since then, there's been reports that this killer bug is cropping up here in the United States and the basic questions are: Since no one ever heard of this before, is this another attempt by the secret government or others, through genetic engineering, to wipe out a large number of entities?

COSMIC AWARENESS:

This Awareness indicates that it appears this is an alteration that has occurred through some type of scientific tampering with the streptococcus bacteria to make it more virulent and to assist it in moving through flesh, through tissue more quickly. This Awareness indicates that it is not clear at this moment whether this was consciously and deliberately created as a population diminishing act, or whether it was an outgrowth of other careless activities of the scientific community.

This Awareness indicates that it appears that this is a deliberate creation, yet this Awareness indicates this appearance is not absolutely certain or clear, and therefore *It* hesitates to suggest it was absolutely deliberate. There are many factors in today's world that allow for the creation of new expressions in areas of disease.

This Awareness indicates the factors of depleted immune systems based on antibiotics use becoming less effective, and the creation of stronger bacteria as a result of antibiotics mis-use; these factors, along with so many others, can create situations that could be part of a scenario which looks deliberate, but which might have come about either through carelessness or misunderstanding by some doctor, immunologist or other researcher.

This Awareness indicates this will become more clear within about 6 weeks.

THOSE "ASTEROIDS" STRIKING JUPITER:
WILL EARTH SUFFER DISASTERS ?

QUESTION:

Does Awareness have any new information on the comet Shoemaker-Levy 9, which is supposed to strike Jupiter this July. There's been quite a bit of information being put out that this is going to have more repercussions on earth than has been indicated. One piece of literature says that "It will create tidal waves, earthquakes and weather calamities here on earth, according to a Greek astronomer, Dr. Nikos Tokapolis, and Japanese physicist and space expert, Hiro Ukazumi. They believe that if people take precautions, the loss of human life may well be under 100,000. Awareness has not indicated there would be any physical effect on the earth. Does *It* see any of this information as being valid, when this occurs?"

COSMIC AWARENESS:

This Awareness indicates that it appears there may be a discoloration of the atmosphere, the sky turning as a kind of reddish color for some short period. This Awareness indicates *It* does not see great tidal waves, but *It* does see a potential for frequencies being altered enough to create an astrological influence that should be perceptible, in regard to Jupiter having greater potential and strength during this time period, so that those doing charts would have to double the strength of influence from Jupiter to get reasonably clear or accurate readings. This Awareness indicates it appears the influence would be more favorable than unfavorable.

This Awareness does not see the tidal waves and negative events occurring as suggested; *It* sees strong vibrations and psychological effects on human consciousness, a kind of psychological effect that may occur, wherein entities become more sensitive to the cosmos and to life itself and consciousness, whereby entities may even take on a greater sense of well-being.

FOLLOW-UP QUESTION:

One writer suggested that it's very possible that the after-effects, which might not show up for some time, would create so much dust and debris that it could actually obscure the sun and create another ice-age here on earth. Is there any possibility of that happening?

COSMIC AWARENESS:

This is very unlikely because Jupiter's crust is not likened unto earth. It is a combination of hydrogen and helium and the closer to the center, the heavier the hydrogen and helium, and it becomes liquid as it progresses toward the center. The crash of these substances into the surface of Jupiter will be such as to penetrate deep into the mass of Jupiter.

It is possible that this mass of hydrogen and helium could catch fire and start a new sun; it is highly unlikely that matter such as rocks and dust would be thrown into the atmosphere because the surface of Jupiter is not covered with dust and material particles in the same way that is found on the earth or moon.

This Awareness indicates that many of your scientists also perceive the event as being only visible with telescopes and that earthlings will not even know anything happened. There appears to be a multitude of wide and varied apprehension as to what will occur. This Awareness suggests *It* sees mostly a vibratory occurrence that will affect consciousness on earth, awakening the masses to a higher understanding of things.

INCOMING REPTOIDS, THAT 'COSMIC STORM' AND DAN QUAYLE

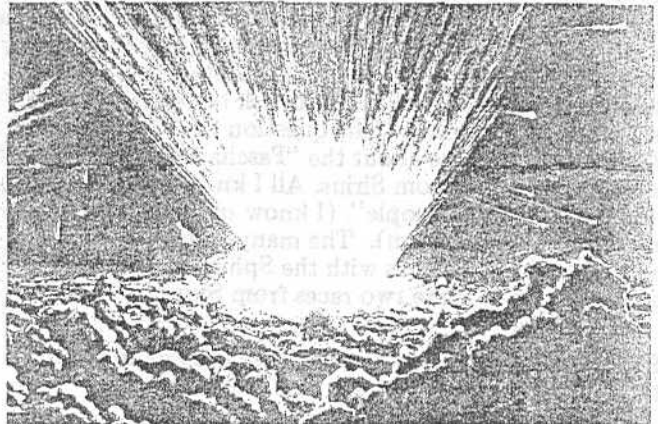

CLOSING MESSAGE:

This Awareness indicates that whereas the world is expecting the asteroids to strike Jupiter, this Awareness has suggested these are space ships and that the striking of Jupiter by these "asteroids" as that which is an action from earthlings as an attempt to destroy these space ships before they reach earth.

This Awareness indicates that the asteroids being destroyed at Jupiter would prevent a further takeover of this planet by those incoming Reptoids. This Awareness indicates that by calling them asteroids and saying that they are crashing into Jupiter, the acknowledgement of incoming aliens and their arrival are both negated and avoided so that people need not even know anything occurred relating to aliens.

This Awareness indicates that you may recall that approximately 3 years ago, Dan Quayle was put in charge of what may be termed the "asteroid watch," and this Awareness indicated that it was his job to keep track of alien space craft coming toward earth from the direction of Orion, between Orion and Jupiter. This Awareness indicates that these are seen as the so-called asteroids.

This Awareness indicates that the plan called for Element 115 to be used to destroy the incoming craft. This Awareness indicates that a practice explosion occurred on Saturn in what was called a "cosmic storm;" this being a plutonium explosion of great proportion,--this being a rehearsal for what is to come near Jupiter.

This Awareness indicates that the success of this operation will determine whether the earth becomes free from extraterrestrial domination by these Draconians or whether it eventually will be dominated by them. This Awareness indicates of course, there are still other potential rescuers, if this does somehow fail to stop these entities.

The Law of Gratitude is given.

ED's Note: For more information on the Draconian Reptoids, please refer to the following issues of "Revelations of Awareness"--\$3.00 each from CAC. Please note: the last two numbers indicates the page).

COSMIC AWARENESS:

This Awareness indicates that these entities had some role in the early Egyptian era and were in part the focus or reason for the cat worshipping societies of Egypt; these entities being such that they were seen as gods. They also had earlier contact in Atlantis and were involved in the genetic engineering activities of Atlantis that helped to create the common household pet: the cat of the domesticated nature.

This Awareness indicates that the entities you refer to as incarnate of the cat people tend to have a certain kind of grace, and in many cases have reincarnated in physical form numerous times, but their background may reach back into these cultures that come from Sirius. This Awareness indicates that there are also cultures in Sirius that relate to the serpent and there is, beyond that, a connection between the cat and the serpent at Sirius in its earlier history, which is one reason why the cat has such graceful movement that is reminiscent of serpent movements, especially in the tail.

This Awareness indicates that in other words, the cat and the serpent have certain genetic ancestry. The serpent, of course, was not always without legs; that it became legless on earth as a result of certain interferences by the Sirian Enki, with Enlil's experiments, and that this became the basis for the story of the Garden of Eden.

FOLLOW-UP QUESTION (VIKKI):

My recollection of her first question was also an aspect of a highly evolved form of being who chose to incarnate as cats, and that cats sleep so much that they would leave their bodies and communicate with each other while the animals were physically apart from each other. Is there anything to this?

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that cats are capable of sleeping 15 hours, and even longer, daily, and therefore the physical body of the cat is simply likened unto a landing pad, and most of the cat's life is lived out of body or in dream-states elsewhere. Their basic life on earth as that which may be a third of its existence on earth, because two thirds of its existence, when sleeping such long hours, is experienced out of body or elsewhere in other realms of consciousness.

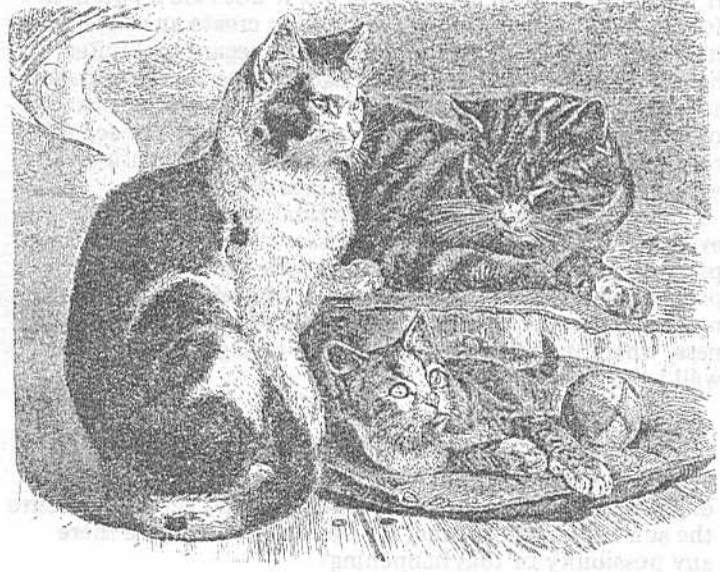

THE CAT PEOPLE FROM SIRIUS
(Why Cats Snooze So Much)

QUESTION:

Some time back, Reverend Maria M., in Oregon, sent in a question about Cat People, and somehow it got lost in my stack of files somewhere, and Vikki wanted to get information on it, so she wrote Maria to ask the question again, and Maria writes back: "The question to Awareness was: What could It tell me about the "Paschats" and the "Crystal People" that come from Sirius. All I know is the Paschats were a race of "Cat People". (I know of many who are incarnate in human form). The many statues in Egypt (part cat, part human) as with the Sphinx is said to be representative of these two races from Sirius."

She wants us to ask Awareness if It could expound on these Crystal People and the Paschats.

HOW DO CATS COMMUNICATE?
(How To Learn Mental Telepathy)

11.

QUESTION:

How do cats communicate in that state? Is it like telepathy? Or do they have a language...

COSMIC AWARENESS:

This being mostly telepathic. This Awareness indicates that if you yourself were unable to speak or if you chose not to speak for a week or a month, and your mate chose not to speak for a week or a month, you would learn to communicate your needs and wishes in other ways than spoken or gestured language.

Your looks, your movements would create a language to indicate a need or wish so that as you walked in a certain way or direction, or as you moved, your mate would sense that it is an indication you are wanting to do something and these body movements become messages.

This Awareness indicates that this becomes the first stage or step toward telepathy. Gradually you begin to sense the feeling of the other, and you feel the needs of the other in such a way that you can sense the entity is hungry or is desirous of something, and gradually, by focusing on this, you begin to sense something more, perhaps something very precise in terms of what the entity wants or needs, and no words need to be spoken.

The fact that humans have learned to speak has given them so much of a tool that they have been able to stop using the telepathic abilities they have and rely strictly on the verbal communication. This Awareness indicates however, the animals do not have that advantage. They do not speak, so they must communicate telepathically.

Animals generally know what humans are thinking. If you go to a store and bring back cat food, they generally sense it. If you go to the store and don't bring back cat food, they may simply sleep on or not pay any attention to you when you enter.

This Awareness indicates that there are ways by which you could train yourself to become more telepathic simply by ceasing to speak, or talk or use hand-gestures. Likewise, during such moments wherein entities for long periods of speech deprivation exist in close proximity, they are very likely to start hearing words within their own mind, unspoken, but heard as those spoken internally from the other person, indicating a kind of message, and the entity then will indeed be experiencing telepathy.

This Awareness indicates one of the quickest ways to develop telepathy would be to stop talking totally and stop listening to people who talk, or stop listening to devices that talk, so that those around you and you yourself live in silence but still function as entities trying to meet each other's needs.

BEFRIEND A CAT AND ALL CATS BECOME FRIENDS!
(More on Vikki T's Feline: Kitty H. Cat)

FOLLOW-UP QUESTION (VIKKI):

I noticed a rather dramatic change occur after Kitty H. Cat adopted us, or me, but after the rapport was built up between me and a particular cat, that it seemed like every other animal, particularly cats that I didn't relate to before, behaved differently afterwards. It's like once the rapport was established in this one case, it, by osmosis, went out to all the other animals. Is there something to this?

COSMIC AWARENESS:

This is in the affirmative; that the cats have a telepathic communication with each other and when you form telepathic communication with one of these cats, the others become aware of it very quickly, and look at you very differently. The rapport you have established with your cat is basically telepathic.

You can sense its needs, you can sense its moods and feelings. You need not hear words from it, although, if you were quiet and attentive, the moods your cat experiences could be interpreted in your own mind as words and it would be as though the cat had spoken to you telepathically, although the cat itself does not send words to convey its moods.

CAT PEOPLE AND DOG PEOPLE AND MUCH MORE!

(Try to Avoid Them During Mating Season!)

QUESTION:

Awareness, it's been said there is at least one planet where there are entities that are embodied in a human form, but have a dog-type face. Is there also a planet or system where there would be a sort of a human, but with a cat head?

COSMIC AWARENESS:

This Awareness indicates that this appears to be in the affirmative, but that the face is not quite like that of a cat. It is more likened unto that of a human with cat ears. This appears to be related to a hybrid or mutation between human and cat genes and is seen as being a planet in the vicinity of Sirius, in a more remote area of the Sirius star system.

This Awareness indicates that this planet does not appear to be highly evolved technologically, but that the inhabitants appear to be compatible with each other, and relatively peaceful most of the time, except during mating season.

CLOSING MESSAGE:

This Awareness indicates that there are more things in heaven and earth than are ever dreamt of. This Awareness indicates that there are more unusual things than can even be discussed throughout this universe which is teeming with life of all types. This Awareness indicates that for those who have minds that are open, all these things make sense.

**KITTY H. CAT —VIKKI T'S
ATTACK CAT AT THE CAC OFFICE**

Behind the snoozing cat, incidentally, is the famous 4 foot high painting created by Jon Strongbow years ago. It tells the story of how the newsletter is created.

At the top the Christ Consciousness speaks through the Interpreter Paul Shockley, made possible by the energies of his former mummification unfolding like an onion.

Tape recorders record the messages from Cosmic Awareness. Then the CAC staff, through keyboards and printing press, put together the messages in the form of the newsletter which you receive by mail.

This full-color painting, which includes Tarot-like mystical symbols, has been the centerpiece of the CAC office.

All these things are possible, but for those whose minds only believe what they can touch, see, taste, hear and feel, all of this talk of extraterrestrials and life on other planets is totally out of their range of comprehension, because they cannot touch, taste, hear, feel or see that which they have not yet experienced.

HAS A GREAT OPPORTUNITY BEEN LOST ALREADY ?

(Running Scared From Linda Thompson's Crusade)

6/14/94

OPENING MESSAGE:

This Awareness indicates the year as being filled with change, opportunities and also pitfalls in such a way that the movements in presenting great opportunities, also presented a great apprehension for entities. It appears that many of these apprehensions are such as to cause a loss of many opportunities.

This Awareness indicates that energies are changing during this time period, opportunities are being shifted and lost. Whether there will be another opportunity is unclear. This Awareness indicates however, it may be looked upon as a time of great uncertainty and many of the events may help to bring about greater awareness, even if the opportunities are not seized upon.

This Awareness indicates that indeed more and more people are becoming aware of things that have not been clearly expressed to them and this awakening of the masses may be the greater purpose for this energy movement that has occurred.

This Awareness indicates the more awareness among the masses, the greater the chances for future freedom. This Awareness indicates however, that the opportunities for overcoming the hardships that have been projected on humanity may be lost in the coming months by too much apprehension and not sufficient cooperation among entities.

This is not referring to your organization, but referring to all of the entities who know what is going on, but are apprehensive about doing anything. And these opportunities, when lost, may not present themselves again. This Awareness indicates that it is understandable how entities can be apprehensive about taking a stand, however this Awareness does see this as being time where the window of opportunity is closing, and that because sufficient response was not forthcoming among many of the groups, the closing opportunities may create a new situation in which such windows will not be opened again and entities will indeed be forced to experience the tribulations that are programmed for this time.

This Awareness indicates that if such is the case, as it appears to be, then there needs to be a different kind of understanding and planning for future activities. This Awareness suggests that entities will look upon this time as having been a great opportunity lost, but one of peaceful laid-back existence wherein the avoidance of conflict and confrontation was a way by which they could preserve the status quo a little longer.

This Awareness indicates that it will be seen as similar to that action of Chamberlain at the time of the Munich conference in trying to forestall World War Two.

GETTING LINDA THOMPSON ON RADIO AND TV
(Awareness Does See the March on DC Taking Place)

FOLLOW-UP QUESTION

Well, the main thrust of the Linda Thompson thing is to try to give the information to the talk-show hosts on television and radio, asking them "Is this information for real?", and "You need to get this women up here to explain it!", but so far, there doesn't seem to be any that are having her on such shows.

COSMIC AWARENESS:

This Awareness indicates that the mainstream of the media is too concerned about their own security and the welfare of their shows to risk taking such a chance. This Awareness indicates for the most part, the media is already bought and sold, and Linda Thompson would be a strong liability for their future.

This Awareness indicates that there was an effort for the Hildebrand people to speak on the Pat Robertson Christian network and it was agreed that they would speak on this show, but this too fell through. Apparently some kind of interference caused them to change their mind.

The information has been generally kept out of the mainstream media; the opportunities for awakening the masses are only found in small groups, but even this has accelerated through the many different things that are occurring, so that entities, more and more, are being informed, and this appears to be the main outcome of all the efforts of all these many people, and the risks they have taken.

This Awareness indicates it appears that perhaps humanity is more willing to suffer enslavement than to risk the comfort of losing their job, their security, their routine, and the comfort zone they have become used to. Perhaps this is but the way by which humanity will indeed become enslaved, and perhaps this is necessary for the lessons that need to be learned.

This Awareness does not see the point of entities taking extreme risks individually, at a time wherein everyone wants to back off and keep things quiet and not rock the boat. This Awareness indicates that the error with Linda Thompson and her approach is that she apparently hasn't received or communicated enough with others to assure that others would side with her before she stepped out upon the limb.

She was courageous in her decision, but she was foolish in not making sure that there were others ready to step out on the limb with her and this entity may indeed find herself standing alone with but a few followers who do not know what they are doing.

This Awareness indicates it *does* appear that the march by this entity will take place, but unless there is a great groundswell of support that occurs relatively soon, it does not appear that her efforts will amount to anything of substance. There is the possibility that more entities will become knowledgeable from the events and will ask questions or will somehow hear about the events, but it is certainly not likely from the movement of energies seen at this time that there will be a major change in direction within this country from this entity's efforts.

Linda Thompson May be Stopped Before September

This Awareness indicates in fact, there may be a kind of pre-emptive strike against her and her efforts before she can move to do her march. This Awareness indicates that most of the Patriot Groups backed away from her and were more concerned about keeping their Patriot Groups supporting their own organizations than rallying around this action.

This Awareness indicates that this is not a criticism of such Patriot Groups; it is simply a fact that the entity Linda Thompson did not have sufficient backing before she made her move. She would have been wise to make contact with all those Patriot Groups to assure that they were coordinated and in harmony before she chose to set up an ultimatum of that nature.

This Awareness indicates that whatever support she may have will either grow on its own or will diminish upon discovering that the Patriot Groups are not working with her. The entity may have assumed that all patriots would join her in this action, but many of these entities saw her approach as being not properly planned or understood in accordance with the way they view the needs for getting back to a constitutional society or a republic.

If entities seek to have an effect, they need to have agreement. If entities seek to make a move and have others support them in that move, they need to communicate with those others prior to making their move and this appears not to have occurred in many levels of these contact points of Patriot Groups.

The entity may have had considerable backing from some of the military, but unless this was clearly conveyed to the Patriot Groups, the Patriot Groups are not likely to join in such extreme action; therefore, it weakened her position because she was counting on a mass flood of support from grass-root groups and Patriot organizations.

This Awareness does not see this as being nearly the potential for the effects she sought to achieve, mostly because she did not move gradually enough to build support before creating an ultimatum that in itself is quite radical. This Awareness indicates that again, the greatest good to come out of this is

the education from the lessons that will be learned and from the information that will be shared and spread because of this.

This Awareness indicates the average persons in this country, those working at their jobs, are likely to watch this event, if it is even made available to them through the news media, and see it as something of an aberration that will to them, seem bizarre and they may only consider it in regard to how or if it could affect their job security or their personal home and security of their comfort and family needs, and if it does not, then it will simply be observed as a kind of news item of interest.

This Awareness indicates there are quite a number of entities who are gradually awakening to what is happening in this country, but at the same time, there are very few who are willing to or who have the courage or the foolishness to step out of the crowd to support someone who seeks to make a change. This Awareness indicates of course if martial law is declared, the chances for the Hildebrand group to ever make any further headways will be nullified.

STILL LOTS OF TIME TO GET IT TOGETHER!

(Martial Law Being Declared is Still Possible)

FOLLOW-UP STATEMENT:

Well, there's still three months to go before Linda Thompson marches on Washington!

COSMIC AWARENESS:

But this Awareness does not see much occurring in this direction; that there could still be some support for her, however the Patriot Groups themselves are not going to stick their necks out unless it looks like a fantastic movement is occurring; at which time, they will come forth and want to appear to be leaders in such a movement.

This Awareness indicates that it is still too soon to understand clearly the outcome of the energy that is in movement. However, this Awareness does not as yet see a great groundswell of action in this regard and *does* see counter-actions being prepared through the preparation for war with Haiti and North Korea, which would require the removal of troops from this country, possibly in very swift actions, and also the potential for the "natural" disaster that could require or excuse the country for declaring martial law and national emergency, which could indeed create a totally new excuse for bringing in foreign troops from the United Nations to deal with the crisis that a national disaster might call for.

This Awareness indicates that these movements are energies that are very strong in appearance. The energies supporting Linda Thompson at this time are very weak in appearance. Perhaps things will change in a month. Perhaps the comet or asteroids on Jupiter will make a change in consciousness that awakens the masses. This Awareness indicates that indeed there are certain energies in this direction, to cause the masses to awaken, to become more aware of tyrannical energies.

This was discussed in earlier readings and this energy is still in movement and it appears this energy will become stronger after the July Jupiter event. There is, as you say, still time, and entities may yet awaken to such a degree that they become aware of What Is happening on earth to help bring about a greater chance for future freedoms to continue to thrive.

This Awareness indicates it would only take a few shows on television in which ministers begin to speak of these things to awaken many people very quickly, and if this occurs, or if something occurs in the media, whereby on talk-shows or on television or through publications, the information relating to the situations surrounding Linda Thompson

and the Hildebrand people; if all this were to start coming out, it could indeed start a re-awakening of certain enthusiasm and interest among the masses to where it becomes a movement likened unto the resurgence of UFO interest among the masses that occurred in the past several years, so that even though the main media tries to keep it quiet, tries to down-play it, it still spreads, it still draws interest.

It is still a possibility that something will come from these efforts to help preserve freedom for the masses, for the children of the future.

MANY ARE IGNORANT OF THEIR BONDAGE (More on the Celestine Prophecy)

QUESTION:

Tom K., of Santa Clara, California, sent in a letter. (He's been transcribing the early Awareness readings and putting them onto computer). I think he captured in this statement, which wasn't a question from him, but a question from me; I think he's captured the essence of this thing.

He writes: "Transcribing the Unified States of Awareness material was indeed interesting and raised a multitude of questions, but the bottom line seems to be that you can't release entities from bondage unless they somehow realize they are in bondage, and also, I seriously wonder what the "average" person on the street would do if released from governmental control which they have known for lifetimes. How many are sufficiently ready for managing their power and freedom without wreaking total chaos? I think we have to release magnitudes of contention with each other, our structures, and the world before that new order could be accomplished without the destruction of anarchy. Maybe in the Parallel Universe..."

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative. That it will likely be from entities learning that their energy does not need to come from each other and that they need not steal from one another to find the energy they need. Those entities who gradually understand the principles that have been given by books such as *The Celestine Prophecy* will begin to have an effect in the movement in consciousness for an evolving spiritual understanding that is necessary before entities can truly understand and appreciate the freedoms that they have had and that they can use.

RELIGION AND SEXUAL CONTROL OF ENTITIES (Is There Any Value at all in Being Celibate?)

QUESTION:

A question from C.L. "Though most of the world's religions have some positive teachings about sexuality, they also have negative ones. This raises two questions: (1) Is the anti-sexuality stance a result of alien population control?, and (2) Is celibacy so highly praised among world religions today, a result of anti-sexuality stances, or is there some independent value in celibacy?"

COSMIC AWARENESS:

This Awareness indicates that there are two major factors in the religious teachings that seek to have entities control their biological, sexual impulses. This Awareness indicates that the most obvious of course being that without such teachings, humanity might simply become overindulgent in sexual activities, having no guidelines or traditions at all to use for standards of appropriateness.

Wanking the Willi Not Taboo in Thailand

This Awareness indicates that an example of this was once given to the Interpreter through an associate in the army who had been in Thailand. The entity showed the Interpreter a photograph of a Thailanese young man

This Awareness indicates that one of the reasons that entities in this nation were able to claim freedoms is because there was a wilderness that they could conquer and that conquering of the wilderness became the main outlet for their aggression at a time when they were free to express themselves. This Awareness indicates without a wilderness to conquer, many entities with excessive freedom would simply turn on each other, and this would not be beneficial as an outlet for personal freedoms.

This Awareness indicates that it may be that those who are ready for freedoms are simply ahead of their own time and do not have a proper environment for experiencing the freedoms they seek. This Awareness indicates that there are even problems with those entities who had their freedoms curtailed in East Germany, who were not really ready for freedom, and in Russia, and wherein they suddenly have freedom to express themselves in ways that were once forbidden, many of these entities chose a more negative form of expression.

Yet, there were also many who express themselves positively and who have benefited greatly from their new freedom. The crime rate went up in those countries when freedom became available, but there also was great benefit for many entities who were ready for freedom, who were ready for responsibility.

It is a question of whether entities should be kept under tight control to avoid any potential for misuse of freedom, or whether entities should be given the opportunity for freedom and curtailed only when they misuse the freedoms that are given. This Awareness sees this latter choice as being the proper way; that you give entities enough freedom or give them all the freedom they can handle, and when they show they cannot handle freedom, then you curtail the freedom you have given.

This Awareness indicates in the case of some entities where it is clear before hand that they will not be able to handle the freedom, you do not give it. But for those who can handle freedom, this Awareness suggests it be given.

walking across a field masturbating. The entity said that it is very common over there for these entities to do this. This Awareness indicates this, incidentally, was approximately 40 years ago.

This Awareness indicates that had the entity been influenced by some of the major religions that created taboos against this kind of behavior it would not likely have been an incident at all. This Awareness indicates that in other words, certain taboos through moral teachings, or what in those days was considered social code of living, although not under that title; the morals of religious teachings served as a social code of living for entities in the past to help keep some kind of order in society.

Hebrew Taboos Always Broken

This Awareness indicates that this is the most obvious and basic reason. However, there was a deeper reason that was not so well-known: If entities are given a taboo and the taboo is such that it is contrary to the very nature of an entity, the entity will surely break the taboo at sometime or another. Thus the Hebrews were given a great number of

rules to follow. Some of those rules were even in conflict with one another so that the Hebrew could never follow all of the laws of God as handed down. There would always be some rule that was being broken.

This Awareness indicates that in the case of sex laws or rules in ancient times, entities in breaking the laws always knew they were guilty and therefore, had something to hide, plus they had these biological drives which were listed as taboos, sins. This Awareness indicates that this served to keep entities always in a sense of incompetence in relation to their divinity or to the priesthood.

This Awareness indicates that the other effect was to make entities very conscious of the need for marriage and remaining with marriage in order to have sexual relationships, and to bear children; the purpose being to increase the population. The need to increase the population served the purposes of the priests and the religion, because the more children being born, the more the religion would grow and spread from families to generations that followed.

This Awareness indicates that if there were no sexual taboos, entities could simply express themselves sexually, would eventually tire of the matter, and the drives would not be nearly so strong. But the fact that there were taboos caused the entities to think more about sex and develop stronger sex drives. In other words, it was a way of causing these sexual energies to evolve more strongly in the human race by trying to control them.

The more an entity attempts to control the sexual drives, the more the energies grow and develop. This Awareness indicates that further reasons for the taboo have to do with the creation of aggressiveness. In a society where sexual taboos are more strict, entities are more easily controlled by authorities who allow these entities to have-escape only under certain conditions.

Why Military Controls Sexual Desires of Soldiers

In other words, if an entity's sexual energies are inhibited for some time, the entity can be very aggressive in his or her behavior and can be channeled toward an enemy and the entity becomes more ferocious. Thus, sexual inhibitions help to make a more ferocious soldier and when the battle has been won and the entities want their soldiers not to be so aggressive that they would fight among themselves, they usually find ways, they usually find ways of giving them some kind of release for their sexual energies.

In military situations, they often give them R & R, or rest and recreation, whereby they have passes to go to some city or some place where they can be sexually relieved. This Awareness indicates that this is common even in today's military. This Awareness indicates that it was most common in earlier times where soldiers would be rewarded for their fighting by being taken or directed to the temples of love, or to places wherein women were kept captive for concubines for the military.

This Awareness indicates that this use of the sexual energy to control entities for military purposes or for making the more ferocious fighter is commonly understood, even in today's world. This Awareness indicates that the entity Wilhelm Reich made a lifetime study of this showing that the gun and the penis had a relationship metaphorically whereby an entity could channel their sexual energies into fighting, and that fighting could become more ferocious if the entity had no sexual outlet.

This Awareness indicates if there is any further question on this subject that it may be asked.

WHAT IS "SPIRITUAL" ABOUT BEING CELIBATE? (Skoptsis and Castration: Giving it All for Jesus)

QUESTION (WIL. B.):

You did mention celibacy, Awareness. Celibacy is often equated with a spiritual path. Could you make comment on this please?

COSMIC AWARENESS:

This Awareness indicates that the concept of celibacy whereby a priest or an entity remains either virgin or ceases to have sex through some vows, as that which forces the entity to change his or her way of thinking, to get away from family orientation, or to keep the entity from indulging in activities that would detract from his or her duties as a priest. That was the original intent.

Prior to this, was that part of the religious dedication whereby entities would go further than mere celibacy, whereby they would castrate themselves, or in some cases, remove their genitals altogether. This created for them a sense of total dedication to something that could not be sidetracked by sexual interests or obsessions so that dedication to their other purpose was much more pronounced and devoted.

The Self-Mutilation of the Skoptsis

This Awareness indicates that the entity Josephson wrote of this when discussing the Skoptsis, that there was a secret order dating back to the time of Jesus wherein these entities mutilated themselves in order to be more dedicated to the teachings of the Christian doctrine, so that they would not be distracted by sexual energies. This Awareness indicates that this appears to be one of the basis for this approach or concept of celibacy and non-sexual activity being part of a spiritual life.

This Awareness indicates that the main concern at the time was not that sex was somehow evil or demonic, but that it was a distraction from one's purpose, and if entities were to dedicate their lives to working for Christianity, they had to totally be void of sexual distractions, for the sexual distractions could lead to variations in problems and conflicts for the priests in different ways.

This Awareness indicates that of course, the Catholic church did not stress castration for its priests, so instead they made the rule relating to abstinence from all forms of sexual expression, and this abstinence then became looked upon as something associated with the spiritual path. Yet, even the Catholic church encouraged large families.

THE TRAGEDY OF SELF-ABUSE.
(Insanity)

This Awareness indicates in the case of the Skoptsis, particularly those in Russia, wherein they encouraged castration in order to keep entities spiritual, or in line with their chosen purposes, they almost wiped out their entire religion at one point because they had so many people in their religion castrating themselves before having children, and thus, there was no next generation to carry on the church or the religious beliefs of the Skoptsis society.

This Awareness indicates that later they changed their rules to allow two children per family before letting an entity become castrated. This Awareness indicates in the case of the Skoptsis, even the women were encouraged to be involved in self-mutilation.

FOLLOW-UP QUESTION (WIL B.)

So Awareness, there is no inherent spirituality in taking a celibate path in life?

COSMIC AWARENESS:

This Awareness indicates that this is only valuable in the sense that if one can and needs to concentrate on something else and does not want to get involved in the romantic aspect of life, one might accomplish certain things along the chosen path more easily than if one has a strong sex drive that he or she yields to which leads to distractions from his or her chosen purpose.

ED's Note: for more on celibacy, please refer to 'Revelations of Awareness' No.80-21.. For more on Skoptsis, please refer to issues 82-12, 82-10, 83-1; \$3.00 each from CAC.

PLAYING GOD WITH YOUR COMPUTER

(How Universal Consciousness Keeps Expanding)

QUESTION:

A question from Jeff M., Oceanside, Calif. He writes: "Here is a question. I recently signed up for access to a computer network called The Sierra Network, TSN. On this network, a person can play games and interact with other people from all over the U.S. What is unique about this network is that everything is graphical. When I use my computer and modem to log in to the network, I log in as, and other users see me as, a cartoon persona which I have created. The other users can click on my name and view a picture of me which I have created. I am able to manipulate how I appear: to include hairstyle, skin color, eye color, clothes, facial hair, sex, hobbies and gaming expertise. This means I can log in as, and appear to others as male or female, young or old, white or black, etc.

In using this network, I came to the realization that this seems to be a somewhat accurate description of what reality is. If I log in to the network as a female called Amy, and pretend I am a female and interact accordingly, am I not like God or the Universal Mind? Would I, Jeff, the user of the network, want Amy to worship me? Of course not. What if I forgot who I really was and thought I was Amy instead of Jeff pretending to be Amy?

To take this further, what if I could log in to this network with hundreds of different persona, male and female, black and white, open-minded and close-minded, etc. simultaneously? All of these being but fragments of the real me, Jeff. And, what if these fragments of myself, or what if I, pretending to be these fragments, forgot who I really was and became disconnected from myself?

On the network, I, as Amy, could say I am really not Amy, but Jeff pretending to be Amy. Or, I, Amy, am just one aspect of Jeff and am much more than just Amy.

16. On the other hand, what if I logged in as Joe and as Joe forgot I was really Jeff pretending to be Joe? And as Joe, I said, "What do you mean I'm really Jeff? Nonsense! I am Joe and Jeff does not exist!"

Would Awareness consider this an accurate description of reality? And, if so, since on the computer network there are many users logging in as different entities, does this mean that I, Jeff, am a fragment of a larger entity who is logged into this reality with other human beings besides myself? And is the larger entity or 'overmind' or 'collective' part of a larger 'collective mind'? And, if so, how many collectives are there? How many levels before reaching the "One Mind" that started it all?"

COSMIC AWARENESS:

This Awareness suggests this is an exceptionally interesting analogy. This Awareness suggests that it is a way of seeing the one self either as the Higher Self, or from the eyes of the Higher Self, looking down upon one's facsimile or created self. This Awareness indicates that in this case, you create an entity which is your representative, the representative of yourself, much the way a Higher Self will create a being to serve as a physical replica or agent of that Higher Self to experience within certain situations in life, that which is called a lifestyle.

This Awareness indicates that in your game, the lifestyle of your character, or the game of your character in that creation, is likened unto a physical life of an entity on Earth in the analogy. This Awareness suggests that the analogy can move into more levels; the Higher Selves of individuals can go into collective groups and these collective groups begin to serve as an Oversoul of certain groups or cultures of people on Earth.

This Awareness indicates that as these collective groups or Oversouls are experienced or move together in their collective efforts, governing or influencing the individuals, it becomes likened unto a family of souls or Oversouls and these again can be perceived as having lords or Oversouls above them, in a way that governs the more broad and general collections of entities.

This Awareness indicates that thus you have the Earth governing force, or lord or Oversoul, which beneath would include the various national or ethnic groups in their governing bodies, which in turn break down into different branches of groups and these in turn break down into further sub-levels which then begin to break into perhaps individual families, which in turn breaks down to individual members and the individual may be seen to break down into organs and cells making up the organs, and each of these organs, these governed by a body lord, a lord of the physical body, which is the lord of the individual's consciousness, centralized in the brain, which in turn breaks down to govern the organs of the body wherein there is the governing consciousness for each organ to lead it to do that which it is designed to do, and these of course can be broken down to their respective molecular structures and cells and eventually to the atoms that make up the molecules.

This Awareness indicates that with this kind of understanding, you can perhaps grasp a general look at the make-up of Universal Consciousness, seeing that it keeps expanding and keeps going into a higher consciousness that serves as a kind of Overlord to the sub-parts, which in turn is a sub-part to still a higher aspect of consciousness.

This Awareness indicates that in such understanding you may also equate it to the physical realm so that you recognize the lordship of the solar system, the lordship of the galaxy and et cetera, even including universes, the various universes that exist out there in your reality.

This Awareness indicates that this, of course, takes in only that which relates to the physical reality. There are also the astral, mental and spiritual realities that have not been discussed. This Awareness indicates that with some small conjecture of the mind you may also recognize that these other levels accompany, surround or permeate the physical realities which you recognize and have their place also.

This Awareness indicates this relates to the old Hermetic axiom: "As above, so below." That there is a reflection of that above, below, and a reflection of that below, above. As levels change, each serves as a kind of mirror to the realities above and below.

In your game, you recognize by identifying with your character on screen that reflection of your real self in a different role, and yet that character on screen serves as part of your identity of self, even if it is only for a brief period of time and you see in that identity the concept of your own personal self and role-playing in this physical life as being very similar in nature, a kind of parallel or reflection.

This Awareness indicates of course, the situation is not an exact reflection, but the concept reflects almost exactly from one level to another.

(FOLLOW-UP QUESTION):

His question: "How many levels before reaching the One Mind that started it all?", can that be answered?

COSMIC AWARENESS:

This Awareness indicates this is in the negative; it cannot be answered because the mind of an individual is capable of fragmenting and the entity can be fragmenting into different levels of identification, so that for one entity it may be different than for another.

One entity, for example, may be in perfect attunement to his or her own Higher Self. Another may be experiencing schizophrenia or other fragmentation, so that the entity does not even recognize a single individuality, but may be experiencing a fragmented personality and characterizations and that entity could not receive the same answer as to how many levels it would require between where he or she is and where he or she could go, as would be appropriate for the other entity who is identified, for example, with Universal Consciousness or with his or her own Higher Self, or even one who is simply self aware.

This Awareness indicates that this is assuming that two individuals may have different levels of consciousness as their personal expression. It does not take into account the fact that there may also be other fragmentations higher on the scale or lower down to deal with, in counting these levels of fragmentation.

The lifestream or chain of consciousness, in other words, leading to one individual, may be shorter or longer than the lifestream or chain of consciousness leading to another individual. Likewise, the interpretation of what constitutes a level would have to be considered in answering such a question. The levels that range between an individual and the solar system may vary in accordance with how many groups of collective diversions occur between that entity and the solar system.

For the one entity, it may be that this entity's identification is with not only a family and religious orientation or church, and perhaps the social community, which would be three different levels, and a cultural grouping which would be four, and a state or national grouping which could be five or six, and further, into other groupings, before the entity even gets off the Earth plane to start

identifying with the solar system, the level of this solar system.

Whereas, another entity might only have a local family orientation followed by a sense of world community. Perhaps he is not identified with any cultural group or local church, organization or school orientation or anything like a neighborhood identification. The entity might for example, as a child recognize that he has a family and is on Earth, and may not have established any bonds for any sub-groups between the Earth identification and the family. If so, then the entity might have only two levels before leaping off Earth into solar system identifications. This Awareness indicates in other words, the mind itself is that which determines how many levels of splitting or fracturing or fragmentation occurs before eventually unifying with the *totality* or *Universal Consciousness* or the *Collective God Consciousness* that would be equivalent of the consciousness of all universes combined.

This Awareness indicates that if this has not clarified the answer to this entity's question, let it be restated and this Awareness will attempt to reply in a different way.

FOLLOW-UP QUESTION:

His basic question in regard to the Overmind, he writes: "And is the larger entity or Overmind, or collective, part of a larger collective mind, and if so, how many collectives are there, and how many levels before reaching the One Mind that started it all?"

COSMIC AWARENESS:

This Awareness indicates that the question may best be answered by another question: How many times can the mind fragment as it moves away from the One Mind, to become a fragmented aspect in consciousness?

This Awareness indicates that all consciousness is part of the One Mind or the Original State of Consciousness, but aspects can delude themselves into a belief of fragmentation or separation, and as a consciousness separates from the One Mind and creates a concept of that separation, it implies that there are two aspects of consciousness; that which was originally All One and that which is now separated from the All One, and this separated aspect can again split, and again and again and again, indefinitely.

How many aspects of separation exist in the concept of indefinite splinterings or fragmentations? This Awareness indicates that however many times one fragments one's consciousness is the number of times one needs to defragment and synthesize in order to get back to the original Oneness, and each fragmented state of consciousness will be unique to its own self.

Thus, there is no general answer for all entities. Each entity would have its own specific number of fragmentations to work through on its journey back to the Source. This Awareness asks if this has clarified the question?

CAN ONE REACH THE ONE MIND THAT STARTED IT ALL?
(More on the Lifestreams of Consciousness)

Yes, In a post-script, he writes: "Hope I didn't lose you in my explanation. Imagine finding God through the computer. (Smile). I'd like to ask Awareness if this program, this software of the Sierra Network, should be recommended to people who are in search of answers?"

This Awareness indicates that if entities wish to explore this further that they may use this as a suggestion of something that might enhance their deeper understanding of this concept. This Awareness indicates however, that even in hearing this entity's expose of the program, most entities should be able to grasp the problem and recognize the significance of the material without having to experience the full course and expense of involving themselves more deeply.

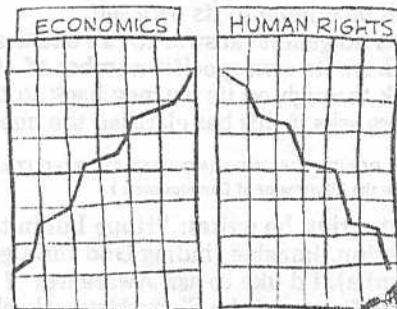

For example, an entity might sign up for this and pay the price and enter into the experience only to realize that they already know what they were looking for because it has been explained to them through the entity's question in the newsletter and they might feel somewhat disappointed that they did not get something more from their signing up for the program.

This Awareness indicates that it is likened unto an entity who travels across the country to discover a lesson and comes back to return and tell his friends what lesson he has learned. Is it then equally valuable for his friends to travel across the country in search of the same lesson which they have been told of by the original adventurer? This Awareness indicates if they really understood what he said, their travel across the country might not add anything new to the lesson that he shared with them.

This Awareness indicates on the other hand, an entity who does not have a strong imagination or who did not fully grasp the information given in this message might find that signing up for this program and playing the game and creating a substitute self on screen could indeed lead to some enlightenment about the concept of self, wherein they might recognize that their creation on the screen is likened unto their life on Earth, even if it is a different creation from themselves, so that they grasp the idea of a creator up there making them down here, on Earth, as a being which He or She, the Higher Self, puts through various experiences on Earth, even as do they themselves put their character on a computer screen through its various experiences on the screen of the computer.

If they don't understand this concept, perhaps they will understand it better if they actually go through the experience, and it is worth the effort needed to understand it. But if you have already understood the concept, the only value in signing up for such a program would be for the sheer enjoyment of playing the games.

For related information, please refer to 'Revelations of Awareness' Issue No. 88-02 (Talking to God With Your Computer); \$3.00 from CAC.

THERE'S A CERTAIN SYMMETRY...

Pancho/Le Monde/Paris

HOW TO LOOK THROUGH THE EYES OF OTHERS
(A New Meditation from Awareness)

CLOSING MESSAGE:

This Awareness indicates that the conditions that entities experience in their personal lives are often extremely unique and yet, each entity has a tendency to feel so familiar with his or her own unique life as to think that it is the norm. This Awareness indicates that one entity thinking his or her life is quite normal, because it is normal for them, would be extremely surprised to enter into the mind or consciousness of another entity and experience their life, even for a few minutes.

There is such a great difference between entities in terms of what makes up their lives, and yet most entities do not fully understand this or even think about it. This Awareness indicates even your closest mate has a life entirely different from yours, regardless of how similar and how close you think you are. It is sometimes beneficial for entities to glimpse the world from someone else's eyes.

This Awareness indicates that to do this, imagine yourself in an out of body movement, to walk up behind a person whom you choose to look out from, and in your out of body state, walk into the entity and look out at the world through his or her eyes. As you do so, consider all of the things, the activities, the behavior that you know of this person doing, so that you can visualize how it appeared when the entity did this or that, and what the entity was seeing at those times.

Doing this from a transpersonative point of view, you will find that you get more of a sense of the reality of that person than mere imagination. It is more than what you are imagining. You actually begin to sense the experience felt by the entity through whose eyes you look. This Awareness indicates if you wish to look further, you may wish to examine other experiences the entity had at various times of his or her life.

This Awareness suggests of course, it is ethical to ask the entity for permission to do this before doing so.

THE WISDOM OF AWARENESS

ON FOLLOWING THE PATH OF THE DIVINE

Wherein one's first priority is to follow the highest and the best, the most spiritual path available at any moment, then that entity is following the path of the Divine. The path of the Divine does not require that entities sacrifice themselves; the path of the Divine only asks that you put God first, put the Divine Forces first in your life.

This Awareness suggests that any entity in pursuing the spiritual path must continue to attend the personal responsibilities which he or she has obligated himself or herself to handle, until these obligations have been fulfilled; that to use the spiritual path as an excuse to avoid responsibility is in error.

SECRET MILITARY MANEUVERS CONCERN TO LOYAL AMERICANS

Foreign Combat Vehicles Spotted Across the U.S.

You haven't been seeing things. There have been a number of strange military-related maneuvers around the country lately.

EXCLUSIVE TO THE SPOTLIGHT
By MIKE BLAIR

The SPOTLIGHT has obtained irrefutable evidence that hundreds—perhaps thousands—of foreign military vehicles and armor are in the United States, including vehicles intended for use by the UN.

At the same time, President Bill Clinton has signed new Executive Orders, giving wide-ranging new powers to the UN to command U.S. military forces and delegating new powers to the National Security Council and the office of National Security Adviser to the President, a post currently held by Anthony Lake.

Hundreds of railroad flatcars bearing Russian military vehicles and armor and some UN vehicles and

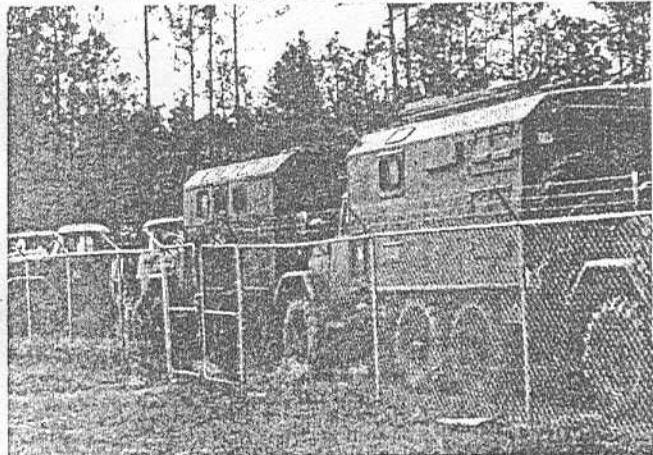

armor have been spotted in several states, including Montana, Colorado and Wyoming in the West and Pennsylvania in the East.

In addition, in Mississippi, hundreds of Russian-built vehicles, obtained from what was formerly East Germany and apparently being refurbished for the UN, are located in a massive depot. Many of the vehicles were designed for chemical and biological warfare purposes.

PHOTOS OBTAINED

The SPOTLIGHT has obtained photographs of railroad flatcars filled with Russian and UN trucks and armor spotted in the Western states, along with others taken of the massive depot in Mississippi.

The SPOTLIGHT has also obtained copies of bills of lading for Russian vehicles obtained for UN purposes from what was formerly East Germany, which have been shipped to the United States, landing at Gulfport dock facilities in Mississippi and driven to the depot, located three miles south of Saucier. (See WHAT Page 3)

Soviet chemical and biological warfare trucks and other vehicles, reportedly destined for the use of the United Nations, are parked in a special depot in rural Mississippi.

New Executive Orders Smack of Totalitarianism

Is President Clinton in the hands of the director of FEMA, which included the power to suspend

What Are These Vehicles Doing Here?

(Continued From Page 1)
and 45 miles north of Biloxi, along Mississippi Highway 49.

The depot is surrounded with a chain-link fence, topped with barbed wire, and guard dogs are reported to be used to protect the area from intruders.

A videotape taken of the area and obtained by The SPOTLIGHT shows dozens of the vehicles, including several chemical and biological warfare decontamination trucks that have been painted white, presumably for UN use.

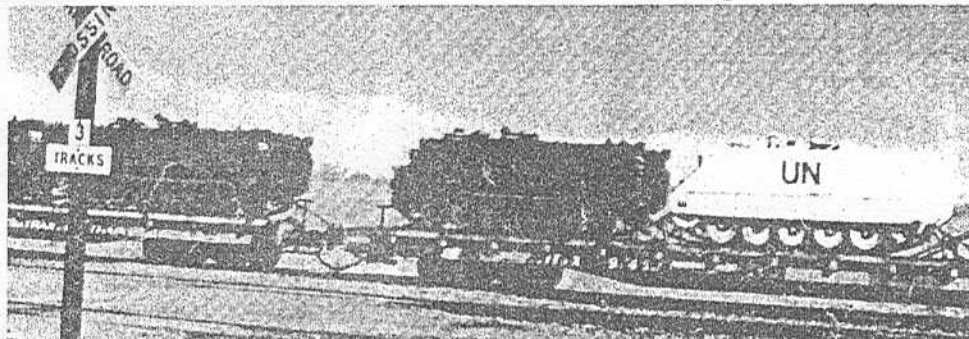

The bill of lading, indicating that the vehicles were obtained through a West German firm operating under the name of *Beesch Merkator*, lists dozens of Russian-built military trucks intended for UN purposes.

The vehicles include several varieties of Russian ZIL-131 heavy trucks, including some listed to be of the ARS-14 type, which are chemical and biological warfare decontamination vehicles, and two varieties of ZIL-157 heavy trucks.

OTHERS AT DEPOT

However, photographs obtained by The SPOTLIGHT of the truck depot near Saucier also include other Russian-built trucks, including some of what appear to be the MAZ-500 series.

A detailed report has been obtained that confirms a large road, about 35 feet in width, has been built to con-

Aboard a train spotted in Montana were armored personnel carriers, some of which were painted white and bore the insignia of the United Nations.

nect the truck depot with the Stennis NASA Space Center, located about 20 miles southeast of the depot near the Mississippi-Louisiana border.

There have also been reports that the vehicles are being shipped by barges on the Pearl River, which runs along the border of the two states, north to some unknown destination.

Late last March, a train with 100 flatbed cars bearing Russian-type jeeps, trucks and U.S. armored personnel carriers, some painted white with UN markings on their sides, were seen and photographed at a railroad crossing at Rye Gate, Montana, about 10 miles north of interstate Route 12, south of the easternmost

section of the Lewis and Clark National Forest, and about 60 miles northeast of Bozeman.

RUSSIAN ARMOR

On the train were Russian BMP-40 armored cars, loaded four to a flatcar. The BMP-40 was designed for urban warfare and as a rapid-assault offensive vehicle. Protruding from the vehicles' turrets could be seen short-barreled 75 millimeter cannons. The Soviets also equipped the vehicles with Sagger anti-tank missiles. The armored cars are built for amphibious use.

Also on the train were Russian UAZ-469B light, jeep-like vehicles, what appear to be more ZIL-131 trucks and KamAZ 5320 Russian trucks.

Some of the flatcars were loaded with American-built M113 armored personnel carriers, some of which were painted white and bore the

one heading south, to allow an eastbound train to pass.

While the three trains, all of which carried military vehicles, were stopped, they were guarded, according to the airman, by soldiers in black field uniforms. The three trains were carrying what he said were armored vehicles, some of which attracted his attention because they were painted white. Due to the darkness, he could not identify the vehicles as to type or origin.

Two days later, what was thought to have been one of the northbound trains was spotted on a siding at Sun Prairie, north of Great Falls, Montana.

Another reported sighting of a long train loaded with military vehicles was reported in Colorado at about the same time.

Meanwhile, five train-loads of armored vehicles have been reported

New Executive Orders

(Continued From Page 1)
operating under the order from

Chiefs of Staff Gen. Colin Powell, which "allowed U.S. commanders un-
