Amazing Grace: Introducing the New C.A.C. Interpreter

"Project "L.U.C.I.D"—the Beast 666 Universal Control System

(CAC General Reading, Sept. 27, 1996)

How Corporate Guards Act as Police (Our Growing Police State---They are everywhere!)

OPENING MESSAGE:

This Awareness indicates in a reading yesterday, this Awareness indicated that much of the New World Order is not only being promoted by the super wealthy families in the world, but also by corporations. This Awareness wishes to comment briefly on a fact that relates to this. This Awareness indicates there are approximately half a million police officers in the United States.

This Awareness indicates there are approximately one and a half million private guards controlled by corporations and businesses, and private guards that are made available to corporations and businesses through some individual guard company. This Awareness indicates that in a crisis or emergency, the corporations can use these guards for various purposes, not necessarily with the same restrictions that police officers would have.

For example, they are often used to break up strikes or to search for individuals who might be in some way damaging the corporation or giving information about the corporation, such as whistle blowers. These guards are even used to stop whistle blowers from releasing information about criminal actions of the company.

This Awareness indicates it is important to realize that three times as many private guards are active in this country as are police officers. These entities are not as well trained, nor do they necessarily have the proper clearance to be a police officer. There was in fact one case in which an entity was one of the Ten Most Wanted persons in the FBI files who was a private guard.

This Awareness indicates that you can imagine what this might mean when and if a crisis comes down, in say the event of some national emergency. This Awareness indicates also, besides the private guards, there is a great increase in federal police. The police in the past history of this country were never federal police, but at present there are at least 150 agencies in which the entities employed by these agencies carry guns and act in the role of police in enforcing the federal rules of the agencies.

"Project L.U.C.I.D." Is Here! The Beast 666 Universal Human Control System

QUESTION:

In regard to the New World Order, Texe Marrs puts out a newsletter and he writes books from the Christian Biblical point of view. In his last issue he sent out a special edition called "Project L.U.C.I.D. is here! The Beast 666 Universal Control System." It contains a lot of information Awareness has given over the years, but it seems to be updated with other information and people are already writing in about it, so I thought I'd read a little of this and ask Awareness about it.

His newsletter is called *Flashpoint*. He writes: "Flashpoint has received astonishing evidence of an incredible new Beast 666 Universal Human Control System. Officially called L.U.C.I.D., this grotesque system of universal slavery is, even as you read this, being implemented by federal and international intelligence and police agencies.

"The new Beast 666 system will mandate that every man, woman and child on planet earth be issued a high tech "smart" I.D. card called a *Universal Biometrics Card*. The chilling system is slated to be fully in operation by the year 2,000 to celebrate the dawn of the New Age millennium.

This I.D. card allows the New World Order police state to track and link every man, woman and child on planet earth. Our activities are to be monitored 24 hours a day, 7 days a week, by federal Gestapo agencies: the FBI, IRS, BATF, CIA, DIA, DEA, NSA, U.S. Treasury Service, and Department of Justice. International police and intelligence agencies are linked with the Beast 666 system, to include America's Big Brother-enforcing CIA, the vicious Russian KGB, the devious and wicked British Intelligence Service, and Israel's terroristic MOSSAD spy organization.

The computerized *Universal Biometrics Card* guarantees the control and surveillance of every living human being. The card contains templates of samples of the "individual DNA genotype" and his or her "human leukocyte antigen." The artificial intelligence software and special sensors loaded into the card implement a number of other identification methods, including the capture of such human features as profile and facial photos, fingerprints, footprints, and iris scans of the eye.

A computerized pen-like fiber-optic and laser camera will be used at I.D. card issuing centers to be set up around the world. All citizens will be ordered to report to these centers and "volunteer" their bodies to the camera devices so that the I.D. card can instantly be manufactured and issued. Babies born in the future will immediately be entered into the system at hospitals and other birthing centers.

Sophisticated, international, computerized, telecommunications and intelligence gathering centers have already been established in preparation for the issuance of the new human control cards. The world's most advanced super computers are being utilized. All spy information acquired on humans, plus the data from their *Universal Biometrics Card*, is fed into the gigantic network, which is called the *Universal Computerized Identification Clearing House Resource Center*.

"This center is the very heart of the evil L.U.C.I.D., or Beast 666 Universal Human Control System. L.U.C.I.D., reports one reliable source, is an interactive and instantaneous tracking system of all living beings on earth. It is designed so that no one can escape its clutches. *No one*."

Federal and international Gestapo agencies will use the instantaneous information maintained on file at the Beast Universal Computer Center at Fort Meade, Maryland, to trace, investigate, monitor, spy on, arrest, and incarcerate "resistors." "Resistors" are categorized as: "Any and all persons who protest or oppose the Illuminati's fascist agenda for the New World Order."

"Recently enacted so-called "anti-terrorist" legislation, plus the Omnibus Anti-Crime Bill of 1994, are the catalysts which make possible the immediate arrest and imprisonment of any and all persons suspected of being a "terrorist." These persons are deemed as "risks to internal security."

"Significantly, the arrest of a targeted Christian or other citizen will take place *whether or not* that person has actually committed a criminal act. "Thought crimes" alone provide justification for the arrest of dissidents. The arrest of targeted citizens are to be euphemistically called "Preventive Detention".

The person's home, auto, bank account and other property shall be seized. This will be accomplished under existing forfeiture laws, originally designed to stop drug dealers and kingpins, but now being used across America by Gestapo police to harass and bankrupt private citizens opposed to Big Brother government's criminal activities. These forfeiture laws are

conveniently used by federal agencies and local law enforcement authorities throughout the 50 states to grab the property of people not guilty of any crime.

"No court order, no warrant is needed. Recently, treasonous federal courts have ripped to shreds over 200 years of American constitutional law, ruling that "a person's property has no constitutional rights."

Individuals who have been arrested and their properties seized and sold at auction will then be transported with other dissidents by truck, bus and air to a FEMA-managed regional *Federal Prison Transfer Center*, for proper "categorization and disposition." Entire families are to be disposed of in this manner. Neighbors and local communities will be given the excuse that the surviving spouses and children of those arrested are being "assisted" by the government.

Final disposition, when deemed appropriate, will be made at a national *Processing and Detention Center*. The Nazis called such centers *Concentration Camps*. At these "centers" methods and techniques of interrogation, torture, and final disposition, honed and developed by the CIA through its *Operation Phoenix* program are to be used on victimized citizens.

"During the Vietnam conflict, the federal government's Top Secret *Operation Phoenix* program was responsible for the arrest, incarceration, torture, and murder of over 50,000 innocent civilians. The CIA and U.S. Army Special Forces acclaimed it a success and a model and a prototype for future "human pacification programs."

"Preliminary information on Project L.U.C.I.D. is even now being disseminated to federal law enforcement agencies. Managers of these agencies will be briefed on how to use propaganda and cleverly respond to public and local press inquiries, so that the awful truth will not become known until it is too late.

"For example, government PR experts will reassure the frightened and startled masses that, "All constitutional protections remain in place." The White House spin doctors will, of course, soothingly reassure worried citizens that the new system is designed to "protect them" from savage acts by international and domestic terrorists such as occurred in the Oklahoma City and New York World Trade Center bombings.

"The public is to be conned into believing that "L.U.C.I.D. is for their own good, and anyone who says differently is either a conspiracy nut, or a dangerous anti-government protester."

"The Bible predicted that an End Times, Beast 666 Universal Human Control System would be used to control and enslave humanity: "That no man might buy or sell save he that had the mark, or the name of the beast, or the number of his name"(Revelation 13:17). Thus, we knew it was coming. Now, finally, it's here, just as was prophesied.

"Project L.U.C.I.D. is being implemented at the direction of the *Inner Circle* of the Illuminati. Using the global Internet, the system has been developed and is being installed by international corporations, working jointly with United Nations consultants, and U.S. intelligence and law enforcement personnel.

"Project L.U.C.I.D. is Satan's diabolical, End Time system of total and absolute human control. It will put mankind under direction subjugation to the Antichrist, and his jack-booted, Gestapo-thug storm-troopers. Every government on earth will cooperate to oppress its citizens. *There will be nowhere to hide.*

"The purging and cleansing of planet earth is at hand. The Beast intends to be rid of such dynamic "enemies of

the state" as Christian Bible-believers, American Patriots, and flag-waving nationalists. Every nation on earth will join in this campaign to eradicate the "human vermin and diseased human rats" who, it is said, now infect the wounded, sacred body of Mother Earth.

Project L.U.C.I.D. is vividly bringing to pass Daniel 7:25 which reveals that the Beast: "shall speak great words against the Most High, and shall wear out the saints of the Most High, and think to change times and laws: and they shall be given into his until a time and times end, the dividing of time."

This frightening development in human control signals the rapid, breathtaking emergence of the End Times Beast. His universal system is described by the Bible as "dreadful and terrible." The awesome power of the Beast is such that he "devoured and brake in pieces, and stamp the residue" of the saints with his feet. (Daniel 7:7.)

And it goes on, but he gets mainly into more Bible quoting to confirm his information. Will Awareness comment on this "Project L.U.C.I.D.?"

COSMIC AWARENESS:

This Awareness indicates that the information given by this entity and the description as that which is accurate. The slant of course as being that from the Christian viewpoint. This Awareness indicates that it appears this is a chip that was developed approximately 5 years ago, which holds approximately one half million bytes of information. It is smaller than the little fingernail on one's little finger.

This Awareness indicates it is approximately half the size of an adult's little fingernail, and approximately the thickness of a nickel. This Awareness indicates it could be made smaller; it may be even smaller than that in its latest form today. This Awareness indicates that the means by which these chips are being made so small is that of the use of photography.

It is likened unto taking a circuit board, photographing the circuitry, and then using in the photograph a certain kind of substance that allows the dissolving of certain circuits when covered by an acid, and the implanting of a substance in liquid form that later hardens which carries electrical current.

When it is reduced in size, to the size almost of a microscopic chip, it still has the lines that the large circuit board had, and it still has the means to carry electrical current, and as it is reduced in size, the electrical current can become less and less so that even a tiny chip can receive sufficient current from the human body to keep it activated.

This Awareness indicates there is talk and work on a chip that can be injected through a needle into a person's body, although this does not appear as yet to have been fully perfected.

It All Sounds Hopeless but Good Things Still May Happen

This Awareness indicates that you keep in mind that while it sounds ominous and hopeless, that there is no escape, keep in mind that the best laid plans of mice and men *do* tend sometimes to go awry. Whether this will come off or whether it will actually happen is yet to be determined.

If humanity wakes up in time it is possible to throw off this yoke, and this Awareness suggests there are many entities who are already prepared to avoid this. They have been warned through the ages that this was coming, such as these Fundamentalist Christians, and they are willing to risk their lives to stop it.

Many Christians Expect and are Waiting to be "Raptured"

This Awareness indicates the other side of this coin is

that too many of them expect to be rescued by the 'rapture' before it happens and may simply sit back and wait to be rescued. This Awareness indicates that there is a tendency for people to expect, because of the Western conditioning in terms of movies and in terms of stories; there is that tendency for entities in Western civilization to wait to be rescued by the army, by the cavalry, by the god in the Machine, by some hero or some agency of government.

In this case, however, the government has sold itself to the corporations and to the Beast that would be promoting this system. Therefore, entities who hope for the government to rescue them have put their faith in the wrong direction.

No Rescue From Extraterrestrials in Sight Either

This Awareness indicates there is also that group of people who think they will be rescued by extraterrestrials. This Awareness indicates there is the belief that the Pleiadians or the Sirians or some other group cares enough about humanity that they will come for them at the last moment to rescue humanity from these dark forces.

This Awareness indicates the Pleiadians have attempted to make it clear that they did this once before for humanity, and humanity let themselves again be suppressed and oppressed by these dark forces and did not learn from their previous experience, and therefore, rescuing humanity is not helpful, because the humans do not learn from the experience.

And therefore, the Pleiadians are doubtful as to whether it would be of any benefit to humanity to rescue humanity from these forces. They also are working to discourage the Sirians from attempting to rescue humanity for the same reasons. This Awareness indicates the Vegans, those entities from Vega have almost given up on humanity because so many of the people they sent to this planet have been harmed so greatly, and they do not understand why humans continue to allow the dark powers and the money powers to control their lives without any form of resistance to these controls.

It is not so much that they are hostile to humans, for they understand and sympathize with humans, but they feel it is almost useless to try to rescue this planet from the plans of the Draco Federation or Orion Empire in their attempts to take over the planet. They do have other concerns in the galaxy beside the earth itself.

What Can an Entity Do About All This?

This Awareness indicates what can an individual do? This is the ultimate question in this regard. This Awareness indicates that as an individual you cannot change whatever may occur, but individuals working together may have some effect, but that too is still uncertain. This Awareness indicates however, you, as an individual, do have the ultimate obligation to take care of your own soul, and it is a fact that each entity is likely to have an ending to his or her life at some point, and to have an ending from being cooperative or to have an ending from resisting tyranny is a matter of personal choice.

Those Who Accept the Chip Endanger Their Very Soul

This Awareness indicates that if you cooperate and play along with the L.U.C.I.D. scenario and you allow this identification chip to be put into yourself, it is going to have its effect on your soul, on your entire being, and you will carry over this psychological or spiritual damage into your next life, and you may indeed find yourself enslaved in future lives from having accepted this.

The Followers of Jim Jones Also Swallowed the Bait

This Awareness indicates it is tempting for entities to

think: "Well, I'll go along with it for awhile. When it gets to the point to where it truly is affecting my freedom, I will resist." This Awareness indicates it becomes very easy for entities to take the first step and the second, then another, until you are totally swallowed up, in the same way that the Jim Jones followers went along as he suggested, to their eventual suicide.

"Well, I'll go up there with the others to get the Kool-Aid. I may not drink it. Well, how do I know it's really poisoned? Someone said it is, but they might just be saying that. Well, I'll drink a sip. If I can't tell anything from that, then I might drink another sip." Until indeed, they were caught up in the total scenario that had been planned for them.

This Awareness indicates it is very easy to go along, get along by going along. This Awareness indicates that is a matter of personal choice. The main worry that entities are likely to have which can cause so much distress and cause so much uncertainty and agony is what to do with your children. This Awareness indicates that *It* has no answer for you in a situation of this kind. It is simply something that needs to occur on an experiential level, but this Awareness suggests that entities be very attentive and *not* try to escape the reality of things.

Watch with Full Attention and Awareness Will Assist You

Watch with attention. Do not think that you can act and do something, for the very fact of your thinking you can act and do something is but your ego playing its role. If you are fully attentive at every moment along the way, then this Awareness can work with you, through you, and assist you, and that full attention from moment to moment and attunement to the highest and most divine frequencies or vibrations or essences that you can conceive of will be your guidance, and will give you the means by which to make your decision.

You may be forced into an action without having made a personal decision. The decision may be made for you by these higher frequencies and higher vibrations so that you find yourself being moved by some uncontrollable force or energy of a divine nature, and this will be proper.

This Awareness indicates if it is a personal decision or personal choice, then you are simply guessing and acting from the rational and fear level of your own self interest. But if it is something that comes about by your having given your life to the Divine Force, giving yourself to God, whatever term you use: Allah, God, or the Great Spirit; in giving yourself to this higher force, allowing this force to direct you, you will find yourself being moved in the proper direction.

This Awareness indicates that is the way by which to deal with these dilemmas which are beyond your control, which are beyond your ability to manipulate.

Awareness Explains How the "Rapture" Probably Will Occur

This Awareness wishes to speak briefly on the 'rapture'. The rapture that entities seek and await is not likely to occur, whereby they are suddenly whisked up into some angelic spacecraft. It is more likely that the rapture will be an uplifting into a higher frequency, higher dimension, a state of consciousness that is close to the Divine, and when entities move into that level, they may find that this is the way by which they are whisked into another dimension, separated from those who have chosen the lower path.

The Physical Form May Not Survive but the Spiritual Body Survives

This Awareness indicates entities have been so conditioned to survive in physical form that they find it

difficult to think in terms of surviving spiritually, but this Awareness indicates the spiritual body will survive regardless, and you will continue, regardless, and it is important to recognize the importance of spiritual wholeness or completeness in your survival. You *do not want* to give away some of your soul, some of your spirit, just to preserve the physical body. You want to keep your spirit intact, keep your soul intact, even if it costs you an arm or a leg or a neck.

Do Not Be Controlled by the Threat of Death. Be Free!

This Awareness indicates that entities have long been controlled by the threat of death, and yet not one entity has survived beyond his or her time allotment. Therefore, what was the value of having been controlled by the threat of death? If an entity is no longer fearful of being killed, they are free. They can be free to be who they are. They are no longer subjugated by the threat of death. No one can continue to subjugate them into slavery. They are free.

How to Overcome the Fear of Death

You overcome the threat of death by attuning to the Divine Consciousness of the Divine Creator. When you have attuned to that consciousness of Divinity you know it is ever and always alive. This Awareness indicates in recognizing that anything that lives contains Divine Consciousness and anything that can touch into Divine Consciousness can always remain alive, even if the body is discarded.

The body is just a robe to wear in a role you play on the stage of earth and when you have finished playing that role, that part in that life play you have been in, you still emerge after taking off the costume of the body, as an actor, a Universal Cosmic Actor, who still goes on to play other roles on other stages, on other planes or planets or dimensions.

You still are intact, you need not have been injured in your soul because you have played a role in a previous play of life. You have played many roles many times, lived many lives many times, you have many lives to live again in the future,-- future realms, future worlds, future experiences.

Love your loved ones, keep them close in your heart that you may see them again in these future lives. This Awareness indicates you will recognize them by the vibrations and the love that has been extended to them and received from them, and in these future lives, that love vibration that has stirred and built over years in this lifetime, will call you and draw you to meet these entities again, these loved ones.

Price \$12 plus \$2.00 postage and handling to Living Truth Ministries, 1708 Patterson Road, Austin, Texas 78733. Or call toll free: 1-800-234-9673. When you order the book you get a 6 month subscription to the newsletter **FLASHPOINT**.

Can We All Work to Create a Positive Virus?

(That "Love Bug" in Sweden that Makes Entities Youthful)

QUESTION:

A question from Henry S., in Rosendale, Wisconsin. He writes: "I am a holistic dentist. Recently in studying some aspects of viruses,--biological, not computer,--it occurred to me that viruses known as "particles" to scientists are really very elegant little creations. I have a basic premise that all things physical are "two-edged swords" with potential for both good and bad.

"Viruses have always been given the bad rap. Is it not possible to have totally benign, even beneficial healing viruses? Because viruses deliver DNA to the host, to

potentially modify the host's DNA, this could be a potential positive healing DNA host change. Perhaps in more benign peaceful times, past planetary thought-forms helped to participate, peacefully healing benign virus particles, and the recent epidemic of terrible lethal viruses reflect the negative thought-forms projected by humanity.

"Mankind is on the verge of genetically engineering viruses to correct errors in the human genome. Military scientists have already concocted new lethal strains. What can the membership of Awareness, CAC and other positive enlightened humans do now to create by thought-forms and prayer healing, beneficial viruses? Is it possible a benign anti-AIDS virus, for example, could be the only universal physical cure for AIDS in the near future?"

COSMIC AWARENESS:

This Awareness indicates during the readings by the Interpreter David Worcester, this Awareness gave information about the viruses that were prevalent, causing Type A flu at the time, as that which came from certain hatred in China. This Awareness indicates that it was a collective consciousness that created or fed the virus to lead it into its toxic expression, which then spread to the United States and caused considerable difficulty in terms of the heavy flu. This, of course, eventually led to a vaccine so that it became less effective.

What Really Causes the Flu Each Year

This Awareness indicates likewise, every year, there is a new flu virus. These viruses are the results of collective thought. They keep changing in part because of the collective consciousness in humanity that carries negativity, and the viruses are reflectors or collectors of this type of negativity.

That Virus in Sweden That Rejuvenates Entities

This Awareness indicates there is also that potential for entities to project positive thought-forms which could indeed create positive viruses. The recent reports of a virus that causes entities to grow healthy and to rejuvenate in the area of north western and north eastern Sweden as that which is an outgrowth of positive thinking, or positive thought-forms, created by the collective consciousness.

This Awareness indicates that this virus is spreading rapidly, likened unto a cold virus, but it is simply making people feel good, feel happy, and strengthening their immune system and helping them to feel younger and more energetic. This Awareness indicates that entities wishing to do something could send energy to this virus in Northern Sweden with the concept of energizing that it might spread to other parts of the world, so that other entities could also enjoy the benefits of such a friendly virus.

A Friendly Virus Would Have Many Benefits

This Awareness indicates the idea of a friendly virus should not seem too foreign, because you are already aware of the concept of friendly bacteria. If it were not for friendly bacteria, you could not digest your foods. Friendly bacteria is that which helps in the digestion of foods, such as acidophilus cultures, and these substances are essential for good health.

Likewise, a friendly virus could be of great benefit in helping entities to rejuvenate and to become healthier. This Awareness indicates the positive thought-forms of people are that which feeds this kind of virus.

PLEASE SEND US QUESTIONS!

We really need good, fresh questions on health, relationships, mysteries, spiritual matters, etc. Please, no more conspiracy or negative, fear-based subjects. Put on your thinking caps and send them in! Send by mail, FAX, or E-Mail to C.A.C. Many thanks!

What Can the Membership Do to Create These Positive Thought-forms?

QUESTION:

He asks what the membership and other positive enlightened humans can do to create these thought-forms and healing beneficial viruses. Would Awareness suggest that this be done in an organized manner or just that entities just start thinking positively at all times?

COSMIC AWARENESS:

This Awareness indicates that entities can send energy to that which has already begun, or entities can attempt to create a new virus out of scratch that would be of a beneficial nature by simply thinking in terms of the expression of love energy, Divine Energy and such, or entities may even wish to consider taking a vacation to northern Sweden to catch the cold, or catch the virus of rejuvenation.

This Awareness indicates that it is a matter of personal choice. If entities wish to work through organizing meditational or group activities for thinking in terms of healthy viruses, that could occur; but many entities will find themselves being looked at by their friends as though they were crazy, and many entities may not want that kind of lifestyle. If they have friends who are willing to listen to this kind of 'kooky' idea, who are open to trying anything, then they might wish to invite friends over for a virus meditation.

It is a matter of personal choice. This Awareness is not going to dictate how to go about this work.

FOLLOW-UP QUESTION:

Does Awareness see if this virus of rejuvenation in Sweden has been isolated by scientists?

COSMIC AWARENESS:

This is negative. It is a kind of virus that spreads quickly and easily, much like a cold, through the breath, through touching, kissing, eating after another, et cetera, but the virus, instead of having a debilitating effect, causes entities to feel better, to have more energy. Essentially, the virus is attacking certain other viruses and bacteria in the body, attacking toxins in the body, helping the body produce energies that throw off these toxins in the body.

This Awareness indicates it is through the cleansing of the body that the new energy comes, and these viruses are simply helping to clean these toxins. They are likened unto scavengers attacking pollutants within the body.

Meditation as a Vaccine Against Crime

(For Certain People, Meditation Can be a Negative Experience)

QUESTION:

A question from Raymond C., in Dingman's Ferry, Pennsylvania. He writes: "An interesting new book has been published called *The Crime Vaccine* by Jay Marcus. The vaccine, it turns out, is meditation. The author cites studies to show that even some hardened criminals have been turned around, changed for the better or at least calmed down with improved behavior through using meditation.

"I have read in a few books that the only people that are adversely effected by meditation are mentally disturbed persons. This would mean that the psychopaths, sociopaths and other criminally insane would not benefit or change. Would Awareness please comment on what happens to entities, those who can change, and those who can't?"

COSMIC AWARENESS:

This Awareness indicates that the action of meditation for an entity who can change generally occurs with an

effect on the mental waves, wherein the brainwaves become more calm, more relaxed, so that the anxiety and hyper-activity of the brain becomes less extreme, begins to calm down, and the entity begins to feel an inner peace.

This Awareness indicates that the effect on an entity who is psychotic or mentally ill may be the opposite, in that the act of meditation allows an opening for the entity to be invaded by an external spirit or disincarnated spirit or demonic type of energy, or the entity may simply lose control, which he or she may have a need for in order to remain calm.

The need to remain calm for some entities has to do with self-discipline, and if an entity gets into a meditative state, they may feel fearful that they are losing control, and the fear itself can trigger an out of control experience for such entities.

Working with such entities over a period of time in certain laboratory conditions, such as confined conditions, could very likely have a benefit, whereby the entity works through those high anxiety levels and becomes more aware of what he or she is allowing to occur.

This Awareness indicates that in other words, by meditating under controlled conditions, the entity could very well benefit eventually, but there would need to be considerable protection to allow the entity to grow through certain crisis experiences and not harming others during those critical experiences.

Is A Book Written by Jesus Buried in France?

QUESTION:

A question from Catherine W., Canton, Ohio. "In the book *Refugee of Apocalypse*, it says a book called *The Book of Love* by Jesus Christ is buried in southern France in a cave, waiting to be discovered by the right person. Is this true?" she asks.

COSMIC AWARENESS:

This Awareness indicates that this appears to be a metaphorical statement. It appears that there may be some writings that were left by this entity when the entity moved from the Holy Lands through western Africa and up into France, before reaching England, but this would not be considered a book in today's jargon.

There would not be enough writing to class it as a book, or would it be easily recognized as something resulting from the writings of Jesus. This Awareness indicates likewise, it is not seen as being in a cave. This Awareness indicates that this concept of the *Book of Love* in a cave is a kind of romantic metaphorical statement. The cave being symbolic of the womb, the *Book of Love* being symbolic of a fertilized egg carrying the essence of a loving being. It is more of a metaphorical symbolism projected by this entity than an actual reality.

FIBER OCTAVE IMPLANTS BY ALIENS: CAN ANYTHING BE DONE?

QUESTION:

A question from Laurel Z., Hershey, Pennsylvania. The letter was written to Vikki, and the question was addressed to me, and I can't answer the question, so I'm going to ask Awareness to address this lady. She writes: "Dear Vikki, thank you for your letter about the germanium tablets. I would like to ask Avaton for advice about getting rid of or dealing with an alien-implanted fiber-optic device that is placed from the spinal canal, that is wired through to the human cranial nerves.

"You can't see this on CT or MRI because it is fiber-optic and not calcium or metal, or containing hydrogen

protons, so it can't be detected with our current medical imaging. I work in the health industry and this technology is way in advance of our own medical knowledge. The germanium tablets do nothing to stop this. The victim can hear it boring into the bone.

"The victim can see it testing the optic nerve. The victim can feel the optic nerve burning. The person who has this feels victimized and that there is not much that they can do about it. There is no place you can go to get it treated. The victim didn't ask for this. The victim wonders what is going to happen to him or her once whoever is directing this is done, and if their own cranial nerves are going to be damaged in the process and deprive the individual of the means of earning a livelihood.

"There is no one you can talk to about this, and no books to read about this other than the book about the woman abducted by Zeta Reticuli aliens which describes this implant from the sacrum. These life-forms have an agenda of their own and I don't believe it is beneficial for the human race. If the victim tells a family member about it so the family will be warned, the family member thinks they are schizophrenic, and if it is happening to one person, then it's probably happening to many others.

"I'd like to know what Avaton has to say about this, because it's happening right now! People on this planet are being abducted and mined for their ova and sperm, mined for their hormones and chemicals and wired robotically, either for observation purposes or the more sinister purposes of controlling that entity. Do you need a double when you can control an individual robotically?

"You people are so concerned about an oppressive controlling government. If a corrupt and totally self-serving government has access to an alien technology that allows for robotic control of the human being, then you have an even more insidious problem that I don't see the human race, at its current level of technology, overcoming.

"How would **you** like to live in a body controlled by the New World Order, or an alien life form? I don't see this addressed in any of your newsletters and I would like knowledge about what to do about it."

COSMIC AWARENESS:

This Awareness indicates that this is a technology beyond anything the human race has developed, nor is there anything the human race has developed that can be used to counter this technology at this time. This Awareness indicates in the first place, there is little or no recognition of this happening in the society, and therefore, it is not seen as something for the human race to work on.

This Awareness indicates that it appears this entity has information on this and is very concerned about this, but it doesn't appear that there are many like her who understand or know what is occurring in this regard, and like the entity says: "If entities were to start talking about this to each other or to authorities, they would be classed as 'insane'.

This Awareness indicates it would not be a class of schizophrenia, which has to do with split or shattered personality, but it would be classed as a kind of paranoia, and delusions. This Awareness indicates there is no particular means seen by which this can be defused or undone in the human sense. It appears that the approach for finding some kind of cure would be first to acquire one of these devices, analyze its make-up and find out what kind of vibration or frequency could be used to blast it or to shoot at it, to cause it to dissolve.

If there were a certain frequency or vibration that it contains, and this could be discovered, then radionics might have the key answer to neutralizing this. This Awareness indicates that otherwise, there might be some use from chemicals that would neutralize or dissolve the unit, if the chemicals could be found that would not be harmful to the body, and an injection of such chemicals into the area of this implant perhaps could have an effect of dissolving the implant.

This Awareness indicates these are two potential approaches for entities to consider in researching for a cure of this problem. This Awareness indicates the more difficult part would be to find someone who would take it seriously enough to work with an entity on this problem, for like the lady says, most people would think the person was nuts, or crazy, and would doubt the story entirely.

FOLLOW-UP QUESTION:

There has been information circling through the UFO networks that there are entities in laboratories in the country, I think particularly in California, that specialize in removing implants, and that they have all sorts of them that they removed.

COSMIC AWARENESS:

This Awareness suggests that contacting entities who are already involved in this field would be the more appropriate way of finding someone who would take the entity seriously and the entity might be able to talk them into researching this particular type of implant and trying to locate a means by which the vibration or energy could be used to neutralize or destroy that implant.

The principles used in radionics would apply to this type of healing.

Any Help for Neuralgia?

QUESTION:

A question from Sharon K., Roselle, Illinois. She writes: "Help! I'm suffering with neuralgia, an excruciating nerve pain that comes in waves to my right arm. I've tried calcium, lecithin, WD 40, and acupuncture to no avail. What is the answer? What causes this and what will relieve it? I'm desperate searching for relief. Others may be suffering from this also. Can Awareness give us some answers?"

COSMIC AWARENESS:

This Awareness suggests the continuation of the use of lecithin; the avoidance of caffeine, coffee; the use of Vitamin B6 and Vitamin B12, preferably in injections, and aloe vera, particularly the use of aloe vera in a juice, put into juice drinks, and also rubbed on the arm and into the skin.

This Awareness indicates it is suggested you be cautious or watchful about certain foods and note when any particular food seems to cause a flare-up of pain approximately 10 minutes after eating. This Awareness indicates that there may be an allergy involved. This Awareness sees foods from the pepper family, such as tomatoes, peppers, and hot peppers as possibly being a cause for some of the problem.

This Awareness indicates that this is not an absolute; it is simply a possibility, that the Nightshade family, the pepper family as that which may be contributing. This Awareness indicates that the use of aloe vera appears to be of a healing nature, and B12 and B6 appear to be beneficial in repairing the nerves. This Awareness indicates the B12 helping to reduce the pain and sensitivity, and the B6 helping to repair nerve damage to some degree.

This Awareness indicates that the proanthocyanidins

are also seen as being beneficial in helping to soothe this and bring better circulation to the area to help nurture or give nutrition to these damaged nerves. This Awareness suggests 30 milligrams of Pro C,* for every 30 pounds of body weight would be seen as beneficial. It appears that this would be recognizable within approximately 30 days of use; using this three times per day.

This Awareness also sees benefits from Coenzyme Q10. These are available on the market. The Coenzyme Q10 approximately 30 milligrams three times daily, and the proanthocyanidins or Pro C, approximately the same, can be purchased through the Goodship* if you do not find it more closer to you in a more convenient marketing place.

Low Estrogen Could be Mistaken for Neuralgia

This Awareness suggests you may also wish to check on your estrogen levels through your doctor. The symptoms described as neuralgia could be mistaken for problems caused from low estrogen production, and this could be of some significance if your estrogen level is found to be low. There is an estrogen-type cream that can be rubbed on those areas that are painful, if that is the problem.

*The Goodship, PO Box 1116, McMinnville, Oregon 97128

Would a Magnetic Bracelet Help?

FOLLOW-UP QUESTION:

Would wearing a magnetic bracelet help in this case?

COSMIC AWARENESS:

The effect of a magnetic bracelet is to align the iron particles in the blood molecules, which assists in helping the blood to bring nutrition to various areas. This Awareness indicates it does not appear to be a problem of nutrition, but rather of cellular damage to the nerves. However, a magnetic bracelet, helping to bring more nutrition, might be of some benefit.

It does not see this as a strong indication, but it would be worth the effort to try the magnetic bracelet, or to use a copper bracelet also is seen as a possible benefit; however this Awareness does not see these as being strongly indicated.

Why Are Communal Societies Dying Out?

(Why Shouldn't Communities Thrive in the New Age?)

QUESTION:

A question from Devapriya D. F., in France. She writes: "I have a question for Cosmic Awareness concerning communities. Is the Age of Aquarius that of increasing communal life, or that of increasing individual lifestyle? I have been in contact with communities for at least the last 15 years, and I see now that those communities that were prosperous and happy up until recently are now closing down.

"People seem to need to live individual experiences, but it seems to me that they are also losing their spiritual focus. What is happening to the ideal of working for a collective purpose, which includes the well-being of humankind and the building of a net of light?

"I am presently living in France, and it is evident here that the government has the clear intention to thwart any activity that has the slightest taste of "alternative." Any such activity has been declared to be a "sect" and people are very much scared and suspicious and refuse contact with any kind of community. What does Awareness see about all this for the near future?"

COSMIC AWARENESS:

This Awareness indicates Aquarius, in an astrological sense is associated with the 11th sign, or also the 11th House, which is a social situation. You will recall that

the 11th House relates to friends, and Aquarius is especially concerned with social situations and service to others. This Awareness indicates that these activities indicate the reflection of communal life, but not necessarily, for entities can still have a social consciousness, even if not living in a communal society.

This Awareness indicates that there is also another aspect of Aquarius that is related to the rulership of Uranus which for one part, or one aspect has to do with rebellion. An entity who is rebellious is essentially antisocial. They do not go along with the crowd; they rebel and turn into individuality interests. Their interests go against the crowd, against the flow. Therefore, individuality is also a part of the Aquarius scenario.

This Awareness indicates that the extremes between individuality and the social consciousness of entities will be reflected during the Age of Aquarius. This Awareness indicates that these are two of many aspects associated with the Aquarian Age, but entities will tend to move back and forth between these two extremes, and it is seen as appropriate whether the entity is in a social situation or where the entity is in an individualized mode.

This Awareness indicates it also is recognized that any society wants to think of itself as being proper, and will look at other societies or other groups in a kind of critical mode, so that "Our family is better than your family! Our group is better than your group! Our communal society is better than that communal society!" becomes common.

This is not a matter of Aquarius or astrological influence; it is simply a matter of human inclinations. Humans always think their own kind are better than that which is unusual, different or odd. One of the better points in the New World Order is that they are attempting to educate children to be more accepting of others who are different, creating a tolerance among children so that in the future wars are not as likely to occur simply because someone else is different.

New World Order Wants to Control Crowds Easily

This Awareness indicates actually the reason for this is that it makes crowds and people easier to control if they do not feel hostile about other people's differences, and this is what the New World Order wants. They want to be able to control people in order to use them more effectively for other things, rather than fighting each other. This Awareness indicates therefore, the larger society may be critical of the small communal society and makes it difficult for the communal society to function in such a hostile environment, and that may be the reason for these communal societies to begin folding.

Also, some of these communal societies thrived when they first began because they would get energy from the newcomers of a commune, often taking the assets of a newcomer with the promise "We will take care of you. You do not have to have money or possessions. Give us your money and possessions and we will take care of you!" This kind of promise was made by many of such communes, and after so many people had joined, the commune had a certain amount of assets that had come from the various members of the communal society.

This Awareness indicates however, after time passed and after taking care of such entities for a certain length of time, getting what more they could get from the energy of the communal society members, it would become less beneficial to the general communal society, because no new incoming people were bringing new assets, and it may be that many of these societies closed down when they could get no new members with assets

to join.

This Awareness indicates that wherever you are, you can have your communal associates. If you live in any neighborhood, work in any kind of workplace, there are always friends, and these friends can be substitutes for your associates in a communal environment. Therefore, you need not feel too lost.

The one aspect that may be of concern is that a communal environment is likened unto a large family. When you get into society, the family becomes too large. Nobody knows anybody, and what few people you do know, you do not feel that close to because they do not live in the same environment as you. They do not live in the same building or in the same room, and therefore, your association with them is more remote.

It is likened unto the family breaking up, and this is disturbing to many entities who have become used to having certain familiar faces, certain entities close by, and loving relationships galore.

Most Vitamin C Sold is Not Vitamin C.

(It's Ascorbic Acid, but Still has Some Value)

QUESTION:

In a *Bob Livingston newsletter** he writes an interesting thing here about Vitamin C. I'd like to read this and ask Awareness if this is valid information. "What most everybody believes is wrong. Vitamin C is know as the anti-infection vitamin. In fact, Vitamin C, in the public mind, is ascorbic acid. Ascorbic acid means anti-scurvy. The fact is that ascorbic acid is not Vitamin C, though every product that you buy represented to be Vitamin C says on the label that it ascorbic acid. So what you buy and what you think of as Vitamin C is neither Vitamin C nor anti-scurvy:

"The so-called Vitamin C that the public buys and consumes in large doses is a chemical. The larger the dose the better we think it is. Two time Nobel prize winner Linus Pauling taught us this well. Pauling, by the way, was a chemist. Dr. Albert Szent Giorgi, also received a Nobel prize for his discovery of Vitamin C in 1937. But he didn't discover Vitamin C. He discovered ascorbic acid. Giorgi said himself that he had not found the C complex, or the C intrinsic factor.

So-called Vitamin C sold in high volumes to the public as ascorbic acid is a synthetic, isolated chemical. It will cure nothing. Back to the citrus fruits and cayenne pepper for the whole complex," he says. Could Awareness comment on that?

*The Bob Livingston Letter, PO Box 110013, West End Station, Birmingham, Alabama 35211. Sample issue \$4.00 or 12 issues \$39.00.

COSMIC AWARENESS:

This Awareness suggests the use of rose hip Vitamin C and citrus fruit Vitamin C are seen as being quite beneficial to entities. This Awareness indicates that the citric acid has some benefits but not as much as the real Vitamin C that comes from these fruits and from the rose hips.

This Awareness indicates that it is even more pleasant to take Vitamin C in rose-hip wafers which taste much like candy, and entities might wish to consider switching to this kind of Vitamin C tablet. You simply chew or suck on the wafer; these are approximately one inch or three-quarters of an inch in circumference, and approximately the thickness of a 50 cent piece.

This is known also as Acerola and is made from rose hips. The Vitamin C from citrus fruits may not be enough for an entity unless the entity eats lots of citrus fruits. The problem with citrus fruits is that it can also aggravate arthritis, if an entity has that tendency.

FOLLOW-UP QUESTION:

We've been taking the powdered ascorbic acid called Vitamin C, from a palm. Is that a waste of time, or is there any benefits to us by taking this substance?

COSMIC AWARENESS:

This Awareness indicates that if it is from a palm, it may not be ascorbic acid, or if it is ascorbic acid, it may be mixed in with natural substances. At any rate, it may not be as effective as the rose hip Vitamin C, or Vitamin C made from other natural sources, but it is not truly a waste of time, because even this ascorbic acid does have some benefits.

There are many things in the body that benefit from the use of ascorbic acid. The acid can break down certain unwanted blockages in the system. It particularly breaks down mucus.

A WARNING ABOUT DRINKING KOMBUCHA MUSHROOM TEAS

CLOSING MESSAGE:

This Awareness wishes to warn entities about the Kombucha mushroom that many entities have taken. There is some benefit, particular in certain areas wherein this has been beneficial for entities, but there is also a fad in the United States in which entities have been using this excessively over long periods of time, and it has increased heavily the hazards of candida.

There have been deaths caused by this use of this mushroom tea; the drink from this mushroom. It is essentially a fungus, and many entities have been using it for long periods of time, and have continued using it with little or no adverse effect, but there are also many who have used it who have had such devastating effects from candida.

It is created by adding large amounts of sugar to the liquid from the fungus so that it grows new mushrooms in the jar of water, and these mushrooms create babies which then are reproduced into and used in new jars as new mothers for further production of mushrooms, and entities who drink this tea, highly covered with sugar, are beginning to develop excessive candida problems, and many of these entities over the past several years who have been staunch believers in this mushroom tea, have had extreme difficulties and problems from the effects of candida.

Candida Can Kill. It Also is Found in All AIDS Patients

Candida is found in all AIDS patients and may contribute to the spread of AIDS, and this Awareness indicates even other than this, candida can be deadly in itself, and while there have been some benefits, especially in certain areas of Russia, which may have resulted because of a need for some dietary nutrient that the mushroom provided which was lacking in their system, it does not appear that this substance in the United States is as beneficial as it was in Russia, and therefore, this Awareness suggests entities who might still be using this substance may wish to consider stopping its use, and switch to some other kind of tea.

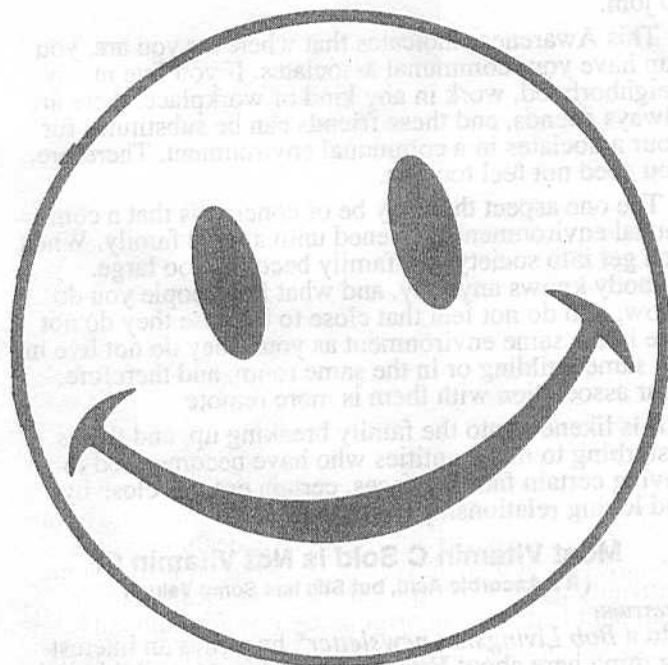

This Awareness indicates if you do continue using it, watch carefully for signs of candida, for it can be especially dangerous. It can lead to the need for amputation of feet and extremities and can lead to organs being totally destroyed and eaten up by the candida yeast, and if you let it go too far, it can be irreversible.

(The Law of Gratitude is given)

The Law of Gratitude

The Law of Gratitude is that sense of satisfaction where the energy which has been given receives a certain reward. Energy that is given moves out on that curved and unequal line, and when extended far enough, can only return to its source bearing gifts.

AMAZING GRACE—A WORD ABOUT THE NEW C.A.C. INTERPRETER

ED's Note: When Paul Shockley recently announced that he would no longer be doing readings for C.A.C., it came as a big surprise to all of us, even though Awareness has mentioned numerous times that this could occur. We feel Awareness was behind this action because shortly thereafter the entity Awareness refers to as "Grace" manifested as our new Interpreter.

Grace is like a breath of fresh air. Her basic message is that the time has come for a new direction—a direction away from fear-based concepts of conspiracies, alien and political, etc. It was necessary to make entities aware of these, to get it all into consciousness and dealt with, but now is the time to begin ushering in the new Millennium with more positive energies. Awareness has promised that Grace is to channel the information that will allow entities to enter the Millennium as enlightened spiritual beings who need not experience the negativity that has been predicted down through the ages by various seers and psychics. These "Lessons of Enlightenment" will be forthcoming along with your newsletters at no additional charge.

To date, we have had about 15 sessions with Grace as Interpreter. Each gets better than the last. There is a small problem with the verbiage at times, but the essential message from Awareness always gets through. Awareness assures us that as Grace gains more confidence in her channel, this problem will disappear. Grace tells us that when a question is asked, there is such an incredible preponderance of insight tumbling at her that it often is difficult to decide what to vocalize, leaving a feeling that the answer was incomplete somehow.

Every Interpreter has his own style. Grace's style is not like Paul Shockley's, nor was Paul's style like David Worcester, Tom Mooney or Ralph Doby, etc. Each interprets the Cosmic Awareness energies in their own unique way. Awareness assures us that *its* messages are coming through to Grace unimpaired.

For the time being, your editor will draw upon the huge backlog of unpublished readings channeled by Paul Shockley (over 10 year's worth) and slowly introduce into the newsletters more and more of the messages channeled by Grace. The accent will be on the more informative, non-polarized messages. For contrast, I have purposely included in this newsletter one of the most negative, paranoid pieces of conspiracy information ever confirmed by Awareness: "Project L.U.C.I.D."

I suggest you digest it like all the other paranoid stuff we have published in the past, release it into consciousness and then forget it, for this scenario, like the New World Order, is simply not going to be allowed to happen. Awareness, through the Interpreter Grace, is providing this assuring information, based upon the impact the "Lessons of Enlightenment" are to have on consciousness. So as Awareness says in the following message, breathe a sigh of relief, gang, and go out and have a ball. It is a time for great celebration!

AN INTRODUCTION TO GRACE, THE NEW INTERPRETER FOR C.A.C.

(C.A.C. General Reading, June 26, 1997)

Awareness, we're here to continue the CAC general readings. Does Awareness have an opening message?

COSMIC AWARENESS:

This Awareness indicates that the time has come for a direct communication with the readership regarding the shifts in direction, the focus, the ushering in of a new era, the winding down of an old. This Awareness suggests that we take a brief look historically at the background of this organization from an overall perspective and totality, particularly suited to this new channel.

This Awareness indicates that there have been entities prepared inspirationally from this Awareness and through aspects of their Higher Selves which appear on the earth with specific tasks, specific destinies and specific missions with which the intention is to restore humanity to the evolutionary, both physical and spiritual, path that was the original destiny for humanity.

This Awareness indicates that in the earliest days of the human existence as it is known today, spirits had the ability and the attunement and the vibratory power to manifest themselves in physical form in order to enjoy, experience, to develop and express their spirits in physical form. This was the intended condition of the earth.

It was a tremendous amount of flexibility and freedom that spirits had in participating with the creation of the earth and in preparing the earth with flora and fauna and various forms in which they could focus their spirit to experience all the wonders of physical existence. It was a simpler time in which Spirit and Will worked in concert.

Spirit communicated directly to the physical form, which embodied with Will energy, could carry out the dictates of Spirit through the manipulation of Will energy that could manifest the Higher Spirit into more and more dense vibratory forms of matter. This is Eden, as it has been defined. This state of freedom and direct communication with the totality of Spirit, and the Divine Oneness.

The Real Meaning of the "Fall From Grace"

The 'Fall From Grace,' as it has come to be known within the existing mythological tenets of many religions on earth today, contain the vestiges of a Fall From Grace, and although there are gross distortions, judgments, misperceptions and dogmatic assertions, essentially, the Fall From Grace was the disconnection from the Totality, a slow but steady and sure reduction in communicative ability between the physical and the spiritual, the disconnection between the Will and the Spirit.

This was brought about by the exercise of Free Will and the conscious choice of human beings to create ever-more complex systems of understanding that were limited to the physical and the earthly realm. The more disconnection with Spirit, the more density and restricted consciousness became the norm, for the then earthbound entities.

The earthbound nature itself was an outcome of the shutting down of the capacities for full and total communication between body and Spirit and what would arise as mind, due to the outcome of the human intervention. This Awareness indicates that the Biblical story of the Fall, and the metaphoric 'Tree of Know-

ledge' and man having disobeyed and bit upon the fruit of knowledge was not so much disobedience, but in the exercise of the free will; it had been apportioned to them by All That Is in order for the experience and the totality of human and earthly physical existence to be acquired by the spirits and imparted within the consciousness of All That Is, in the ever-expanding mind of God.

This Awareness indicates that there have been many judgments, condemnations on human beings, by human beings, for human beings, which have been attributed to God and the Universal Forces, but that this is a distortion and it is in error.

The Error in the Belief that the Fall of Man was Inherently Evil

This Awareness indicates that such concepts that now exist in the realm of human mind; the tenets of religion, the ideas that have manifested in moral codes and legal restrictions, are based upon the fundamental assumption that this 'Fall' and this separation was due to an inherent evil in humanity. This is a distortion. This Awareness indicates that this distorted attitude and depiction of humanity has existed for far too long and has thwarted evolution and development of the mind, further separating the physical and spiritual aspects of human nature.

This Awareness indicates that the purpose of the *Organization of Awareness*, and specifically *Cosmic Awareness Communications*, through which this Awareness is now accessed through the Interpreter Grace; that the entities involved in this particular enterprise are playing very significant roles among entities who have chosen to return to earthly existence time and again to set about the turning of the tide, and the changes that are now necessary in order for humankind to get back on track with the intended evolutionary path.

The Role Played by the Interpreter Paul Shockley

This Awareness indicates that the organization began with the Interpreter Paul Shockley who had a very specific role to play in the unfolding of his particular destiny in this mission. This Awareness indicates that an initial task necessary to reorient humankind to the situation at hand, was to initially bring to the awareness of the masses, the situation known as 'mass-consciousness,' which is the outcome of man's taking the responsibility upon himself, creating a realm of knowledge separate (although inclusive of certain spiritual inspirations and creative impetus) that is limited to the realm of human mind. This mass-consciousness takes on a life of its own, such that over the eons of human existence, there exists a vibratory density, a sort of energy, web-like network surrounding the earth which literally creates static and distortion between the intuitive capacity of human beings, individuals and their spiritual source, which once was a straight line communication.

This Awareness indicates that the net-effect of this upon entities being born to the earth in these times, and has been such for the past several thousand years, is that the indoctrination begins from the day the individual is born, such that the intuitive pathways of communication are stifled within the entity, and the only reality the entity has access to, with very little exception, is the information that resides in this density of mass-consciousness. That is essentially man-made knowledge of the cultural realm, which may or may not embody the information that is necessary for the spirit to carry out its destined task of development and expression of that unique individual's spiritual potential.

This Awareness indicates that such development and expression is the task of each entity born to the physical

plane, be it minimal or maximal, notable, behind-the-scenes, creative, rational, pragmatic and scientific, be it pedantic, be it even as the life of a criminal or a victim who can illustrate the negativity that can result from the mass-consciousness and the limits that are contained therein.

Every entity has a task that is largely subconscious, due to the loss of the innate connection between body and soul. This Awareness indicates that the first stage in the reclaiming of the intuitive communicative channel in the enlightenment of the New Age was in laying the groundwork for entities to understand how they can become mired and limited within the realm of human mind, how they can become victimized by religious tenets that are espoused as the 'Word of God' when in fact they thwart, distort and shut down the very centers within entities that are to the Word of God and innate channels to this Awareness.

Phase One was in the identification. It was also to point out the predominance of fear and anger at such manipulations, conspiratorial, conscious or ignorant, manipulations achieved even through the best of intention. And once entities are steeped within the dogmatic and consensual knowledge of human culture, they are literally shut-down to other options that exist within that realm and without of that realm, and to their very creative emotional centers that are necessary for them to fulfill their destiny, and to value fulfillment.

The Interpreter for Phase 2 Failed to Manifest Himself 12 Years Ago

This Awareness indicates that the entity Paul Shockley has been successful in achieving Phase One of this ushering of the Age of Enlightenment. This Awareness indicates that there was to have been a Phase Two, which was to have begun approximately 12 years ago, in which another entity was to have provided a channel for this organization to emphasize the dissonance created within individuals and to lay the groundwork for the channel that is now in place, the entity Grace, who is to usher the lessons to recreate the connection that exists (within each entity as latent potential) to the Universal Oneness.

This Awareness suggests that the readership not concern themselves with the second channel that did not manifest, for every entity is subject to the effects of the life situation and limited consciousness due to the situations and the indoctrination's and the knowledge that exists within the realm of human mind, and that this particular entity will make his contribution on a different scale, at a different time, for he was not yet attuned himself to his own higher energies that would have facilitated his participation in this particular venture.

Grace has Been Prepared to Present the Vitally Important Information the Interpreter Paul Shockley Omitted

This Awareness indicates that this will not be problematic, and that the entity Grace has been prepared for the past decade with the entire package of information that is necessary to impart at this time, to complete the necessary information that had been available to Mr. Shockley and to the second entity, as well as a tremendous body of information for which she has been chosen, and she has accepted this mission.

Heave a Sigh of Relief—the Negativity and Paranoia is Over!

This Awareness suggests that the readers can heave a sigh of relief, for the continuing negativity that was resultant from Mr. Shockley's extended period as a channel within this organization, that there was an over-emphasis upon the negativity, upon the fear, and the paranoia that has been generated due to manipulations that do occur within human culture, and that the take-

home message in all of that negativity was to understand that the Spirit rejects any such tenets that reduce individual freedoms to a point below which the Spirit will not dip without emotional repercussions.

The Emotional Safety Net Is the First Step to Reclaim the Connection

This Awareness suggests that this emotional safety net is part of that system within each and every human being that will provide salvation, and that it is the essential first step in reclaiming the interconnectedness with the spiritual totality, and in the reclaiming of the internal guide of the God Voice that exists within each and every entity; that the time has now come for entities to take such steps as to reclaim these abilities, and that they will be guided through the entity Grace, step by step in a process that will lead to individual and mass social enlightenment in an accelerated state of physical, emotional and spiritual evolution, and that this is long overdue.

This Awareness indicates that it would be beneficial for members around the globe to attune themselves to the positive energy that is now to be the predominant focus of the Third Phase, and the beginning of the Lessons of Enlightenment for the usherance of the New Age and the next millennium.

It's Time to Set Aside Concerns of Conspiracies

This Awareness suggests that readers set aside their concerns of manipulation, conspiracy and loss of freedom, and reconnect to the innate spiritual knowledge and resonance within such manipulations will not be tolerated. For the Spirit ensures that the anger will rise within individuals to stand up for their freedoms, for their rights, to voice their opinions such that the mass-consciousness will be altered and substantially enhanced by their individual contribution. That the emotion fear will arise within them to direct their attention to those beliefs that they have accepted from the realm of the knowledge and culture and dogmatic assertions of man. The Spirit produces these emotions to draw the entity's attention to those ideas that should be identified and discarded, for they are no longer beneficial and exist only as vestiges of tools which no longer contribute any value, but yet exist as monkey wrenches in the machinery of positive aspects and cultural tools that exist in mass-consciousness and in the mind of man.

It's Time to Attune to Emotional Feelings and Experiences

This Awareness suggests that readers begin to attune themselves to the emotional feelings, to the experiences of pleasure and pain that resonate within them, for this is a lost and forgotten ability and system, both physiological and spiritual, that connects the physical body with the mental mind, blending the mental, physical and spiritual aspects, and ultimately connecting the soul and Universal Divine Love Force within each and every spirit embodied in physical form.

This Awareness indicates that these feelings shall be your safety net. They shall be your salvation. They are the answer. This Awareness wishes the setting aside of concern for specific manipulations, specific conspiratorial scenarios, specific concerns regarding governmental control, for it is the re-acquaintance with the emotional system which will allow each and every individual to prevent such manipulation, to facilitate their own development and expression, and to ultimately resonate to the positive pleasurable, joyous emotional energy, that is Divine Love. For it is the polarity of pleasure and pain through which the Spirit speaks through the body and finally, into the mind.

This Awareness wishes to welcome the entity Grace,

an individual who has been prepared on many levels for this journey, an entity who has had many incarnations on this plane, and in other capacities and in other forms: past, present and future, has been a key player, along with the other entities affiliated; the founders Avaton and Vicki and the Organization of Awareness, with all its members, past, present and future.

The Coming Lessons of Enlightenment a Higher Form of Religion to be Widely Spread

This Awareness indicates that members should spread these teachings and this enlightenment far and wide, for the teachings to be imparted are intended as a higher form of religion, of pure spirituality, of pure manifest destiny within individuals to access their own creative spiritual source. For this Awareness indicates that there is a frustration regarding the lack of connection between the Universal Divine Force, the Godhead, and entities in the physical realm.

The disconnection has come to the point wherein intensive intervention is necessary, such that channels from many walks of life, including the scientific, the political, the educational, the healing professions and spiritual organizations such as *Cosmic Awareness Communications*, arrive prepared to contribute to this mission.

Entities with the capacity for more clarity and broader consciousness availability to vibration with the higher spiritual Divine Energies are imparting information throughout the world in many ways, shapes and forms which shall prepare individuals to understand and incorporate the new spirituality which shall replace the outdated dogmatic tenets and religious ideologies which have become tools of manipulation, rather than instruments of spiritual connection.

Question Any Package Which Arouses Negative Emotions

This Awareness suggests that this is not to say that entities who experience positive emotion and spiritual connectedness in any manner whatsoever that they have found to be pleasing, which resonates with their spirituality. These ideas, these activities, these organizations and affiliations are positive to the degree that they facilitate the joy of the Spirit, but this Awareness warns with a hearty intensity against any tenets that come along with the package that create negative emotions such as fear, anger, guilt, and envy. For these emotions point to the beliefs that are embodied in the doctrines which go against spiritual and supernatural intention.

This Awareness suggests that there has been an arrogant audacity within the realm of human culture, within the religions specifically, to dare to suggest that **their** ideology is the 'Word of God,' if it flies in the face of the natural creation, which 99% of them do at this time in historical existence. This Awareness suggests that the 'Word of God' exists in Creation and in the nature of man, and not in the dogmatic assertions of man himself.

The Condemned "Hedonistic" Pleasure and Pain System

Man will discover that he has been embodied with an innate and natural system that facilitates the communication with the Divine. This is through the human emotional system, and that religious dogma has vilified this system. The emotions have been condemned. The pleasure and pain system has been deemed 'hedonistic,' which has taken on a negative connotation, yet should not, for the 'hedonism' is the innate energy, the motivational Will Energy that moves the entity to approach that which brings pleasure. Humans experience pleasure when they connect on some level with the Universal Divine, or such pleasure would not be attained unless there is a gross manipulation or aberration within the biological system.

This Awareness indicates that humans have been so audacious as to grossly manipulate their own biological system with drugs and alcohol in order to avoid the message of negative emotion and to deny the longings of the Spirit and the Soul, which cry out through the emotional system, while in the steadfast belief that their feelings are evil and bad, or that pleasure is ultimately evil, because in many cases, pursuing pleasure urges the entity to go against established doctrine.

The Universal Divine Energy Speaks Through the Emotional System

This Awareness suggests that each and every individual begin to attune themselves to these feelings, for they are the Universal Divine Energy that speaks across the physical, emotional, mental and spiritual realms simultaneously. This is the one physiological process that accomplishes this task. The mind of man is limited to the senses. What is seen and heard and taught and learned through experience becomes fact and reality, such that the mind closes down to the multitude of possibilities that exist and grossly limit the ability of the human being to proceed and go about the business of developing and expressing his creative potential.

This will no longer be acceptable. This Awareness suggests that this initial attunement be the very first baby step toward the re-acquaintance with this innate system which shall be the salvation and the redemption and the return to grace of humanity. This Awareness suggests that the channel Grace has been deemed 'Grace' for the very purpose of returning the grace that is the love and affinity for human beings from 'God', the Universal Oneness, the Universal Love force that continues to flow into entities, despite their ignorance, their floundering, their situation of being mired within their own creations, their own limited conceptions of reality, their wallowing in self-pity and negative emotion rather than understanding that the negative emotion is the spirit pointing out those very things that are **causing** the problems. The emotions are not the problems themselves, but the information-bearers which have been ignored for so long that the energy embodied in emotion (that is intended to carry out through the will the intention of the Spirit) is stymied in such a way that the energy follows the negative beliefs and ideas and creates situations exactly *opposite* of those desired by entities. The reclaiming of the Will Energy and allowing it to carry out the events desired by the Spirit can reverse many of the negative situations and events, and the turns the course of mankind has taken.

This Awareness suggests that the readers attune to the positive energy and the grace of the Universal Divine that flows toward them now, and focus less on the negativity that has been generated through years and years of focus upon the problems of mankind, rather than the solutions that are now at hand.

This is a Time for Great Celebration!

This Awareness indicates this is a time of great celebration. Although the entity Grace chooses to remain a behind-the-scenes person in this organization, as well as in hers and others' efforts to bring about the knowledge and contribute the and the gifts she has been endowed, this Awareness indicates that the readers can attune to this energy to send positive feelings and visions to the organization, to the people involved, particularly towards Grace who is to be the channel through which they will receive the Lessons of Enlightenment.

This Awareness indicates that such energy can help facilitate the critical mass that is necessary for more and more entities around the globe to be able to receive the enlightenment to a higher degree than is possible due to the limited receptacles that they embody at the present

time. This Awareness indicates that entities in the readership that are attuned to the positive and joyous experience that is connectedness with the Divine Energy, to facilitate this feeling in themselves and in others, and to focus less upon the negativity that has been the predominant messages of late within this organization.

This Awareness indicates that entities can celebrate in any manner which they so choose, as long as it facilitates the pleasurable and joyous experience which is the intended state. For this will be an active expression of their participation in the process. This will be their choice, their active direction of their positive Will Energy toward participating in the coming about of civilization, in the usherance of the Age of Enlightenment. This will signal their participation through their individual enlightenment, and active course of self-development, which can be achieved at a greatly accelerated pace through the teachings which shall be imparted through *Cosmic Awareness Communications* as channeled by Grace. Grace has now risen to the challenge and has a clarity, totality and breadth of scope which is focused predominantly on this mission.

This Awareness suggests that the leaders of *Cosmic Awareness Communication* facilitate the celebration through the announcement through as many mediums as possible, that this turn of events, that this new Creative Source, this channel through the entity Grace, that the lessons shall immediately follow this introduction and that the sooner entities begin to gather the information, the sooner they can begin their own awakening to the powers and abilities and communicative pathways which shall be their salvation.

The Coming Lessons of Enlightenment for the New Millennium

This Awareness indicates that when this is experienced within entities, that it will be the highest and most pure form of spirituality. It will be the Liberation, and a connectedness with the Universal Divine which will be experienced as a re-acquaintance with an ancient and trusted friend.

This Awareness indicates that entities will begin to reconnect with this Awareness in this manner such that inter-actionaries such as spiritual institutions and mediating behaviors, codes and dogmas will no longer be necessary. For the innate, natural morality, the innate human goodness, the natural pathway and operational systems within the human physical body which communicate higher spirituality, will become activated within entities who choose to allow the information to touch them. The New Millennium will embody the new spirituality which can replace existing packages of religion that reject any aspect of the human being as most do now; yet retain the spirituality. Individuals can pick and choose from among the existing tenets any ideas to incorporate into their individual mind, and strategies to facilitate their spirituality, without any restriction other than that of the Spirit, which is the ultimate authority, despite those judgments and assertions made by man.

This Awareness suggests these are great times of anticipation, which shall be rewarded through the individual efforts to attune, finally, and return to the intended state of grace. The information delivered through and from Grace. There is no other opening message at this time.

QUESTION:

I'd like to ask Awareness if the Lessons for Enlightenment are to be channeled during separate sessions, or will these come out in bits and pieces during the regular questionings?

COSMIC AWARENESS::

This Awareness indicates that the body of information is available to Grace at any time, in any shape, and in any form. This Awareness indicates that she has already channeled a great degree of this information, beginning with the scientific understandings regarding the human emotional system, and that the initial body of work in this area is already in written form, which is already being utilized through other outlets regarding therapeutic counsel and spiritual advice.

This Awareness indicates that the lessons go far beyond this initial body of material, but that they are emphasized initially due to the many misconceptions that exist regarding human nature. This Awareness suggests that questions shall continue in any manner deemed appropriate by representatives of the organization, and that suggestions can be made amongst all parties involved, such that the needs can be met in any format suitable to all parties involved. The mechanisms already in place will suffice without any necessary changes as long as the channel can suggest certain editorial necessities given the developing nature of her verbal channel, that along with understanding she receives insights regarding this information on a regular basis, as her channel has been in place for quite some time, and that she is already attuned to this Awareness (much more so than she realizes) Despite her lack of experience verbally.

This Awareness suggests that Avaton and Vicki are also attuned to this Awareness and that inspirations which they perceive regarding how the evolution, and to best facilitate this particular channel is to occur; that such insights and suggestions are to be communicated, and that mutual communications amongst the three major players will be the best way to bring about the most appropriate and fulfilling structure for all involved.

This Awareness suggests that even if no such negotiation or structure is required for the entities or desired by the entities, that the information, the lessons themselves can come as opening messages or in specific readings set aside for that purpose, but that the continued answering of questions is particularly important to keep readers attuned, to provide feedback from the readers for clarification that is necessary. Many of the concepts are received in abstract form through the channel Grace in their totality and purity, which is quite commendable, yet that the abstract relies on necessary facilitation of communication and redefinition and step by step building of concepts and examples upon which entities can ascertain the abstractions.

This Awareness indicates that entities will have a resonance with the material for their body mind and soul are all attuned to the information. The body is equipped to respond in the manner which will be related, and that there will be a resonance to the material, like the resonance that is experienced in any teaching that facilitates the Spirit, rather than goes against the Spirit.

This Awareness suggests that the entities involved discuss the matter, and be aware that the channel Grace respects the traditions of the leaders of the organization and desires not to be disruptive, and recognizes a rather radical shift in the material and seeks not to be disruptive to the point that any format would be acceptable to her.

This Awareness suggests that the questions can continue and that the readership is asked to specifically respond to the information, to apply it to the specifics of their life and to current events, such that the abstractions can become more concrete, not only for the individual asking the question, but for every individual who will

begin to have emotional resonance and recognition, once they have begun to reclaim their own systems.

Will 1997 be a Turning Point for Humanity?

QUESTION:

A question from Chris L. in Wilmington, Delaware. I'll read his statement here. "There were several astrological configurations in January and February of this year that suggest that 1997 will be a turning point year for humanity, leading to significant consciousness changes over the next few years.

"If this is too vague, one configuration combined the planets Jupiter, Uranus, Neptune, Pluto, Saturn and Mars in ways that seem unparalleled, going back to the 1400's. The suggestion, astrologically, is that the mental models or paradigms we've been using for the last 200 years or more have been based on the image of a machine, specifically, a clock, for Enlightenment Age thinkers.

"Now those machine models are rapidly passing away so that new mental models will be arising quickly. The result will be that human consciousness becomes more flexible, more open to more human ideas, and therefore, creating more human societies. Does Cosmic Awareness see this astrological analysis as accurate or not?"

COSMIC AWARENESS:

This Awareness indicates a high degree of accuracy in the interpretation of this particular astrological formation. This Awareness indicates that the astrological information is an example of how the realm of mind has reached great lengths to attune to Divine Energy.

The alignment of the planets and the astrological significance that has been deemed from seers paying attention to the alignments of planets, etc., find a validity due to the belief systems that exist within the realm of human culture and the mind of man, such that they have diverted many of their own spiritual abilities into a belief in such systems as those like astrology and other forms of clairvoyant and information-gathering sources and devices.

Energy now Shifting into the Age of Enlightenment

This Awareness indicates these astrological patterns are a reflection of the shifting energy in the mass consciousness of mankind referred to previously as the Age of Enlightenment in which human beings will become more attuned through the original natural innate processes with which they have been biologically endowed and through which they can facilitate and get back on track with their intended spiritual, cultural, mental and physiological evolution.

This Awareness indicates that these patterns reflect the changing consciousness and in the growing incidences in the arts, in the politics, in the scientific community and in the spiritual community and in the consciousness of individuals themselves through creative artistic accomplishments, that the zeitgeist, the energy, is building toward a critical mass such that certain understandings will be more available to entities with a wide variety of abilities, and levels of connectedness; expanses of consciousness, that regardless of the levels of understanding and the maturational process of any given entity, that all entities will be more susceptible to the positive energies and the inspirations that speak from the Spirit through the Divine Love Energy, and awaken within them the innate guide that they were intended to possess.

This Awareness indicates that the teachings which will be facilitated through this organization through the Interpreter Grace includes the body of information with which entities can prepare themselves and achieve the maximum individual development possible and enlightenment available.

Critical Mass Will Increase Even if the Information not Received

This Awareness indicates that entities who do not receive this information shall also benefit from those who do receive the information, by increasing the energy toward achieving the critical mass through which the information can be obtained, easier and easier for those to learn it subsequently.

This Awareness indicates that those first pioneers who are already receiving the information and beginning to attune themselves to the inner guide, and to speak and act upon their feelings, to facilitate the changes in their immediate world, in their homes, in their communities, in their political institutions, in their nations, and ultimately in their world; that such changes are already occurring through which entities born to this earth in subsequent generations will encounter fewer and fewer obstacles within the realm of man and that the undoing of the house of cards, the alchemical transformation of the tar-pit within the mind of man, that humans remain mired within, becomes less and less of a trap, and more and more of a facilitator for individual development and expression, that it can and was originally intended to provide.

This Awareness indicates that the actions set in motion by individuals who resonate and respond adaptively to the information of the emotional signals shall bring about increased opportunity, the reduction of environments and situations both economic, racist, socialist; any limiting situations that entities are now born into, are situations that go against the development and expression of the Spirit.

As entities identify those tenets that are restricting individuals' freedom of movement, expression and control, such as limited economic communities, sub-cultures, systems which subordinate some members to others, caste systems, enslavement: economically, socially, and educationally; that such conditions shall, be removed, piece by piece as entities become aware of their own innate nature and how the Spirit speaks through the biological system, and how its needs are made apparent and that they must be fulfilled.

Acts of Violence and Evil Will no Longer be Necessary

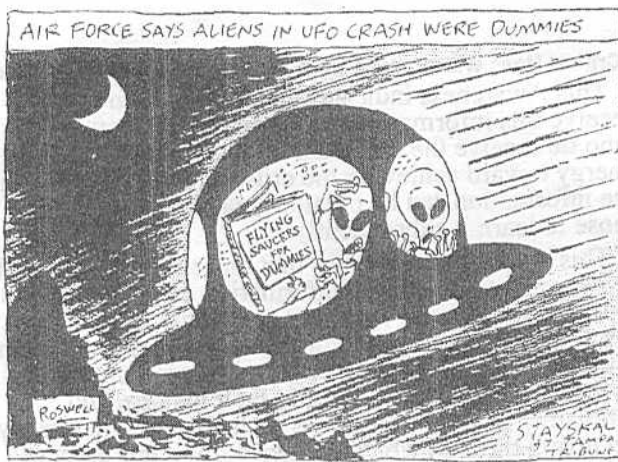

This Awareness suggests that there are many ideas, legal tenets, spiritual tenets and social tenets that disregard, vilify and deny certain aspects of human nature, and that when these attitudes / beliefs are removed from mass consciousness, they will be replaced by those that operate in concert and respect human nature, such that many activities, social problems, acts of violence and acts of evil will no longer be necessary, since these acts are rooted in the aberration and the misuse of the emotional system.

This Awareness suggests that violence, criminal behavior, nearly every activity that is condemned by the law, read about in the paper, that testifies and validates the irrational inaccurate belief that humans are innately evil; that each of these acts, if examined at their core, spring from aberrations and misguided responses to the emotional system.

Behind violence there is anger. Behind violence there is fear. This Awareness indicates that these are symptoms within the social structure, just as the feelings of fear and anger are symptoms within the individual of ideas that have been accepted as truth which should be discarded and updated.

Mankind will Experience a new Renaissance

This Awareness suggests that mankind will experience a renaissance of sorts, not unlike that which was experienced in the year mentioned in the question, when there was tremendous enlightenment following a period of dogmatic darkness. We have completion.

DID HALE-BOPP COMET INCREASE OUR ENLIGHTENMENT?

A question from Gerard R., in Hollywood, California. He says "I do have a lingering question for Awareness. Back when Hale-Bopp was just arriving, I believe Awareness indicated that the companion had a twin purpose, primarily to keep an eye on the comet, but also to send us a very high light vibration which would multiply several times the effect of the Photon Belt and speed up our enlightenment. Did this actually occur, or did something cause the companion entities to change their minds?"

COSMIC AWARENESS:

This Awareness suggests that this phenomenon is one and the same as the phenomenon mentioned with the astrological formation referring to the Age of Enlightenment, and yet, the Hale-Bopp belief system is but one of many through which understandings have been imparted. Since the direct channel of communication had been given over in believers to that system, it was a vicarious way for them to intuit the information regarding the enlightenment which is upon humankind.

This Awareness indicates that there was no change of intention on any entity's part regarding this scenario.

New Light on Harry Houdini's Escapes

(Is Man Created in a Template in the Mind of God?)

QUESTION:

A question from William Teague, St Louis, MO., which he sent over the Internet. He writes: "I sent Avaton a hard-bound book called The Intelligence of the Universe Speaks, maybe a year ago or so, and wonder if we can get Awareness to comment on its author, Warren Goetz, in general." He goes on, but there's a question here: "Mr. Goetz told about how he came to come to earth this time around. He died in the mid-Eighties. He said we all have a pictures of ourselves that is inviolate and is held in the mind of God and contained in the lines of force that permeate all of Creation and is our "personal template" so to speak. We always grow or unfold into this picture, every time we incarnate.

"He said that it's possible while in our incarnate form to make our picture manifest in 3-D and we could then be in two places at the same time doing different things, with both of 'us' being fully solid 3-D incarnate beings. He said that this is how the great escape artist Houdini did some of his most famous escapes, particularly the one where he had himself chained up and thrown off a bridge into a river.

"Warren says that his "regular" self was hiding out in a warehouse nearby, and his manifested "picture" self

was the one doing the stunt. When he went down into the water, he unmanifested his picture self from out of the chains and then remanifested it into the water, and swam up to the surface. Supposedly, some other famous magician at the time had suspected Houdini of something of that nature, and had followed him prior to the event and actually discovered him in the warehouse, but kept his secret perhaps because: Who would believe him?"

Would Awareness comment on that, please?

COSMIC AWARENESS:

This Awareness suggests that the questioner ask himself how the entity Houdini died, and therein he will find the answer to his question regarding Houdini. However, this Awareness suggests that the question and the questioner is quite enlightened in his resonance to the information regarding probable selves and a template, for there are two different concepts here with a high degree of validity.

This Awareness indicates that the concept described in the question describes that aspect of self which this Awareness has mentioned previously, as that aspect of self which must be re-recognized and has gone asunder due to the concepts in Western religious dogma regarding self-sacrifice and the removing of the self to entertain the God Force. This Awareness indicates that this template is in fact the Soul, which manifests itself through the cells of the human body with the intention of development and expression of that template, which is the embodiment and actualization of the entity and the particular mission the entity has chosen in a given incarnation.

This Awareness suggests that these templates of individuals, so to speak, are the aspects of self which are directly of Spirit, which seek development and expression, such that the value fulfillment of the mission can be accomplished in the earthly incarnation. This Awareness suggests, however, that once the physical realm is entered and the entity goes through the indoctrination process, the learning process, the socialization, the indoctrination of the truths and knowledge's and skills and artifacts of earthly existence; once the entity becomes so ingrained and entrenched in the tar pit, so to speak, that the actualization of a mirror image is entirely unlikely.

This Awareness indicates the challenge of every entity is to develop those aspects of self which will be described in the coming lessons, as those of the realm of mind, of a cultural self, as opposed to the Higher Aspects of self which shall be referred to as the Genetic Self which is the physical embodiment of the Spirit; that the genetic aspects of self are those that seek expression through development of the cultural aspects of self which are largely chosen from among the options available in the realm of mind.

This Awareness suggests that this duality that has split the earthly man from the spiritual entity is why it is now necessary to describe dual aspects of self, for each is equally important and the self that has been vilified by religions, if there is any factual nature to this vilification, would be the cultural self, and never the genetic self, and yet, no distinction has been made between any aspects of self, and individuals do not understand the interplay between these two self aspects, and how the emotional system seeks to keep them in balance.

Simultaneous Multiple Incarnations

This Awareness indicates that the second aspect of the question regarding probable existence's is also interesting. This Awareness suggests that an entity can embody multiple incarnations simultaneously, given that the

totality of Spirit no longer is facilitated by the physical form.

Ever since human beings began the birth and rebirth cycle rather than adjusting the vibration to come and go from the physical body as they so choose, there began a limitation as to how much of the spirit could be embodied in physical form, such that entities can embody multiple forms in given incarnations and in given places in history: past, present and future, simultaneously, and that this concept has been put forth as a concept of 'probable selves' but that this description has a high degree of distortion regarding the entity Houdini and his trickery or the methods thereof.

If we have completion we can continue.

The Strange Birth of Warren Goetz

QUESTION:

He goes on in a different area that Warren Goetz covered in his book The Intelligence of the Universe Speaks, and he writes "Anyway, Warren said that he was not born in this life; that his "mother" was not pregnant when he "came". He said that he remembered his original creation by God and had, for most of his existence, always been a scientist on board a great mother ship that traveled around the universe trying to come to know and understand God's wonderful Creation.

"He would every now and again be moved to go down to low evolved worlds and teach Universal Law and Science. The last time he says he came to earth was at the time of Atlantis, right before it self-destructed. This time around, when he decided to return, he intended to experience as much of being a total earthling as possible so he could really understand what the problems and struggles of life was all about here, so he moved his consciousness into his "picture" self and stepped his manifested self out of the mother ship and let it die; his first death he ever experienced; and then from his "picture" self he created a baby body for him to occupy, closed his mind so he could grow up as totally an earthling as he could, and this was brought down by helpers in the middle of night, and placed into the woman's bed who would accept him as her own, and be his earthly mother.

"He was encased in a leathery pouch. When she woke up, she called her sister, who was staying with her, into the bedroom, and together they cut open this pouch which obviously had something moving around inside, and there was baby Warren. Although I never got to meet his older brothers and sisters, I did speak with some people who had, and they told me, that though his older siblings never understood nor really accepted Warren as a "teacher" or that whole aspect of his identity and activity in this life, they did verify that their mother was indeed, not pregnant when baby Warren came to their household."

And he asks if Awareness could comment on any of this.

COSMIC AWARENESS:

This Awareness indicates that the entity Warren as a unique and creative channel to this Awareness, that focuses upon certain metaphysical aspects of the universe, yet much of the information he receives is distorted due to his conscious mind, which has been mired, as are all human beings, in the tar pit of human existence.

This Awareness indicates that this entity receives detailed, highly specific audio-visual experiences while in the dream state, and although largely metaphoric, he perceives them in a more literal sense and colors them

with the belief systems that he has accumulated over his lifetime. This Awareness suggests that he was indeed born of a human being; perhaps not necessarily the woman who raised him.

This Awareness suggests that this should in no way discourage readers from finding enlightenment in his words. This Awareness suggests that items, ideas, that have been offered to the realm of man, factual or otherwise; that any such information entertained for each entity to determine their own level of spiritual resonance, and that any ideas and pieces of information that resonate are tools with which they can develop and express their individuality, and those that do not, can be set aside on a mental shelf or examined for the conflicts that they create, such that the entity can do continuous house-keeping in the realm of mind, such that the Spirit is only facilitated by those accepted beliefs and ideas rather than thwarted.

This Awareness suggests that the entity Warren has a degree of anger which is distorting his interpretations and his actions, yet this is less relevant to the questioner since it is an individual process. It is mentioned, however, to acquaint the questioner with the fact that the emotional system contains information and active energy.

Menopausal Hot Flashes: Cause and Cure?

(Why Estrogen Helps Many Yet Make Matters Worse for Others)

QUESTION:

One last question, a health question from JD in New York. She writes: "Awareness, I am greatly puzzled by two conflicting schools of thought regarding cause and cure of menopausal hot flashes. Mainstream doctors buy the pharmaceutical companies' notion that estrogen deficiency is the cause, and taking estrogen does eliminate the problem for a majority of women; apparently, however, others such as Dr. John R. Lee, blame "estrogen dominance," claiming that the progesterone levels dropped even lower and they prescribe supplemental progesterone instead, and his method has been successful for quite a number of women.

"The two theories seem mutually contradictory, and the success of each approach in some cases seems to invalidate the opposite, while confirming its own. This is utterly baffling. Please explain: How can estrogen relieve some cases, and exacerbate others?"

COSMIC AWARENESS:

This Awareness indicates that individuals have uniquely genetic disposition to a particular balance, as it pertains to the hormonal system in general, specifically the female reproductive system. The menopause experience is the winding down of the reproductive organs, the ovaries of which produce the necessary substances known as hormones to continue carrying out many functions in addition to the reproductive functions.

This Awareness indicates that specific individuals have specific symptoms for a wide variety of reasons, depending on their individual genetic disposition. This Awareness indicates that estrogen may contribute to hot flashes in one woman, while the imbalance in progesterone may do the same in others. It is also indicated that various treatments affect various receptor areas which also have a wide genetic diversity, such that certain receptor cells may be larger or smaller, effectual or less so, from woman to woman, such that different therapies may receive different levels of effectiveness due to the receptor cells and the shapes and sizes thereof.

This Awareness indicates that reductions in irregu-

larities in the production of estrogen during the process of menopause are the most general sources of the hot flash experience in women, yet that receptor cells can widely vary, such that different therapies will have different outcomes.

This Awareness indicates that entities who place an over-reliance on the mechanistic viewpoint of a body in operation, and in separation from the mind in spirit are more susceptible to the physiological ups and downs, the body's response to nutritive components, to hormones and the levels; the concerns over the levels necessary wreak more havoc than the faith that the necessary levels will be attainable through alignment of mind, body and spirit.

This Awareness suggests that an over-emphasis on how a specific mechanism may operate is likened to the human being looking at the body as a machine, and wondering which tool to use to fix it, rather than understanding that the rational perspective, the brain which is conscious of the situation, also is connected to the situation and has an incredible controlling influence, if it is allowed to.

This Awareness suggests that women undergoing the menopause process attune themselves to the inner language and the innate wisdom of the body, be particularly attuned to insightful flashes of inspiration, as well as the hot flashes that serve to connect the mind and the body, and to bridge the artificial gap that our human belief systems have created.

Again, the Interpreter chastises herself for being a participant in the Oneness, and using the "we". She is to be informed that such a Oneness is a good thing, and not to be concerned if it comes across in the words that she chooses to communicate from this Awareness. If there is a completion we can continue.

FOLLOW-UP QUESTION:

JD had one follow-up on this. "And what about patient women like myself who find the estrogen's do nothing, or worsen the malady, while the progesterone seems to do nothing either?"

COSMIC AWARENESS:

This Awareness indicates that this entity has a powerful capacity for self-healing, and that she does not credit herself with this ability, and that she calls herself 'patient' and has concluded that neither option will be effective. She perhaps has reached this conclusion because she knows *she* is the answer.

This Awareness suggests she experiment with meditative states and channel her own impressive power toward this condition in a little experiment of her own. This Awareness suggests that she submit a further question that includes the enlightenment she receives from this exercise. This Awareness indicates that progesterone has some curative effect, yet to be ascertained, in addition to her inner manipulations.

This Awareness suggests that her very abilities alone may be blocking the more mechanistic medicines due to the fact that she is aware of her own curative ability and yet is experiencing a frustration due to a predominantly mechanistic belief, when it comes to medical care. This Awareness suggests that she ponder her belief systems to identify where any conflicts might remain, and to remove them for more clarity and attunement to the Universal Divine.

Interpreter Frustration

CLOSING MESSAGE:

This Awareness indicates that there has been a degree of frustration on the part of the Interpreter when words are not as readily accessible as she would prefer. This

Awareness wishes to assuage her fears, and that any negative emotion, as she is well aware, interferes with the direct communication she so readily attains.

This Awareness suggests she has a concern that in the past there has been no need for any editing, and that she can assuage her fears, that any necessary editing deemed appropriate by the editor or suggested by her in no way conflicts with the message of this Awareness, and that when these concerns are assuaged, she will be more able to allow the words to flow more readily.

At this point in time, she is rapidly attaining balance between the two brain hemispheres which is necessary for an orally verbal accounting of the inspirations she achieves in a vastly different format. This Awareness suggests that the message has been received, but that certain words have not met with her desires and that if editing is required, so be it.

(The Law of Gratitude Is given)

Is Reagan's Senility Karma for Killing Others?

QUESTION:

Another question from Robert S. "Is the Alzheimer's disease Ronald Reagan suffers from a partial karmic payment he has chosen for such past evil acts as arming and training the murderous Contras in Nicaragua and the equally sadistic government death squads of El Salvador?"

COSMIC AWARENESS:

This Awareness indicates that an accumulation of a lifetime of activities in terms of behavior, diet, genetics, and exercise and environmental matters and personal stress all contribute to create certain circumstances that result in disease. This Awareness indicates that there are many factors that can contribute to Alzheimer's. This Awareness indicates that even such things as aluminum that is in cookware, or aluminum in deodorants can help to cause or encourage or develop the Alzheimer's disease.

Chelation Has Cured Many of Alzheimer's Disease

Many people have been treated for Alzheimer's and cured by the use of chelation which takes heavy metals out of the system, and by the removal of aluminum from their system, the Alzheimer's disease would be diminished or cured. This Awareness indicates this is not always the cause of the Alzheimer's disease, however. There can be other factors including parasites. Also certain vitamin/mineral deficiencies can contribute to this disease.

The entity Ronald Reagan **did** take bee pollen which helped to preserve his youth and vitality longer than most people his age. Keep in mind that this entity is quite elderly at this time, having been 70 years of age at the time he became president. That is not exactly a karmic punishment for an entity to live such a long life and to end up near its end with Alzheimer's disease.

KARMA CAN BE INSTANT OR SPREAD OUT OVER MANY LIFETIMES

CLOSING MESSAGE:

This Awareness indicates the concept of karma is not always administered in a particular lifetime in which the karma is earned. It can be passed over into the next lifetime, or it can be spread out over several lifetimes. It is simply cause and effect, and the effect may not be fully experienced or realized in a single lifetime.

Much has to do with an entity's level of awareness and remorse. If an entity takes an action that is negative in terms of karma and earns some kind of karmic punishment, then the entity may or may not even be aware of his deserving a punishment. He may simply be focused on getting by without getting caught or without being exposed to the point where he does not admit or

acknowledge that he deserves some kind of karmic punishment.

At some point in his life, or in the afterlife experience, he will reflect back on his life from a different perspective and may recognize that this was wrong, it was not the right thing to do, and in evaluating his life, will see that he owes something to someone, and must repay in some way to balance things out, and thus the entity may accept or prepare to accept some kind of karmic repercussions for his previous behavior.

Thus, in the afterlife, and perhaps before the next life, he agrees to accept certain karmic influences which he will need to work out in order to have a clear and balanced soul. This Awareness indicates this entity may choose to live a single life, repaying karma for many things done, or may choose to spread the karma out over 'installment plans' of many lifetimes.

This Awareness indicates it largely depends on what the entity decides when he is in the high state of Awareness, the White Light, at the time and moment of his passing over, and prior to any rebirth cycle.

This Awareness indicates, however, in some instances, karma is more quick, and in some cases can be 'instant.' An entity may be active in a certain way and have an immediate reaction or injury from the activity which could be considered as Instant Karma. If an entity is, for example, extremely careless and gets his or her finger chopped off because of that carelessness, it is instant karma, and these things can occur so that one acts in a certain way and his present lifetime is then affected by the karma of the action.

Most Karma is Created Between Ages 17 and 27

This Awareness indicates also that most entities rack up most of their lifetime karma between the age of 17 and 30, and even 17 and 27 could be a more precise period for the racking up of karma for a particular lifetime. Entities become extremely wild and careless during those years, lacking responsibility, but going after the pleasures of adulthood, being irresponsible for the actions they pursue, and thus, they rack up extreme debts or possibly criminal records, or unwanted or unplanned-for children, or some kind of record that does not do well with their reputation, or other types of problems with relationships or with close family members, and their wildness and irresponsibility is strong during those years and may cause karmic results that last throughout much of their future lifetime.

This Awareness indicates of course, this can be avoided by entities who are more cautious, more reserved, more careful about planning their lives.

Who Were the Chaldeans: the Ancient Ones?

QUESTION:

A question from Marie T., East Hampton, Massachusetts. She asks: "I'd like to know just who were the ancient ones known as the Chaldeans? I believe they stemmed from a star system outside of ours and were the first recorded magicians, whose mathematical formulae hold true today.

"Their system of numerology, devised thousands of years ago, was brought to light several years back by the now deceased Linda Goldman. She studied it and created what she called the Chaldean-Hebrew-Kabbalah-Numerical Alphabet. It is so accurate that if you follow that system, you can see your own life's personal story played out before you!

"Where did they come from? And did they move on to another star or go back home? Did they disappear from the earth plane, and if not, who are their offspring today?"

I'M SENDING CHESTERFIELDS to all my friends. That's the merriest Christmas any smoker can have — Chesterfield mildness plus no unpleasant after-taste

Does smoking cause senility?

COSMIC AWARENESS:

This Awareness indicates that these entities appear to have originally come from various places, because they were likened unto a wandering tribe of space beings. They have some civilization in Vega, some in Lyra, and some in Altair. They have also been in galaxies at quite a distance from this galaxy.

The Basques and the Gypsies are Descendants of Chaldeans

This Awareness indicates that it appears that some of the descendants of these entities would be the Basques of Spain and also the Gypsies; that these are seen as having descended from Chaldea, although the genetics has been greatly polluted for these entities. This Awareness indicates the tendencies of the Gypsies to wander and roam from place to place and to have a focus on foretelling the future, as that which was essentially handed down from the time of Chaldea. It, too, has become quite watered down and less effective for these entities.

This Awareness indicates there is also seen a civilization on Arcturus that served as a kind of ancestry to those who settled in Chaldea.

"The Ra Material" and Its Channelers: An Evaluation

QUESTION:

A question from William H., in San Diego. Awareness has mentioned this years ago, but didn't go into detail. He writes: "It is my understanding that the Interpreter is a former associate of one Karla Reukert of L&L Research in Louisville, Kentucky. Karla was interpreter for a "Social Memory Complex" type entity named "Ra."

"From the channelings, a four volume work titled The Ra Material was developed. This work is a mind-boggling cosmology of our origins, our places in a universe teeming with both good and evil intelligence, and a treatise on hyper-dimensional physics. Would Awareness please comment on the accuracy and potential value of The Ra Material and perhaps explain why it has remained so obscure? One would expect a cult following of these books, considering the nature of the material, but not so.

"The author and channeler remain in relative obscurity, and the latter, in a state of relative non-wealth. By the way, these books can be obtained from Karla at a fantastically unreasonably low price. They should be included in your book list. Karla may be reached by FAX or by mail, if you're inclined to follow up on this," he says.

COSMIC AWARENESS:

This Awareness indicates that the Interpreter was a friend of her *associate*, not so much of Karla herself, who he has met only briefly a few times. This Awareness indicates that he does have considerable respect and admiration for her, but does not know much about her personal background or where she comes from or how she got started in her channeling.

This Awareness indicates that the works were in part created from the combination or chemistry of the mixture of three entities working together. The entity James and the entity, an older person appears to start with the letter 'E'. This Awareness indicates that these entities working together brought to the channeling, some of which was started by the older person, and later picked up by Karla at the death of the older person.

This Awareness indicates that the material as that which **does** have considerable validity and can be of great interest to those who read the material. It is generally sold on a kind of donational basis, which they have had some reasonable success with. They make the book available by donation and entities simply send what they can for the book. This Awareness indicates that this was the manner by which they began distributing the material and it appears that this was used throughout much of, if not all, of their marketing.

FOLLOW-UP QUESTION:

He also adds: "Karla also has tapes and books on the UFO phenomenon, covering the subject from the spiritual side. I believe the Interpreter can attest to the purity of these channelings, if prevailed upon to do so. I feel that all the aforementioned material would be of great value to the membership, particularly to the real seekers among them. I'm talking high-grade stuff!" he says.

COSMIC AWARENESS:

This Awareness suggests that entities may wish to consider ordering these books or ordering a list of available books to evaluate what the books are about and to determine whether to order them from these entities. This Awareness indicates they are of good quality and good interest and generally people will find them of great value to them.

FOLLOW-UP QUESTION:

In light of the UFO information given by Awareness in the last few years, how does the UFO information put out by this organization stand up?

COSMIC AWARENESS:

This Awareness indicates that this information is of a different approach. The expression through this Awareness has more to do with the focus on the Greys and their agenda and the Reptoids. It has focused on these because of the general threat and cosmology that has played such a major part of the history and is this time playing again a major part of the history of the earth.

This Awareness indicates that the work of these entities tends to deal, to a large part, with the more spiritually inclined type of aliens; that which might be thought of as other-dimensional types of beings whose interests are not so much a practical infiltration on earth or in its society, but of a more philosophical approach.

This Awareness indicates the best approach for entities would be to order the book Secrets of the UFO's to get a general idea of the way the channeling occurred and the type of information available, and if that one is enjoyed or fully understood and appreciated, then they may wish to order more in the series.

WHAT IS COSMIC AWARENESS

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

--HOW TO GET THIS NEWSLETTER BY MAIL--

EVERY 3 WEEKS ! (More or Less)

REVELATIONS OF AWARENESS is a cosmic newsletter, published by Cosmic Awareness Communications, P.O. Box 115, Olympia, Washington, 98507, U.S.A. (A not-for-profit organization). Membership fees and donations are deductible from your Federal Income Tax. Try to remember Cosmic Awareness in your will if you wish to have these messages preserved and available to others in years to come. ("How many have you served, and how well?" is the question we will all be asked at the Passing Over).

MEMBERSHIPS AVAILABLE (Honor System!)

INDIVIDUAL: \$42 per year

FAMILY: \$52

CONTRIBUTING: \$77

PATRON: \$144

ENDOWING: \$5000

LIMITED INCOME (Broke, poor, etc.): \$30

VISIT THE NEW C.A.C. HOME PAGE ON THE INTERNET

CAC now has another site here in Olympia. It contains a lot of information on the history of the Awareness Movement, what CAC is all about, plus colored photos of the entities who make this newsletter possible: Vikki T., your editor, Paul Shockley, Strongbow, Lady K, Rufus and Wilber. There is also information on some of the health products available: Silver Wain Water, Silver Wain Water Colostrum and Silver Wain Water Colloidal Minerals. Check us out. You can also click and lie in to our other website (tescat site). Just type in:
