Are Asteroids Going to Hit the Earth?

QUESTION:

We received another letter this week from Teresa in Spain. In the letter she mentions: "Concerning the same items I mentioned in my last letter, I am enclosing a cutting from the prestigious weekly German magazine *Der Spiegel*, which is similar to *Time* magazine in the U.S., which states that "United States NASA Scientists in charge of space flights have made an alarming discovery in space." It's in the May 9th, 1996 issue.

"In the constellation of Cancer, there is a comet and four gigantic, up till now unknown asteroids, racing at incredible speed throughout the solar system, two of which are menacingly near to our own planet. Experts throughout the world are warning, they could collide with earth." Does Awareness see this as valid?

COSMIC AWARENESS:

This Awareness indicates this appears to be a correct statement, the asteroids being such that they have their own particular individual movements. It is worded in such a way as to sound as though they were racing around without any direction or pattern, but these asteroids have their own particular direction and movement. This Awareness indicates that it is not as haphazard as it may sound.

This Awareness indicates that the comet also is not part of the asteroid pattern. It is on its own course, following its own path, which can be monitored and plotted by science, if desired. This Awareness indicates that *It* does not see any immediate danger to earth from these heavenly bodies. This could change at some time in the future, particularly if there are any interferences to the directions of these movements, but this appears to be unlikely.

Why Does Jay Leno Knock the Freemen?

QUESTION:

A question from Robert S., in Vancouver, British Columbia. He writes: "Although I enjoy the comedy of Tonight Show host Jay Leno, his jokes about the Freemen in Montana make me think that he and other comedians are either cold-blooded opportunist for mocking others, propagandists for the U.S. government, or both. While Leno may have some reason to criticize Dr. Jack Kervorkian's radical pro-euthanasia stance, (although calling Kervorkian a murderer displays Leno's ignorance), to condemn the Freemen in a smug and sarcastic way as though they were White Supremacists and terrorists displays a blind faith in the U.S. government's version of things, which time and again has proven to be lies." Could Awareness please comment on this?

COSMIC AWARENESS:

This Awareness indicates that approximately 90% of the people in the United States believe whatever is presented to them by the press version, and the press is generally controlled in such a way that the version of the alleged criminal is never presented accurately. This Awareness indicates that if there is an opportunity to demonize a group or a person, the press will be there ready to help demonize the group, person or individuals.

This Awareness indicates that comedians generally just take the version that is presented to the public, knowing that the public feels the same way and the comedian then makes jokes according to the version most applicable to the public view of things. It is not a malicious act, but it is a matter of the comedian trying to get laughs from his audience by telling them what they already know in a way that causes them to feel entertained and amused.

This Awareness indicates *It* does not intend to excuse that kind of comedy, but it should be expected. Entities should not be shocked at someone's laughing at another's misfortune in such situations, because comedians have often gained humor and laughter at the expense of others. This Awareness indicates there are very few people who understand the philosophy of the Freemen, and while the philosophy may have very sound logic, the majority of people do not, and therefore, the sound logic does not compute to them because they are not logical anyway.

Is DHEA Really "The Fountain of Youth:?

QUESTION:

A question from Betty A, in Washington DC. She writes: "Dear Avaton, I wish to ask a general question about a product recently entering the market and to ask Awareness if it is a worthy product, helpful to the anti-aging process as claimed and related ills, if it can be an aid to maintaining good health, et cetera? The following quotes from an article about the product." And she included an excerpt from a publication called *Life Times*, March-April, 1996, which I'll read the parts she's outlined.

"If you're over age 25, then your DHEA is decreasing as we speak. DHEA, (dehydropiandrosterone) a naturally occurring hormone, is produced by your adrenal glands. As your DHEA diminishes, you age and experience many of the following symptoms: lack of energy, excess weight, insomnia, constipation, diarrhea, PMS, poor memory, back pain, depression.

"DHEA is the most abundant steroid in the human bloodstream and research has found that it has significant anti-aging, anti-obesity, and anti-cancer effects. It is often called "the mother hormone" since it serves as a critical building block from which the body produces other hormones like testosterone, estrogen, progesterone, and some 15 other hormones that are essential for good health.

"According to Biochemist Dr. Norman Applezsweig, DHEA de-excites the body's processes and some of the diseases of aging caused by runaway production of nucleic acids, fats and hormones. DHEA regulates their production and thereby slows down aging. Our bodies seem to be programmed to reduce the natural production of DHEA sometime between the ages of 20 and 25. From that point on our bodies degenerate and we begin the process of "aging".

"In our early thirties, our bodies can produce about 30 milligrams per day of DHEA. By the time we reach our sixties, DHEA levels are barely detectable, under 5 milligrams per day."

COSMIC AWARENESS:

This Awareness indicates that the substance is indeed of importance to entities. It can be beneficial in helping to slow the aging process. It is also beneficial in helping in healing many various types of problems that may develop in the body, particularly those that are related to aging. This Awareness indicates that there is a source of DHEA found in the Mexican yam which is quite common as a source, or it can be purchased elsewhere from medical sources at a more expensive cost.

This Awareness indicates that this substance is generally quite expensive, but because it has been found in the Mexican yam, it can now be obtained at a less expensive cost. This Awareness indicates the source of information this entity has quoted does appear to have contact with sources for the Mexican yam and also for other more traditional sources.

FOLLOW-UP QUESTION:)
Is that other product Awareness just mentioned from Mexico, is that called Endogen?

COSMIC AWARENESS:
This is in the affirmative. This Awareness indicates that this is the brand name marketed by the source from which the entity received her information on DHEA which was quoted early in her statement, the name being "Life Support.".

QUESTIONER:
Yes, we'll put an editorial comment after this reading. We'll give them an address where they can locate this stuff.

COSMIC AWARENESS:
This Awareness indicates it is a difference between a price of approximately $100.00 for the usual or traditional DHEA or around $30.00 dollars for the source made from Mexican yam.

Ed's Note: There was no address given for the "Life Support" brand, but Vikki found an Internet source for ENDOGEN called LIFE PLUS, a company founded in 1936. Their information states ENDOGEN is not available in stores, is all natural, has no preservatives or artificial colorings. According to Dr. Julian Whitaker, MD, "DHEA is the closest we've ever come to the fountain of youth." The price for a one month supply of ENDOGEN (90 tablets) is $27 and can be on your doorstep in less than 4 days from the time of your toll free ordering. For more information or to order, call: 1-800-572-8446 and mention Lady K.'s pin number which is 321-972 as the company pays a small percentage on initial referrals to those who refer this product to them.(Lady K is the official CAC Tarot reader and can use any extra income at this time.)

THE KARMA INVOLVED IN ABORTION

(The Incoming Entity Also has Certain Responsibilities)

QUESTION:
A question from Tom E., in West Unity, Ohio. I'll read his letter. "Was it Constantine, or Augustine who put the nix on reincarnation? His metaphysical; reasons were based on his poor opinion of human nature, that we would live a wild and irresponsible life if we felt there would be "another chance" with many future lives, and thus weaken the political power or appeal of church authority: "One life, one death, one birth."

COSMIC AWARENESS:
This Awareness indicates it was Justantine, the Emperor Justantine.

QUESTION CONTINUES:
Thank you. His letter goes on.; "Now comes Brian L. Weiss M.D, a traditional psychiatrist, Yale Medical School and Chairman of Psychiatry at Mount Sinai Medical Center, Miami. Dr. Weiss re-discovered the past-life phenomena in one of his patients, opening the karmic door, and even finding "the space between lives" which has resulted in *Many Lives, Many Masters* by Simon & Schuster, --a remarkable book springing from orthodoxy, as it were.

"In my own life a question has been generated regarding participation in an abortion. Will the aborted soul be a part of my present or karmic future? Can I attempt amends through prayer, and how else? Can I make karmic restitution, perhaps only in part, through what exercise, of my now-life and free will? After I hear from you, perhaps I will also ask the same question of Dr. Weiss."

COSMIC AWARENESS:
This Awareness indicates it appears that some entities can avoid excessive karma from the act of abortion, particularly if the entity who was aborted had not been invited to the womb, who was instead intruding with full knowledge that he or she was unwanted. This Awareness indicates in other words, the unborn can also have some responsibility for his or her own actions, and if the entity is aware of being unwanted, but does not care whether the host mother wants to be impregnated or not, and is willing to violate the mother by coming into the womb in a violation of the mother's desires, then the entity is in part responsible for being in an unwanted situation, and therefore sharing in the karma of the abortion that may follow.

This Awareness indicates that for the most part, this is rare, but it appears that in your case, this was a situation that occurred, and therefore, the karma is much less great than would ordinarily occur.

FOLLOW-UP QUESTION:
So making amends in a case like this *can* be accomplished through prayer and perhaps mentally contacting the aborted entity?

COSMIC AWARENESS:
This is in the affirmative; in this particular instance especially.

WHAT ARE THOSE SPHERES EMBEDDED IN ROCK 2 BILLION YEARS AGO?

QUESTION:
A question from JD in New York. She writes: "Strange metallic spheroids have been extracted from deep rock in the Wonderstone silver mine near Ohosdal in the Western Transvaal, South Africa, for the past three decades. They are somewhat flattened spheres, one inch to four inches in diameter, steely blue, with reddish reflection, with tiny flecks of white fibers embedded in the metal, which is a nickel/steel alloy not occurring naturally, nor meteoric.

"They contain a strange spongy material which disintegrates into dust on contact with air. The rock encasing them has been dated to at least 2.8 to three billion years ago. Specimens have been observed to slowly rotate on their own axes. What is the origin of these, and what are they, and how did they end up embedded in pyrophyllite rock?"

COSMIC AWARENESS:
This Awareness indicates that this appears to be from some extraterrestrial source, as something that has fallen upon earth at that time. It was absorbed and held. This Awareness indicates that of course, the origin came from a source totally unknown at this time, therefore, a name would of be of no purpose or significance, because no record of such a name would exist elsewhere.

This Awareness indicates the main significance of such information is that it suggests intelligent life that lived many billion years ago, out there somewhere in the universe.

QUESTIONER:
That's a long time ago.

COSMIC AWARENESS:
This is in the affirmative.

QUESTIONER:
There's some people who claim the earth wasn't even around that many billion years ago. That can't be true can it?

COSMIC AWARENESS:
This Awareness suggests the time again be stated.

QUESTIONER:
2.8 to 3 billion years ago.

COSMIC AWARENESS:
This Awareness indicates that the majority of scientists perceive the earth as having been around for more

than 3 billion years. Some estimate 8, but the majority estimate three or four billion years. Of course, at that time, it was more of a molten type surface rather than a hard dry surface.

The Ica, Peru Warehouse with Ancient Carvings of Present Medical Practices

(More on the Atlans and Titans)

QUESTION:

Another question from JD. "A Dr. Cabrera has a warehouse in Ica, Peru, containing some twenty thousand stone boulders, tablets and baseball-sized rocks engraved with pictures of extremely sophisticated surgical skills and medical practices, such as step by step heart-transplant procedures. Most of the stone is gray andesite, which is extremely difficult to carve. What is the origin of these stones, and please give information about the culture which produced them."

COSMIC AWARENESS:

This Awareness indicates that these appear to come from underground caverns which were once the home of entities historically referred to as Titans. This Awareness indicates the entity Richard Shaver mentions these Titans, and it appears that these and other ancient civilizations were relatively high in technology, having the ability to sail from this planet to others, having high ability in terms of medical skills, in terms of arts and language, and they also had certain technology associated with levitation of stones and the capacity for creating laser-like weapons and tools.

FOLLOW-UP QUESTION:

Where do these entities come from?

COSMIC AWARENESS:

This Awareness indicates they were native to the earth. They also had contact with other planetary civilizations. At that time there was life on Maldek and they had trade-routes to and from Maldek. They also were involved with Lemurians on earth and had agreements and relationship with the Lemurians for their commercial joint ventures in various extraterrestrial endeavors.

It appears that these entities were able to fly to certain planets in the Orion constellation, particularly that which is known as Clarion and Betelgeuse. There is also seen contacts with Sirius and some Pleiadian contacts and also Vega. There appear to be others that were much more rare and more distant. Zeta Reticuli was an area which they had little contact with, likewise with the Draco constellation. The Draconians were not a friendly culture, and they tended to avoid those entities.

This Awareness indicates there were Atlans; these were giants living in Atlantis at the time, and the Titans and Atlans being those giants whose descendants were later known as the Nephilim, as mentioned in the Book of Genesis.

FOLLOW-UP QUESTION:

I believe Awareness once mentioned that these Atlan entities are still alive and still inhabit caverns and things in the earth. Is that correct?

COSMIC AWARENESS:

This Awareness indicates that these are very few in number and are generally not active on the surface of the earth and the ones that remain are much smaller than they were at the time of their greater civilization; this being from approximately 75,000 BC, to 20,000 BC. This Awareness indicates this being pre-deluge era, before the Great Flood.

THE STRANGE ARCHAEOLOGICAL SITE AT ACAMBARO, MEXICO

(More on the Dinoids)

QUESTION:

We received some information on the Internet that might correlate here to this information given. It says "In 1944, an accidental discovery of an even more controversial nature was made by Waldemar Julsrud at Acambaro, Mexico. Acambaro is in the state of Guanajuato, 175 miles Northwest of Mexico City. The strange archaeological site there yielded over 33,500 objects of ceramic; stone, including jade; and knives of obsidian (sharper than steel and still used today in heart surgery).

Julsrud, a prominent local German merchant, also found statues ranging from less than an inch to 6 feet in length, depicting great reptiles, some of them in active association with humans, generally eating them, but in some bizarre statuettes, an erotic association was indicated. To observers, many of these creatures resembled dinosaurs.

Julsrud crammed this collection into 12 rooms of his expanded house. Their startling representation of Negroes, Orientals and bearded Caucasians were included as were motifs of Egyptians, Sumerian, and other ancient non-hemispheric civilizations, as well as portrayals of Bigfoot and aquatic monster-like creatures, weird human/animal mixtures, and a host of other inexplicable creations. Teeth from an extinct Ice Age horse, a skeleton of a mammoth, and a number of human skulls were found at the same site as the ceramic artifacts.

Radio Carbon-dating in the laboratories of the University of Pennsylvania and additional tests using the thermo-luminescence method of dating pottery were performed to determine the age of the objects. Results indicated the objects were made about 6,500 years ago, around 4,500 BC." Could Awareness comment?

COSMIC AWARENESS:

This Awareness indicates that this appears to have been a kind of museum-like place controlled by the Dinoids. This Awareness has mentioned the Dinoids previously. They were an evolution of beings that came from the dinosaur era, but which were developing along the line of humanoids, based on dinosaur DNA. This Awareness indicates that the Dinoids are different from Reptoids; the Reptoids coming from Draco, the Dinoids from what appears to be an area close to the star Altair, where the Interpreter and energizer originated.

This Awareness indicates that these Dinoids visited earth along with some of the Reptoids, and there was a strong curiosity about the different types of beings and a project wherein various beings were assembled in what might be presently called a kind of museum of humanoid types. Some of course were not humanoid at all. Some were animal in their appearance.

History May be Made this fall

CLOSING MESSAGE:

This Awareness indicates there are significant events coming up during the last part of August and during the month of September. Many changes are likely in terms of national and perhaps even global concerns. This Awareness suggests that you watch the news, watch the events that are occurring, for there is likely to be history made during this time, and that history is that which will affect your future lives to some degree; favorably in some ways, and perhaps not so favorably in others.

Current Events Update

OPENING MESSAGE: (8/1/96)

The Labor Day March on Washington, D.C.

This Awareness indicates that it has some information that it wishes briefly to relay. This Awareness indicates the Citizens Against Legal Loophole, the CALL organization which is planning the march on Washington DC to restore the Constitution on Labor Day, is at this time still planning to continue. This Awareness indicates there has been some concern from many entities as to whether this was still on because nothing had been heard from the organization. The organization recently put out a mailing that stated it was still, on, and asked entities to let others know that the march was still scheduled.

This Awareness wishes to comment to entities that if they are planning to participate in this gathering in Washington DC on Labor Day that they keep their eyes and ears open and be flexible. In other words, play it by ear. This Awareness indicates that it is potentially historical on the one hand in that it could be a turning point in history. On the other hand it could also be dangerous if there is an attempt to disrupt or put a stop to the march, although this does seem highly unlikely. This Awareness indicates that if there were to be an attempt to stop the march it appears it would occur beforehand to the leaders of the march rather than when large crowds have gathered.

The Hildebrand Case and the Sale of the Federal Reserve

This Awareness indicates there have also been inquiries regarding the Hildebrand case. This Awareness indicates that this is still alive. It appears to be in a kind of calm or limbo, but it is not dead. This Awareness indicates this has to do with the lawsuit against the Federal Reserve Bank. This Awareness indicates that the indications are that the Federal Reserve Bank was sold to the Treasury Department in or around November of 1993. This Awareness indicates that this was the manner by which the case settled with the sale of the Federal Reserve Bank to the Treasury Department and can be understood as a reason why the Federal Reserve Bank continues to exist and function as though nothing has happened.

The Common Law Court Found the Freemen Innocent

This Awareness indicates that there are, of course, many powerful people seeking to *pretend* that nothing **did** happen, and in their pretense, hoping somehow to ignore the court settlement and the events that transpired. It is much likened unto that which occurred to the Freemen. This Awareness indicates that the Freemen case was also decided in a Common Law court, wherein the Freemen were acquitted; however , the martial law court which has ruled this country since Lincoln declared martial law during the Civil War, has more or less ignored the common law ruling.

This Awareness indicates that the Federal judge presiding over the case allowed the Common Law court to proceed and allowed the proceedings to follow the course of common law; however, the court recorder and prosecutors and others in the martial law courts, the admiralty courts, have issued statements that this did not occur; that the judge did not turn the court over to common law jurors and are ignoring the ruling of the Common Law court as much as is possible so that they can continue with their own trial in the martial law courts or admiralty court.

The Admiralty Court Exists Because the U.S. is Under Martial Law

This Awareness wishes briefly to remind entities that the admiralty court is the court in which the gold braid goes around the American flag which indicates the court is under martial law, or under admiralty law, from the martial law status of the country. The country has been under martial law since Abraham Lincoln's executive order putting it under martial law, and in order to continue staying under martial law, the country has to have some kind of war every two years. Thus, the war on drugs, war on poverty, et cetera, and the admiralty laws are used in the courts in such a way that they are not necessarily tied to the Constitution, although the Constitution is said to be the law of the land.

The admiralty law, like any military law, has its own set of rules. This Awareness indicates it is also likened unto a corporation, which has its rules or laws, and when the laws of a corporation affect an entity in a way that is contrary to his or her Constitutional laws, then the entity can sue the corporation and rely on the Constitution, but this is often ignored by the corporations and most entities do not have the funds necessary to follow through to sue a corporation in order to have the Constitutional rights adjudicated.

The Federal Government in D.C. a Corporation From England

This Awareness indicates that likewise, the corporation that is the Federal government in Washington DC, which was incorporated in the last century in London, England, which the Freemen have pointed out has its rules; these are the Federal statutes and so forth; and these too are designed for certain purposes but are required to follow the Constitution; however they do not always follow the Constitution, and if entities feel their Constitutional Rights have been violated by a Federal statute, they have the option of suing the Federal government and the statute for a constitutional ruling in the Supreme Court.

This Awareness indicates however, the ability to follow a case through the Supreme Court to test a Federal statute is not always easy, nor is it inexpensive. It is very costly, and very difficult and may take years. This Awareness indicates that for these reasons, the Federal statutes are extremely difficult for entities to overturn, and by carrying on the martial law in this country and using the Federal statutes as law, the Constitution becomes less and less effective, because it becomes more and more expensive to use, and therefore, gradually, over periods of time, more and more statutes and more and more corporate rules had their effect over the masses to the point where entities begin to feel that they do not have any rights, and whereby even judges in courts of law dismiss and refuse to allow constitutional points of laws to occur in their courts.

The Judicial System is Really to Protect the D.C. Corporation

Why should they allow constitutional points of law in their courts when they are actually military courts? This Awareness indicates that most entities think the judicial system is there to protect the rights of entities according to the Constitution, the law of the land, the Bill of Rights and so forth, but they are *really* there to keep order in society and to protect those who have the power and the money and to assure that no one disturbs the infrastructure of the corporation being promoted from London or the state rules and those that are promoted by the courts as military organizations.

This Awareness indicates the Freemen sought to change this, to make the people aware of what had happened in this country, how things have been turned around and what the laws of the corporations are in terms of their true relationship with the common law and the law of the Constitution, but those involved with the statutes and the military law are entrenched in recent

tradition to such a degree that they totally ignore the law of the land, and the Constitution, and go by their own statutes and the military law.

This Awareness indicates thus, the Freemen are being said to have been acquitted through some communicatons, but the prosecutors and some of the others in the admiralty courts say they will still be tried, and the probability is that they will continue to ignore their case as it has been laid out, and have their own trial and in all likelihood convict the entities, but there has been some awareness that has come from the action of the Freemen, in that many entities have been given the hint, and many others have been given opportunities to educate those who are not fully aware of the role of the Federal Reserve Bank in its past as creating money in the same way the Freemen created money, which they are being charged with as a crime, so that if entities have any real understanding of law, they will see that if the Freemen are guilty, then also guilty is the Federal Reserve Bank, for it has done the same thing that the Freemen have done.

The Press Works for those Who Promote the New World Order

This Awareness indicates the press of course works for the people who bring you the New World order, who bring you the means by which this country will eventually be enslaved, and the press is *not* going to promote clear and honest reporting on these kinds of issues. *The Spotlight* covers things much better than other magazines or press outlets. *Media Bypass* is another.

There are things from the Internet, that give some clear reporting, and this Awareness indicates there is another outlet, but the name does not show, which gives good information for the most part. This Awareness indicates that in general, however, except for these underground or more obscure sources of information, most people will only receive what the world planners want them to know, and therefore, they are not likely to get the full story.

The State of Texas Recently Became a Sovereign Republic

This Awareness indicates for example, the state of Texas recently became a sovereign Republic, but there has been no press release across the nation of this event. The entity George Bush Jr., as governor of Texas, was informed that he must vacate his office and has done so. The Texas Republic now operates not as a state, but as a sovereign Republic. This Awareness indicates that you have not seen this in your newspapers, for the press is not working to give you the full truth on things. They are there to help promote the agenda of the New World Order. This Awareness indicates that this kind of information is not something that the New World Order wants others to knows, and they will make their effort to get the Texas Republic back on track.

Also, you have not been told by your news outlets that over a dozen states have declared themselves sovereign. If 38 states declare themselves sovereign, then the Federal government will no longer have any jurisdiction or controls over the United States, for though they are states united, they are each sovereign. This Awareness indicates that you will not read this in your papers or in your news magazines or other outlets of information other than those underground types of publications.

Controlled Media Will not Tell the People About the March on Washington on Labor Day

This Awareness indicates the march on Washington scheduled for Labor Day could become an action of extreme historical significance, but keep in mind that there are powerful forces that will do whatever is possible to keep this from happening. This Awareness indicates the press is not relating the information about this, and though these entities have called for people to put notices in newspapers, very little has been done in this regard.

Dennis Lee's Free Energy Program now Going National

This Awareness indicates the other area of interest to entities would be that of the free energy program which this Awareness has previously discussed, as promoted by the Better World Technology group represented by Dennis Lee. This Awareness indicates that these entities went to Washington DC on the 5th of March to present to Congress and to government officials and to the energy utility officials, to the government agencies such as the Pentagon and the CIA and FBI and other groups, their proposal to help solve the global environmental problems by the use of the technology that had been developed in which there is no pollution whatsoever, no exhaust from the automobile engines, and whereby the engines would run at hardly any cost whatsoever, using refrigerants that are enclosed in the motors, which do not leak or spill or cause exhaust when the motor is run.

This Awareness indicates likewise, the generators using such refrigerants to create electricity, by using the heat of the air outside to make the refrigerants boil and project the movements necessary for the creation of electricity. The entities gave their demonstration and gave the government and utilities officials a certain amount of time to consider joining with them to use this technology. In exchange they would allow the officials to use the technology, and allow those shareholders of utilities to switch to shares in this company, which would then become owned by the utilities companies, so that it would not have an adverse effect on the economies, which are based largely on fuel and electricity and power.

This Awareness indicates, however, the government or the agencies and the officials did not respond in the time allotted and therefore, the Better World Technology Group is going out for complete expression to build these technologies and make them available to the public. This Awareness indicates the schedule for these entities to promote their work has been set and they will be traveling from city to city. This Awareness indicates that these entities are expecting to begin promoting the energies and technologies for marketing to the masses on this tour.

This Awareness indicates that in all probability there will be harassment by the powers that hold control over present utilities and gas companies and fuel companies, but these entities have something that may overcome and help their cause. They have the public already half aware of their activities, a great number of people following their activities, so that if they are, for some reason, or in some way harmed in their efforts to bring this technology, everyone who has previously been aware of these entities' work will know what is behind the sabotage and the disruption of their programs.

This Awareness indicates these are things to be aware of, to watch. It is not urgent that entities jump into the middle of anything blindly. It is suggested that entities be aware, be cautious, but follow their own good sense in examining and helping in these programs as is appropriate. Keep in mind that these are areas that many entities with considerable amount of power will be hostile to, even though they are also extremely beneficial for humanity, if they can be properly promoted.

Election this Year Still is Uncertain

This Awareness indicates one other area of comment before questions begin; this having to do with what this

Awareness previously has mentioned was the likelihood of neither Clinton nor Dole becoming president in the Fall of this year. This Awareness indicates since that has been stated, although it still appears to be accurate, Clinton's position has improved somewhat. This Awareness indicates however, there is still much time in which things can change to disturb that position.

This Awareness indicates there are many forces of the New World Order agenda who want to promote Clinton's continuance in office. Dole on the other hand has not been as favorably accepted by the New World Order agenda people, partly because so many Republicans have an agenda that does not fit into that of the promoters of the New World Order.

This Awareness indicates there is still time for many things to occur. The so-called 5th Column or Avenging Angel who has been working to disturb or disrupt the powerful people who have done so much corruption to politics is still at his job, and more entities are likely to resign or quit or move into a recessive mode, taking a back seat, staying out of the limelight, hoping things do not cause them to become targeted by this entity.

Hildebrand Still Maintains the Claims will be Paid

This Awareness indicates that Scott Hildebrand is still in jail, but is still very much optimistic that things are going well, and the entity still sees the Federal Reserve action as having been effective and that entities still have a good chance for a positive outcome in the efforts to receive their claims against the Federal Reserve Bank.

Party Head Orders Clinton to Resign

QUESTION:

In regard to Clinton, over the Internet there was an interview with Conspiracy Nation with Sherman Skolnick, and the interviewer says: "You've heard that Bill Clinton had a meeting recently." And Skolnick says "Within the last couple of days (This came out August, 4th) there was a meeting arranged by Robert Strauss, an elder statesman of the Democratic party, together with other leading Democrats. They told Clinton that they had been informed by Kenneth Starr, the independent counsel, that Hillary, most likely, if not for certain, would be indicted between the Democratic convention at the end of August and the November presidential election.

"Strauss told Clinton, (this is according to Strauss's friends) that the Democrats do not want an "October surprise" that could bring down the Democratic party with Clinton. They want him to resign two days before the Democratic convention. They intend to put up two people that they feel would be more suitable to the convention and the voters: John D. Rockefeller IV, and possibly Al Gore, depending how the public perceives whether Gore is so close to Clinton or not. If not Gore, then a running mate on the ticket would be John Kerry.

"The October surprise situation is, if an indictment comes against Hillary after September, assuming that Clinton becomes a nominee at the convention, it becomes an unprecedented situation. What will happen to Democrats running for Congress, or for the Senate?" And so the interviewer asks: "So we can look for the press to be stepping up attacks on Clinton these next few weeks?" And Skolnick says "Probably so. However, there are legal problems. Strauss's friends are not convinced that Clinton exactly made a candid statement that he "is" going to do as he's been ordered to do, that is, resign.

"They can embarrass him of course, by not making him the nomination at the convention. The other problem is legal. "Were" he to resign and he becomes a private citizen, then if Hillary does get indicted, as Kenneth Starr has told Strauss, then Clinton himself can be named as co-defendant with his wife. He only has immunity from prosecution under the U.S. Constitution as long as he remains in office. You can only remove a U.S. President by way of impeachment. That's all you can do to him. You cannot prosecute him. At least that's the interpretation of that provision in the Constitution."

And the interview goes on, but can Awareness comment on that scenario?

COSMIC AWARENESS:

This Awareness indicates that this appears to be a very significant situation that very well could be the reason that this entity will not be available for voting in November. This Awareness indicates that it appears the entity will also have further trouble with regard to the sex harassment case that has already plagued him, but which has been put on hold because of his being president. This Awareness indicates that this will also come out if the entity resigns, and it could serve as such a distasteful event that many of the Democrats will vote Republican, or it could bring about a closer race between the new Democrat candidate or nominee and the Republican nominee.

Ross Perot's Party May be a Powerful Influence this Fall

This Awareness indicates that *It* still see that the entity Dole is not likely to be the Republican candidate at that time. This Awareness indicates that it is not fully clear that the candidate that will be in the election will actually be a Republican. This Awareness indicates it is seen that the Ross Perot party may be a powerful influence on this election in helping to turn the tide against Dole.

WHAT IS COSMIC AWARENESS

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Bob Dole a 33rd Degree Mason

(Masons the Driving Force Behind the New World Order)

QUESTION:

We received a posting from over the Internet that said that Bob Dole was on the cover of *New Age* magazine in July, 1987. Even back then, Dole was a 33rd degree Mason. The caption under the cover picture clearly says so. The inside story was entitled "The Most Wonderful Work." And the poster adds: "The most wonderful work of course was selling out his country to the British Empire, which has always controlled Masonry."

COSMIC AWARENESS:

This Awareness indicates the Masonry activities are the more powerful aspect of the driving force behind the New World Order, however, the Masons are controlled by those international bankers who are the more powerful controlling forces directing the bringing about of the New World Order. It is well understood by most Christian organizations and thus, right-wing organizations, that Masonry is indeed part of that effort to create a New World order, and that Masonry has down through the ages played an important part.

The entity Pike as being a key player in attempting to set up the works and organizations in the United States and also in other countries to bring about the One World Government, which is another term for what has recently been called the New World order. This Awareness indicates that these entities are likely to change the name from New World Order to something totally different.

The New World Order name has not been accepted well by the masses, and it is more likely that it will occur under some other name, or no name at all, just organizations getting established, being formed, until something happens and entities realize there is a complete control system set up world-wide that directs everything.

New World Order Promoting John Lennon's Song *Imagine*

This Awareness indicates the John Lennon song *'Imagine' as that which has served the New World* Order to help bring about the concepts which it promotes and is likely to be heard more and more as an advertising or promotional song to get the young to accept the idea of no boundaries between nations, and no religion, et cetera. The efforts of these people to use John Lennon for this purpose as that which is seen as a way of luring the young people, and even the people of John Lennon's generation into thinking this is something that has finally come about and can be only for the good of mankind.

This Awareness indicates they do not inform entities that the purpose of 'no boundaries, no religion, and One World Government' is to enslave the 95% of the masses, for 5% of the rulers of the world, and that slavery is not really much to prefer over war that has happened in free countries during the past century.

This Awareness indicates that if you do not settle for the New World Order, then the alternative would be continued war, but the wars themselves have been financed and controlled by these same 5% of the people who have ruled in the past, and the 5% will now be rulers in the future and the 95% will be totally disarmed and without any power such as the vote, or any chance of throwing off the yokes of poverty.

This Awareness indicates the trick has always been, if you want to change people to get them to take certain bait, then you create fear over here, create a problem to make them run from it, so that they will go to that which is the trap you have set for them. Thus you herd them into the pen or trap, and they think they have escaped something terrible.

Republican of Texas to Investigate CFR and Trilateral Commission

QUESTION:

In regard to Texas, Wayne H., a member who lives in Texas, writes: " I have some interesting news to pass onto you. I'm sure that you've heard the reports on the news about the Republican in-fighting at the Texas Republican Convention concerning the abortion issue, but what did you not hear? Some of the issues that were made part of the Texas Republican Convention platform were very interesting. I will start with the shocker, to me anyway.

"First, calls for an investigation "to determine whether the Council on Foreign Relations and Trilateral Commission are promoting the establishment of a One World Government." Two) Urges that the United States withdraw its membership in the United Nations." And he writes "There are a few other surprises and he'll send a copy of the article." Does Awareness see that as being significant?

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates you have the largest state in the union absolving its allegiance to the corporation known as the Federal Government and presenting its investigations and work of discovering and seeking to disclose the work of the international conspiracy in its Council On Foreign Relations and Trilateral Commission, and by getting in to these investigations, they can make this information available throughout the state of Texas, and possibly throughout the United States also.

It is a very significant action. Entities may even consider moving to the state of Texas, just to be free from some of the encroachments of the internationalists on the rest of the states. More likely however, there will be a new movement among other states to become closely aligned with Texas and its philosophical activities and procedures. Those states that have already declared sovereignty are most likely to begin working with Texas in this action.

Attempt by Hunt Brothers to Corner Silver Market

This Awareness indicates of course, you will also recognize that Texas, in the early 80's, attempted to corner the silver market, and that was an effort by Texas to express its sovereignty at the time. By cornering the silver market, it attempted to create an economic sovereignty, and as a result of that effort by the Hunt brothers, the banking system called in all kinds of loans and financing from the oil companies so that Texas suddenly became economically depressed, and that economic depression spread far and wide throughout the state, and entities were leaving the state, and areas were becoming poverty stricken.

This Awareness indicates that it is likely that something of a similar nature could occur again because of this action; that the economic weapon could be used against Texas for becoming a sovereign Republic. This Awareness indicates Texas is somewhat unique among states because it never declared itself a state on a permanent basis. It always had to renew its statehood on a yearly basis. This time it did not renew its statehood, but declared itself a sovereign independent Republic.

It still abides by the Constitution, and recognizes the Constitution as the Law of the land along with those state laws that are compatible with the Constitution.
