

The Ring of Solomon

The Ring of Solomon
- From Soror Moonshee's ODL notes

Formula:

Take a small quantity of <u>GOLD</u>		} mix in hrs of ① + ②
2 x	<u>Silver</u>	
3 x	<u>Copper</u>	} mix at correct hours.
4 x	<u>Tin</u>	
5 x	<u>Iron</u>	
6 x	<u>Mercury</u>	
7 x	<u>Lead</u>	

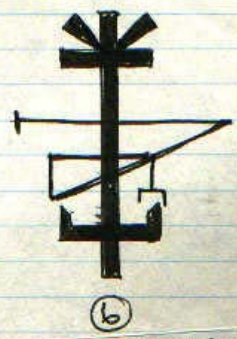

Make the whole into a ring with the circular part flattened & slightly broad, permitting characters to be engraved on it.

Make a Square setting in this ring to hold a red ROSE RED mounted in a double ring of gold. Engrave the double seal of Solomon on the stone, above & below.

Engrave the ring with the occult signs of the 7 planets as illustrated in the Magical Archduchess of Paracelsus or in Agrippa's occult philosophy; magnetize the ring strongly by consecrating it every day for a week with the ceremonies appointed in our ritual.

The ring must then be wrapped in a silk fabric & after fumigation, may be carried on your person.

A round piece of metal or a talisman prepared in the same manner would have as much virtue as the ring.

It was a gem encrusted ring, composed of 7 great metals, and bearing the signature of the 7 spirits, with a rose red lodestone having the usual seal of Solomon (a) engraved on one side & his magical seal (b) on the other side.
