IS C.A.C. INADVERTENTLY HELPING THE NEW WORLD ORDER?

Question:: (CAC Reading, 1/7/1997)

A question from Jack Manuelian, Paramus, NJ. He wants me to read the above statement to Cosmic Awareness and then ask if it is true and valid, and if Awareness has any comment about the whole statement, about the conspiracies being propaganda. Then I'll read the rest of his statement after I read this.

"Tibus is channeled by Diane Tessman, author of the books Transformation, Earth Changes Bible, and so on, and he's supposed to be a positive space entity. She writes:

Tibus has expressed some frustration on the many theories on government conspiracies and alien collusion which abound these days. He has stated that most of them have some basis in truth, but they never tell the individual what to do to stop them or to avoid their dire consequences.

These scenarios can make an individual very uptight, worried, paranoid, and frustrated, but what to do about them? They send out negative energy to you, stopping you from centering to meditate. Or you become depressed and figure meditation does no good. They make you unhappy and restless. How can you carry forth your light work?

"Don't you think that many of these government conspiracy and negative alien collusion scenarios are made public to do exactly that, to stop you from creating the positive new reality?

Who has the most to gain if the frequency is not raised?

Those who are now in power have the most to gain. That is, they do if they can keep complete Doomsday away, but they have their secure bunkers in case of radioactivity and other disasters, so they do not mind if there is widespread destruction. They figure they can get to safety. But they still want their seat of power; they do not want human beings to progress so that they do not need the overlords of power.

If the frequency is raised, human beings will not need their self-serving governments. They will not need military might. They will not need formal, structured churches, either. Individuals will learn to contact the Creator through their own God-Spark within. Human beings will no longer be slaves to the money system once they evolve beyond it.

All this taken into consideration, Tibus advises you not to get stuck in the conspiracy theories and propaganda, or in the negative alien collusion scenarios. Yes, some of it is true. But what can you as an individual do about it? Can you blow up the negative alien's spaceship?

Also, Tibus advises that often, the conspiracy theories are only propaganda, spread by the very people about whom the theories speak. They want you to get off the track, to divert your powerful, good psychic energy. They want you to become depressed and to be scared, paranoid "sheep."

"All" you can do is to continue your work toward raising the spiritual frequency. This is the ultimate weapon against all the negative scenarios.

And Jack completes his statement: "If it is true, then the newsletter *Revelations of Awareness* is doing a service to the planners of the New World Order by revealing government conspiracies. That is, you there folks are being **used**, by the New World Order and its agenda. You are serving their purposes, without being aware of that.

"So you folks there, in place of being scared and paranoid at *Cosmic Awareness Communications*, you should be put at ease, because (who knows?) soon the New World Order planners surely will reward you very generously for your job well done by thousands of dollars.

"You are not going to be eliminated or your tax exempt status revoked; you did serve very well the 13 families who control planet earth and you should be looking forward to long-lasting life, without any problems."

COSMIC AWARENESS:

This Awareness indicates that this is likened unto informing the doctor who announces that you have some very serious disease, that he is only feeding the disease by letting you know about it and that you would be better off simply to go about your business in a positive way and ignore the disease that he tells you of.

This Awareness indicates that this approach of so-called 'positivity by denial' is that which has occurred in numerous situations. The alcoholic who is informed that he is alcoholic, who refuses to listen and who instead denies he is alcoholic, and goes about his positive approach of trying to find the next bar to drown his negativity and be a positive person by drinking more.

This Awareness indicates that there are many similar situations that just do not make sense. This Awareness indicates that if you think that being positive means to go about your business or try to raise your vibrations or to do something of a manner that ignores the reality of life, then the question is: "How do you know what to do, if you do not even know what the problem is?"

This Awareness indicates that this is what the entity appears to be promoting: "Ignore the problem. Ignore the fact that there are conspiracies to enslave the masses." Yet at the same time he warns C.A.C. that they are being used by these forces that he claims do not exist, or wherein he would deny their existence, and thinks that C.A.C. should also deny their existence.

This Awareness indicates that it simply is not a logical argument or reasonable approach to the situation. The attitude of being aware of the problem and then taking steps necessary to deal with the problem is of course a much better approach. The doctor tells you that you have a very serious illness. You do not simply ignore the doctor and say he is a negative influence in your life, and therefore, you do not want to hear any more about it, and you do not want to go to any other doctor who tells you about this illness that you have, because they are simply negative influences, and that you are instead going to be positive about it and go on about your business, doing what you usually do, what you were doing before you contracted that disease.

This Awareness indicates, of course, if you continue doing what you did when you got the disease, by ignoring it, it is not simply going to go away. This Awareness indicates if you do not understand the nature of your disease, then how are you going to treat it. You do not know how to treat it. Supposing for example you are diabetic, or supposing you have a high blood pressure: to ignore the indications of the disease is only to allow yourself to continue doing what you did before you found out about the disease.

This Awareness indicates that if someone informs you that there is a group of people who are out to get you because they want your property or they want your business and they are willing to destroy you in order to get your business, are you simply going to say: "Oh, that's negative information! I don't want to hear it!" This Awareness indicates there are some people who might take that approach. Others might want to find out more about it, and in further study, they might discover: "Hey! There may be something to this!" and if they study enough and research enough in that area they might

the result of poor circulation and dying nerves, can often be improved from the use of such injections.

It is seen that this could also be partially helpful in this regard for this entity, if used enough. This would suggest approximately 3 or 4 injections of B 12 and B 6 weekly, over a period of several months, which could be expensive unless you are given the needles and medicine to give yourself the injections and some doctors may allow this, and show you how to do it.

This Awareness indicates these substances B 12 and B 6 and the needles, can often be purchased from a veterinarian for animals, and this Awareness indicates that some entities use this and have no difficulty in doing it in that way. The substances are pure. Even though they are used for animals they are created under the same situations as they would be for humans. It is more a concern that entities be cautious in using such substances in injections, so that they do not use the needle more than once, and do not contaminate themselves using the needle. An alcoholic swab on the skin where the injection takes place is necessary to make sure that you do not get an infection from the injection, and a proper dosage would be important.

This Awareness indicates that it cannot give you the dosage, because the Interpreter does not have a medical license and when *It* starts getting into prescriptions of exact amounts, this would be illegal. Therefore, you should consult a medical doctor for further information in this regard.

This Awareness indicates also, the aging process does tend to diminish the sexual drive of entities and even if you **do** revive it, it may not be for a great period of time. You may simply have to acknowledge that much of your sexual life is no longer a part of you. This Awareness suggests, however, it would be worthwhile for you to try some of these suggestions.

Yohimbe appears to be available through herbal stores, possibly through health food outlets. This Awareness indicates there may be other substances that will be found in the near future that can be helpful in this regard, for there is considerable research among herbalists and biochemists and others, looking for products for natural and pharmaceutical products that can be useful in this regard. Thus, you may wish to keep your eyes open for other possible solutions to the problem.

QUESTIONER:

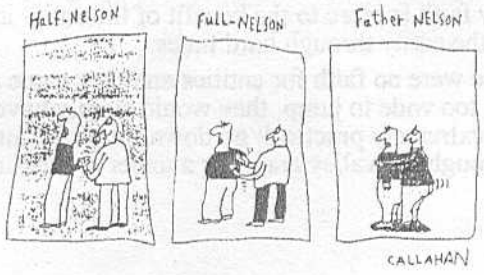
The magazine called *Longevity Journal*,* I believe, is its name, which is available in health-food stores and by mail, has many, many pages of advertisements of various herbal concoctions that they claim will help in this problem.

**Journal Of Longevity Research*, published by Health Quest Publications, 316 California Avenue, Reno, Nevada. ($39.95 for 12 issues).

COSMIC AWARENESS:

This Awareness indicates that the mixture of certain herbs is another possible source of relief from this problem. This Awareness did not discuss the combinations of various herbs. This could be something worth researching for this entity.

(The Law of Gratitude is given)



WHAT IS COSMIC AWARENESS?

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 CosmicAwareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest' . Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

HOW MUCH DO WE LEAVE UP TO GOD AND WHAT IS OUR RESPONSIBILITY?

(The Conflict in Operating From Faith Alone)

QUESTION:

A question from James M., Sedona, AZ. He writes: "I do still have some problems with the "how to" of developing an unshakable faith, since I don't seem to have been born with it in any recognizable, much less usable form. Also, when I do try to operate from faith, there is still a conflict with such basics as applying it to the question of: How much do we leave up to God, and what are we responsible for ourselves?

"For a current example, do we stock up on food, guns and ammo, big program, find a survivalist's retreat in the mountains et cetera, et cetera, since Awareness advised us that we must "stay alive", or should we just Let Go and Let God, with everything?"

COSMIC AWARENESS:

This Awareness indicates that there appears to be some misconception here regarding the concept of faith. This Awareness indicates that *It* does not suggest to entities that they live their every moment based on faith. If you know how to do something; you know how to drive a car for example, or if you want to learn to drive a car, you do not sit behind the wheel and go by faith alone; you develop the skill.

This Awareness indicates you then have faith in the skill that you have developed. You have faith in yourself because you have developed some skill, and you know your limitations. You know your limitations and you know not to go beyond your limits. Is that faith? To some degree it is.

This Awareness suggests that this is the kind of activity that entities need to develop in most of the ways of life. There are some things however, where you cannot develop absolute control. It is those things over which you have no control and cannot develop a control that may require a leap of faith.

You Can't Control Your Afterlife--a Leap of Faith is Necessary

This Awareness indicates that there is no personal control you can have over your ultimate existence, therefore, all the works you may attempt; the so-called "good works" to save your soul, may be of little value to you in terms of your ability to control your afterlife, and you have to find a leap of faith.

This Awareness indicates that *It* does not mean you cannot and should not worry about doing good works during your life. Go ahead and do the best you can, but if you cannot guarantee the proper afterlife, then you may need to go by faith. It is like flying blind, or flying under radar, when you cannot see out the windshield. You have faith in the radar instruments because you have no other option *but* to have such faith.

This Awareness indicates that it is also possible for you in your daily life to recognize that having faith that the Divine will provide helps you to accept the uncertain future on a moment-by-moment basis. This does not mean you should avoid doing anything to enhance or guarantee or support your own future, but where you can do nothing and have no means to improve or assure your future, then having faith can be helpful because it gives you the ability to go on in spite of what appear to be uncertain odds.

Trying to Live Entire Life on Faith is Foolish

This Awareness indicates that for an entity to think that he has to live his entire life on faith when he knows that he can take some action to improve his lot in life, it would be foolish for him, because the entity can get into all kinds of trouble. For example, the entity may say, "I really want that automobile! I could go out and get a good job and work hard and buy the automobile if I put my mind to it, but I'm supposed to have faith. I'll just go get credit and assume that I'll get a job in the future! I'll assume that I can pay for it some way!" And the person goes out and gets as much credit as possible when not having a sufficient job to pay for the credit, and before long, the entity may do the same elsewhere, and rack up great debts all over with no matching income. The entity is soon in trouble. Faith has gotten him into deep trouble.

Credit Cards and Gambling: Faith Won't Pay Debts

This Awareness indicates this happens quite commonly with many entities who receive credit cards and buy on credit on the faith that they will find some way of paying for it; that God will provide for them. This Awareness indicates the same happens for people who over-indulge in gambling: "Surely God will let me win the lottery because I have so many debts to pay! I'll just go out and rack up another effort to gain, to win the lottery!", and they keep giving away more and money to the lottery providers.

This Awareness indicates that it is not the purpose of faith to provide entities with excuses or with enticements to avoid the logical and rational realities in which they live, and it is not something they should feel guilty about or frustrated about, if their faith fails them.

Many Think Faith is the Currency of the Spiritual World

Many people will feel that:"I must not have had enough faith! God must hate me! He didn't give me the lottery that I really believed I would win! Maybe I just didn't have enough faith! How do I get more faith?" This Awareness indicates it is as though some entities think that faith is the currency of the spiritual world, just as money is the currency of the physical world, and they transfer their attitude toward money into the spiritual life and try to make the faith work in the same way that money works in the physical life.

They expect if they have sufficient faith they will have all kinds of blessings poured upon them. This Awareness indicates that they may be very negligent in terms of responsibilities, but believe that if they have enough faith, it won't matter whether they do the right thing or not. It won't really matter if they follow the rules of give and take, if they provide energies where they can; they totally ignore the *Law of Gratitude* and think that faith alone will provide for them.

When it doesn't work that way, they are disappointed and feel that somehow they have lost touch with spirit or their teachings have been erroneously understood, which is probably true. They seek to use faith for gain, where in actuality faith is more to the benefit of the entity in helping the entity through hard times.

If there were no faith for entities and they came across a chasm too wide to jump, they would simply have to become extremely practical: go down the mountainside, walk through the valley and over another mountain range

to get around to the other side of the mountain and climb the mountain to get back to the chasm they couldn't leap, just to get to the place where they would have landed, had they been able to jump the chasm.

This Awareness indicates that with faith, instead of doing this, they might try to think of a different way of crossing the chasm. They might sit down and ponder: "How can we get across? Is there any way to get across this chasm?" They might come up with an idea:"A bridge! Let us cut that tree, and that one! And let them fall across the chasm, and we'll have a bridge, and then we can walk across"

The Real Role of Faith in Entities' Lives

This Awareness indicates that this required faith: faith in studying to find a way to cross the chasm. This Awareness indicates that this is the role of faith: to help entities feel the courage to continue pondering, continue the effort to get to the other side of any chasm in life that they feel they must cross, or to climb any mountain they feel they must climb. This Awareness indicates that it is not intended to cause the entity to try to leap the 24 feet across the chasm, and on the way down, screaming, "I guess I just didn't have enough faiiiiithhh!"

Your Confidence in Who You Are: Another Definition of Faith

FOLLOW-UP QUESTION:

Some years back, Awareness gave, through the Interpreter Ralph Duby,a definition of faith. I believe it was: "Faith is that justified confidence in knowing Who, In Fact, You Really Are" Is that correct?

COSMIC AWARENESS:

This Awareness indicates that this is a definition. It is not necessarily the *only* definition. Amazingly, some things can have many definitions, but this is a good definition. There can be other definitions. The fact that an entity knows Who, In Fact, He or She Really Is, when it is recognized in a justifiable confidence, indicates a certain faith and also generates a certain kind of faith. But This Awareness indicates that knowing in fact, who one really is, isn't the only use of faith or the only purpose of faith, or only application. One may have a need for faith in some other issue.

If an entity, for example, feels a need to help a friend in a crisis, knowing who one is may not be enough. Knowing what one is capable of doing may be needed, or knowing the capacity of the friend may be needed so that the entity may have to have faith in the friend's ability to overcome his limitation. Or knowing the nature of Divinity to be able to intrude in the situation and create a much needed miracle; this too can be an application of faith.This Awareness indicates however, the definition given through Dr. Dub is a good definition for the entity who asked this question in this reading.

If the entity can look carefully and realize Who, In Fact, He Really Is, that he is an extension of Divinity, and that Divinity is within, and is available to him, and has that justifiable confidence in the Divinity available to him, then the entity's question will have been answered, for the entity was questioning whether he had lost faith or how he could get faith, and this Awareness suggests that the faith you need in your life *is* available *when* you understand Who, In Fact, You Really Are.

> I can't give you brains, but I *can* give you a diploma.
> (The wizard of Oz)

STALIN, ROCKEFELLER, NWO PLANNERS ETC.--DO THEY ESCAPE "JUDGMENT DAY"AND LAW OF KARMA?

QUESTION:

Another question from James. He writes: "Much ado is made of Herr Hitler's karma, but what of Joseph Stalin's? He was responsible for more deaths than Adolf. While we're at it, there are a lot of souls who have promoted a New World Order of enslavement of the masses for generations? What happens to them after death? Like the Rothschilds and Rockefellers et al? Do these entities work their mischief and evil, die and reincarnate with the same intent and designs?

"It would appear that they are either exempt from the normal laws of karma, and thereby their between-lives spiritual education is sorely neglected, or else they are being allowed to pursue their folly in order to serve a higher purpose for the evolution of humanity, in which latter case, like Judas, do they really hang themselves in the end, or just get a slap on the wrist?

"Are they skipping 'Judgment Day', following a life of crime, or do they just keep getting paroled, like in our own justice system: "As below, so above?"

COSMIC AWARENESS:

This Awareness indicates that the *Law of Karma* is that which is a Divine Justice in the universe and does indeed balance the scales, although it sometimes may take many lifetimes for the scales to be balanced in the fulfillment of karma. This Awareness indicates that if an entity is responsible for the great deaths of masses of people or great suffering inflicted on masses, and the entity passes over into a next lifetime, that entity then reincarnating back into a new physical body may not remember all the negativity that he has spewed out on humanity, and if the entity is so entrenched in his negative ways and has so embraced the negativity, he may begin to repeat again in the next lifetime the same errors.

This Awareness indicates however, if the entity, not remembering his previous incarnation, comes into the world in a new body, with no memory of the past, and has been given a clean slate, even though carrying a karmic debt, the entity may also experience a certain kind of love, kindness and gentleness from those who care for him as a small baby, and this entity may develop a different load for this lifetime from which to act out his feelings.

How a Real Bad Guy Can Balance the Karmic Books

If this entity no longer has the need to express his hostilities as was needed in the previous lifetime, but has more affection for people because of the way he was loved and treated in this lifetime, he may begin to serve, and with the love and service he expresses in this lifetime, having a heavy karmic load, he may find his service needing to be expressed far greater than the normal need to serve, so that he works his way into a position in which he can serve masses, and serve them well, to balance out much of the great karma he has racked up in previous lifetimes, by now, in this lifetime, racking up good karma in turn, and thereby bringing about a balancing of the books.

It is unlikely that this can happen in a single lifetime, but it is possible, theoretically, for a very negative person, in one karmic lifetime of extreme debt, to come back in the next lifetime and pay his debt to humanity,

and thus begin the third lifetime with a karma-free slate. This is the theoretical potential under the *Law of Karma*.

How it works in actuality will depend on the individual, the nature of his karma, the degree of the karma, the mass of karma, and the ability of the entity to switch from negativity to some positive service for humanity in another episode of his life.

Karma Can Also be Balanced During a Single Lifetime

This Awareness indicates that karma can also balance within a single life. An entity may spend many years in his youth sewing wild oats, and then become a very upstanding citizen, giving great service to others as some realization of the error of his ways.

This Awareness indicates the use of the word "his' is not implying that there is no same type of application to "her." The use is merely simplifying the linguistic need for conveying information. It equally applies to female, as to the male.

Can a Bad Guy Reincarnate and Repeat his Past Evil Life?

FOLLOW-UP QUESTION:

Awareness, have there been cases, historically, where some entity who was responsible for incredible crimes against humanity reincarnates, maybe perhaps with a clean slate, and perhaps triggering memories of the past life, where he created these violations, or perhaps not triggering the memories, but he goes through that new life almost repeating what he did in the previous life?"

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative. This Awareness does not wish to get into listing names or into historical characters at this time. That is simply a curiosity that is not of great necessity. It satisfies only curiosity.

DO KARMIC LEADERS LIKE ALEXANDER ESCAPE KARMA?

FOLLOW-UP QUESTION:

I've heard there is such thing in terms of 'karmic leaders'; that these entities come down to do a certain thing that affects masses of people, and even though it could be negative, as in the case of someone like Alexander, these entities escape great karma because of that. Is there any truth to that?

COSMIC AWARENESS:

This Awareness indicates that there *are* some situations in which humanity may be moving off course, and there is a need to make drastic changes in the direction of civilization, and that entities such as Alexander will be brought into the picture to change the course of human development, and this entity, in fulfilling that role which was ordained from on High, will not necessarily receive great karmic punishment.

This Awareness indicates it has also been given that those entities who have fulfilled their basic karma on earth and have been given their reprieve, do no longer need incarnation in order to satisfy karmic needs; these entities , then capable of and having the right to move on to Celestria, and Higher Realms, sometimes will volunteer to return to earth for the purpose of helping others to rise to higher vibration, to overcome their karmic debts.

This Awareness indicates these entities, which Awareness has referred to as Wanderers; people who go from planet to planet or from plane to plane, assisting in the uplifting of others: these entities may come back into a life setting and in their life setting, they have a certain purpose.

In the process of fulfilling their purpose, they may create some karmic debts to individuals here and there, but after they have passed over, they are not required to return to those places to balance the karmic books, because they had already risen beyond any karmic debts and did not return in the first place for the purpose of ridding karma from their souls.

A Wanderer's Karmic Debt Often Forgiven by Grace

Therefore, as the karmic debt is created from their new mission, it is often forgiven by Grace so that the entity needs not return to further a karma for the work done while on the mission. This Awareness indicates that an example of this would be the entity Ronald Rummell (Creston), who entered the earth plane from the planet Vega to help alert mankind to the nature of certain extraterrestrial threats and to help discover the nature of mankind's deepest problems in their continual relationship that was moving toward subjective enslavement to the money system of the extraterrestrial forces.

The entity, in the process, developed many friends who supported and helped him in his work and in some of these relationships, the entity left owing debts to these entities, which could be considered a karmic debt, but these karmic debts from this entity will not be held against him for his service while in that lifetime.

This Awareness indicates that the individuals who are owed the debt, if they are reasonable, will also find it easy to forgive the entity in recognizing what he was doing and how he had more or less given up everything he could have done for himself and devoted himself totally to the work at hand for the benefit of mankind.

This Awareness indicates that this being an example. The entity of course did not create any heavy karmic debts; did not cause any violence on anyone, and the entity's debts were simply a matter of his dedication to his purpose and inability to attend his own personal needs, and occasionally leaving someone else stuck with the bill of his work; this includes telephone bills and such.

These are minor karmic things, but are totally erased by the Law of Grace. This Awareness indicates this as simply an example. There are of course other Wanderers who also have left certain karmic debts. If an entity is not a Wanderer, an entity might need to return to attend to those karmic debts of the same magnitude, but having once overcome the basic karmic debts an entity owes, and having risen to other levels of the spiritual plane, the entity would not be required to go back.

This Awareness indicates this is because it is almost impossible to live in a physical body without creating *some* karma. Every time you meet someone, every time you work with someone, you create some kind of relationship, a karmic relationship begins to develop,and you develop this karmic relationship with entities in all of your affairs in life, and there becomes a need to balance that karmic debt with the entity.

If you can constantly be aware of the need to harmonize your relationships with everyone and before

Complacent ignorance is the most lethal sickness of the soul. (Plato)

leaving, work with the memory and energies of those with whom you have related, you can gradually free yourself of any karmic debt before passing over.

How to Clear a Karmic Debt With One Who is Deceased

This Awareness suggests that entities wishing to clear karmic debt with people who are now no longer in their lives can do so simply by visualizing the person, talking to the person, explaining what your situation was at the time the karmic incident occurred, and taking your time to explain clearly, and asking the entity to explain his or her side of the situation.

Then you may switch positions and speak in behalf of the person to whom you have been karmically connected, and get that person's input on the situation, acting out both sides, both roles, talking out all of the details as remembered and as understood by the other party as well as by yourself, until you reach a conclusion to your situation that balances the arguments to a mutual understanding.

This Awareness indicates it is commonly helpful if you change places with the other person. If you sit down at a table, for example, and talk to your mother or father, or your ex-spouse, or your karmic adversary, and give your side; then switch places, go to the other side of the table and respond to the argument you had given, and back and forth in this manner, discuss the issues until they can be resolved. When this occurs, the karma will have been resolved also.

After Clearing the Karma Your Health Will Improve!

The amazing thing about this is that these karmic energies will have already placed upon your physical body certain blocks in your psychic and emotional levels which will have an effect on your physical well-being, and when you resolve these issues karmically in this manner, the blocks will dissolve, the energies will fade, and the emotions will balance, and your general health will improve, and you will receive more energy from the release of the blocked energy that has been prevalent since that event originally occurred.

This Awareness indicates if you can do this through the many traumas you have experienced, from the time of childhood up to the present, you will find your entire health and vitality, your attitude toward life, your ability to function more successfully and more efficiently, all of this will improve, and your life can take a major change for the better.

This Awareness suggests that this is something that *everyone* should begin working with, for everyone has these traumatic karmic memories of certain events during their lifetime. This Awareness indicates that once this is completed, they may wish to look back into previous lifetimes and release some of the long-term karma, the inter-lifetime karma.

This Awareness indicates that unfortunately, there are entities who have hostilities from karmic situations in their lifetime, and these hostilities are so strong they do not want to reconcile with the entity who is the adversary, and rather, they remain hostile and carry the hostility toward the entity.

There are many people whose father may have died 40 years ago and they still are hostile to the father, and therefore, they do not wish to talk to the father again, to reconcile any karmic carry-overs, and they do not wish to rectify, even to the point of helping their own health or increasing their own energy. They would rather die than let go of the righteous indignation they feel for this entity who is now long gone and no longer present, because the entity so violated them.

This Awareness indicates that this is very unfortunate, because it does indeed continue the violations.

Avoiding Some Family Members

FOLLOW-UP QUESTION (VIKKI):

If there are family members that you don't see any more and that's just fine with you, does that mean you're holding hostility?

COSMIC AWARENESS:

This Awareness indicates that this is not necessarily so. This Awareness indicates however, if the family members you do not see any more cause you to have a negative feeling when you think of them, this is probably because the outstanding memory that you hold, the outstanding emotion, was based on some incident that triggered a karmic carry-over or memory, and you would be better off to recall and refresh yourself with that incident and work through it so it can be totally released, not just forgotten. !

If a Wanderer Should Commit Suicide

QUESTION:

Awareness has given a lot of information about suicides and the dire consequences of those who would take their own lives to escape the trials and tribulations of life on earth. In the case of Ron Rummell...

COSMIC AWARENESS (INTERRUPTING):

This Awareness indicates that this has not been evidenced that this was a suicide. It was simply a police cover-up that indicated suicide.There was much evidence that it was murder.

QUESTIONER:

Yes. I was going to make that statement before I was interrupted. To repeat: In the case of Ron Rummell, or any other Wanderer for that matter, if he indeed *had* committed suicide, is the fact that he's a Wanderer, does that supersede the consequences of an ordinary person killing themselves?

COSMIC AWARENESS:

This Awareness indicates that to a considerable degree this will be a non-punishable incident; however, it would also stick with his own memory and reputation and self-esteem, if indeed he copped out on his mission. He would feel himself to be a kind of failure.This Awareness indicates that this again is not the case with this entity.

"SELLING SHORT" IN THE STOCK MARKET: DO YOU CREATE KARMA?

QUESTION:

A question from Frank K., in Fishers, Indiana. He writes: "My first question is about karma. I have a friend who plays the stock market. One of his favorite things to do is to find a company that he thinks will do poorly in the future, and then "sell short" the stock. If that company does poorly and the stock price goes down, my friend makes money.

"Conversely, if the company does well, the stock price goes up and my friend loses money. Does my friend incur negative karma for profiting off of a company's poor performance? What if the company was one that makes things that may be harmful to society? Like weapons,

tobacco, et cetera. Would he still incur negative karma then?"

COSMIC AWARENESS:

This Awareness indicates that the entity is simply playing odds, playing the odds as he sees them. If he sees a company that is being poorly run or appears to be in a marketplace that is not friendly to it, and he makes his bid or puts forth his stock, his investment in the belief that that company will fail; he is simply investing his money in a certain way. It is not a matter of him manipulating the company into failure and gaining from that. It is more that he is simply reading the handwriting on the wall and making a bet on its failure. It is a kind of gamble, but it is not something that would result in karmic indebtedness on his part.

This Awareness indicates that in this action, he can to some degree profit from the weakness of the company, but it is the company's weakness that causes its own failure. This Awareness indicates that this is not a truly karmic debt that the entity is creating. It is simply another way of playing the game. It is likened unto playing the game of chess.

There are different ways to maneuver your chess pieces, and some ways can be more advantageous and some can be less advantageous. To sacrifice a pawn for a rook, or a pawn for a queen could be seen as unfair and indeed, worthy of some kind of karmic punishment, in the world of chess.

But This Awareness indicates that is the nature of game. That is the way the game is played. If you can sacrifice a pawn for a queen, you have played the game well. These are the rules, and those who play the game learn to live by the rules. If they don't like the rules, they should not play the game, they should stay off the board.

This Awareness indicates it is likened unto the saying "If you don't like the heat, stay out of the kitchen." This Awareness indicates the same with the stock market; there are rules and ways of playing the game. As long as entities have a standard of rules that applies to all the same, and play by those same rules, whatever is done under those rules is fair game, even though it may seem unfair to someone who is examining the rules and thinks, "Hey! These rules do not seem to help when a person is in a bad situation!"

This Awareness indicates it is much like any game. When there are standard rules and they have been accepted by all involved in the game, then the rules rule, like it or not. This Awareness indicates that if the entities do not like the rules, they should lobby for some kind of legislation that creates a rule that you cannot sell short, if a company is under a certain amount of assets or has a certain amount of assets.There could be laws passed to protect such companies, but until such laws are passed, the entity is playing by the rules. He may be using rules or techniques that are not commonly observed by other players.

DO CORPORATE RAIDERS INCUR KARMA?

FOLLOW-UP QUESTION:

Would that also apply to the corporate raiders, who also play by the rules, but the consequences of raiding a company and then selling it off, and laying off maybe hundreds or even thousands of people in order to make a profit on his stock; an action like that would seem to me to incur karma?

COSMIC AWARENESS:

This Awareness indicates the action is that which costs the energies of many people, and that part would incur karma in that the behavior has hurt entities; those who are laid off. As far as the business goes, the action may simply be part of the game. The problem is that many of the people who are laid-off are not really players in the game. They are simply trying to get along and they have not been told of the threat above them through the business world, and the stock schemes and plans of the various raiders and therefore, these higher games that are being played above their head can affect their lives and cause them to lose their jobs and sustenance.

This Awareness indicates that it is not simply the karma of the ones who raid the company, but it is also the karma of the society that does not protect the innocent involved in the effects of such raiding. This Awareness indicates that there is of course some karma involved among the innocents, who do not take the time, or have the energy, or have the opportunity, or desire or inclination to learn more about the security of their job, well before it is ripped from them.

This Awareness indicates it is a question of whether the worker in an assembly-line has any rights other than to work as long as the job is provided, or whether the worker should investigate the soundness of the company for whom he works, and if it is seen that the entity should investigate the worthiness of the company for whom he works, then he is responsible for the loss of job, at least in part, because he has failed his duty in such investigating process when he took the job.

This Awareness indicates there are different ways of looking at things and sometimes the argument can be used, and rightly so, that the worker's karma is that he lost his job because he didn't check out the company he went to work for, to find if it is truly sound, or he didn't continue checking on it while working for the company to discover that there was someone trying to raid it.

This Awareness indicates of course, there is also the question of how much responsibility for checking on a company can a worker have? The worker is not privy to the information. How can a worker be expected to know or to find out about the strength of a company? It is generally the greater karma from those who should have known, who could have prevented it, and who knowingly helped to cause the loss of jobs for the people; that these are the entities who would receive the greater karma from such an incident.

Thus, the raider of a corporation, who causes the loss of many jobs for many entities, would receive the greater amount of negative karma from the action. This Awareness indicates of course, if there is deception involved, such as the appearance that you are doing something to help the company, when in reality you are simply trying to get a toe-hold in order to rape the company's assets; this kind of deception increases the degree of karma. But this Awareness does not wish to create a major study of corporate karma and business karma, or debts, *It* simply wishes to explain karma itself and how it applies.

PLEASE SEND US QUESTIONS!

We really need good questions! Put on your thinking cap and send them in! Send by mail, FAX, or E-Mail to C.A.C. Many thanks!

THE DIFFERENCE BETWEEN "GOD" IN THE BIBLE AND COSMIC AWARENESS

(Why didn't God answer the prayers directed to Bael?)

QUESTION:

Another question from Frank K.. Awareness has covered this, but I'll read it anyway. (Is he a new member Vicki?) He writes: "I have a question concerning the difference between Awareness and the God referred to in the Bible. Throughout the Old Testament, the Israelites are repeatedly warned not to worship other gods, such as statues and other images.

" When the Israelites takes possession of new land, they are warned to completely destroy all images of Bael and to kill all the priests of Bael. At one point there is a contest described where worshipers of God as well as worshipers of Bael each try to call fire down from heaven to burn up an offering.

"Those praying to Bael try all day without success, whereas those praying to God are immediately successful. My question is this: would God simply be an expression of Awareness, whether called God or Bael? Why would God tell the Israelites to destroy all images of Bael, and even kill Bael's priests? It seems like that would be Awareness working against Itself. Also, why would Awareness answer prayers directed to "God",but not those directed to "Bael?"

COSMIC AWARENESS:

This Awareness wishes to make some major changes in the scenario just described. This Awareness indicates that at the time being discussed, groups around the world, the various tribes, all had their own gods. Their gods were simply focal points, just as your flag is a focal point for your nation, symbolizing your identity as a nation of people with a history.

The gods of the various groups were simply statues or images to help groups identify themselves and to give some power through the symbol of the god so that their enemies would quake and shudder at the thought of "Those guys over there really have a powerful god! Don't mess with them!"

The Israelites, the early Hebrews, were nomad types. They had no land at the time which they could call their own, having in part been nomads for quite some time, moving around the desert, and therefore, they could not easily haul some great statue, some great god around on their wagons, frightening those other tribes, whose god was larger and had its own place, its own walls and buildings and palaces. Therefore, they were in a precarious position.

The way that many of these tribes intimidated each other or robbed each other was to go in and destroy the others' gods and to take the women or the treasures through rape and pillage.

The Israelites Invent an Invisible God of Great Power

The Israelites, being nomads, wandering around the desert, trying to stay out of trouble, (trouble being the threat of other tribes), came up with a brilliant idea: "Let's have an *invisible* god, a god that is so great and so powerful that you can't even say his name! His name is secret, and no one can even reveal his name, but the priests know the name of this god!"

The Israel or Hebrew tribes decided also to create fantastic stories about the power of the god; how totally powerful this god was, how this god even helped them escape from Egypt, and therefore, they create these fantastic stories, and tell these stories, and the stories spread, and the tribes hear of the Israelites, the Hebrews and their god, and how their god is all-powerful and is invisible, and how it destroyed Bael gods everywhere it went.

The gods of Bael were destroyed by this invisible god as it shot fire from the heavens and wreaked havoc everywhere. This Awareness had nothing to do with this incident. *It* did not choose Bael over Jehovah.This Awareness indicates that the story was simply the one that served the purpose of a nomadic people who had to come up with a version of their god in a way that would protect them from the dangers of civilizations at the time.

This Awareness indicates the symbolism, the connections to extraterrestrials and the names; all of this had some ring of truth here and there, but in the world of higher truth, in the world of consciousness, in the world of reality as perceived by this Awareness, this was simply very like the children in a neighborhood shouting to each other:"My dad can beat up your dad!" "Oh, yeah! My dad beat up his dad! And his dad beat up your dad!"

This Awareness indicates it is nothing more than attempts to intimidate your enemies by having a bigger god, a better god, a god with greater powers.

QUESTIONER:

Yeah, the entity in the question evidently believes that because those who prayed to Bael without success, and those who prayed to God were immediately successful, that Cosmic Awareness had a hand in this.

COSMIC AWARENESS:

This Awareness indicates that these are stories. There is no evidence that this ever really happened, and for this Awareness to comment on some story that a tribe had back in those days, thousands of years before this time, would be folly. This Awareness indicates there will probably be a time 5000 years from now, where people will be asking this Awareness about why certain things happened to Luke Skywalker, when it doesn't make sense in light of the role this Awareness plays in their society of the time.

This Awareness indicates that *It* can hardly wait.

Did Judas Really Betray Jesus for Money?

QUESTION:

A question from Richard M., York, PA. He asks: "Concerning Judas, the alleged disciple of Jesus, did he really betray Jesus for 30 pieces of silver? Did he really even exist?"

COSMIC AWARENESS:

This Awareness indicates that it appears this story is based on a hand-me-down story from an earlier culture. There is seen the word Akadia. It appears to have come from an earlier culture that was close to the time of Sumer, in the Tigris/Euphrates cradle of civilization. This appears to have come from those early times described in Zecharia Sitchin's book on *The Twelfth Planet*, but the story being handed down through writings from civilizations some thousands of years prior to the Christian accounting of the situation.

This had taken many different turns in the secret schools; the story passing from generation to generation, suggesting the betrayal of truth, the betrayal of light, the betrayal of Christ Consciousness for material gain.

Did Judas Actually Exist?

FOLLOW-UP QUESTION:

Did Judas actually exist?

COSMIC AWARENESS:

This Awareness indicates that this entity was fully real as Obe Kenobe, as real as Mickey Mouse, as real as Hans Solo, or any of those other great heroes of mythology. This Awareness does not mean that there was no entity named Judas; there are always entities available to serve as a stereotypes for a myth. There are always people who help make the characters in a story.

The writer of a story may be thinking of his uncle while describing some great detective, but the uncle may have had a different name, or the uncle may have not been a detective at all. The uncle may have been a cowboy instead, but because of some characteristic of the uncle, the writer calls him a detective because he needs a detective in his story (page 3) and in his story he needs someone who has certain qualities, and he likes the qualities his uncle had because they match what he needs, and therefore, he writes of this detective while thinking of his uncle.

Then someone comes along and asks: "Did this detective really exist?" The answer is, "To an extent, yes. In actuality, no. In name, yes. In actuality, no." The characteristics of the entity did not match the character in the story. This Awareness indicates that if you wish to be more precise, This Awareness indicates that the entity Judas represents the sign of Pisces in the 12 disciples.

Pisces is the end of the cycle, and having qualities of a nature that portrays confusion, deception, lack of clarity, a lack of certainty. In the sign of Pisces, remember that the Christian Age was the sign of Pisces, the Fish, and Jesus being a Fisher of Men, therefore, do not think for a moment that Jesus was portraying Judas as a deceiver in condemnation of Pisces or people who are of the Pisces sign, for the Pisces sign was also held in high esteem, as Jesus himself represented the Piscean age.

WAS THE PISO FAMILY AUTHORING THE BIBLE A POSITIVE OR NEGATIVE THING?

QUESTION:

A question from JD in New York: "Can Awareness give us some, if any of the subsequent or prior if significant, incarnations of the members of the Piso family, cited as authoring a large portion of the Christian Bible?" And she adds:"Was their authorship essentially a positive or a negative action?'

COSMIC AWARENESS:

This Awareness indicates that this was a necessary action at the time of Rome's most critical stage, because Rome was being torn apart by religious factions of different types. Religious sects from India, from Greece, and from other areas in the Middle East and Africa all had certain representatives in Rome and Constantine was being made aware more and more of battles between these religious sects, and for awhile, after the battles had been raging or occurring or flaring here and there, there was a question of whether the Roman army should clamp down on *all* religions.

This Awareness indicates however, it was determined that they would try to find a way of reconciling all of these religions under one grand Holy Roman Catholic or universal religion. The word "catholic" meaning universal or all-encompassing, and therefore, Constantine employed the Piso family, who were well-known scholars, to work on compiling a composite religion utilizing all of the various religions in Rome, in terms of the heart of their teachings, bringing them together into one story that could be accepted and made official as the religion of Rome.

Pisos Wrote the Testaments for Council Approval

This Awareness indicates that these entities went to work and they attributed various chapters from the family writing to different disciples or apostles, to make the writings appear to be more authentic so that there would be different accountings of the story from different sources, or different viewpoints, and when these were completed, or near completion, they brought all of these various religious leaders together in that Nicene Council in which they argued over the details of the text, of the document, until they were each satisfied that they had been properly represented and that the story more or less represented their view of the world.

There were those sun worshipers of the Helios religion that saw the sun as the representative of Divinity and the 12 disciples as representing the 12 signs, and there were those who reflected the philosophy of Indra and of Buddha and of Krishna, in which the stories of their great deeds were incorporated in the stories of the hero of this document, and there were the stories of the Essenes and their Yeshua, and they were incorporated, and there were stories from the Egyptian secret schools that were incorporated, and Ra and Isis were seen in there as the Son of God and the Mother of God.

This Awareness indicates that everyone finally realized they had been represented in the story and agreed to adopt the story as officially satisfying their needs. This Awareness indicates that once this was adopted, they all had that which they promoted as their particular favorite view of the story so that they could use the doctrine and maintain their religious view for their own subjects, their members.

Piso Family Created a Society to Preserve the Truth

This Awareness indicates that from there, it has been promoted as truth, and over the years, this so-called truth has been propped up and handed down from generation to generation with supportive writings and additional text to help keep the story official.

This Awareness indicates the Piso family having put together the text also created a kind of society that would preserve the truth as to their own writing, and this was a very narrow society for some time, for only certain elite Romans would know of their involvement, but gradually, it grew to include many different historical leaders down through the years, and this is discussed further in the release of information from this society.

Pisos Put Secret Codes into the New Testament

This Awareness indicates that each of the writers of the family had their own way of inserting coded information to prove that they themselves had been the writer of the material, and there were some who tried to take claim for writing a certain book of the New Testament, and there were arguments as to who really wrote that book, but there were also ways to determine by deciphering the coded information to know who was the true writer of that book, and this has been preserved in the society and its records.

This Awareness suggests that the editor provide to the membership the address again for information on this society and how to obtain further material relating to this family.

Some Significant Reincarnations of the Pisos

QUESTION:

Did these Pisos surface later in later reincarnations significantly?

COSMIC AWARENESS:

This Awareness indicates it appears that the father of the family surfaced as one King James, who ordered the rewriting of the Bible to conform to earlier texts; that other members were involved in helping of the rewriting of the King James' version. There was also some influence from three of these entities in a revision of Biblical texts during the second millennium of the Catholic Church, working on the Catholic Bible.

This Awareness indicates there have been many karmic attachments of the family to the texts so that they occasionally reincarnate in ways whereby they can have further influence. This Awareness indicates it also appears that one of these family members was incarnated in such a way as to have access to the Dead Sea Scrolls.

Ed's Note: those interested in the Bible and the Piso family who wrote it, can obtain the booklet: "The True Authorship of the New Testament" by Abelard Reuchlin, which contains the very first explanation in recorded history as to how the Pisos wrote the New Testament. Send $5.00 to The Abelard Reuchlin Foundation, P.O. Box 5652, Kent, Washington 98064.

Any Benefit in Correcting 'Natural Eyesight'?

QUESTION:

On a more mundane level, another question from JD. She writes: "Please advise whether one's natural eyesight has some good purpose, and whether "correcting" it with lenses is liable to be harmful. In my case, I suspect that poor-distance vision in my right eye somehow helps me to stay in touch with the "Inner World" possibly through the Crown Chakra.

COSMIC AWARENESS:

This Awareness indicates that this refusal or reluctance to wear lenses can be somewhat beneficial, only if the poor eyesight is caused by laziness. A lazy vision or eyesight wherein the muscles have become lazy, such as the focusing muscles become lazy, may improve in time with proper nutrients and proper exercise, whereas adding lenses can simply make the muscles even more lazy.

The Tibetan Eye Chart is Recommended

This Awareness indicates that there are certain benefits from some of the Chinese exercise techniques. There is the Tibetan diagram that gives an exercise technique for focusing on the diagram and running the eyes around the diagram in such a ways as to give a good exercise to the eyes, so that the muscles for focusing become stronger.

This Awareness indicates that there are entities who have accepted poor vision as a protection against harsh reality and the worsening vision becomes a matter of escapism, and sometimes traumas can set off the mind frame or mindset to have worsening vision in order to avoid the harsh reality.

This Awareness indicates there are sometimes efforts from part of the entity's personality to counter this by putting on lenses and glasses to bring about the sharpness of reality, but there is often a kind of need to have the eyeglasses as a shield, so that they see reality, but do not have to be involved so much, so directly without their shield.

This Awareness indicates in other words, there are many psychological ways that entities can play with vision to satisfy some unconscious need. Some entities may learn to put their eyes out of focus in order to become more focused on an interior or internal world. Often that action of putting the eyes out of focus helps to lead toward lazy muscles. Sometimes it helps to worsen the focusing power of the eyes.

Defocusing Eyes Can Enable One to See Auras and Spirits

This Awareness indicates that it can also be useful in helping entities to see auras or to see spirits. This Awareness suggests that it can be used to see into other dimensions, but entities need to be careful because it can and often does lend to the weakening of the vision, because when you begin defocusing the eyes, it is a way of making the muscles relax, and once you train the muscles to relax and not focus, it requires effort to make them focus again.

Therefore, unless you put forth the effort to get stronger focus, they may start becoming weaker as a result of the defocusing action. This Awareness indicates if you have been defocusing, it is good to find some kind of activity, such as the Tibetan eye chart in which you can focus and exercise the eyes in focusing as the focus moves around the design.

It is also good to put yourself in a position where you can look long distances at needles on a tree on the hillside, or at a bird faraway, or anything else that requires intense focusing, and then move up close to something that you hold only a few inches before your face.

Practice focusing on very small print on a medicine bottle. These actions of exercising the eyes can help to counter the defocusing action and keep your vision strong. But of course, good nutrients are also important.

FOLLOW-UP QUESTION:

If the questioner corrected the vision in her right eye by whatever method, would she lose touch with the 'inner world', as she calls it?

COSMIC AWARENESS:

This does not appear to be a concern, because the entity can simply close both eyes at any time she wishes to get in touch with the inner world.

Cosmic Awareness Appreciates The Questions in This Reading

CLOSING MESSAGE:

This Awareness indicates that *It* again wishes to express appreciation for the many questions that have been asked in this reading. This kind of information that allows for a variety of concepts, a variety of understanding to be explored is essentially a reason why this Awareness has come to this plane. This Awareness indicates that *It* often has indulged certain questions that appear to have little purpose or value other than to satisfy idle curiosity, but this Awareness indicates in doing so, *It* recognizes that even idle curiosity has its place in the scheme of things and this Awareness wishes to accommodate all kinds of questions that are reasonably important to humans.

Unaware Entities Like a Wart on the Body of Awareness

Therefore, this Awareness will continue to respond to these many different kinds of questions, but does

particularly find a special appreciation for those that help entities to understand and grow from the inform- ation given. This Awareness reminds you that as each entity grows in his or her understanding, it feeds the body of this Awareness, for when entities are separated from Awareness, are in some way isolated or cut off from their higher understanding, it is likened unto a wart on the body of this Awareness, and when they come into oneness with this Awareness, it is likened unto the wart dissolving and becoming clear as a kind of beautifying skin on the body of this Awareness.

This Awareness indicates of course, this is a metaphorical description, and *It* does not wish to set off a flurry of questions about how Awareness treats *Its* warts, or how many different kinds of illnesses and medications Awareness uses, for *It* is simply speaking metaphorically.

What's It Like to Have No Soul?

(More on the Rudimentary Soul of Cats and Animals)

Another question from Matthew. Awareness has covered this, but he's got a different angle here. He asks: "Could Awareness explain the concept of the soul? H.B. Puryear , in his book The Edgar Cayce Primer said that it is a combination of spirit, will and mind. He, and I believe, Awareness said that only human beings have souls. What is it like to have no soul? And how would an entity know?

COSMIC AWARENESS:

This Awareness indicates that will is intent. If an entity does not have intent or a purpose, the entity may have spirit and mind without purpose, and in that lack would have no complete soul. In other words, there is the Triune or three parts of the soul: spirit, will and mind. The entity may have mind, which is a form of thought or the ability to think.

Even a cat or dog or animal may have some rudimentary thought. In other words, these animals may have the beginnings of a complete soul, and their purpose and intent may be to feed themselves, to find food, or to survive from one time to another, or to reproduce. Therefore, there is some intent involved, so they would have some rudimentary souls. Obviously, they all have spirit.

This Awareness indicates that as to the question: What is it like to have no soul? It is possible to have an evolving soul, a rudimentary soul being developed, but not being able to think or to have any intent or purpose or will, and be just spirit, like a butterfly; it is simply lack of certain qualities in one's being.

This Awareness indicates of course, one can say "Well, even the butterfly has a purpose." It may be hungry; it may want pollen from some flower, and of course, that is true, but again, it is a rudimentary soul, a very primitive soul, just beginning.

This Awareness indicates perhaps the life force of a protozoa would be seen as even more rudimentary, but one could even argue that it has a purpose of sorts, in that it has its appetites and seeks to satisfy its immediate needs, so it has an even more rudimentary or primitive soul, if it can be called a soul.

In general, the word is a matter of degrees. How strong a soul are you speaking of? How much of will is necessary to create a total or real soul? Many entities have rudimentary souls; this in reference to human entities. These entities may have a purpose in life to get from one place to another, to find something to eat, to sleep, perhaps to get drunk, perhaps to get some place to call their own.

This Awareness indicates this is a soul, but is it a developed soul? Is it a soul that is highly developed? Another entity may have a grand design or will to do something fantastic with his or her life, and the entity may have deep and wondrous thoughts and may be able to put those thoughts in order and toward some purpose and goal, and this entity may reflect a soul that is highly developed.

There Are Different Degrees of Developing Souls

This Awareness indicates in other words there are developed souls of different degrees; souls in the process of developing, souls that have been highly developed, and of course there are those very primitive and rudimentary souls of creatures that are barely alive and have little communication or thought skills.

This Awareness also suggests that souls are a kind of magnet. They tend to draw in certain energies. It is the magnetism of an entity that creates a hunger for example. The soul is that which hungers or seeks or wants, and this of course gives it will or desire, and that plays a major part in the development of the soul. As entities desires are strong, the soul appears to be more magnetic in drawing the entity toward some purpose, in other words, creating a stronger will.

It also follows that when one has a strong will, one tends to be more focused in thinking and the thinking process then improves and evolves. The spirit is still there of course; it is always the screen on which the desires and will and thoughts operate. The spirit is likened unto an energy of life that is everywhere present, and it animates and gives life to an entity so that an entity's soul can operate as a living thing.

At What Point Does a Soul Begin?

One might ask: "At what point does a soul begin? Does the soul begin only after a strong will is formed, or does it begin only after a certain IQ is mustered by a thinking mind?" This Awareness indicates it is not something that has been defined and measured by any of your human standards of measurement.

This Awareness indicates essentially it has been suggested that a certain number of souls were created on certain inner planes, and these souls have gone out into the various dimensions, and this Awareness indicates that there have been no sciences or methodologies created to measure the development level of a soul, and therefore, it is of little significance at this time as to how much development is necessary in order to qualify that one has a soul, or doesn't have a soul as yet.

Thus, the question: "What is one without a soul like?" has little meaning until one can find a way of defining at what stage a soul becomes a soul. It is likened unto looking at a child growing and asking: "At what level does one become adult?" You arbitrarily will think "21" or "18" because you have made it so that an entity can do certain adult things at 18 or at the age of 21, but this was an arbitrary labeling relating to birthdays and has nothing to do with the individual's development. It was just a general aging, the standard that was set to help decide when someone was an adult.

You could do the same with a soul if you had measurements such as ages that you could put on the soul. A soul is "this many years old" therefore, it is now a full grown soul. It is now a soul, whereas four days ago, it wasn't. This Awareness indicates that this is simply a matter of subjective determination, and has no way to be objectively evaluated. But in a general sense a soul is considered complete when it has a will, a mind, and spirit, in relative development.

HOW TO GET THIS NEWSLETTER BY MAIL
EVERY 3 WEEKS (More or Less)

REVELATIONS OF AWARENESS is a cosmic newsletter, published by Cosmic Awareness Communications, P.O. Box 115, Olympia, Washington, 98507 (A not-for-profit organization). Membership fees and donations are deductible from your Federal Income Tax. Try to remember Cosmic Awareness in your will if you want these messages to always be available to others in years to come. ("How many have you served, and how well?" Is the question Awareness asks us all.)
