I. THE CHARGE

0. In the word M.U.A.U.M.

1. This book concerns the communication of two Adepts of the One Order—variously known as the Great White Brotherhood, the A.'.A.'. , the Trans-Himalayan Brotherhood, and many other names—with preterhuman intelligences during the ten year period 1894-1904.
2. The intention of these preterhuman intelligences' communication to humankind through these Adepts was to establish the updated spiritual formulae implied by the precession of the equinox.
3. The first of these intelligences, identifying itself as *Mahavatar Babaji*, revealed the dawn of the *Dwapara Yuga* to Sri Yukteswar Giri at the Kumbh Mela in Allahabad, India in 1894.
4. The second, identifying itself as *Aiwass*, revealed the dawn of the *Aeon of Horus* to Sir Aleister Crowley in Cairo, Egypt in 1904.
5. It is the purpose of this book to demonstrate that these are two perfectly interlocking timelines which, properly understood, demonstrate the combined wisdom of East and West in identifying the current evolutionary stage of the planet.

II. THE YUGA

1. In January 1894, the Indian Swami Sri Yukteswar, a disciple of Lahiri Mahasaya in the Kriya Yoga lineage of Mahavatar Babaji, met the theretofore-hidden *paramguru* of that lineage at the Kumbh Mela in Allahabad.¹ Mahavatar Babaji, who has elsewhere been named the *Ancient of Days*, *Sanat Kumar* and *Shiv-Gorkakshnath-Babaji*, the codifier and reformer of the Indian Tantrik orders, has been described as an immortal being able to manifest and demanifest at will. Babaji decribed himself as being 500 years of age in his meeting with Yukteswar. Other authorities have placed his age anywhere up to 18,000 years spent on Earth.
2. During this meeting, Yukteswar was instructed to write a book entitled *Kaivalya Darshanam*, in English known as *The Holy Science*.
3. The core message of this book to the world is that the Hindu calculation of time and of the precession of the equinoxes had been miscalculated. According to Yukteswar, while mainstream Hindu pundits still placed the world within the dark vise of the Kali Yuga, the world had, in fact been in the *Dwapara Yuga* (Bronze Age) since 1699 CE, according to the true calculations of the Indian rishis.
4. The *Dwapara Yuga*, according to Sri Yukteswar and his student Paramhansa Yogananda, is a period in which the quality of *dharma* (mental culture) rises on an upward arc out of the darkness of the Kali Yuga. This age is marked by the increasing rejection of blind faith and a greater demand for objective proof in claims of spiritual experience. It is also marked by an increasing insight (remembrance) of the subtle forces of nature and the mind. During this time, Western scientists have discovered (recovered) the forces of *gravity*, *electricity*, *magnetism*, *bioelectricity*, and *orgone*, among many others.

¹Yukteswar's later student, Paramhansa Yogananda, would later become first Indian guru to bring Yoga to the West.

5. This period, according to Yukteswar, is scheduled to last until 4099 CE, at which point the Treta Yuga (Silver Age) will commence.
6. According to Yukteswar's calculation, at this time the world was also commencing the *Age of Aquarius/Leo*. Note that this is a different, and much smaller unit of time, than that of the Yugas—the zodiacal equinoxes proceed at a much faster rate, as can be seen in the diagram at the beginning of this book.²
7. Importantly, Yukteswarji noted that while the Dwapara Yuga had begun in 1699, it would not reach its full commencement until its 200th year in 1899.
8. Meanwhile, in London, 1899 marked the beginning of the end for the Hermetic Order of the Golden Dawn—the Amen-Ra and Isis-Urania temples of the Order chafed under their increasing dissatisfaction with the leadership of MacGregor Mathers and began to seek their own direct contact with the Secret Chiefs.
9. During this time one *Frater Perdurabo*, terrestrially known as Aleister Crowley, a 24-year old member of the First Order of the Golden Dawn, purchased a house on the shore of Loch Ness in order to undertake the Sacred Magic of Abra-Melin the Mage, a six-month ritual which would initiate the beginning of his contact with said Secret Chiefs, though he was interrupted by the schism in the Order which would necessitate him breaking the circle to return to London and come to the aid of Mathers, his mentor. The old order had fallen apart; we pick up the story once more five years later when Crowley, now 28 and disillusioned with the world of magick, would be given the second half of the equation by the Chiefs he had already forgotten.

III. THE AEON

1. In April 1904, the 204th year of the Dwapara Yuga, and upon the commencement of the *Age of Aquarius/Leo*, the English magician *Frater Perdurabo* was contacted by a disincarnate being which identified itself as *Aiwass* in Cairo, Egypt. Crowley variously identified this being as his Holy Guardian Angel, a Sumerian god, the head of the A.'A.', and others. Most importantly, he argued that this being was of a vastly superior intelligence than that of normal humankind, and that its message was of critical importance to the age.
2. During this meeting, Crowley was instructed to write a book entitled *Liber AL vel Legis*, in English known as *The Book of the Law*.
3. The core message of this book to the world is that the equinox had moved into a new period (the *Age of Aquarius/Leo*), and that the spiritual formulae of the previous age were now defunct, giving way to new formulae. Crowley came to call this new period the *Aeon of Horus*, which was to last, by his calculation, until 4604 CE.
4. During this period of time, the matriarchy of the preceding *Aeon of Isis (Ares/Libra)* and the patriarchy of the *Aeon of Osiris (Pisces/Virgo)*—the bulk of which occurred in the Kali Yuga, though bracketed on either side by descending and ascending Dwapara Yugas—would be replaced by a period marking by the attitude of the *child*. Crowley called this force the “Crowned and Conquering Child,” in

² There are two much larger measurements of time—the *Mantavaras* and *Kalpas*—which have been spoken of elsewhere by the rishis, H. P. Blavatsky, and others. Of these, and other measurements, we will here remain silent.

its aspects as both Ra-Hoor-Khuit and Hoor-Par-Kraat. This period is marked both by wars of almost incalculable brutality as well as (just as Yukteswar says) a rejection of the old religions and a spirit of direct inquiry into the fundamental forces of nature. For Crowley, born long after the discoveries of electricity, magnetism, and gravity, the most important natural force to comprehend and master was the force of orgasm, what Wilhelm Reich would later call *orgone*.

5. By 1904, a fully new age had begun—the full ascent of the Dwapara Yuga, and the Age of Aquarius/Leo or Aeon of Horus. This period marks the full ascent of humankind out of the mental darkness of the preceding age, with predictably chaotic results as the human race rejects the ignorance of dogma and superstition and begins to learn to directly inquire into and manipulate the subtle forces of nature once again.³

6. We note that the next demarcations—the Aeon of Ma'at and the Treta Yuga—will dawn almost simultaneously, on 4064 and 4099 CE, respectively. This period is recorded as one of peace and high mental culture, in which the powers of the mind are cultivated directly.

IV. IN COMPARISON

1. *In short, the precession of the equinoxes as mapped by Crowley directly matches Yukteswar's map of the equinoxes, and is overmapped by Yukteswar's model of the Yugas.*

2. These two transmissions—*Kaivalya Darshanam* and *Liber AL vel Legis*—were given to humankind exactly ten years apart and demonstrate, at the very least, that the Masters of both the East and West are coordinated in their practical joking. More seriously, this directly infers the existence, and cross-cultural continuity, of what Karl von Eckartshausen called the *Great White Brotherhood*, what H. P. Blavatsky called the *Trans-Himalayan Brotherhood*, and what Aleister Crowley called the *A.'.A.'*—*and casts light on the nature of its Secret Chiefs.*

3. Specific dates of the Aeons and the Yugas beyond the Aeons are as follows.

B. SIR ALEISTER CROWLEY

³ We also here note that 1904 marked the initial British invasion of Tibet, beginning the process by which the theretofore-cloistered monastic country would be broken up and its previously-secret doctrines spread across the world.

Aeon of Isis. Aries/Libra. 2306-156 BCE.
Aeon of Osiris. Pisces/Virgo. 156 BCE-1904 CE.⁴
Aeon of Horus. Aquarius/Leo. 1904-4064 CE.
Aeon of Ma'at. Capricorn/Cancer. 4064-6224 CE

(These are the dates of the Aeons given by Thelemic orthodoxy. Of the premature/concurrently-running Ma'at of Frater Achad and Soror NEMA, and the further Aeons suggested by the Typhonian Order, we will here remain silent, leaving these matters to the better judgement and experimentation of each individual initiate.)

V. THE SERMON TO THE HYPOCRITES

*All terrestrial organizations identifying themselves as the A.'.A.'. are deliberate blinds and can only point the way **at best**. By their work shall ye know them. Each initiate must forge the link for themselves to that consciousness glyphed by the initials A.'.A.'. of their own effort and heart's blood, and none other's. May the blessings of the Order be upon ye all.*

VI. POSTSCRIPT

One will note with some interest the top left hand corner of *Sergeant Pepper's Lonely Hearts Club Band* by the Beatles, in whom the karma of Western Civilization reached its zenith, in which the two Adept Gentlemen in question appear side by side.

Boo from the Brotherhood.

⁴ Note that the Babalon Working of *Frater Belarion 210*, terrestrially known as Jack Parsons, backdates the Age of Babalon to the beginning of the Aeon of Osiris, for this was when Isis became glyphed as Babalon under the patriarchal rule of the Black Brotherhood.
