

Of the Letter Shin  
by Frank Salt

OF THE HOLY LETTER SHIN.

SHIN - "TOOTH" is associated with the Principle of FIRE, the tripple YOD, incarnate. From "Potential Manifestation - Eternity, our Founding Letter now stands as a Trinity on Earth, the Fourth YOD. The Letter scintillates with Livingness, the joy of Being. The Scintilla scintillates, The Son is Born, the Word is made flesh.

The significance of our Great Square does not apply to SHIN, the Tripple Unity. It is signified by the solid base-line to which Three YODs are linked directly, as if three VAUs, with the feet of the two to the left a little closer together than the two on the right.

The Third Mother Letter, the mysteries of the Letter SHIN can be intuited and felt rather than profaned in words.

The numerical value is 300. As a "TOOTH" it is incisive, penetrating, consuming. "Our God is a consuming Fire". For by Fire are all things renewed.

"Duration of movement - continuity - eternity, Ever-Existence", The Ressurrection" are feeble Key-words.

SHIN is called the Holy Letter, the Sign of Consecration. Inserted in the Holy Name, IHVH it forms IShVH "Jeheshuah" the Hebrew word for "JESUS", thus does it transcend our Great Square, not in size, but in a new dimension
