He Believes He's Under a Psionic Attack

(Is There Any Way To Protect Oneself?)

QUESTION:

In reference to psionics, we had a letter from Steve Lawson in Tofino, B.C. dated July 21. He writes: "Dear Avaton. I have a question for Awareness. Mainly, is there any way to protect oneself against psionic attack? I have personal reasons for asking this, but as Awareness has said, the cat is out of the bag and we will soon have to learn to deal with this type of energy.

My reason for asking concerns Dr Beter's tape #34, which I received as a back issue on an unfilled subscription, and his information about secret nuclear power stations and cables for weather modification by the U.S. military, one of which is situated at Cape Cook on Vancouver Island. I have had much personal knowledge of this place, including UFOs, strange noises, feelings and the unexplained disappearance of three friends among other strange happenings.

"Dr Beter's information answers a lot of unanswered questions, if it is as I believe true. In fact I believe I know exactly where it is and where the cable runs and like an idiot, I wrote everything I know about it including maps of the place to Dr Beter. This was in early May and there has been no reply. As I have written to him on several occasions previous and have always received a prompt and friendly reply, I think the letter may have been intercepted and not passed on to him in order not to further the information."

" I hope I may be simply paranoid, but I have been having mild pains around my heart for the past month, and one night I had a rather vivid dream watching myself having a heart attack. For me this is totally out of context, I am 34 years old, very active and healthy, eat good food and have no bad habits other than the occasional bottle of good wine or the odd beer.

"One other thing it could be is that recently, you may remember, the Russian spy ship and nuclear submarine off Juan de Fuca Strait. Our house is on an island off Vancouver Island, and faces straight out to sea in a Southwest direction, and there have been periods when we "felt" some type of radiation drifting through. Many others here have been generally unhealthy and feeling off also. I suspect we Canadians may be getting the treatment for allowing the cruise missile into this country.

"Heavy rains washed out the TransCanada Highway in two places last week and effectively blocked 95% of all traffic to the coast; in the afternoon that the Canadian Pacific Rail-line through the Rockies was repaired, it went out again in the same place. Anyway, we are dedicated Light Workers and have lots to do, and normally wouldn't bother about a few aches and pains, but this is persisting, and I wouldn't be surprised if I was on somebody's Not Well List.

"Perhaps Awareness could enlighten us on this, and also the methods of the psionics, for instance; must it be selective as in Mr Andropov's case, or can it be more general as in the trance healing list." Signed, Steve Lawson."

COSMIC AWARENESS:

This Awareness indicates that the psionics devices are of various types. There are those which are used for selective cases; there are also certain types of machines of a psionics nature that incorporate other principles which can emanate energies into a general area. This Awareness indicates that these energies which you have been experiencing are those which are not directed toward you personally, but which have emanated in the general area.

This Awareness indicates that there is a device, the plans for this at a different time. This Awareness suggests that the plans for such a device which entities can assemble for a low price of approximately $20.00, whereby this device can assist in warding off psionics attacks and create a field in one's vicinity or in the vicinity of one's home, covering an area of approximately ½ mile in each direction. This Awareness indicates that *It* will give further information on obtaining the plans for this at a different time. This Awareness suggests that the plans be obtained before the source be named. This to protect the source.

This Awareness indicates that if questions in relation to this entity's questioning have not been fully covered, This Awareness suggests that these be re-asked.

FOLLOW-UP (AVATON):

Well, the emanations Steve mentioned in the general area, from where are they coming, and to what are they directed?

COSMIC AWARENESS:

This Awareness indicates that this appears to have been emanations not directed particularly toward individuals in the area, but emanations that are associated with the electronic devices off-shore. This Awareness indicates that the devices simply emanate energies when activated and have as a bi-effect, or secondary effect a negative effect on the individuals within their range. This Awareness indicates that it does not appear that this is intended to be an attack on the people in the area, but rather that the rays from these devices have a kind of fall-out effect.

Evening of Primrose Oil Tablets for the Heart

This Awareness indicates that this does not appear to be radiation in the sense of atomic radiation, but more in line with microwave type radiation. This Awareness does not see the use of a psionics device aimed particularly or directly specifically at this individual. This Awareness indicates that it appears the individual would benefit from the use of Evening of Primrose Oil tablets, that these taken daily for approximately 2 months. This Awareness suggests approximately 2,000 to 3,000 units daily for approximately 2 months will help this entity.

FOLLOW-UP (AVATON):

Is that for the heart?

COSMIC AWARENESS:

This in reference to cleaning the blood and reducing cholesterol/ triglyceride levels and improving the circulation. This Awareness indicates that this appears to be that which would be beneficial for this entity at this stage. This Awareness suggests that the continued use of this in connection with watching the blood pressure. This Awareness indicates that this can lower the blood pressure to levels which are below normal, if used excessively, therefore this Awareness suggests that in using this substance, Evening of Primrose Oil, that entities watch their blood pressure when using this over long periods of time.

For High Intelligence Some Cholesterol is a Good Thing

This Awareness indicates that a certain amount of cholesterol in the blood stream is necessary for it helps to keep the Intelligence high, This Awareness indicates that cholesterol is used in the brain and that it is beneficial in some degree in relation to the intelligence factor. This Awareness indicates that if the blood pressure gets

too low, the entity's thinking ability can suffer. This Awareness indicates that the Evening of Primrose Oil as that which reduces cholesterol and triglycerides, among other actions.

Evening of Primrose Oil Stops Craving for Alcohol

This Awareness indicates that this also helps to build up the immunity system, and also helps to counter the craving for alcohol which some entities experience. This Awareness indicates that it has other effects also in reference to skin rashes and in reference to absorbing nutrients into the system. This Awareness indicates that for this entity, the use of Evening of Primrose Oil in connection with the angina-type pains as that which would be beneficial to help to ward off these pains and the tendency towards this.

This Awareness indicates that all entities experiencing high blood pressure, angina, circulatory problems, heart problems should be made aware of the Evening of Primrose Oil. This Awareness indicates that this as being a very potent healer for this. This Awareness indicates that also entities experiencing or suffering from cancerous conditions should use the Evening of Primrose Oil. This Awareness indicates that entities wishing to have more detailed information regarding the Evening of Primrose Oil may receive this either through healthfood stores or from their doctor.

ED's Note: If your local healthfood store doesn't have it, you can get it from Swanson Health Products. Call toll-free 1-800-437-4148.

SCD (SUDDEN CARDIAC DEATH)

(Is This Sudden Outbreak Related to Psionics?)

FOLLOW-UP (AVATON):

On the 20/20 program yesterday, they had a segment on what they called SCD, Sudden Cardiac Death, which they said is killing many many people in this country now, and it's very high on the list of most common deaths nowadays. I hadn't heard about it, but they claim that John Paul the First, age 65, and Larry Gordon, 28, a football player, and numerous others all were attacked by this. It's called Arrhythmias, I believe, and it's where the heart loses its rhythm and starts racing wildly, and becomes totally chaotic and shuts the blood off from the body and the person just dies almost immediately, and it's sudden and it's painless, but they Just drop dead with no warning, and there's no symptoms or anything like that. Would Awareness indicate, is this Arrhythmias. Is this new SCD related to psionics, or is this just something that's always been around and they're just getting around to discovering it?

COSMIC AWARENESS:

This Awareness indicates that this appears to be related to the psionics, the use of psionics. This Awareness indicates that it appears that the use of this device by certain forces as that which occurs when the device is set for particular frequencies that are close to each other, and wherein this device is aimed at these frequencies. This Awareness indicates this as one of devices which is not aimed in a specific manner.

This Awareness indicates that it appears that this can be used to selectively cause the death of entities scattered throughout a society without any particular individual selection, but as simply associated with their similarity of vibration or frequency. This Awareness indicates this accounts for the strange type of death patterns associated with individuals whereby during a particular phase, many times several individuals will die almost simultaneously within a family or community or group, whereas months will go by and nothing of a similar nature occurs.

The Hollywood Deaths Phenomena

This Awareness indicates that this is also associated with the phenomena whereby when one person in Hollywood dies, there are generally two others who die within a 3 day period. This Awareness indicates that this device is not that of this physical plane, but rather is from Inner Plane levels and the vibrations or frequencies are directed and selected by those forces on the Inner Planes.

This Awareness indicates that this is associated with energies in connection with the lifespan which entities take on. This Awareness indicates that it is seen however, that those energies from the Inner Planes regulate the lifespans and frequency vibrations of entities on the physical plane. This Awareness indicates that in the case of the Sudden Cardiac Death as indicated in the question, that this particular action as that which is generated from instruments on *this* plane. That these being activated by forces other than the Inner Plane activities.

This Awareness indicates that it is not clear or available at this time, the information necessary to discern the purpose of this type of action. This Awareness indicates it appears to be more of a type of experimental research program, using devices in this manner and that this is in early stages of development on this plane whereby entities being selected at random, according to vibrations associated with fingerprint or signature.

This Awareness indicates that this as a new area of experimentation and further information as that which needs further energizing and time before the answer and information becomes clear in regard to the question.

FOLLOW-UP (AVATON):

In reference to psionic machines on the physical plane; are they mostly effective at close range, or are they effective, like say, coast to coast, or thousands of miles away?

COSMIC AWARENESS:

This Awareness indicates that distance is of no significance or consequence.

IS SPONTANEOUS HUMAN COMBUSTION RELATED TO PSIONICS?

FOLLOW-UP:

In reference to the psionic devices mentioned from the Inner Planes, is this similar to that action Awareness indicated sometime back about spontaneous human combustion? Entities Just suddenly bursting into flames for no reason?

COSMIC AWARENESS:

This Awareness indicates that this is not associated with these spontaneous human combustions except that those forces from the Inner Plane can, through certain vibrations, help to trigger a chemical reaction within the system. This Awareness indicates that this only occurs however, when the system itself is in a condition or state whereby it can be easily affected by the chemical vibrations. This Awareness indicates this as associated with the smell of sulfur and the intense vibrations of forces using...this Awareness indicates this likened unto a ray-type force that can be used on certain individuals over a period of time and gradually the individual's chemicals in the body become susceptible to change which then can lead to the internal fire, or the catalyst that breaks into flame.

This Awareness indicates that this is not the same as a radionics device or psionics device although it is of a similar nature. This as being more of a ray itself emanat-

has happened in the past." His question: "Does Awareness consider the plate tectonics theory valid and if so, what is the cause of this hot spot under Hawaii, and has this heat source anything to do with the inner world, or have any effects on it?"

COSMIC AWARENESS:

This Awareness indicates that it does appear that there is some unusual heat source in the area that is not native to the earth. This Awareness indicates that it appears that this heat source not only was responsible for the emission of these volcanic eruptions undersea in the Pacific, but that they also helped to trigger movements of the other plates around the earth.

This Awareness indicates it relates to the butting together of the earth plates in such a way that one is disrupted or broken and moves, causing the others to have room to move. In the crashing of this source into the Pacific Ocean, it appears that it created a vibration and weakening of the crust to the East which in breaking up allowed the continent which is now known as the American continent, to move Westwardly toward its present position.

This Awareness indicates this source in the ocean does not appear to be a ship or spaceship. It appears to have been some form of natural material from a body in space that blew apart with a piece landing in the area which started the fusion and heat reactions undersea. This Awareness indicates that there is a combination of factors involved that are not clear at this time and the date of these events are also not clear. That there may be more clarity at a later time in this regard.

Part of the Divine Plan or an Accident?

FOLLOW-UP (AVATON):

Was whatever that was that crashed into the Pacific just an accident, or was it part of the Divine plan in creating future habitats for entities on earth?

COSMIC AWARENESS:

This Awareness indicates that the question calls for some explanation. Accident in nature is often part of a Divine Plan, and Divine Plans are often triggered by accidents, as in this case.

CALPURNIUS PISO: DID HE WRITE THE NEW TESTAMENT?

QUESTION:

Michael Pardo, Bloomfield, New Jersey, sent in a brochure put out by the Abelard Reuchlin Foundation of Kent, Washington. Evidently some entity's name, and they claim ..well, I'll read his question, and if Awareness requests that I read from this information, I'll certainly do so. He writes:

"I just got some information from a group up there in Washington State near you guys, and I'd like to ask Awareness to check it out for me, if you will. Enclosed, please find copies of some of the literature of an organization called the Abelard Reuchlin Foundation, who make the claim that a Roman aristocratic family which was exiled to the Middle East after an unsuccessful attempt on the life of Emperor Nero, (they eventually succeeded) actually composed the full set of the New Testament of the Bible for the purpose of providing an instrument of revenge against the Jews, clearing up political trouble in the realms of the empire under the control of that family, and to create a tool for the control of the masses that would allow that family to maintain control throughout the ages."

In the literature Michael enclosed, they claim that the "The New Testament, the Church and Christianity were all the creations of the Calpurnius Piso family, (pronounced Peso) who were Roman aristocrats. The New Testament and all the characters in it--Jesus, all the Josephs, all the Marys, all the disciples, Apostles, Paul, and John the Baptist--are all fictional.

Michael Pardo asks if Awareness could answer the following specific questions: #1) Who is really involved with the Abalard Reuchlin Foundation of Kent, Washington, and who supports them in a manner that might impart an influence of which we would want to be aware?"

COSMIC AWARENESS:

This Awareness indicates that this is not seen clearly. This Awareness indicates that the energies of this appear to be related to forces which are sincere in their belief in this regard, in the belief of the facts of their information. This Awareness indicates that there does appear to be considerable merit to the arguments given; that the works were presented to that which under Constantine was a Council called for unifying the religions of Rome into one catholic or universal religion, the Holy Roman Catholic Church.

This Awareness indicates this appears to have occurred in the time of the Council of Nicea, near the 5th Century, this in A.D. This Awareness indicates that the information being brought to this council wherein Constantine gave orders that all religious leaders come together and form this single religion that could be acceptable to all, and the information from this group of writings was brought in and through a time of debate, discussion and negotiation with some modification to the text was eventually accepted by the majority of the church leaders, the religious leaders of Rome.

Those who refused to accept and agree to the texts and new religion were simply not recognized in their religious faith thereafter in Rome. This Awareness indicates that it appears many of these writings were taken from various sources using religious books and concepts and ideas from different cultures that were in Rome as religious cultures at the time.

This Awareness indicates that some of this has been discussed previously in regard to the works of Professor Hotema and his writings on the Nicene Council and on the works under the direction of Constantine. This Awareness indicates that the family mentioned in this question as adding further information to that from a different source. It being likened unto additional evidence being given from new or different sources and historical documentation.

FOLLOW-UP (AVATON):

Did a Roman aristocratic family by the name of Piso exist whose patriarch Lucius Calpernius Piso was executed, and whose son Arius Calpernius Piso was exiled to the Middle East after a failed attempt to assassinate Roman Emperor Nero?

COSMIC AWARENESS:

This Awareness indicates this appears to be accurate.

FOLLOW-UP:

Did Arius Calpernius Piso take on the pen name of Flavius Josephus in literary legend and carry out persecutions against the Jews in Palestine under other aliases and under the name of his wife's family and

continue his father's plan of authorship of a book to help his wife's family, who were descendants of Herod, to better control the Jews in the region and afford greater control of Rome by his own family?

COSMIC AWARENESS:

This appears to be mostly correct.

FOLLOW-UP QUESTION:

Did Arius Calpernius Piso use writings of the Jewish sect called the Essenes, who he supposedly wiped out as a Roman military leader, which actually referred to a member of the sect who really existed and was hailed as a messianic hope and whose name was actually Immanuel ?

COSMIC AWARENESS:

This was alluded to and referred to in writings with some alteration of facts.

QUESTION:

This Abelard Reuchlin Foundation offers an invitation to join the inner circle and a one thousand four hundred and sixteen dollar and nineteen cent challenge, which you will receive from the Foundation if you can disprove the booklet's thesis, that the Calpernius family wrote the New Testament. They've got a brochure on this book called *The True Authorship Of The New Testament* by Abelard Reuchlin. I'll read the blurb on it:

"A scholarly and most revealing thesis on how a rich and powerful aristocratic Roman family, the Calpernius Pisos wrote all the books of the *New Testament* between the years 70 and 140 A.D. The booklet contains the very first public explanation in recorded history as to how the *Pisos wrote the New Testament. It will take a person* several readings to completely digest the booklet's very tightly written information, but after one has studied it, he will say, "I always wondered about that story", or just simply : "Wow!" This booklet is a literary bombshell.

"The author proves he knows more about the Calpernius Pisos than the keepers of the keys to the Vatican basement. The booklet covers Roman and Judean history leading up to the writings of the *New Testament* as well as the motivation for writing it. It also explains why the Jews fought Rome three times and how the Jews answered the Pisos in their literature by code and allusion."

Also included is a section on the creation of the church and the church fathers. And they sell this paperback book for ten dollars post-paid, from the Abelard Reuchlin Foundation, P.O. Box 5652, Kent, Washington, 98064. I'd like to ask Awareness if it sounds like that book is valid enough to recommend for the members to read it?

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative. This Awareness indicates this especially for those who wish to study the historical background of the *New Testament*. This Awareness suggests that the information provided is that which will lead entities to truly rethink many of their beliefs in regard to what they have been told and taught.

This Awareness indicates that this information of these *early writings was incorporated into the church ap*proximately 300 years after the writings were first released in Rome. These writings circulated among the more Aristocratic types for some time and eventually were adopted by that Nicene Council ordered by Constantine for the creation of a new catholic or universal Roman religion.

This Awareness indicates that entities in reading this information will have a very clear understanding of how the incorporation of this material and why it was included eventually became the cornerstone for the Catholic religion of Rome or the universal religion of Rome. This Awareness indicates the term "catholic" *meaning universal or all-encompassing.*

Ed's Note: This reading brought up for the first time the mention of the Peso family or the Abelard Reuchlin Foundation. Over the years more questions were asked about the Peso *family and as more energizing took place Awareness emphati*cally indicated the information was basically true, that the Peso family did indeed write most, if not all, of the books in the *New Testament*.

We urge all readers to order this booklet from the Abelard Reuchlin Foundation for it not only confirms much of what Awareness has revealed about the Bible in the past, but it explains the secret code the Piso's placed in the writings which allows you to research this information and prove to yourself the New Testament of the Bible was not divinely inspired in any way, but rather was created from the minds of a very versatile writing family in Italy.

JEFFREY DAHMER'S CONNECTION
With Ancient Aztec Ritual Murder Rites

QUESTION:

A question from Esther Stach, Rosenberg, Texas. She writes:

"I subscribe to FATE magazine; they have an article on Jeffrey Dahmer, remembered as the single most gruesome killer in the 20th Century. Is there really a connection between this crazed killer and the ancient Aztec *ritual murder rites*?

"The author presents a convincing argument and list of similarities between the two. The resemblance of those crimes to Aztec sacrifice begins to define an eerie *parallel with the Wisconsin serial killer. Like the high* priest of Tenochitlan, Dahmer murdered his victims out of twisted love, not hatred.

As with his ancient Mexican predecessors, he cut open the chests of his victims, often extracting the heart, which he ate, not for enjoyment, but (for) possession. The intended victim who survived to testify at his trial said that Dahmer would appear to enter a trance and begin chanting prior to the act of murder.

"Dahlmer said of himself that he more properly belonged in the age of the Aztecs, yet his actions were not consciously patterned after the late Mesoamerican practices. What are we to make of this modern criminal parallel with the pre-Columbian history? Is Dahmer a reincarnated high priest of Tenochitlan?

"I thought I would write you about these because I agree with this author about Jeffrey Dahmer." And she asked if Awareness could comment on this.

COSMIC AWARENESS:

Adrenalchrome the Food of the Gods

*This Awareness indicates that the activities that oc*curred in the human sacrifice in the South American countries with the Aztecs were those which were triggered by the influence of aliens at the time and the aliens set the priests to this job of finding sacrifices, and

the sacrifices for the aliens required that adrenalchrome be taken from these entities.

Adrenalchrome is the drug that collects at the base of the brain from adrenalin secretion caused by terror at the moment of death. This being a drug the aliens prized, and the priests, after years of working for these aliens and seeing them as gods, also became curious about this food of the gods and began to indulge in this kind of ritual themselves and thus many became cannibalistic.

This Awareness indicates there were great numbers involved in these sacrifices at times. At times priests would have entities lined up for several miles, wherein they would come to the place of execution, one after the other, to spill their blood for this ritual, and the blood being collected and used for the aliens.

This Awareness indicates that it does appear that Jeffrey Dahmer was a reincarnation of one of these priests. It does also appear that Jeffrey Dahmer was under the influence of certain alien forces in *this* life; that the influences were especially strong when he entered into those trance-like states prior to the murder of his victims.

It appears this was an aberration in consciousness caused by his willingness to identify with energies not of the highest and to be used by those demonic frequencies and vibrations associated with certain alien influences.

This Awareness indicates that his killings often included the decapitation which would have allowed him to collect the adrenalchrome from the base of the brain. This entity may have done so for some demonic influence that possessed him.

Jeffrey Dahmer's Chant Prior to Murders

FOLLOW-UP QUESTION (AVATON):

This trance he allegedly entered prior to murder and began chanting, was the chanting the result of some type of demonic entity possessing him, or was it a chant that he had acquired knowledge of and was invoking some of these negative forces?

COSMIC AWARENESS:

This Awareness indicates it became part of a general pattern that came from dark forces which used him and the chanting became a bridge to allow these influences to take greater possession of him, but the entity would also initiate the chanting, just as in this type of reading, the use of the *Law Of Love* helps the Interpreter to enter into an Awareness attunement; that entities chanting would help to bring in the demonic energies of the alien consciousness which then took more control over the entity's body and mind.

Ed's Note: Jeffrey Dahmer was a notorious homosexual psychopathic serial killer cannibal who killed and ate his male lovers to prevent them from rejecting him. As a youngster in Wisconsin he impaled animals on stakes, he grew up to be convicted of torturing 16 victims to death, some were children. When arrested in 1991 police discovered 4 severed heads in his refrigerator and pounds of human flesh in the freezer and several pair of hands and a penis in a stockpot. In November 1994 Dahmer was brutally beaten to death by a fellow prisoner, a convicted killer on antipsychotic medicine, who claimed to be Christ because he was a carpenter and his mother's name was Mary.

She Was Extremely Abused as a Child and Still Fearful and Can't Meditate Today

(Can Awareness Help Her to Relax?)

A question from Diane Rea, Dolton, Illinois. She writes: "Many people want to meditate, but due to extreme abuse in childhood, are afraid to relax in their bodies. How do people experiencing extreme self-hate and extreme fear overcome these problems in order to be able to relax enough to meditate?"

COSMIC AWARENESS:

This Awareness suggests that you quietly situate yourself, close your eyes, turn your attention inward, and when you begin to feel anxiety, calmly turn your attention to that anxiety and observe it without judgment. Observe any flashes or memory, any images that appear without judgment, as though you are looking at it and not judging it, observing, strictly observing, without forming opinions, and let this be the meditation until this anxiety passes.

Those Glasses With Many Tiny Holes

(Do They Really Work?)

QUESTION:

Another question by Diane. "Do all glasses with the tiny holes help retrain the vision, or is there a scientific proportion of numbers of holes and sizes of holes that must be maintained, or do these really work at all?"

COSMIC AWARENESS:

This Awareness indicates that they all have some value. It depends on how often they are used and the degree of repair the eyes need. This Awareness indicates that most of these pin-hole type glasses are made properly to be effective and to help focus the eyes so that the muscles are properly strengthened.

This Awareness suggests you need not be too particular about the number of holes or particular sizes, although the majority of glasses will have a standard sized hole to look through, and this is the appropriate or best size for the eyes. If you find glasses with unusually large holes or much smaller holes, it is not likely to be of as much benefit.

"EFFICACIOUS PRAYER"—HOW TO DO IT

QUESTION:

One final question. This from Jerry Korkos, of New York City. He writes: "In a book sold by Finbar International called *You Need Not Age Nor Die,* there is a method of prayer called "Efficacious Prayer", by the author, Donald Conway Berry. The method is as follows: "Stretch out your arms in excitement. Spread your feet apart. Always pray standing if you can, although it is not absolutely necessary. Close your eyes, raise your face as if you expected to be kissed. Picture what you need or want, or just remain silent, mentally thanking the Supreme Being for the gift of life.

"Keep doing this, day after day, and you will discover the mighty force that you are, when you are united with Omnipotence. Your fat ego will drop away. It has always been your worst enemy, your ego, and you will be a glowing perfect being in God, able to heal yourself and others, supply yourself with what you need and mold your every future hour toward your heart's desire."

And Jerry asks: "I would like to know if Awareness sees this method as valid, and if not, please explain why."

COSMIC AWARENESS:

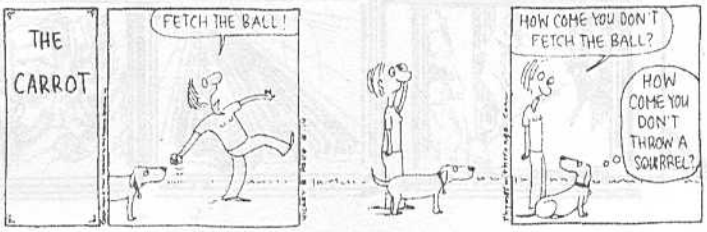
This Awareness indicates that it does appear to be an effective method for achieving the results desired of communicating with higher vibrations and forces, and is especially effective because it uses the body and body language as part of its ritual which causes the subconscious to become involved in the ritual. The very act of physically opening oneself for contact with the divine tends to bring the subconscious into the activity as it follows the physical body, and therefore, your whole being: mind, emotion, feeling, spirit and soul are unified in the action.

This Awareness indicates that if practiced on a regular basis, it can have a profound effect in terms of attitude, in terms of mind, emotion, feeling, spiritual and soul level.

CLOSING MESSAGE:

This Awareness indicates that the incorporation of one's physical body into a mental purpose or idea, can be of great benefit in causing that idea to become manifested. The ritual just described appears to be such an idea, and physical marriage, which, if practiced, will yield very significant results over a period of time, and this Awareness suggests therefore, that entities practice this, use this, and if it appears to be either valuable in doing something worthwhile, or if you do not feel anything comes from it, that you write back to *Cosmic Awareness Communications* and share your evaluation.

This Awareness suggests however, that you do this for a period of at least three weeks daily before evaluating the effectiveness of this ritual or proceeding. This Awareness suggests that it appears to have great value and would like to get some feedback to share with others, that they may evaluate and use the ritual or be encouraged in that direction, if indeed it proves to be of value to those who use it.



THE WORLD'S VIEW OF US

Social Security and Medicare: What's Ahead?

QUESTION:

A couple of questions from Catherine W., Canton, Ohio. She writes: "Those of us that will think of retirement in several years, can you tell us what to expect of Social Security and Medicare, say, five years down the road? Or should we stay employed because these things will disappear?", she asks.

COSMIC AWARENESS:

This Awareness indicates that *It* sees Medicare as continuing, and if being altered, that the amounts or the effectiveness will be weakened rather than totally dropped. The savings from dropping the Medicare program would be considerable, but the backlash in a political sense would be greater in damage to the party promoting the dropping of Medicare.

Therefore, this Awareness suggests the Medicare program will continue, but its benefits will become weakened as time passes. The same may be said for Social Security programs. This Awareness indicates that of course if the Federal Reserve Bank suit is successful or if the Redress of Grievances by these entities becomes successful and the national debt is determined to be fraudulent, then these programs would thrive for many years to come.

Keep in mind it is not the Welfare programs, the entitlement programs that are bankrupting the United States: It Is the 13 families who own the Federal Reserve Bank that have siphoned off 7 trillion dollars from the economy of the United States by their manipulation of currency from the Treasury to their own pockets that has more or less destroyed the economy of this country.

The Federal Reserve Banks send approximately 25% of all tax money collected, to foreign banks owned by the international bankers and these moneys sent to these banks is used in the foreign countries to further control those nations for the benefit of the 13 families that own the Federal Reserve Bank. This Awareness indicates that these are the real Welfare recipients, receiving the trillions of dollars from around the world, for doing nothing more than handling money and printing Federal Reserve Notes for the various countries they operate within. The IRS is but a branch, a collection agency for the Federal Reserve Bank.

This Awareness indicates that whether this will be cleared and whether entities will receive enough understanding so as to throw off the yoke of the Beast will determine whether entities in the future live under this kind of economic slavery or whether they will gain their true God-given freedom.

THE KARMA OF WORLD LEADERS

(How Do People Like Hitler Ever Make up for past deeds?

QUESTION:

In the cases of world leaders such as presidents and what not, once in the big leagues, so to speak, if they mess up and create negative karma, they will still need to have a similar position in a later lifetime, in order to make up for the previous negative effect on the masses, or is there a point at which such people are sent back to the minors leagues, where they can't affect so many people?

COSMIC AWARENESS:

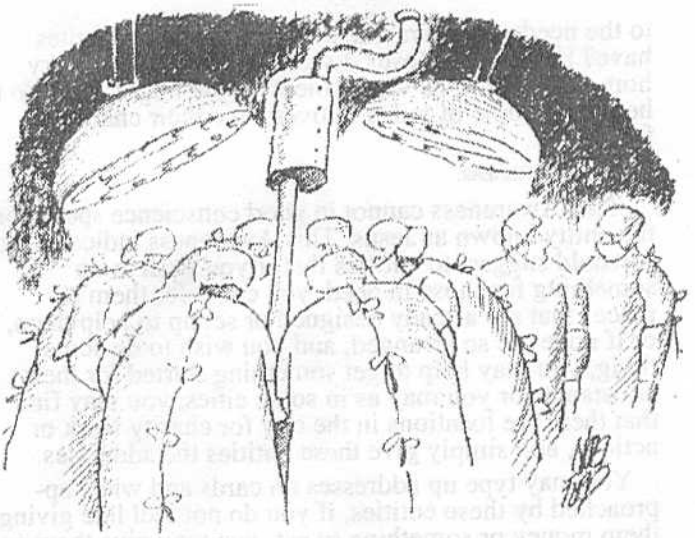
This Awareness indicates that in many cases, entities who are given a chance at leadership who fail to respond adequately to the opportunities they have, do not receive *a repeat opportunity, at least not for many lifetimes.* This Awareness indicates that for example, the entity known as Adolf Hitler will not be given a second chance at leadership for quite a number of years, and even if given such a chance eventually, the entity will not be given many opportunities except as he proves himself one increment at a time.

In other words, the entity may be given opportunities on a probational level, whereby if the energy is properly used, then he may be allowed to progress to another stage of power and influence.

This Awareness indicates however, it is important to understand that when an entity has such power and misuses the power, they *do* carry enormous amounts of karma which requires an eventual opportunity of similar nature whereby they can step into enormous levels of influence and use of influence for the good of humanity in order to overcome the negative karma they have previously incurred.

Some Develop Both Negative and Positive Karma in One Lifetime

This Awareness indicates there are also some entities who move into states of power and by inadequacies or ineptness or because they are confused, they may develop *large amounts of power and misuse some of that power* while also creating something beneficial and good with other parts of the power.



It's probably the worst road-rage case we've had to deal with.

Thus, they incur *both* negative and positive karma.It is possible for an entity to incur both simultaneously in the same lifetime, and to incur those powers in such a way as to have both a negative and a positive karma from the same lifetime, which in subsequent incarnations *would leave the entity suffering from both good luck and* bad luck in a sense, whereby the negative actions or karma could be seen as being balanced by good karma, and it would lead the entity in a kind of positive/negative flopping back and forth in terms of experiences and fortune.

So, you see entities having a period of bad luck, followed by a period of good luck, followed by a period of bad luck, et cetera, because these entities may have negative and positive karma.

Homeless People and Street Beggars: How to Deal With Them

(How Would Jesus Deal With "Charity-Fatigue?")

QUESTION:

A question from Larry Hansen in Canada. He writes: "Awareness, in the cities of America there is an increasing problem with homeless people and other derelicts who have become fixtures in the urban centers of the *nation. The only support many of these entities can* receive is from handouts from passers-by. Some passers-by give their spare change to these unfortunate beings because they feel sorry for them, and some give because they feel they may become a crime victim if they do not *respond in the right way.*

"The problem that arises is that day after day, the passers-by see these homeless people again and again and after awhile, they become consciously or unconsciously apathetic to the plight of these people. Combine this with endless pleas for money from various organized charities and local community organizations and one begins to develop a charity fatigue, whereby one begins to lose empathy for those in need, for there are so many with their hands out.

"I often wonder how the entity Jesus, who was always speaking of the importance of giving, would handle charity fatigue? Would Jesus eventually become callous

to the needs of others like many of today's urbanites have? How would Jesus discern what to do for every homeless person he would meet? What might Jesus do to help the people of today to overcome their charity fatigue?"

COSMIC AWARENESS:

This Awareness cannot in good conscience speak for the entity known as Jesus. This Awareness indicates that *It* would suggest to entities that if you wish to do something for those in need, you can refer them to places that are already designed or set up to help them, or if none are so arranged, and you wish to do something, you may help to get something started for their assistance, or you may as in some cities, you may find that there are locations in the city for charity work or actions, and simply give these entities the addresses.

You may type up addresses on cards and when approached by these entities, if you do not feel like giving them money or something to eat, you may give them an address of where to go. This Awareness indicates that you are not required to assist everyone who is in need.

This Awareness suggests that it is a matter of choice, but in helping those who are in need, you also may recognize that you are helping a life, you are helping a being and you are perhaps earning the right to be helped if *you* are ever in need.

Helping a Needy Person Is Helping an Aspect of Yourself

This Awareness indicates that insofar as you help a needy person you are helping an aspect of yourself, for *all* entities are connected to each other. There is no real separation. This Awareness suggests however, that you must be careful in how you help others for sometimes you are enabling them to continue in the same lifestyle which is unworkable for them, and if you help them to maintain an unworkable and unhealthy lifestyle, you are not truly helping them. You are simply sustaining them in that unhealthy and unworkable lifestyle.

This Awareness indicates that there are some entities who appear to be incapable of helping themselves. There are others who are truly incapable. There are those who need a hand in getting up to where they can help themselves. There are others who do not really need help in getting up. They are just too lazy to lift themselves.

This Awareness suggests that if you see a fallen one who is capable of getting up, that you assist them in having their own strength to do so, you encourage them to use their energy to raise themselves. If you help them up every time they fall, you may be teaching them that they can keep falling and there is no consequence for it; that they will always be rescued.

Rescuing an Entity Goes Two Ways

This Awareness indicates that in being the rescuer, you may simply be encouraging them to play the role of victim. This Awareness suggests that *It* does not wish to create the impression that you should never rescue others, but that it should not be done without some awareness of the implications involved. That rescuing goes two ways. The entities needs to be able to help themselves. If they simply want to be rescued so that they can again fall down or fail in some way and they keep putting themselves in the similar position of having the same problem or similar problems and expect you to rescue them every time, then you may simply be enabling them to continue on a hopeless course.

This Awareness indicates that a few times like this and you should be aware that you are not really helping them at all. You are simply conditioning them to repeat the same mistakes.

The Stranger on the Street With His Hand Out

This Awareness indicates in regard to the stranger with his hand out, you have no way of knowing whether this entity really seeks to help himself or if he simply wants to make this a lifestyle. This Awareness suggests therefore, you have no obligation to the entity unless you simply wish to do so. If you wish to help the person, then you may help the person. If you wish to look the other way and walk on by, this too is quite alright.

You have to go by your own intuition and your own feeling of what is appropriate to yourself. If you give and feel resentment afterwards, then the gift was in error. If you give and feel good that you gave, then the gift was proper. If an entity causes you to feel angry about having to give to the entity then it is best that you withhold your gift and walk on by.

This Awareness suggests that if you are being approached by someone whom you see appears to want to hit you up for money and you do not want this to occur, it is best for you to keep a snappy pace, look as though you are walking somewhere for a purpose. You haven't any time to stop. You are not able to or interested in discussing anything, and you do not even lock eyes with the entity, or if you have already done so, look the other way, as though you are looking for someone or something else, long enough to break any psychic contact the entity may think he or she has with you, and if the entity speaks with you, either keep walking or simply say: "I can't help you", as you walk on by. "Sorry, I can't help you!"

This Awareness indicates the important thing is to keep on walking. There are some entities who prey on others, who will seek to stop them, will seek to get money, then may even seek to get further into a relationship, and if they can, they may wiggle into your life to the point where you are losing all kinds of time, energy and whatever else they can extract from you.

This Awareness suggests that there is a certain kind of courtesy of strangers meeting, wherein their eyes meet at approximately 15 to 20 feet and then they look straight ahead. They may nod or in some way show recognition of each other but they do not normally attempt to stop each other and this is sufficient. You do not need to stop and become involved in a conversation with someone. To avoid it, simply keep walking as though you were late for an appointment somewhere.

This Awareness indicates that it is sometimes even dangerous to lock eyes and come into communication with a stranger on the street, for that entity might be looking for someone to save him or someone whom he can use, to extract money from for drugs or for other perverted purposes, and the entity, being insensitive to the rights of others, can be quite demanding and insistent and if the entity sees you as a weaker person or personality, the entity may simply begin forcing his or her will on you, trying to get you to do their bidding through whatever means is available to them.

In India Beggars Are Unionized and Chop Off Arms of Children

This Awareness indicates that things in fact can become even more difficult as time passes, and the problem gets worse. This Awareness indicates that those who have been to India understand that these beggars are so prevalent that if you give anything to one of them, they all gather around you like a flock or a crowd or a mob, demanding that you give something to them too.

This Awareness indicates that any entities who have been there for any length of time know that you cannot give money to the beggars no matter how pitiful they appear, because of this problem of being surrounded by beggars from all sides and that if you do want to give

money to a beggar, do it only when you are getting ready to leave the street to go inside a building or hotel where you will stay for some time.

This Awareness indicates that there is a kind of beggars' union in India, wherein the beggars are organized and do not allow any random or non-union beggar to operate in their particular area. These beggars also will chop off the hands or arms of their children and put them out on the street to become lifetime professional beggars, to make these children pitiful-looking so that people feel sorry for them and give money to them.

Thus, the giving of money to such children and beggars encourages others to chop off the hands and arms of their children in order to compete as better beggars. This Awareness suggests that this is and has been a technique used by beggars in India for hundreds of years and you will see many such beggars who are deformed or so mutilated.

Some Panhandlers Can Make Up to $300 a Day

This Awareness indicates that often beggars in the United States do not go this far, but will make it a practice to look as helpless and as much in poverty as they can. This Awareness indicates that they will have a special clothing they wear for panhandling though they might have other better clothes at home. This Awareness indicates that a good panhandler in San Francisco can make between 50 and 300 dollars daily; that in other cities panhandlers can make similar amounts, but of course the average street person is not that capable and many of these entities are truly in need.

This Awareness indicates that you have to be able to go by your own instinct as to whether to respond to them or whether they are just very well practiced in their art, for there are those who are professional in bumming money from others.

Intimidation by Beggars

FOLLOW-UP QUESTION (AVATON):

How about intimidation? When Vikki and I were in New York, on one of the downtown streets there was a gang of black people that would commandeer a corner and start doing rap dances which were pretty good and juggling acts which were sort of mediocre, I thought, and while this was going on, they would send members through the crowd telling them things like, "We don't hear the jingle in these pails! We wanna hear the rustle of paper! We're not hearing it. If we don't hear it, we could be robbing your houses tonight!", and when they made that statement, although it was sort of like a joke, you could suddenly hear money going into the pail. There were a lot of beggars in that city that were sort of menacing and I was just wondering, like he said in the question, sometimes it's through intimidation that people give to these entities. What does Awareness say about that?

COSMIC AWARENESS:

This Awareness indicates *It* says: That is terrible. This Awareness does not know what to say in regard to that. What does the entity seek as a response to that? This Awareness indicates that it is a matter for the entity to consider. This Awareness indicates that if someone intimidates you and you give in to the intimidation, do you feel good about it?

If someone intimidates you and you do not give in to it, do you feel good about that? If you feel intimidated, are you too frightened to walk away and not give anything for fear your house will be broken into or for fear that someone will follow and mug you in the alley?

This Awareness indicates that these are concerns that entities will find running through their minds. You are actually being confronted by a threat. This Awareness cannot approve of the threat, but it is possible for entities to discern whether the threat seems real or whether the threat seems intimidating to them to the point where they will reach in their pocket and give these entities something in response to the threat.

This Awareness indicates that it is a matter of personal preference, whether you are offended by the effort of the entity to intimidate you, or whether you are intimidated by that effort, and if you are intimidated, do you simply walk away to get away, or do you give in to the threat and intimidations? This Awareness cannot answer what you should do. *It* cannot reply as to whether you should be courageous or compliant with the entity who attempts to intimidate.

It is a matter of your personal choice as to how to relate. It might be to your best interest to drop in a quarter or a handful of change and simply leave and when seeing a group on a corner, to walk across the street and down a different way the next time, having learned from the previous experience.

This Awareness indicates that these are what this Awareness means by your personal choices. If it is a Hulk Hogan walking into a crowd of that type or one who is well-trained in karate and hears that kind of threat, he might simply dismiss it as a joke, laugh loudly, even say something, or he might take it seriously and even grab the can of money and say something in return: "Well, I want to hear this money jingle in my pocket!, and who wants to stop me?" These are individual ways that entities might respond to a situation depending on their personality and personal situation and condition.

A very powerful person who feels confident in his ability to defend, himself would react quite differently from one who is not of great power in the midst of a gang, and who has too much in life to risk being knifed or killed by attempting to confront a gang. This Awareness indicates such a person would be wise perhaps to drop in some money and get out of there quickly.

This Awareness indicates that it is shameful that society has come to such a situation, that entities would threaten in this way.

"DEVIL'S NIGHT" IN DETROIT

(On Halloween Some Blacks Light Matches)

QUESTION:

Larry Hansen has another question here that is somewhat related. He writes: "Every year the night before Halloween in Detroit, Michigan, there is an outbreak of violence which is called "Devil Night". I don't know when this began or how this got started, but every October 30th there are juveniles who roam the streets in Detroit with their only intention being to cause damage and destruction, the most dramatic of which is the torching of people's homes.

Most American kids on Halloween will go around the neighborhood throwing eggs or spraying shaving cream on cars as their pranks, so it is difficult to see how that progressed into burning down residential homes for no reason. This past year, 1990, was not as bad as previous years because of stiff curfew and neighborhood patrols, but still a small number of homes and businesses were torched.

On New Year's Eve in Detroit, there is another tradition that was started recently which is youths shooting their guns into the air with live rounds of ammunition. That is only said to take place in some underprivileged

neighborhoods in California. Why is Detroit the only major city where this type of recreational violence takes place? Is it some kind of expression or release of racial tension? When did it start? What might the residents of Detroit do to minimize the damage each Halloween eve?"

COSMIC AWARENESS:

This Awareness indicates it appears that this torching began some years ago with the prank of young boys in a gang in which they burned down a deserted house, which led other gangs to mimic and burn down other deserted houses, and the scene was newsworthy and broadcast on television, giving the young gang boys a sense of importance that their action was on the news. This Awareness indicates that the next year the same boys and others who had heard about them joined in similar gangs and went around looking for deserted vacant houses to burn.

This Awareness indicates that it seems the idea caught on and spread as it became traditional, year after year; that with the increased publicity reaching a crescendo, it came back on the responsible citizens of Detroit that their city was being seen all over the United States as a city out of control, and this reflected on those who were in charge. This Awareness indicates that this led to the 1990 crackdown and special patrols and curfew as an attempt to stop this madness. It appears it will again occur, this year in '91, and if it continues to be disrupted by police, eventually the tradition will be forgotten as entities move into other expressions.

The shooting of guns into the air can eventually lead to someone or several people being injured or killed, and this too will begin to draw national attention and it may crescendo before it begins to fade away.

This Awareness indicates that behavior of this type suggests there is tension. It is in part racial tension. It is in part a reflection of frustration. It is also in part a desire to feel important, to get attention, and to think of oneself as having power.

This Awareness indicates that these are more than simple teenage pranks. In the 1920s and '30s, the worst kind of Halloween prank that entities could think to do was to blow up an outhouse or to shoot out street lights with .22s or sling-shots. These were the juvenile delinquents of the time.

This Awareness indicates that the teenage pranksters have bigger weapons, have seen pictures of Rambo and other movie idols who are capable of great destruction and their models have shown them how to destroy, so they are now seeking to emulate their hero models. It is much the blame of movies, television and what people tolerate.

This Awareness indicates that whatever entities tolerate, they become part of.

THE ORIGIN OF THE RACES

QUESTION:

Joe Royack asks if we could ask Awareness sometime as to the origin of the various races: the yellow, black, red, brown and so forth.

COSMIC AWARENESS:

This Awareness indicates that the Semites as that which has been discussed already, as having been cloned by Jehovah on Mars, and transported to earth. This was approximately the time that Atlantis was near the time of sinking. This appears to be approximately 10,000 BC, give or take two thousand years.

This Awareness indicates that the red man as the Atlanteans or Atlans, those who originally were on Atlantis; these descendants of those who are called the Atlans. The Atlans were a space people. These entities appear to have come from Vega.

The yellow race was earlier, from the interior of earth. These entities appear to have been the original natives of the earth, prior to the others.

The blacks are seen as having come from a planet..that the origin of this planet is not seen clearly. That it was a highly...this Awareness indicates it appears to have been in the direction of Orion; that this appears to be related to that which is called the Dog Star, as a general location of this particular planet. That these entities did not like being in their location because of the Orion Empire infringing into their territory and many of these entities came to earth through the assistance of others who were traveling to earth at the time. This Awareness indicates that the Pleiadians assisted them in relocating to the earth and the Reptoid group that was then mining on the earth attempted to use these entities as slaves.

This Awareness indicates that the whites came to that area of Carpathia from the Pleiadian system. They brought the whites in and left groups in Carpathia and from there, these entities moved into different directions.

This Awareness indicates that the different races were originally created by that which has been termed as the Prism of Lyra, the white hole through which light enters into this universe and spreads into different rays as through a prism, and each ray having created its own species of humanoid type being.

This Awareness indicates that the green ray and the blue ray, indigo and violet, red, orange and yellow rays, each creating a different species. That the black race and white race were created at the same time, but were later changed by environmental conditions that altered their pigments and genes because of separation into different locations; these on sub-levels.

This Awareness indicates that all humans except the Semites were created through the same ray. The Reptoids, the Zeta Reticuli, the Orions and others were created from different rays, but the humans all began as the same beings, the same type of being, and what you see now are sub-races of the human race. These were created largely by their movement into different places, having different kinds of environmental influences on them, to cause them to alter and progress in different directions, toward different colorations, pigmentation and physical features.

This Awareness indicates that the Semites were a race created from the cloning process of Jehovah in the area of Mars and that they were transplanted on earth by the Orion engineers. This Awareness indicates that these entities were then placed on earth to be used for mining in the areas of Africa, but were found to be disobedient and therefore, unworkable in that capacity,

The Orion entities were driven away; this including Jehovah, and the Sirius entities entered and influenced the further development and progression of the races and entities on earth for some time, establishing certain structures and organization to keep the civilization progressing.

This Awareness indicates that the Pleiadian influence had occurred on earth before this time period, but that it was again repeated at a somewhat later date in which the Pleiadians again returned to influence their seeding of

the planet. This Awareness indicates that essentially, the planet was a kind of dumping ground for misfits and people who did not work out, the experiments that did not work out in other places, and this being much like Australia, wherein Australia was an isolated continent that could be used as a dumping ground for prisoners to get them out of society in Europe and yet let them live their own lives as they desired.

This Awareness indicates that this was the case for many of these who were brought to earth.

FOLLOW-UP (AVATON):

I've read before that there was supposed to have been a "brown" race, like in India.

COSMIC AWARENESS:

This Awareness indicates that this is a cross between the yellow and the black and Semite; the Hawaiians also being a cross between the blacks and yellow race. That there were many whites in early India; also that the so-called "brown" race is not truly an original or pure race. It has more to do with pigments. There is some influence from the black race in the earlier Indian origins. This appears to be less dominant than the yellow race influence on these entities.

This Awareness indicates that also there was an influence of a blue race in the early origins of these entities. It appears that this was from beings who were of the Orion origin, wherein these entities being a kind of blue-grey color; the Oans as also having such coloration. These were the fish people.

Ed's Note: Parts of this question have been printed in a previous issue of the newsletter, but since this is interesting information and several newer members have asked us about the origin of the races, it is worth repeating.

Energizing a Question

CLOSING MESSAGE:

This Awareness indicates that the questions in this reading have led in many directions, some of which the energies did not come in a truly clear manner. The questions of origin of the races may at some later time become more clear, so that additional information can be given.

This Awareness indicates that it is the nature of these readings that energy be present to provide the necessary substance for finding the information, and that some questions require more of this energy substance than do others. It is also the nature of these readings that if a question is newly asked on a topic that has not been discussed previously, often the energies do not become clear on the topic at the time, but will gradually build so that if questions are asked on the topic at a later time, they may then be strong enough to give more complete information.

This Awareness reminds you that the earlier questions on UFOs and on other topics covered by this Awareness often began with a question wherein this Awareness only gave a very small amount of information, but once the subject was opened, it was likened unto opening a box in which light could shine, and the shining of the light allowed more information to be seen.

This Awareness indicates that therefore, some questions which are asked may not at first receive much response, but after several weeks or months go by, the question that touches on the topic again might trigger a greater response, and thus, more and more information may be forthcoming.

This Awareness indicates that this is what has been called energizing the question. Sometimes the question can be asked and nothing is given, but the very fact that the question is asked begins to energize the question to help bring forth at a later time, a response from the energy that was previously presented in the question.

Thank you. The Law of Gratitude is given.

The Battle of Armageddon is Over but the Giants Have Not Awakened to that Fact

This Awareness indicates that you understand the Battle of Armageddon is over on the Inner Plane, that the residue of this battle is falling upon this physical plane, that the forces of evil have returned to Essence, but the army of the Ra-Ta forces which was sent out from the blue planet to bring back the forces of evil, the followers of Rhyee, are still engaged as an army and this power has not been totally destroyed, that this power is coming into confrontation with its own image and shall dissolve; but that this dissolving shall create a flashpoint which shall have its effect on this plane, and there shall be many who may be caught in the holocaust of this flashpoint.

This Awareness indicates that this not as evil, but rather as the aftermath of the results of evil; this may be referred to as the echo of evil. This Awareness suggests you understand these forces as being still asleep, and that they need to be awakened and informed that the Battle of Armageddon is over, for otherwise they shall continue to fight and the fighting shall continue to create tragedy on this plane.

This Awareness indicates this shall take a concerted action by many to bring this message through, that at this present time there is very little being done to awaken these giants who battle through their nightmare world.

Wisdom of Awareness...

On the Forthcoming Karmic Cleansing

This plane is due for a deep karmic cleansing, that this shall occur with the blessings of entities who are willing to accept the cleansing, who are willing to take the cleansing upon themselves, who are willing to cleanse themselves; or this shall occur from forces outside, which shall cleanse the earth of its scum. This basically is the message which this Awareness wishes entities to understand; that there is a great need upon this plane for change....(Issue 78-26).
