

Circle of Solomon

©Fernando S. Gallegos

Here is the complete Hebrew lettering for the Circle of Solomon attributed to the Lesser Key of Solomon (found within the Goetia). I found a few small mistakes in S.L. MacGregors Mathers translation so I did my best to translate to the best of my ability, double checking with outside sources.

“The circle of Salomon is to be made nine feet across, & the divine names are to be written around it, from Eheyeh to Levanah.” They are to be written within a coiled serpent. The various translations span back from poorly translated Hebrew, for example, *De Occulta Philosophia*, Book II, Ch. 13, by Agrippa (1486-1535) which Mathers used for his translations. Also, omitted from the original short prayers corresponding with some of the sacred names (see Appendix I in *The Lesser Key of Solomon: Detailing the Ceremonial Art of Commanding Spirits Both Good and Evil* by Joseph H. Peterson)

***Remember that Hebrew is written right to left! I also recommend you use Mathers illustration provided below to serve as a general guide for writing out the Magical Circle.
