

Of the Letter Qof
by Frank Salt

OF THE LETTER QOPH.

QOPH means the "Back of the Head", the subconscious mind, and looks like it, the only Letter to dip below the Great Square of the personality, other than four of the final forms. The YOD starts in the top left lesser square then sweeps round through the Throne of the YOD, the Home of the Mother and into the base of the Bride-chamber, while a slightly curved line runs down from the start of this curve, in the top left square, throne of the Son, through the Bride-chamber on into the regions below, the Universal subconsciousness.

QOPH is associated with the last of the Twelve Simple Letters, with the Sign PISCES, the Fishes, swimming about in the subconscious sea, sought by TzADDI. Also with the MOON as a symbol of the Psyche. The Sea, "MARE" or "MARY", the great Mother of Life, from which Life emerges on the Land to run its long journey back to its Source in the Father, so becoming the Son with His Bride, the Individual reflecting the ONE as God incarnate.

QOPH is associated with sleep, and this phase of initiation, the Fourth or middle Step, like the sea, is silent in many ways. PISCES contributes poetry, music, art to our blessings, the finishing touch of the cycle initiated by the fiery ARIES.

We have escaped the limitations of education, the pride of cleverness, the goal of personal excellence and thus the calamity of error, the sense of guilt or inadequacy. No longer do we travel on narrow, beaten tracks, we are free to sail the ocean, but softly, it is not yet Day, Pisces is ruled by LUNA, the Wedding is not till morning.

Astrological Pisces Path = 29
