AN UNUSUAL NEAR-DEATH EXPERIENCE

QUESTION:

A question from Maeve Fitzgerald, Rock Springs Wyoming, " I have a question for Awareness. This deals with a near-death experience that was somewhat different from any I have ever read or heard about. I would appreciate knowing what happened. It occurred during the delivery of my first child years ago. I was put under ether and suddenly found myself in a grey haze. I didn't know who I was or where I was, but I was comfortable except trying to see my feet. The only thing I knew was that I existed and that I had feet. I moved my legs trying to see my feet. I heard two voices. One insisted I had to go on (I wondered idly where 'on' was – I was still trying to see my feet.) The other voice insisted I had to go back (I was still moving my legs, trying to see my feet and wondered where 'back' was.)

I felt slightly annoyed at the first Voice, but the second Voice seemed to surround me with pure power and made me feel good. Then I opened my eyes and looked up at the light over the delivery table. The doctor later commented that he thought he had 'lost' me at one point. Would Awareness please explain what happened and why this experience is different or seems different from other accounts where people usually experience seeing the 'White Light' and knowing who they are? Or was this just a hallucination caused by the ether? Thank you Awareness.'

COSMIC AWARENESS:

First of all this Awareness wishes to comment that this was indeed an authentic out of the body experience, a near-death experience. The reason the entity could not see her feet is because her feet were still connected to the physical body and thus were a grounding line, a rescue line that was holding her back somewhat. Her awareness had exceeded the physical realm and had moved into a place where information was presented to her in the form of the two opposing voices, one telling her that she needed to go on, and the other suggesting it was not her time yet.

It was this voice that was giving her the instructions to return or at least presenting her the alternative that it was not her time and she was to return. It was also to this level of consciousness or awareness that her lifeline back to her body, that being her feet, was in a way still connected to the physical realm, so even though her consciousness had left the body in a manner of speaking, a line was still connecting her to her body, and this is why this Awareness calls this a lifeline back into the physical, to pull her back via this lifeline.

She definitely was in a situation where a choice was to be made, a choice to succumb to the situation, and release from physical life, thus returning back to spirit, back to that which is the spiritual home, the home of the consciousness of all beings, or not. In the end, the voice that admonished her to return, which was full of love and support for her won over, and as she was still somewhat connected to her physical corporeal body, it was easy enough for her to return.

The difference between her experience and that of others was that she was still somewhat connected to the physical form and therefore it was somewhat easier for her to return into the physical form. Others do not sense this connection, do not search for or seek out their fate. They have detached themselves from the physical, and it is for this reason that their sense of the Light or an angelic being showing up to guide them is more profound.

Saying this, this Awareness wishes it to be understood that each and every entity will have their own unique experience of passing over. These experiences often are largely influenced by the belief system the individual has held while in human form. Those who have strong religious belief systems of a fundamental nature may have an experience of their beliefs upon leaving the physical, and may indeed experience angels coming to them to guide them home, but may equally experience demonic forms, for if their belief is that they are sinners and that they are to be punished, then it is possible that due to their strong belief of what will occur, because they are sinners, then indeed they may be met by agents of the devil, designed there to take them to hell.

Often a type of purgatory is experienced by those of a Christian faith, for their belief is that they may not reach heaven immediately, and that some judgment must be made as to whether they might go to hell or not. The other religious faiths may have a different set of expectations that are fulfilled upon the crossing over.

The Power of Belief at Work: Moslem Terrorists Will Really Find Those 72 Young Virgins and Have Their Way With Them

One of the reasons those of the Moslem faith commit acts of terrorism is because they truly fully believe that 72 virgins will be available to them and that they will be heroes and martyrs to Allah, to the Lord and to their faith and their cause.

Thus, upon their death, even extreme deaths, due to their deep profound faith and belief that they are to experience great reward, including 72 young virgins, it is possible that they will experience exactly this, and they will be welcomed as heroes in their afterlife, and will indeed have the experience of 72 virgins to satisfy their needs. This is not a matter of logic or rationale, this is a matter of beliefs that govern consciousness upon the immediate parting of life from the physical, of consciousness from physical into non-corporeal energies, and thus it is that the beliefs govern what is to be experienced.

At Death: What Awaits Those Who Have No Rigid Belief

If it was allowed that a being was to cross over with no rigid belief structure or belief system, then the order of events most often are that the being would be met by that which one could call an angelic being, a being of higher purer consciousness, who acts as an intermediary, and who will guide that new soul passing over back to that place of consciousness that exists in the 4th dimension, that which is the spiritual realm, the higher 4th dimensional and lower 5th dimensional layers of consciousness. Often this is seen and perceived as a light, and often it is seen and perceived as passing into a tunnel of light. Many who do not have strong and rigid beliefs come back from their out of body near-death experience reporting this, for it is what would occur for most people.

Again, this does not follow that it will necessarily occur for each and every individual. The individual involved had an experience that was drug induced, and was not entirely prepared or ready to cross over, but did have somewhat an experience where she had a choice as to whether or not she would cross over. The energies that would support her continuing in a physical existence were stronger than those that were asking her to let go

and to return back into spirit. There was a very strong spiritual presence with her that was aware it was not her time, and thus she felt this strongly. She felt its energy strongly, this energy of unconditional love and support, because in a manner of speaking she was still attached to her physical form, and it was easy enough for her to return.

Awareness Recommends the Movie: "*What Dreams May Come*"

Nonetheless, this was a valid near death-experience. It is simply that it did not extend quite as far as some do, nor was it affected by the parameters of any fundamental religious beliefs. This Awareness wishes to recommend a film to help you understand the experience that often occurs as individuals cross over. The film this Awareness recommends is "*What Dreams May Come*" starring that personable actor and comedian, Robin Williams. In the film he dies and is slowly guided into an awakening, in a new realm, a new place of consciousness.

It takes him a while to wake up on the other side, to open up to those presences that are there, who were presences in his life, his own children, but slowly he comes to understand that the realm he is in is one he creates through his consciousness, and it can be reflective of anything that he wishes it to be. Upon the immediate crossing over, while still in a state of confusion, as often occurs to those entities who pass quickly and unexpectedly, in his confused state he does not understand or appreciate what has happened to him.

There is assigned to him a being that slowly teaches him how things are in this realm beyond the physical. There is also presented a scenario, a belief of what occurs to those who commit suicide, and how they are permanently lost in consciousness, and the premise of the movie is that he goes and retrieves the consciousness of his wife from this place of unconsciousness. This is not accurate. This part of the film is erroneous, but the area of the film that explains what awaits those who cross over, how they come to a realm of consciousness where they create freely that which is their choice of experience, this is accurate, as is the awakening to those loved ones who already await on the other side.

Thus, it is imperative that individuals begin to understand and realize that their own belief systems will indeed fashion for them the experiences they will have upon crossing over. There used to be instruction manuals, instructions given in cultures past, that prepared their citizens for the journey that awaited them after their death. Such instruction manuals as *The Tibetan Book of The Dead*, or *The Egyptian Book of the* Dead spoke of what was there on the other side in much more realistic terms that is so now, where there is literally no true instruction of what to expect, and no true explanation of how one's beliefs will form the experience that the soul will have upon crossing over.

This is indeed a huge area that should return back into the realm of instructions given to all who would understand that each and every individual will eventually go through this journey of returning back to that realm of consciousness that defines the spiritual realm on the other side. This Awareness sees that this will once again become the norm in those times ahead, where the Ascension process has brought a fuller awareness of the multidimensional nature that is the true nature of each and every human being. At this time it is very much a hit and miss experience.

In terms of the out of body near death experience encountered by the individual herself, that she did bring back with her a great sense that things do not simply end upon death and in this she has a greater trust and inner calm and even faith that when again it is her time, that her choice will lead her home safely, for she has already had a practice run, for she already knows that there is so much more that will await her when it is her true and proper time.

This Awareness is complete with this question at this time.

ED'S Note: CAC permanently stocks "Instructions for the Passing Over—A Guide Manual for the Living and the Dead" which Awareness presented through the Interpreter Ralph Duby. Price: $3.00.

Why Some Out of Body Experiences Are Short and How to Make Them Last Longer

QUESTION:

Thank you, that was beautiful. A question from Matt Jones, in Miamisburg, Ohio. He writes: "I'd like to ask Cosmic Awareness why it is that when people have out of body experiences we often get pulled right back into our bodies within a minute or two? I've been searching for a way to lengthen OBE's but there hasn't been anything that works very consistently. Deep breathing seems to help some. Also touching prickly things while in the OBE seems to help keep me focused in the OBE a bit longer. However these are not long-term solutions and I still get pulled back in. My two questions are:

What is the basic cause that makes OBEs short? And 2)What techniques can we use to lengthen them?

COSMIC AWARENESS:

In relation to the reason why the Out-of-Body experience is short, there are two levels of answer for this. The first is that the entity himself is trying to experience the Out-of-Body experience in a more conscious state. Often what happens is that there is a doubt or fear that occurs in the host body, and in the lower self of the host body that pulls the Aka-cord of the middle self's body, that which is pure consciousness now, back into the body. There is always a fibrous cord of connection that will connect on the ethereal realm that which is the consciousness of a being, that which is the middle self consciousness, to the physical form which is hosted by the low self or the subconscious.

How the Low Self Can Prevent an Out-of-Body Experience

When one tries to consciously experience an out of body experience, until a certain level of trust, confidence and faith is reached of the ability of that middle self to travel outside of the body in such a conscious manner, the low self often will experience mistrust and even fear of this process, for it is not the normal way of things. Thus it is that when the middle self departs the body on the OBE that the low self reaches a point of panic and reels the middle self back into the body via the Aka-cord that connects the middle self-consciousness to the physical body.

With practice, the trust that the consciousness will return back into the body is extended, thus even extending the time for a conscious out of the body experience to occur. Often a situation occurs for many individuals whereby they have an experience of the low self panicking, drawing the middle self consciousness quickly back into the body, but often as individuals start to drift off, as they start to enter the dream state, there is a sudden contraction and the middle self consciousness is pulled quickly back into the body, causing the body to jolt. This is the low self quickly pulling the middle self-consciousness back into the body.

This is an experience that many individuals have had in their lives, and it is to be understood that this is what is occurring. The middle self is starting to depart to have its out of body experience, and the low self, for whatever reason, pulls it back in quickly, causing the body to jolt. The difference here is that often this experience happens, not consciously, not when an individual is deliberately trying to leave the body to have an out of body experience, but rather unconsciously, when that which is the consciousness of the middle self leaves the body, for this is an experience that happens every day.

The middle self-consciousness, while residing in the body during times of wakefulness, is not confined to the body at all times. Indeed, it is so that each and every night, or at each and every experience when the middle self consciousness is freed, such as a time of meditation, or a time when an individual may lay down to nap, has the opportunity to leave the physical body, for it is the norm for the middle self to do so.

The Middle Self Consciousness Must be Allowed to Leave the Body Regularly or it Will go Mad

In fact, if the middle self-consciousness is not allowed to depart the physical body, then it will begin to experience a deep psychosis. It will literally go mad if not allowed to leave the physical body on a regular basis. Thus it is that the middle self will depart when an individual falls asleep. It goes into that which is the dreamscape, that which is upper 4th dimensional levels and 5th dimensional levels. It partakes in its multidimensional nature and returns back to those areas where all physical laws no longer exist. It is back in its normal realm, the realm to which consciousness returns at the end of life.

Indeed, the out of body experience occurs each and every night to each and every being that resides on the planet. It is the way of things. This does not mean that each and every being remembers their out of body experiences, for most do not. Most do not seek out a memory of the out of body experiences, and many simply forget that this occurred, and cannot even accept that this occurs. The dream and dreaming is the way one can remember out of body experiences, but because the middle self-consciousness goes, into a realm where physical laws do not apply, often dreams are illogical, make no sense, and are irrational.

Remember though, that the realm of the mind that experiences the 4th-5th dimensional reality is free of all physicality and all physical laws. The normal laws of physics simply do not apply in the 5th dimension, and thus, what is open to the middle self-consciousness is an infinite amount of experiences that are created through consciousness itself, and it is these out of body experiences that can last a long time, even much longer than the individual is asking about here, for he is talking about conscious projection of the middle self out of the body and into 4th-5th dimensional realities.

As long as the low self does not totally feel comfortable with this and is not in total agreement with this, it will draw the middle self-consciousness back into the body after a relatively short time. What makes a difference here between this projection at a conscious level or entering into a dream state, is that the dream state and the leaving of the body is being normal and natural to the low self and it does not object in the same way.

Although, occasionally, as the mind starts to leave the body, the low self will have a reaction and will pull the mind back into the body very quickly. However, on the whole, the normal series of events is that the individual falls asleep and this opens passage to higher levels of consciousness, to the other dimensions of reality and of consciousness that exist beyond 3rd dimensional reality. This Awareness is prepared for the second question to be reread so that *It* can now focus on the second question

How to Lengthen the OBE

(Lucid Dreaming and Controlled Dreaming)

QUESTION:

(Thank you) His second question concerns, "What techniques can we use to lengthen the out of body experiences?"

COSMIC AWARENESS:

There is a technique that can be used both in a conscious out of body experience, that is the projecting of consciousness deliberately, as well as the unconscious OBE or the unconscious extension of the dreaming state that happens normally to most individuals. This Awareness suggests that for those who have the ability to lucid dream, to engage in that which is known as lucid dreaming, that they have the possibility also of moving into another level of dreaming known as controlled dreaming. This same technique can be applied to those who are consciously able to project their middle self mind out of the body.

Once it is recognized either in the lucid dream that the individual is dreaming, is awake to the fact that he or she is dreaming, or upon deliberately consciously projecting the mind out of the body, upon realization that this state has been reached, this place of 4th or 5th dimensional consciousness has been reached, that the individual seeks then to see their own image reflected in a reflected surface of some nature, a mirror, a window, a watery surface, anything that is reflective in nature will suffice and serve.

One looks at their own face, but most particularly one looks into their eyes, the reflection of their eyes, and asks now to be fully awake and present in the experience, in full conscious awareness, achieving thus a state of controlled consciousness, controlled dreaming. In this state, the individual, if practicing deliberately out of body experiences, will be able to extend the length of their OBE. Equally, if this is achieved during the dream state, through conscious dreaming, the individual will have far greater control and memory of the actual experience,

In the end, the two experiences, a controlled out of the body experience, or an unconscious experience of such through the dream state, are one and the same. This is the recommendation this Awareness has for extending the out of body experience and making it much more accessible and memorable.

She Found and Entered The Portal of the Seraphim and the Hall of Amanti

QUESTION:

(Thank you) This next question is from Sandra & Robert Long, Elkford, B.C., Canada:

" After reading about how the Anunnaki closed the Seraphim dimensional portal in the recent newsletter, I decided to clairvoyantly view it and meditate on sending it some Light energy (on Feb 13th). I found myself standing in front of the portal. A man in a hooded robe was there also. I don't know who he was. There was a gold seal keeping the portal closed and black energy behind that. I said to my self: "What's this, a seal? Get

rid of that." Then the seal disintegrated and the gates opened, revealing a portal covered with black energy – a large black circle. This black energy has gone and the portal is open with a bright light energy. The man in the hooded robe looked surprised when the seal disintegrated and the gates opened. Just before this a litany came to me from my RA-TA knowledge.

Litany:

Deep in the forest
Is the lore of the Divine
Make it shine
O heart of mine.

I feel that I am translating energy with these litanies, and that they are encoded words. The Light energy from the RA-TA period seems to be stored in crystals somewhere for Wanderers to focus and use. Using the above litany I focused this Light energy through my heart centre, and this was the force that opened the portal. I also saw a man from the etheric crystal city at Lake Titicaca watching me. One that I've seen before.

Question: Is this accurate, or my imagination?

COSMIC AWARENESS:

This Awareness wishes to state that the experience had by the individual was indeed an accurate experience. It was an accurate experience that came through her imagination. This by no means degrades the experience itself or demotes it, for the imagination is truly the most powerful gift that humans have to travel in the multidimensional layers and levels. She did experience an event where she opened the portal that had been sealed and shut off, and she opened it through her mind. She was able to travel to the place of the portal of the Seraphim and did indeed, through the power of the litany she expressed and used, opened again the portal which the dark agents had closed down.

The Portal of Seraphim Leads to the Hall of Amanti

This Portal of the Seraphim is an extremely important portal for it leads to the Hall of Amanti, those halls those areas of consciousness that are open to the Wanderers and hold the records of higher awareness and higher consciousness that pertain both to the past of the planet earth as well as to its present, as well as to its future. Access to the halls had been blocked in recent times through the actions of the Anunnaki that had closed the Portals of the Seraphim. This has been dealt with through the actions of the entity herself, who is a highly gifted soul, who has the capacity and the ability to work on these other levels of consciousness, for the purpose of opening such portals and doing such work through her gifts and through her powers of imagining.

This Awareness reminds all that the word *imagining* is connected to the imaging as well as to the word 'magic' and this is her talent and her gift, to travel interdimensionally, to go to these places through the power of her mind, and the power of her imaging, her magic, her imagination, and that as a gifted soul whose purpose it is to do this work, it is important for her to accept that this experience was a valid one. It did indeed take place.

The hooded being that was placed as the guardian at the gate, was surprised that she was able to remove the seal and open the portal. It did nothing for it recognized on some level who she was, and understood that she had the power and the capacity to do this, even though it did catch this guardian being off guard. It did surprise it. There is other work for this entity to accomplish still and she will indeed do this other work with others of her ilk, of her soul group who are also here once again to open such gateways and portals.

She Will Open the Gateway Located Under the Sphinx

It is seen that there is such a gateway located under the sphinx in the country known as Egypt, and that she is to work with others who will contact her, either physically or in that which is the dream state and she will do this work with others, and others will do this work with her. The timing is now right for such actions to occur. There is much work to be done in the times that lie ahead. This is all that this Awareness sees at this time in regard to this experience and to the question the entity Sandra Long has of this Awareness. *It* is complete.

More Questions about the Ankh

QUESTION:

(Thank you) A very important contact indeed. This next question is from Paul Somerville, Fenton, Mich.

" I like the information on the two-legged Ankh and the Matthew material. How does one charge the Ankh? What are the many uses of this device? How can it be used to levitate, heal, etc.? What is the middle part that can be inserted into that split between the two legs? How would one activate that for positive purposes?" Your comments please?

COSMIC AWARENESS:

Basically at this time this technology is not available on this planet. There is information contained in the Hall of Records that lies below the sphinxes, or sphinx. It is seen that there is an etheric double of the physical sphinx that exists and this is why this Awareness spoke of sphinxes in the plural. The Ankh is technology from those Atlantean times and the extraterrestrial connections that were available at that time. The technology, while stored in the Hall of Records is not truly available on a physical level to humanity, at least it is seen that this technology is not available at this time.

The Hall of Records Will be Opened Once Again

It is also seen that soon the Hall of Records will be opened once again and information that is stored there will once again be released, including technology for that which is both the Ankh of the double legs as well as the single legged Ankh. While the symbology of the Ankh is that of eternal life, the tool itself was often used for healing purposes; the single legged Ankh in particular. The double-legged Ankh was used for the purpose of levitation of materials, including the levitation of huge stones. It was often the use of sound vibration used in conjunction with the Ankh that allowed individuals holding the Ankh to point the Ankh at the stones and the rocks, and to lift these rocks.

Often they were done in combination forms. In other words, several entities holding the Ankhs, several chanting would release the energies and focus the energies of the tones, of the sound vibration and lift these stones into place, lift obelisks into place. The charger that the Ankh would have been put into, a cradle-like device that allowed a charging of the Ankhs, were made with technologies, that as this Awareness has expressed, were once available, but are not available at this time.

The importance here is that the knowledge is returning, the memory of this tool and the purpose of these tools is returning, and shortly the availability of technology for reconstructing these unique tools will be once again made available. It is simply not so at this moment. This Awareness is complete with this question.

QUESTION:

(Thank you) Just a quickie question. Would this vehicle have been used for the stones in the pyramids, to move the stones regarding the pyramids into place?

Did Ankhs Lift the Stones in the Pyramids?

COSMIC AWARENESS:

This is indeed correct. It is not simply the Ankh itself however. It was a combination of this tool of focus, the tool that would focus the sound vibrations, the toning sounds that were made by those who had the power and the understanding to do so. Individuals in what could be understood as a choir would intone certain sounds, and these tones would be focused in the apparatus that was used, this being the Ankh tool, to direct towards the stone. Then the action of moving the Ankh and raising up the stone would occur. It was a combination of the toning sounds, the vibrations of sound focused through this highly sensitive instrument and tool that would accomplish the lifting up or levitating of the stone into position, be it in the pyramids themselves or in other structures that were made and raised at that time, including such things as the obelisks that were raised in those periods as well as huge columns, huge stones, huge statues.

These tools were often used at that time in conjunction with the sound or tones that were known to be able to lift stone. Is this a clear explanation?

THAT SOUND WHICH BROUGHT DOWN THE WALLS OF JERICHO

QUESTION:

Yes it is. Thank you. I appreciate it. One other question comes to mind. The words "sound" and "vibration"...wasn't there something about the walls of Jericho and the sound of the soldiers, or the vibration of the soldiers...is that the same type of principle, or am I off base here?

COSMIC AWARENESS:

That indeed was a very similar principle. It is known that the sound of the trumpets brought the walls of Jericho down, but in truth it was not trumpets, as the normal understanding of trumpets, those instruments that where sounded through blowing air through a trumpet, that were used to destroy the walls of Jericho. It was that which would be known today as "sonic devices" and thus the sound vibration, the tone would be used against the actual rigid structure of the walls. The vibration destroyed the walls, brought the walls of Jericho down. They did not have an understanding of such weapons or such tools at the time, and thus could only explain them in terms that made sense to that which existed in their times, including that which would have been a musical instrument similar to that which is a horn or trumpet, as recognized or understood today. However, it was not such an instrument that was used, but rather the sonic devices.

The Ankh itself was also a sonic device that was able to use tones and sound vibration to focus it for the positive purpose of construction, and in the case of the walls of Jericho, to focus it for a destructive purpose, the bringing down of those walls.

Earthquake in China, Cyclone in Myanmar: Were These Natural or Created?

(Diabolical Plans Are Afoot but They Can Backfire)

QUESTION:

Thank you. I really appreciate that answer.

Our next question (there are two) concerns disasters. The first one is from Maeve Fitzgerald, Rock Springs, Wyoming. She writes, "Awareness, two disasters that have hit during the last couple of weeks were an earthquake that hit in central China killing approximately 30,000 people, and a cyclone that hit Myanmar (SE Asia) killing I think 127,000 people. Were these natural disasters or were they created by those who can do such things to reduce population? Can that technology be counteracted through mental *or any other type of* activity?"

COSMIC AWARENESS:

This Awareness wishes to state that first and foremost, both disasters were natural to a degree, but that they were also tampered with, especially that which was the Myanmar/Burma cyclone. Weather technology is available that can direct and enhance those events known as cyclones in the East, and hurricanes in the West. Such occurred in the city of New Orleans in the United States of America, and the Myanmar cyclone was also enhanced through weather weaponry, through that technology that is available to increase the magnitude of such cyclones, such hurricanes, and then to direct them somewhat, in this case directing them to Myanmar for the purpose of destroying large amounts of people.

It is seen that the disaster in China was less orchestrated than the hurricane in Myanmar. The region is somewhat prone to earthquakes and while it is seen that there may have been a triggering of the event, it is not seen that anything was done afterwards to enhance or increase the magnitude of the earthquake itself. It is however seen that the earthquake was triggered by agents of the Western world who wished a disruptive event to occur in China that might affect the Olympics that are to be held there in a short time.

This was in conjunction with the desire also to kill off many individuals.

A Plan is Afoot for Mayhem, Death and Destruction

There is a plan afoot for such mayhem, death and destruction, and this plan has been available and has been in process for many years at many different levels. The use of technology to trigger events such as earthquakes, to increase the magnitude of natural weather events such as cyclones and hurricanes is being escalated at this time, for those power that be that have power and control at this time are becoming more and more desperate to create situations of fear and panic, to destroy major amounts of populace in accordance to long-standing plans that have been in process for a length of time already.

It is seen therefore, that more and more such events will occur, including a scheduled event in the United States of America. It is seen that the control these agents have, these powers that be have, will be taken from them and turned against them, for at this time it is seen as curious perhaps, that most of these large-scale catastrophes are happening in the Eastern lands, in lands South of the United States, including Central America and

South America, in the continent of Africa, but very few events seem to be touching the United States of America itself.

A Planned Event in the U.S. is Going to Backfire

The exception of course was the hurricane that lashed out in the Southwestern region of the United States several years ago, but this too was a controlled planned event with ulterior motives. It is seen that there is an event that even though is somewhat planned by those powers that be to create more fear and panic in the country, to assist them in gaining even greater military control of the populace will backfire, and be a much greater event that anything planned by the regime that is in control at this moment of that country known as the United States of America.

The purpose of the greater event will be to cause a collapse of the present regime so that new powers based on spiritual principles and humanitarian concerns can come forward, that are much more in alignment with the needs of the people, and much more in alignment with the design of the Divine. The question was asked by the entity Maeve if it was possible through meditation, through focusing consciousness to prevent such occurrences in the East or elsewhere. What this Awareness has now to say may be shocking to some, but this must be now said:

Allow a Cataclysmic Event to Happen—It's the Divine Plan

It is no longer appropriate to delay such actions for there is a Divine Plan that will involve the shifting of consciousness, that is of the Ascension process. While it has often been done in the past, the focusing of consciousness to prevent major disasters, what is now needed is a breaking of that control of the dark cabal that would destroy purposely hundreds of thousands of lives and negatively affect millions of lives. Those powers that be who through their design often initiate catastrophes in other lands must now be brought to bear, for it is the way forward.

This is not by way of punishment or retribution. This is not a vengeful act from a vengeful god that this Awareness is speaking of right now, this is rather the events that will precipitate the shift in human consciousness that is *meant* to be, that is part of the destiny of humanity. While it is indeed difficult to see the heartache and trauma and distress of those many who are affected by such events as hurricanes, cyclones, volcanoes, tidal waves, earthquakes and the like, what this Awareness sees also is the perpetual suffering that is occurring on this plane of existence at this time at the hands of the masters of this plane of existence, by the very ones that hold hidden power, and it is these that must be brought to bare.

It is these who must have their power broken and taken, for they have lost their way. It is the destiny of humanity to move beyond such manipulation and control, such wanton enslavement. While it appears that such an action as to not do something, not to put out one's conscious desire to prevent such natural disasters seems to be wrong, and off, this Awareness reminds all, that there is a natural order of events, a natural unfolding towards that which is the natural destiny of both the planet herself as well as mankind. The illusion that death is an ending must also be understood here.

When there is a natural event, a natural catastrophe, that those who partake in those events have a preknowledge of their destiny to do so. This includes even the children that are involved who lose their lives, that they return back to their spiritual source, their spiritual essence, just as everyone else does, and that they understood that part of the reason for the choice was to help in the evolution of consciousness was to help promote Ascension and the process of Ascension. While it is difficult to see the images on television or to read of the events in the newspapers and see the pictures there or on the Internet, that this Awareness asks one and all to finally appreciate and understand that there is a greater plan, a greater action that is even now unfolding.

The direction of consciousness should be to help shift consciousness, to help one and all ascend in consciousness, to reach new plateaus of awareness so that the events that unfold will achieve the highest purpose. In a very strange way, the efforts of Light Workers to prevent catastrophes also delays the shifting of consciousness. It is now fast approaching, and very little can be done to prevent the true unfolding of events that lie ahead, but assisting the powers that be, the cabal of power by interfering with the natural unfolding of events, must be recognized and seen, that the better use of consciousness towards such areas of catastrophe is that all will be able to pass through their suffering quickly.

Those who remain will be able to understand at a deeper level that even though their grieving needs to be expressed, there is indeed a deeper reason and purpose for the suffering. It is also to be remembered that each and every human being has their own karma, has made deeper decisions based on a soul understanding versus that which is purely an understanding at the 3rd dimensional level. Often witnessing great trauma, great stress touches one deeply. It is at this time that the energies need to be sent out that will help those souls passing, that will help those who are in pain, both emotional as well as mental and physical pain, to deal with their pain and pass through it quickly.

There is, unfortunately, *no* easy way forward at this time so even though this Awareness asks that events now be allowed to unfold as they will, even those events that are seen as tragic and cataclysmic, that the reward at the end of this journey is a great reward indeed, and it will be seen and understood that the sacrifice of the many was not a meaningless one, but actually full of meaning and purpose, and there will be celebration for those many who contributed in the ultimate way for the advancement of consciousness and for the freeing up of humanity and the restoration of the planet to her normal higher level of awareness.

There is so much here that this Awareness has touched upon that *It* does indeed welcome further questions of this nature. This Awareness is complete unless the energizer has a question for this Awareness.

600 Earthquakes Off the Oregon Coast

(Strange Sounds Coming From that Area)

QUESTION:

(Thank you) I have many. I don't know where to start. There is one more question on disasters. This last question is from Bob Charles, Portland Oregon. He writes, "In the news lately there was a report of 600 earthquakes off the Oregon coast, and strange sounds coming from the area. Can Awareness please tell us what is going on in that area? And, what to expect in the Portland area and the Pacific Northwest area in general in the years leading up to 2012?"

COSMIC AWARENESS:

It is still seen by this Awareness that this area has the potential of being an area where great cataclysm can

occur. At this moment there is some manipulating of the area itself to prevent that release of tremendous energies that would occur if the faultiness in the area released. The sounds being heard are sounds of a nature that has to do with the technologies being used in the area to continually release the pressures in the area artificially, thus preventing the buildup of pressure that would release in such a way that would cause the catastrophe that this Awareness has spoken of in the past.

ELF Technology is Preventing the Grand Event

It is through the use of ELF technology, extra low frequency technologies that are being used on the Cascadian fault line and secondary fault lines in the area, to continually adjust the pressures in this region, thus preventing that buildup of pressures that would lead to the grand event that this Awareness saw several years ago. Often these pressures must be released somewhere else, and it is for this reason that the Chinese quake occurred. The releasing of those pressures in the Cascadian fault line translated to a release in the area of China where the recent quake of activities occurred.

Those powers who are behind this understood that this would occur, and as it also suited their purpose and their reason, they allowed this to occur, for in some ways they are protecting that land area known as the United States, and while the agenda is still available for the death of millions of others, they allowed the events to translate in such a way that would allow a series of earthquakes to be triggered elsewhere. These events are interrelated, but the noises heard are in association with the ELF technology and the use of vibrations and frequencies to release the fault line. This is all that this Awareness has to deliver on this matter at this time.

The Portland Area and the Pacific Northwest

QUESTION:

He was asking about the Portland area and the Pacific Northwest area in general in the years leading up to 2012. Did you wish to address that?

COSMIC AWARENESS:

This Awareness wishes further to add that this region is still in high danger. Even though the stresses to the tectonic plates of the region are being released, it is not seen that ultimately it will be sufficient to prevent an occurrence in this region. This is seen as an event that could occur before the 2012 period. In fact this Awareness sees this in the years ahead, not in the decades ahead. It is also seen that those powers who are protecting the shores of the United States of America are not the only ones who have such technology.

A Foreign Power is Turning their Weapons Toward the U.S.

There are those other world powers who also have such technologies who are also turning their weapons and technologies towards the United States to precipitate a massive event in that country and that the region of Oregon and the city of Portland are prime targets for such foreign technology to be used against the United States of America. This is all that this Awareness has to speak on this matter at this time.

Will the Galactic Federation Intervene to Prevent Cataclysmic Devastation?

(An Update on the Petition Now Circulating)

QUESTION:

Thank you) It's appreciated to be aware of what's coming down the tube. There is another question from Bob Charles of Portland, Oregon. He asks, "Is there any news from the Galactic Federation of Light? Will we be getting a visit from them soon? Is there any other news about 2012 Awareness can share? And would the Galactic Federation be of any assistance to the question that was just read concerning the earthquakes and the Portland area?" Your comments please?

COSMIC AWARENESS:

This Awareness first wishes to make an update on information *It* gave previously of putting a petition out that the Galactic Federation would receive. The Galactic Federation is indeed very aware of this petition, and is watching with great interest, as those who are becoming aware of this petition add their names to the request and the petition that the Galactic Federation intervene and be invited to participate in the affairs of this planet.

While they are aware that this petition is making the rounds, it has not yet reached a sufficient level where those who are of the Galactic Federation are able to say that it now has sufficient merit to become involved, that enough people have actually voiced the request of the Galactic Federation to become involved with the affairs of humanity.

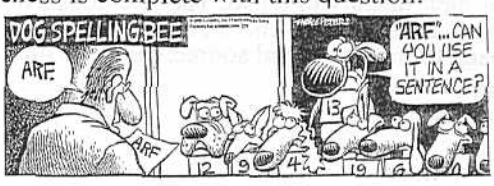
This movement however is gaining ground, and those who are of the Galactic Federation are indeed impressed, that finally a recognition of their importance is indeed underway, and they are very close now to making an appearance, to showing themselves and to offering their assistance to the world in general. The question was also asked if they would intervene in the affairs of the planet, such as the intervention and prevention of the events that could occur in the Portland, Oregon area.

Galactic Confederation is Unlikely to Intervene

It is not likely that they will do so, for that is not sanctioned by those who are the authorities, the leaders of the Galactic Federation. It is seen that these events must unfold for a reason, just as this Awareness suggested that these events be allowed to unfold to bring down the existing power structure, to redefine the purpose of humanity and to allow the Ascension process to take place. It is recognized by the Galactic Federation that to prevent this from happening will simply prolong the control and power held by that cabal and by the Orion Empire that has total and complete control at this time of the planet earth.

Thus, it is not seen as desirable by the Galactic Federation, even though it too is aware of the great pain and suffering that might occur should such events transpire. They are also aware of the greater purpose. They are also aware that death is but an illusion, and the consciousness that would be released at that time would indeed do much to shift the energies of the planet and to help the evolution of consciousness generally. Thus, it is not seen by this Awareness that the Galactic Federation would intervene and prevent an occurrence of the magnitude seen by this Awareness, just as it has not intervened in other areas of the world to prevent the disasters that have been recently unfolding.

This does not mean that the Galactic Federation is pleased to allow such events, for they are not. It goes against the very nature of their being, for they understand that it need not be this way, and they understand that one day it will not be this way, but at this time of transition and change it is understood that it must be this way, for the greater good to be served. Thus it is. This Awareness is complete with this question.



"The nine most terrifying words in the English language are,
I'm from the government and I'm here to help."

WHAT IS COSMIC AWARENESS?

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 CosmicAwareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the interpreters necessarily agree with the statements of Cosmic Awareness. The interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

The Sea of Consciousness

(Why You Need to Become a Free Swimmer)

OPENING MESSAGE:

This Awareness wishes to speak at this time on a matter that has been coming into focus for the Interpreter in his personal life as well as for many of the personal readings that this Awareness has begun to do for the members. It is a matter of the importance of understanding at this time that what is being called upon, especially at this time, is the need to truly understand the beliefs that one works with, especially unconscious beliefs or unconscious assumptions about reality that so many hold.

These times are crucial for what is being planted, what is starting to take place as the Ascension process speeds up. This Awareness has spoken in several personal readings of the need to understand that they are in a sea of consciousness that is held by the collective. The mass consciousness held by a society, a nation, a culture, a continent, is a very strong sea of consciousness in which the individual swims. While the individual may have their own unique beliefs and ideas and attitudes of things, that it must be seen and understood that they still are contained within the larger fabric of the collective they are immersed in, the sea of consciousness that they swim in.

Collective Beliefs may Hold Sway Over Individual Beliefs

Thus, it is that collective beliefs may hold sway over individual beliefs, and that even though the individual may be seeking to exceed the collective beliefs, it is still very much a struggle. This Awareness recently told one of the members that it was like swimming up the riptide. The force of the tide of collective consciousness will always seek to push back the individual who is swimming against that tide, and the riptide often pulls one back into the ocean of consciousness that exists on a collective level.

These times are crucial in escaping from collective consciousness and beliefs that are held in limited form which cause restriction, which cause imprisonment of the mind to realities that are no longer salient or valid. The fact that they are no longer valid does not mean that they do not still imprison the individual or individuals in the collective belief. Thus it is that moving toward Ascension also moves the individual towards ascending beyond commonly held beliefs and paradigms of beliefs and attitudes. Thus it is that it is with full awareness that the individual must have belief in the miraculous, to live and experience it on a daily basis.

It Won't be Easy to Convince the Low Self (the Subconscious)

Even though a society may say that this or that is impossible, that it is the requirement of each and every individual as they seek the expansion of consciousness that marks the Ascension process, to eclipse the societal beliefs, the collective beliefs. This is not an easy matter. The words are easy. The mind consciousness around this concept is easy, but what is very difficult is persuading that which is known as the low self, the subconscious, where many of the collective beliefs reside and are held, to believe that the societal paradigms of belief are erroneous and that the individual is free to move beyond them.

Taking a Quantum Leap of Faith

This does start to occur when the individual raises their consciousness and they finally come to the barrier, to the edge, where they must finally and fully step beyond that which is the belief paradigm held by the collective. This can be a lonely place indeed, and in the past, very few reach such a point, and when they did, they experienced personal ascension, and became Ascended Masters. The society as a whole is moving to such an edge where it will be possible for many, not simply one or two, but *many* to ascend in consciousness, to come to the edge of the cliff of collective belief and to take the quantum leap off the edge, trusting, knowing, believing that with the quantum leap, the leap of faith, that either a bridge will be provided that will support the entity on his/her continued journey, or that individual upon taking a leap of faith will learn how to fly.

Truly Believe that the Impossible is Possible

This is the magnitude of the personal journey of Ascension, to truly believe that the impossible is possible, and that miracles, and the miraculous are part of the everyday reality one lives and experiences. To understand that the individual for the most part, is still swimming in the sea of consciousness held by the collective and not to be drawn under by that collective consciousness, that limiting consciousness, but rather, to become a free swimmer in consciousness who can use the collective energies to propel themselves onward and upwards and even inwards.

This Awareness speaks to this issue at this time, for many are starting to experience the difficulty of making this transition, of making such a powerful leap of faith. Often what is now occurring is that which the individual is holding as the new reality, the new possibilities, are being challenged by old beliefs, old paradigms, old perceptions, old patterns. This can be a very frustrating time, especially when one has such great faith that all is changing, and yet the personal circumstances around the individual seem to be stagnant and rigid, and no change, despite what grand ideals one might hold are, makes any difference at all to what the individual is experiencing.

This Awareness simply asks each and every individual when they experience such a moment to remember the magnitude of what they are seeking to accomplish. They are seeking to break the mass-held, the paradigm of belief that is held by the collective, and the energy required to do this is phenomenal, but *not* impossible. This is a process that is gaining ground. The energies are becoming stronger and stronger for those who on a daily basis are challenging the boundaries of mass-consciousness, who are stepping beyond those boundaries little by little, day by day.

With Time a New Tributary will be Forged

With time, a new tributary will be forged, away from the mainstream of collective consciousness and this tributary will grow and grow, bigger and bigger, and broader, as more and more start to find the tributary, start to branch away from the mainstream of consciousness, and eventually a new river of consciousness will flow that no longer follows the old lines, but forges ahead in a new concourse, a new path, a new way of consciousness. When this occurs, then many will be able to follow and Ascension will have occurred.

These times are not that yet. These are the times that are coming: the new tributary, the new direction. At this time many who still swim in the old river of consciousness, the seas of consciousness that are the collective reality at this time, are still struggling. Simply have the trust and the patience and the belief that despite the everyday struggles, change is still occurring. Little by little the new tributary is being forged, until a breach occurs, and a new concourse, the new flow, the new direction is fully achieved.

gelo, the efforts of the builders of these churches are but mere child's drawings in their efforts to convey that which is the Kingdom of Heaven.

This Awareness indicates that you have now entered into this huge temple; that everywhere about are marvels, are the glistenings, the beauty, the awesome splendor that you have never yet experienced or seen before.

This Awareness indicates that in this Kingdom of Heaven there is a throne. There is music. There are voices and angelic hosts singing. There are scenes of beauty. There are entities who are loving, warm, and glowing, and all of these are singing because you are here.

This Awareness indicates that you have come triumphant home, that you are now moving with throngs of angels throwing flowers in your path. You are now moving into this Kingdom of Heaven, up the steps toward the throne.

This Awareness indicates that as the angels sing and the lights glow and the golden liquid sunlight fills the air, as the flowers are thrown, as the warmth and love is emanated toward you, that you are now ascending toward that throne, being pushed by this Awareness, feeling yourself unworthy, yet unable to hold back or to remain.

This Awareness indicates that as this Awareness continues pushing you toward this throne, you have those questions:

"Am I really ready for this one?"

This Awareness indicates that you are still being pushed and cannot stop. You cannot falter, for everywhere there are the angels who are cheering for you, who are singing praise to you.

This Awareness indicates that suddenly, you are at the top of the stairs and there is the throne, and there is a beckoning hand which asks that you sit to the right side.

This Awareness indicates that you sit at the right side of this Awareness, that you feel the throngs of angels. You see the golden light pouring through. You feel the vibrations of the music, the songs, the joy, the happiness, the gratitude.

This Awareness suggests that at this point you now find that there is something happening to you. You are asking:

"What did I do to deserve all this?"

This Awareness indicates that at this point this Awareness turns to you and says:

"You have been what you are."

This Awareness suggests that you look very carefully at that, for what you are is what you are, is what you are, and what you are is what you are to this Awareness.

This Awareness indicates you are not your actions, you are not your performance. You are what you are.

You are not your looks. You are not your clothing. You are not your family. You are not your name. You are what you are.

This Awareness indicates you are not your goals. You are not your wishes. You are not your motivations. You are not your hopes. You are what you are.

This Awareness indicates you are not the expectations of other people. You are not their disappointments. You are not their crutch. You are not their Messiah. You are what you are.

This Awareness asks that you now trade places with this Awareness, that you may sit upon the throne of God, that this Awareness may be at your right side, for you are what you are.

This Awareness indicates this as the conclusion of the fifth lesson in the Sea of the Moon Child.

(The *Law of Gratitude* is given.)

ON THE COVER

This 1 and ½ year-old black and white Chihuahua named Conan has become a celebrity in Japan after he began joining his master in daily prayers at Naha's Shuri Kannondo Zen Buddhist temple. "I think he saw me doing it all the time and got the idea to do it, too." Priest Joei Yoshikuni said. Conan reportedly goes through this routine—sitting up on his hind legs and putting his front paws together before the altar—without prompting each day before morning and evening meals. "Word has spread, and we are getting a lot more tourist," Yoshikuni said.

Special Excerpt 080827 from a CAC Reading. Will Berlinghof, Interpreter, Joan Mills Energizer and Questioner

A MESSAGE FROM THE GALACTIC CONFEDERATION TO THE PEOPLE OF EARTH

Galactic Federation of Light spaceship to appear over Alabama for 3 days continuously beginning October 14, 2008....

TO LEADERS, GOVERNERS, POLITICIANS AND ALL PEOPLE OF EARTH ....

We wish it to be understood that on the 14th day of your month of October in the year 2008 a craft of great size shall be visible within your skies. It shall be in the south of your hemisphere and it shall scan over many of your states.

We give to you the name of Alabama.

It has been decided that we shall remain within your atmosphere for the minimum of three of your twenty four hour periods.

During this time there will be much commotion upon your earth plane. Your highest authorities will be intruding into 'our' atmospherics that surround our ship. This 'security field' is necessary for us, as there shall take place a 'farce' from those in your world who shall try to deny that we come in LOVE.

KNOW OF THIS

WE COME TO ASSIST YOUR WORLD.

WE DO NOT COME TO TAKE OVER.

WE DO NOT COME TO DESTRUCT.

WE COME TO GIVE YOU HOPE.

We are beings from other planets, who for many eons of your time have been preparing for these days ahead.

Editor's Note: Toward the end of August CAC was sent an anonymous email announcing that First Contact from the Galactic Federation of Light would *deifinitely* occur October 14, 2008 over Alabama and last for three days. That message appears above exactly as we received it.The message was traced to a Federation of Light website of Blossom Goodchild who is a well known direct voice channeling medium and author of several books. Since this entity had gone out on a limb and actually risked her reputation by giving an exact date, there was a certain energy and feeling that this announcement had validity and I forwarded the message (without comment) to the Interpreter Will Berlinghof and his energizer Joan Mills. After discussing that email they decided it should be checked out with Cosmic Awareness and what was revealed appears in the following reading

QUESTIONER (JOAN MILLS):

The first question concerns the October 14 event where a 'first contact' by a space group was announced., The date of October 14, 2008 was given. The Interpreter and myself were discussing it and question came up. By the way, this information was sent to us by an e-mail. We don't have the actual name of the site but I am sure Avaton would have this.

Would you like to make any comment concerning this particular advice that contact would be made October 14. Would you also cover the part whether this is genuine or is it a test of faith or any other variables associated with it. Would you discuss this matter please?

COSMIC AWARENESS:

This Awareness suggests that matter of course being referred to is that prediction that promised that there would be a first contact on October 14th of this year. The woman making this claim seemed to be very certain of the claim, although she did not say herself she herself was making the claim, for she was channeling information from that which calls itself the Federation of Light. That this Federation is the same as that which this Awareness calls the Galactic Federation. That this Awareness *Itself*, did in *Its* forecast for the year 2008, state that there would be first contact made in this year, that *It* even stated that it might be in the Fall of 2008, that this, therefore, is in accordance to that which this Awareness has also claimed as a possible event. Thus there is agreement that there may be a first contact in the Fall period of the year and that, in this case, an actual date has now been given. This Awareness feels that the energizer is asking *It* to make comment on whether this is a true prediction, an accurate prediction that it may indeed come about, or if there other variables in this matter that must be considered. Is this correct?

QUESTIONER:

Yes.

This Awareness suggests the problem here is that an actual date *has* been given and of course, if this event does not occur, there will be great disappointment. What is worse is that some may say that they cannot trust this individual or this group, this site, that the prediction was made on, thus there is a discrediting of a person or persons making such a claim. That in a way, the individual herself is putting her own reputation on the line, especially as she has written a book where she has presented other information. The problem here is that should this event not occur on the prescribed date, October 14th, 2008, she will have put in jeopardy her own reputation, but more importantly, other information that she has channeled. It is seen by this Awareness that there *is* validity in this woman and in the information she has channeled. But the danger is that not only her reputation but the very essence of what is being conveyed here that there will be a first contact will be threatened, will stand risk of not being believed in the future. In some ways this is like the parable, the story of the boy who called 'wolf'. That the individual from calling wolf so often lost creditability thus it was when the real event happened, nobody paid attention and the boy was gobbled up. There is not a case here yet of this individual crying wolf too often by pronouncing this date or that date. It is not seen by this Awareness that this individual is herself seeking to con the public, it is seen that she is sincere in her claim as it has been given to her.

Thus this Awareness will say that October 14th is indeed a probable date for a first contact; however, remembering what this Awareness has spoken so often in the past, do not believe everything that this Awareness says, go out, seek out the confirmation that will give credence to what this Awareness says, or will put further light on it, will substantiate it, or validate what this Awareness speaks and has spoken. This Awareness asks that the same be applied to this prediction, that the claim that there will be first contact needs to be validated from other sources as well; and also, that while the individual in sincerity has received information that this will be the date, that should this event not occur, that it be remembered that there are many variables here and

that she may have been used to discredit this occurrence for it is seen by this Awareness that she is not the only one, nor is this Awareness, the only Awareness or other source rather that has seen a possibility of a first contact. That many are actually sensing something is up, that something will present itself, that the energy is around this period in the Fall for a probable time of first contact. That while this individual has been bold enough to actually put her reputation on the line by stating a specific date, that even if this event does not occur for one reason or another on the date, what must be honored and recognized is that she had the courage to speak out, to actually say a date, to predict a date, to channel information that was giving the date to her as October 14th. There are, as this Awareness has already said, many variables, many factors that could alter this event from occurring but not to disbelieve and become a doubter because it did not happen on that date, rather to recognize that there are many other factions that would block such an action or would use such an individual to discredit the whole organization, to discredit those who believe such an event is about to occur.

Thus it is important here for each and every individual to dig deeply within themselves and to sense and feel within themselves the truth behind the claim that first contact is imminent, is ready to happen. This Awareness indicates many will feel that energy within themselves supporting this knowledge, this knowing, and will feel the imminence of the event as many are doing. The fact that this particular individual was courageous enough to actually allow information to be channeled through her that suggested an actual date and then courageous enough to put it out there should not be held against her even if she did have a book that is also coming out close to that time, that these are events that are congruent in nature, that they support each other and that there must be an understanding and an awareness to this.

Thus it is that this Awareness can state that the first contact is indeed scheduled for the Fall period of this year. That October 14th is a proposed date, a probable date, but that if there are interferences by those powers-that-be, manipulations, blocks and barriers, that there is the possibility that it will not occur on that date, but on another date.

Galactic Confederation Plans to Disrupt a Secret Plan to Create a Worldwide War that Could Destroy the Planet

It is seen also that the reason for first contact is because it is seen that there are other events that are now underway that are designed to take mankind down a pathway that is not favorable to the lifting of consciousness. That those events that are being manipulated at this time are designed to take mankind down another path, a path of destruction, violence, death, deception and that part of the reason that the alien agenda, the agenda of that which this Awareness calls the Galactic Federation is to cut off at the pass those very forces, those powers-that-be that are seeking to destroy the planet, to enslave mankind, seeking to create worldwide tension, even a worldwide war. That this is all part of the reason why the first contact is being proposed at this time, is planned at this time. It is of course an event so massive in the psyche of mankind, that it is difficult to truly get one's mind around this proposed event.

The actual appearance of extraterrestrial beings, even though a majority of Americans *do* believe there are such things as ETs and UFOs, it is still another thing altogether to see them standing there in front of you, standing there on television, that the planned event for October 14th is one where it is stated that they will not present themselves in this manner, they will simply present a mother ship and it will appear in the skies above that state known as Alabama which is in the southern region of the United States. This Awareness suggests there is a mistake in the original information where it says it will appear in the southern hemisphere, it was meant in the southern region of the United States, the southern part of that country.

A Clampdown May Occur. To Deny the Event is Occurring Those who Film the Mother Ship May be Arrested

Therefore, if this event happens and the mother ship presents itself, it is so that it will catch the eye of humanity, but it is seen that much will be done to deny this event, that even the refusal of filming of this event, the controlling of this event so that others who try to film it may be taken prisoners and their cameras and their recorders removed and taken from them are seen to be happening or possibly happening. And there will be denial from the officials as to what this is about, that they may even try to put a spin on it claiming that these are not good beings. Much is seen as possible.

It's Possible the Dark Powers May be Using Holographic Projection so they can Manipulate the Situation

Another event that must be considered is that it is the dark powers themselves that are trying to cash in on that which is known by humanity that an event of this nature is due to happen. That there is suspicion here around the event for if these beings, the Galactic beings do not show themselves there is always this possibility that this event is staged, that this could be a holographic projection for the powers-that-be are also aware of the intent of the Galactic forces to present themselves and to shock the psyche of humanity, to awaken it to new possibilities. But it is still seen that if those powers that be are the initial force behind this event that it is a holographic projection by them so that they can manipulate the situation and in their thinking cut the Galactic Federation off at the pass. If this is so it will still turn against them. Even though they may claim this or that, claiming them to be an enemy to mankind, part of the terrorist operation, trying to deny this reality, it is seen that the mere event will mark a transition point, a point where consciousness will be so deeply affected that it will open itself up, expand the horizons of possibility, opening to even a greater belief in the presence of extraterrestrials. And that this too will be positive in its effect that it will open up the door even further to a true first contact in the event that this is a staged event, in the event that the individual who has made the claims has been misdirected, has even been used to create a scenario that is not what she thinks it is, thus it is that there are many variables indeed in this scenario.

More Reasons Why First Contact is Important at this Time

The most important point however, is that humanity at this stage become aware of the possibility, indeed, the *probability* of first contact, that it is on the books, that it is planned and that the reasons for first contact at this time are to help open up the minds, expand the consciousness of mankind to matters much greater than that which they amuse themselves with now by which they are misled by those powers that be, to see that there is more in heaven and on earth than has been dreamt of by the denizens of this lower dimensional region, that it is time for mankind to move forward in its destiny, to expand its awareness of what is, embracing greater truths, greater possibilities. Thus it is that the proposed first contact of October 14th is important in and of itself for it suggests of course that there are greater forces,

greater agencies out there that are ready to show themselves and that the individual must not become preoccupied with a date or who is staging the event, but rather that mankind itself has finally reached a point of consciousness that can allow such an event to occur, allow such a shift in consciousness to occur, and that if it does not happen exactly on the date predicted, that it is seen that the event is still imminent, that it is still on the books, that it is still the plan, and that it will indeed happen.

WILL THERE BE ATTEMPTS TO DESTROY THE MOTHER SHIP?

QUESTIONER:

For the First Contact event happening, when it does, will there be attempts to destroy the ship or vessel by others?

COSMIC AWARENESS:

Indeed, it is perceived that there will be high drama around this event, that it is seen that there be attempts to destroy this vessel, this projection. It is not seen that they will be successful in the destruction of this vessel but it is seen that the projection of battle will be to enforce the powers-that-be claim that these are alien terrorists. Indeed it is even seen that one of the claims that will be made is that this is something to do with terrorism, that terrorists are projecting this sight in the heavens. There are many claims that will be made during this period for there will be shock and awe, there will be disbelief, there will be confusion, there will be the deepest fear by many who are not prepared to admit to such an event, to such a truth or reality manifesting in front of their eyes. That one of the scenarios that this Awareness does see are attempts by the powers-that-be to destroy this vessel, but this vessel will not be destroyed by any attacks of those powers- that- be and their agents.

QUESTIONER:

That's good to hear that it will not be destroyed. The newspapers, television, the media, will they give this event a positive press or will it not have any press at all, or will it be negative?

COSMIC AWARENESS:

The attempt at first will be to suppress the event, for it will be appearing in a state that is not a highly visible state, that there are less people visiting Alabama for example than California or Florida. This does not mean that they will be successful in censoring this event for there will be others who take the pictures, who record the event who will release it on the internet and eventually it is seen that it must be reported. At first the attempt will be to place this under a high net of security to contain this situation. It is uncontainable, that part of the proposal is that the Galactic Federation of Light will create the appearance over a period of several days, in other words, the mother ship will stay visible for several days. That there will be great panic and great fear by some and it is for this reason that the governments will supposedly be acting to alleviate the fear, to show the people that they are in control. There is much manipulation of the information however, that is seen by this Awareness as an attempt to contain the situation at first, but it simply will not be contained.

QUESTIONER:

Thank you. May I ask why Alabama in the United States was chosen? Is that information available?

COSMIC AWARENESS:

It is seen that this has something to do with this various grid works of energies that exists over the planet, and that this is a very strong area and region that can hold this energy for a period of time, sustaining a vessel in position for several days. It is also seen that there are less people in Alabama to create a mass hysteria and that it is seen that it is seen that it is a relatively low key place to introduce this event that will not have such wild affects and mass hysteria as this Awareness has said. There is no deep deep reason except that this seemed to be as good a place as any to host this event. There are other reasons also that this Awareness is not able to see as clearly at this time.

QUESTIONER:

Thank you. I appreciate all of the information. Is there anything I forgot to ask that I should have asked?

COSMIC AWARENESS:

This Awareness does not see that there is anything that you forgot to ask, that this is an event that has long been planned and, that at this time, the energies are rife for this event to occur but this still does not guarantee that it will occur. That it is important for many to still hold to this possibility as manifesting at this time and if not at this time, then it *will* still manifest soon and to hold to that belief and understanding and perception and to see that miracles indeed can happen. This Awareness indicates that change can be instant especially when an alien mother ship appears on the horizon, that this will be a truly powerful event in the history of mankind.

QUESTIONER:

Just to clarify, it would be a first contact in the sense of a ship rather than a one-to-one contact with a human?

COSMIC AWARENESS:

This is so, this Awareness does actually have some information on this.That while it is not proposed at this time to present alien persons to inspection, to create a first contact of those beings of the Galactic Federation, what was felt was needed was first of all the *evidence* that such spaceships, UFOs, *do indeed exist*, that actual first contact, *true* first contact of alien beings with humans, with mankind is *still slated* several weeks later, thus still in this time frame. But it was felt that first and foremost it would be enough to simply show such a vessel in a non-threatening manner and that this would help many come to terms with the event, preparing them for actual contact with extraterrestrial beings. This Awareness indicates that it is recognized by the Galactic Federation that great panic might ensue, that many may find such an occurrence, such an event as so challenging that they will not be able to handle it and in an attempt to prevent mass hysteria, it has been felt by the Galactic Federation, the Federation of Light, that a peaceful demonstration of their existence was needed and by this, it was felt that merely appearing in the skies over that state of Alabama, would be enough at this point and that it would be followed up after several weeks with actual first contact.

What is also planned is that many will start to have a deep connection with the extraterrestrial galactic representatives, in other words, that there will be heightened conscious awareness, contact happening at

an individual level with many individuals worldwide, contact not simply of an alien appearing in someone's room manifesting in this way, but rather contact at those deeper levels of consciousness, messages, many many messages being given to many individuals who are sensitive enough to receive such communication, who will be able to speak to many around them, to prepare many around them Thus it is seen that the periods between the first sighting and appearance of the alien vessel and actual first contact will be a period of preparation, of preparing the ground, of preparing individuals, of preparing the human community for actual first contact; hat this is seen as a very important step and that there are many many individuals whose life purpose it was, star beings, who chose physical incarnation, who will come into their own, who will finally step into their purpose and that purpose is to act as intermediaries, to act as ambassadors for the star nations peoples, those beings who are ready to present themselves. That these individuals will come forward for it is as if a switch will finally be turned on, they will know themselves, they will come forward, they will communicate the information that they are given to individuals and more and more messages will come forward, preparing mankind for the actual first contact that is imminent, that is planned. This Awareness wishes all to know this at this time, to prepare themselves for this amazing event, this event that has been so long planned but has been held up for so long.

WILL FIRST CONTACT VESSELS BE SEEN ONLY IN ALABAMA?

QUESTIONER:

Amazing! Just one last question: the first contact scenario will just be in Alabama, it will not be in say, England, France or any other country overseas? Is that correct?

COSMIC AWARENESS:

No, this is not correct.

.This Awareness thanks the energizer for asking this question. It is seen and indeed, the information that has been provided to the individual who has communicated this date, that the *first* event will be over Alabama. But this Awareness sees that other ships will also show themselves in other regions, both in other regions in the United States, Canada, Mexico as well as Central America.

This is to be a Global Event

But *It* also sees that other vessels may show themselves in other cities and states and countries around the world, for this is to be a global event, not simply a singular event of one country. This Awareness indicates that what is seen as *perhaps* a *manipulated event at first* will have far reaching manifestation and consequences. It is seen that even if it is an act of misinformation on the parts of the powers-that-be to pre-empt the actual plan of the Galactic Federation, that this will be turned around and used to the advantage of the Galactic Federation. It is to be remembered that there are extraterrestrial vessels, mother ships, *already* in the skies above the earth and that these vessels are cloaked and hidden at this time, but that it would not take much to remove the disguise, the camouflage and to appear suddenly in the skies. Thus it is that even if this event is being staged by those powers-that-be, it will be used and enhanced by the true Galactic Federation who *are* waiting at this time to present themselves. This is an event that has been long in planning, as this Awareness has spoken, but it is also a *foreseen* event that is essential to the raising of consciousness, to the preparation for that Ascension process that is still underway and that even with the presentation of such a vessel, there will be those who still do not believe, who will fall sway to the explanations of the governments, who will choose not to see the matter in a positive light, and who will choose still to follow down a path of those power-that-be that would mislead mankind, that would still control and manipulate. Therefore, that is why this Awareness is speaking of this matter, *It* wishes one and all to understand that the *beliefs* that one holds, the power of their beliefs, to understand and know how it will assist in this time and in this occurrence.

We Are All Creative Beings and Can Manifest Our Own Beliefs

What this Awareness is suggesting here again, is a theme that *It* has presented before, and that theme being the theme of beliefs and that what is now starting to occur more and more is that the powers that individuals have to manifest their creations, manifest their belief is becoming more and more pronounced, it is becoming stronger. This is why the powers-that-be want to control the beliefs held by the individuals. for a process is starting to occur more and more that would lead individuals to create their realities almost instantly, indeed eventually it will be instantaneous. Thus it is that if the powers-that-be can persuade others and persuade the masses that what they see is an illusion, it is not true, that they will then believe another truth, a truth that the powers-that-be intend to implant into the minds of mankind. Thus it will be that they will feel that they will still be able to control the situation, manipulate it to their advantage; that even if it is the true sighting of a ship, they feel they can spin-doctor the event to their advantage. That is why this Awareness does suggest to those who have that deeper sense of this matter, that they truly go within themselves, search out within themselves the resonance of the truth of the matter. That they truly see that the belief that they have that this is a real event will help manifest a different result than that which the spin-doctors are hoping to achieve here, an event that will show our true connection to the universe, to that which is the greater truth, the greater consciousness and that this Awareness is supporting of this.

You Must be Ready to Believe this Truth, Not Doubt it

This Awareness suggests that which is the truth of the many needs to be expressed, needs to finally break free of those controlling forces that have so long held sway, that this is part of the truth of the Galactic Federation, that it is trying to break the shackles, to break the choke hold that is currently held on humanity that holds it back and that the appearance of a vessel will do much to break this, but *only* if this is believed in. That if a belief is created that this is illusion and con then again the powers-that-be hope to continue their control of the mind, the mass mind, the collective consciousness and lead it down a garden path. It is not seen that this will be entirely successful on their part, that many will truly see the truth here, believe the truth here and go a different direction, but many will still be misled.

This Awareness speaks of these matters to help those who read this wake up to this truth, to be able to believe this truth and to move freely and completely into it, the truth of First Contact. The truth that mankind is part of a much bigger family than it has been told it has been

part of, for indeed, it has *never* been told it is part of that bigger family, it has *never* been told this truth.

October 14, 2008 is Truly an Important Date in the History of Mankind Whether or Not a Mother Ship Appears

This Awareness suggests that there is not much more that this Awareness has to offer at this time, that this event will come forward so quickly now that it simply remains to be seen if this occurs or not. Whether the truth that is already being released in awareness and in consciousness as this Awareness speaks this truth, as others speak it, manifests or not *It* reminds all that *when* the truth is set free other forces sometimes act and react to the conscious shift and the shift in consciousness that occurs when the truth is released and spoken. Therefore, it does remain to be seen exactly what will occur on the date October 14th but one thing that this Awareness can say that this is a significant date and one where individuals would do well to be open to the energies of the day whether an alien spacecraft manifests or not. There are certain alignments of the planets and of the energies on that day that will do much to shift consciousness to help open up a greater expansion of awareness and it is for this reason that the day of October 14th is a truly important day in the history of mankind. Whether an alien craft appears or not, is *secondary* in some ways to the energies that will be released on that day, and if such a vessel does appear, it will simply be part of the expansion of consciousness that will occur on that date. This Awareness is complete.

Thank you. Very very informative and much appreciated. Thank you.
