EVERYTHING YOU EVER WANTED TO KNOW ABOUT THE PHOTON BELT (BUT WERE AFRAID TO ASK)!

QUESTION:

A question from JD in New York. She writes: "Awareness has said *Its* purpose in coming at this time is to reconcile polarities. Is this directly related to the similar effects of the Photon Belt?

COSMIC AWARENESS:

This Awareness indicates that this is similar in nature; that the Photon Belt is that which is an effect that will help to nullify polarities in material things, while allowing for a different kind of polarization in light energies. This Awareness indicates that when the magnetic polarities reconcile, it creates a kind of energy that is of a higher nature, which then forms part of the light polarity, the polarity of light, which may be equated to that which is anti-matter polarization.

Anti-Matter: A Movement Into a New Dimensional Realm

This Awareness indicates anti-matter as being that which is above and beyond the physical matter; that which is within spirit. The movement into anti-matter as a movement into a new dimensional realm of spiritual energy in which the physics are based on a totally different reality.

This Awareness indicates that as entities move into anti-matter, the realm becomes one of a different dimension, invisible to the world of matter, and the material and immaterial or anti-material world appear to separate and become two distinct dimensions. This Awareness indicates that these dimensions will be as distinct as your world of third-dimensional reality from the world of dreams, although it is not to say that the new reality will be a reality of dreams.

It will simply be a different reality, very distinct from the reality you have known in the past.

WHAT PRECISELY WILL CAUSE THOSE "DAYS OF DARKNESS"?

QUESTION:

Another question from JD. "Please explain precisely, but concisely, what causes (a): Three days of darkness , or (b): The same period of fiery sky as the null zone is reached?

COSMIC AWARENESS:

This Awareness indicates that in the exchange of polarities, there is that which becomes likened unto a short-circuit, wherein the polarization of matter shorts out, and this causes what might be termed "discharges" or electrical shorting or discharges, and light will be the result. Once this discharge has been effected, there will then be darkness following as the energies will have been spent.

This Awareness indicates that there is a lack of substance to carry light, to deflect light from the sun, and it will be much like that of outer space in which there is darkness until sunlight meets an object to reflect off of. If the object does not contain certain material qualities, the light is simply absorbed in the object and there is seen darkness.

Your atmosphere creates a substance in present reality that reflects light which allows for the appearance of light in the daytime, but if your atmosphere undergoes a depolarization, light will not reflect off of the oxygen molecules in the atmosphere. This Awareness indicates that this is not a complete description, but a concise description of why the darkness effect occurs.

Will All Computer Data be Knocked Out?

(The Bible has Reference to Photon Belt Events)

QUESTION:

She also asks: "Is the null-zone shortly going to wipe out all our computer data, and if so, how will it affect the government, military and so forth?"

COSMIC AWARENESS:

This Awareness indicates it appears that when this occurs it will create an opportunity for enormous change; however, the probability of being prepared to shift over into new energy for computers and for your machinery and energy sources will be addressed prior to this situation, prior to the entry into the null-zone.

This Awareness indicates there is some Biblical reference to this event. This Awareness indicates that this appears to be in Matthew.*

*Matthew 24 verse 29. "Immediately after the tribulation of those days shall the sun be darkened, and the moon shall not give her light, *and the stars shall fall from heaven, and the powers of the heavens* shall be shaken."

Isaiah 13 verse 10. "For the stars of heaven and the constellations thereof shall not give their light: the sun shall be darkened in his going forth, and the moon shall not cause her light to shine."

Is Panic Anticipated When the Lights Go Off?

QUESTION:

She wants to know: "Do you anticipate panic when the lights go off?"

COSMIC AWARENESS:

This Awareness indicates that the term "panic" is a subjective term. Panic to one person is simply concern to another. One person being excited does not necessarily mean that the person is in a state of panic. There will be concern, there will be attention. The situation will be highly unusual. People tend to adjust to unusual crises and circumstances in their own individual ways.

Some will attempt to take advantage of the darkness to loot and pillage. This Awareness indicates if this is panic, it is not likely to be much different from the kind of panic that occurs during earthquakes or other unusual phenomenon: great storms and so forth. It will be an unusual situation.

Prior to the Event, Information will be Released

This Awareness indicates that many people will be extremely calm and most entities will try to find a safe place to wait, to watch, to listen for any information available. This Awareness indicates also, it appears that there will be a considerable amount of information made available just prior to such an event.

This Awareness indicates it does not appear that this is likely to occur in the near future; that something is seen as being more likely in the year of '96 or '97, than in the year of 1995 as far as notable change or disturbance.

"People never believe in volcanoes until the lava actually overtakes them."-George Santayana.

30 MOST ASKED QUESTIONS ON THE PHOTON BELT PHENOMENON

QUESTION:

JD, in New York, not being one who will settle for vagueness or possibilities, has sent a list of questions she'd like me to ask, one by one, on this Photon Belt.

COSMIC AWARENESS:

This Awareness wishes to suggest that not every question that is asked is necessarily to be answered. This Awareness will decide what to answer.

Question: (WHEN WAS IT DISCOVERED?

It was discovered by our scientists in 1961, and kept quiet. (the Photon Belt was) .

COSMIC AWARENESS:

This Awareness asks: Is this a question, or a statement?

QUESTIONER:

Yes. These are questions she's putting in statement form, but she'd like Awareness to confirm or deny them.

COSMIC AWARENESS:

This Awareness indicates that this appears to be in the affirmative; that since that time period there have been other members of the scientific community who have also become aware of the phenomenon, and some have kept quiet and some have given out information; that the Russian scientists have also become aware of the phenomenon and have also given out considerable information to their own people.

This Awareness indicates that in other words there has been the initial discovery by a few, and a gradual release of information over the years, and more recently, the release of information to the public in general.

Question: HOW OFTEN DOES PHOTON BELT OCCUR?

Our solar system circuits during 24,000 approximate, of our years, in which it passes through the Photon Belt twice, for approximately 2,000 years each. Is that correct?"

COSMIC AWARENESS:

This Awareness indicates that this appears to be 25,000 years, and approximately 2,100 years each.

Question:WILL LANDS AND POPULATIONS BE DEVASTATED?

If the answer is yes, will the resultant heat and resultant flooding devastate lands and populations, and will many species perish?"

COSMIC AWARENESS:

This Awareness indicates that there is a shift in polarities that allow for the lesser cycles of 2,100 years, and in each of these, there will be the growth of new species and the death of some species, much as has occurred throughout history. Many of these things becoming so gradual in their changing that it is not really notable in the sense of a major event.

This Awareness indicates that the 25,000 year cycle has occurred repeatedly on the earth, and occasionally a substantial change occurs within such a limited time period that entities become very much aware of what is happening, and it is this awareness that has left the historical knowledge of the earth ages and cycles; but once the event has passed and things settle down to a more normal pace, entities tend to forget the great earth changes, except for occasional reminders in philosophical or scientific records, historical records of such changes such as references to great floods or great earthquakes or great cosmic changes that may have occurred in the past, which *are* recorded in legends and such.

This Awareness indicates that in today's modern society, people will assume that everything which occurs during this time will be recorded in the archives, in books and in computers, of historical record. This Awareness indicates this *assumes* that computers will continue to work in the same way and that records will be saved and preserved for future reference as was assumed by previous civilizations prior to such momentous changes.

In the end, the records may simply be preserved in stories, by word of mouth.

Question: Did Photon Belt Cause Past Ice Ages?

In the past, the Photon Belt has been the cause of past ice ages.

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative, although it was not necessarily the *cause*, but a kind of harbinger of an ice age. The events following certain cycles in which the earth tilt occurs, creating a tilting from the sun so that what is currently experienced as winter may become for that particular area equal to what will be equivalent to a summer in that particular area, and the winter may become colder so that entities have a colder weather in a certain area, and also creating a situation in which another area may become warmer, which was once cold tundra.

Question: There Is In Existence a "Photon Belt Detector"?

"A tribe of people in South America were given by "Sky People" a Photon Belt detector which began humming in 1978. Is that correct?

COSMIC AWARENESS:

This Awareness indicates that this appears to be partially correct. The question is related to the term "Sky People." To whom does this actually refer? It appears that it was given to them by someone who had some scientific connections in the scientific community and who gave this with this story to make it special for these entities so that they could cherish the object.

This Awareness indicates that it does not appear that these entities were actually "Sky People."

Question: Is Photon Belt Also Known as the "Monasic Ring"?

"The Photon Belt is also known as the Monasic Ring?"

COSMIC AWARENESS:

This is in the affirmative.

Question: Our Sun Is Within Monasic Ring?

"Our sun is Part of the Pleiades system within the Monasic Rings?"

COSMIC AWARENESS:

This is in the affirmative.

Question: Our Sun Will Enter Photon Belt Before Earth Will?

"Awareness sees the sun as entering the Photon Belt before the earth. Were earth to enter first, instead of the three to five days of darkness, and falling star type visuals, the sky would appear to be on fire without accompanying heat, and the intense blinding light would damage our eyes, skin, crops and water supply."

COSMIC AWARENESS:

This is in the affirmative.

Question: Our Sky Will Get Darker as It Approaches?

"Our sky is appearing darker as we approach."

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative, although this darkness will be difficult for the naked eye to perceive, because the eye tends to adjust to darkness, opening wider as darkness approaches, to normalize the amount of light entering the eye, so that entities will not necessarily notice a darkening unless they have certain instruments to read this darkening effect.

Question: Photon Belt is Causing Erratic Weather Today?

"The photon Belt is causing warmer winters, erratic weather, and longer animal hibernations."

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative.

Question: Photon Belt is Causing More Illness on Earth Today?

"It's causing more illness in humans, especially tinnitus, sinusitis, and nervousness."

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative, and it is also helping to prepare the cells in the body for the changes that are necessary for the body to adapt to the photon energy as it approaches. This Awareness indicates that many of the illnesses that entities experience today are related to Photon Belt influences on their physical form.

This Awareness indicates that those who experience certain physical tiredness, weaknesses or what appear to be poor immunity to various diseases, may be experiencing photon influence on their physical form and it may turn out to be a blessing in the long-run because their body will become more able to adapt to the new photon energy

Those whose body does not respond to the photon energy may find themselves suddenly at some later time being confronted with photon energy of a greater effect on the physical, which they are not prepared for, and experiencing a more dramatic and sudden change, which can be very difficult.

Prepare for Photon Energies by Using Antioxidants

This Awareness suggests that entities do need to prepare the body by the right kinds of supplements, particularly antioxidants and some of the more highly effective supplements such as the enzymes that help the body to cleanse itself, to digest foods, and to strengthen the immune system.

This Awareness indicates that which is called phytochemicals are seen as being beneficial. Regular vitamin supplements can be beneficial, but over a period of time they lose some of their potency. The rougher foods such as red meats and chicken may become less beneficial to entities as the photon energies approach.

Use of Plastics Causing Breast Cancer and Homosexuality

This Awareness indicates particularly those foods that are commercially produced in cans, with plastic lining will become less beneficial because of the effects of hormones released through the plastic lining in the cans that create excessive estrogen in the consumer. The excessive estrogen consumption by the consumers will create more problems for the entities and this will be more detrimental as the photon energies gain greater influence on the physical cells of the individual's bodies.

This Awareness indicates that there has been a sexual revolution occurring from the way foods are preserved in that the canning process of using plastic lining within cans and the packaging of foods with plastic has an effect of causing an enormous amount of estrogen to invade the diet. This is one of the causes of increased breast cancer. It is also a cause of much of the loss of sex drive in men. It is also a cause of an influence in causing an increase in homosexuality. This Awareness indicates it also has a degree of effect in enlarging the breasts of men. This Awareness indicates that it tends also to weaken men in general.

This Awareness indicates that the effect of plastic in the society in creating what results in the form of artificial estrogen in the diet of humans through the use of plastic, is a problem that is only now beginning to come to light. It has not yet become fully understood as to the strength and potency of the artificial estrogen and its widespread effect on the human diet.

This Awareness indicates that when the photon energies do become more influencing, the artificial estrogen effect will become even greater in a negative sense.

Question: Any Connection to "Cricket Sounds?"

"Is the Photon Belt the cause of the constant "sound of crickets?", lately, more of a high-pitched tone at times which the questioner began hearing in recent years?"

COSMIC AWARENESS:

This Awareness indicates this is not common for everyone, but this Awareness indicates it appears to be in the affirmative in regard to the questioner.

Question: We'll Have More Light Due to 2 suns?

"There will be constant light for the 2,000 years, possibly due to the light of the Pleiadian stars giving us two suns. Is that correct?"

COSMIC AWARENESS:

This Awareness indicates that in a general sense, this is in the affirmative; that the term "constant light" is that which is not precisely correct. There will be times in which more dusk or darkness occurs. There will always be some light however. Therefore, to a degree, the light will be seen as constantly there, even though not always as bright and sometimes much more dim.

Question: Photon Belt is the real cause of holes in Ozone Layer?

"The Photon Belt is the real cause of our expanding holes in the ozone layer?"

COSMIC AWARENESS:

This appears to be correct in terms of the major cause.

Question: Humans Can Expect Intense Electrical Shocks?

"The edge of the belt, called the null-zone, has a space /time overlap, creating gravitational compression. Passing through the zone's peak, we will experience an intense electrical jolt.

COSMIC AWARENESS:)

This appears to be in the affirmative. This Awareness indicates that it is during this time that much of the more serious effects will be experienced.

Question: Our Solar System is Literally Being Moved?

"Our solar system is literally being moved to a different location in the galaxy where there will be two suns."

COSMIC AWARENESS:

This is in the affirmative.

Question: Is the "Fourth Density the same as "astral plane"?

"Is the astral plane the same as Fourth Density?"

COSMIC AWARENESS:

This Awareness indicates this term "Fourth Density" is something that simply has come into the human vocabulary within the past several years. In earlier times it was referred to as a different dimension. This Awareness indicates that the astral plane is not necessarily the same as Fourth Density, in terms of human semantics, but could be equated to the same by some entities.

This Awareness indicates that it depends on the individual's meanings and their definitions for the terms as to whether they are one and the same. This Awareness reminds you that *It* does not create the terms that humans use; that humans create these terms and pass them around and different entities have different meanings for these terms until they are presented into dictionaries wherein all can use a standardized meaning for the term.

Once a standardized meaning is available, then entities can refer to that standard for the correct meaning of that term.

Question: How Can Astral Planes be Regarded as Being 'Higher'?

She writes: "If the answer is yes, (and I'm not sure that it is), how can the astral plane be regarded as higher, when dreams and lower-level channelings are deemed "astral nonsense?

COSMIC AWARENESS:

This Awareness suggests this is a good question, and therefore, entities need to re-evaluate their assignment of Fourth Density to the astral equation. If these are not equal in their mind then perhaps the terminologies are not the same. This Awareness indicates that *It* does not see that there has actually been a clear definition of the term "Fourth Density" that has been standardized for the use of humans, and that even the "astral plane" has not necessarily been standardized throughout the human vocabulary to where everyone speaks of the same thing, when using the term.

This Awareness indicates that *It* does not wish to standardize human language, but suggests that you not worry about these words unless you want to make certain standards of definition for them so that everyone is speaking the same language, when using the terms.

Question: In Photon Belt Fat People Will Lose Weight?

"In the Photon Belt, overweight people will automatically weigh less."

COSMIC AWARENESS:

This is in the affirmative. The light will be less heavy, and when breathing the light energy, entities will tend to be lighter in a physical sense. The lack of polarization will also help entities to lose the girth and excessive bulk from their bodies. The appetites will not be as strong.

Question: Satellite Instruments first "observed" Photon Belt?

"Satellite instruments first "observed" the Photon Belt as a cloud of photons that rotates at right angles to the plane of our earth's orbit."

COSMIC AWARENESS:

This is in the affirmative.

Question: Gamma Rays and X-Rays are photons?

"There are many kinds of photons in the universe, ranging from gamma rays to X-rays."

COSMIC AWARENESS:

This is in the affirmative.

Question: Underground Shelters Being Built by Military?

"There is a secret round-the-clock government military directed research project working on a photon storage system in order to survive the null-zone intact. Elite underground shelters have been built. Civil chaos is expected."

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative; that what is expected is not necessarily the result that will be experienced.

Photon Researchers Given Death Threat if They Tell?

"In June of 1992, scientists at MIT confirmed that M 87, which appears to be a colossal photon, a black hole, or the Photon Belt, is approaching us at the rate of 1.2 million miles per hour. Its estimated mass is that of three billion suns. It spans five hundred lights years. A gag order was issued, the researchers threatened with death or life imprisonment."

COSMIC AWARENESS:

This *did* occur. This is in the affirmative.

Question: Ultraviolet Radiation Will Cause Mass Sterilization?

"The ultraviolet radiation will cause massive sterilization of humans and animals."

COSMIC AWARENESS:

This Awareness indicates that this is seen as a "probability," not as an absolute certainty; that there are certain effects that will occur but which may only be temporary. This Awareness reminds you that the movement through the Photon Belt has occurred before, and humanity has survived to continue reproducing offspring, and therefore, the concept of sterility being caused by ultraviolet light is not as serious as may be implied in the question.

There may be some temporary sterility which may affect entities of a certain age group, without necessarily affecting all of humanity.

Question: Did Photon Belt Cause Massive Deaths in the Past?

In the past, was the Photon Belt the cause, or a cause of massive die-offs observed by archaeologists?

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative; that many of those who have died in the physical sense, moved into higher dimensions, into other realms, and experienced what metaphysicians might refer to as an "ascension." It was not seen by these entities as a negative, but as a positive change that occurred for them.

Question: Many Deaths Will Occur During the Null Zone?

The Null Zone will cause massive deaths during the darkness?"

COSMIC AWARENESS:

This Awareness indicates that this is almost inevitable that many deaths will occur during the darkness, more than occurs on an ordinary night. This Awareness indicates that some people will panic, and some, in panic, will do things that are careless or dangerous to themselves or others, and of course, such can result in the death of many, but nature itself is not likely to be the direct cause of such deaths.

It would be more likely that the cause of such deaths would be the reaction of people to what is happening.

This Awareness indicates that the phytochemicals are very condensed and powerful in the capsule or pill form, moreso than in the fresh green vegetables. This Awareness indicates that this is something that many entities do not often think about. They simply take their adrenaline for granted and assume that the adrenalines will do their job and there is nothing they can do to help or hinder the efforts of the adrenaline glands.

In fact, some entities might even wish they didn't have so much adrenaline. This Awareness indicates that it is important for entities to have a certain amount of adrenaline. The adrenaline depletion tends to hinder one's initiative, tends to hinder one's ability to react to urgencies and critical situations.

This Awareness suggests the questions for this reading may begin now.

Why Are So Many Politicians Leaving Office?

QUESTION:

A question from Wane H., in Texas. He asks: "Why are so many politicians now leaving office? Is there a political purge taking place in Washington? Are certain politicians being asked to leave, or face criminal charges?"

COSMIC AWARENESS:

This Awareness indicates there is the petition relating to the Grievances on the part of certain Patriots in regard to the Federal Reserve Bank and how the government has allowed foreign people to take control of the nation's economy in a manner that is opposed to the laws of the land as dictated by the U.S Constitution, and in that Petition of Grievances, entities in Congress and in government have been warned that failure to act to bring back the Constitutional laws governing the minting and coining and control of money can implicate the senators and the government officials in a conspiracy of high treason.

There are a few of these entities who recognize the validity of this Petition of Grievances, and who see that indeed they do need to do something or face the possibility of being charged with high treason for working with this Federal Reserve Bank and those who are behind the actions, for this is the cause of the National Debt and some of the entities in Congress and in the Senate simply ignore the Petition of Grievances, but others have examined it carefully and realize they do have a valid claim against the senators and the Congress-people and if the Senate and Congress-persons fail to act in behalf of the American People, indeed they could be charged with treason.

Many think this is just a joke, but others realize the seriousness of it. Some of the older senators especially, who have been around for many years, understand that much of the lobbying has been successful only because of their own complicity and serving of the foreign masters of this country and that they indeed could themselves be seen as treasonous in their activities and feel that they have already served a long, healthy political life full of benefits and that they can get out of the way of anything that might be coming down the track, and that they should now get off the train.

"The high office of the President has been used to foment a plot to destroy America's freedom and before I leave this office, I must inform the citizens of their plight."--John F. Kennedy, at Columbia University in 1963, ten days before he was eliminated.

This Awareness indicates that others may have different reasons for retiring. They might simply see that it is not getting any better with the economic problems that are facing this country and they also recognize that they have made the best of their life and earned sufficient amounts where they can now go in a different direction with less consequence, or they may simply feel that they are tired of the responsibility associated with government.

This Awareness indicates that of course each senator or Congress-person may have a totally different reason for abandoning public service. Perhaps they have something better, or feel they can get something more beneficial with less stress and therefore they are choosing a different path. Perhaps they simply want to be closer to their friends and families and get away from the madness of Washington.

Therefore, it is not likely that there is a single reason for entities to be abandoning their jobs in Washington, and it is more likely that there are several various reasons why an entity will choose to give up his or her position in Washington for a different kind of life.

NEW POSTAL RULES FORBID MAILING OF CERTAIN CONTROVERSIAL INFORMATION

QUESTION:

Jean K., of Rapid City, South Dakota, writes: "I m enclosing an article for you to read and ask Awareness if this is valid, and not if, but *when* other postal rates for controversial matter." She sent in what looks like part of a news letter from the Cultivate Ministries out of Colorado Springs, and the part she outlined here is: "As of October 1st, the U.S Postal Service can refuse to mail, or charge double for any mail that advertises books or videos about the New World Order, NAFTA, GATT, or speaks out on abortion, homosexuality, pending legislation, politics or civil rights.

"These materials are considered divisive and controversial." The letter writer, the editor wrote: "I first learned of this from my friend, who does most of the prophecy research here, and I decided to verify this for myself. It took a few phone calls to get up the ladder to the postal service, but eventually I did speak to an official who did indeed verify this information to be true. He told me that anyone who has a non-profit status and is using the advantage of the third-class mail rates are "subject to inspection."

Now we know CAC is subject to inspection, but we had not been told that they could *refuse* to mail our newsletters if it carried any of the information like I read here: NAFTA, New World Order, and so forth. We certainly have broken that rule in the past. Does Awareness see this as valid?

COSMIC AWARENESS:

This Awareness indicates that it appears that this has become an issue and has become a means by which to curtail non-profit status somewhat. This Awareness indicates it does not necessarily cancel a non-profit status but can result in higher postal rates. It is the attitude of the entities that this kind of controversial information has little or nothing to do with non-profit purposes and is more political in nature, and that the non-profit status should not benefit political agendas.

This Awareness indicates it is much like preventing non-profit organizations from lobbying, and the use of the mails under non-profit status would be violated if used for political type lobbying activities. This Awareness indicates this is not well-known as of the present time, but can be used at any time against any non-profit organization. Much of the material that has been released through organizations in their newsletters relating to the New World Order or to other topics as mentioned could easily be used against them to stop them from further mailings of a non-profit nature, if the organizations were to continue.

This Awareness indicates that it does not appear that the law would operate from a retroactive state, but it does appear that it is designed to hinder future expression of non-profit organizations. This Awareness indicates this could be challenged on the grounds of Free Speech, but as yet has not been so challenged, and the argument would be a question of whether Free Speech applies to non-profit benefits, for the question is whether a non-profit organization has Freedom of Speech in the same manner as an individual, or if non-profit status is a privilege, and this of course would go back to questions of whether the non-profit status is given by the government or is simply recognized as non-profit status by the government.

Organizations can Proclaim Sovereignty

It is one thing to recognize that something is non-profit; it is something different to have the government *give* a non-profit status, and when an organization is incorporated, that organization becomes subject to the state that incorporates the organization. The organization that declares sovereignty as a...This Awareness indicates there is an action in common law wherein an organization declares itself sovereign and religious, and registers not with the state as a corporation, but registers with a county in the county's books which allows the organization to proclaim itself non-profit, and that kind of proclamation does not depend upon the state recognition for its existence.

The Christian Science organization was formed in such a manner and it is possible for this kind of organization to have its sovereignty whereby the nation never gave it non-profit status, but has to recognize it as a sovereign entity because of its own proclamation as a non-profit organization. This Awareness indicates that this would allow the organization to continue to function; however, even there, it may be that the government or postal law might be written in such a way that a self-proclaimed non-profit organization could be denied recognition and certain Federal benefits denied or certain benefits from the post office could be denied.

The non-profit status might be denied by the post office in its ruling and policies, which of course could be challenged also, but this legal maneuvering is often much more expensive than profitable. This Awareness remind you also that the post office is no longer a part of the government and is privately owned. Therefore, just as UPS or Federal Express, it can make its own rules. However it does generally follow the guidance of government pressure or policies.

Technically, it is private, but practically, it is still governed by governmental policy and procedures.

FOLLOW-UP STATEMENT:

I thought it was strange that the postal service, 6 months ago was whining that it was losing millions and millions of dollars, and that was the reason they were going to raise the First Class rate, and the other day they announced that last year they made some 60 million dollars in profit. I think that's rather strange.

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that often, large organizations claim to be losing large amounts of money, when in fact, they are simply losing a large amount of anticipated profits. They can set an anticipated amount of earnings for a future year and aim at that anticipated amount, and then, if they fall short, claim that they have lost money for the year.

Most businesses of this nature, most large businesses do not like to announce monetary losses, because it hurts their stock, but in the case of an organization such as the post office, which has the constant desire to raise the price of its services, the announcement of a loss would be to its advantage.This Awareness indicates of course, the postal services are still regulated in terms of prices, by government officials to some degree.
